Policy 0000: Vision

Status: DRAFT

Original Adopted Date: 07/01/2017

The Board of Trustees believes that a clearly stated purpose and direction for the district provide the foundation for continuous improvement and accountability. The Board shall adopt a long-range vision for district programs and activities that focuses on the achievement and well-being of all students and reflects the importance of preparing students for the future academically, professionally, and personally. The vision shall recognize the unique role of students, parents/guardians, staff, and community partners in contributing to a high-quality education for all students. The district's vision may be incorporated into its mission or purpose statement, philosophy or motto, long-term goals, short-term objectives, and comprehensive plans such as the local control and accountability plan (LCAP).

The Superintendent or designee shall recommend an appropriate process, with clearly defined procedures, timelines, and responsibilities, for establishing, reviewing, and updating the district's vision statements. This process shall include a review of relevant district documents and data including, but not limited to, information about student demographics, student achievement, current programs, and emerging educational issues. The process shall incorporate an analysis and identification of district strengths and areas in which growth is needed. Input shall be solicited from parents/guardians, students, staff, and community members through methods such as surveys, focus groups, advisory committees, and/or public meetings and forums.

The Board shall review the district's vision statements annually, in conjunction with the update to the LCAP, to ensure consistency among all documents that set direction for the district. Following these reviews, the Board may revise or reaffirm the direction it has established for the district.

The Superintendent or designee shall communicate the district's vision to staff, parents/guardians, and the community.

Board decisions regarding curriculum, policies, the budget, collective bargaining agreements, and other district operations shall be aligned with the district's vision. In addition, the Superintendent or designee shall ensure that staff's implementation of district programs and activities supports attainment of the district's vision.

The Superintendent or designee shall regularly report to the Board regarding district progress toward the vision.

Policy 0100: Philosophy

Status: DRAFT

Original Adopted Date: 11/01/1986 **| Last Revised Date:** 07/01/2017

In order to establish and support a guiding vision for the district, the Board of Trustees shall develop, articulate, and regularly review an overarching set of fundamental principles which describe the district's core beliefs, values, and tenets. The Board and district staff shall incorporate these principles into all programs, activities, and operations of the district.

It is the philosophy of the district that:

1. All students can learn and succeed.
2. Every student should have an opportunity to receive a quality education regardless of his/her social, cultural, or economic background.
3. Every student in the district has a right to be free from discrimination, harassment, intimidation, and bullying, as prohibited by law or district policy.
4. The future of our nation and community depends on students possessing the skills to be lifelong learners, collaborative and creative problem solvers, and effective, contributing members of a global and technologically advanced society.
5. Highly skilled and dedicated teachers and educational support staff have the capacity to guide students toward individual achievement and growth, and have a direct and powerful influence on student learning and life experiences.
6. A safe, nurturing environment and positive school climate are necessary for learning, academic achievement, and student development.
7. Parents/guardians have a right and an obligation to be engaged in their child's education and to be involved in the intellectual, physical, emotional, and social development and well-being of their child.
8. The needs of the whole child must be addressed, as the ability of children to learn is affected by social, health, and economic conditions and other factors outside the classroom.
9. Early identification of learning and behavioral difficulties and timely and appropriate support and intervention contribute to student success.
10. Students and staff are encouraged and motivated by high expectations and recognition for their accomplishments.
11. School improvement is a dynamic process requiring flexibility and innovation to meet the needs of students in a changing world.
12. Professional development for the Board and district staff is essential for the growth and success of the district and its students.
13. The diversity of the student body and school staff enriches the learning experience, promotes cultural awareness and acceptance, and serves as a model for citizenship in a global society.
14. A common set of norms and protocols is crucial to effective governance.
15. Communication, trust, respect, collaboration, and teamwork strengthen the relationship among Board members and between the Board and Superintendent, and contribute to the effectiveness of the governance team.
16. The community and district are inextricably connected partners, wherein the community's engagement in issues that impact the schools enhances the district's programs and student learning.

17. Two-way communication with all stakeholders is essential for establishing continuity, support, and shared goals both within the district and with the surrounding community.

18. The Board has a responsibility to advocate on behalf all students, keep current on legislative issues affecting education, and build positive relationships with local, state, and federal representatives.

19. A fiscally sound budget which is reflective of the district's vision is imperative to the financial stability of the district and to the attainment of its goals.

20. Responsibility for district programs and operations is shared by the entire educational community, with ultimate accountability resting with the Board as the basic embodiment of representative government.

Policy 0200: Goals For The School District

Status: DRAFT

Original Adopted Date: 07/01/2008 **| Last Revised Date:** 10/01/2015

As part of the Board of Trustees' responsibility to set direction for the school district, the Board shall adopt long-term goals focused on the achievement of all district students. The district's goals shall be aligned with the district's vision, mission, philosophy, and priorities.

In developing goals and identifying strategies to achieve those goals, the Board and Superintendent shall solicit input and review from key stakeholders. The Board shall also review and consider quantitative and/or qualitative data, including data disaggregated by student subgroup and school site, to ensure that district goals are aligned with student needs.

Goals shall be established for all students and each numerically significant subgroup as defined in Education Code 52052, which may include ethnic subgroups, socioeconomically disadvantaged students, English learners, students with disabilities, foster youth, and homeless students and shall address each of the state priorities identified in Education Code 52060 and any additional local priorities established by the Board. These goals shall be incorporated into the district's local control and accountability plan (LCAP). (Education Code 52060-52077)

The LCAP shall include a clear description of each goal, one or more of the state or local priorities addressed by the goal, any student subgroup(s) or school site(s) to which the goal is applicable, and expected progress toward meeting the goal for the term of the LCAP and in each year.

Each year the district's update to the LCAP shall review progress toward the goals and describe any changes to the goals. (Education Code 52060-52061)

In addition to the goals identified in the LCAP, and consistent with those goals, the district and each school site may establish goals for inclusion in another district or school plan or for any other purpose. Such goals may address the improvement of governance, leadership, fiscal integrity, facilities, community involvement and collaboration, student wellness and other conditions of children, and/or any other areas of district or school operations. As appropriate, each goal shall include benchmarks or short-term objectives that can be used to determine progress toward meeting the goal.

Policy 0400: Comprehensive Plans

Status: DRAFT

Original Adopted Date: 06/01/1985 **| Last Revised Date:** 10/01/2017

The Board of Trustees believes that careful planning is essential to effective implementation of district programs and policies. Comprehensive plans shall identify cohesive strategies for school improvement, provide stability in district operations, and be aligned to ensure consistency among district approaches for student academic growth and achievement.

Comprehensive plans adopted by the district shall include the local control and accountability plan (LCAP) and other plans required by law or determined by the Board to be in the best interest of the district. Such plans may describe anticipated short- and long-term needs, measurable outcomes, priorities, activities, available resources, timelines, staff responsibilities, and strategies for internal and external communications regarding the plan.

The process for developing comprehensive plans shall include broad participation of school and community representatives. Committees may, and when required by law shall, be appointed to assist in the development of such plans. District comprehensive plans are subject to review and approval by the Board.

School-level plans may be developed to meet the unique circumstances of individual school sites, provided that they are consistent with law, Board policies, district administrative regulations, the district vision, the LCAP, and other districtwide plans. School plans shall be subject to review and approval of the Superintendent or designee, except when law or Board policy requires Board approval of the plan.

Comprehensive plans shall be available to the public, and shall be reviewed and updated at regular intervals as specified within the plan or required by law.

District programs and activities shall be free of any discriminatory use, selection, or rejection of textbooks, instructional materials, library books, or similar educational resources.

The use of any textbook, instructional material, supplemental instructional material, or other curriculum for classroom instruction, or any book or other resource in a school library shall not be rejected or prohibited by the Board or district on the basis that it includes a study of the role and contributions of any individual or group consistent with the requirements of Education Code 51204.5 and 60040, unless such study would violate Education Code 51501 or 60044. (Education Code 243)

Additionally, the use of any textbook, instructional material, supplemental instructional material, or other curriculum for classroom instruction, or any book or other resource in a school library shall not be adopted by the Board or district if the use would subject a student to unlawful discrimination as specified in Education Code 220. (Education Code 244)

District programs and activities shall be free of any racially derogatory or discriminatory school or athletic team names, mascots, or nicknames.

The Superintendent or designee shall annually review district programs and activities to ensure the removal of any derogatory or discriminatory name, image, practice, or other barrier that may unlawfully prevent an individual or group in any of the protected categories stated above from accessing district programs and activities. The Superintendent or designee shall take prompt, reasonable actions to remove any identified barrier. The Superintendent or designee shall report the findings and recommendations to the Board after each review.

Except for allegations of sex discrimination or sex-based harassment, allegations of unlawful discrimination in district programs and activities shall be investigated and resolved in accordance with Board Policy and Administrative Regulation 1312.3 - Uniform Complaint Procedures, for students, and Administrative Regulation 4030 - Nondiscrimination in Employment, for employees. Such notification shall be included in the annual parental notification distributed pursuant to Education Code 48980 and, as applicable, in announcements, bulletins, catalogs, handbooks, application forms, or other materials distributed by the district. The

notification shall also be posted on the district's website and social media and in district schools and offices, including staff lounges, student government meeting rooms, and other prominent locations as appropriate.

In addition, the annual parental notification shall inform parents/guardians of their children's right to a free public education regardless of immigration status or religious beliefs, including information on educational rights issued by the California Attorney General. Alternatively, such information may be provided through any other cost-effective means determined by the Superintendent or designee. (Education Code 234.7)

The district's nondiscrimination policy and related informational materials shall be published in a format that parents/guardians can understand. In addition, when 15 percent or more of a school's students speak a single primary language other than English, those materials shall be translated into that other language. (Education Code 48985; 20 USC 6312)

Access for Individuals with Disabilities

District programs and facilities, viewed in their entirety, shall be in compliance with the Americans with Disabilities Act (ADA) and any implementing standards and/or regulations. When structural changes to existing district facilities are needed to provide individuals with disabilities access to programs, services, activities, or facilities, the Superintendent or designee shall develop a transition plan that sets forth the steps for completing the changes.

The Superintendent or designee shall ensure that the district's web and mobile applications comply with technical standards prescribed by law, and as necessary, shall provide appropriate auxiliary aids and services to afford individuals with disabilities equal opportunity to participate in or enjoy the benefits of district services, programs, or activities. These aids and services may include, but are not limited to, qualified interpreters or readers, assistive listening devices, assistive technologies or other modifications to increase accessibility to district and school websites, notetakers, written materials, taped text, and Braille or large-print materials. Individuals with disabilities shall notify the Superintendent or designee if they have a disability that requires special assistance or services. Reasonable notification should be given prior to a school-sponsored function, program, or meeting.

The individual identified in Administrative Regulation 1312.3 - Uniform Complaint Procedures as the employee responsible for coordinating the district's response to complaints and for complying with state federal civil rights laws is hereby designated as the district's ADA coordinator. Policy 0415: Equity

Status: DRAFT

Original Adopted Date: 07/01/2018

The Board of Trustees believes that the diversity that exists among the district's community of students, staff, parents/guardians, and community members is integral to the district's vision, mission, and goals. Addressing the needs of the most marginalized learners requires recognition of the inherent value of diversity and acknowledgement that educational excellence requires a commitment to equity in the opportunities provided to students and the resulting outcomes.

In order to eradicate institutional bias of any kind, including implicit or unintentional biases and prejudices that affect student achievement, and to eliminate disparities in educational outcomes for students from historically underserved and underrepresented populations, the district shall proactively identify class and cultural biases as well as practices, policies, and institutional barriers that negatively influence student learning, perpetuate achievement gaps, and impede equal access to opportunities for all students.

The Board shall make decisions with a deliberate awareness of impediments to learning faced by students of color and/or diverse cultural, linguistic, or socio-economic backgrounds. To ensure that equity is the intentional result of district decisions, the Board shall consider whether its decisions address the needs of students from racial, ethnic, and indigent communities and remedy the inequities that such communities experienced in the context of a history of exclusion, discrimination, and segregation. Board decisions shall not rely on biased or stereotypical assumptions about any particular group of students.

The Board and the Superintendent or designee shall develop and implement policies and strategies to promote equity in district programs and activities, through measures such as the following:

1. Routinely assessing student needs based on data disaggregated by race, ethnicity, and socio-economic and cultural backgrounds in order to enable equity-focused policy, planning, and resource development decisions

2. Analyzing expenditures and allocating financial and human resources in a manner that provides all students with equitable access to district programs, support services, and opportunities for success and promotes equity and inclusion in the district. Such resources include access to high-quality administrators, teachers, and other school personnel; funding; technology, equipment, textbooks, and other instructional materials; facilities; and community resources or partnerships.

3. Enabling and encouraging students to enroll in, participate in, and complete curricular and extracurricular courses, advanced college preparation programs, and other student activities

4. Building a positive school climate that promotes student engagement, safety, and academic and other supports for students

5. Adopting curriculum and instructional materials that accurately reflect the diversity among student groups

6. Providing and/or collaborating with local agencies and community groups to ensure the availability of necessary support services for students in need

7. Promoting the employment and retention of a diverse staff that reflects the student demographics of the community

8. Providing district staff with ongoing, researched-based, professional learning and professional development on culturally responsive instructional practices

9. Conducting program evaluations that focus on equity and address the academic outcomes and performance of all students on all indicators

The Board shall regularly monitor the intent and impact of district policies and decisions in order to safeguard against disproportionate or unintentional impact on access to district programs and achievement goals for specific student populations in need of services.

Policy 0420: School Plans/Site Councils

Status: DRAFT

Original Adopted Date: 08/01/2013 **| Last Revised Date:** 12/01/2018

The Board of Trustees believes that comprehensive planning is necessary at each school in order to focus school improvement efforts on student academic achievement and facilitate the effective use of available resources. The Superintendent or designee shall ensure that school plans provide clear direction and identify cohesive strategies aligned with school and district goals.

Each district school that participates in one or more federal and/or state categorical programs funded through the state's consolidated application process pursuant to Education Code 64000 shall establish a school site council in accordance with Education Code 65000-65001. The school site council shall develop, approve, and annually review and update a school plan for student achievement (SPSA) which consolidates the plans required for those categorical programs into a single plan, unless otherwise prohibited by law. (Education Code 64001)

The Superintendent or designee shall review each school's SPSA to ensure that it meets the content requirements for all applicable programs, is based on an analysis of current practices and student academic performance, and reasonably links improvement strategies to identified needs of the school and its students. The Superintendent or designee shall also ensure consistency between the specific actions included in the district's local control and accountability plan and the strategies identified in each school's SPSA.

The Board shall, at a regularly scheduled Board meeting, review and approve each school's SPSA whenever there are any material revisions affecting the academic programs for students participating in the categorical programs addressed in the SPSA. (Education Code 64001)

If the Board does not approve a school's SPSA, it shall communicate its specific reasons for disapproval of the plan to the school site council. The school site council shall then revise and resubmit the SPSA to the Board for its approval. (Education Code 64001)

The Superintendent or designee shall ensure that school administrators and school site council members receive training on the roles and responsibilities of the school site council.

The SPSA may serve as the school improvement plan required when a school is identified for targeted or comprehensive support pursuant to 20 USC 6303. (Education Code 64001)

Any complaint alleging noncompliance with requirements related to the establishment of school site councils or the development of the SPSA may be filed with the district in accordance with the district's uniform complaint procedures pursuant to 5 CCR 4600-4670 and BP/AR 1312.3 - Uniform Complaint Procedures. (Education Code 64001)

School site councils shall operate in accordance with procedural meeting requirements established in Education Code 35147.

School Plan for Student Achievement

The school site council shall develop and annually review and update an SPSA that addresses all federal and/or state categorical programs in which the school participates pursuant to Education Code 64000. (Education Code 64001)

The SPSA shall be developed with the review, certification, and advice of the school English learner advisory committee, if required. (Education Code 64001)

Other school and district committees, including, but not limited to, a parent advisory committee established to review and comment on the district's local control and accountability plan (LCAP), advisory committee established for special education programs, and Western Association of Schools and Colleges leadership teams, may also be consulted on the content of the plan.

Before developing the content of the SPSA, the school site council shall conduct a comprehensive needs assessment pursuant to 20 USC 6314, including an analysis of verifiable state data consistent with the state priorities specified in Education Code 52060 and the indicators in the state accountability system. The school may consider any other data developed by the district to measure student outcomes. (Education Code 64001)

The SPSA shall include all of the following: (Education Code 64001)

2. Evidence-based strategies, actions, or services - when feasible aligning these to ongoing actions from districtwide strategic plans

3. Proposed expenditures based on the projected resource allocation from the district to address the findings of the needs assessment, including identifying resource inequities, which may include a review of the district's budgeting, the LCAP, and school-level budgeting, if applicable

In addition to meeting the requirements common to all applicable school plans, the SPSA shall address any content required by law for each individual categorical program in which the school participates.

The school site council shall approve the proposed SPSA at a meeting for which public notice has been posted. Whenever there are material revisions to the SPSA which affect the academic programs for students participating in applicable programs, the SPSA shall be submitted to the Board of Trustees for review and approval at a regularly scheduled Board meeting. (Education Code 35147, 64001)

The school site council shall regularly monitor the implementation and effectiveness of the SPSA and modify any activities that prove ineffective. At least once per year, the principal or designee shall evaluate results of improvement efforts and report to the Board, school site council, and other interested parties regarding progress toward school goals.

The school site council may amend the SPSA at any time through the same process required for the annual update of the plan.

Policy 0420.4: Charter School Authorization

Status: DRAFT

Original Adopted Date: 05/01/2019 **| Last Revised Date:** 03/01/2023

The Board of Trustees recognizes that charter schools may assist the district in offering diverse learning opportunities for students. In considering any petition to establish a charter school within the district, the Board shall give thoughtful consideration to the potential of the charter school to provide students with a high-quality education that enables them to achieve to their fullest potential.

One or more persons may submit a petition to the Board for a charter school to be established within the district or for the conversion of an existing district school to a charter school. (Education Code 47605)

Any petition for a charter school shall include all components, signatures, and statements required by law, as specified in the accompanying administrative regulation. The proposed charter shall be attached to the petition. (Education Code 47605)

The Superintendent or designee shall consult with legal counsel, as appropriate, regarding compliance of the charter petition with legal requirements.

The Superintendent or designee may work with charter school petitioners prior to the formal submission of the petition in order to ensure compliance of the petition with legal requirements. As needed, the Superintendent or designee may also meet with the petitioners to establish workable plans for contracted services which the district may provide to the proposed charter school.

The Board shall not require any district student to attend the charter school nor shall it require any district employee to work at the charter school. (Education Code 47605)

Timelines for Board Action

Within 60 days of receiving a charter petition, the Board shall hold a public hearing on the charter provisions, at which time the Board shall consider the level of support for the petition by district teachers, other district employees, and parents/guardians. A petition is deemed received on the day the petitioner submits a petition to the district office, along with a signed certification that the petitioner deems the petition to be complete. (Education Code 47605)

The Board shall either grant or deny the petition at a public hearing held within 90 days of receiving the petition, or within 120 days with the consent of both the petitioner and the Board. (Education Code 47605)

At least 15 days before the public hearing at which the Board will grant or deny the charter, the district shall publish all staff recommendations regarding the petition, including any recommended findings and, if applicable, certification from the County Superintendent of Schools regarding the potential fiscal impact of the charter school on the district. During the public hearing, the petitioners shall have equal time and opportunity to present evidence and testimony in response to the staff recommendations and findings. (Education Code 47605)

The Superintendent or designee shall maintain accurate records, in relation to each charter petition, of documents submitted, the Board's proceedings, and the findings upon which the Board's decision is made.

Approval of Petition

A charter petition shall be granted only if the Board is satisfied that doing so is consistent with sound educational practice and the interests of the community in which the school is proposing to locate. In granting charters, the Board shall consider the academic needs of the students the charter school proposes to serve and shall give preference to petitions that demonstrate the capability to provide comprehensive learning experiences for students who are identified by the petitioner as academically low-achieving, based on standards established by California Department of Education (CDE). (Education Code 47605)

Prior to authorizing any charter, the Board shall verify that the charter includes adequate processes and measures for monitoring and holding the school accountable for fulfilling the terms of its charter and complying with all applicable laws, including Education Code 47604.1. Such processes and measures shall include, but are not limited to, fiscal accountability systems, multiple measures for evaluating the educational program, inspection and observations of

any part of the charter school, and regular reports to the Board.

The approval or denial of a charter petition shall not be controlled by collective bargaining agreements nor subject to review or regulation by the Public Employment Relations Board. (Education Code 47611.5)

The Board may approve one or more memoranda of understanding to clarify the financial and operational agreements between the district and the charter school. Any such memorandum of understanding shall be annually reviewed by the Board and charter school governing body and amended as necessary.

The Board may initially grant a charter for a specified term not to exceed five years. (Education Code 47607)

When a petition is approved by the Board, it shall be the responsibility of the petitioners to provide written notice of the Board's approval and a copy of the petition to the County Superintendent of Schools, CDE, and the State Board of Education (SBE). (Education Code 47605)

Denial of Petition

The Board shall summarily deny any charter petition that proposes to:

1. Operate a charter school as or by a for-profit corporation, a for-profit educational management organization, or a for-profit charter management organization (Education Code 47604)

2. Convert a private school to a charter school (Education Code 47602)

3. Serve students in a grade level that is not served by the district, unless the petition proposes to serve students in all the grade levels served by the district (Education Code 47605)

4. Offer nonclassroom-based instruction (Education Code 47612.7)

Regarding all other charter petitions, the Board shall deny a petition only if the Board makes written factual findings specific to the petition that one or more of the following conditions exist: (Education Code 47605; 5 CCR 11967.5.1)

1. The charter school presents an unsound educational program that has a likelihood of physical, educational, or psychological harm to, or which is not likely to provide an educational benefit for, the students to be enrolled in the charter school.

2. The petitioners are demonstrably unlikely to successfully implement the program set forth in the petition.

3. The petition does not contain the number of signatures required.

4. The petition does not contain a clear, unequivocal statement described in Education Code 47605(e), including that the charter school will be nonsectarian and that the school shall not charge tuition or discriminate against any student based on the characteristics specified in Education Code 220.

5. The petition does not contain reasonably comprehensive descriptions of the charter provisions in Education Code 47605(c).

6. The petition does not contain a declaration as to whether the charter school shall be deemed the exclusive public employer of the school's employees for purposes of collective bargaining pursuant to Government Code 3540-3549.3.

7. The charter school is demonstrably unlikely to serve the interests of the entire community in which the school is proposing to locate. Analysis of this finding shall include consideration of the fiscal impact of the proposed charter school. A written factual finding shall detail specific facts and circumstances that analyze and consider the following factors:

    a. The extent to which the proposed charter school would substantially undermine existing services, academic offerings, or programmatic offerings

    b. Whether the proposed charter school would duplicate a program currently offered within the district,

when the existing program has sufficient capacity for the students proposed to be served within reasonable proximity to where the charter school intends to locate

8. The district is not positioned to absorb the fiscal impact of the proposed charter school. The district meets this criterion if it has a negative interim certification, has a qualified interim certification and the County Superintendent certifies that approving the charter school would result in the district having a negative interim certification, or is under state receivership.

The Board shall not deny a petition based on the actual or potential costs of serving students with disabilities, nor shall it deny a petition solely because the charter school might enroll students with disabilities who reside outside the special education local plan area in which the district participates. (Education Code 47605.7, 47647)

Appeals

If the Board denies a petition, the petitioner may choose to submit the petition to the County Board of Education and, if then denied by the County Board, to SBE. (Education Code 47605)

At the request of the petitioner, the Board shall prepare the documentary record, including a transcript of the public hearing at which the Board denied the charter, no later than 10 business days after the petitioner makes the request. (Education Code 47605)

Within 30 days of receipt of an appeal submitted to SBE, the Board may submit a written opposition to SBE, which may include supporting documentation, detailing, with specific citations to the documentary record, how the Board did not abuse its discretion in denying the petition. (Education Code 47605)

If either the County Board or SBE remands the petition to the Board because the petition on appeal contains new or different material terms, the Board shall reconsider the petition and shall grant or deny the petition within 30 days. (Education Code 47605)

Regulation 0420.4: Charter School Authorization

Status: DRAFT

Original Adopted Date: 10/01/2015 **| Last Revised Date:** 03/01/2023

Petition Signatures

A petition for the establishment of a start-up charter school must be signed by either of the following: (Education Code 47605)

1. A number of parents/guardians equivalent to at least one-half of the number of students that the charter school estimates will enroll in the school for its first year of operation

2. A number of teachers equivalent to at least one-half of the total number of teachers that the charter school estimates will be employed at the school during its first year of operation

A petition that proposes to convert an existing public school to a charter school must be signed by at least 50 percent of the permanent status teachers currently employed at the school. (Education Code 47605)

Any petition circulated to collect signatures shall include a prominent statement explaining that a parent/guardian's signature means that the parent/guardian is meaningfully interested in having a child attend the charter school, or a teacher's signature means that the teacher is meaningfully interested in teaching at the charter school. (Education Code 47605)

Staff Advisory Committee

The Superintendent or designee may establish a staff advisory committee to evaluate the completeness of a charter petition based on the requirements in Education Code 47605 and to identify any concerns that should be addressed by the petitioners.

Components of Charter Petition

All charter petitions shall comply with the applicable requirements of Education Code 47605, other state and federal laws, and district policies.

The charter petition shall include affirmations that the charter school will be nonsectarian in its programs, admission policies, employment practices, and operations; will not charge tuition; and will not discriminate against a student on the basis of characteristics listed in Education Code 220. The petition shall also contain reasonably comprehensive descriptions of: (Education Code 47605)

1. The educational program of the proposed school, designed, among other things, to identify those whom the school is attempting to educate, what it means to be an "educated person" in the 21st century, and how learning best occurs. The goals identified in that program shall include the objective of enabling students to become self-motivated, competent, and lifelong learners.

2. The charter school's annual goals for all students and for each numerically significant subgroup of students identified pursuant to Education Code 52052, including ethnic subgroups, socioeconomically disadvantaged students, English learners, students with disabilities, foster youth, and homeless students. These goals shall be aligned with the state priorities listed in Education Code 52060 that apply to the grade levels served. The petition also shall describe specific annual actions to achieve those goals. The petition may identify additional priorities established for the proposed school, goals aligned with those priorities, and specific annual actions to achieve those goals.

   If the proposed charter school will serve high school students, the petition shall describe the manner in which the school will inform parents/guardians about the transferability of courses to other public high schools and the eligibility of courses to meet college entrance requirements. Courses offered by the charter school that are accredited by the Western Association of Schools and Colleges may be considered transferable, and courses approved by the University of California or the California State University as creditable under the "A-G" admissions criteria may be considered to meet college entrance requirements.

3. The measurable student outcomes identified for use by the charter school.

Student outcomes means the extent to which all students of the school demonstrate that they have attained the skills, knowledge, and attitudes specified as goals in the school's educational program, including outcomes that address increases in student academic achievement both schoolwide and for each numerically significant subgroup of students served by the charter school. The student outcomes shall align with the state priorities identified in Education Code 52060 that apply for the grade levels served by the charter school.

4. The method by which student progress in meeting the identified student outcomes is to be measured. To the extent practicable, the method for measuring student outcomes for state priorities shall be consistent with the way information is reported on a school accountability report card.

5. The governance structure of the charter school, including, but not limited to, the process to be followed by the school to ensure parent/guardian involvement.

6. The qualifications to be met by individuals to be employed by the charter school.

7. The procedures that the charter school will follow to ensure the health and safety of students and staff, including the following requirements:

    a. Each charter school employee shall furnish the school with a criminal record summary as described in Education Code 44237.

    c. The charter school's safety plan shall be reviewed and updated by March 1 each year.

8. The means by which the charter school will achieve a balance of racial and ethnic students, special education students, and English learner students, including redesignated fluent English proficient students, that is reflective of the general population residing within the district's territorial jurisdiction.

9. The charter school's student admission policy. The petition shall, in accordance with Education Code 47605(e), specify procedures for determining enrollment when the number of applicants exceeds the school's capacity, including requirements for the use of a public random drawing, admission preferences, and priority order of preferences as required by law and subject to Board of Trustees approval.

10. The manner in which annual, independent financial audits shall be conducted, which shall employ generally accepted accounting principles, and the manner in which audit exceptions and deficiencies shall be resolved to the Board's satisfaction.

11. The procedures by which students can be suspended or expelled for disciplinary reasons or otherwise involuntarily removed for any reason, including an explanation of how the charter school will comply with federal and state constitutional procedural and substantive due process requirements as specified in Education Code 47605.

    Such procedures shall contain a clear statement that no student shall be involuntarily removed by the charter school for any reason unless written notice of the intent to remove the student is given to the student's parent/guardian at least five schooldays before the effective date of the removal. In the case of a homeless student or foster youth, the notice shall be given to the student's educational rights holder. Additionally, a foster youth's attorney and county social worker, and an Indian child's tribal social worker, and if applicable, the county social worker, shall be given such notice.

    The notice shall inform the student, the student's parent/guardian, and any other specified individual, as applicable, of the right to initiate a hearing as described in Education Code 47605, before the effective date of the removal. The notice shall be provided in the student's parent/guardian's, or other applicable person's language, and, if such a hearing is initiated, shall include the student's right to remain enrolled in the charter school until a final decision is made by the charter school.

    In addition, the procedures shall contain a statement pertaining to the provision of homework assignments to suspended students as specified in Education Code 47606.2.

    Such procedures shall also include processes by which the charter school will notify the Superintendent of the

district of the student's last known address and, upon request, provide the student's cumulative record to the district, when a student is expelled or leaves the charter school without graduating or completing the school year for any reason. In addition, the procedures shall describe the means by which the district can contact the charter school if the student is subsequently expelled or leaves the school district without graduating or completing the school year for any reason.

Involuntarily removed means disenrolled, dismissed, transferred, or terminated, but does not include suspensions. (Education Code 47605)

12. The manner by which staff members of the charter school will be covered by the State Teachers' Retirement System, the Public Employees' Retirement System, or federal social security.

13. The public school attendance alternatives for students residing within the district who choose to not attend the charter school.

16. A declaration as to whether the charter school will be deemed the exclusive public school employer of the school's employees for purposes of collective bargaining under Government Code 3540-3549.3.

17. Consistent with 5 CCR 11962, the procedures to be used if the charter school closes, including, but not limited to:

    a. Designation of a responsible entity to conduct closure-related activities

    b. Notification to parents/guardians, the Board, the county office of education, the special education local plan area in which the charter school participates, the retirement systems in which the school's employees participate, and the California Department of Education, providing at least the following information:

        i. The effective date of the closure

        ii. The name(s) and contact information of the person(s) to whom reasonable inquiries may be made regarding the closure

        iii. The students' districts of residence

        iv. The manner in which parents/guardians may obtain copies of student records, including specific information on completed courses and credits that meet graduation requirements

    c. Provision of a list of students at each grade level, the classes they have completed, and their districts of residence to the responsible entity designated in accordance with Item #17a above

    d. Transfer and maintenance of all student records, all state assessment results, and any special education records to the custody of the responsible entity designated in accordance with Item #17a above, except for records and/or assessment results that the charter may require to be transferred to a different entity

    e. Transfer and maintenance of personnel records in accordance with applicable law

    f. Policy 0420.41: Charter School Oversight

Status: DRAFT

Original Adopted Date: 10/01/2013 **| Last Revised Date:** 06/01/2024

The Board of Trustees recognizes its ongoing responsibility to oversee that any charter school authorized by the Board is successfully fulfilling the terms of its charter.

The Superintendent or designee shall identify at least one staff member to serve as a contact person for each charter school authorized by the Board. (Education Code 47604.32)

The Superintendent or designee shall visit each charter school at least annually and may inspect or observe any part of a charter school at any time. (Education Code 47604.32, 47607)

The Superintendent may designate someone to attend meetings of the charter school governing body whenever possible.

Monitoring Charter School Performance

Any charter school authorized by the Board shall be monitored by the Superintendent or designee to determine whether the charter school complies with all legal requirements applicable to charter schools, including all reports required of charter schools by law, as specified in Education Code 47604.32. Any violations of law shall be reported to the Board.

The Board shall monitor each charter school to determine whether it is achieving the measurable student outcomes set forth in the charter, both schoolwide and for each numerically significant student subgroup served by the school as defined in Education Code 52052. This determination shall be based on the measures specified in the approved charter and any applicable MOU, and on the charter school's annual review and assessment of its progress toward the goals and actions identified in its local control and accountability plan (LCAP), as reported in the California School Dashboard.

The Board shall monitor the fiscal condition of the charter school based on any financial report or information obtained from the charter school, including, but not limited to, the charter school's preliminary budget, LCAP and annual update of the charter school's LCAP, first and second interim financial reports, and final unaudited report for the full prior year. (Education Code 47604.32, 47604.33, 47606.5)

Waivers

If the charter school wishes to request a general waiver of any state law or regulation applicable to it, it shall request that the Board approve and the district submit a general waiver request to the State Board of Education (SBE) on its behalf. Upon approval of the Board, the Superintendent or designee shall submit such a waiver request to SBE on behalf of the charter school.

Provision of District Services

Upon approval by the Board of an appropriate agreement, the charter school may contract with the district or any other source for administrative or other services. (Education Code 47613)

Whenever the district agrees to provide administrative or support services to a charter school, the district and the charter school shall develop a memorandum of understanding (MOU) which clarifies the financial and operational agreements between them.

At the request of a charter school, the Superintendent or designee shall create and submit any reports required by the State Teachers' Retirement System or Public Employees' Retirement System on behalf of the charter school. The district may charge the charter school for the actual costs of the reporting services, but shall not require the charter school to purchase payroll processing services from the district as a condition for creating and submitting these reports. (Education Code 47611.3)

Material Revisions to Charter

Material revisions to a charter may only be made with Board approval. Material revisions shall be governed by the

same standards and criteria that apply to petitions for the authorization of charter schools as set forth in Education Code 47605 and shall include, but not be limited to, a reasonably comprehensive description of any new requirement for charter schools enacted into law after the charter was originally granted or last renewed. (Education Code 47607)

The Board shall determine whether a proposed change in charter school operations would constitute a material revision of the approved charter.

If an approved charter school proposes to expand operations to one or more additional sites or grade levels, whether concurrently with or unrelated to a renewal, the charter school shall request a material revision to its charter and shall notify the Board of those additional locations or grade levels. The Board shall consider approval of the additional locations or grade levels at an open, public meeting. (Education Code 47605, 47607)

The Board may deny a proposed material revision if it finds that the proposed material revision would render the charter school demonstrably unlikely to serve the interests of the entire community in which the school is located or proposes to locate. In making this finding, the Board shall consider all of the following: (Education Code 47605)

1. The fiscal impact of the proposed expansion on the district

2. The extent to which the expansion would substantially undermine existing services, academic offerings, or programmatic offerings

3. Whether the expansion would duplicate a program currently offered within the district that has sufficient capacity for the students proposed to be served within reasonable proximity to where the charter school intends to locate

Additionally, the Board may deny a proposed material revision if it finds that the district is not positioned to absorb the fiscal impact of the proposed material revision. The Board shall make this finding if the district has a qualified interim certification pursuant to Education Code 42131 and the County Superintendent of Schools, in consultation with the County Office Fiscal Crisis and Management Assistance Team, certifies that approving the charter school would result in the district having a negative interim certification pursuant to Education Code 42131, the district has a negative interim certification pursuant to Education Code 42131, or the district is under state receivership. (Education Code 47605)

Location of Charter Schools

Except when permitted to operate outside district boundaries pursuant to Education Code 47605 and 47605.1, a charter school shall be located within district boundaries.

Fees/Charges for Supervisorial Oversight

The district may charge for district supervisorial oversight as follows: (Education Code 47613; 5 CCR 11969.7)

1. Actual costs up to one percent of the charter school's revenue

2. Actual costs up to three percent of the charter school's revenue if the district provides the charter school substantially rent-free facilities

   If the district provides the charter school with facilities under Education Code 47614 and charges the charter school a pro-rata share of the facilities costs calculated pursuant to 5 CCR 11969.7, the district may only charge the charter school for the actual costs of supervisorial oversight up to one percent of the charter school's revenue.

3. Actual costs if the district is assigned supervisorial oversight responsibility for the charter school by SBE when authorized on appeal

Technical Assistance/Intervention

Whenever a charter school is identified for technical assistance based on the performance of one or more numerically significant student subgroups on SBE-established criteria, the charter school shall receive technical assistance from the County Superintendent. Such technical assistance shall be focused on building the charter

school's capacity to develop and implement actions and services responsive to student and community needs, including, but not limited to, any of the following: (Education Code 47607.3)

1. Assisting the charter school to identify its strengths and weaknesses in regard to the state priorities applicable to the charter school pursuant to Education Code 47605(c)

   This shall include working collaboratively with the charter school to review performance data on the state and local indicators included in the California School Dashboard and other relevant local data and to identify effective, evidence-based programs or practices that address any areas of weakness.

2. Working collaboratively with the charter school to secure assistance from an academic, programmatic, or fiscal expert or team of experts to identify and implement effective programs and practices that are designed to improve performance in any areas of weakness identified by the charter school

   Another service provider, including, but not limited to, a school district, county office of education, or charter school, may be solicited to act as a partner to the charter school in need of technical assistance.

3. Obtaining from the charter school timely documentation demonstrating that it has completed the activities described in Items #1 and 2 or substantially similar activities, or has selected another service provider to work with the charter school to complete the activities described in Items #1 and 2 or substantially similar activities, and ongoing communication with the Board to assess the charter school's progress in improving student outcomes

In addition, if, in three out of four consecutive school years, a charter school fails to improve outcomes for three or more numerically significant student subgroups, or for all of the student subgroups if the school has fewer than three subgroups, in regard to one or more state or school priorities identified in the charter, the County Superintendent may request that the Superintendent of Public Instruction (SPI), with SBE approval, assign the California Collaborative for Educational Excellence to provide advice and assistance to the charter school pursuant to Education Code 52074. (Education Code 47607.3; 52072)

In accordance with law, the Board may deny a charter school's renewal petition or may revoke a charter based on the charter school's poor performance, especially with regard to inadequate academic achievement of all numerically significant subgroups of students served by the charter school. (Education Code 47607, 47607.2)

Complaints

Each charter school shall establish and maintain policies and procedures in accordance with the uniform complaint procedures as specified in 5 CCR 4600-4670 to enable any person alleging the school's noncompliance with Education Code 47606.5 or 47607.3 to file a complaint with the charter school. (Education Code 52075)

A complaint may be filed anonymously if the complaint provides evidence or information leading to evidence to support an allegation of noncompliance. A complainant who is not satisfied with the decision may appeal the decision to the SPI. (Education Code 52075)

If the charter school finds merit in the complaint or the SPI finds merit in an appeal, a remedy shall be provided to all affected students and parents/guardians. (Education Code 52075)

School Closure

In the event that the Board revokes or denies renewal of a charter or the charter school ceases operation for any reason, the Superintendent or designee shall, when applicable in accordance with the charter school and/or an applicable agreement between the district and the charter school, provide assistance to facilitate the transfer of the charter school's former students and to finalize financial reporting and close-out of the charter school.

The Superintendent or designee shall provide notification to the California Department of Education, within 10 calendar days of the Board's action, if renewal of a charter is denied, a charter is revoked, or a charter school will cease operation for any reason. Such notification shall include, but not be limited to, a description of the circumstances of the closure, the effective date of the closure, and the location of student and personnel records. (Education Code 47604.32; 5 CCR 11962.1)

Policy 0420.42: Charter School Renewal

Status: DRAFT

Original Adopted Date: 03/01/2012 | **Last Revised Date:** 12/01/2021 | **Last Reviewed Date:** 12/01/2021

The Board of Trustees believes that the ongoing operation of a charter school should be dependent on the school's effectiveness in achieving its mission and goals for student learning and other student outcomes. Whenever a charter school submits a petition for renewal of its charter, the Board shall review the petition thoroughly and in a timely manner, consistent with the timelines set out in the Education Code. The Board shall consider renewal petitions only of charters originally authorized by the Board itself or by the State Board of Education (SBE) on appeal after initial denial by the Board.

The Board shall deny the renewal petition of any charter school operated as or by a for-profit corporation, a for-profit educational management organization, or a for-profit charter management organization. (Education Code 47604)

When a charter school, concurrently with its renewal petition, proposes to expand operations to one or more additional sites or grade levels, the charter school shall request a material revision to its charter. The material revision may be made only with the approval of the Board and in accordance with the standards and criteria in Education Code 47605 for material revisions. (Education Code 47607)

The Board recommends that a charter school submit its petition for renewal to the Board sufficiently early before the expiration of the term of the charter to allow the Board's deliberations and decision on the renewal petition to be completed with minimal disruption to the charter school's educational program in the renewal year.

The petition for renewal shall include a reasonably comprehensive description of how the charter school has met all new charter school requirements enacted into law after the charter was originally granted or last renewed. (Education Code 47607; 5 CCR 11966.4)

Criteria for Granting or Denying Renewal

Renewals shall be governed by the same standards and criteria that apply to new charter petitions as set forth in Education Code 47605. However, a charter renewal shall not be denied based on the fiscal impact of the charter school on the district or a finding that the charter school is demonstrably unlikely to serve the interests of the entire community in which the school is located, as described in Education Code 47605. (Education Code 47607)

The signature requirement for charter authorization petitions is not applicable to petitions for renewal. (Education Code 47607; 5 CCR 11966.4)

In determining whether to grant a charter renewal, the Board shall review both schoolwide performance and the performance of numerically significant student subgroups on the state and local indicators included in the California School Dashboard, giving greater weight to performance on measurements of academic performance. If the Dashboard indicators are not yet available for the most recently completed academic year before renewal, the Board shall consider verifiable data provided by the charter school related to the Dashboard indicators, such as data from the California Assessment of Student Performance and Progress, or any successor system, for the most recent academic year. The Board shall only consider data from sources adopted by SBE. (Education Code 47607, 47607.2)

Following the Board's review, a renewal of the charter petition may be granted in accordance with a two-tiered system based on school performance, as follows:

1. Renewal of Five Years

    a. A renewal shall be granted for five years if clear and convincing evidence, demonstrated by verified data, shows either of the following: (Education Code 47607.2)

        i. Measurable increases in academic achievement, as defined by at least one year's progress for each year in school

        ii. Strong postsecondary outcomes, as defined by college enrollment, persistence, and completion rates equal to similar peers

b. For any such charter school, the Board may deny the renewal petition only upon making written factual findings that the charter school failed to meet or make sufficient progress toward meeting standards that provide a benefit to students at the school, that the closure of the charter school is in the best interest of students, and that the Board's decision provided greater weight to performance on measurements of academic performance. (Education Code 47607.2)

2. Denial/Two-Year Renewal

   a. The Board shall generally not renew a charter if, for two consecutive years immediately preceding the renewal decision, or for two of the most recent years for which state data is available immediately preceding the renewal if the two consecutive years immediately preceding the renewal decision include the 2019-20 or 2020-21 school year, either of the following applies: (Education Code 47607.2)

      i. The charter school has received the two lowest performance levels schoolwide on all the state indicators included in the Dashboard for which it receives performance levels, provided the charter school has schoolwide performance levels on at least two measurements of academic performance per year in each of the two years

      ii. For all measurements of academic performance, the charter school has received performance levels schoolwide that are the same or lower than the state average and, for a majority of numerically significant student subgroups performing statewide below the state average in each respective year, received performance levels that are lower than the state average, provided that the charter school has performance levels on at least two measurements of academic performance for at least two subgroups

   b. However, the Board may grant a two-year renewal to any such charter school if the Board makes written factual findings, setting forth specific facts to support the findings, that: (Education Code 47607.2)

      i. The charter school is taking meaningful steps to address the underlying cause(s) of low performance, and those steps are reflected, or will be reflected, in a written plan adopted by the governing body of the charter school.

      ii. There is clear and convincing evidence, demonstrated by verified data, showing achievement of the criteria specified in item #2a above

In addition to all the grounds stated above for denial of a charter renewal, the Board may deny renewal of a charter upon a finding that the school is demonstrably unlikely to successfully implement the program set forth in the petition due to substantial fiscal or governance factors or a finding that the school is not serving all students who wish to attend. When denying a charter renewal for either of these reasons, the Board shall provide the charter school at least 30 days' notice of the alleged violation and a reasonable opportunity to cure the violation, including the submission of a proposed corrective action plan. The Board may deny the renewal for these reasons only upon a finding that either the corrective action proposed by the charter school has been unsuccessful or that the violations are sufficiently severe and pervasive as to render a corrective action plan unviable. Any finding that a school is not serving all students who wish to attend shall specifically identify the evidence supporting the finding. (Education Code 47607)

A charter school that qualifies for the state's Dashboard Alternative School Status shall not be subject to any of the above criteria. Instead, in determining whether to grant a charter renewal for such a charter school, the Board shall consider, in addition to the charter school's performance on the state and local indicators included in the Dashboard, the charter school's performance on alternative metrics applicable to the charter school based on the student population served. The Board shall meet with the charter school during the first year of the charter school's term to mutually agree to discuss alternative metrics to be considered and shall notify the charter school of the alternative metrics to be used within 30 days of this meeting. The Board may deny a charter renewal only upon making written findings, setting forth specific facts to support the findings, that the closure of the charter school is in the best interest of students. (Education Code 47607)

Timelines for Board Action

Within 60 days of receiving the renewal petition, the Board shall hold a public hearing to review documentation submitted by the charter school, determine the level of support for the petition, and obtain public input. A petition is

deemed received on the day the petitioner submits a petition to the district office, along with a signed certification that the petitioner deems the petition to be complete. (Education Code 47605)

The Board shall either grant or deny the charter renewal within 90 days of receiving the petition. The date may be extended by an additional 30 days if both the petitioner and the Board agree to the extension. (Education Code 47605)

At least 15 days before the public hearing at which the Board will grant or deny the charter petition, the Board shall publish all staff recommendations and recommended findings regarding the petition. During the public hearing, petitioners shall have equal time and opportunity to present evidence and testimony to respond to the staff recommendations and findings. (Education Code 47605)

If the Board fails to make a written factual finding when required for denial of the petition pursuant to the section "Criteria for Granting or Denying Renewal" above within the required time period, the absence of a written factual finding shall be deemed an approval of the renewal petition.

The Superintendent or designee shall provide notification to the California Department of Education, within 10 calendar days of the Board's action, whenever a renewal of the charter is granted or denied. (Education Code 47604.32; 5 CCR 11962.1)

If the Board denies a renewal petition, the charter school may submit its application for renewal to the County Board of Education within 30 days of the Board's written factual findings supporting the denial. (Education Code 47605, 47607.5)

School Closure

If a charter is not renewed and the charter school ceases operation, the school closure procedures specified in the charter in accordance with Education Code 47605 and 5 CCR 11962 shall be implemented. (Education Code 47604.32, 47605)

Policy 0420.43: Charter School Revocation

Status: DRAFT

Original Adopted Date: 03/01/2012 | **Last Revised Date:** 03/01/2020

The Board of Trustees expects any charter school it authorizes to provide a sound educational program that promotes student learning and to carry out its operations in a manner that complies with law and the terms of its charter. The Board may revoke a charter in accordance with law.

When the Board determines, in writing, that any violation under Education Code 47607 constitutes a severe and imminent threat to the health or safety of students, the Board may immediately revoke the school's charter. When such a determination is made, the Board shall approve and deliver to the charter school's governing body, the County Board of Education, and the California Department of Education (CDE) a Notice of Revocation by Determination of a Severe and Imminent Threat to Pupil Health or Safety. (Education Code 47607; 5 CCR 11968.5.3)

In all other circumstances, the Board may revoke a charter after providing due process and using the procedures described below. The Board may revoke a charter if it makes a written factual finding specific to that charter school and supported by substantial evidence that the charter school has done any of the following: (Education Code 47607)

1. Committed a material violation of any of the conditions, standards, or procedures set forth in the charter
2. Failed to meet or pursue any of the student outcomes identified in the charter
3. Failed to meet generally accepted accounting principles or engaged in fiscal mismanagement
4. Violated any law

The Board shall also consider revoking the charter of any charter school for which the California Collaborative for Educational Excellence (CCEE) has provided advice and assistance pursuant to Education Code 47607.3 if CCEE has issued either of the following findings: (Education Code 47607.3)

1. That the charter school has failed or is unable to implement the recommendations of the CCEE
2. That the inadequate performance of the charter school, as based on the California School Dashboard, is so persistent or acute as to require revocation of the charter

In determining whether to revoke a charter, the Board shall consider increases in student academic achievement for all numerically significant groups of students served by the charter school, as defined in Education Code 52052. (Education Code 47607, 47607.3)

Revocation Procedures

If the Board is considering a revocation of a charter school, it shall take action to approve and deliver a Notice of Violation to the charter school's governing body. The Notice of Violation shall identify: (Education Code 47607; 5 CCR 11965, 11968.5.2)

1. The charter school's alleged violation(s).
2. All evidence relied upon by the Board in determining that the charter school committed the alleged violation(s), including the date and duration of the alleged violation(s). The Notice shall show that each alleged violation is both material and uncured and that it occurred within a reasonable period of time before the Notice of Violation is issued.
3. The period of time that the Board has concluded is a reasonable period of time for the charter school to remedy or refute the identified violation(s). In identifying this time period, the Board shall consider the amount of time reasonably necessary to remedy each identified violation, which may include the charter school's estimation as to the anticipated remediation time.

At least 72 hours prior to any meeting at which the Board will consider issuing a Notice of Violation, the Board shall provide the charter school with notice and all relevant documents related to the proposed action. (5 CCR 11968.5.2)

By the end of the remedy period identified in the Notice of Violation, the charter school's governing body may submit to the Board a detailed written response and supporting evidence addressing each identified violation, including, as applicable, a refutation, remedial action taken, or proposed remedial action. (5 CCR 11968.5.2)

At the conclusion of the remedy period specified in the Notice of Violation, the Board shall evaluate any response and supporting evidence provided by the charter school's governing body and shall take one of the following actions: (5 CCR 11968.5.2)

1. Discontinue revocation of the charter and provide timely written notice of such action to the charter school's governing body

2. Continue revocation of the charter, by issuing a Notice of Intent to Revoke to the charter school's governing body within 60 calendar days of the conclusion of the remedy period, if there is substantial evidence that the charter school has failed to remedy a violation identified in the Notice of Violation or to refute a violation to the Board's satisfaction. All evidence relied upon by the Board for the decision shall be included in the Notice of Intent to Revoke.

If the Board issues a Notice of Intent to Revoke, it shall hold a public hearing concerning the revocation on the date specified in the notice, which shall be no later than 30 days after providing the notice. Within 30 calendar days after the public hearing, or within 60 calendar days if extended by written mutual agreement of the Board and the charter school, the Board shall issue a final decision on the revocation of the charter. (Education Code 47607; 5 CCR 11968.5.2)

If the Board fails to meet the timelines specified above for issuing a Notice of Intent to Revoke or a final decision, the revocation process shall be deemed terminated. (5 CCR 11968.5.2)

Within 10 calendar days of the Board's final decision, the Superintendent or designee shall provide a copy of the final decision to CDE and the County Board. (Education Code 47604.32; 5 CCR 11968.5.2)

Appeals

If the Board revokes a charter, the charter school may, within 30 days of the Board's final decision, appeal the revocation to the County Board. The County Board's decision may subsequently be appealed to the State Board of Education by either the charter school or the district. However, a revocation based upon the findings of CCEE pursuant to Education Code 47607.3 may not be appealed. (Education Code 47607, 47607.3; 5 CCR 11968.5.3-11968.5.5)

School Closure

If a charter school ceases operation due to revocation, the Board and/or the charter school shall implement the school closure procedures specified in the charter in accordance with Education Code 47605 and 5 CCR 11962. (Education Code 47603.32)

Original Adopted Date: 10/01/2017 **| Last Revised Date:** 12/01/2024

The Board of Trustees desires to ensure the most effective use of available funding to improve outcomes for all students. A comprehensive, data-driven planning process shall be used to identify annual goals and specific actions which are aligned with the district budget and facilitate continuous improvement of district practices.

The Board shall adopt a districtwide local control and accountability plan (LCAP) and an annual update to the LCAP, based on the most up-to-date template adopted by the State Board of Education (SBE), that addresses the state priorities in Education Code 52060 and any local priorities adopted by the Board. The LCAP and the annual update shall be adopted or updated, as required, on or before July 1 of each year. (Education Code 52060, 52064; 5 CCR 15494-15497)

The LCAP and the annual update shall focus on improving outcomes for all students, particularly those who are "unduplicated students" or are part of any numerically significant student subgroup that is at risk of or is underperforming. (Education Code 52060, 52064)

An "unduplicated student" is a student who is eligible for free or reduced-price meals, who is an English learner, or who is a foster youth, as defined in Education Code 42238.01. (Education Code 42238.02)

Numerically significant student subgroups include ethnic subgroups, socioeconomically disadvantaged students, English learners, long-term English learners, students with disabilities, foster youth, and students experiencing homelessness, when there are at least 30 students in the subgroup or at least 15 foster youth, students experiencing homelessness, or long-term English learners. (Education Code 52052)

The LCAP shall also include focused goals, as specified in Education Code 52064, for each school generating local control funding formula (LCFF) equity multiplier funds.

Beginning July 1, 2027, if the district is identified by the California Department of Education (CDE) as needing an improvement plan pursuant to 34 CFR 300.600-300.647, the Board shall adopt, and update on an annual basis, an Individual with Disabilities Education Act (IDEA) Addendum, based on the template adopted by SBE. However, if the district adopts an improvement plan after being identified, but before July 1, 2027, the IDEA Addendum shall be developed upon expiration of the adopted improvement plan, but no later than July 1, 2030, whichever occurs first. The IDEA Addendum shall be developed, reviewed, and approved in conjunction with and in the same manner as the LCAP and the annual update, and shall be submitted to CDE within 15 days of adoption by the Board. (Education Code 52064.3)

The Superintendent or designee shall review the school plan for student achievement (SPSA) submitted by each district school pursuant to Education Code 64001 to ensure that the specific actions included in the LCAP are consistent with strategies included in the SPSA. (Education Code 52062)

The LCAP shall also be aligned with other district and school plans, to the extent possible, in order to minimize duplication of effort and provide clear direction for program implementation.

As part of the adoption of the LCAP and the annual update, the Board shall separately adopt a LCFF budget overview for parents/guardians, based on the template developed by SBE, which includes specified information relating to the district's budget. The budget overview shall be adopted, reviewed, and approved in the same manner as the LCAP and the annual update. (Education Code 52064.1)

Unless a student advisory committee is established to provide advice to the Board and Superintendent, two students shall be included as full members of the parent advisory committee. The students shall serve for a renewable term of one full school year. (Education Code 52063)

Student members of the parent advisory committee or the student advisory committee shall represent the diversity of the district's students, including geographical, socioeconomic, cultural, physical, and educational diversity, and particular effort shall be made to reach out to at-risk or disadvantaged students to serve as members of such committees. If the County Superintendent then submits recommendations for amendments within 15 days of receiving the Board's response, the Board shall consider those recommendations in a public meeting within 15 days of receiving the recommendations. (Education Code 52070)

If the County Superintendent does not approve the district's LCAP and the annual update, the Board shall accept technical assistance from the County Superintendent focused on revising the LCAP and the annual update so that they can be approved. (Education Code 52071)

If the Board is unable to review local indicator data due to any emergency specified in Education Code 46392, the local indicator data shall be reviewed at the next Board meeting, and a resolution describing the emergency event and the date on which the local indicator data was reviewed shall be adopted and submitted to CDE. (Education Code 52064.5)

School Plan

Upon receiving notification from CDE that a district school has been identified as eligible for CSI, TSI, or ATSI, the district shall, in partnership with principals, other school leaders, teachers, and parents/guardians, develop and implement a plan to improve student outcomes at the school. The plan shall: (20 USC 6311)

The school improvement plan shall be submitted to the Board for approval. (20 USC 6311)

If any district school is identified for CSI, the district's local control and accountability plan shall include descriptions of how the district provides support to CSI school(s) in developing the CSI plan and how the district will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Monitoring and Intervention

The Board and the Superintendent or designee shall regularly review the performance of each school identified for CSI, TSI, or ATSI.

After two years of implementing the school plan, if any such school has been unsuccessful in improving student outcomes to a level that exceeds initial eligibility criteria, the district shall identify the problem and take additional action as necessary.

If a school identified for CSI fails to improve student outcomes within four years to a level that exceeds the CSI eligibility criteria, it shall be subject to more rigorous interventions that include, but are not limited to, partnering with an external entity, agency, or individual with demonstrated expertise and capacity to:

1. Conduct a new needs assessment that focuses on systemic factors and conduct a root cause analysis that identifies gaps between current conditions and desired conditions in student performance and progress

The Board encourages parents/guardians and other members of the community to share their time, knowledge, and abilities with students.

The Superintendent or designee shall develop and implement a plan for recruiting, screening, and placing volunteers, including strategies for reaching underrepresented groups of parents/guardians and community members. (Penal Code 627.4)

When a visitor fails to register, or when the principal or designee denies or revokes a visitor's registration privileges, the principal or designee shall request that the individual promptly leave school grounds. The Board desires to work cooperatively with the educational foundation in determining the purposes for which funds may be used to meet the changing needs of the district and its students. The Board recognizes that an educational foundation is a separate legal entity, independent of the district. However, the foundation is encouraged to provide regular reports to the Board on the status of its work and to communicate ways that the district can help support the foundation's activities.

With the consent of the Superintendent or designee, the educational foundation, as appropriate, may use the district's name, a school's name, a school team's name, or any logo attributable to a school or the district.

Student records or other personally identifiable student information shall not be released except with parental consent or as required by law or district policy. Student directory information may be released when appropriate.

The Board of Trustees recognizes its accountability to the public for the quality of the district's educational program and the performance of district employees. The district shall provide a process by which a complaint submitted by any person regarding an employee can be resolved impartially, expeditiously, and with minimal disruption to district operations and the educational program.

When a concern regarding an employee is presented during a Board meeting or to an individual Board member or employee outside of a Board meeting, the complainant shall be informed of the appropriate complaint procedure.

Any complaint regarding the Superintendent shall be initially filed in writing with the Board. The Board shall consult with legal counsel or appoint an appropriate agent to conduct the investigation.

The Superintendent or designee shall determine whether a complaint against any other employee should be considered a complaint against the district and/or an individual employee, and whether it should be resolved by the district's process for complaints concerning personnel and/or other district procedures. Any complaint of child abuse or neglect alleged against a district employee shall be reported to the appropriate local agencies in accordance with law and BP 5141.4 - Child Abuse Prevention and Reporting. Any complaint alleging that an employee engaged in unlawful discrimination (such as discriminatory harassment, intimidation, or bullying) in district programs and activities shall be filed in accordance with BP/AR 1312.3 - Uniform Complaint Procedures. The complainant and the employee shall have an opportunity to present information relevant to the complaint.

A complaint that is filed anonymously may be investigated by the Superintendent or designee depending on the specificity and reliability of the information.

If a complainant requests confidentiality, the Superintendent or designee shall inform the complainant that the request may limit the district's ability to investigate the employee's conduct or take other necessary action. However, the Superintendent or designee shall take all reasonable steps to investigate and resolve the complaint without divulging the complainant's identity.

The Board prohibits retaliation against complainants.

Appeals

If either the complainant or the employee submits an appeal of the Superintendent's decision to the Board, the Board shall determine whether to uphold the Superintendent's decision without hearing the complaint, appoint an appeals committee to advise the Board, or hear the appeal itself.

If the Board decides to hear the complaint, the matter shall be addressed in closed session in accordance with Government Code 54957 unless the employee requests that it be heard in open session. The Board shall review the original complaint and additional information provided by the Superintendent or designee regarding the steps taken to resolve the issue.

The Board's decision shall be final.

If a complainant is unable or unwilling to resolve the complaint directly with the employee, the complainant may submit a written complaint to the principal or other immediate supervisor of the employee. Complaints related to a principal or district administrator shall be initially filed in writing with the Superintendent or designee. If the complainant is unable to prepare the complaint in writing, administrative staff shall provide assistance in the preparation of the complaint.

Policy 1312.2: Complaints Concerning Instructional Materials

Status: DRAFT

Original Adopted Date: 09/01/1988 **| Last Revised Date:** 03/01/2025

The Board of Trustees uses a comprehensive process to adopt district instructional materials that is based on selection criteria established by law and Board policy and includes opportunities for the involvement of district staff, parents/guardians, and community members, and, as appropriate, students. Complaints concerning the content or use of instructional materials, including textbooks, supplementary instructional materials, library materials, or other instructional materials and equipment, shall be properly and fairly considered using established complaint procedures.

Parents/guardians are encouraged to discuss any concerns regarding instructional materials with their student's teacher and/or the school principal. If the situation remains unresolved, a complaint may be filed using the process specified in the accompanying administrative regulation and exhibit.

The district shall accept complaints concerning instructional materials only from staff, district residents, or the parents/guardians of students enrolled in a district school. (Education Code 35160)

However, a complaint related to the use or prohibited use of any existing textbook, instructional material, supplemental instructional material, or other curriculum for classroom instruction, or any book or other resource in a school library that alleges unlawful discrimination based on a violation of Education Code 243 or 244 shall be filed, investigated, and resolved in accordance with Board Policy 1312.3 - Uniform Complaint Procedures.

When deliberating upon challenged materials, the Superintendent, or any designee or committee established by the Superintendent to review the materials, shall consider the degree to which the materials align with the criteria for instructional materials as specified in law, Board policy, and administrative regulation. In addition, such deliberations may consider the educational philosophy and vision of the district; the educational suitability of the materials including the manner in which the materials support the curriculum and appropriateness for the student's age; the professional opinions of teachers of the subject and of other competent authorities and/or experts; reviews of the materials by reputable bodies; the stated objectives in using the materials; community standards; the allegations in the complaint, including the extent to which the objections are based on the dislike of ideas contained in the materials; and the impact that keeping or removing the materials would have on student well-being.

The Superintendent, or any designee or committee established by the Superintendent to review the materials, shall not prohibit the continued use of an appropriately adopted textbook, instructional material, supplemental instructional material, or other curriculum for classroom instruction, or any book or other resource in a school library on the basis that it contains inclusive and/or diverse perspectives, as specified in Education Code 243.

Additionally, the Superintendent, or any designee or committee established by the Superintendent to the review materials, shall not authorize the continued use of an adopted textbook, instructional material, supplemental instructional material, or curriculum for classroom instruction if the use would subject a student to unlawful discrimination pursuant to Education Code 220.

If the complainant finds the Superintendent's or review committee's decision unsatisfactory, the complainant may appeal the decision to the Board.

Any challenged instructional material that is reviewed by the district shall not be subject to further reconsideration for 12 months, unless required by law.

Complaints related to the sufficiency of textbooks or instructional materials shall be resolved as specified in Administrative Regulation 1312.4 - Williams Uniform Complaint Procedures.

Regulation 1312.2: Complaints Concerning Instructional Materials

Status: DRAFT

Original Adopted Date: 12/01/1990 **| Last Revised Date:** 03/01/2025

Step 1: Informal Complaint

If a staff member, district resident, or parent/guardian of a student enrolled in a district school has a complaint regarding the content or use of any specific instructional material, such individual shall informally discuss the material in question with the principal. (Education Code 35160)

Step 2: Formal Complaint

If the complainant is not satisfied with the principal's initial response, the complainant shall present a written complaint to the principal. Complaints regarding printed material shall name the author, title, and publisher and shall identify the objection by page and item numbers. In the case of nonprinted material, written information specifying the precise nature of the objection and location of such material shall be given. In order for the district to reply appropriately, complainants shall sign all complaints and provide identifying information. Anonymous complaints will not be accepted.

Upon receiving a complaint, the principal shall provide the complainant with a written acknowledgement of its receipt and respond to any procedural questions the complainant may have. The principal shall then notify the Superintendent or designee, the teacher(s), and other staff as appropriate.

During the investigation of the complaint, the challenged material may remain in use until a final decision has been reached.

Step 3: Review Committee

The Superintendent or designee shall determine whether to convene a review committee to review the complaint.

If the Superintendent or designee determines that a review committee is necessary, the Superintendent or designee shall appoint a committee composed of administrators and staff members selected from relevant instructional and administrative areas. The Superintendent or designee may also appoint parents/guardians, students, and community members, as appropriate, to serve on the committee.

The Superintendent or designee may provide training to the review committee to ensure that the review committee is informed regarding its responsibilities, the criteria to follow when reviewing instructional materials, and applicable laws, Board policy(ies), and administrative regulation(s).

Within 30 days of being convened, the review committee shall summarize its findings in a written report. The Superintendent or designee shall notify the complainant in writing of the committee's decision within 15 days of receiving the committee's report.

Step 4: Superintendent Determination

If the Superintendent or designee determines that a review committee is not necessary, the Superintendent or designee shall, in a timely manner, issue a decision regarding the complaint.

Step 5: Appeal to the Board of Trustees

If the complainant remains unsatisfied, the complainant may appeal the Superintendent's or review committee's decision to the Board of Trustees. The Board's decision shall be final.

The Board of Trustees recognizes that the district has the primary responsibility to ensure compliance with applicable state and federal laws and regulations governing educational programs. The Board encourages the early resolution of complaints whenever possible. To resolve complaints which may require a more formal process, the Board adopts the uniform system of complaint processes specified in 5 CCR 4600-4670 and the accompanying administrative regulation.

Complaints Subject to UCP

The district's uniform complaint procedures (UCP) shall be used to investigate and resolve complaints regarding the following programs and activities:

1. Accommodations for pregnant and parenting students (Education Code 46015)

10. Discrimination, harassment, intimidation, or bullying in district programs and activities, including in those programs or activities funded directly by or that receive or benefit from any state financial assistance, based on a person's actual or perceived characteristics of race or ethnicity, color, ancestry, nationality, national origin, immigration status, ethnic group identification, age, religion, physical or mental disability, medical condition, or genetic information; any other characteristic identified in Education Code 200 or 220, Government Code 11135, or Penal Code 422.55; or based on the person's association with a person or group with one or more of these actual or perceived characteristics (5 CCR 4610)

    Discrimination includes, but is not limited to, the Board's refusal to approve the use or prohibit the use of any textbook, instructional material, supplemental instructional material, or other curriculum for classroom instruction, or any book or other resource in a school library, on the basis that it includes a study of the role and contributions of any individual or group consistent with the requirements of Education Code 51204.5 and 60040, unless such study would violate Education Code 51501 or 60044. Additionally, discrimination includes, but is not limited to, the Board's adoption or approval of use of any textbook, instructional material, supplemental instructional material, or other curriculum for classroom instruction, or any book or other resource in a school library if the use would subject a student to unlawful discrimination pursuant to Education Code 220. A complaint alleging such unlawful discrimination may, in addition to or in lieu of being filed with the district, be directly filed with the Superintendent of Public Instruction (SPI). (Education Code 243, 244)

    The UCP shall not be used to investigate and resolve employment discrimination complaints. (5 CCR 4611)
11. Educational and graduation requirements for students in foster care, students experiencing homelessness, students from military families, students formerly in a juvenile court school, students who are migratory, and newcomer students (Education Code 48645.7, 48853, 48853.5, 49069.5, 51225.1, 51225.2)
12. Every Student Succeeds Act (Education Code 52059.5; 20 USC 6301 et seq.)

13. Local control and accountability plan (Education Code 52075)

15. Physical education instructional minutes (Education Code 51210, 51222, 51223)

16. Student fees (Education Code 49010-49013)

17. Reasonable accommodations to a lactating student (Education Code 222)

19. School plans for student achievement as required for the consolidated application for specified federal and/or state categorical funding (Education Code 64001)

24. Any other state or federal educational program the SPI or designee deems appropriate

The Board recognizes that alternative dispute resolution (ADR) can, depending on the nature of the allegations, offer a process for resolving a complaint in a manner that is acceptable to all parties. An ADR process such as mediation may be offered to resolve complaints that involve more than one student and no adult. However, mediation shall not be offered or used to resolve any complaint where there is a reasonable risk that a party to the mediation would feel compelled to participate. The Superintendent or designee shall ensure that the use of ADR is consistent with federal, state, and local laws and regulations.

The district shall protect all complainants from retaliation. In investigating complaints, the confidentiality of the parties involved shall be protected as required by law. For any complaint alleging retaliation or unlawful discrimination (such as discriminatory harassment, intimidation, or bullying), the Superintendent or designee shall keep the identity of the complainant, and/or the subject of the complaint if different from the complainant, confidential when appropriate and as long as the integrity of the complaint process is maintained.

When an allegation that is not subject to UCP is included in a UCP complaint, the district shall refer the non-UCP allegation to the appropriate staff or agency and shall investigate and, if appropriate, resolve the UCP-related allegation(s) through the district's UCP.

The Superintendent or designee shall provide training to district staff to ensure awareness and knowledge of current law and requirements related to UCP, including the steps and timelines specified in this policy and the accompanying administrative regulation.

The Superintendent or designee shall maintain a record of each complaint and subsequent related actions, including steps taken during the investigation and all information required for compliance with 5 CCR 4631 and 4633.

Non-UCP Complaints

The following complaints shall not be subject to the district's UCP but shall be investigated and resolved by the specified agency or through an alternative process:

1. Any complaint alleging child abuse or neglect shall be referred to the County Department of Social Services Protective Services Division or the appropriate law enforcement agency (5 CCR 4611)

2. Any complaint alleging health and safety violations by a child development program shall, for licensed facilities,

be referred to Department of Social Services (5 CCR 4611)

3. Any complaint alleging that a student, while in an education program or activity, was subjected to conduct known to the district that may reasonably constitute sex discrimination under Title IX, including sex-based harassment, as defined in 34 CFR 106.2

   Discrimination on the basis of sex includes sex stereotypes; sex characteristics; sexual orientation; gender; gender identity; gender expression; pregnancy, childbirth, termination of pregnancy, or lactation, including related medical conditions or recovery; and parental, marital, and family status. Such a complaint shall be addressed through the federal Title IX complaint procedures adopted pursuant to 34 CFR 106.44-106.45, as specified in Administrative Regulation 5145.71 - Title IX Sex Discrimination and Sex-Based Harassment Complaint Procedures. (34 CFR 106.2, 106.10, 106.11, 106.44)

4. Except for complaints alleging sex discrimination, including sex-based harassment, any complaint alleging employment discrimination or harassment shall be investigated and resolved by the district in accordance with the procedures specified in Administrative Regulation 4030 - Nondiscrimination in Employment, including the right to file the complaint with the California Civil Rights Department

   Employment complaints alleging sex discrimination, including sex-based harassment, shall be investigated and resolved as specified in 34 CFR 106.44 and 106.45 and Administrative Regulation 4119.12/4219.12/4319.12 - Title IX Sex Discrimination and Sex-Based Harassment Complaint Procedures.

5. Any complaint alleging a violation of a state or federal law or regulation related to special education, a settlement agreement related to the provision of a free appropriate public education (FAPE), failure or refusal to implement a due process hearing order to which the district is subject, or a physical safety concern that interferes with the district's provision of FAPE shall be submitted to the California Department of Education (CDE) in accordance with Administrative Regulation 6159.1 - Procedural Safeguards and Complaints for Special Education (5 CCR 3200-3205)

6. Any complaint alleging noncompliance of the district's food service program with laws regarding meal counting and claiming, reimbursable meals, eligibility of children or adults, or use of cafeteria funds and allowable expenses shall be filed with or referred to CDE in accordance with Board Policy 3555 - Nutrition Program Compliance (5 CCR 15580-15584)

7. Any allegation of discrimination based on race, color, national origin, sex, age, or disability in the district's food service program shall be filed with or referred to the U.S. Department of Agriculture in accordance with Board Policy 3555 - Nutrition Program Compliance (5 CCR 15582)

8. Any complaint related to sufficiency of textbooks or instructional materials, emergency or urgent facilities conditions that pose a threat to the health or safety of students or staff, or teacher vacancies and misassignments shall be investigated and resolved in accordance with Administrative Regulation 1312.4 - Williams Uniform Complaint Procedures (Education Code 35186)

Regulation 1312.3: Uniform Complaint Procedures

Status: DRAFT

Original Adopted Date: 05/01/2017 **| Last Revised Date:** 07/01/2024

Except as may otherwise be specifically provided in other district policies, these uniform complaint procedures (UCP) shall be used to investigate and resolve only the complaints specified in the accompanying Board policy.

Compliance Officers

The district designates the individual(s), position(s), or unit(s) identified below as responsible for receiving, coordinating, and investigating complaints and for complying with state and federal civil rights laws. The individual(s), position(s), or unit(s) also serve as the compliance officer(s) specified in Administrative Regulation 5145.3 - Nondiscrimination/Harassment responsible for handling complaints regarding unlawful discrimination, harassment, intimidation, or bullying and in Administrative Regulation 5145.7 - Sex Discrimination and Sex-Based Harassment for handling complaints regarding sex discrimination and sex-based harassment.

DIRECTOR, STUDENT SUPPORT PROGRAMS, SERVICES, AND COMPLIANCE

Keila.jimenez@arusd.org

The compliance officer who receives a complaint may assign another compliance officer to investigate and resolve the complaint. The compliance officer shall promptly notify the complainant and respondent if another compliance officer is assigned to the complaint.

In no instance shall a compliance officer be assigned to a complaint in which the compliance officer has a bias or conflict of interest that would prohibit the fair investigation or resolution of the complaint. Any complaint against a compliance officer or that raises a concern about the compliance officer's ability to investigate the complaint fairly and without bias shall be filed with the Superintendent or designee who shall determine how the complaint will be investigated.

The Superintendent or designee shall ensure that employees assigned to investigate and resolve complaints receive training and are knowledgeable about the laws and programs at issue in the complaints to which they are assigned. Training provided to such employees shall cover current state and federal laws and regulations governing the program; applicable processes for investigating and resolving complaints, including those alleging unlawful discrimination, harassment, intimidation, or bullying; applicable standards for reaching decisions on complaints; and appropriate corrective measures. Assigned employees may have access to legal counsel as determined by the Superintendent or designee.

The compliance officer or, if necessary, an appropriate administrator shall determine whether interim measures are necessary during an investigation and while the result is pending. If interim measures are determined to be necessary, the compliance officer or the administrator shall consult with the Superintendent, the Superintendent's designee, or, if appropriate, the site principal to implement one or more interim measures. The interim measures shall remain in place until the compliance officer determines that they are no longer necessary or until the district issues its final written decision, whichever occurs first.

In addition, the Superintendent or designee shall annually provide written notification of the district's UCP to students, employees, parents/guardians of district students, district advisory committee members, school advisory committee members, appropriate private school officials or representatives, and other interested parties. (5 CCR 4622)

The notice shall include:

3. A statement that a UCP complaint, except a complaint alleging unlawful discrimination, harassment, intimidation, or bullying, must be filed no later than one year from the date the alleged violation occurred

4. A statement that a UCP complaint alleging unlawful discrimination, harassment, intimidation, or bullying must be filed no later than six months from the date of the alleged conduct or the date the complainant first obtained knowledge of the facts of the alleged conduct

5. A statement that a student enrolled in a public school shall not be required to pay a fee for participation in an educational activity that constitutes an integral fundamental part of the district's educational program, including curricular and extracurricular activities

6. A statement that a complaint regarding student fees or the local control and accountability plan (LCAP) may be filed anonymously if the complainant provides evidence or information leading to evidence to support the complaint

7. A statement that the district will post a standardized notice of the educational and graduation requirements of foster youth, students experiencing homelessness, children of military families, former juvenile court school students now enrolled in the district, students who are migratory, and newcomer students as specified in Education Code 48645.7, 48853, 48853.5, 49069.5, 51225.1, and 51225.2, and the complaint process

9. A statement that, for programs within the scope of the UCP as specified in the accompanying Board policy, the complainant has a right to appeal the district's investigation report to the California Department of Education (CDE) by filing a written appeal, including a copy of the original complaint and the district's decision, within 30 calendar days of receiving the district's decision

10. A statement advising the complainant of any civil law remedies, including, but not limited to, injunctions, restraining orders, or other remedies or orders that may be available under state or federal laws prohibiting discrimination, harassment, intimidation, or bullying, if applicable

11. A statement that copies of the district's UCP are available free of charge

The annual notification, complete contact information of the compliance officer(s), and information related to Title IX as required pursuant to Education Code 221.61 and 34 CFR 106.8 shall be posted on the district and district school websites, published in handbooks, catalogs, announcements, bulletins, and application forms, and may be provided through district-supported social media, if available.

The Superintendent or designee shall ensure that all students and parents/guardians, including students and parents/guardians with limited English proficiency, have access to the relevant information provided in the district's policy, regulation, forms, and notices concerning the UCP.

If 15 percent or more of students enrolled in a particular district school speak a single primary language other than English, the district's UCP policy, regulation, forms, and notices shall be translated into that language, in accordance with Education Code 234.1 and 48985. In all other instances, the district shall ensure meaningful access to all relevant UCP information for parents/guardians with limited English proficiency.

Filing of Complaints

The complaint shall be presented to the compliance officer who shall maintain a log of complaints received, providing each with a code number and a date stamp. If a site administrator not designated as a compliance officer receives a

complaint, the site administrator shall notify the compliance officer.

All complaints, except for those that allege sex discrimination, including sex-based harassment, shall be filed in writing and signed by the complainant. If a complainant is unable to put a complaint in writing due to conditions such as a disability or illiteracy, district staff shall assist in the filing of the complaint. (5 CCR 4600; 34 CFR 106.2)

Complaints shall also be filed in accordance with the following rules, as applicable:

1. A complaint alleging district violation of applicable state or federal law or regulations governing the programs specified in the accompanying Board policy may be filed by any individual, public agency, or organization (5 CCR 4600)

2. Any complaint alleging noncompliance with law regarding the prohibition against student fees, deposits, and charges or any requirement related to the LCAP may be filed anonymously if the complaint provides evidence, or information leading to evidence, to support an allegation of noncompliance

   A complaint about a violation of the prohibition against the charging of unlawful student fees may be filed with the principal of the school or with the Superintendent or designee.

3. A UCP complaint, except for a UCP complaint alleging unlawful discrimination, harassment, intimidation, or bullying, shall be filed no later than one year from the date the alleged violation occurred (5 CCR 4630)

   For complaints related to the LCAP, the date of the alleged violation is the date when the County Superintendent of Schools approves the LCAP that was adopted by the Board of Trustees. (5 CCR 4630)

4. A complaint alleging unlawful discrimination, harassment, intimidation, or bullying may be filed only by a person who alleges having personally suffered unlawful discrimination, a person who believes that any specific class of individuals has been subjected to unlawful discrimination, or a duly authorized representative who alleges that an individual student has been subjected to discrimination, harassment, intimidation, or bullying (5 CCR 4630)

5. A complaint alleging unlawful discrimination, harassment, intimidation, or bullying shall be initiated no later than six months from the date that the alleged unlawful discrimination occurred, or six months from the date that the complainant first obtained knowledge of the facts of the alleged unlawful discrimination (5 CCR 4630)

   The time for filing may be extended for up to 90 days by the Superintendent or designee for good cause upon written request by the complainant setting forth the reasons for the extension. (5 CCR 4630)

6. When a complaint alleging unlawful discrimination, harassment, intimidation, or bullying is filed anonymously, the compliance officer shall pursue an investigation or other response as appropriate, depending on the specificity and reliability of the information provided and the seriousness of the allegation

7. When a complainant of unlawful discrimination, harassment, intimidation, or bullying or the alleged victim, when not the complainant, requests confidentiality, the compliance officer shall inform the complainant or victim that the request may limit the district's ability to investigate the conduct or take other necessary action

   When honoring a request for confidentiality, the district shall nevertheless take all reasonable steps to investigate and resolve/respond to the complaint consistent with the request.

Mediation

Within three business days after receiving the complaint, the compliance officer may informally discuss with all the parties the possibility of using mediation to resolve the complaint. Mediation shall be offered to resolve complaints that involve more than one student and no adult. However, mediation shall not be offered or used to resolve any complaint where there is a reasonable risk that a party to the mediation would feel compelled to participate. If the parties agree to mediation, the compliance officer shall make all arrangements for this process.

Before initiating the mediation of a complaint alleging retaliation or unlawful discrimination, harassment, intimidation, or bullying, the compliance officer shall ensure that all parties agree to permit the mediator access to all relevant confidential information. The compliance officer shall also notify all parties of the right to end the informal process at any time.

If the mediation process does not resolve the problem within the parameters of law, the compliance officer shall proceed with an investigation of the complaint.

The use of mediation shall not extend the district's timelines for investigating and resolving the complaint unless the complainant agrees in writing to such an extension of time. If mediation is successful and the complaint is withdrawn, then the district shall take only the actions agreed upon through the mediation. If mediation is unsuccessful, the district shall then continue with subsequent steps specified in this administrative regulation.

Investigation of Complaint

The compliance officer shall begin an investigation into the complaint within 10 business days of receiving the complaint.

Within one business day of initiating the investigation, the compliance officer shall provide the complainant and/or the complainant's representative with the opportunity to present the information contained in the complaint to the compliance officer and shall notify the complainant and/or representative of the opportunity to present the compliance officer with any evidence, or information leading to evidence, to support the allegations in the complaint. Such evidence or information may be presented at any time during the investigation.

In conducting the investigation, the compliance officer shall collect all available documents and review all available records, notes, or statements related to the complaint, including any additional evidence or information received from the parties during the course of the investigation. The compliance officer shall individually interview all available witnesses with information pertinent to the complaint, and may visit any reasonably accessible location where the relevant actions are alleged to have taken place. At appropriate intervals, the compliance officer shall inform the parties of the status of the investigation.

To investigate a complaint alleging retaliation or unlawful discrimination, harassment, intimidation, or bullying, the compliance officer shall interview the alleged victim(s), any alleged offender(s), and other relevant witnesses privately, separately, and in a confidential manner. As necessary, additional staff or legal counsel may conduct or support the investigation.

A complainant's refusal to provide the district's investigator with documents or other evidence related to the allegations in the complaint, failure or refusal to cooperate in the investigation, or any other obstruction of the investigation may result in the dismissal of the complaint because of a lack of evidence to support the allegation. Refusal by the district to provide the investigator with access to records and/or information related to the allegations in the complaint, failure or refusal to cooperate in the investigation, or any other obstruction of the investigation may result in a finding based on evidence collected that a violation has occurred and in the imposition of a remedy in favor of the complainant. (5 CCR 4631)

Timeline for Investigation Report

Unless extended by written agreement with the complainant, the compliance officer shall prepare and send to the complainant a written investigation report, as described in the section "Investigation Report" below, within 60 calendar days of the district's receipt of the complaint. (5 CCR 4631)

For any complaint alleging unlawful discrimination, harassment, intimidation, or bullying, the respondent shall be informed of any extension of the timeline agreed to by the complainant.

Investigation Report

For all complaints, the district's investigation report shall include: (5 CCR 4631)

1. The findings of fact based on the evidence gathered

2. A conclusion providing a clear determination for each allegation as to whether the district is in compliance with the relevant law

3. Corrective action(s) whenever the district finds merit in the complaint, including, when required by law, a remedy to all affected students and parents/guardians and, for a student fees complaint, a remedy that complies with Education Code 49013 and 5 CCR 4600

4. Notice of the complainant's right to appeal the district's investigation report to CDE, except when the district has used the UCP to address a complaint not specified in 5 CCR 4610

5. Procedures to be followed for initiating an appeal to CDE

The investigation report may also include follow-up procedures to prevent recurrence or retaliation and for reporting any subsequent problems.

In consultation with district legal counsel, information about the relevant part of an investigation report may be communicated to a victim who is not the complainant and to other parties who may be involved in implementing the investigation report or are affected by the complaint, so long as the privacy of the parties is protected. In a complaint alleging unlawful discrimination, harassment, intimidation, or bullying, notice of the investigation report to the alleged victim shall include information about any sanction to be imposed upon the respondent that relates directly to the alleged victim.

If the complaint involves a limited-English-proficient (LEP) student or parent/guardian, then the district's response, if requested by the complainant, and the investigation report shall be written in English and the primary language in which the complaint was filed.

For complaints alleging unlawful discrimination, harassment, intimidation, or bullying based on state law, the investigation report shall also include a notice to the complainant that:

1. The complainant may pursue available civil law remedies outside of the district's complaint procedures, including, but not limited to, injunctions, restraining orders or other remedies or orders, 60 calendar days after the filing of an appeal with CDE (Education Code 262.3)

2. The 60 days moratorium does not apply to complaints seeking injunctive relief in state courts or to discrimination complaints based on federal law (Education Code 262.3)

3. Complaints alleging discrimination based on race, color, national origin, sex, gender, disability, or age may also be filed with the U.S. Department of Education, Office for Civil Rights at www.ed.gov/ocr within 180 days of the alleged discrimination

Corrective Actions

When a complaint is found to have merit, the compliance officer shall adopt any appropriate corrective action permitted by law. Appropriate corrective actions that focus on the larger school or district environment may include, but are not limited to, actions to reinforce district policies; training for faculty, staff, and students; updates to school policies; or school climate surveys.

For complaints involving retaliation or unlawful discrimination, harassment, intimidation, or bullying, appropriate remedies that may be offered to the victim but not communicated to the respondent may include, but are not limited to, the following:

1. Counseling

2. Academic support

3. Health services

4. Assignment of an escort to allow the victim to move safely about campus

5. Information regarding available resources and how to report similar incidents or retaliation

6. Separation of the victim from any other individuals involved, provided the separation does not penalize the victim

7. Restorative justice

8. Follow-up inquiries to ensure that the conduct has stopped and there has been no retaliation

For complaints of retaliation or unlawful discrimination, harassment, intimidation, or bullying involving a student as the respondent, appropriate corrective actions that may be provided to the student include, but are not limited to, the following:

1. Transfer from a class or school as permitted by law
2. Parent/guardian conference
3. Education regarding the impact of the conduct on others
4. Positive behavior support
5. Referral to a student success team
6. Denial of participation in extracurricular or cocurricular activities or other privileges as permitted by law
7. Disciplinary action, such as suspension or expulsion, as permitted by law

When an employee is found to have committed retaliation or unlawful discrimination, harassment, intimidation, or bullying, the district shall take appropriate disciplinary action, up to and including dismissal, in accordance with applicable law and collective bargaining agreement.

The district may also consider training and other interventions for the larger school community to ensure that students, staff, and parents/guardians understand the types of behavior that constitute unlawful discrimination, harassment, intimidation, or bullying, that the district does not tolerate it, and how to report and respond to it.

When a complaint is found to have merit, an appropriate remedy shall be provided to the complainant or other affected person.

However, if a complaint alleging noncompliance with the law regarding student fees, deposits, and other charges, physical education instructional minutes, courses without educational content, or any requirement related to the LCAP is found to have merit, the district shall provide a remedy to all affected students and parents/guardians subject to procedures established by regulation of the State Board of Education. (Education Code 49013, 51222, 51223, 51228.3, 52075)

For complaints alleging noncompliance with the law regarding student fees, the district, by engaging in reasonable efforts, shall attempt in good faith to identify and fully reimburse all affected students and parents/guardians who paid the unlawful student fees within one year prior to the filing of the complaint. (Education Code 49013; 5 CCR 4600)

Appeals to the California Department of Education

Any complainant who is dissatisfied with the district's investigation report on a complaint regarding any specified federal or state educational program subject to UCP may file an appeal in writing with CDE within 30 calendar days of receiving the district's investigation report. (5 CCR 4632)

The appeal shall be sent to CDE with a copy of the original locally filed complaint and a copy of the district's investigation report for that complaint. The complainant shall specify and explain the basis for the appeal, including at least one of the following: (5 CCR 4632)

1. The district failed to follow its complaint procedures
2. Relative to the allegations of the complaint, the district's investigation report lacks material findings of fact necessary to reach a conclusion of law
3. The material findings of fact in the district's investigation report are not supported by substantial evidence
4. The legal conclusion in the district's investigation report is inconsistent with the law
5. In a case in which the district found noncompliance, the corrective actions fail to provide a proper remedy

Upon notification by CDE that the district's investigation report has been appealed, the Superintendent or designee shall forward the following documents to CDE within 10 days of the date of notification: (5 CCR 4633)

1. A copy of the original complaint
2. A copy of the district's investigation report
3. A copy of the investigation file including, but not limited to, all notes, interviews, and documents submitted by the parties and gathered by the investigator
4. A report of any action taken to resolve the complaint
5. A copy of the district's UCP
6. Other relevant information requested by CDE

If notified by CDE that the district's investigation report failed to address allegation(s) raised by the complaint, the district shall, within 20 days of the notification, provide CDE and the appellant with an amended investigation report that addresses the allegation(s) that were not addressed in the original investigation report. The amended report shall also inform the appellant of the right to separately appeal the amended report with respect to the allegation(s) that were not addressed in the original report. (5 CCR 4632)

Health and Safety Complaints in License-Exempt Preschool Programs

Any complaint regarding health or safety issues in a license-exempt California State Preschool Program (CSPP) shall be addressed through the procedures described in 5 CCR 4690-4694.

In order to identify appropriate subjects of CSPP health and safety issues pursuant to Health and Safety Code 1596.7925, a notice shall be posted in each license-exempt CSPP classroom in the district notifying parents/guardians, students, and teachers of the health and safety requirements of Title 5 regulations that apply to CSPP programs pursuant to Health and Safety Code 1596.7925 and the location at which to obtain a form to file any complaint alleging noncompliance with those requirements. For this purpose, the Superintendent or designee may download and post a notice available from the CDE website. (Education Code 8212; 5 CCR 4691)

The district's annual UCP notification distributed pursuant to 5 CCR 4622 shall clearly indicate which of its CSPP programs are operating as exempt from licensing and which CSPP programs are operating pursuant to requirements under Title 22 of the Code of Regulations. (5 CCR 4691)

Any complaint regarding specified health or safety issues in a license-exempt CSPP program shall be filed with the preschool program administrator or designee, and may be filed anonymously. The complaint form shall specify the location for filing the complaint, contain a space to indicate whether the complainant desires a response to the complaint, and allow a complainant to add as much text as desired to explain the complaint. (Education Code 8212; 5 CCR 4690)

Policy 1313: Civility

Status: DRAFT

Original Adopted Date: 06/01/2021

The Board of Trustees recognizes the impact that civility has on the effective operation of the district, including its role in creating a safe and positive school climate and enabling a focus on student well-being, learning, and achievement. The Board believes that each person should be treated with dignity and respect in their interactions within the school community.

The Board understands that the First Amendment provides strong protection for speech. However, the Board expects that all speech and expression will comport with norms of civil behavior on district grounds, in district facilities, during district activities or events, and in the use of district electronic/digital systems and platforms.

Civil behavior is polite, courteous, and reasonable behavior which is respectful to others and includes integrity, honesty, acceptance, timeliness, dependability, observance of laws and rules, and effective communication.

The Board and district staff shall model civil behavior as an example of behavior that is expected throughout the district. Practices that promote civil behavior include actively listening, giving full attention to the speaker, and refraining from interruptions; welcoming and encouraging participation, input, and feedback through stakeholder engagement; promptly responding to concerns; and embracing varying and diverse viewpoints. Such practices may be incorporated into governance standards adopted by the Board or Superintendent and/or professional standards or codes of conduct for employees as specified in district policies and regulations.

Status: DRAFT

Original Adopted Date: 09/01/1987 **| Last Revised Date:** 07/01/2003

The Board of Trustees recognizes that student participation in fund-raising activities for the schools and nonprofit, nonpartisan charitable organizations can help develop a sense of social responsibility in students, enhance the relationship between the school and community, and contribute to the improvement of the school program.

Whether solicitations are made on behalf of the school or on behalf of a charitable organization, students shall not be barred from an event or activity because they did not participate in fund-raising. Potential donors, including parents/guardians and members of the community, should not be unduly pressured to contribute to the school system or charitable organizations. Staff is expected to emphasize the fact that donations are always voluntary.

The Superintendent or designee shall ensure that parents/guardians are informed of the purpose of fund-raisers.

Solicitations on Behalf of the School

With the prior written approval of the Superintendent or designee, official school-related organizations may organize fund-raising events involving students.

Policy 1325: Advertising And Promotion

Status: DRAFT

Original Adopted Date: 11/01/2001 | **Last Revised Date:** 12/01/2017

KEEP WITH EDITS

The Board of Trustees establishes this policy to ensure effective and consistent standards for advertisements and promotions by nonschool groups in school-sponsored publications, on district and school web sites and social media, and on school facilities and grounds. Student speech shall be regulated in accordance with BP/AR 5145.2 - Freedom of Speech/Expression.

Purpose

In implementing this policy, the Board does not intend to create an open forum for advertising or promotion of activities. Rather, the Board intends to enhance community partnerships by outlining how the District will advertise and promote opportunities to families in schools. This policy is intended to outline how the District will advertise and promote materials from 1) organizations with which it has entered into a contract or partnership for a defined temporary term, including but not limited to a shared Memorandum of Understanding for services at schools, 2) companies which have provided financial or other contributions to further the District's educational mission, or otherwise advanced the quality of education in the District, and 3) opportunities and materials from 501(c)(3) not for profit organizations and public entities (districts, schools, and government agencies).

Limited Public Forum

The Board desires to promote positive relationships between district schools and the community in order to enhance community partnerships, support, and involvement in the schools. The Superintendent or designee may, consistent with the criteria established in this policy, approve:

1. Distribution of noncommercial materials that publicize services, special events, public meetings, or other gatherings of interest to students or parents/guardians

2. Distribution of promotional materials of a commercial nature to students or parents/guardians

3. Paid advertisements on school property, including, but not limited to, advertisements on school buildings, athletic fields, scoreboards, and billboards

4.

Paid advertisements in school-sponsored publications, yearbooks, announcements, and other school communications, including web sites and social media

5. Products and materials donated by commercial enterprises for educational use, including those that bear the name and/or logo of the donor, as long as they do not unduly promote the donor or any commercial activity or product

Prior to the distribution, posting, or publishing of any nonschool group's promotional materials or advertisement, the Superintendent, principal, or designee shall review the materials or advertisement based on the criteria listed below. They may not disapprove materials or advertisement in an arbitrary or capricious manner or in a way that discriminates against a particular viewpoint on a subject that is otherwise allowed by Board policy.

All materials to be distributed shall bear the name and contact information of the sponsoring entity.

As necessary, the Superintendent, principal, or designee shall require a disclaimer on any nonschool group's promotional materials to be distributed, posted, or published, stating that the distribution, posting, or publishing of the materials does not imply district endorsement of the group's activities, products, or services. District- and school-sponsored publications shall include a disclaimer stating that the district or school does not endorse any advertised products or services.

Criteria for Approval

The Superintendent, principal, or designee shall not accept for distribution, or allow on school property, any materials or advertisements that:

1. Are lewd, obscene, libelous, or slanderous

2. Incite students to commit unlawful acts, violate school rules, or disrupt the orderly operation of the schools

3. Promotes a program, service, event, or membership in which the ultimate participant will incur a cost, unless it is shared on behalf of a 501(c)(3) not for profit organization or public entity.

4. Promote any particular political interest, candidate, party, or ballot measure, unless the candidates or advocates from all sides are provided the opportunity to present their views to the students during school hours or during events scheduled pursuant to the Civic Center Act

5. Contain prayer or proselytizing language

6. Position the district on any side of a controversial issue

7. Discriminate against, attack, or denigrate any group on account of any unlawful consideration

8. Promote the use or sale of materials or services that are illegal or inconsistent with school objectives, including, but not limited to, materials or advertisements for tobacco, intoxicants, and movies or products unsuitable for children

9. Promote during the school day any food or beverage that does not comply with state nutritional standards pursuant to Education Code 49430-49434, including a corporate incentive program that offers free or discounted foods or beverages that do not meet nutritional standards as rewards for students who reach certain academic goals. This prohibition does not include advertising on clothing with brand images worn on school grounds, advertising contained in product packaging, or advertising of infrequent school fundraising events involving food or beverages that do not meet the nutritional standards. (Education Code 49431.9)

The Superintendent or designee shall give priority to school-related activities in the use of school facilities and grounds. Other uses authorized under the Civic Center Act shall be on a first-come, first-served basis.

For the effective management and control of school facilities and grounds, the Superintendent or designee shall maintain procedures and regulations that: (Education Code 38133)

1. Aid, encourage, and assist groups desiring to use school facilities for approved activities

2. Preserve order in school facilities and on school grounds and protect school facilities, including the designation of a person to supervise this task, if necessary

3. Ensure that the use of school facilities or grounds is not inconsistent with their use for school purposes and does not interfere with the regular conduct of schoolwork

Subject to prior approval by the Board, the Superintendent or designee may grant the use of school facilities or grounds on those days on which district schools are closed. (Education Code 37220)

There shall be no advertising on school facilities and grounds except as specified in Board Policy 1325 - Advertising and Promotion.

As necessary to ensure efficient use of school facilities, the Superintendent or designee may, with the Board's approval, enter into an agreement for the joint use of any school facilities or grounds. The Superintendent or designee shall promptly inform the person making the request of the determination and the reasons for the decision. (Government Code 7922.535)

In unusual circumstances, the Superintendent or designee may extend the 10-day limit for up to 14 days by providing written notice to the requester setting forth the reasons for the extension and the date on which a determination is expected to be made. Unusual circumstances include the following, but only to the extent reasonably necessary to properly process the request: (Government Code 7922.535)

2. The need to search for, collect, and appropriately examine a voluminous amount of separate and distinct records which are demanded in a single request

3. The need for consultation, which shall be conducted with all practicable speed, with another agency (e.g., a state agency or city) having a substantial interest in the determination of the request or among two or more components of the district (e.g., two different school sites) with substantial interest in the request

1. Do not require the equipment to make physical contact with the record

2. Will not result in damage to the record

3. Will not result in unauthorized access to the district's computer systems or secured networks by using software, equipment, or any other technology capable of accessing, altering, or compromising the district's electronic records

The Superintendent or designee may impose any reasonable limit on the use of personal equipment to photograph, copy, or reproduce a disclosable record that is necessary to protect the safety of the records, or to prevent the copying of records from being an unreasonable burden to the orderly function of the district and its employees. The Superintendent or designee may also impose any limit that is necessary to maintain the integrity of, or ensure the long-term preservation of, historic or high-value records. (Government Code 7922.530)

In addition to maintaining public records for public inspection during district office hours, the district may comply with public records requests by posting any public record on the district's website and, in response to a public records request, directing the member of the public to the location on the website where the record can be found. However, if the member of the public is unable to access or reproduce the record from the website, the district shall promptly provide an exact copy of the public record upon payment of duplication fees, if applicable, unless it is impracticable to provide an exact copy. (Government Code 7922.545)

If any person requests that a public record be provided in an electronic format, the district shall make that record available in any electronic format in which it holds the information. The district shall provide a copy of the electronic record in the format requested as long as the requested format is one that has been used by the district to create copies for its own use or for use by other agencies. (Government Code 7922.570)

The cost of duplicating an electronic record shall be limited to the direct cost of producing a copy of the record in

electronic format. However, the requester shall bear the cost of producing the copy of the electronic record, including the cost to construct the record and the cost of programming and computer services necessary to produce the copy, under the following circumstances: (Government Code 7922.575)

1. The electronic record is one that is produced only at otherwise regularly scheduled intervals

2. The request would require data compilation, extraction, or programming to produce the record

Assistance in Identifying Requested Records

If the Superintendent or designee denies a request for disclosable records, the requester shall be assisted in making a focused and effective request that reasonably describes an identifiable record. To the extent reasonable under the circumstances, the Superintendent or designee shall do all of the following: (Government Code 7922.600)

1. Assist in identifying records and information responsive to the request or the purpose of the request, if specified

   If, after making a reasonable effort to elicit additional clarifying information from the requester to help identify the record, the Superintendent or designee is still unable to identify the information, this requirement shall be deemed satisfied.

2. Describe the information technology and physical location in which the records exist

3. Provide suggestions for overcoming any practical basis for denying access to the records or information sought

Provisions of the CPRA shall not be construed so as to delay or obstruct the inspection or copying of public records. Any notification denying a request for public records shall state the name and title of each person responsible for the denial. (Government Code 7922.500, 7922.540)

However, when the termination of the Superintendent's contract is based upon the Board's belief and subsequent confirmation through an independent audit that the Superintendent has engaged in fraud, misappropriation of funds, or other illegal fiscal practices, no cash or noncash settlement of any amount shall be provided. (Government Code 53260)

In addition, if the Superintendent is convicted of a crime involving an abuse of office or position, the Superintendent shall reimburse the district for payments received as paid leave salary pending investigation or as cash settlement upon termination, and for any funds expended by the district in defending the Superintendent against a crime involving the Superintendent's office or position. (Government Code 53243-53243.4, 53260)

The Board shall not take action to terminate the Superintendent without cause at a special or emergency meeting of the Board. (Education Code 35150)

Additionally, the Board shall not take action to terminate the Superintendent without cause or within 30 days after the first convening of the Board after an election at which one or more Board members are elected or recalled. (Education Code 35150)

However, the Board may take action to terminate the Superintendent without cause at a regular meeting during any month in which a regular meeting of the Board is not scheduled. (Education Code 35150)

Original Adopted Date: 07/01/2004 **| Last Revised Date:** 07/01/2017

The Board of Trustees recognizes its responsibility to establish an evaluation system that enables a fair assessment of the Superintendent's effectiveness in leading the district toward established goals, serves to support his/her continued growth in leadership and management skills, and provides a basis for Board decisions regarding contract extension and compensation. The Board shall annually conduct a formal evaluation of the Superintendent's performance and may provide additional opportunities throughout the year to review the Superintendent's progress toward meeting established goals.

The Board shall determine, with the Superintendent's input, the criteria, schedule, method(s), and instrument(s) to be used for the Superintendent's evaluation. Evaluation criteria shall include, but are not limited to, district goals and success indicators; educational, management, and community leadership skills; and the Superintendent's professional relationship with the Board.

Prior to the evaluation, the Superintendent shall provide to the Board for its review a report of progress toward district goals, the Superintendent's self-appraisal of accomplishments and performance, and a statement of actions taken to address any Board recommendations from the previous evaluation.

Each Board member shall independently evaluate the Superintendent's performance based upon the evaluation criteria, after which the Board shall produce a single document that integrates the individual evaluations and represents the consensus of the Board.

The evaluation shall provide commendations in areas of strength and achievement and recommendations for improving effectiveness in any areas of need, concern, or unsatisfactory performance.

The Board shall meet in closed session with the Superintendent to discuss the evaluation. (Government Code 54957)

At this meeting, the Superintendent shall have an opportunity to ask questions, respond verbally and in writing to the evaluation, and present additional information regarding his/her performance or district progress.

The discussion shall include the establishment of performance goals for the next year and may identify professional development opportunities for the Superintendent and/or the entire governance team to address areas of concern, strengthen the relationship between the Superintendent and Board, or enhance the Superintendent's knowledge of current educational issues and leadership and management skills.

After the Board and Superintendent have discussed the evaluation, the Board President and Superintendent shall sign the evaluation and it shall be placed in the Superintendent's personnel file. The evaluation, including personal performance goals, shall be confidential to the extent permitted by law.

Original Adopted Date: 07/01/2011 **| Last Revised Date:** 07/01/2018

The Board of Trustees desires to be proactive in communicating its philosophy, priorities, and expectations for the district; clarifying the roles and responsibilities of the Board, Superintendent, and other senior administrators; and setting direction for the district through written policies. However, the Board recognizes that, in the course of operating district schools or implementing district programs, situations may arise which may not be addressed in written policies. In such situations, or when immediate action is necessary to avoid any risk to the safety or security of students, staff, or district property or to prevent disruption of school operations, the Superintendent or designee shall have the authority to act on behalf of the district in a manner that is consistent with law and Board policies.

As necessary, the Superintendent or designee shall consult with other district staff, including legal counsel and/or the chief business official, regarding the exercise of this authority.

Any exercise of administrative authority shall be nondiscriminatory and demonstrate the district's commitment to equity in district programs and activities.

The Superintendent shall be accountable to the Board for all areas of operation under his/her authority. As appropriate, the Superintendent or designee shall notify the Board as soon as practicable after he/she exercises the authority granted under this policy. The Board President and the Superintendent shall schedule a review of the action at the next regular Board meeting. If the action indicates the need for additions or revisions to Board policies, the Superintendent or designee shall make the necessary recommendations to the Board.

Original Adopted Date: 09/01/1989 **| Last Revised Date:** 07/01/2001

As desired, the Superintendent or designee may establish a management team, administrative councils, task forces, cabinets or committees in accordance with law.

The membership, composition and responsibilities of these groups shall be defined by the Superintendent or designee. The Superintendent or designee may establish, change or dissolve these groups at his/her discretion.

Expenses incurred for consulting services, materials, travel or other related operations shall be approved by the Superintendent or designee in advance.

Policy 3100: Budget

Status: DRAFT

Original Adopted Date: 10/01/2015 **| Last Revised Date:** 12/01/2024

The Board of Trustees recognizes its critical responsibility for adopting a sound budget each fiscal year which is aligned with and reflects the district's vision, goals, priorities, local control and accountability plan (LCAP), and other comprehensive plans. The district budget shall guide decisions and actions throughout the year and shall serve as a tool for monitoring the fiscal health of the district.

The district budget shall show a complete plan and itemized statement of all proposed expenditures and all estimated revenues for the following fiscal year, together with a comparison of revenues and expenditures for the current fiscal year. The budget shall also include the appropriations limit and the total annual appropriations subject to limitation as determined pursuant to Government Code 7900-7914. (Education Code 42122)

Budget Development and Adoption Process

In order to provide guidance in the development of the budget, the Board shall annually establish budget priorities based on identified district needs and goals and on realistic projections of available funds.

The Superintendent or designee shall oversee the preparation of a proposed district budget for approval by the Board and shall involve appropriate staff in the development of budget projections.

The Board shall hold a public hearing on the proposed budget in accordance with Education Code 42103 and 42127. The hearing shall occur at the same meeting as the public hearing on the district's LCAP and the local control funding formula (LCFF) budget overview for parents/guardians. (Education Code 42103, 42127, 52062, 52064.1)

The Board shall adopt the district budget at a public meeting held after the date of the public hearing, but on or before July 1 of each year. The Board shall adopt the budget following its adoption of the LCAP, or annual update to the LCAP, and the LCFF budget overview for parents/guardians. The budget shall include the expenditures necessary to implement the LCAP or the annual update to the LCAP. (Education Code 42127, 52062)

The budget that is presented at the public hearing as well as the budget formally adopted by the Board shall adhere to the state's Standardized Account Code Structure as prescribed by the Superintendent of Public Instruction (SPI). (Education Code 42126, 42127)

The Superintendent or designee may supplement this format with additional information as necessary to effectively communicate the budget to the Board, staff, and public.

No later than five days after the Board adopts the district budget or by July 1, whichever occurs first, the Board shall file the adopted district budget with the County Superintendent of Schools. The budget and supporting data shall be maintained and made available for public review. (Education Code 42127)

If the County Superintendent disapproves or conditionally approves the district's budget, the Board shall review and respond to the County Superintendent's recommendations at a regular public meeting on or before October 8. The response shall include any revisions to the adopted budget and any other proposed actions to be taken as a result of those recommendations. (Education Code 42127)

Budget Advisory Committee

The Board may appoint a budget advisory committee composed of staff, Board representatives, and/or members of the community.

Board representation on any budget advisory committee shall not comprise a majority of the Board.

The committee shall submit recommendations during the budget development process and its duties shall be assigned each year based on district needs. All recommendations of the committee shall be advisory only and shall not be binding on the Board.

Budget Criteria and Standards

The district budget shall be developed in accordance with state criteria and standards specified in 5 CCR 15440-15450 as they relate to projections of average daily attendance (ADA), enrollment, ratio of ADA to enrollment, LCFF revenue, salaries and benefits, other revenues and expenditures, facilities maintenance, deficit spending, fund balance, and reserves. In addition, the Superintendent or designee shall provide the supplemental information specified in 5 CCR 15451, which addresses the methodology and budget assumptions used, contingent liabilities, use of one-time revenues for ongoing expenditures, use of ongoing revenues for one-time expenditures, contingent revenues, contributions, long-term commitments, unfunded liabilities, status of collective bargaining agreements, the LCAP, and LCAP expenditures. (Education Code 33128, 33129, 42127.01; 5 CCR 15440-15451)

The district budget shall provide for increased or improved services for unduplicated students at least in proportion to the increase in funds apportioned on the basis of the number and concentration of unduplicated students in accordance with 5 CCR 15496. Unduplicated students are students who are eligible for free or reduced-price meals, English learners, and/or foster youth. (Education Code 42238.07; 5 CCR 15496)

Additionally, the district budget shall provide for increased or improved services for each school which generates LCFF equity multiplier funding. (Education Code 42238.024, 52064)

The Board may establish other budget assumptions or parameters which may take into consideration the stability of funding sources, legal requirements and constraints on the use of funds, anticipated increases and/or decreases in the cost of services and supplies, program requirements, and any other factors necessary to ensure that the budget is a realistic plan for district revenues and expenditures.

Fund Balance

The district shall classify fund balances in compliance with Governmental Accounting Standards Board (GASB) Statement 54, as follows:

1. Nonspendable fund balance includes amounts that are not expected to be converted to cash, such as resources that are not in a spendable form (e.g., inventories and prepaids) or that are legally or contractually required to be maintained intact

2. Restricted fund balance includes amounts constrained to specific purposes by their providers or by law

3. Committed fund balance includes amounts constrained to specific purposes by the Board

   For this purpose, all commitments of funds shall be approved by a majority vote of the Board. The constraints shall be imposed no later than the end of the reporting period (June 30), although the actual amounts may be determined subsequent to that date but prior to the issuance of the financial statements.

4. Assigned fund balance includes amounts which are intended for a specific purpose but do not meet the criteria to be classified as restricted or committed

   The Board delegates authority to assign funds to the assigned fund balance to the Superintendent and authorizes the assignment of such funds to be made any time prior to the issuance of the financial statements. The Superintendent shall have discretion to further delegate the authority to assign funds.

5. Unassigned fund balance includes amounts that are available for any purpose

When multiple types of funds are available for an expenditure, the district shall first utilize funds from the restricted fund balance as appropriate, then from the committed fund balance, then from the assigned fund balance, and lastly from the unassigned fund balance.

The Board intends to maintain a minimum assigned and unassigned fund balance in an amount the Board deems sufficient to maintain fiscal solvency and stability and to protect the district against unforeseen circumstances.

If the assigned and unassigned fund balance falls below the level set by the Board due to an emergency situation, unexpected expenditures, or revenue shortfalls, the Board shall develop a plan to recover the fund balance which may include dedicating new unrestricted revenues, reducing expenditures, and/or increasing revenues or pursuing other funding sources.

Reserve Balance

The district budget shall include a minimum reserve balance for economic uncertainties that is consistent with the percentage or amount specified in 5 CCR 15450.

In any year following the fiscal year in which the district is notified by the SPI that the amount of monies in the state Public School System Stabilization Account equals or exceeds three percent of the combined total of general fund revenues appropriated for school districts and allocated local proceeds of taxes, the district budget shall not contain a combined assigned or unassigned ending general fund balance that is in excess of 10 percent of these funds, unless the requirement is waived in accordance with Education Code 42127.01. (Education Code 42127.01)

Long-Term Financial Obligations

The district's current-year budget and multiyear projections shall include adequate provisions for addressing the district's long-term financial obligations, including, but not limited to, long-term obligations resulting from collective bargaining agreements, financing of facilities projects, unfunded or future liability for retiree benefits, and accrued workers' compensation claims.

Budget Amendments

Whenever revenues and expenditures change significantly throughout the year, the Superintendent or designee shall recommend budget amendments to ensure accurate projections of the district's net ending balance. When final figures for the prior-year budget are available, this information shall be used as soon as possible to update the current-year budget's beginning balance and projected revenues and expenditures.

In addition, budget amendments shall be submitted for Board approval as necessary when collective bargaining agreements are accepted, district income declines, increased revenues or unanticipated savings are made available to the district, program proposals are significantly different from those approved during budget adoption, interfund transfers are needed to meet actual program expenditures, and/or other significant changes occur that impact budget projections.

3. Representatives of bargaining units
4. Certificated and/or classified staff
5. Parents/guardians
6. Representatives of the business community and/or other community members

3. Reviewing the clarity and effectiveness of budget documents and communications
4. Presenting progress reports on the committee's work and a final report of recommendations to the Superintendent or designee and to the Board

The specific duties of the committee shall be clearly defined and presented to each member in writing, along with any background information necessary for the successful completion of the committee's charges, the timelines for reporting the committee's progress, and timelines for completion of each task.

Public Hearing

The agenda for the public hearing on the district budget shall be posted at least 72 hours before the hearing and shall indicate the location where the budget may be inspected. The proposed budget shall be available for public inspection at least three working days before this hearing. (Education Code 42103, 42127, 52062)

The Superintendent or designee shall notify the County Superintendent of Schools of the location and dates at which the proposed budget may be inspected, as well as the location, date, and time of the public hearing, in sufficient time for the County Superintendent to publish such information in a newspaper of general circulation at least 10 days but not more than 45 days before the hearing, as specified in Education Code 42103. Beginning January 1, 2027, this notification, rather than being published in a newspaper of general circulation as described above, shall be prominently posted on the homepage of the district's website at least three days before the availability of the proposed budget for public inspection.

Whenever the proposed district budget includes a combined assigned and unassigned ending fund balance that exceeds the minimum recommended reserve for economic uncertainties adopted by the State Board of Education, the district shall provide, for each fiscal year included in the budget, the following information for public review and discussion at the public hearing: (Education Code 42127; 5 CCR 15450)

1. The minimum recommended reserve for economic uncertainties
2. The combined assigned and unassigned ending fund balances that are in excess of the minimum recommended

reserve

3. A statement of reasons substantiating the need for the combined assigned and unassigned ending balances that are in excess of the minimum recommended reserve

During the hearing, any district resident may appear and object to the proposed budget or to any item in the budget. The hearing may conclude when all residents who have requested to be heard have had the opportunity to speak. (Education Code 42103)

Budget Review Committee for Disapproved Budgets

If the district's budget is disapproved by the County Superintendent for any reason other than disapproval of the district's LCAP or annual update to the LCAP, the budget shall be reviewed by a budget review committee, unless the Board and County Superintendent agree to waive the requirement and the California Department of Education accepts the waiver. (Education Code 42127)

This committee shall consist of either: (Education Code 42127.1, 42127.2)

1. Three persons selected by the Board from a list of candidates provided by the Superintendent of Public Instruction (SPI), who shall be selected within five working days after receiving the list of candidates

2. A regional review committee selected and convened by the County Superintendent with the approval of the Board and SPI

If the budget review committee recommends disapproval of the district budget, the Board may submit a response to the SPI no later than five working days after receipt of the committee's report. The response may include any revisions to the adopted final budget and any other proposed actions to be taken as a result of the committee's recommendations. (Education Code 42127.3)

If the SPI disapproves the district budget after reviewing the committee's report and the district's response, the Board shall consult with the County Superintendent to develop and adopt, by December 31, a fiscal plan and budget that will allow the district to meet its current fiscal year and multiyear financial obligations. For the current fiscal year, the district shall operate in accordance with the budget adopted by the County Superintendent. (Education Code 42127.3)

Until the district receives approval of its budget, it shall continue to operate either on the basis of the prior year's budget or on the basis of the current year's unapproved budget as adopted and revised by the Board, whichever budget contains a lower total spending authority. (Education Code 42127.4)

Original Adopted Date: 11/01/2011 **| Last Revised Date:** 06/01/2022

The Board of Trustees recognizes its responsibility to monitor the district's fiscal practices to ensure accountability regarding the expenditure of public funds and compliance with legal requirements.

The total amount budgeted by the district for each major classification of expenditures, as listed in the California Department of Education's budget forms, shall be the maximum amount which the district may expend for that classification for the school year. (Education Code 42600)

However, when it is in the best interest of the district, the Board may:

1. At any time, adopt a written resolution providing for transfers from the designated fund balance or the unappropriated fund balance to any expenditure classification or between classifications. The resolution shall be filed with the County Superintendent of Schools and the County Auditor. (Education Code 42600)

2. Direct the temporary transfer of monies held in any district fund or account to another fund or account as necessary for the payment of obligations. Such borrowing shall occur only when the fund or account receiving the money will earn sufficient income during the current fiscal year to repay the amount transferred. No more than 75 percent of the maximum amount held in any fund or account during the current fiscal year may be transferred. Amounts transferred shall be repaid in the same fiscal year, or in the following fiscal year if the transfer takes place within the final 120 calendar days of a fiscal year. (Education Code 42603)

3. At the close of a school year, request that the County Superintendent make transfers between the designated fund balance or the unappropriated fund balance and any expenditure classification(s), or balance any expenditure classifications of the district budget as necessary for the payment of obligations incurred during that school year. (Education Code 42601)

4. If any special reserve funds that are maintained for capital outlay or other purposes pursuant to Education Code 42842 are not actually encumbered for ongoing expenses, transfer those monies into the general fund for the general operating purposes of the district. If any monies remain in the special reserve fund at the conclusion of a project, the Board may submit a written request to the County Superintendent, Auditor, and Treasurer to discontinue the special reserve fund and transfer those monies to the district's general fund. (Education Code 42841-42843)

5. Transfer monies between other funds or accounts when authorized by law.

Lottery funds shall not be used for the acquisition of real property, construction of school facilities, financing of research, or any other noninstructional purpose. (Government Code 8880.4, 8880.5)

For the receipt and expenditure of lottery funds, the Superintendent or designee shall establish a separate account that shall be clearly identified as a lottery education account. (Government Code 8880.5)

Policy 3230: Federal Grant Funds

Status: DRAFT

Original Adopted Date: 09/01/2016 **| Last Revised Date:** 03/01/2021

The Board of Trustees recognizes the district's responsibility to maintain fiscal integrity and transparency in the use of all funds awarded through federal grants. The district shall comply with all requirements detailed in any grant agreement with an awarding agency and with the federal Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards specified in 2 CFR 200.0-200.521 and any stricter state laws and district policy.

Any goods or services purchased with federal funds shall be reasonable in cost and necessary for the proper and efficient performance or administration of the program.

The Superintendent or designee shall ensure that the district's financial management systems and procedures provide for the following: (2 CFR 200.302)

1. Identification in district accounts of each federal award received and expended and the federal program under which it was received

2. Accurate, current, and complete disclosure of the financial results of each federal award or program in accordance with the reporting requirements of 2 CFR 200.328 and 200.329

3. Records and supporting documentation that adequately identify the source and application of funds for federally funded activities, including information pertaining to federal awards, authorizations, financial obligations, unobligated balances, assets, expenditures, income, and interest

4. Effective control over and accountability for all funds, property, and other assets and assurance that all assets are used solely for authorized purposes

5. Comparison of actual expenditures with budgeted amounts for each federal award

6. Written procedures to implement provisions governing payments as specified in 2 CFR 200.305

7. Written procedures for determining the allowability of costs in accordance with 2 CFR 200.400-200.475 and the terms and conditions of the federal grant award

The Superintendent or designee shall develop and implement appropriate internal control processes to reasonably assure that transactions are properly executed, recorded, and accounted for so that the district can prepare reliable financial statements and federal reports, maintain accountability over assets, and demonstrate compliance with federal laws, regulations, and conditions of the federal award. (2 CFR 200.61, 200.62, 200.303)

Equipment purchased with federal funds shall be properly inventoried and adequately maintained to safeguard against loss, damage, or theft of the property.

All staff involved in the administration or implementation of programs and activities supported by federal funds shall receive information and training on the allowable use of federal funds, purchasing procedures, and reporting processes commensurate with their duties.

The district shall submit financial and performance reports to the awarding agency in accordance with the schedule and indicators required for that federal grant by law and the awarding agency. As required, such reports may include a comparison of actual accomplishments to the objectives of the federal award, the relationship between financial data and performance accomplishments, the reasons that established goals were not met if applicable, cost information to demonstrate cost-effective practices, analysis and explanation of any cost overruns or high unit costs, and other relevant information. The final performance report shall be submitted no later than 120 calendar days after the ending date of the grant. (2 CFR 200.301, 200.328, 200.329)

Regulation 3230: Federal Grant Funds

Status: DRAFT

Original Adopted Date: 03/01/2018 **| Last Revised Date:** 03/01/2021

To ensure the lawful expenditure of any federal formula or discretionary grant funds awarded to the district, the Superintendent or designee shall comply with the requirements of the Office of Management and Budget's Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (the "Uniform Guidance"), as contained in 2 CFR 200.0-200.521 and Appendices I-XII.

Allowable Costs

Prior to obligating or spending any federal grant funds, the Superintendent or designee shall determine whether a proposed purchase is an allowable expenditure in accordance with 2 CFR 200.400-200.475 and the terms and conditions of the award. The Superintendent or designee shall also determine whether the expense is a direct or indirect cost as defined in 2 CFR 200.413 and 200.414 and, if the purchase will benefit other programs not included in the grant award, the appropriate share to be allocated to the federal grant.

The Superintendent or designee shall review and approve all transactions involving federal grant funds and shall ensure the proper coding of expenditures consistent with the California School Accounting Manual.

Period of Performance

All obligations of federal funds shall occur on or between the beginning and ending dates of the grant project and shall be paid no later than 120 calendar days after the end of the funding period, unless specifically authorized by the grant award to be carried over beyond the initial term of the grant. (2 CFR 200.77, 200.308, 200.309, 200.344)

Procurement

When procuring goods and services with a federal grant, the Superintendent or designee shall comply with the standards contained in 2 CFR 200.317-200.327 and Appendix II of Part 200, and with any applicable state bidding or procurement law or district policy that is more restrictive.

As appropriate to encourage greater economy and efficiency, the Superintendent or designee shall avoid acquisition of unnecessary or duplicative items, give consideration to consolidating or breaking out procurements, analyze lease versus purchase alternatives, consider entering into an interagency agreement for procurement of common or shared goods and services, and/or use federal excess or surplus property. (2 CFR 200.318)

The procurement of goods or services with federal funds shall be conducted in a manner that provides full and open competition in accordance with state laws and district regulations and the following requirements:

1. Any purchase of supplies or services that does not exceed the "micro-purchase" threshold established by the district in accordance with 48 CFR 2.101 may be awarded without soliciting competitive quotes, provided that the district considers the price to be reasonable and maintains written evidence of this reasonableness in the record of all micro-purchases. (2 CFR 200.67, 200.320)

2. For any purchase that exceeds the micro-purchase threshold but is less than the bid limit required by Public Contract Code 20111, the Superintendent or designee shall utilize "small-purchase" procedures that include obtaining price or rate quotes from an adequate number of qualified sources. (2 CFR 200.320)

3. Contracts for goods or services over the bid limits required by Public Contract Code 20111 shall be awarded pursuant to California law and AR 3311 - Bids, unless exempt from bidding under the law.

4. If a purchase is exempt from bidding and the district's solicitation is by a request for proposals, the award may be made by either a fixed-price or cost-reimbursement type contract awarded to the entity whose proposal is most advantageous to the program, with price and other factors considered. (2 CFR 200.320)

5. Procurement by noncompetitive proposals (sole sourcing) may be used only when the item is available exclusively from a single source, the need or emergency will not permit a delay resulting from competitive solicitation, the awarding agency expressly authorizes sole sourcing in response to the district's request, and/or competition is determined inadequate after solicitation of a number of sources. (2 CFR 200.320)

6. Time and materials type contracts may be used only after a determination that no other contract is suitable and if the contract includes a ceiling price that the contractor exceeds at its own risk. Time and materials type contract means a contract for which the cost is the sum of the actual cost of materials and direct labor hours charged at fixed hourly rates that reflect wages, general administrative expenses, and profit. (2 CFR 200.318)

For any purchase of $25,000 or more, the Superintendent or designee shall verify that any vendor which is used to procure goods or services is not excluded or disqualified by the federal government. (2 CFR 180.220, 200.214)

All solicitations shall incorporate a clear and accurate description of the technical requirements for the material, product, or service to be procured. Such description shall not, in competitive procurements, contain features which unduly restrict competition. The description shall avoid detailed product specifications to the extent possible, but may include a statement of the qualitative nature of the material, product, or service to be procured and, when necessary, shall set forth those minimum essential characteristics and standards to which it must conform if it is to satisfy its intended use. When it is impractical or not economical to make a clear and accurate description of the technical requirements, a brand name or equivalent description may be used to define the performance or other salient requirements of procurement, clearly stating the specific features of the named brand which must be met by offers. In addition, every solicitation shall identify all requirements which the offer must fulfill and any other factors to be used in evaluating bids or proposals. (2 CFR 200.319)

The Superintendent or designee shall maintain sufficient records to document the procurement, including, but not limited to, the rationale for the method of procurement, selection of the contract type, contractor selection or rejection, and the basis for the contract price. (2 CFR 200.318)

The Superintendent or designee shall ensure that all contracts for purchases using federal grant funds contain the applicable contract provisions described in Appendix II to Part 200 - Contract Provisions for Non-Federal Entity Contracts Under Federal Awards. (2 CFR 200.327)

Capital Expenditures

The Superintendent or designee shall obtain prior written approval from the awarding agency before using federal funds to make capital expenditures, including the acquisition of land, facilities, equipment, and intellectual property and expenditures to make additions, improvements, modifications, replacements, rearrangements, reinstallations, renovations, or alterations to capital assets that materially increase their value or useful life. (2 CFR 200.313, 200.439)

Conflict of Interest

Board of Trustees members, district employees, and other district representatives shall not participate in the selection, award, or administration of a contract supported by federal funds if they have a real or apparent conflict of interest, such as when they or a member of their immediate family, their partner, or an organization which employs or is about to employ any of them has a financial or other interest in or a tangible personal benefit from a firm considered for a contract. Such persons are prohibited from soliciting or accepting gratuities, favors, or anything of monetary value from contractors or subcontractors unless the gift is an unsolicited item of nominal value. (2 CFR 200.318)

Employees engaged in the selection, award, and administration of contracts shall also comply with BB 9270 - Conflict of Interest.

Persons involved in the selection, award, or administration of a contract supported by federal funds shall be subject to discipline for any violation of conflict of interest standards. (2 CFR 200.318)

Cash Management

The Superintendent or designee shall ensure the district's compliance with 2 CFR 200.305 pertaining to payments and cash management, including compliance with applicable methods and procedures that minimize the time elapsing between the transfer of funds to the district and the district's disbursement of funds. (2 CFR 200.305)

When authorized by law, the district may receive advance payments of federal grant funds, limited to the minimum amounts needed and timed in accordance with the actual immediate cash requirements of the district for carrying out the purpose of the program or project.

Except under specified conditions, the district shall maintain the advance payments in an interest-bearing account. The district shall remit interest earned on the advanced payment to the awarding agency on an annual basis, but may retain interest amounts specified in 2 CFR 200.305 for administrative expenses. (2 CFR 200.305)

When required by the awarding agency, the district shall instead submit a request for reimbursement of actual expenses incurred. The district may also request reimbursement as an alternative to receiving advance payments. (2 CFR 200.305)

The Superintendent or designee shall maintain source documentation supporting the expenditure of federal funds, such as invoices, time sheets, payroll stubs, or other appropriate documentation.

Personnel

All district employees who are paid in full or in part with federal funds shall document the amount of time they spend on grant activities. Such records shall be incorporated into the official records of the district and shall be subject to a system of internal controls which provides reasonable assurance that the charges are accurate, allowable, and properly allocated in accordance with 2 CFR 200.430. (2 CFR 200.430)

Salaries and wages of employees whose salary is paid with state or local funds but are used to meet a cost-sharing or matching requirement of the federal grant shall be documented in the same manner as salaries and wages claimed for reimbursement under a federal grant. (2 CFR 200.430)

Records

Except as otherwise provided in 2 CFR 200.334, or where state law or district policy requires a longer retention period, financial records, supporting documents, statistical records, and all other district records related to a federal award shall be retained for a period of three years from the date of submission of the final expenditure report or, for a federal award that is renewed quarterly or annually, from the date of the submission of the quarterly or annual financial report. (2 CFR 200.334)

Audits

Whenever the district expends $1,000,000 or more in federal grant funds during a fiscal year, it shall arrange for either a single audit or a program-specific audit in accordance with 2 CFR 200.507 or 200.514. (2 CFR 200.501)

The Superintendent or designee shall ensure that the audit meets the requirements specified in 2 CFR 200.500-200.521.

Specified records pertaining to the audit of federal funds expended by the district shall be transmitted to the clearinghouse designated by the federal Office of Management and Budget and shall be made available for public inspection. Such records shall be transmitted within 30 days after receipt of the auditor's report or within nine months after the end of the audit period, whichever is sooner, unless a longer period is agreed to in advance by the federal agency or a different period is specified in a program-specific audit guide. (2 CFR 200.512)

In the event that the audit identifies any deficiency, the Superintendent or designee shall promptly act to either correct the identified deficiency, produce recommended improvements, or demonstrate that the audit finding is invalid or does not warrant action. (2 CFR 200.26, 200.508, 200.511)

Policy 3260: Fees And Charges

Status: DRAFT

Original Adopted Date: 04/01/2014 **| Last Revised Date:** 12/01/2022

The Board of Trustees recognizes its responsibility to ensure that books, materials, equipment, supplies, and other resources necessary for student participation in the district's educational program are made available to students at no cost.

No student shall be required to pay a fee, deposit, or other charge for participation in an educational activity which constitutes an integral fundamental part of the district's educational program, including curricular and extracurricular activities. (Education Code 49010, 49011; 5 CCR 350)

As necessary, the Board may approve fees, deposits, and other charges which are specifically authorized by law. When approving such fees, deposits, or charges, establishing fee schedules, or determining whether waivers or exceptions should be granted, the Board shall consider relevant data, including the socioeconomic conditions of students' families and their ability to pay.

The prohibition against student fees shall not prevent the district from soliciting for donations, conducting fundraising activities, or providing prizes or other recognition for participants in such activities and events. The Superintendent or designee shall emphasize that participation of students, parents/guardians, district employees, volunteers, or educational or civic organizations in such activities and events is voluntary. The district shall not offer or award to a student any course credit or privileges related to educational activities in exchange for voluntary donations or participation in fundraising activities by or on behalf of the student. The district also shall not remove or threaten to remove from a student any course credit or privileges related to educational activities, or otherwise discriminate against the student, due to a lack of voluntary donations or participation in fundraising activities by or on behalf of the student.

The Superintendent or designee may provide information or professional development opportunities to administrators, teachers, and other personnel regarding permissible fees.

Complaints

A complaint alleging district noncompliance with the prohibition against requiring student fees, deposits, or other charges shall be filed in accordance with the district's procedures in BP/AR 1312.3 - Uniform Complaint Procedures. (Education Code 49013)

If, upon investigation, the district finds merit in the complaint, the Superintendent or designee shall recommend and the Board shall adopt an appropriate remedy to be provided to all affected students and parents/guardians in accordance with 5 CCR 4600.

Information related to the prohibition against requiring students to pay fees for participation in an educational activity shall be included in the district's annual notification of uniform complaint procedures to be provided to all students, parents/guardians, employees, and other interested parties pursuant to 5 CCR 4622. (Education Code 49013)

Collection of Debt

The Superintendent or designee shall, in accordance with law, recover any debt owed to the district as a result of unpaid permissible student fees approved by the Board. Policy 3270: Sale And Disposal Of Books, Equipment And Supplies

Status: DRAFT

Original Adopted Date: 10/01/2015 **| Last Revised Date:** 09/01/2016

The Board of Trustees recognizes its fiscal responsibility to maximize the use of district equipment, supplies, instructional materials, and other personal property while providing up-to-date resources that facilitate student learning and effective district operations. When the Board, upon recommendation of the Superintendent or designee, declares any district-owned personal property unusable, obsolete, or no longer needed, the Board shall determine the estimated value of the property and shall decide whether the property will be donated, sold, or otherwise disposed of as prescribed by law and administrative regulation.

The Board shall approve the price and terms of any sale or lease of personal property of the district.

If the Board members who are in attendance at a meeting unanimously agree that the property, whether one or more items, does not exceed $2,500 in value, the property may be sold without advertising for bids. (Education Code 17546)

If the Board members who are in attendance at a meeting unanimously find that the value of the property is insufficient to defray the costs of arranging a sale, the property may be donated to a charitable organization deemed appropriate by the Board or may be disposed of in the local public dump. (Education Code 17546)

Instructional materials shall be considered obsolete or unusable by the district if they have been replaced by more recent editions or new materials selected by the Board, are not aligned with the district's academic standards or course of study, and have no foreseeable value in other instructional areas. Such materials may be sold or donated if they continue to serve educational purposes that would benefit others outside the district. Instructional materials are not appropriate for sale or donation if they meet any of the following criteria:

1. Have been replaced by more recent editions or new materials selected by the Board and have no foreseeable value in other instructional areas
2. Are not aligned with the district's academic standards or course of study
3. Contain information rendered inaccurate or incomplete by new research or technologies
4. Contain demeaning, stereotyping, or patronizing references to any group of persons protected against discrimination by law or Board policy

At least 60 days before selling or donating surplus or undistributed obsolete instructional materials, the Superintendent or designee shall notify the public of the district's intention to do so through a public service announcement on a local television station, in a local newspaper, or by other means that will most effectively reach the entities described above. Equipment/Supplies Acquired with Federal Funds

When the district has a need to replace equipment originally purchased with funds from a federal grant or subgrant, it may, subject to the approval of the agency that awarded the grant, trade in the original equipment or sell the property and use the proceeds to offset the cost of the replacement property. (2 CFR 200.313)

When any original or replacement equipment or supplies acquired under a federal grant or subgrant are no longer needed for the original project or program or for other federally supported activities, the district may retain or sell such items or, if the item has a current fair market value of less than $5,000, may otherwise dispose of the item in a manner approved by the Board. Whenever the district sells equipment or supplies that have a current fair market value of $5,000 or more, it shall provide an amount to the federal agency equal to the agency's share of the current market value of the equipment or the proceeds from the sale of the equipment or supplies. (2 CFR 200.313, 200.314)

In the event that the district is provided equipment that is federally owned, the district shall request disposition instructions from the federal agency when it no longer needs the equipment. (2 CFR 200.313)

Other Personal Property

The district may sell other surplus or obsolete district-owned personal property through any of the following methods:

1. The Superintendent or designee may advertise for bids by posting a notice in at least three public places in the district for at least two weeks, or by publishing a notice at least once a week for at least two weeks in a

newspaper having a general circulation in the district and, if possible, publishing within the district. The district shall sell the property to the highest responsible bidder or shall reject all bids. (Education Code 17545, 17548)

Property for which no qualified bid has been received may be sold, without further advertising, by the Superintendent or designee. (Education Code 17546)

2. The property may be sold by means of a public auction conducted by district employees, employees of other public agencies, or by contract with a private auction firm. (Education Code 17545)

3. The district may sell the property without advertising for bids under any of the following conditions:

   a. The Board members in attendance at a meeting have unanimously determined that the property does not exceed $2,500 in value. (Education Code 17546)

   b. The district sells the property to agencies of the federal, state, or local government, to any other school district, or to any agency eligible under the federal surplus property law and the sale price equals the cost of the property plus the estimated cost of purchasing, storing, and handling. (Education Code 17540; 40 USC 549)

   c. The district sells or leases the property to agencies of the federal, state, or local government or to any other school district and the price and terms of the sale or lease are fixed by the Board and approved by the County Superintendent of Schools. (Education Code 17542)

Money received from the sale of surplus personal property shall be either deposited in the district reserve or general fund or credited to the fund from which the original purchase was made. (Education Code 17547)

Policy 3280: Sale Or Lease Of District-Owned Real Property

Status: DRAFT

Original Adopted Date: 07/01/2011 **| Last Revised Date:** 12/01/2024

The Board of Trustees believes that district facilities and resources should be utilized in an economical and practical manner. The Superintendent or designee shall periodically study the current and projected use of all district facilities to ensure the efficient utilization of space for the effective delivery of instruction.

Prior to the sale or lease of any surplus real property, the Board shall appoint a district advisory committee to advise the Board regarding the use or disposition of schools or school building space which is not needed for school purposes. The Board may elect not to appoint a district advisory committee for any of the following: (Education Code 17388, 17391)

1. A rental of property for a period of time not exceeding 30 days

2. A lease or rental of surplus property to a private educational institution for the purpose of offering summer school

3. A sale, lease, or rental of surplus property to be used for teacher or other employee housing

In addition, to ensure that the proposed disposition of the property conforms with any general plan adopted by the local planning agency that affects or includes the area where the surplus property is located, the Board shall submit a report to the local planning agency describing the location of the surplus property and the purpose and extent of the proposed sale or lease. (Government Code 65402)

The Board shall determine whether the sale or lease of the surplus property is subject to review under the California Environmental Quality Act. (Public Resources Code 21000-21177; 14 CCR 15061-15062)

The Board may meet in closed session with its real property negotiator prior to the sale or lease of real property by the district in order to grant its negotiator authority regarding the minimum price or rent and terms of the sale or lease. (Government Code 54956.8)

Before taking action to dispose of any land, the Board shall declare, at a regular meeting, supported by written findings that, under the Surplus Land Act, the land is either (1) surplus land or (2) exempt surplus land. (Government Code 54221)

However, if the land involved is exempt surplus land as specified in Government Code 54221(f)(1), the Board, at its discretion, may decide not to make such a declaration. Instead of the declaration, the Board may identify the land as exempt surplus land in a notice that is published and available for public comment and to the entities identified in Government Code 54222 at least 30 days before the exemption takes effect. (Government Code 54221)

Additionally, at least 30 days prior to disposing of exempt surplus land, the district shall provide the Department of Housing and Community Development (HCD) a copy of the Board's declarations and findings supporting the Board's determination that the land is exempt surplus land using the form prescribed by HCD. (Government Code 54221)

If the district has received notification from HCD that the district has violated the Surplus Land Act pursuant to Government Code 54230.5, the Board shall not pursue a final action to ratify or approve the proposed disposal of surplus land unless the Board holds an open and public meeting in compliance with Government Code 54230.7 to review and consider the substance of the notice.

When selling or leasing district real property, the Board shall comply with applicable procedures and give priority to specified public agencies as required by law. (Education Code 17230, 17464, 17485-17500; Government Code 54221-54234)

Resolution of Intention to Sell or Lease

Before ordering the sale or lease of any real property, the Board shall adopt a resolution by a two-thirds vote of all of its members at a regularly scheduled open meeting. The resolution shall describe the property proposed to be sold or leased in such a manner as to identify it, specify the minimum price or rent, describe the terms upon which it will be sold or leased, and specify the commission or rate, if any, which the Board will pay to a licensed real estate broker out of the minimum price or rent. The resolution shall fix a time, not less than three weeks thereafter, for a public

meeting, held at the Board's regular meeting place, at which sealed proposals to purchase or lease will be received and considered. (Education Code 17466)

The Superintendent or designee shall provide notice of the adoption of the resolution and of the time and place of the meeting that will be held to consider bids by posting copies of the resolution, signed by the Board, in three public places not less than 15 days before the date of the meeting. In addition, the notice shall be published at least once a week for three successive weeks before the meeting, in a newspaper of general circulation published in the county in which the district is located, if such a newspaper exists. (Education Code 17469)

At least 60 days prior to the public meeting, the Superintendent or designee shall take reasonable steps to provide written notification of the public meeting, by certified mail, to the former owner from whom the district acquired the property. (Education Code 17470)

Acceptance/Rejection of Bids

At the public meeting specified in the resolution of intention to sell or lease property, the Board shall open, examine, and declare all sealed bids. Before accepting a written proposal, the Board shall call for oral bids in accordance with law. (Education Code 17472, 17473)

The Board may reject any and all bids, either written or oral, and withdraw the properties from sale when the Board determines that rejection is in the best public interest. If no proposals are submitted or the submitted proposals do not conform to all the terms and conditions specified in the resolution of intention to lease, the Board may lease the property in accordance with Education Code 17477. (Education Code 17476, 17477)

Of the proposals submitted by responsible bidders which conform to all terms and conditions specified in the resolution of intention to sell or lease, the Board shall finally accept the highest bid after deducting the commission, if any, to be paid to a licensed real estate broker, unless the Board accepts a higher oral bid or rejects all bids. (Education Code 17472)

The final acceptance of the bid may be made either at the same meeting specified in the resolution or at any adjourned/continued meeting held within 10 days. Upon acceptance of the bid, the Board may adopt a resolution of acceptance that directs the Board President, or any other Board member, to execute the deed or lease and to deliver the document upon performance and compliance by the successful bidder of all of the terms and conditions of the contract. (Education Code 17475-17478)

Use of Proceeds

The Superintendent or designee shall ensure that the proceeds from the sale or lease with an option to purchase of surplus district property are used for one-time expenditures and not for ongoing expenditures such as salaries and general operating expenses. (Education Code 17462; 2 CCR 1700)

Pursuant to the authorization in Education Code 17463.7, the district may expend proceeds from the sale of surplus real property, along with the proceeds from any personal property located on that real property, for any one-time general fund purpose(s). Prior to exercising this authority, the Board shall certify to the State Allocation Board that: (Education Code 17463.7)

1. The district has no major deferred maintenance requirements not covered by existing capital outlay resources.

2. The sale of real property pursuant to Education Code 17463.7 does not violate the provisions of a local bond act.

3. The real property is not suitable to meet projected school construction needs for the next 10 years.

Proceeds from a sale of surplus district property shall generally be used for capital outlay or maintenance costs that the Board determines will not recur within a five-year period. Proceeds from a lease of district property with an option to purchase may be deposited into a restricted fund for the routine repair of district facilities, as defined by the State Allocation Board (SAB), for up to a five-year period. (Education Code 17462)

However, if the Board and SAB determine that the district has no anticipated need for additional sites or building construction for the next 10 years and no major deferred maintenance requirements, the proceeds from the sale or lease with an option to purchase may be deposited in a special reserve fund for the future maintenance and

renovation of school sites or in the district's general fund. (Education Code 17462)

Whenever the district sells real property that was purchased, improved, or modernized with funds that were received from a state school facilities funding program within the previous 10 years, the district shall notify OPSC within 90 calendar days of the sale of the property if the proceeds from the sale are not used for capital outlay and the property is not sold to a charter school, another school district, a county office of education, or an agency that will use the property exclusively for the delivery of child care and development services. If SAB subsequently makes a finding that the sale is subject to Education Code 17462.3, the district shall return the funds to the SAB within 90 calendar days of the finding. (2 CCR 1702)

Policy 3290: Gifts, Grants And Bequests

Status: DRAFT

Original Adopted Date: 10/01/1995 **| Last Revised Date:** 10/01/2018

The Board of Trustees may accept any gift, grant, or bequest of money, property, or service to the district from any individual, organization, foundation, or public or private agency that desires to support the district's educational program. While greatly appreciating suitable donations, the Board shall reject any gift which may directly or indirectly impair its authority to make decisions in the best interest of district students or its ability or commitment to provide equitable educational opportunities.

Before accepting any gift, grant, or bequest, the Board shall carefully consider any conditions or restrictions imposed by the donor to ensure their consistency with the district's vision, philosophy, and operations. If the Board believes the district will be unable to fully satisfy the donor's conditions, the gift shall not be accepted.

In addition, the Board shall ensure that acceptance of the gift, grant, or bequest does not:

1. Involve creation of a program which the Board would be unable to sustain when the donation is exhausted
2. Entail undesirable or excessive costs
3. Promote the use of violence, drugs, tobacco, or alcohol
4. Advertise or endorse the use of non-nutritious food or beverages during the school day
5. Encourage or enable the violation of any law or district policy
6. Imply endorsement of any business or product or unduly commercialize or politicize the school environment

Any gift of books or instructional materials may only be accepted if they meet district criteria for selection of instructional materials.

All gifts, grants, and bequests shall become district property. Donors are encouraged to donate all gifts to the district rather than to a particular school, classroom, or teacher. At the Superintendent or designee's discretion, a gift may be used at a particular school or classroom.

When any gift of money received by the district is not immediately used, it shall be placed in the county treasury in accordance with law. (Education Code 41030-41031)

The Superintendent or designee shall annually provide a report to the Board indicating the gifts, grants, and/or bequests received on behalf of the district in the preceding fiscal year. The report shall include a statement of account and expenditure of all gifts of money and an inventory of all gifts of physical assets.

Corporate Sponsorship

The Board may enter into an agreement or arrangement with an outside entity for the sponsorship of an educational, athletic, or other program or activity. When appropriate, the agreement may allow the outside entity to advertise or promote its business, product, or service in district publications or on district property or web sites.

Every sponsorship agreement shall be in writing and shall be approved by the Board. The Board shall ensure that the district's relationship and arrangement with the sponsor are consistent with the district's mission, values, and goals. Any advertising or promotional message, image, or other depiction to be used by the sponsor shall meet the standards set for commercial advertising on district property and in district-sponsored publications in accordance with BP 1325 - Advertising and Promotion.

Each sponsorship agreement shall contain statements including, but not limited to:

1. The purpose of the relationship with the sponsor, details of the benefits to the district, and how the benefits will be distributed
2. The duration of the agreement and the roles, expectations, rights, and responsibilities of the district and the sponsor, including whether and to what extent the sponsor is allowed to advertise or promote its products

and/or services

3. The authority of the Board to retain exclusive right over the use of the district's name, logo, and other proprietary information and the requirement that the sponsor obtain prior approval of the Board before using such information

4. The prohibition against the collection or distribution of students' personal information except as allowed by law

5. The authority of the Board to terminate the agreement without any penalty or sanction to the district if the sponsor's message, business, or product becomes inconsistent with the district's vision, mission, or goals or the sponsor engages in any prohibited activity

Online Fundraising

Any person or entity who wishes to conduct an online fundraising campaign, including a crowdfunding campaign, for the benefit of the district, a school, or a classroom shall submit a written request for prior approval to the Superintendent or designee. Approval of requests shall take into consideration compatibility with the district's vision and goals, core beliefs, instructional priorities, and infrastructure; the manner in which donations are collected and distributed; equity of the use of funds; and any other factors deemed relevant or appropriate by the district.

Any person or entity approved to conduct an online fundraising campaign shall comply with relevant district policies and procedures, including ensuring financial transparency in describing the purpose and use of the funds and protecting student privacy as applicable. Such person or entity shall specify that the district, rather than a staff member, classroom, or school, will own the funded resources.

Funds raised by an online fundraising campaign and donated to the district shall be subject to the same terms, criteria for acceptance, and accountability measures as any other donation as specified in this policy.

Appreciation

The Board may show appreciation for any donation to the district in any manner it deems appropriate. Such appreciation may take the form of letters of recognition or Board resolutions; plaques, commendations, or awards; planting of commemorative trees or gardens; or naming or renaming of buildings, grounds, or facilities. Conferment of any such honor shall be in accordance with applicable Board policy.

Policy 3300: Expenditures And Purchases

Status: DRAFT

Original Adopted Date: 02/01/1994 **| Last Revised Date:** 07/01/2006

The Board of Trustees recognizes its fiduciary responsibility to oversee the prudent expenditure of district funds. In order to best serve district interests, the Superintendent or designee shall develop and maintain effective purchasing procedures that are consistent with sound financial controls and that ensure the district receives maximum value for items purchased. He/she shall ensure that records of expenditures and purchases are maintained in accordance with law.

Expending Authority

The Superintendent or designee may purchase supplies, materials, apparatus, equipment, and services up to the amounts specified in Public Contract Code 20111, beyond which a competitive bidding process is required. The Board shall not recognize obligations incurred contrary to Board policy and administrative regulations.

The Board shall review all transactions entered into by the Superintendent or designee on behalf of the Board every 60 days. (Education Code 17605)

The Superintendent or designee may authorize an expenditure which exceeds the budget classification allowance against which the expenditure is the proper charge only if an amount sufficient to cover the purchase is available in the budget for transfer by the Board.

District funds shall not be expended for the purchase of alcoholic beverages. (Education Code 32435)

Purchasing Procedures

Insofar as possible, goods and services purchased shall meet the needs of the person or department ordering them at the lowest price consistent with standard purchasing practices. Maintenance costs, replacement costs, and trade-in values shall be considered when determining the most economical purchase price. When price, fitness, and quality are equal, recycled products shall be preferred when procuring materials for use in district schools and buildings.

All purchases shall be made by formal contract or purchase order or shall be accompanied by a receipt. In order to eliminate the processing of numerous small purchase orders, the Superintendent or designee may create a "blanket" or "open" purchase order system for the purchase of minor items as needed from a vendor. He/she shall ensure that the "open" purchase order system details a maximum purchase amount, the types of items that can be purchased under this order, the individuals authorized to approve purchases, and the expiration date of the "open" order.

Policy 3311: Bids

Status: DRAFT

Original Adopted Date: 08/01/2013 **| Last Revised Date:** 03/01/2025

The Board of Trustees is committed to promoting public accountability and ensuring prudent use of public funds. When leasing, purchasing, or contracting for equipment, materials, supplies, or services for the district, including when contracting for public projects involving district facilities, the Board shall explore lawful opportunities to obtain the greatest possible value for its expenditure of public funds. When required by law, or if the Board determines that it is in the best interest of the district, such contracts shall be made using competitive bidding.

No work, project, service, or purchase shall be split or separated into smaller work orders or projects for the purpose of evading legal requirements for competitive bidding. (Public Contract Code 20116)

The Superintendent or designee shall establish comprehensive bidding procedures for the district in accordance with Government Code 54202, and that meet the requirements for bidding procedures specified in law. The procedures shall include a process for advertising bids, instructions and timelines for submitting and opening bids, and other relevant requirements.

For award of contracts which, by law or Board policy, require prequalification, the procedures shall identify a uniform system for rating bidders on the basis of a completed questionnaire and financial statements.

When calling for bids, the Superintendent or designee shall ensure that the bid specifications clearly describe in appropriate detail the quality, delivery, service required, and include all information of which the district knows, or has in its possession, that is relevant to the work to be performed or that may impact the cost of performing the work.

Award of Contract

Contracts shall be let to the lowest responsible bidder who shall give such security as the Board requires, or else all bids shall be rejected. (Public Contract Code 20111)

However, the Board may let contracts to other than only the lowest responsible bidder in the following circumstances:

1. When the contract is for the procurement and/or maintenance of electronic data processing systems and supporting software, in which case the Board may contract with any one of the three lowest responsible bidders (Public Contract Code 20118.1)

2. When the contract is for any transportation service which involves an expenditure of more than $10,000 and which will be made with any person or corporation other than a common carrier, municipally owned transit system, or a parent/guardian of a student who is to be transported, in which case the Board may contract with other than the lowest bidder (Education Code 39802)

3. When the contract is one for which the Board has established goals and requirements relating to participation of disabled veteran or small business enterprises in accordance with Public Contract Code 2000-2002, in which case the Board may contract with the lowest responsible bidder who submits a responsive bid and complies or makes a good faith effort to comply with the goals and requirements (Public Contract Code 2000-2002)

4. When procuring a lease-leaseback contract, in which case the Board shall award the contract based on objective criteria for determining the best combination of price and qualifications in accordance with Education Code 17400 and 17406

5. When procuring a design-build contract for a public works project in excess of $1,000,000 in accordance with Education Code 17250.20, in which case the Board may award the contract to either the low bid or the best value to the district, taking into consideration, at a minimum, price, technical design and construction expertise, and life-cycle costs (Education Code 17250.20, 17250.25)

6. When procuring an alternative design-build contract for a public works project in excess of $5,000,000 in accordance with Education Code 17250.62, in which case the Board may award the contract to either the low

bid or the best value, taking into consideration, at a minimum, design cost, general conditions, overhead, and profit as a component of the project price; technical design and construction expertise; and life-cycle costs (Education Code 17250.61, 17250.62)

Protests by Bidders

If the bidder believes that the award is not in compliance with law, Board policy, administrative regulation, or the bid specification, the bidder may protest the award. A protest must be filed in writing with the Superintendent or designee within five working days after receipt of notification of the contract award and shall include all documents supporting or justifying the protest. A bidder's failure to file the protested documents in a timely manner shall constitute a waiver of the right to protest the award of the contract.

The Superintendent or designee shall review the documents submitted with the bidder's claims and render a decision in writing within 30 working days. The Superintendent or designee may also convene a meeting with the bidder in order to attempt to resolve the problem.

The bidder may appeal the Superintendent or designee's decision to the Board. The Superintendent or designee shall provide notice to the bidder of the date and time for Board consideration of the protest at least three business days before the Board meeting. The Board's decision shall be final.

Bids Not Required

When the Board has determined that it is in the best interest of the district, the district may piggyback onto the contract of another public agency or corporation to lease or purchase any personal property, including the lease of data-processing equipment or the purchase of materials, supplies, equipment, automotive vehicles, tractors, and other personal property for the district in the manner that the other public corporation or agency is authorized to make the leases or purchases from a vendor. (Public Contract Code 20118)

Alternatively, if the public corporation or agency has an existing contract with a vendor for the lease or purchase of personal property, the district may authorize the lease or purchase of personal property directly from the vendor and make payments under the same terms that are available to the public corporation or agency under the contract. (Public Contract Code 20118)

Without advertising for bids, the Board may enter into an energy service contract and any related facility ground lease, when it determines that the terms of the contract and lease are in the best interest of the district and meet the cost effectiveness requirements specified in Government Code 4217.12. The Board's determination shall be made at a regularly scheduled public hearing of which notice is given to the public at least two weeks in advance and shall be based on a cost and saving comparison finding specified in Government Code 4217.12. (Government Code 4217.12)

In an emergency when any repairs, alterations, work, or improvement to any school facility is necessary to permit the continuance of existing school classes or to avoid danger to life or property, the Board may, by unanimous vote and with the approval of the County Superintendent of Schools, contract for labor and materials or supplies without advertising for or inviting bids or may authorize the use of day labor or force account for the emergency purpose. (Public Contract Code 1102, 20113)

Regulation 3311: Bids

Status: DRAFT

Original Adopted Date: 10/01/2015 **| Last Revised Date:** 03/01/2025

Advertised/Competitive Bids

The district shall advertise for any of the following: (Public Contract Code 20111)

1. A public project contract that involves an expenditure of $15,000 or more, including a contract for construction, reconstruction, erection, alteration, renovation, improvement, painting, repainting, demolition, or repair work involving a district owned, leased, or operated facility

2. A contract that exceeds the amount specified in law, as annually adjusted by the Superintendent of Public Instruction, for any of the following:

    a. The purchase of equipment, materials, or supplies to be furnished, sold, or leased to the district

    b. Services, not including construction services or special services and advice in accounting, financial, legal, or administrative matters

    c. Repairs that are not a public project, including maintenance

    d. Architectural services, construction management services and program management services.

Maintenance means routine, recurring, and usual work for preserving, protecting, and keeping a district facility operating in a safe, efficient, and continually usable condition for the intended purpose for which it was designed, improved, constructed, altered, or repaired. Maintenance includes, but is not limited to, carpentry, electrical, plumbing, glazing, and other craft work designed to preserve the facility, as well as repairs, cleaning, and other operations on machinery and other permanently attached equipment. Maintenance also includes landscape maintenance, including mowing, watering, trimming, pruning, planting, replacement of plants, and servicing of irrigation and sprinkler systems. Maintenance does not include painting, repainting, or decorating, other than minor repainting; janitorial or custodial services; and protection provided by security forces. (Public Contract Code 20115, 22002)

Instructions and Procedures for Advertised Bids

The Superintendent or designee shall call for bids by placing a notice at least once a week for two weeks in a local newspaper of general circulation published in the district, or if no such newspaper exists, then in some newspaper of general circulation that is circulated in the county. Additionally, the Superintendent or designee may post the notice on the district's website or through an electronic portal. The notice shall state the work to be done or materials or supplies to be furnished and the time and place and website where bids will be opened. (Public Contract Code 20112)

The notice shall contain the time, date, and location of any mandatory prebid conference, site visit, or meeting and details regarding when and where project documents, including the final plan and specifications, are available. Any such mandatory visit or meeting shall occur not less than five calendar days after the publication of the initial notice. (Public Contract Code 6610)

For lease-leaseback, design-build, and alternative design-build projects, the notice shall additionally specify that the project is subject to skilled and trained workforce requirements. (Education Code 17250.25, 17250.62, 17407.5; Public Contract Code 2600, 6610)

Bid instructions and specifications shall include the following requirements and information:

1. All bidders shall certify in writing the minimum, if not exact, percentage of post-consumer materials in products, materials, goods, or supplies offered or sold (Public Contract Code 22152)

2. All bids for construction work shall be presented under sealed cover (Public Contract Code 20111)

    The district may accept a bid that has been submitted electronically or on paper. (Public Contract Code 20111, 20112)

The bid shall be accompanied by a form of bidder's security, including either cash, a cashier's check payable to the district, a certified check made payable to the district, or a bidder's bond executed by an admitted surety insurer and made payable to the district. The security of unsuccessful bidders shall be returned in a reasonable period of time, but in no event later than 60 days after the bid is awarded. (Public Contract Code 20111, 20112)

3. When a standardized proposal form is provided by the district, bids not presented on the standard form shall be disregarded (Public Contract Code 20111.5)

4. Bids shall not be accepted after the advertised bid opening time, regardless of whether the bids are actually opened at that time (Public Contract Code 20112)

5. When two or more identical lowest or highest bids are received, the Board of Trustees may determine by lot which bid shall be accepted (Public Contract Code 20117)

6. If the district requires that the bid includes prices for items that may be added to or deducted from the scope of work in the contract, the bid solicitation shall specify which one of the following methods will be used to determine the lowest bid (Public Contract Code 20103.8)

   In the absence of such a specification, only the method provided in Item #6a below shall be used. (Public Contract Code 20103.8)

   a. The lowest bid shall be the lowest total of the bid prices on the base contract without consideration of the prices on the additive or deductive items

   b. The lowest bid shall be the lowest total of the bid prices on the base contract and those additive or deductive items that were specifically identified in the bid solicitation as being used for the purpose of determining the lowest bid price

   c. The lowest bid shall be the lowest total of the bid prices on the base contract and those additive or deductive items that, when taken in order from a specifically identified list of those items in the solicitation, and added to or subtracted from the base contract, are less than or equal to a funding amount publicly disclosed by the district before the first bid is opened (Public Contract Code 20103.8)

      The lowest bid shall be determined in a manner that prevents any information that would identify any of the bidders or proposed subcontractors or suppliers from being revealed to the district before the ranking of all bidders from lowest to highest has been determined. (Public Contract Code 20103.8)

7. In determining the lowest bid, the district shall consider only responsive bids that conform to bid specifications and are submitted by responsible bidders who have demonstrated trustworthiness, quality, fitness, capacity, and experience to satisfactorily perform the public works contract

   a. When a bid is determined to be nonresponsive, the Superintendent or designee shall notify the bidder and give the bidder an opportunity to respond to the determination

   b. When the lowest bidder is determined to be nonresponsible, the Superintendent or designee shall notify the bidder of the right to present evidence of the bidder's responsibility at a hearing before the Board

8. After being opened, all submitted bids become public records pursuant to Government Code 7920.530 and shall be made available for public review pursuant to law, Board policy, and administrative regulation

Prequalification Procedure

When required by law or the Board, the Superintendent or designee shall establish a uniform system for rating bidders on the basis of completed questionnaires and financial statements in order to determine the size of contracts on which each bidder is qualified to bid. For this purpose, the Superintendent or designee shall furnish prospective bidders a standardized prequalification questionnaire and financial record which, when completed, shall indicate a bidder's statement of financial ability and experience in performing public works. The bidder's information shall be verified under oath in the manner in which civil law pleadings are verified. The questionnaires and financial statements shall not be public records and shall not be open to public inspection. (Code of Civil Procedure 446;

Public Contract Code 20111.5, 20111.6)

When any public project involves an expenditure of $1,000,000 or more and is funded or reimbursed wholly or partly by state general funds, the School Facilities Program funds, or other future state school bond, the district shall prequalify prospective bidders either quarterly or annually. The prequalification shall be valid for one year and the following requirements shall apply: (Public Contract Code 20111.6)

1. Prospective bidders, including, but not limited to, prime, general engineering, and general building contractors and electrical, mechanical, and plumbing subcontractors, as defined in Public Contract Code 4113 or Business and Professions Code 7056 or 7057, as applicable, shall submit a standardized questionnaire and financial statement 10 or more business days, as determined by the district, before the date fixed for the public opening of sealed bids

2. Prospective bidders shall be prequalified by the district five or more business days, as determined by the district, before the date fixed for the public opening of sealed bids

If the project includes electrical, mechanical, or plumbing components that will be performed by electrical, mechanical, or plumbing contractors, the Superintendent or designee shall make available to all bidders a list of prequalified general contractors and electrical, mechanical, and plumbing subcontractors five or more business days, as determined by the district, before the date fixed for the public opening of sealed bids. (Public Contract Code 20111.6)

For all other contracts requiring competitive bidding, the district may establish a procedure for prequalifying bidders on a quarterly basis and may authorize that prequalification be considered valid for up to one calendar year following the date of the initial prequalification. Prospective bidders for such contracts shall submit the questionnaire and financial statement at least five days before the date fixed for public opening of sealed bids and shall be prequalified by the district at least one day before the fixed bid-opening date. (Public Contract Code 20111.5)

Limitation on Use of Sole Sourcing

In any contract for the construction, alteration, or repair of school facilities, the Superintendent or designee shall ensure that the bid specification: (Public Contract Code 3400)

1. Does not directly or indirectly limit bidding to any one specific concern

2. Does not call for a designated material, product, thing, or service by a specific brand or trade name, unless the specification is followed by the words "or equal," so that bidders may furnish any equal material, product, thing, or service

   In any such case, the bid specification shall provide a time period, before and/or after the award of the contract, for the contractor to submit data substantiating the request for substituting the designated material, product, thing, or service. If no such time period is specified, the contractor may submit the data within 35 days after the award of the contract.

When the bid is for a roof project, a material, product, thing, or service is considered "equal" to that designated if it is equal in quality, durability, design, and appearance; will perform the intended function equally well; and conforms substantially to the detailed requirements in the bid specification. (Public Contract Code 3002)

However, the Superintendent or designee may designate a specific material, product, thing, or service by brand or trade name, also known as sole sourcing, if the Board has made a finding, described in the invitation for bids or request for proposals (RFP), that a particular material, product, thing, or service is designated for any of the following purposes: (Public Contract Code 3400)

1. To conduct a field test or experiment to determine its suitability for future use

2. To match others in use on a particular public improvement that has been completed or is in the course of completion

3. To obtain a necessary item that is only available from one source

4. To respond to the Board's declaration of an emergency, so long as the declaration has been approved by four-

fifths of the Board when issuing the invitation for bid or RFP

Bids Not Required

Without taking estimates or advertising for bids, supplementary textbooks, library books, educational films, audiovisual materials, test materials, workbooks, instructional computer software packages, or periodicals may be purchased in any amount. (Public Contract Code 20118.3)

Perishable foodstuffs and seasonal commodities needed in the operations of cafeterias may be purchased through bid or on the open market. (Education Code 38083)

Bids shall not be required for day labor under circumstances specified in Public Contract Code 20114. Day labor shall include the use of maintenance personnel employed on a permanent or temporary basis. (Public Contract Code 20114)

The district may purchase any surplus property from the federal government or any of its agencies in any quantity needed for the operation of its schools without taking estimates or advertising for bids. (Education Code 17602)

Policy 3311.1: Uniform Public Construction Cost Accounting Procedures

Status: DRAFT

Original Adopted Date: 12/01/2016 **| Last Revised Date:** 03/01/2025

In awarding contracts for public works projects involving district facilities, the Board of Trustees desires to obtain the best value to the district and ensure the qualifications of contractors to complete the project in a satisfactory manner. The Board has, by resolution, adopted the procedures set forth in the Uniform Public Construction Cost Accounting Act (UPCCAA) pursuant to Public Contract Code 22030-22045, including the informal bidding procedures when allowed by law.

The Board delegates to the Superintendent or designee the responsibilities to award any contract eligible for informal bidding procedures and to develop plans, specifications, and working details for all public projects requiring formal bidding procedures.

No work, project, service, or purchase shall be split or separated into smaller work orders or projects for the purpose of evading legal requirements for competitive bidding. (Public Contract Code 22033)

If after the first invitation of bids pursuant to informal or formal bidding procedures under UPCCAA all bids are rejected, the Board may, by passage of a resolution by four-fifths vote, declare the project can be performed more economically by the employees of the district. (Public Contract Code 22038)

Projects awarded through UPCCAA shall be subject to the cost accounting procedures established by the California Uniform Construction Cost Accounting Commission. (Public Contract Code 22030)

Emergency Actions

When formal bids are required by law, but an emergency necessitates immediate repair or replacements, the Board may, upon a four-fifths vote of the Board, proceed to replace or repair a facility without adopting plans, specifications, strain sheets, or working details, or giving notice for bids to let contracts. The work may be done by day labor under the direction of the Board and/or contractor. The emergency action shall subsequently be reviewed by the Board in accordance with Public Contract Code 22050 and shall be terminated at the earliest possible date that conditions warrant, so that the remainder of the emergency action may be completed by giving notice for bids to let contracts. (Public Contract Code 1102, 22035, 22050)

Such notice shall be mailed at least two business days prior to the hearing at which the district intends to reject the bid.

Regulation 3311.2: Lease-Leaseback Contracts

Original Adopted Date: 12/01/2016 **| Last Revised Date:** 03/01/2021

The district may lease currently owned district property to any person, firm, or corporation for a minimum of $1 per year for a term not to exceed 99 years, as long as the lease requires the person, firm, or corporation to construct a building or buildings on the property for the district's use during the lease and the property and building(s) will vest in the district at the expiration of the lease ("lease-leaseback"). (Education Code 17403, 17406)

Before the district enters into such a lease or agreement, it shall have available a site upon which a building may be constructed for use by the district, shall have complied with requirements related to the selection and approval of sites, and shall have prepared and adopted plans and specifications for the building that have been approved in accordance with Education Code 17280-17316. (Education Code 17402)

Procedures for Awarding the Contract

The district's intent to enter into a lease-leaseback contract may be described in a resolution adopted by the Board of Trustees which includes, but is not limited to, a description of the available site and the building to be constructed, the amount and term of the lease, and where to obtain information about the procedures for submitting a proposal.

Any lease-leaseback contract shall be awarded through a competitive "best value" procurement process whereby a person, firm, or corporation is selected on the basis of objective criteria for evaluating the qualifications of proposers, with the resulting selection representing the best combination of price and qualifications. (Education Code 17400, 17406)

To make this determination, the district shall use the following procedures: (Education Code 17406; Public Contract Code 2600)

1. Request for Sealed Proposals: The Superintendent or designee shall prepare a request for sealed proposals which shall include:

    a. An estimate of the project's price

    b. A clear, precise description of any preconstruction services that may be required and the facilities to be constructed

    c. The key elements of the contract to be awarded

    d. A description of the format that proposals shall follow and the elements they shall contain

    e. The standards the district will use in evaluating proposals and the qualifications of the proposers, including:

        i. Relevant experience

        ii. Safety record

        iii. Price proposal, including, at the district's discretion, either a lump-sum price for the contract to be awarded or the proposer's proposed fee to perform the services requested, including the proposer's proposed fee to perform preconstruction services or any other work related to the facilities to be constructed, as requested by the district

        iv. Whether each criterion will be evaluated on a pass-fail basis or will be scored as part of the "best value" score, and whether proposers must achieve any minimum qualification score for award of the contract

        v. For each scored criterion, the methodology and rating or weighting system that will be used by the district in evaluating the criterion, including the weight assigned to the criterion and any minimum acceptable score

vi. Other factors established by the district

f. The date on which proposals are due

g. The timetable the district will follow in reviewing and evaluating proposals

h. A statement that the project is subject to the skilled and trained workforce requirements specified in Public Contract Code 2600-2603

2. Notice: At least 10 days before the date for receipt of the proposals, the Superintendent or designee shall give notice of the request for sealed proposals using both of the following methods:

   a. Providing notice at least once a week for two weeks in a local newspaper of general circulation pursuant to Public Contract Code 20112

   b. Providing notice in a trade paper of general circulation published in the county where the project is located

   The Superintendent or designee also may post the notice on the district's web site or through an electronic portal.

3. Prequalification: A proposer shall be prequalified in accordance with Public Contract Code 20111.6(b)-(m) in order to submit a proposal. Any electrical, mechanical, and plumbing subcontractors shall be subject to the same prequalification requirements.

4. Evaluation of Proposals: All proposals received shall be reviewed to determine whether they meet the format requirements and the standards specified in the request for sealed proposals. The district shall evaluate the qualifications of the proposers based solely upon the criteria and evaluation methodology set forth in the request for sealed proposals, and shall assign a best value score to each proposal. Once the evaluation is complete, all responsive proposals shall be ranked from the highest best value to the lowest best value to the district.

5. Award of Contract: The award of the contract shall be made by the Board to the responsive proposer whose proposal is determined, in writing by the Board, to be the best value to the district.

   If the selected proposer refuses or fails to execute the tendered contract, the Board may award the contract to the proposer with the second highest best value score, if deemed in the best interest of the district. If that proposer then refuses or fails to execute the tendered contract, the Board may award the contract to the proposer with the third highest best value score.

   Upon issuance of a contract award, the district shall publicly announce its award, identifying the entity to which the award is made, along with a statement regarding the basis of the award. The statement regarding the contract award and the contract file shall provide sufficient information to satisfy an external audit.

6. Rejection of Proposals: At its discretion, the Board may reject all proposals and request new proposals.

Any lease-leaseback agreement shall be reviewed by the district's legal counsel to ensure that all required terms, including a lease term that provides for the district's occupancy of the building or improved property during the lease and an appropriate financing component, are included in the agreement.

Skilled and Trained Workforce

Prior to entering into a lease-leaseback agreement, the Superintendent or designee shall have on file the contractor's enforceable commitment that the contractor and its subcontractors at every tier will use a skilled and trained workforce to perform all work on the project or contract that falls within an apprenticeable occupation in the building and construction trades. The entity may demonstrate such commitment through a project labor agreement, by becoming a party to the district's project labor agreement, or through an agreement with the district to provide evidence of compliance on a monthly basis during the performance of the project or contract. (Education Code 17407.5; Public Contract Code 2602)

Skilled and trained workforce means that all the workers performing the work are either skilled journeypersons or

apprentices registered in a state-approved apprenticeship program. At least 60 percent of the skilled journeypersons employed to perform the work shall be graduates of an apprenticeship program for the applicable occupation or at least 60 percent of the hours worked by skilled journeypersons shall be performed by graduates of an apprenticeship program, with the exception of certain occupations specified in Public Contract Code 2601 which are subject to a 30 percent threshold. (Public Contract Code 2601)

If the contractor fails to provide the monthly report demonstrating compliance with the skilled and trained workforce requirements or provides an incomplete report, the district shall withhold further payments until a complete report is provided. If a report does not demonstrate compliance with the skilled and trained workforce requirements, the district shall withhold further payments until the contractor provides a sufficient plan to achieve substantial compliance with respect to the relevant apprenticeable occupation, prior to completion of the contract or project. In addition, the district shall forward to the Labor Commissioner a copy of the monthly report, any plan to achieve compliance, and the district's response to that plan. (Public Contract Code 2602)

Regulation 3311.3: Design-Build Contracts

Status: DRAFT

Original Adopted Date: 12/01/2016 **| Last Revised Date:** 09/01/2023

Until January 1, 2025, the Board of Trustees may approve a design-build contract with a single entity for both design and construction of any school facility in excess of $1,000,000, awarding the contract to either the low bid or the best value as determined by evaluation of objective criteria. (Education Code 17250.20)

Additionally, until January 1, 2029, the Board may approve an alternative design-build contract with a single entity for both design and construction of any school facility in excess of $5,000,000. Such contracts may be awarded to the low bid or the best value, taking into consideration, at a minimum, design cost, general conditions, overhead, and profit as a component of the project price, technical design and construction expertise, and life-cycle costs. The district's determination of price shall be based on the open book evaluation of construction subcontracts. The contract may be subject to further negotiations or amendment and may be terminated by the district if the district and the design-build entity are unable to reach an agreement. (Education Code 17250.61, 17250.62, 17250.65)

Design-build documents shall not include provisions for long-term project operations, but may include operations during a training or transition period. (Education Code 17250.25, 17250.62)

Procedures for Awarding the Contract

The procurement process for design-build and alternative design-build projects shall be as follows: (Education Code 17250.25, 17250.35, 17250.62, 17250.65; Public Contract Code 2600)

1. Performance Specifications: The district shall prepare a set of documents setting forth the scope and estimated price of the project. The documents may include, but are not limited to:

    a. The size, type, and desired design character of the project

    b. Performance specifications that cover the quality of materials, equipment, and workmanship

    c. Preliminary plans or building layouts

    d. Any other information deemed necessary to describe adequately the district's needs

    The performance specifications and any plans shall be prepared by a design professional who is duly licensed and registered in California.

2. Prequalification: The district shall prepare and issue a request for qualifications in order to prequalify, or develop a short list of, the design-build entities whose proposals shall be evaluated for final selection. The request for qualifications shall include, but is not limited to, all of the following elements:

    a. Identification of the basic scope and needs of the project or contract, the expected cost range, the methodology that will be used by the district to evaluate proposals, the procedure for final selection of the design-build entity, and any other information deemed necessary by the district to inform interested parties of the contracting opportunity

    b. Significant factors that the district reasonably expects to consider in evaluating qualifications, including technical design and construction expertise, acceptable safety record, and all other non-price-related factors

    c. A standard template request for statements of qualifications prepared by the district, which shall contain all of the information required pursuant to Education Code 17250.25 or 17250.62

    d. A notice that the project is subject to the skilled and trained workforce requirements specified in Public Contract Code 2600-2603

    The district also may identify specific types of subcontractors that must be included in the statement of qualifications and proposal.

3. Request for Proposals: The district shall prepare a request for proposals (RFP) that invites prequalified or short-listed entities to submit competitive sealed proposals in a manner prescribed by the district. The RFP shall include the information identified in Items #2a, 2b, and 2d above and the relative importance or weight assigned to each of the factors. If the district uses a best value selection method for a project, the district may reserve the right to request proposal revisions and hold discussions and negotiations with responsive proposers, in which case the district shall so specify in the request for proposals and shall publish separately or incorporate into the request for proposals applicable procedures to be observed by the district to ensure that any discussions or negotiations are conducted in good faith.

4. Selection Based on Low Bid: For those projects utilizing low bid as the final selection method, the bidding process shall result in lump-sum bids by the prequalified or short-listed design-build entities, and the contract shall be awarded to the lowest responsible bidder

5. Selection Based on Best Value: For those projects utilizing best value as a selection method, the following procedures shall be used:

    a. Competitive proposals shall be evaluated using only the criteria and selection procedures specifically identified in the request for proposals. Criteria shall be weighted as deemed appropriate by the district. The proposal for a design-build project, as specified in 17250.25, shall, at a minimum, include price, unless a stipulated sum is specified; technical design and construction experience; and life-cycle costs over 15 or more years. The proposal for an alternative design-build project, as specified in 17250.62, shall, at a minimum, include design cost, general conditions, overhead, and profit as a component of the project price, unless a stipulated sum for the project is specified; technical design and construction expertise; and life-cycle costs over 15 or more years.

    b. Following any discussions or negotiations with responsive proposers and completion of the evaluation process, the responsive proposers shall be ranked on a determination of value provided, provided that no more than three proposers are required to be ranked

    c. The contract shall be awarded to the responsible entity whose proposal is determined by the district to have offered the best value to the public

    d. The district shall publicly announce the contract award, identifying the entity to which the award is made and the basis of the award. This statement and the contract file shall provide sufficient information to satisfy an external audit.

Skilled and Trained Workforce

A design-build entity shall not be prequalified or short-listed unless the entity provides an enforceable commitment to the district that the entity and its subcontractors at every tier will use a skilled and trained workforce to perform all work on the project or contract that falls within an apprenticeable occupation in the building and construction trades. The entity may demonstrate such commitment through a project labor agreement, by becoming a party to the district's project labor agreement, or through an agreement with the district to provide evidence of compliance on a monthly basis during the performance of the project or contract. (Education Code 17250.25, 17250.62; Public Contract Code 2602)

Skilled and trained workforce means that all the workers performing the work are either skilled journeypersons or apprentices registered in a state-approved apprenticeship program. At least 60 percent of the skilled journeypersons employed to perform the work shall be graduates of an apprenticeship program for the applicable occupation or at least 60 percent of the hours worked by skilled journeypersons shall be performed by graduates of an apprenticeship program, with the exception of certain occupations specified in Public Contract Code 2601 which are subject to a 30 percent threshold. (Public Contract Code 2601)

If the contractor fails to provide the monthly report demonstrating compliance with the skilled and trained workforce requirements or provides an incomplete report, the district shall withhold further payments until a complete report is provided. If a report does not demonstrate compliance with the skilled and trained workforce requirements, the district shall withhold further payments until the contractor provides a sufficient plan to achieve substantial compliance with respect to the relevant apprenticeable occupation, prior to completion of the contract or project. In addition, the district shall forward to the Labor Commissioner a copy of the monthly report, any plan to achieve compliance, and the district's response to that plan. (Public Contract Code 2602)

Regulation 3311.4: Procurement Of Technological Equipment

Status: DRAFT

Original Adopted Date: 12/01/2016

Rather than seek competitive bids, the district may use competitive negotiation when it makes a finding that a district procurement is for computers, software, telecommunications equipment, service licenses, or other related electronic equipment and apparatus in excess of current state defined limits that require RFP. Competitive negotiation shall not be used to contract for any product that is available in substantial quantities to the general public. (Public Contract Code 20118.2)

Whenever the competitive negotiation process is determined to be appropriate for such procurements, the district shall use the following procedures: (Public Contract Code 20118.2)

1. The Superintendent or designee shall prepare a request for proposals (RFP) that shall be submitted to an adequate number of qualified sources, as determined by the district, to permit reasonable competition consistent with the nature and requirement of the procurement.

2. Notice of the RFP shall be published at least twice in a newspaper of general circulation, at least 10 days before the date for receipt of the proposals.

3. The Superintendent or designee shall make every effort to generate the maximum feasible number of proposals from qualified sources, and shall make a finding to that effect before proceeding to negotiate if only a single response to the RFP is received.

4. The RFP shall identify all significant evaluation factors, including price, and their relative importance.

5. The Superintendent or designee shall provide reasonable procedures for the technical evaluation of the RFPs received, the identification of qualified sources, and the selection for the award of the contract.

6. The Board of Trustees shall award the contract to the qualified bidder whose proposal meets the evaluation standards and will be most advantageous to the district, considering price and all other factors.

7. If the Board does not award the contract to the bidder whose proposal contains the lowest price, then the Board shall make a finding setting forth the basis for the award to another bidder.

8. The Board, at its discretion, may reject all proposals and request new RFPs.

Provisions in any contract concerning utilization of small business enterprises that are in accordance with the RFP shall not be subject to negotiation with the successful proposer. (Public Contract Code 20118.2)

Policy 3312: Contracts

Status: DRAFT

Original Adopted Date: 11/01/2003 **| Last Revised Date:** 03/01/2025

The Board of Trustees recognizes its responsibility to enter into contracts on behalf of the district for the acquisition of equipment, supplies, services, and other resources necessary for the achievement of district goals. In exercising this authority to enter into a contract, the Board shall ensure that the district's interests are protected and that the terms of the contract conform to any applicable legal standards, including, but not limited to, bidding requirements in Public Contract Code 20111.

Board members and district employees involved in the making of contracts on behalf of the district shall comply with applicable law and the district's conflict of interest policy, as specified in Board Bylaw 9270 - Conflict of Interest.

The Board may, by a majority vote, delegate to the Superintendent or designee the authority to enter into contracts on behalf of the district. To be valid or to constitute an enforceable obligation against the district, all such contracts must be approved and/or ratified by the Board. (Education Code 17604, 17605, 35161)

Unless otherwise exempt from disclosure under state or federal law, executed contracts for the purchase of goods or services, even if the contract contains provisions specifying that the contract is confidential or a proprietary record of the vendor, are public records to which members of the public shall have access. (Government Code 7928.801)

No contract shall prohibit a district employee from disparaging the goods or services of any contracting party. (Education Code 35182.5)

If the district utilizes a private labor compliance entity, the Superintendent or designee shall verify that the entity does not have a conflict of interest. (Labor Code 1771.8)

A *private labor compliance entity* is a third-party company hired by a district to perform labor compliance and enforcement activities on public works projects on the district's behalf. (Labor Code 1771.8)

A *conflict of interest* is a situation in which a private labor compliance entity performs labor compliance work under contract for both the district and a contractor who is bidding a public works project for the district. (Labor Code 1771.8)

If the district's private labor compliance entity seeks to respond to an alleged conflict of interest, the Superintendent or designee shall confer with the entity and/or the contractor regarding the applicable contracts and relevant public works law. (Labor Code 1771.8)

Contracts for Non-Nutritious Foods or Beverages

The district shall not enter into or renew a contract for the sale of foods or beverages that do not meet applicable nutritional standards specified in Education Code 49431-49431.7, 5 CCR 15500-15501 or 15575-15578, or 7 CFR 210.11 or 220.12, unless the contract specifies that such sale will occur off campus or outside the time restriction specified in applicable law.

Before the district enters into or renews a contract that grants exclusive or nonexclusive advertising or sale of carbonated beverages, non-nutritious beverages, or non-nutritious foods as defined in law, the Board shall ensure that the district has sufficient internal controls in place to protect the integrity of public funds and to ensure that funds raised as a result of the contract benefit public education. (Education Code 35182.5)

The Superintendent or designee shall develop the district's internal control procedures to protect the integrity of public funds. Such internal controls may include, but are not limited to, the following:

1. Procedures that produce accurate and reliable financial statements and, at the same time, safeguard the assets, financial resources, and integrity of every employee responsible for handling money or property

   Control systems shall be systematically evaluated and revised to keep pace with the changing responsibilities of management.

2. Procedures to ensure that district personnel do not handle cash or product at the school site

The contract shall specify that the vendor stock the machines and shall provide cash accounting, along with a check, for district proceeds directly to the control office.

To ensure that funds raised by the contract benefit district schools and students:

1. The Superintendent or designee may invite parents/guardians, students, staff, and interested community members to make recommendations regarding the contract, including recommendations as to how the funds will be spent in a manner that benefits public education

2. Prior to ratifying the contract, the Board shall designate the specific programs and activities that will be funded by the proceeds of the contract and consider how the contract reflects the district's vision and goals

3. The contract shall specify that the contractor report, on a quarterly basis, to the Superintendent or designee the number of food items or beverages sold within the district and the amount of money raised by the sales

   The Superintendent or designee shall report these amounts to the Board on a regular basis.

4. The Superintendent or designee shall ensure that the contract does not limit the ability of student and parent organizations to plan and operate fundraising activities

Any contract for the sale or advertisement of non-nutritious foods or carbonated or non-nutritious beverages shall be entered into on a competitive bid basis pursuant to Public Contract Code 20111 or through the issuance of a Request for Proposal. (Education Code 35182.5)

The Board shall not enter into or renew any contract that grants exclusive or nonexclusive advertising or sale of carbonated beverages, non-nutritious beverages, on non-nutritious foods until parents/guardians, students, and members of the public have had an opportunity to comment on the contract at a public hearing held during a regularly scheduled Board meeting. The Board shall clearly, and in a manner recognizable to the general public, identify in the agenda the contract to be discussed at the meeting. (Education Code 35182.5)

The public hearing shall include, but not be limited to, a discussion of the nutritional value of foods and beverages sold within the district; the availability of fresh fruit, vegetables, and grains in school meals and snacks, including locally grown and organic produce; the amount of fat, sugar, and additives in the foods and beverages discussed; and barriers to student participation in school breakfast and lunch programs. (Education Code 35182.5)

The contract shall be a public record and shall be accessible to the public. The district may not include a confidentiality clause that would prevent the district or a district school from making any part of the contract public and may not enforce any such clause included by a contracting party. (Education Code 35182.5; Government Code 7928.801)

Contracts for Electronic Products or Services

The Board shall not enter into a contract for electronic products or services that requires the dissemination of advertising to students, unless the Board: (Education Code 35182.5)

1. Enters into the contract at a noticed public hearing of the Board

2. Makes a finding that the electronic product or service is or would be an integral component of the education of students

3. Makes a finding that the district cannot afford to provide the electronic product or service unless it contracts to permit dissemination of advertising to students

4. As part of the district's normal, ongoing communication to parents/guardians, provides written notice that the advertising will be used in the classroom or other learning centers

5. Offers parents/guardians the opportunity to request in writing that the student not be exposed to the program that contains the advertising

   A request shall be honored for the school year in which it is submitted, or longer if specified, but may be

withdrawn by the parents/guardians at any time.

Contracts for Digital Storage and Maintenance of Student Records

The district may enter into or renew a contract with a third party for the purpose of providing services, including cloud-based services, for the digital storage, management, and retrieval of student records and/or to provide digital educational software that authorizes a third-party provider of digital educational software to access, store, and use student records. For these purposes, student records include any information maintained by the district that is directly related to a student and any information acquired directly from the student through the use of instructional software or applications assigned to the student by a teacher or other district employee, and do not include de-identified information. (Education Code 49073.1)

Any such contract shall contain all of the following: (Education Code 49073.1)

1. A statement that student records continue to be the property of and under the control of the district

5. A description of the actions the third party will take, including the designation and training of responsible individuals, to ensure the security and confidentiality of student records

6. A description of the procedures for notifying the affected parent/guardian, or the affected student if age 18 years or older, in the event of an unauthorized disclosure of the student's records

7. A certification that a student's records shall not be retained or available to the third party upon completion of the terms of the contract and a description of how that certification will be enforced, except that these requirements shall not apply to student-generated content if the student chooses to establish or maintain an account with the third party for the purpose of storing that content

8. A description of how the district and the third party will jointly ensure compliance with the federal Family Educational Rights and Privacy Act, 20 USC 1232g

9. A prohibition against the third party using personally identifiable information in student records to engage in targeted advertising

Contracts for Personal Services

In order to achieve cost savings, the district may enter into or renew a contract for any personal service that is currently or customarily performed by classified employees if the contract does not displace district employees and meets other conditions specified in Education Code 45103.1. To enter into or renew such a contract, the Board shall ensure that the district meets the conditions specified in Education Code 45103.1.

In addition, the district may enter into or renew any contract for personal service without meeting the conditions described above, if any of the following conditions exist: (Education Code 45103.1)

1. The contract is for new district functions and the Legislature has specifically mandated or authorized the performance of the work by independent contractors

2. The services contracted are not available within the district, cannot be performed satisfactorily by district employees, or are of such a highly specialized or technical nature that the necessary expert knowledge, experience, and ability are not available through the district

3. The services are incidental to a contract for the purchase or lease of real or personal property, including, but

not be limited to, agreements to service or maintain office equipment or computers that are leased or rented

4. The district's policy, administrative, or legal goals and purposes cannot be accomplished through the utilization of persons selected pursuant to the regular or ordinary district hiring process

5. The nature of the work is such that the criteria for emergency appointments, as defined in Education Code 45103.1, apply

6. The contractor will provide equipment, materials, facilities, or support services that could not feasibly be provided by the district in the location where the services are to be performed

7. The services are of such an urgent, temporary, or occasional nature that the delay that would result from using the district's regular or ordinary hiring process would frustrate their very purpose

Regulation 3314: Payment For Goods And Services

Status: DRAFT

Original Adopted Date: 07/01/2007 | **Last Revised Date:** 05/01/2016

Payment for Construction Contracts

Payment on any contract for the creation, construction, alteration, repair, or improvement of any district property or facility or other public works project shall be made in accordance with the estimates, process, and/or schedule approved by the Board of Trustees.

As necessary, the Superintendent or designee may make progress payments as actual work is completed or materials are delivered. When a payment request is properly submitted by a contractor, any undisputed portion of the payment request shall be paid within 30 days. If the Superintendent or designee determines any payment request to be improper, he/she shall return the payment request to the contractor with a written statement of reasons why the request is not proper. (Public Contract Code 9203, 20104.50)

The district may withhold up to five percent of the proceeds due to the contractor until completion and acceptance of the project. (Public Contract Code 7201)

The proceeds to be withheld by the district may exceed five percent when the Board has made a finding, prior to the bid and during a properly noticed and regularly scheduled public meeting, that the project is substantially complex and requires a higher retention amount than five percent. In such cases, the Board's finding shall include a description of the specific project and why it is a unique project that is not regularly, customarily, or routinely performed by the district or licensed contractors. The bid documents shall include details explaining the basis for the finding and the actual amount to be withheld. (Public Contract Code 7201)

He/she shall establish a system of ongoing internal controls to ensure the reliability of financial reporting.

When required by law or the Board, the Superintendent or designee shall submit to the Board reports of the district's financial status, including, but not limited to, any report specified in this Board policy or accompanying administrative regulation. When any such report must be approved by the Board prior to its submission to a local, state, and/or federal agency, the Superintendent or designee shall provide the report to the Board in sufficient time to enable the Board to carefully review the report and meet any applicable submission deadline.

The Board shall regularly communicate the district's financial position to the public and shall use financial reports to determine what actions and budget amendments, if any, are needed to ensure the district's financial stability.

If district conditions predict fiscal distress or indicate that the district might not be able to meet its fiscal obligations, the Board and Superintendent or designee shall act quickly to identify and resolve these conditions. The Board shall work cooperatively with the County Superintendent of Schools to improve the district's fiscal health and may contract with an external individual or organization to advise the district on fiscal matters.

On or before September 15, the Board shall approve and file with the County Superintendent a statement of the district's unaudited actual receipts and expenditures for the preceding fiscal year. The Superintendent or designee shall prepare this statement using the state's standardized account code structure (SACS) as prescribed by the Superintendent of Public Instruction (SPI). (Education Code 42100)

Gann Appropriations Limit Resolution

On or before September 15, the Board shall adopt a resolution identifying, pursuant to Government Code 7900-7914, the district's estimated appropriations limit for the current fiscal year and the actual appropriations limit for the preceding fiscal year. The reports and supporting data shall be made available by the district for public review. (Education Code 42130)

Within 45 days after the close of the period reported, the Board shall approve the interim report and certify, on the basis of the interim report and any additional financial information known by the Board, whether the district will be able to meet its fiscal obligations for the remainder of the fiscal year and, based on current forecasts, for the two subsequent fiscal years. The certification shall be classified as one of the following: (Education Code 42130, 42131)

1. "Positive certification" indicating that the district will meet its financial obligations for the current fiscal year and two subsequent fiscal years

2. "Qualified certification" indicating that the district may not meet its financial obligations for the current fiscal year or two subsequent fiscal years

3. "Negative certification" indicating that the district will be unable to meet its financial obligations for the remainder of the fiscal year or the subsequent fiscal year

The Superintendent or designee shall submit a copy of each interim report and certification to the County Superintendent using the state's SACS software, as prescribed by the SPI. (Education Code 42130, 42131)

If the district's certification is subsequently changed by the County Superintendent from a positive to a qualified or negative certification, or from a qualified to a negative certification, the Board may appeal the decision to the SPI within five days of receiving the notice of change. (Education Code 42131)

Whenever the district receives a qualified or negative certification from the Board or the County Superintendent, the Superintendent or designee shall cooperate in the implementation of any remedial actions taken or prescribed by the County Superintendent under the authority granted to him/her pursuant to Education Code 42131.

If the second interim report is accompanied by a qualified or negative certification, the Board shall, no later than June 1, provide to the County Superintendent, the State Controller, and the SPI a financial statement as of April 30 ("third interim report") that projects the district's fund and cash balances through June 30. (Education Code 42131)

At any time during the year when the County Superintendent conducts a comprehensive review of the district's financial and budgetary conditions after he/she has determined that the district's budget does not comply with state criteria and standards for fiscal stability, the Board shall review the County Superintendent's recommendations at a public Board meeting. Within 15 days of receiving the report, the district shall notify the County Superintendent and the SPI of its proposed actions on the recommendation. (Education Code 42637)

Audit Report

Pursuant to Education Code 41020, if the district has a disapproved budget, has received a negative certification on any budget or interim fiscal report during the current fiscal year or either of the two preceding fiscal years, or has otherwise been determined by the County Superintendent to have a lack of going concern, any contract the district enters into for auditing services must be approved by the County Superintendent.

By April 1 of each year, the Board shall provide for an annual audit of the district's books and accounts. (Education Code 41020)

(Education Code 41020)

No later than December 15, the report of the audit for the preceding fiscal year shall be filed with the County Superintendent, the CDE, and the State Controller. (Education Code 41020)

Prior to December 15 whenever possible, but in no case later than January 31, the Board shall review, at an open meeting, the annual district audit for the prior year, any audit exceptions identified in that audit, the recommendations or findings of any management letter issued by the auditor, and any description of correction or plans to correct any exceptions or any issue raised in a management letter. (Education Code 41020.3)

The Board shall have an opportunity at the meeting to ask questions of the auditor and request further information about the audit findings.

(Education Code 41344, 41344.1)

(Education Code 42127.5)

Policy 3470: Debt Issuance And Management

Status: DRAFT

Original Adopted Date: 12/01/2016

The Board of Trustees is committed to long-term capital and financial planning and recognizes that the issuance of debt is a key source for funding the improvement and maintenance of school facilities and managing cash flow. Any debt issued by the district shall be consistent with law and this policy.

The district shall not enter into indebtedness or liability that in any year exceeds the income and revenue provided for such year, unless two-thirds of the voters approve the obligation or one of the exceptions specified in law applies. (California Constitution, Article 16, Section 18)

When the Board determines that it is in the best interest of the district, the Board may issue debt or order an election to issue debt. The Superintendent or designee shall make recommendations to the Board regarding appropriate financing methods for capital projects or other projects that are authorized purposes for debt issuance. When approved by the Board and/or the voters as applicable, the Superintendent or designee shall administer and coordinate the district's debt issuance program and activities, including the timing of issuance, sizing of issuance, method of sale, structuring of the issue, and marketing strategies.

The Superintendent or designee shall retain a financial advisor, municipal advisor, investment advisor, and other financial services professionals as needed to assist with the structuring of the debt issuance and to provide general advice on the district's debt management program, financing options, investments, and compliance with legal requirements. Contracts for services provided by such advisors may be for a single transaction or for multiple transactions, consistent with the contracting requirements in Education Code 17596. In the event that the district issues debt through a negotiated sale, underwriters may be selected for multiple transactions if multiple issuances are planned for the same project. In addition, the district shall select a legal team on an as-needed basis to assist with debt issuances or special projects.

Goals

The district's debt issuance activities and procedures shall be aligned with the district's vision and goals for providing adequate facilities and programs that support student learning and well-being. When issuing debt, the district shall ensure that it:

1. Maintains accountability for the fiscal health of the district, including prudent management and transparency of the district's financing programs

2. Attains the best possible credit rating for each debt issue in order to reduce interest costs, within the context of preserving financial flexibility and meeting capital funding requirements

3. Takes all practical precautions and proactive measures to avoid any financial decision that will negatively impact current credit ratings on existing or future debt issues

4. Maintains effective communication with rating agencies and, as appropriate, credit enhancers such as bond insurers or other providers of credit or liquidity instruments in order to enhance the creditworthiness, liquidity, or marketability of the debt

5. Monitors the district's statutory debt limit in relation to assessed valuation within the district and the tax burden needed to meet long-term debt service requirements

6. When determining the timing of debt issuance, considers market conditions, cash flows associated with repayment, and the district's ability to expend the obtained funds in a timely, efficient, and economical manner consistent with federal tax laws

7. Determines the amortization (maturity) schedule which will fit best within the overall debt structure of the district at the time the new debt is issued

8. Considers the useful lives of assets funded by the debt issue, as well as repair and replacement costs of those assets to be incurred in the future

9. Preserves the availability of the district's general fund for operating purposes and other purposes that cannot be funded by the issuance of voter-approved debt

10. Meets the ongoing obligations and accountability requirements associated with the issuance and management of debt under state and federal tax and securities laws

Authorized Purposes for the Issuance of Debt

The district may issue debt for any of the following purposes:

1. To pay for the cost of capital improvements, including acquiring, constructing, reconstructing, rehabilitating, replacing, improving, extending, enlarging, and/or equipping district facilities

2. To refund existing debt

3. To provide for cash flow needs

Pursuant to Government Code 53854, general operating costs, including, but not limited to, items normally funded in the district's annual operating budget, shall not be financed from debt payable later than 15 months from the date of issuance. The district may deem it desirable to finance cash flow requirements under certain conditions so that available resources better match expenditures within a given fiscal year. To satisfy both state constitutional and statutory constraints, such cash flow borrowing shall be payable from taxes, income, revenue, cash receipts, and other moneys attributable to the fiscal year in which the debt is issued.

Authorized Types of Debt

The Superintendent or designee shall recommend to the Board potential financing method(s) that result in the highest benefit to the district, with the cost of staff and consultants considered. Potential financing sources may include:

1. Short-Term Debt

    a. Short-term debt, such as tax and revenue anticipation notes (TRANs), when necessary to allow the district to meet its cash flow requirements (Government Code 53850-53858)

    b. Bond anticipation notes (BANs) to provide interim financing for capital bond projects that will ultimately be paid from general obligation bonds (Education Code 15150)

    c. Grant anticipation notes (GANs) to provide interim financing pending the receipt of grants and/or loans from the state or federal government that have been appropriated and committed to the district (Government Code 53859-53859.08)

2. Long-Term Debt

    a. General obligation bonds for projects approved by voters (California Constitution, Article 13A, Section 1; Education Code 15100-15262, 15264-15276; Government Code 53506-53509.5)

    b. Special tax bonds issued pursuant to the Mello-Roos Community Facilities Act of 1982 (Government Code 53311-53368.3)

3. Lease financing, including certificates of participation (COPs)

    a. Lease financing to fund the highest priority capital equipment purchases when pay-as-you-go financing is not feasible (Education Code 17450-17453.1)

    b. Lease financing to fund facilities projects when there is insufficient time to obtain voter approval or in instances where obtaining voter approval is either not feasible or unavailable (Education Code 17400-17429)

4. Special financing programs or structures offered by the federal or state government, such as Qualified Zone Academy Bonds or other tax credit obligations or obligations that provide subsidized interest payments, when

the use of such programs or structures is determined to result in sufficiently lower financing costs compared to traditional tax-exempt bonds and/or COPs

5. Temporary borrowing from other sources such as the County Treasurer

COPs, TRANs, revenue bonds, or any other non-voter approved debt instrument shall not be issued by the district in any fiscal year in which the district has a qualified or negative certification, unless the County Superintendent of Schools determines, pursuant to criteria established by the Superintendent of Public Instruction, that the district's repayment of that indebtedness is probable. (Education Code 42133)

Relationship of Debt to District Facilities Program and Budget

Decisions regarding the issuance of debt for the purpose of financing capital improvement shall be aligned with current needs for acquisition, development, and/or improvement of district property and facilities as identified in the district's facilities master plan or other applicable needs assessment, the projected costs of those needs, schedules for the projects, and the expected resources.

The cost of debt issued for major capital repairs or replacements shall be evaluated against the potential cost of delaying such repairs and/or replacing such facilities.

When considering a debt issuance, the Board and the Superintendent or designee shall evaluate both the short-term and long-term implications of the debt issuance and additional operating costs associated with the new projects involved. Such evaluation may include, but is not limited to, the projected ratio of annual debt service to the tax burden on the district's taxpayers and the ratio of annual debt service secured by the general fund to general fund expenditures.

The district may enter into credit enhancement agreements such as municipal bond insurance, surety bonds, letters of credit, and lines of credit with commercial banks, municipal bond insurance companies, or other financial entities when their use is judged to lower borrowing costs, eliminate restrictive covenants, or have a net economic benefit to the financing.

Structure of Debt Issues

The district shall consider the overall impact of the current and future debt burden of the financing when determining the duration of the debt issue.

The district shall design the financing schedule and repayment of debt so as to take best advantage of market conditions, ensure cost effectiveness, provide flexibility, and, as practical, recapture or maximize its debt capacity for future use. Principal amortization will be structured to meet debt repayment, tax rate, and flexibility goals.

For new money debt issuances for capital improvements, the district shall size the debt issuance with the aim of funding capital projects as deemed appropriate by the Board, as long as the issuance is consistent with the overall financing plan, does not exceed the amount authorized by voters, and, unless a waiver is sought and received from the state, will not cause the district to exceed the limitation on debt issuances specified in the California Constitution or Education Code 15106.

To the extent practicable, the district shall also consider credit issues, market factors, and tax law when sizing the district's bond issuance. The sizing of refunding bonds shall be determined by the amount of money that will be required to cover the principal of, any accrued interest on, and any redemption premium for the debt to be paid on the call date and to cover appropriate financing costs.

Any general obligation bond issued by the district shall mature within 40 years of the issuance date or as otherwise required by law. (California Constitution, Article 16, Section 18; Government Code 53508.6)

The final maturity of equipment or real property lease obligations will be limited to the useful life of the assets to be financed but, with respect to a lease purchase of equipment, no longer than a period of 10 years. (Education Code 17452)

Method of Sale

For the sale of any district-issued debt, the Superintendent or designee shall recommend the method of sale with the

potential to achieve the lowest financing cost and/or to generate other benefits to the district. Potential methods of sale include:

1. A competitive bidding process through which the award is based on, among other factors, the lowest offered true interest cost

2. Negotiated sale, subject to approval by the district to ensure that interest costs are in accordance with comparable market interest rates

3. Private placement sale, when the financing can or must be structured for a single or limited number of purchasers or where the terms of the private placement are more beneficial to the district than either a negotiated or competitive sale

Investment of Proceeds

The district shall actively manage the proceeds of debt issued for public purposes in a manner that is consistent with state law governing the investment of public funds and with the permitted securities covenants of related financing documents executed by the district. Where applicable, the district's official investment policy and legal documents for a particular debt issuance shall govern specific methods of investment of bond-related proceeds. Preservation of principal shall be the primary goal of any investment strategy, followed by the availability of funds and then by return on investment.

With regard to general obligation bonds, the district shall invest new money bond proceeds in the county treasury pool as required by law. (Education Code 15146)

The management of public funds shall enable the district to respond to changes in markets or changes in payment or construction schedules so as to ensure liquidity and minimize risk.

Refunding/Restructuring

The district may consider refunding or restructuring outstanding debt if it will be financially advantageous or beneficial for debt repayment and/or structuring flexibility. When doing so, the district shall consider the maximization of the district's expected net savings over the life of the debt issuance and, when using a general obligation bond to refund an existing bond, shall ensure that the final maturity of the refunding bond is no longer than the final maturity of the existing bond.

Internal Controls

The Superintendent or designee shall establish internal control procedures to ensure that the proceeds of any debt issuance are directed to the intended use. Such procedures shall assist the district in maintaining the effectiveness and efficiency of operations, properly expending funds, reliably reporting debt incurred by the district and the use of the proceeds, complying with all laws and regulations, preventing fraud, and avoiding conflict of interest.

The district shall be vigilant in using bond proceeds in accordance with the stated purposes at the time such debt was incurred as defined in the text of the voter-approved bond measure. (Government Code 53410)

When feasible, the district shall issue debt with a defined revenue source in order to preserve the use of the general fund for general operating purposes.

The district shall annually conduct a due diligence review to ensure its compliance with all ongoing obligations applicable to issuers of debt. Such a review may be conducted by general legal counsel or bond counsel. Any district personnel involved in conducting such reviews shall receive periodic training regarding their responsibilities.

In addition, the Superintendent or designee shall ensure that the district completes, as applicable, all performance and financial audits that may be required for any debt issued by the district, including disclosure requirements applicable to a particular transaction.

Records/Reports

At least 30 days prior to the sale of any debt issue, the Superintendent or designee shall submit a report of the proposed issuance to the California Debt and Investment Advisory Commission (CDIAC). Such report shall include a

self-certification that the district has adopted a policy concerning the use of debt that complies with law and that the contemplated debt issuance is consistent with that policy. (Government Code 8855)

On or before January 31 of each year, the Superintendent or designee shall submit a report to the CDIAC regarding the debt authorized, the debt outstanding, and the use of proceeds of the issued debt for the period from July 1 to June 30. (Government Code 8855)

The Superintendent or designee shall provide initial and any annual or ongoing disclosures required by 17 CFR 240.10b-5 and 240.15c2-12 to the Municipal Securities Rulemaking Board, investors, and other persons or entities entitled to disclosure, and shall ensure that the district's disclosure filings are updated as needed.

The Superintendent or designee shall maintain transaction records of decisions made in connection with each debt issuance, including the selection of members of the financing team, the structuring of the financing, selection of credit enhancement products and providers, and selection of investment products. Each transaction file shall include the official transcript for the financing, interest rates and cost of issuance on the day when the debt was sold ("final number runs"), and a post-pricing summary of the debt issue. In addition, documentation evidencing the expenditure of proceeds, the use of debt-financed property by public and private entities, all sources of payment or security for the debt, and investment of proceeds shall be kept for as long as the debt is outstanding, plus the period ending three years after the financial payment date of the debt or the final payment date of any obligations or series of bonds issued to refund directly or indirectly all of any portion of the debt, whichever is later.

The Superintendent or designee shall annually report to the Board regarding debts issued by the district, including information on actual and projected tax rates, an analysis of bonding capacity, ratings on the district's bonds, market update and refunding opportunities, new development for California bond financings, and the district's compliance with post-issuance requirements.

Policy 3471: Parcel Taxes

Status: DRAFT

Original Adopted Date: 03/01/2020

The Board of Trustees recognizes its obligation to provide a high-quality educational program within safe facilities and secure campuses, and that additional funds are at times necessary to fulfill this responsibility. The Board may consider appropriate methods of financing and, when it is in the best interest of the district, may order the placement of a parcel tax on the ballot for approval by the voters.

The Board shall hold a noticed public hearing prior to approving a resolution for the adoption of a parcel tax. The resolution shall be approved by a two-thirds vote of the Board in order to be placed on the ballot. The resolution shall include the type and rate of the tax to be levied, the method of collection, and the date upon which an election shall be held to approve the levy of the tax. (Government Code 50077, 53724)

The parcel tax shall apply uniformly to all taxpayers or all real property within the district, except that unimproved property may be taxed at a lower rate than improved property. (Government Code 50079)

The Board shall consult with legal counsel to ensure compliance with all requirements of law, including its determination of the appropriate amount of the proposed parcel tax and whether exemptions from the tax will be granted.

Any parcel tax to be proposed for voter approval shall provide for accountability measures, including, but not limited to, a statement indicating the specific purposes of the special tax and that the proceeds of the tax shall be used only for the specific purposes identified, creation of a separate account into which the proceeds shall be deposited, and annual reporting pursuant to Government Code 50075.3. (Government Code 50075.1)

No district funds, services, supplies, or equipment shall be used to support or defeat a parcel tax ballot measure. The Superintendent or designee may use district resources to provide students, parents/guardians, and community members with fair and impartial information related to a parcel tax ballot measure, including information about the impact of the parcel tax on the district. (Education Code 7054)

Upon approval of the tax by two-thirds of the votes, the district may levy the tax or contract with the county to collect the tax on the district's behalf. (Government Code 50077)

Exemptions

The Board may grant an exemption from the parcel tax for any or all of the following: (Government Code 50079)

1. Persons who are 65 years of age or older

Regulation 3510: Green School Operations

Status: DRAFT

Original Adopted Date: Pending

It is the goal of the Alum Rock Union School District to utilize its purchasing power to influence commerce to offer goods and services with better environmental performance, and to procure products and services from manufacturers and suppliers that demonstrate a high level of environmental and social responsibility.

This Policy will guide the Alum Rock Union Elementary School District's efforts to procure environmentally sustainable products and services. While not all of these guidelines will be feasible in every procurement of goods and services, the District will make a good faith effort to incorporate these guidelines to the maximum extent possible in its procurement decisions. The guidelines should be considered for purchasing and contracting in support of the operation and management of all school buildings and facilities as well as their components, systems, operations and materials; and for all District programs, events, contractors, and grantees.

For purposes of the administrative regulations, "Environmentally Preferable Products and Services" mean products and services that have a lesser or reduced effect on human health and the environment when compared with competing products that serve the same purpose. This comparison may consider raw materials acquisition, production, manufacturing, packaging, distribution, reuse, operation, maintenance, or disposal of the product.

It is the desire of the Alum Rock Union Elementary School District to reduce the environmental impact of its purchases by taking into account the environmental impact of the items it procures. Alum Rock Union Elementary School District, when appropriate, will incorporate environmentally preferable purchasing principles in making purchasing decisions when:

1. Replacing disposables with re-usable, recyclable, or compostable goods.
2. Avoiding hazardous materials that have the potential to be persistent, bio-accumulative and/or toxic (PBT) and consider impacts and threats of harm to human health and/or the environment.
3. Purchasing products that minimize greenhouse gas emissions over the entire product lifecycle.
4. Participating in product recycling programs.
5. Purchasing fleet vehicles that provide the best available fuel efficiency and net reduction in vehicle fleet emissions.
6. Evaluating, as appropriate, the environmental performance of vendors in providing products and services.
7. Procuring environmentally sustainable products and services that have a lesser or reduced negative effect on human health and the environment when compared with competing products that serve the same purpose.
8. Instituting practices that reduce waste by increasing product efficiency and effectiveness.
9. Seeking out vendors that offer to take back or recycle products at the end of their useful life.
10. Seeking opportunities to pool purchases with others to enhance markets for environmentally preferable products, to obtain favorable prices, and to reduce waste packaging, transportation, and product cost.

6. Schedules and practices for routine housekeeping and maintenance shall be designed to effectively reduce levels of dust, dirt, and debris. Plain water, soap and water, or low-emission cleaning products shall be used whenever possible. Aerosols, including air fresheners and other products containing ozone, shall be avoided to the extent possible.

7. Painting of school facilities and maintenance or repair activities that require the use of potentially harmful substances shall be limited to those times when school is not in session. Following any such activity, the facility shall be properly ventilated with adequate time allowed prior to reopening for use by any person.

8. Paints, adhesives, and solvents shall be used and stored in well-ventilated areas. These items shall be purchased in small quantities to avoid storage exposure.

9. To the extent possible, printing and duplicating equipment that may generate indoor air pollutants, such as methyl alcohol or ammonia, shall be placed in locations that are well ventilated and not frequented by students and staff.

10. The district's tobacco-free schools policy shall be consistently enforced in order to reduce the health risks caused by second-hand smoke.

11. Staff and students shall be asked to refrain from bringing common irritants such as furred or feathered animals, stuffed toys that may collect dust mites, scented candles, incense, or air fresheners and from using perfume or cologne, scented lotion or hair spray, nail polish or nail polish remover, or other personal care products that are not fragrance-free in classrooms, school buses, or other enclosed areas or buildings.

Outdoor Air Quality

The Superintendent or designee may coordinate with the local air resources control board and monitor local health advisories and outdoor air quality alerts to obtain forecasts of ozone levels, particle pollution, ultraviolet radiation levels, and/or temperature and humidity.

Whenever a forecast indicates a significant health risk, the Superintendent or designee shall communicate with each principal so that outdoor activities, especially those requiring prolonged or heavy exertion, may be avoided, limited in duration, or modified as necessary for all persons or for persons who may be particularly susceptible to the health risk involved.

Reduction of Vehicle Emissions

In order to reduce public exposure to toxic air contaminants, school bus drivers and other drivers of commercial motor vehicles shall limit unnecessary idling of vehicles at or near schools in accordance with 13 CCR 2480. The Superintendent or designee may also request parents/guardians to turn off their vehicles when they are idling on school grounds and encourage students to walk and/or bicycle to school.

Any school bus that is diesel-fueled, dual-fueled, or alternative diesel-fueled and has a gross vehicle weight rating over 14,000 pounds shall be equipped with a particulate filter designed to reduce particulate matter emissions, oxides of nitrogen emissions, and other pollutants. (13 CCR 2025)

Drinking Water Safety

The quality and safety of the district's drinking water sources shall be regularly assessed, and drinking fountains shall be regularly cleaned and maintained, to ensure that drinking water consumed at school does not contain dirt, mold, lead, or other impurities or contaminants that may cause serious health concerns.

Whenever any contaminants in the drinking water are determined to be a concern, the Superintendent or designee shall take reasonable steps to identify the source and mitigate any potential problem to ensure the availability of safe drinking water. As needed, the Superintendent or designee shall provide alternative sources of drinking water, such as bottled water or on-site water filtration, to ensure that students have access to fresh drinking water at mealtimes and at other times throughout the day.

Whenever testing of drinking water finds concentrations of lead that exceed federal and state standards, the Superintendent or designee shall notify parents/guardians and take immediate steps to shut down and make inoperable any fountains or faucets where excess lead levels may exist.

Prevention of Lead Exposure

In addition to testing for the presence of lead in drinking water in district schools, the following steps shall be taken to minimize potential exposure to lead in school facilities:

1. School facilities shall be kept as dust-free and clean as possible.

2. Lead-based paint, lead plumbing and solders, or other potential sources of lead contamination shall not be used in the construction of any new school facility or the modernization or renovation of any existing school facility. (Education Code 32244)

3. Lead exposure hazards shall be evaluated before any renovation or remodeling is begun, and children shall not be allowed in or near buildings in which these activities may create lead dust. Contractors and workers shall comply with state and federal standards related to the handling and disposal of lead debris and the clean-up and containment of dust within the construction area.

4. Lead-based painted surfaces that are in good condition shall be kept intact. If lead-based paint is peeling, flaking, or chalking, contractors or workers shall follow state and federal standards for safe work practices to

minimize contamination when removing the paint.

5. Soil with low lead content may be covered with grass, other plantings, concrete, or asphalt. For soil with high lead content, removal and abatement are required.

Any action to abate existing lead hazards shall be taken only by contractors, inspectors, and workers certified by the California Department of Public Health in accordance with 17 CCR 35001-35099. (Education Code 32243)

The Superintendent or designee shall notify parent/guardians, teachers, and staff members if significant risk factors for lead exposure are found. (Education Code 32243)

Prevention of Mercury Exposure

The Superintendent or designee shall identify any mercury-containing products that are present in district facilities and, to the extent possible, shall replace them with mercury-free alternatives.

Staff shall receive information about proper procedures to follow in the event of a mercury spill. Clean-up instructions, a clearly labeled kit with necessary clean-up supplies, and a list of local resources shall be readily accessible.

In the event of a spill, staff shall evacuate all students from the immediate area of the spill, ensure that any clothing or other items with mercury on them remain in the room, open windows to the outside, and close doors to other parts of the school. Staff who are trained in proper clean-up procedures may carefully clean a small spill. As needed for larger or difficult-to-clean spills, the Superintendent or designee shall use an experienced professional referred by the local health department or environmental agency.

Any products containing mercury shall be properly disposed at an appropriate hazardous waste collection facility.

Asbestos Management

The Superintendent shall designate an employee who shall ensure that the district's responsibilities related to asbestos inspection and abatement are implemented in accordance with federal and state regulations. This employee shall receive adequate training to perform these duties, including, as necessary, training on the health effects of asbestos; detection, identification, and assessment of asbestos-containing building materials; options for controlling asbestos-containing building materials; asbestos management programs; and relevant federal and state regulations. (40 CFR 763.84)

The designated employee shall ensure that the district complies with the following requirements:

1. School facilities shall be inspected for asbestos-containing building materials as necessary in accordance with the following:

    a. Any school building that is leased, acquired, or otherwise used by the district shall be inspected for asbestos-containing building materials prior to its use as a school building, unless exempted by federal regulations. (40 CFR 763.85, 763.99)

    b. At least once every six months, the district shall conduct a periodic surveillance consisting of a visual inspection of each school building that contains or is assumed to contain asbestos-containing building materials. (40 CFR 763.92)

    c. At least once every three years, the district shall conduct a re-inspection of all known or assumed asbestos-containing building materials in each school building. (40 CFR 763.85)

2. Based on the results of the inspection, an appropriate response which is sufficient to protect human health and the environment shall be determined from among the options specified in 40 CFR 763.90. The district may select the least burdensome response, taking into consideration local circumstances, including occupancy and use patterns within the school building and economic concerns such as short-term and long-term costs. (40 CFR 763.90)

3. An asbestos management plan for each school site shall be maintained and regularly updated to keep it current with ongoing operations and maintenance, periodic surveillance, inspection, re-inspection, and response action

activities. (15 USC 2643; 40 CFR 763.93)

The asbestos management plan shall be available for inspection in district and school offices during normal business hours. Parent/guardian, teacher, and employee organizations shall be annually informed of the availability of these plans. (40 CFR 763.84, 763.93)

4. Staff, students, and parents/guardians shall be informed at least once each school year about any inspections, response actions, and post-response actions, including periodic re-inspection and surveillance activities, that are planned or in progress. (40 CFR 763.84)

5. Inspections, re-inspections, periodic surveillance, and response actions, including operations and maintenance, shall be conducted in compliance with state and federal regulations for the protection and safety of workers and all other individuals. (Education Code 49410.5; 40 CFR 763.84, 763.90)

   Asbestos inspection and abatement work, preparation of a management plan, and any maintenance activities that may disturb asbestos-containing building materials, except for emergency repairs or small-scale, short-duration maintenance activities, shall be completed by state-certified asbestos inspectors or contractors. (15 USC 2646; 40 CFR 763.84, 763.85, 763.91)

6. All custodial and maintenance employees shall be properly trained in accordance with applicable federal and/or state regulations. (40 CFR 763.84)

   All district maintenance and custodial staff who may work in a building that contains asbestos-containing building materials, regardless of whether they are required to work with such materials, shall receive at least two hours of related asbestos awareness training. New maintenance and custodial staff shall receive such training within 60 days after beginning employment. Any maintenance or custodial staff who conduct activities that will disturb asbestos-containing building materials shall receive 14 hours of additional training. The trainings shall address the topics specified in 40 CFR 763.92. (15 USC 2655; 40 CFR 763.84, 763.92)

7. Short-term workers, such as telephone repair workers, utility workers, or exterminators, who may come in contact with asbestos in a school shall be provided information regarding the locations of known or suspected asbestos-containing building materials. (40 CFR 763.84)

8. Warning labels shall be posted immediately adjacent to any known or suspected asbestos-containing building material located in routine maintenance areas in accordance with 40 CFR 763.95. (40 CFR 763.84)

The district shall maintain, in both the district and school offices and for a period of three years, records pertaining to each preventive measure and response action taken; staff training; periodic surveillances conducted; cleaning, operations, and maintenance activities; and any fiber release episode. (40 CFR 763.94)

Policy 3514.1: Hazardous Substances

Status: DRAFT

Original Adopted Date: 02/01/1997 **| Last Revised Date:** 05/01/2018

The Board of Trustees desires to provide a safe school environment that protects students and employees from exposure to any potentially hazardous substances used in the district's educational program and in the maintenance and operation of district facilities and equipment.

Insofar as reasonably possible, the Superintendent or designee shall minimize the quantities of hazardous substances stored and used on school property. When hazardous substances must be used, the Superintendent or designee shall give preference to materials that cause the least risk to people and the environment.

The Superintendent or designee shall ensure that all potentially hazardous substances on district properties are inventoried, used, stored, and regularly disposed of in a safe and legal manner.

The Superintendent or designee shall develop, implement, and maintain a written hazard communication program in accordance with 8 CCR 5194 and shall ensure that employees, students, and others as necessary are fully informed about the properties and potential hazards of substances to which they may be exposed.

The Superintendent or designee shall develop specific measures to ensure the safety of students and staff in school laboratories where hazardous chemicals are used. Such measures shall include the development and implementation of a chemical hygiene plan in accordance with 8 CCR 5191 and instruction to students about proper handling of hazardous substances.

The Superintendent or designee shall not order or purchase for use in grades K-6 any arts and crafts materials containing a substance determined by the California Office of Environmental Health Hazard Assessment to be toxic. The Superintendent or designee shall not purchase any such toxic material for use in grades 7-8 unless it includes a warning label as specified in Education Code 32065 that identifies any toxic ingredients, warns of potential adverse health effects, and describes procedures for safe use and storage. (Education Code 32064)

Regulation 3514.1: Hazardous Substances

Status: DRAFT

Original Adopted Date: 12/01/1989 **| Last Revised Date:** 04/01/2013

Hazardous substance means a substance, material, or mixture which is likely to cause illness or injury by reason of being explosive, flammable, poisonous, corrosive, oxidizing, an irritant, or otherwise harmful. Hazardous substances, as identified by the Department of Industrial Relations, are listed in 8 CCR 339. (8 CCR 339, 5161)

Storage and Disposal of Chemicals

The Superintendent or designee shall adopt measures to ensure that hazardous substances on any district property are stored and disposed of properly in accordance with law. Such measures shall include, but are not limited to, the following: (8 CCR 5164)

1. Substances which react violently or evolve toxic vapors or gases when mixed, or which in combination become toxic, flammable, explosive, or otherwise hazardous, shall be separated from each other in storage by distance, partitions, secondary containment, or otherwise so as to preclude accidental contact between them.

2. Hazardous substances shall be stored in containers which are chemically inert to and appropriate for the type and quantity of the hazardous substance.

3. Containers of hazardous substances shall not be stored in such locations or manner as to result in physical damage to or deterioration of the container or where they are exposed to heat sufficient to rupture the container or to cause leakage.

4. Containers used to package a substance which gives off toxic, poisonous, corrosive, asphyxiant, suffocant, or anesthetic fumes, gases, or vapors in hazardous amounts, excluding small quantities of such materials kept in closed containers or materials kept in tank cars or trucks, shall not be stored in locations where it could be reasonably anticipated that persons would be exposed.

The Superintendent or designee shall regularly remove and dispose of all chemicals whose estimated shelf life has elapsed. (Education Code 49411)

Hazard Communication Program

The district's written hazard communication program shall include at least the components listed below and shall be available upon request to all employees and their designated representatives. The program shall apply to any hazardous substance which is known to be present in the workplace in such a manner that employees may be exposed under normal conditions of use or in a reasonably foreseeable emergency resulting from workplace operations. (8 CCR 5194)

1. Container Labeling

   No container of hazardous substance, unless exempted by law, shall be accepted by the district or any district school unless labeled, tagged, or marked by the supplier with the identity of the hazardous substance, hazard warning statements, and the name and address of the chemical manufacturer or importer. No label on an incoming container shall be removed or intentionally defaced unless the container is immediately marked with the required information.

   Whenever hazardous substances are transferred from their original containers to other containers, the secondary containers shall likewise be labeled with the identity and hazard warning statement, unless the substances are intended only for the immediate use of the employee who performs the transfer.

2. Safety Data Sheets

   Upon receiving a hazardous substance or mixture, the Superintendent or designee shall ensure that the manufacturer or importer has furnished a safety data sheet (SDS) as required by law. If the SDS is missing or obviously incomplete, the Superintendent or designee shall, within seven working days of noting the missing or incomplete information, request a new SDS from the manufacturer or importer. If a response is not received within 25 working days, the Superintendent or designee shall send a copy of the district's written inquiry to the California Occupational Safety and Health Division (Cal/OSHA). (8 CCR 5194)

The Superintendent or designee shall maintain the required SDS for each hazardous substance in the workplace and shall ensure that it is readily accessible to employees in their work area during working hours. The SDS may be maintained in paper copy, electronically, or through other means, provided that employees have immediate access and understand how to use the alternative system.

3. Employee Information and Training

   Employees shall receive information and training on hazardous substances in their work area at the time of their initial assignment and whenever a new hazard is introduced into their work area. The information and training shall include, but are not limited to, the following topics: (8 CCR 5194)

   a. The requirements of 8 CCR 5194, including employee rights described therein

   b. The location and availability of the district's written hazard communication program, including the list of hazardous materials and all SDS

   c. Any operations in the work area where hazardous substances are present

   d. The physical and health effects of the hazardous substances in the work area

   e. Methods and observations that may be used to detect the presence or release of hazardous substances in the work area

   f. Measures that employees can take to protect themselves from exposure to hazardous substances, including specific procedures the district has implemented to protect employees, such as appropriate work practices, emergency procedures, and personal protective equipment to be used

   g. How to read and use the labels and SDS

4. List of Hazardous Substances

   The written hazard communication program shall include a list of the hazardous substances known to be present in the workplace as a whole or for individual work areas. (8 CCR 5194)

5. Hazardous Nonroutine Tasks

   When employees are required to perform hazardous nonroutine tasks or to work on unlabeled pipes that contain hazards, they shall first receive information about the specific hazards to which they may be exposed during this activity and the protective/safety measures which must be used, such as ventilation, respirators, other personal protective equipment, and/or the presence of another employee. They shall also receive information about emergency procedures to follow if accidentally exposed to the hazardous substance.

6. Information to Contractors

   To ensure that outside contractors and their employees work safely in district facilities, the Superintendent or designee shall inform contractors of hazardous substances which are present on the site and precautions that they may take to lessen the possibility of exposure. It shall be the contractor's responsibility to disseminate this information to his/her employees and subcontractors.

Chemical Hygiene Plan

The district's chemical hygiene plan shall address exposure to hazardous chemicals in school laboratories and shall include the following components: (8 CCR 5191)

1. Standard operating procedures relevant to safety and health considerations to be followed when laboratory work involves the use of hazardous chemicals

2. Criteria that the district will use to determine and implement control measures to reduce exposure to hazardous chemicals, including engineering controls, the use of personal protective equipment, and hygiene practices

3. A requirement that protective equipment comply with state regulations and that specific measures be taken to ensure proper and adequate performance of such equipment

4. Provision of specified information at the time of an employee's initial assignment to a work area where hazardous chemicals are present and prior to assignments involving new exposure situations

5. Provision of specified employee training in accordance with the schedule determined by the Superintendent or designee

6. The circumstances under which a particular laboratory operation, procedure, or activity shall require prior approval of the Superintendent or designee before implementation

7. Provisions for medical consultations and examinations whenever there is evidence, as specified, that the employee may have been exposed to a hazardous chemical

8. Designation of an employee, who is qualified by training or experience, to serve as the district's chemical hygiene officer to provide technical guidance in the development and implementation of the chemical hygiene plan

9. Provisions for additional employee protection for work with particularly hazardous substances, as specified

The plan shall be readily available to employees and employee representatives, and, upon request, to Cal/OSHA. (8 CCR 5191)

The Superintendent or designee shall review and evaluate the effectiveness of the chemical hygiene plan at least annually and shall update it as necessary. (8 CCR 5191)

Regulation 3514.2: Integrated Pest Management

Status: DRAFT

Original Adopted Date: 03/01/2006 **| Last Revised Date:** 03/01/2018

Definitions

Integrated pest management (IPM) means a strategy that focuses on long-term prevention or suppression of pest problems through a combination of techniques such as monitoring for pest presence and establishing treatment threshold levels, using nonchemical practices to make the habitat less conducive to pest development, improving sanitation, and employing mechanical and physical controls. (Education Code 17609; Food and Agricultural Code 13181)

School site means any facility used as a child day care facility or for kindergarten, elementary, or secondary school purposes and includes the buildings or structures, playgrounds, athletic fields, vehicles, or any other area of property visited or used by students. (Education Code 17609)

Program Components

The Superintendent or designee shall designate an employee at the district office and/or school site to develop, implement, and coordinate an IPM strategy that incorporates effective, least toxic pest management practices.

The IPM coordinator shall prepare and annually update a districtwide or school site IPM plan based on the template provided by the California Department of Pesticide Regulation (DPR).

The IPM plan shall include the name of the district and/or school IPM coordinator, the pesticides expected to be applied at the school site by district employees and/or pest control applicators, and a date that the plan shall be reviewed and, if necessary, updated. (Education Code 17611.5)

The district shall use pesticides that pose the least possible hazard and are effective in a manner that minimizes risks to people, property, and the environment. Such pesticides shall only be used after careful monitoring indicates they are needed according to pre-established guidelines and treatment thresholds. (Food and Agricultural Code 13181)

The IPM plan and this administrative regulation shall not apply to reduced-risk pesticides, including self-contained baits or traps, gels or pastes used for crack and crevice treatments, antimicrobials, and pesticides exempt from registration by law. (Education Code 17610.5; 3 CCR 6147)

The district's program shall include, but not necessarily be limited to, the following components:

1. Identifying and monitoring pest population levels and identifying practices that could affect pest populations. Strategies for managing the pest shall be influenced by the pest species and whether that species poses a threat to people, property, or the environment.

2. Setting action threshold levels to determine when pest populations or vegetation at a specific location might cause unacceptable health or economic hazards that would indicate corrective action should be taken

3. Modifying or eliminating pest habitats to deter pest populations and minimize pest infestations.

4. Considering a full range of possible alternative cost-effective treatments. Such alternative treatments may include taking no action or controlling the pest by physical, horticultural, or biological methods. Cost or staffing considerations alone will not be adequate justification for the use of chemical control agents.

5. Selecting nonchemical pest management methods over chemical methods whenever such methods are effective in providing the desired control or, when it is determined that chemical methods must be used, giving preference to those chemicals that pose the least hazardous effects to people and the environment.

   No pesticide that is prohibited by DPR or the U.S. Environmental Protection Agency, as listed on the DPR web site, shall be used at a school site. (Education Code 17610.1)

6. Limiting pesticide purchases to amounts needed for the year. Pesticides shall be stored at a secure location that is not accessible to students and unauthorized staff. They shall be stored and disposed of in accordance

with state regulations and product label directions.

7. Informing parents/guardians and employees regarding pesticide use as described in the sections "Notifications" and "Warning Signs" below.

8. Ensuring that persons applying pesticides follow label precautions and are sufficiently trained in the principles and practices of IPM as described in the section "Training" below.

9. Evaluating the effectiveness of treatments to determine if revisions to the IPM plan are needed.

Training

The IPM coordinator and any employee or contractor who may be designated to apply a pesticide at a school site shall annually complete a DPR-approved training course on IPM and the safe use of pesticides in relation to the unique nature of school sites and children's health. (Education Code 17614; Food and Agricultural Code 13186.5)

Any district employee who handles pesticides shall also receive pesticide-specific safety training prior to applying pesticides and annually thereafter in accordance with 3 CCR 6724.

Notifications

Staff and parents/guardians of students enrolled at a school site shall be annually notified, in writing, regarding pesticide products expected to be applied at the school site in the upcoming year. The notification shall include at least the following: (Education Code 17612)

1. The name of each pesticide product expected to be applied in the upcoming year and the active ingredient(s) in it

2. The Internet address (http://www.cdpr.ca.gov/schoolipm) used to access information on pesticides and pesticide use reduction developed by the DPR pursuant to Food and Agricultural Code 13184

3. If the school has posted its IPM plan, the Internet address where the plan may be found

4. The opportunity to view a copy of the IPM plan in the school office

5. An opportunity for interested persons to register to receive prior notification of each application of a pesticide at the school site

6. Other information deemed necessary by the IPM coordinator

Whenever a person registers to receive notice of individual pesticide application pursuant to item #5 above, the IPM coordinator shall notify such registered persons of individual pesticide applications at least 72 hours prior to the application. The notice shall include the product name, the active ingredient(s) in the product, and the intended date of application. (Education Code 17612)

If a pesticide product not included in the annual notification is subsequently intended for use at a school site, the IPM coordinator shall provide written notification of its intended use to staff and parents/guardians of students enrolled at the school, at least 72 hours prior to the application. (Education Code 17612)

If a school chooses to use a pesticide not exempted pursuant to Education Code 17610.5, it shall post the school or district IPM plan on the school's web site or, if the school does not have a web site, then on the district web site. If neither the school nor district has a web site, then the IPM plan shall be included with the annual notification sent to staff and parents/guardians pursuant to Education Code 17612 as described above. When not required, the IPM coordinator may post or distribute the IPM plan at his/her discretion. (Education Code 17611.5)

Whenever the IPM coordinator deems that the immediate use of a pesticide is necessary to protect the health and safety of students, staff, or other persons at the school site, he/she shall make every effort to provide the required notifications prior to the application of the pesticide. (Education Code 17612)

Warning Signs

The IPM coordinator shall post a warning sign at each area of the school site where pesticides will be applied that shall be visible to all persons entering the treated area. The sign shall be posted at least 24 hours prior to the application and shall remain posted until 72 hours after the application. The warning sign shall prominently display the following information: (Education Code 17612)

1. The term "Warning/Pesticide Treated Area"
2. The product name, manufacturer's name, and the EPA's product registration number
3. Intended areas and dates of application
4. Reason for the pesticide application

When advance posting is not possible due to an emergency condition requiring immediate use of a pesticide to protect the health and safety of students, staff, or other persons or the school site, the warning sign shall be posted immediately upon application and shall remain posted until 72 hours after the application. (Education Code 17609, 17612)

Records

At the end of each calendar year, the IPM coordinator shall submit to DPR, on a form provided by DPR, a copy of the records of all pesticide use at the school site for that year, excluding any pesticides exempted by law and any pesticide use reported by the pest control operator pursuant to Food and Agricultural Code 13186. The IPM coordinator may submit more frequent reports at his/her discretion. (Education Code 17611)

Each school site shall maintain records of all pesticide use at the school for four years, and shall make the information available to the public, upon request, in accordance with the California Public Records Act. A school may meet this requirement by retaining a copy of the warning sign posted for each pesticide application with a recording on that copy of the amount of the pesticide used. (Education Code 17611)

Pesticide Use near School Site

Upon receiving notification pursuant to 3 CCR 6692 that a grower expects to use agricultural pesticides within one-quarter mile of a school site Monday through Friday from 6:00 a.m. to 6:00 p.m., the principal or designee shall notify the Superintendent or designee, IPM coordinator, staff at the school site, and parents/guardians of students enrolled at the school.

The principal or designee may communicate with any grower within one-quarter mile of the school to request that the grower not apply pesticides during evenings or weekends when school activities are scheduled.

Policy 3515: Campus Security

Status: DRAFT

Original Adopted Date: 03/01/2007 **| Last Revised Date:** 12/01/2022

The Board of Trustees is committed to providing a school environment that promotes the safety of students, staff, and visitors to school grounds. The Board also recognizes the importance of protecting district property, facilities, and equipment from vandalism and theft.

The Superintendent or designee shall develop campus security procedures, which may be included in the district's comprehensive safety plan and/or site-level safety plans. Such procedures shall be regularly reviewed to reflect changed circumstances and to assess their effectiveness in achieving safe school objectives.

Additionally, the Superintendent or designee shall regularly review current guidance regarding cybersecurity and digital media awareness and incorporate recommended practices into the district's processes and procedures related to the protection of the district's network infrastructure, and the monitoring and response to suspicious and/or threatening digital media content.

Reporting Threats

Any certificated or classified employee, or other school official, whose duties bring the employee or other school official in contact on a regular basis with students in any of grades 6-12, as part of a middle of high school, who are alerted to or observe any threat or perceived threat of a homicidal act, as defined, shall immediately report the threat or perceived threat to law enforcement in accordance with Education Code 49393. (Education Code 49390, 49393)

Threat or perceived threat means any writing or action of a student that creates a reasonable suspicion that the student is preparing to commit a homicidal act related to school or a school activity. This may include possession, use, or depictions of firearms, ammunition, shootings, or targets in association with infliction of physical harm, destruction, or death in a social media post, journal, class note, or other media associated with the student. It may also include a warning by a parent, student, or other individual.

Additionally, anyone who receives or learns of a health or safety threat related to school or a school activity is encouraged to report the threat to a school or district administrator.

Surveillance Systems

The Board believes that reasonable use of surveillance cameras will help the district achieve its goals for campus security. In consultation with the district's school site council, safety planning committee, other relevant stakeholders, and staff, the Superintendent or designee shall identify appropriate locations for the placement of surveillance cameras. Cameras shall not be placed in areas where students, staff, or community members have a reasonable expectation of privacy. Any audio capability on the district's surveillance equipment shall be disabled so that sounds are not recorded.

Prior to the operation of the surveillance system, the Superintendent or designee shall ensure that signs are posted at conspicuous and targeted locations around school buildings and grounds. These signs shall state that the facility uses video surveillance equipment for security purposes and that the equipment may or may not be actively monitored at any time. The Superintendent or designee shall also provide prior written notice to students and parents/guardians about the district's surveillance system, including the locations where surveillance may occur and that the recordings may be used in disciplinary proceedings and/or referred to local law enforcement, as appropriate.

To the extent that any images from the district's surveillance system create a student or personnel record, the Superintendent or designee shall ensure that the images are accessed, retained, and disclosed in accordance with law, Board policy, administrative regulation, and any applicable collective bargaining agreements.

Regulation 3515: Campus Security

Status: DRAFT

Original Adopted Date: 06/01/1996 **| Last Revised Date:** 12/01/2022

The Superintendent or designee shall develop a campus security plan which contributes to a positive school climate, fosters social and emotional learning and student well-being, and includes strategies to:

1. Secure the campus perimeter and school facilities in order to prevent criminal activity

   These strategies include a risk management analysis of each campus' security system, lighting system, and fencing. Procedures to ensure unobstructed views and eliminate blind spots caused by doorways and landscaping shall also be considered. In addition, parking lot design may be studied, including methods to discourage through traffic.

2. Secure buildings and interior spaces from outsiders and discourage trespassing

   These strategies may include installing locks, requiring visitor registration, providing staff and student identification tags, and patrolling places used for congregating and loitering.

3. Secure the district's network infrastructure and web applications from cyberattacks

   These strategies may include performing an independent security assessment of the district's network infrastructure and selected web applications.

4. Discourage vandalism and graffiti

   These strategies may include plans to immediately cover graffiti and implement campus beautification.

5. Control access to keys and other school inventory

6. Detect and intervene with school crime

   These strategies may include creating a school watch program, increasing adult presence and supervision, establishing an anonymous crime reporting system, monitoring suspicious and/or threatening digital media content, analyzing school crime incidents, and collaborating with local law enforcement agencies, including providing for law enforcement presence.

   Additionally, all staff shall be made aware of their responsibilities regarding the immediate reporting of potential homicidal acts to law enforcement, and receive training in the assessment and reporting of such threats.

Policy 3515.21: Unmanned Aircraft Systems (Drones)

Status: DRAFT

Original Adopted Date: 07/01/2018

The Board of Trustees recognizes that unmanned aircraft or aerial systems (drones) may be a useful tool to enhance the instructional program and assist with district operations. In order to avoid disruption and maintain the safety, security, and privacy of students, staff, and visitors, any person or entity desiring to use a drone on or over district property shall submit a written request for permission to the Superintendent or designee.

A small unmanned aircraft system or drone is an aircraft weighing less than 55 pounds that is operated remotely without the possibility of direct human intervention from within or on the aircraft and the associated elements, including communication links and controls, required for the pilot to operate the aircraft safely and efficiently. It does not include model aircraft or rockets such as those which are radio controlled and used only for hobby or recreational purposes. (49 USC 40101 Note; 14 CFR 107.3)

The Superintendent or designee may grant permission to district employees and students for the use of drones only if the planned activity supports instructional, co-curricular, extracurricular, athletic, or operational purposes. Such uses may include, but are not limited to, instruction in science, technology, engineering, and math (STEM), the arts, or other subjects; maintenance of grounds and facilities; and campus security. When used for instructional purposes, there shall be a clear and articulable connection between drone technology and the course curriculum. Any person or entity, other than a district employee or student, who is requesting or operating a drone on or over district property shall agree to hold the district harmless from any claims of harm to individuals or property resulting from the operation of the drone and provide proof of adequate liability insurance covering such use.

In determining whether to grant permission for the requested use of a drone, the Superintendent or designee shall consider the intended purpose of the activity and its potential impact on safety, security, and privacy. The decision of the Superintendent or designee shall be final.

Any person authorized to use a drone on district property shall sign an acknowledgment that he/she understands and will comply with the terms and conditions of the district's policy, federal law and regulations, state law, and any local ordinances related to the use of drones.

When any use of drones is authorized, the Superintendent or designee shall notify the drone operator of the following conditions:

2. The drone shall be kept away from any area reasonably considered private, including, but not limited to, restrooms, locker rooms, and individual homes.

The Superintendent or designee may remove any person engaged in unauthorized drone use on district property and/or may confiscate the drone. In order to reduce unnecessary law enforcement interactions with students, the Superintendent or designee shall provide training to school staff regarding the role of SROs and the appropriate circumstances for contacting such officers.

The Board shall approve a memorandum of understanding (MOU) with the local law enforcement agency which includes, at a minimum:

1. The purpose of the agreement
2. A clear definition of the roles and responsibilities of the district, school site, law enforcement agency, and SROs, including responsibility for supervision of the SRO

5. Assigned hours of SRO duty in and around schools
6. Performance monitoring

The Board may expand on the above requirements to include more specific terms, such as acknowledgement of nondiscrimination requirements, training focused on eliminating disproportionalities in SRO contacts with students, and staffing of an SRO position when the assigned SRO is on leave.

Duties

SROs are duly sworn peace officers who are authorized to carry out their duties pursuant to state law.

Job duties of the SRO shall not include the handling of student code of conduct violations or routine student disciplinary matters that should be addressed by school administrators, or conduct that would be better addressed by mental health professionals.

SROs shall be expected to collaborate with district staff in problem solving and, when circumstances warrant intervention with students, to use positive and restorative approaches in accordance with Penal Code 13651. SROs shall use tactics such as de-escalation techniques to mitigate the use of force in an educational setting and shall strictly adhere to the policy on minimum use of force pursuant to Government Code 7286.

Qualifications of Officers

Prior to beginning their assignment when possible, SROs shall complete specialized training in school policing, the unique experiences of the diverse populations within the school community, and the law enforcement agency's use of force policy.

Nondiscrimination

SROs shall not discriminate against or treat any person differently on the basis race, color, ancestry, nationality, national origin, immigration status, ethnic group identification, ethnicity, age, religion, marital status, pregnancy, parental status, physical or mental disability, sex, sexual orientation, gender, gender identity, gender expression, or genetic information; a perception of one or more of such characteristics; or association with a person or group with one or more of these actual or perceived characteristics.

The Superintendent or designee shall periodically report to the Board disaggregated data on student interactions with SROs to evaluate the appropriateness of such interactions and ensure compliance with the prohibition against nondiscrimination. Such reports may include the number of arrests and referrals for prosecution, the number of reports provided to the school or district regarding student misconduct, or other actions taken by SROs with respect to individual students or others on campus.

As necessary, the Superintendent or designee shall develop and implement practices to prevent disproportionality of student interactions with SROs based on student characteristics and to minimize the potential for referrals of students into the juvenile justice system.

Access to Records

SROs shall not have access to student records, nor release student information to another person, agency, or organization, without written permission from the parent/guardian or adult student, unless specifically allowed or required by state or federal law. (Education Code 49076; 34 CFR 99.1)

SROs shall not solicit or collect information or documents regarding the citizenship or immigration status of students or their family members or provide assistance with immigration enforcement at district schools, except as may be required by state and/or federal law. (Education Code 234.7)

The district may offer any other student or former student, with parent/guardian permission, the option to provide service, work, or other alternative, nonmonetary forms of compensation to settle the debt owed as a result of property loss or damage. Service or work exchanged for repayment of a debt shall comply with all provisions of the Labor Code related to youth employment. (Education Code 48904, 49014)

Meal Sales

Each school day, a nutritionally adequate breakfast and lunch shall be made available through the National School Lunch Program to any student who requests a meal. After such school meals have been made available to a student, the district may sell the student the entrée from an additional nutritionally adequate meal that qualifies for federal reimbursement, from the same meal service. (Education Code 49431, 49501.5)

As permitted by law, adult meals and other nonprogram foods, such as smart snack compliant food and beverages, may be sold on campus during meal service times following Board Policy BP 5030. (Education Code 38082, 49431, 49501.5)

In addition, meals may be sold to nonstudents, including parents/guardians, volunteers, students' siblings, or other individuals, who are authorized by the Superintendent or designee to be on campus. Any meals served to adults and nonstudents shall not be subsidized by federal or state reimbursements, food service revenues, or U.S. Department of Agriculture (USDA) foods. (Education Code 38082)

Meal prices, as recommended by the Superintendent or designee and approved by the Board, shall be based on the costs of providing food services and consistent with Education Code 38084 and 42 USC 1760.

The Superintendent or designee shall establish strategies and procedures for the collection of meal payments. Such procedures shall conform to 2 CFR 200.426 and any applicable CDE guidance. The Superintendent or designee shall clearly communicate these procedures to students and parents/guardians, and shall make this policy and the accompanying administrative regulation available to the public pursuant to Education Code 49557.5.

Cafeteria Fund and Account

The Superintendent or designee shall establish a cafeteria fund independent of the district's general fund.

Contracts with Outside Services

When soliciting for bids and contracts for the purchase of an agricultural food product, the district shall specify in the solicitation that only the purchase of agricultural food products grown, packed, or processed domestically is authorized, unless a specific exception applies. A nondomestic food product may be purchased for use in the district's food service program only as a last resort when the product is not produced or manufactured in the United States in sufficient and reasonably available quantities of a satisfactory quality, the quality of the domestic product is inferior to the quality of the nondomestic product, or the bid or price of the nondomestic product is more than 25 percent lower than the bid or price of the domestic product. In such cases, the Superintendent or designee shall retain documentation justifying the use of the exception for three years from the date of purchase. (Food and Agriculture Code 58596.3)

Furthermore, the district shall accept a bid or price for an agricultural food product grown in California before accepting a bid or price for a domestic agricultural food product that is grown outside the state, if the quality of the California-grown product is comparable and the bid or price does not exceed the lowest bid or price for domestic product produced outside the state. (Food and Agriculture Code 58595)

Bid solicitations and awards for purchases of equipment, materials, or supplies in support of the district's child nutrition program, or for contracts awarded pursuant to Public Contract Code 2000, shall be consistent with the federal procurement standards in 2 CFR 200.318-200.326. The Superintendent or designee shall present to the Board, at least annually, financial reports regarding revenues and expenditures related to the food service program.

Between October and April, or at any time or school on a year-round schedule, the district may serve meals at a non-school site in cases of unanticipated school closures, such as a natural disaster, unscheduled major building repair, court order related to school safety or other issues, labor-management dispute, or similar cause as approved by the CDE. (42 USC 1761; 7 CFR 225.6)

The Superintendent or designee shall recommend to the Board one or more sites for meal services based on state and federal program criteria and an assessment of family and community needs. 3. Closed Enrolled Site: The site is open only to enrolled children, as opposed to the community at large, and at least 50 percent of the enrolled children at the site are eligible for free or reduced price school meals, as determined by approval of applications in accordance with 7 CFR 225.15(f).

A large banner or marquee shall be prominently displayed at each site before and during the meal service. Other outreach strategies may include, but are not limited to, sending a news release to the local media, distributing a flyer to parents/guardians of district students, posting information on the district or school web site, and placing posters throughout the community.

All meals offered through the summer meal program shall meet U.S. Department of Agriculture minimum meal patterns as specified in 7 CFR 225.16 or the meal patterns required for the National School Lunch and Breakfast Programs. (42 USC 1761; 7 CFR 225.16)

The Superintendent or designee shall submit to the CDE monthly reimbursement claims based on the number of eligible meals served.

Program administrative personnel shall annually attend mandatory training provided by the CDE. In addition, the Superintendent or designee shall annually hold program training sessions for administrative and site personnel and shall allow no site to operate until personnel have attended at least one of these training sessions. Training of site personnel shall include, but not be limited to, the purpose of the program, site eligibility, record keeping, site operations, meal pattern requirements, and the duties of a program monitor. A short version of the nondiscrimination statement, as provided by USDA, may be used on pamphlets, brochures, and flyers in the same print size as the rest of the text.

Policy 3580: District Records

Status: DRAFT

Original Adopted Date: 11/01/2009 **| Last Revised Date:** 03/01/2025

The Board of Trustees recognizes the importance of securing and retaining district documents. The Superintendent or designee shall ensure that district records are developed, maintained, and disposed of in accordance with law, Board policy, and administrative regulation.

The Superintendent or designee shall consult with district legal counsel, site administrators, district information technology staff, personnel department staff, and others as necessary to develop a secure document management system that provides for the storage, retrieval, archiving, and destruction of district documents, including electronically stored information such as email. This document management system shall be designed to comply with state and federal laws regarding security of records, record retention and destruction, response to "litigation hold" discovery requests, and the recovery of records in the event of a disaster or emergency.

The Superintendent or designee shall ensure the confidentiality of records as required by law and shall establish regulations to safeguard data against damage, loss, or theft, including damage, loss, or theft which may be caused by cybersecurity breaches.

The Superintendent or designee shall ensure that employees receive information about the district's document management system, including retention and confidentiality requirements and an employee's obligations in the event of a litigation hold or California Public Records Act request established on the advice of legal counsel. Additionally, the Superintendent or designee shall ensure that employees receive information and training about cybersecurity, including ways to protect district records from breaches to the district's digital infrastructure.

If the district discovers or is notified that a breach in the security of district records has resulted in the release of personal information, the Superintendent or designee shall notify every individual whose personal information was, or is reasonably believed to have been, acquired by an unauthorized person, if that information was either unencrypted or encrypted under the circumstances specified in Civil Code 1798.29. "Personal information" includes, but is not limited to, a social security number, driver's license or identification card number, medical information, health insurance information, or an account number in combination with an access code or password that would permit access to a financial account. (Civil Code 1798.29)

The Superintendent or designee shall provide the notice in a timely manner either in writing or electronically, unless otherwise provided in law. The notice shall include the material specified in Civil Code 1798.29, be formatted as required, and be distributed in a timely manner, consistent with the legitimate needs of law enforcement to conduct an uncompromised investigation or any measures necessary to determine the scope of the breach and restore reasonable integrity of the data system. (Civil Code 1798.29)

If the district experiences a cyberattack that impacts more than 500 students or personnel, the Superintendent or designee shall report the cyberattack to the California Cybersecurity Integration Center. (Education Code 35266)

Safe at Home Program

District public records shall not include the actual addresses of students, parents/guardians, or employees when a substitute address is designated by the Secretary of State pursuant to the Safe at Home program. (Government Code 6206, 6207)

When a substitute address card is provided pursuant to this program, the confidential, actual address may be used only to establish district residency requirements for enrollment and for school emergency purposes.

Records containing a participant's confidential address information shall be kept in a confidential location and not shared with the public.

Regulation 3580: District Records

Status: DRAFT

Original Adopted Date: 11/01/2009 **| Last Revised Date:** 03/01/2025

Classification of Records

Records means all records, maps, books, papers, and documents of a school district required by law to be prepared or retained as necessary or convenient to the discharge of official duty. (5 CCR 16020)

Before January 1, the Superintendent or designee shall review the prior year's records and shall classify them as either a Class 1 (Permanent), Class 2 (Optional), or Class 3 (Disposable) record. (5 CCR 16022)

Records of a continuing nature, such as documents that are active and useful for administrative, legal, fiscal, or other purposes over a period of years, shall not be classified until such usefulness has ceased. (5 CCR 16022)

Any historical inventory of equipment shall be a continuing record and shall not be classified until the inventory is superseded or until the equipment is removed from district ownership. (5 CCR 16022)

A student's cumulative record, if not transferred, is a continuing record until the student ceases to be enrolled in the district. (5 CCR 16022)

When an electronic or photographed copy of a Class 1 (Permanent) record has been made, the copy may be classified as Class 1 (Permanent) and the original classified as either Class 2 (Optional) or Class 3 (Disposable). However, no original record that is basic to any required audit may be destroyed prior to the second July 1st succeeding the completion of the audit. (Education Code 35254; 5 CCR 16022)

Class 1 - Permanent Records

The original of each of the following records, or one exact copy of it when the original is required by law to be filed with another agency, is a Class 1 (Permanent) record and shall be retained indefinitely unless microfilmed in accordance with 5 CCR 16022: (5 CCR 16023)

1. Annual Reports
    a. Official budget
    b. Financial reports of all funds, including cafeteria and student body funds
    c. Audit of all funds
    d. Average daily attendance, including Period 1 and Period 2 reports
    e. Other major annual reports, including:
        i. Those containing information relating to property, activities, financial condition, or transactions
        ii. Those declared by Board of Trustees minutes to be permanent
2. Official Actions
    a. Minutes of the Board or Board committees, including the text of rules, regulations, policies, or resolutions not set forth verbatim in the minutes, but included by reference only
    b. The call for and the result of any elections called, conducted, or canvassed by the Board
    c. Records transmitted by another agency pertaining to its action with respect to district reorganization
3. Personnel Records

    Class 1 (Permanent) records include all detailed records relating to employment; assignment; amounts and

dates of service rendered; termination or dismissal of an employee in any position; sick leave record; rate of compensation, salaries, or wages paid; and deductions or withholdings made and the person or agency to whom such amounts were paid.

In lieu of the detailed records, a complete proven summary payroll record for each employee containing the same data may be classified as a Class 1 (Permanent) record and the detailed records may then be classified as Class 3 (Disposable) records.

Information of a derogatory nature as defined in Education Code 44031 shall be retained as a Class 1 (Permanent) record only when the time for filing a grievance has passed or the document has been sustained by the grievance process.

4. Student Records

   The records of enrollment and scholarship for each student required by 5 CCR 432 and all records pertaining to any accident or injury involving a minor for which a claim for damages had been filed as required by law shall be classified as Class 1 (Permanent) records.

   These include any related policy of liability insurance, except that these records cease to be Class 1 (Permanent) records one year after the claim has been settled or the statute of limitations has expired.

5. Property Records

   Class 1 (Permanent) records include all detailed records relating to land, buildings, and equipment.

   In lieu of detailed records, a complete property ledger may be classified as a Class 1 (Permanent) record. The detailed records may then be classified as Class 3 (Disposable) records if the property ledger includes all fixed assets; an equipment inventory; and, for each piece of property, the date of acquisition, name of previous owner, a legal description, amount paid, and comparable data if the unit is disposed of.

Class 2 - Optional Records

Any records considered temporarily worth keeping, but which are not Class 1 records, may be classified as Class 2 (Optional) records and shall be retained until reclassified as Class 3 (Disposable) records. If, by agreement of the Board and Superintendent or designee, classification of the prior year records has not been made before January 1 as specified in 5 CCR 16022, all records of the prior year may be classified as Class 2 (Optional) records pending further review and classification within one year. (5 CCR 16024)

Class 3 - Disposable Records

All records not classified as Class 1 (Permanent) or as Class 2 (Optional) records shall be classified as Class 3 (Disposable) records. These include, but are not limited to, detailed records basic to audit, including those relating to attendance, average daily attendance, or business or financial transactions; detailed records used in preparing another report; teachers' registers if all information required by 5 CCR 432 is retained in other records or if the General Records pages are removed from the register and classified as Class 1 (Permanent) records; and periodic reports, including daily, weekly, and monthly reports, bulletins, and instructions. (5 CCR 16025)

All Class 3 (Disposable) records shall be destroyed during the third school year after the school year in which the records originated. In addition, Class 3 (Disposable) records shall not be destroyed until after the third school year following the completion of any legally required audit or the retention period required by any agency other than the State of California, whichever is later. A continuing record shall not be destroyed until the fourth year after it has been classified as a Class 3 (Disposable) record. (5 CCR 16026, 16027)

Electronically Stored Information

All electronically stored information related to the conduct of district business, including information created, saved, sent, or received on a district employee's or Board member's personal account or device, shall be saved as an electronic file to a district-provided account or device and retained in accordance with the section "Classification of Records" above. Such information includes, but is not limited to, email, text messages, messages sent via apps, computer files, and other electronic communications related to district business. All records, including electronic documents, should be organized and filed for easy retrieval based on information contained in, and the purpose of,

the record.

Employees shall be required to regularly purge their email accounts and district-issued computers, cell phones, and other communication devices of personal electronically stored information and other information unrelated to district business. The Superintendent or designee may check for appropriate use of any district-owned equipment at any time.

Any person to whom a district-owned computer, cell phone, or other electronic communication device is provided shall be notified about the district's electronic information management system and, as necessary, provided training on the effective use of the device.

The Board of Trustees authorizes the use of consultants and other independent contractors to provide expert professional advice or specialized technical or training services which are not needed on a continuing basis and which cannot be provided by district staff because of limitations of time, experience, or knowledge. Individuals, firms, or organizations employed as independent contractors may assist management with decisions and/or project development related to financial, economic, accounting, engineering, legal, administrative, instructional, or other matters.

As part of the contract process, the Superintendent or designee shall determine that the individual, firm, or organization is properly classified as an independent contractor.

A person providing labor or services for remuneration shall be considered an employee rather than an independent contractor unless the district is able to demonstrate that all of the following conditions have been met: (Labor Code 2775)

1. The person is free from the control and direction of the district in connection with the performance of the work.

2. The person is performing work that is outside the usual course of the district providing educational services.

The determination of whether an individual acting as a sole proprietor or a firm or other business organization is an independent contractor shall be made in accordance with Labor Code 2775-2785, as applicable.

All consultant contracts shall be brought to the Board for approval.

All qualified independent contractors shall be accorded equal opportunity for contracts regardless of actual or perceived race, ethnicity, color, national origin, ancestry, age, religious creed, marital status, pregnancy, physical or mental disability, medical condition, genetic information, veteran or military status, sex, sexual orientation, gender, gender identity, gender expression, immigration status, or association with a person or group with one or more of these actual or perceived characteristics. (Education Code 220; Government Code 12940)

Independent contractors shall submit a written conflict of interest statement disclosing financial interests as determined necessary by the Superintendent or designee, depending on the range of duties to be performed by the consultant. The Superintendent or designee shall consider this statement when deciding whether to recommend approval of the contract.

Any consultant hired by the district who is subject to the filing requirements in the district's conflict of interest code shall file a Statement of Economic Interests within the time period required by law. (Government Code 87302)

When employees of a public university, county office of education, or other public agency serve as consultants or independent contractors in other capacities for the district, they shall certify as part of the agreement that they will not receive salary or remuneration other than vacation pay from any other public agency for the specific days when they work for the district.

   A supervisor or manager who has received information about an incident of discrimination or harassment, or

has observed such an incident, shall report it to the coordinator, whether or not the complainant files a written complaint.

The written complaint should contain the complainant's name, the name of the individual who allegedly committed the act, a description of the incident, the date and location where the incident occurred, any witnesses who may have relevant information, any available evidence of the discrimination or harassment, and any other pertinent information which may assist in investigating and resolving the complaint.

Written Report on Findings and Remedial/Corrective Action: No more than 20 business days after receiving the complaint, the coordinator shall conclude the investigation and prepare a written report of the findings. This timeline may be extended for good cause. If an extension is needed, the coordinator shall notify the parties and explain the reasons for the extension.

Request for Reasonable Accommodation

When requesting reasonable accommodation, an employee or his/her representative shall inform the employee's supervisor that he/she needs a change at work for a reason related to a medical condition. The supervisor shall inform the coordinator of the employee's request as soon as practicable.

When requesting reasonable accommodation for the hiring process, a job applicant shall inform the coordinator that he/she will need a reasonable accommodation during the process.

When the disability or the need for accommodation is not obvious, the coordinator may ask the employee to supply reasonable documentation about his/her disability. In requesting this documentation, the coordinator shall specify the types of information that are being sought about the employee's condition, the employee's functional limitations, and the need for reasonable accommodation. The employee may be asked to sign a limited release allowing the coordinator to submit a list of specific questions to his/her health care or vocational professional.

If the documentation submitted by the employee does not indicate the existence of a qualifying disability or explain the need for reasonable accommodation, the coordinator shall request additional documentation that specifies the missing information. If the employee does not submit such additional documentation in a timely manner, the coordinator may require him/her to submit to an examination by a health care professional selected and paid for by the district.

The district may make a medical or psychological inquiry of a job applicant or require him/her to submit to a medical or psychological examination after he/she has been given a conditional offer of employment but before the commencement of his/her job duties, provided the inquiry or examination is job-related, consistent with business necessity, and required for all incoming employees in the same job classification. 2. Engage in an informal, interactive process with the individual to review the request for accommodation, identify the precise limitations resulting from the disability, identify potential accommodations, and assess their effectiveness

3. Develop a plan for reasonable accommodation which will enable the individual to perform the essential functions of the job or gain equal access to a benefit or privilege of employment without imposing undue hardship on the district

   A determination of undue hardship should be based on several factors, including: (29 CFR 1630.2)

   a. The nature and net cost of the accommodation needed, taking into consideration the availability of tax credits and deductions and/or outside funding

Reasonable Accommodation Committee

The coordinator may appoint a committee to review or assist in the development of appropriate plans to reasonably accommodate qualified individuals who request modifications or adjustments in their work duties or environment because of known physical or mental disabilities.

Committee members shall be selected on the basis of their knowledge of the specific functions and duties required in the position, the physical work environment, available accommodations, and other relevant issues. The committee may include a district administrator, site administrator, medical advisor or rehabilitation specialist, and as necessary, a certificated and/or classified employee. Membership may change on a case-by-case basis.

At the coordinator's discretion, the employee or applicant requesting accommodation may participate in the committee's meetings. If the employee or applicant is excluded from the committee's meetings, the coordinator shall communicate with him/her so that he/she has the opportunity to interact and contribute to planning the reasonable accommodation.

Appeal Process

Any qualified individual with a disability who is not satisfied with the decision of the coordinator may appeal in writing to the Superintendent or designee. This appeal shall be made within 10 working days of receiving the decision and shall include:

1. A clear, concise statement of the reasons for the appeal

2. A statement of the specific remedy sought

The Superintendent or designee shall consult with the coordinator and review the appeal, together with any available supporting documents. The Superintendent or designee shall give the individual his/her decision within 15 working days of receiving the appeal.

Policy 4040: Employee Use Of Technology

Status: DRAFT

Original Adopted Date: 07/01/2001 **| Last Revised Date:** 09/01/2024

The Board of Trustees is committed to supporting the District's culture of openness, trust, and integrity while also protecting the safety of the District, its employees, and students as they utilize District technological resources. These technological resources are to be used for learning and business purposes to serve the education of our students.

Maintaining effective information and information systems security is a team effort requiring the participation and support of every District employee and affiliate.

This Board Policy applies to all employees, contractors, consultants, temporary workers, and all other workers at the District and its subsidiaries. All individuals subject to this Board Policy are responsible for exercising good judgment regarding the appropriate use of information, electronic devices, and network resources; these individuals must also follow District policies and standards, as well as local laws and regulations.

This policy regulates the use of information, electronic and computing devices, and network resources used to conduct District business or interact with internal networks and business systems, whether owned or leased by the District, the employee, or a third party. Internet/Intranet/Extranet-related systems, such as computer equipment, mobile devices, software, operating systems, storage media, network accounts providing electronic mail, World Wide Web (WWW) browsing, and File Transfer Protocol (FTP), are the property of the District. It is the responsibility of every computer user to know these guidelines and to conduct their activities accordingly. Inappropriate use exposes the District to cyber risks, including virus attacks, ransomware, compromise of network systems and services, data breaches, and legal issues.

DEFINITIONS AND TERMS

- Blogging - write about (an event, situation, topic, etc.) in a blog.
- Honeypot - Programs that simulate one or more network services that you designate on your computer's ports. An attacker assumes you're running vulnerable services that can be used to break into the machine. A honey pot can be used to log access attempts to those ports, including the attacker's keystrokes. This could give you advanced warning of a more concerted attack.
- Proprietary Information - Proprietary information is information unique to a company and its ability to compete, such as customer lists, technical data, product costs, and trade secrets.
- Spam- irrelevant or inappropriate messages sent on the internet to a large number of recipients.
- Ransomware - A type of malware that is a form of extortion. It works by encrypting a victim's hard drive, denying them access to key files. The victim must then pay a ransom to decrypt the files and gain access to them again.

General Use and Ownership

District proprietary information stored on electronic and computing devices, whether owned or leased by the District, the employee, or a third party, remains the sole property of the District. All individuals subject to this board policy must ensure that proprietary information is protected in accordance with the *Data Protection Standard.*

Theft, loss, or unauthorized disclosure of the District's proprietary information must be promptly reported to the Information Technology Department.

All individuals subject to this board policy may access, use, or share District proprietary information only to the extent authorized and necessary to fulfill their assigned job duties.

Employees are responsible for adhering to the District's professional standards when accessing technology for personal use. This includes ensuring everyone takes precautions against damage or other physical harm that may occur to devices under their control.

For security and network maintenance purposes, authorized individuals within the District may monitor equipment, systems, and network traffic at any time.

The District reserves the right to audit networks and systems periodically to ensure compliance with this policy.

Security and Proprietary Information

All mobile and computing devices that connect to the internal network must comply with the Minimum Access Section of AR 4040.

System-level and user-level passwords must comply with the Password Complexity Section of AR 4040. Providing personal credentials to another individual, either deliberately or through failure to protect one's password, is prohibited.

All individuals subject to this Board Policy must lock their device's screen or log off before leaving their device unattended.

Postings by employees from a District email address to newsgroups or other online platforms should contain a disclaimer stating that the opinions expressed are strictly their own and not necessarily those of the District, unless posting is within the scope of their business duties.

Employees must use extreme caution when opening email attachments from unknown senders since these attachments could contain malware.

Unacceptable Use

The activities listed below in "System and Network Activities" and "Email and Communication Activities" are generally prohibited. Employees may be exempt from these restrictions depending on their legitimate job responsibilities (e.g., systems administration staff may need to disable the network access of a host if that host is disrupting production services).

Under no circumstances is an employee of the District authorized to use District-owned resources to engage in any activity that is illegal under local, state, federal, or international law.

System and Network Activities

The following non-exhaustive list of activities provides a framework for activities that fall into the category of unacceptable use and are strictly prohibited without exceptions:

1. Violating the rights of any person or company protected by copyright, trade secret, patent, or other intellectual property, or similar laws or regulations, including, but not limited to, the installation or distribution of "pirated" or other software products that are not appropriately licensed for use by the District.

2. Engaging in the unauthorized copying of copyrighted material, including, but not limited to, digitization and distribution of photographs from magazines, books, or other copyrighted sources, copyrighted music, and the installation of any copyrighted software for which the District or the end user does not have an active license.

3. Accessing data, a server, or an account for any purpose other than conducting District business, even if an employee has authorized access.

4. Exporting software, technical information, encryption software, or technology in violation of international or regional export control laws. The appropriate management should be consulted prior to the export of any material that is in question.

5. Introducing malicious programs into the network or server (e.g., viruses, worms, trojan horses, ransomware, etc.).

6. Revealing an employee's account password/passphrase to others, including family and household members, or allowing others to use an employee's account.

7. Using a District computing asset to actively engage in procuring or transmitting material that is in violation of sexual harassment or hostile workplace laws in the user's local jurisdiction.

8. Making fraudulent offers of products, items, or services originating from any District account.

9. Accessing visual or textual depictions that are obscene, child pornography, or harmful to minors.

10. Causing security breaches or disruptions of network communication. Security breaches include, but are not limited to, accessing data of which the employee is not an intended recipient or logging into a server or account that the employee is not expressly authorized to access, unless these duties are within the scope of regular duties. For purposes of this section, "disruption" includes, but is not limited to, network sniffing, ping floods, packet spoofing, denial of service, brute-forcing accounts, and forged routing information for malicious purposes.

11. Using port scanning or security scanning without the prior approval of the Information Technology Department.

12. Executing any network monitoring that can intercept data not intended for the employee's host, unless this activity is a part of the employee's regular job duties.

13. Circumventing user authentication or security of any host, network, or account.

14. Introducing honeypots, honeynets, or similar technologies on the District network.

15. Interfering with or denying service to any user other than the employee's host (e.g., denial of service attack).

16. Using any program/script/command, or sending messages of any kind, with the intent to interfere with or disable a user's network-based session via any means, locally or via the Internet/Intranet/Extranet.

17. Providing information about, or lists of, District employees to parties outside the District.

Email and Communication Activities

When using District resources to access the internet, users must be aware that they represent the District. Whenever employees state an affiliation to the District, they must also clearly indicate that "the opinions expressed are my own and not necessarily those of the company." Questions regarding email and communication activities shall be directed to the Information Technology Department.

The following non-exhaustive list of activities provides a framework for activities that fall into the category of unacceptable use and are strictly prohibited without exceptions:

1. Sending unsolicited email messages, including sending "junk mail" or other advertising material to individuals who did not specifically request such material (email spam).

2. Any form of harassment via email, telephone, text, or paging, whether through language, frequency, or size of messages.

3. Unauthorized use or forging of email header information.

4. Solicitation of email for any other email address, other than that of the poster's account, with the intent to harass or to collect replies.

5. Creating or forwarding "chain letters," "Ponzi," or other "pyramid" schemes of any type.

6. Using unsolicited emails originating from within the District's networks representing other non-District providers on behalf of, or to advertise for, any service hosted by non-District entities.

7. Posting the same or similar non-business-related messages to large numbers of Usenet newsgroups (newsgroup spam).

Blogging and Social Media

Blogging or posting to social media platforms by employees, whether using the District's property and systems or personal computer systems, is also subject to the terms and restrictions set forth in this policy. Limited and occasional use of the District's systems to engage in blogging or other online posting is acceptable, provided that it is done in a professional and responsible manner, does not otherwise violate the District's policy, is not detrimental to the District's best interests, and does not interfere with an employee's regular work duties. Blogging or other

online posting from the District's systems is also subject to monitoring.

The District's *Confidential Information policy* also applies to blogging. As such, employees are prohibited from revealing any confidential or proprietary information, trade secrets, or any other material subject to the District's confidential information policy when engaged in blogging.

Employees shall not engage in any blogging that may harm or tarnish the image, reputation, and/or goodwill of the District and/or any of its employees. Employees are also prohibited from making any discriminatory, disparaging, defamatory, or harassing comments when blogging or otherwise engaging in any conduct prohibited by the District's *Non-Discrimination and Anti-Harassment* policy.

Employees may also not attribute personal statements, opinions, or beliefs to the District when engaged in blogging. If an employee expresses their beliefs and/or opinions in blogs, they may not expressly or implicitly represent themselves as an employee or representative of the District. Employees assume any and all risks associated with blogging.

Apart from following all laws pertaining to the handling and disclosure of copyrighted or export-controlled materials, the District's trademarks, logos, and any other District intellectual property may also not be used in connection with any personal blogging or social media activity.

Artificial Intelligence (AI) and Machine Learning (ML)

The following principles guide the District's development and regulation of AI and ML Applications:

1. Fairness and Inclusivity: AI and ML applications should be developed and used to promote fairness, equity, and inclusivity. This includes avoiding biased or discriminatory outcomes and ensuring that AI and ML systems do not perpetuate or exacerbate societal inequities.

2. Transparency and Explainability: AI and ML models should be transparent and explainable, allowing users to understand the reasoning behind their decisions. This transparency is crucial for building trust in AI and ML systems and enabling users to identify and address potential biases or errors.

3. Accountability: Individuals responsible for developing, deploying, and using AI and ML systems should be accountable for the outcomes of those systems. This includes taking responsibility for potential harms caused by AI and ML systems and implementing appropriate safeguards to mitigate risks.

4. Data Privacy and Security: AI and ML systems must handle data responsibly and securely, adhering to the organization's data privacy policies and applicable laws and regulations. This includes protecting sensitive data, obtaining informed consent for data collection and use, and implementing robust data security measures.

5. Compliance with Laws and Regulations: AI and ML systems must comply with all applicable laws and regulations, including those related to discrimination, privacy, and competition.

6. Data subject to standards defining PII shall not be entered into publicly exposed AI systems or shared to improve learning methods outside of the District control.

All students, employees, and other district personnel are strictly prohibited, without exception, from using AI and ML to engage in:

1. Harassment, Discrimination, or Hate Speech: AI and ML systems must not be used to create or disseminate content that promotes or incites harassment, discrimination, or hate speech.

2. Invasion of Privacy: AI and ML systems must not be used to invade individuals' privacy or collect personal data without their knowledge and consent.

3. Illegal or Unethical Activities: AI and ML systems must not be used to engage in any illegal or unethical activities, including fraud, deception, or manipulation.

4. Plagiarism: AI-derived work must not be presented as being originally authored by the user.

Policy Compliance

The Information Technology Department will verify compliance with this board policy through various methods, including but not limited to, business tool reports, internal and external audits, and feedback to the policy owner. Any person seeking an exception to the Acceptable Use policy must receive prior approval from the Information Technology Department, Superintendent, or designee before engaging in an action that would violate the policy. An employee found to have violated this policy may be subject to disciplinary action, up to and including termination of employment.

Regulation 4040: Employee Use Of Technology

Status: DRAFT

Original Adopted Date: Pending

Data Protection

Data that is classified as Personally Identifiable Information (PII) as defined under FERPA, HIPAA or other appropriate standard must be protected at rest and in transit with a minimal level of compliance defined below:

Web Server or Service utilizing SSL/TLS must support a TLS version of 1.2 or higher. TLS versions below 1.2 shall be disabled for servers and services.

PII data at rest, stored on a local hard drive, server storage, or in the cloud must meet or exceed an encryption strength of Advanced Encryption Standard (AES) with a minimal key size of 128 bits.

Quantum Safe encryption protocols and algorithms should be used when supported.

Minimal Access

Access to district network resources requires compliance with modern security standards. These minimal access standards are detailed in this section.

Wireless Access:

Wi-Fi Protected Access 2 or higher (WPA2) is required to access credentialed Wireless Networks.

Authentication is controlled through a Network Access Controller based on unique user credentials or unique aspects of the connecting device.

Wired Access:

The device must support IEEE 802.1X, or equivalent modern, protocol.

In instances where the device does not support 802.1X credentialed login, the device must allow for enough identifiable traits to allow the Network Access Controller to define the device and properly place the device into the appropriate network.

Web Service Access:

An abundance of effort should be made to select products that utilize Single Sign On (SSO) methods to authenticate. SSO is defined in this instance as Security Assertion Markup Language or Open Authorization (SAML and OAuth Respectively). SSO-based authentication does not transmit credentials to external entities, improving overall security of the district.

Password Complexity Section

Passwords must comply with the following standards:

Must contain 3 of 4 of the following types of characters.

- Lower Case Letter
- Upper Case Letter
- Number
- Special Character

Passwords must be unique; the reuse of passwords is not permitted.
Passwords must meet a minimum password length of 8 characters.

MultiFactor Authentication

All Employees of the district Must maintain some form of Multifactor Authentication (MFA) as defined by National

Institute of Standards and Technology (NIST).
Current definition of MFA can be found here: csrc.nist.gov/glossary/term/multi_factor_authentication.

Status: DRAFT

Original Adopted Date: 11/01/2008 **| Last Revised Date:** 06/01/2023

The Board of Trustees recognizes that the district's ability to provide a high-quality educational program is dependent upon the employment of certificated staff who are adequately prepared and have demonstrated proficiency in basic skills and competency in the subject matter to be taught. The Superintendent or designee shall ensure that persons employed to fill positions requiring certification qualifications possess the appropriate credential, permit, or other certification document from the Commission on Teacher Credentialing (CTC) and fulfill any additional state, federal, or district requirements for the position.

The Superintendent or designee shall provide assistance and support to teachers holding preliminary credentials to enable them to meet the qualifications required for the clear credential.

Priorities for Hiring Based on Unavailability of Credentialed Teacher

The Superintendent or designee shall make reasonable efforts to recruit a fully prepared teacher who is authorized in the subject or setting for each assignment or, when necessary, a fully prepared teacher serving on a local assignment option. Whenever a teacher with a clear or preliminary credential is not available, and the Board adopts a resolution that it has made reasonable efforts to recruit a fully prepared teacher for the assignment, the Superintendent or designee shall make reasonable efforts to recruit an individual for the assignment in the following order: (Education Code 44225.7)

1. A candidate who enrolls in an approved internship program in the region of the district and possesses an intern credential

2. A candidate who is scheduled to complete preliminary credential requirements within six months and who is granted a provisional internship permit (PIP) or short-term staff permit issued by CTC

   The Board shall take action to approve, at an open Board meeting, a notice of its intent to employ a PIP applicant for a specific position. (5 CCR 80021.1)

3. An individual who has been granted a credential waiver by CTC

The Declaration of Need shall be approved by the Board as an action item at a regularly scheduled open Board meeting, with the entire Declaration of Need being included in the Board agenda (Education Code 44225, 44225.7; 5 CCR 80023.2, 80026, 80027, 80027.1)

The Declaration of Need shall certify that there is an insufficient number of certificated persons who meet the district's specified employment criteria for the position(s) and that the district has made reasonable efforts to recruit individuals who meet the qualifications specified in Items #1-2 above. The Declaration of Need shall also indicate the number and type of emergency permits and limited assigned permits that the district estimates it will need during the valid period of the Declaration of Need, based on the previous year's actual needs and projections of enrollment. It shall also specify each subject to be listed on the General Education Limited Assignment Single Subject Teaching Permits and the target language on Emergency Bilingual Permits. Whenever the actual number of permits needed exceeds the estimate by 10 percent, the Board shall revise and resubmit the Declaration of Need. (5 CCR 80026)

Whenever it is necessary to employ noncredentialed teachers to fill a position requiring certification qualifications, the Superintendent or designee shall provide support and guidance in accordance with law to ensure the quality of the instructional program.

Resource specialists shall not simultaneously be assigned to serve as resource specialists and to teach regular classes. (Education Code 56362)

The district's resource specialist program shall be under the direction of a resource specialist who possesses the qualifications specified in Education Code 56362.

Regulation 4112.4: Health Examinations

Status: DRAFT

Original Adopted Date: 11/01/2009 | **Last Revised Date:** 12/01/2014

Tuberculosis Tests

No applicant shall be initially employed by the district, or employed under contract, in a classified or certificated position unless he/she has submitted to a tuberculosis risk assessment within the past 60 days and, if tuberculosis risk factors are identified, has submitted to an intradermal or other approved tuberculosis examination to determine that he/she is free of infectious tuberculosis. If the results of the examination are positive, the applicant shall obtain an x-ray of the lungs. At his/her discretion, an applicant may choose to submit to the examination instead of the risk assessment. (Education Code 49406)

Prior to employment by the district, an applicant shall submit a certificate from an authorized health provider stating that the applicant was assessed and/or examined and found to be free of infectious tuberculosis. (Education Code 49406)

An applicant who was previously employed in another school district or private or parochial school shall be deemed to have fulfilled the tuberculosis testing requirement if he/she produces a certificate showing that he/she was found to be free of infectious tuberculosis within 60 days of initial hire or if his/her previous employer verifies that it has a certificate on file showing that the applicant is free from infectious tuberculosis. (Education Code 49406)

Thereafter, each district employee who was found free of infectious tuberculosis shall undergo a tuberculosis risk assessment, and an examination whenever risk factors are identified, at least once every four years or more often when required by the Board of Trustees upon recommendation of the county health officer. However, once an employee has a documented positive test for tuberculosis infection followed by an x-ray, he/she shall no longer be required to submit to the tuberculosis risk assessment but shall be referred to the county health officer within 30 days of the examination to determine the need for follow-up care. (Education Code 49406)

The cost of the pre-employment tuberculosis risk assessment and/or examination shall be paid by the applicant, unless the Board has determined that the district will reimburse an applicant who is subsequently hired by the district. The district shall reimburse the employee for the cost, if any, of subsequent tuberculosis risk assessments and examinations. The district may provide for the risk assessment and examination or may establish a reasonable fee for the examination that is reimbursable to the employee. (Education Code 49406)

Whenever the district contracts for the transportation of students, the contract shall require that all drivers who will be transporting students complete the tuberculosis risk assessment and, if indicated, the examination for infectious tuberculosis within 60 days of initial hire. (Education Code 49406)

The following applicants or employees shall be exempted from the requirement to submit to a tuberculosis risk assessment and/or examination: (Education Code 49406)

1. An applicant/employee who files an affidavit stating that he/she adheres to the faith or teachings of a well-recognized religious sect, denomination, or organization and, in accordance with its creed, tenets, or principles, depends for healing upon prayer in the practice of religion and that, to the best of his/her knowledge and belief, he/she is free from infectious tuberculosis

   Such an exemption shall be allowed only if the Board determines by resolution, after a hearing, that the health of students would not be jeopardized. If at any time there is probable cause to believe that the applicant/employee is afflicted with infectious tuberculosis, he/she may be excluded from service until the Board is satisfied that he/she is not afflicted.

2. A pregnant employee who has positive results on a tuberculosis skin test, in which case she shall be exempted from the requirement to follow up with an x-ray of the lungs for a period not to exceed 60 days after the end of the pregnancy

Examination of Certificated Employees for Disabling Diseases

To fill a certificated position with an applicant who has not previously been employed in a certificated position in California, or with a retirant who has not been employed as a retirant, the district shall have on file a medical certification indicating that the applicant or retirant is free from any disabling disease which would render him/her

unfit to instruct or associate with children. (Education Code 44839, 44839.5)

The certificate shall be completed and submitted directly to the district by an authorized health care provider. The medical examination referenced in the certificate must have been conducted within six months of the date that the certificate is filed. (Education Code 44839, 44839.5; 5 CCR 5503)

Applicants and retirants shall pay for the cost of obtaining the medical certification. (Education Code 44849, 44839.5)

Certificated employees and/or retirants shall be required to periodically undergo, at district expense, a medical examination pursuant to Education Code 44839 or 44839.5 to determine that they are free from any communicable disease making them unfit to instruct or associate with children. (Education Code 44839, 44839.5)

Mental Examination for Certificated Employees

Whenever the Board is considering the suspension or transfer of a certificated employee based on its reasonable belief that the employee is suffering from mental illness of such a degree as to render him/her incompetent to perform his/her duties, the employee shall be offered the opportunity of being examined by a three-member panel of psychiatrists and psychologists in accordance with Education Code 44942. The employee shall select the members of the panel from a list of psychiatrists and psychologists provided by the district. The examination shall be conducted, at district expense, within 15 days of the ordered suspension or transfer. The employee shall submit to the examination, but shall also be entitled to present a report of any psychiatrist, psychologist, or physician of his/her own choice. (Education Code 44942)

Policy 4112.42: Drug And Alcohol Testing For School Bus Drivers

Status: DRAFT

Original Adopted Date: 02/01/1996 **| Last Revised Date:** 06/01/2021

The Board of Trustees desires to ensure that district-provided transportation is safe for students, staff, and the public. To that end, the Superintendent or designee shall establish a drug and alcohol testing program designed to prevent the operation of buses or the performance of other safety-sensitive functions by a driver who is under the influence of drugs or alcohol, including a driver of a school bus, student activity bus, or other school transportation vehicle or any other employee who holds a commercial driver's license which is necessary to perform duties related to district employment.

A driver shall not report for duty or remain on duty when the driver has used any drug listed in 21 CFR 1308.11. A driver is also prohibited from reporting for duty or remaining on duty when the driver has used any drug listed in 21 CFR 1308.12-1308.15, unless the driver is using the drug under the direction of a physician who has advised the driver that the substance will not adversely affect the driver's ability to safely operate a bus. (49 CFR 382.213)

In addition, a driver shall not consume alcohol while on duty and/or performing safety-sensitive functions, or for four hours prior to on-duty time. (49 CFR 382.205, 382.207)

Drivers shall submit to drug and alcohol testing as required under federal law and specified in the accompanying administrative regulation. The district's testing program for drivers shall include pre-employment drug testing and reasonable suspicion, random, post-accident, return-to-duty, and follow-up drug and alcohol testing of drivers. (49 USC 31306; 49 CFR 382.301-382.311)

The Board shall contract for testing services upon verifying that the personnel are appropriately qualified and/or certified and that testing procedures conform to federal regulations.

Except as otherwise provided by law, the Superintendent or designee shall not release individual test results or medical information about a driver to a third party without the driver's specific written consent. (49 CFR 40.321)

Consequences Based on Test Results

No driver shall be temporarily removed from the performance of safety-sensitive functions based only on a laboratory report of a confirmed positive test for a drug or drug metabolite before the certified medical review officer has completed verification of the test results, unless the district has obtained a waiver from the Federal Motor Carrier Safety Administration. (49 CFR 40.3, 40.21, 382.107, 382.119)

Any driver for whom the district receives a verified positive drug test result or who is found to have a blood alcohol concentration of 0.04 or higher shall be immediately removed from performing safety-sensitive functions in accordance with 49 CFR 40.23 and 382.211. An alcohol concentration between 0.02 and 0.04 requires temporary removal of the bus driver for a 24-hour period following the test. Any driver who refuses to take a required drug or alcohol test shall not be permitted to perform or continue to perform safety-sensitive functions. (49 CFR 40.23, 382.211)

Not later than five days after receiving notification of the test result or refusal to comply, the Superintendent or designee shall report any refusal, failure to comply, or positive test result to the California Department of Motor Vehicles (DMV) using a form approved by the DMV. (Vehicle Code 13376)

A driver who has violated federal drug and alcohol regulations may be subject to disciplinary action up to and including dismissal in accordance with law, administrative regulations, and the district's collective bargaining agreement.

Any driver provided with an opportunity to return to a safety-sensitive duty following a violation shall be evaluated by a qualified substance abuse professional and complete the evaluation recommendations before returning to such duty. (49 CFR 40.289)

If the substance abuse professional recommends that further and ongoing services are needed to assist the driver to maintain sobriety or abstinence from drug use, the Superintendent or designee shall require the driver to participate in the recommended services as part of a return-to-duty agreement and shall monitor the driver's compliance. Any drop from a rehabilitation or return-to-duty program or a subsequent positive test result shall be reported to the

DMV. (Vehicle Code 13376; 49 CFR 40.285, 40.287, 40.303, 382.605)

Voluntary Self-Identification

Whenever a driver admits to alcohol or drug misuse under the district's voluntary self-identification program, the Superintendent or designee shall ensure all of the following: (49 CFR 382.121)

1. No adverse action shall be taken against the driver by the district.

2. The driver shall be allowed sufficient opportunity to seek evaluation, education, or treatment to establish control over the drug or alcohol problem.

3. The driver shall be permitted to participate in safety-sensitive functions only after:

    a. Successfully completing an education or treatment program, as determined by a drug and alcohol abuse evaluation expert, such as an employee assistance professional, substance abuse professional, or qualified drug and alcohol counselor

    b. Undergoing a return-to-duty test with a result indicating an alcohol concentration of less than 0.02 and/or a verified negative result for drug use

A driver who admits to alcohol or drug misuse shall not be subject to federal requirements related to referral, evaluation, and treatment, provided that the driver does not self-identify in order to avoid drug or alcohol testing, makes the admission prior to performing a safety-sensitive function, and does not perform a safety-sensitive function until the driver has been evaluated and has successfully completed education or treatment requirements in accordance with program guidelines. (49 CFR 382.121)

Regulation 4112.42: Drug And Alcohol Testing For School Bus Drivers

Status: DRAFT

Original Adopted Date: 08/01/2013 **| Last Revised Date:** 06/01/2021

Definitions

For purposes of drug testing required by the U.S. Department of Transportation (DOT), drugs include marijuana, cocaine, amphetamines, phencyclidine (PCP), and opioids. (49 CFR 40.3, 40.85, 382.107)

Alcohol concentration (or content) means the alcohol in a volume of breath expressed in terms of grams of alcohol per 210 liters of breath as indicated by an evidential breath test. (49 CFR 40.3, 382.107)

Safety-sensitive function means all time from the time the driver begins to work or is required to be in readiness to work until the time the driver is relieved from work and all responsibility for performing work. Safety-sensitive functions include, but are not limited to, all time driving or otherwise in the bus or other school transportation vehicle; waiting at a district facility to be dispatched; inspecting, servicing, or conditioning the vehicle or vehicle equipment; loading or unloading the vehicle; supervising or assisting in the loading or unloading of the vehicle; and repairing, obtaining assistance, or remaining in attendance upon a disabled vehicle. (49 CFR 382.107)

Designated Employer Representative

The Superintendent or designee shall identify a designated employer representative who is authorized to take immediate action to remove drivers from safety-sensitive functions and to make required decisions in the testing and evaluation processes. The designated employer representative shall also be responsible for receiving test results and other communications. The name and telephone number of the designated employer representative shall be provided to the testing contractor to contact about any problems or issues that may arise during the testing process. (49 CFR 40.35, 40.215)

Pre-employment Testing

When hiring a new driver, the Superintendent or designee shall, with the driver's written consent, conduct a pre-employment query using the Commercial Driver's License Drug and Alcohol Clearinghouse to obtain information about whether the driver has committed a violation of federal drug or alcohol regulations. (49 CFR 382.701)

The Superintendent or designee shall also, with the driver's consent, request the driver's past drug and alcohol testing record, as specified in 49 CFR 40.25 and 382.413, from any employer who has employed the driver at any time during the previous three years. To the extent practicable, the Superintendent or designee shall obtain and review such information before the driver first performs safety-sensitive functions. In addition, the Superintendent or designee shall ask the driver if there was a positive test, or a refusal to test, on any pre-employment drug or alcohol test that was administered during the past two years in the course of applying for another safety-sensitive transportation position that was not obtained. (49 CFR 40.25, 382.413)

The driver shall not be permitted to perform safety-sensitive functions if the driver refuses to provide consent to obtain the information from previous employers or from the Clearinghouse; the information from previous employers is not received within 30 days of the date on which the driver first performed safety-sensitive functions for the district; or the driver, the Clearinghouse, or a previous employer reports a violation of a drug or alcohol regulation without subsequent completion of the return-to-duty process. (49 CFR 40.25, 382.413, 382.701, 382.703)

A driver whom the district intends to hire or use shall undergo testing for drugs and receive a verified negative test result prior to the first time the driver performs safety-sensitive functions for the district. This testing requirement may be waived if all of the following conditions exist: (49 CFR 382.301)

1. The driver has participated in a qualified drug testing program within the previous 30 days.

2. While participating in the program, the driver either was tested within the past six months from the date of application or participated in a random drug testing program for the previous 12 months from the date of application.

3. No prior employer of the driver of whom the district has knowledge has records of the driver's violation of

federal drug testing regulations within the previous six months.

The Superintendent or designee shall contact the testing program(s) in which the driver has participated and obtain information about the program and the driver's participation as specified in 49 CFR 382.301.

In addition, the Superintendent or designee shall require the driver to undergo pre-employment alcohol testing in accordance with the procedures in 49 CFR 40.1-40.605 and to receive a test result indicating an alcohol concentration of less than 0.04. (49 CFR 382.301)

Post-Accident Testing

As soon as practicable following an accident involving a school bus or student activity bus, the Superintendent or designee shall ensure that the driver involved is tested for alcohol and/or drugs under either of the following conditions: (49 CFR 382.303)

1. The accident involved loss of human life.

2. The driver receives a citation for a moving traffic violation within eight hours of the accident and the accident involved bodily injury to a person who required immediate medical treatment away from the scene of the accident and/or disabling damage to one or more vehicles requiring towing.

The Superintendent or designee shall attempt to administer a required alcohol test up to eight hours following the accident and/or a drug test up to 32 hours following the accident. The results of an alcohol or drug test conducted by federal, state, or local officials having independent authority for the test shall be considered to meet this requirement. If the alcohol test is not administered within two hours following the accident, or the test for drugs is not administered within 32 hours following the accident, the Superintendent or designee shall make a record stating the reasons the test was not promptly administered. (49 CFR 382.303)

No driver required to take a post-accident alcohol test pursuant to 49 CFR 382.303 shall use alcohol for eight hours following the accident or until the driver undergoes a post-accident alcohol test, whichever occurs first. (49 CFR 382.209)

Random Testing

The Superintendent or designee shall ensure that random, unannounced drug and alcohol tests of bus drivers are conducted on testing dates reasonably spread throughout the year.

Such tests shall be unannounced and conducted during, immediately before, or immediately after the performance of safety-sensitive functions. (49 CFR 382.305)

The Superintendent or designee shall ensure that the percentage of district drivers randomly tested for drugs and alcohol meets or exceeds the minimum annual percentage rates specified in 49 CFR 382.305 or subsequently published in the Federal Register.

Each driver selected for random testing shall have an equal chance of being tested each time selections are made. (49 CFR 382.305)

Each driver who is selected for testing shall proceed to the test site immediately or, if performing a safety-sensitive function other than driving a bus, then as soon as possible after ceasing that function. (49 CFR 382.305)

Reasonable Suspicion Testing

A driver shall be required to submit to a drug or alcohol test whenever the Superintendent or designee has reasonable suspicion that the driver has violated the prohibitions against the use of drugs or alcohol. Such reasonable suspicion shall be based on specific, contemporaneous, articulable observations, conducted during, immediately before, or immediately after the performance of safety-sensitive functions, concerning the driver's appearance, behavior, speech, and/or body odors. Reasonable suspicion of drug use may also include indications of the chronic and withdrawal effects of drugs. (49 CFR 382.307)

The person who makes the required observations for reasonable suspicion testing for drugs or alcohol shall be trained in accordance with 49 CFR 382.603. The person who makes the determination that reasonable suspicion

exists to conduct an alcohol test shall not be the same person who conducts the alcohol test. (49 CFR 382.307)

Within 24 hours of the observed behavior or before the results of the drug or alcohol test are released, whichever is earlier, a written record of the observations leading to a reasonable suspicion test shall be made and signed by the person who made the observations. (49 CFR 382.307)

An alcohol test required as a result of reasonable suspicion shall be administered within eight hours following the determination of reasonable suspicion. If the test is not administered within two hours, the Superintendent or designee shall prepare and maintain on file a record stating the reasons the test was not promptly administered. (49 CFR 382.307)

In the absence of a reasonable suspicion alcohol test, the district shall take no action against a driver based solely on the driver's behavior and appearance, except that the driver shall not be allowed to report for or remain on safety-sensitive functions until an alcohol test is administered and the results show a concentration less than 0.02 or 24 hours have elapsed following the determination of reasonable suspicion. (49 CFR 382.307)

Return-to-Duty Testing

The Superintendent or designee may permit a driver who has violated federal drug or alcohol regulations to return to safety-sensitive functions after the driver has successfully complied with the education and treatment services prescribed by a substance abuse professional and has taken a return-to-duty drug or alcohol test. The driver shall not resume performance of safety-sensitive functions unless the drug test shows a negative result and/or the alcohol test shows a concentration of less than 0.02. (49 CFR 40.305, 382.309)

Follow-Up Testing

Upon receiving a written follow-up testing plan from a substance abuse professional, the Superintendent or designee shall determine the actual dates for follow-up testing consistent with those recommendations and shall ensure that such tests are unannounced and follow no discernable pattern as to their timing. No additional tests beyond those included in the plan shall be imposed by the district. (49 CFR 40.307-40.309, 382.111)

Mandatory Reporting and Annual Queries to the Drug and Alcohol Clearinghouse

The Superintendent or designee shall report to the Clearinghouse any violation of federal drug and alcohol regulations, any refusal to test, and other required information by the close of the third business day following the date on which the information was obtained. (49 CFR 382.705)

The Superintendent or designee shall conduct a query using the Clearinghouse at least once a year for all drivers to determine whether information exists in the Clearinghouse about the drivers. (49 CFR 382.701)

In lieu of a full query, the Superintendent or designee may obtain the individual driver's consent to conduct a limited query that is effective for more than one year and informs the district about whether there is information about the driver in the Clearinghouse without releasing that information to the district. If the limited query shows that information exists in the Clearinghouse about the individual driver, the Superintendent or designee shall conduct a full query within 24 hours of conducting the limited query. If a full query is not conducted within 24 hours, the driver may not perform any safety-sensitive function until the results from a full query confirm that the driver may perform such functions. (49 CFR 382.701)

A driver may not perform any safety-sensitive function if the results of a Clearinghouse query demonstrate that the driver has committed a violation of federal drug or alcohol regulations. (49 CFR 382.701)

Notifications

The Superintendent or designee shall provide each driver with materials explaining the federal regulations and the district's policy and procedure related to drug and alcohol testing and shall notify representatives of employee organizations of the availability of this information. This information shall include a detailed discussion of at least the following: (49 CFR 382.113, 382.303, 382.601)

1. The identity of the person designated by the district to answer driver questions about the materials

2. The categories of drivers who are subject to drug and alcohol testing

3. Sufficient information about the safety-sensitive functions performed by those drivers to make clear what period of the workday the driver is required to be in compliance

4. Specific information concerning prohibited driver conduct

5. The circumstances under which a driver will be tested for drugs and/or alcohol, including post-accident testing

6. The procedures that will be used to test for the presence of drugs and alcohol, protect the driver and the integrity of the testing processes, safeguard the validity of the test results, and ensure that those results are attributed to the correct driver

7. The requirement that a driver submit to drug and alcohol tests

8. An explanation of what constitutes a refusal to submit to a drug or alcohol test and the attendant consequences

9. The consequences for drivers found to have violated the prohibitions against drug or alcohol use, including the circumstances under which drivers will be removed immediately from safety-sensitive functions and the requirements for education, treatment, and return-to-duty testing

10. The consequences for drivers found to have a blood alcohol concentration between 0.02 and 0.04

11. Information concerning the effects of drug and alcohol use on an individual's health, work, and personal life; signs and symptoms of a drug or alcohol problem (the driver's or a co-worker's); and available methods of intervening when a drug or alcohol problem is suspected, including confrontation, referral to any employee assistance program, and/or referral to management

12. The requirement that personal information collected and maintained pursuant to 49 CFR 382 shall be reported to the Clearinghouse

Each driver shall sign a statement certifying receipt of a copy of the above materials. The Superintendent or designee shall maintain the original of the signed certificate and may provide a copy of the certificate to the driver. (49 CFR 382.601)

In addition, prior to administering each alcohol or drug test, the driver shall be notified that the test is required pursuant to Title 49, Part 382, of the Code of Federal Regulations. (49 CFR 382.113)

The driver shall be notified of the results of drug and alcohol tests in accordance with 49 CFR 382.411.

Records

The Superintendent or designee shall maintain records of the district's drug and alcohol testing program in accordance with 49 CFR 40.333 and 382.401. Such records shall be maintained in a secure location with controlled access and shall be disclosed only in accordance with 49 CFR 382.405.

Status: DRAFT

Original Adopted Date: 02/01/1986 **| Last Revised Date:** 03/01/2008

The Board of Trustees desires to maximize staff and community confidence in district hiring, promotion, and other employment decisions by promoting practices that are free of conflicts of interest or the appearance of impropriety.

Policy 4113.4: Temporary Modified/Light-Duty Assignment

Status: DRAFT

Original Adopted Date: 10/01/1995 **| Last Revised Date:** 07/01/2007

The Board of Trustees recognizes that, when employees have temporarily disabling medical conditions, temporary modified or light-duty assignments can allow the district to continue to use their valuable knowledge, skills, and abilities while minimizing time away from work. Temporary modified/light-duty assignments may also serve to facilitate the employee's transition back to his/her regular duties or full-time work.

Any employee may request a modified or light-duty assignment when he/she has a temporary medical condition which prevents the performance of the essential functions of his/her current assignment or position. The Superintendent or designee shall determine, on a case-by-case basis, whether a suitable temporary position currently exists to accommodate the physical restrictions specified by the employee's medical provider.

An employee's initial assignment to a temporary modified or light-duty position shall be for a limited duration, not to exceed 30 days. At the end of the initial assignment, the employee may request that the Superintendent or designee extend the assignment. When requesting any such extension, the employee shall submit documentation from his/her medical provider verifying that the employee is still temporarily disabled and is not medically able to return to his/her regular assignment. Temporary assignments generally shall not exceed 90 days, but may be extended at the discretion of the Superintendent or designee for an additional 90 days upon verification by the employee's medical provider that such an extension will allow the employee to return to unrestricted regular duties.

An employee who rejects a temporary modified/light-duty assignment may be subject to a loss of workers' compensation benefits in accordance with district's insurance policy.

Policy 4113.5: Working Remotely

Status: DRAFT

Original Adopted Date: 04/01/2020

The Board of Trustees recognizes that working remotely at home or at another alternative location may be necessary at times when widespread illness, natural disaster, or other emergency condition makes the school or worksite unsafe or otherwise interrupts the district's ability to effectively conduct operations at the school or worksite. A full-time, part-time, or short-term remote work arrangement may also be granted by the Superintendent or designee to an individual employee, upon request, provided that the position is suitable for remote work, the employee has consistently demonstrated the ability to work independently and meet performance expectations, and the work arrangement does not hinder district operations.

The opportunity to work remotely shall be entirely at the district's discretion, and no grievance or appeal right may arise from district denial of any employee request for remote work.

Employees approved for remote work shall comply with all district policies, administrative regulations, work schedules, and job assignments. Except when specifically agreed, approval of remote work shall not change the compensation, benefits, or other terms and conditions of employment of an employee.

Unless otherwise approved in advance by the Superintendent or designee, employees working remotely shall do so within regular work hours established for the position. Employees are entitled and expected to take appropriate, uninterrupted meal and rest breaks, and shall keep accurate records of the hours they work. Employees shall notify their supervisor when unable to perform work assignments due to illness, equipment failure, or other unforeseen circumstances.

Employees working remotely are expected to conduct their work in a location that is safe and free of obstructions, hazards, and distractions. Such employees shall report to their supervisor any serious injury or illness occurring in the home workspace or in connection with their employment as soon as practically possible in accordance with Board policy.

Work done at a remote work location is considered official public business. District records and communications shall be retained and safeguarded against damage or loss, and shall be kept confidential or made accessible to the public in accordance with law.

Any employee working remotely shall be available during work hours to the employee's supervisor and other staff, students, parents/guardians, and members of the public, as appropriate, via email, phone, or other means. Lack of responsiveness on the part of the employee may result in discipline and/or termination of remote work responsibilities. Employees shall be required to attend virtual or in-person meetings when directed by their supervisor.

Employee productivity shall be evaluated on the basis of time spent on tasks and projects, task completion, and quality of job performance in the same manner as all employees in the same position at the assigned school or office.

Remote work arrangements may be discontinued at any time at the discretion of the Superintendent or designee.

Policy 4115: Evaluation/Supervision

Status: DRAFT

Original Adopted Date: 07/01/2000 **| Last Revised Date:** 08/01/2014

The Board of Trustees believes that regular, comprehensive evaluations designed to hold instructional staff accountable for their performance are key to improving their teaching skills and raising students' levels of achievement.

Evaluations shall be used to recognize the exemplary skills and accomplishments of staff and to identify areas needing improvement. When areas needing improvement are identified, the Board expects employees to accept responsibility for improving their performance and encourages them to take initiative to request assistance as necessary, including participation in appropriate staff development and/or individualized teacher support and guidance programs.

The Superintendent or designee shall assess the performance of certificated instructional staff as it reasonably relates to the following criteria: (Education Code 44662)

2. The instructional techniques and strategies used by the employee

3. The employee's adherence to curricular objectives

4. The establishment and maintenance of a suitable learning environment within the scope of the employee's responsibilities

With the agreement of the exclusive representative of the certificated staff when applicable, the Superintendent or designee may incorporate objective standards from the National Board for Professional Teaching Standards and/or the California Standards for the Teaching Profession into district evaluation standards.

The evaluation of certificated employee performance shall not include the use of publishers' norms established by standardized tests. (Education Code 44662)

Noninstructional certificated employees shall be evaluated on their performance in fulfilling their defined job responsibilities. (Education Code 44662)

The Superintendent or designee shall ensure that evaluation ratings have uniform meaning and are uniformly applied throughout the district.

Status: DRAFT

Original Adopted Date: 11/01/2007 **| Last Revised Date:** 07/01/2016

Certificated instructional employees shall receive a written copy of their evaluation no later than 30 days before the last scheduled school day of the school year in which the evaluation takes place. Before the last scheduled school day of the school year, the employee and the evaluator shall meet to discuss the evaluation. (Education Code 44663)

Noninstructional certificated staff members employed on a 12-month basis shall receive a copy of their evaluation no later than June 30 of the year in which the evaluation takes place. Before July 30, the employee and the evaluator shall meet to discuss the evaluation. (Education Code 44663)

Instructional and noninstructional certificated employees shall have the right to respond in writing to their evaluation. This response shall become a permanent attachment to the employee's personnel file. (Education Code 44663)

Evaluations shall include recommendations, if necessary, as to areas in need of improvement in the employee's performance. If an employee is not performing satisfactorily according to teaching standards approved by the Board of Trustees pursuant to Education Code 44662, the Superintendent or designee shall so notify the employee in writing and shall describe the unsatisfactory performance. The Superintendent or designee shall confer with the employee, make specific recommendations as to areas needing improvement, and endeavor to provide assistance to the employee in his/her performance. (Education Code 44664)

The Superintendent or designee may require any certificated employee who receives an unsatisfactory rating in the area of teaching methods or instruction to participate in a program designed to improve appropriate areas of performance and to further student achievement and the district's instructional objectives. (Education Code 44664)

Qualifications of Evaluators

The Superintendent or designee shall assign the principal or other appropriate supervisory personnel to evaluate certificated staff. He/she shall ensure that the evaluator:

2. Is competent in the instructional methodologies used by the teachers being evaluated

3. Is skilled in the supervision of instruction and in techniques and procedures related to the evaluation of instruction

4. Is familiar with district curriculum priorities and practices, district standards for student progress, and district policies and procedures related to personnel supervision, performance evaluation, and staff development

Certificated employees who satisfactorily complete the probationary period shall be granted permanent status.

Inservice training may be provided during school hours as part of a comprehensive staff development program.

The performance of each probationary employee shall be evaluated and assessed at least once every school year.

Dismissal/Nonreelection of Probationary Employees

During the school year, a probationary employee may be suspended or dismissed only for cause and in accordance with district procedures. (Education Code 44948.3)

With proper notice, the Board may, without cause, elect not to reemploy a probationary employee for the subsequent year. (Education Code 44929.21, 44929.23)

The Superintendent or designee shall annually provide the Board with recommendations regarding the reelection or nonreelection of probationary certificated personnel for the ensuing school year.

At any time during a probationary employee's first year of employment in the district, the Board may give written notice to the employee of the Board's decision not to reelect the employee for a second school year. If the Board does not give written notice, the employee shall be deemed reelected for the next succeeding school year.

During the final year of the probationary period, the Board may decide not to reelect the employee for the following year, and shall so notify the employee in writing on or before March 15. If the Board does not give written notice on or before March 15, the employee shall be deemed reelected for the next succeeding school year. (Education Code 44929.21, 44948.5)

Policy 4117.13: Early Retirement Option

Status: DRAFT

Original Adopted Date: 03/01/2004 **| Last Revised Date:** 05/01/2016

When it is beneficial to the district, the Board of Trustees may offer certificated employees the option to retire early in accordance with law.

Two Years of Service Credit Retirement Incentive

As an incentive to early retirement for certificated employees participating in the State Teachers' Retirement System (STRS), the Board may offer such employees an additional two years of service credit. (Education Code 22714, 44929)

Before taking formal action to approve this service incentive, the Board shall determine that encouraging early retirement would be in the best interest of the district due to the curtailment of services or changes in the manner in which services are performed and that the retirement will result in a net savings to the district. The Board shall demonstrate and certify to the County Superintendent of Schools that the formal action taken would result in a net savings to the district. (Education Code 22714, 44929)

The Board may also consider the impact of the early retirement option on the staffing needs of district schools.

To be eligible for the two years of service credit option, the employee must have five or more years of service credit and must retire during a period of 60 to 120 days after the Board takes formal action to implement the option. (Education Code 22714)

In providing the early retirement option, the district shall meet all conditions as specified in Education Code 22714 and 44929.

Two + Two Retirement Incentive: 2 Years of Service Credit + 2 Years of Age Credit

As an incentive to early retirement for certificated employees participating in the State Teachers' Retirement System, the Board may offer an additional two years of service credit and two years of age credit to employees who retire within the "window period" established by the Board in a Memorandum of Understanding or by Board action prior to January 1, 2005 pursuant to repealed Education Code 22714.5.

Regulation 4117.14: Postretirement Employment

Status: DRAFT

Original Adopted Date: 11/01/2010 **| Last Revised Date:** 04/01/2014

When necessary, the Board of Trustees may hire a qualified retired certificated individual who possesses the knowledge and experience needed to perform creditable service for the district as an employee, the employee of a third party, or an independent contractor/consultant, provided that all applicable restrictions specified by the California State Teachers' Retirement System (CalSTRS) are met. Applicable CalSTRS restrictions include, but are not limited to, a requirement that a retired member be paid compensation comparable to that for active employees for comparable duties and prohibitions against the hiring of a retired member within 180 days of his/her retirement and for the classified service, except as an aide pursuant to Education Code 45134. Additional restrictions and rules may apply to other employment situations, such as when CalSTRS retired members are employed as employees of third parties, independent contractors, or consultants. The Superintendent or designee should consult legal counsel when dealing with such employment situations. (Education Code 22119.5, 22164.5, 24214, 24214.5)

Any retired member of the defined benefit program of CalSTRS who is hired by the district to perform retired member activities as defined pursuant to Education Code 22164.5 shall be paid at an annualized rate of pay that shall not be below the minimum or exceed the maximum paid to other district employees performing comparable duties. However, such a retired individual shall not make contributions to the CalSTRS retirement fund or accrue service credit based on compensation earned from the retired member activity. (Education Code 24214)

No retired member of the CalSTRS defined benefit program shall be hired by the district for at least 180 calendar days after his/her retirement from service, unless he/she has attained the normal retirement age and qualifies for an exemption to the 180-day waiting period. To seek this exemption, the Board shall, during the open session of a Board meeting, adopt a resolution which shall include the following information and findings: (Education Code 24214.5)

1. A statement expressing the Board's intent to seek an exemption to the 180-day waiting period
2. A description of the nature of the employment of the retiree
3. A finding that the retiree has reached the normal retirement age
4. A finding that the appointment of the retiree is necessary to fill a critically needed position before the 180-day waiting period has passed
5. A finding that the retired individual did not receive additional service credit pursuant to Education Code 22714 or 22715 or any financial inducement to retire. Financial inducement to retire shall include, but is not limited to, cash or any form of compensation or other payment directly or indirectly paid by any public employer to the retired individual before or after his/her retirement, if the individual retires for service on or before a specific date or range of dates established by the public employer on or before the date the inducement is offered
6. A finding that the retired individual's termination of employment with the district is not the basis for the need to acquire the services of the retired individual

The resolution shall not be adopted through the Board's consent agenda. (Education Code 24214.5)

When employing a retired individual who is eligible for exemption from the 180-day waiting period, the Superintendent or designee shall submit all required documentation to substantiate eligibility for the exemption to CalSTRS before the retired member begins performing any retired member activities. The Superintendent or designee may contact

CalSTRS to request information as to whether the retired member qualifies for the exemption after 30 days of submitting the required documentation to CalSTRS. (Education Code 24214.5)

Postretirement Compensation Limitation, Notice, and Report

All CalSTRS retirees performing creditable service for the district shall be subject to the applicable CalSTRS earnings limit. Monies earned in excess of the limit may subject the CalSTRS retiree to a reduction in his/her retirement allowance. Compensation subject to the earnings limitation includes, but is not limited to, salary or wages, deferred

compensation plans, purchase of an annuity contract, tax-deferred retirement plan or insurance program, and other plans or contributions when the cost is covered by a district. (Education Code 22119.5, 22164.5, 24214)

Whenever the district retains the services of a CalSTRS retiree as a district employee, employee of a third party, or an independent contractor, the Superintendent or designee shall: (Education Code 22461, 24214)

1. Advise the retired individual of the postretirement earnings limitation or employment restriction set forth in Education Code 22714, 24214, or 24214.5 or any other applicable law

2. Maintain accurate records of the retired individual's compensation and report it monthly to CalSTRS and the individual, regardless of the method of payment or the fund from which the payments are made

The Board of Trustees encourages employees to provide advance notice that is appropriate for the position they hold.

The Board authorizes the Superintendent or designee to accept an employee's written resignation and to set its effective date. Once the Superintendent or designee has accepted and set an effective date for this resignation, the resignation may not thereafter be withdrawn by the employee.

The effective date of the resignation shall be a date not later than the close of the school year during which the resignation is received. However, an employee and the Board may agree that a resignation will be accepted at a mutually agreed upon date not later than two years beyond the close of the school year during which the resignation is received by the Board. (Education Code 44930, 45201)

The Board of Trustees may reduce the number of probationary and permanent certificated employees when, in its opinion, any of the following conditions makes such reduction necessary:

1. Average daily attendance (ADA) in all of the schools in the district during the first six months of the school year has declined below the level for the same period in either of the previous two school years. (Education Code 44955)

2. A particular kind of service is to be reduced or discontinued not later than the beginning of the following school year. (Education Code 44955)

3. Attendance in the district will decline in the following year as a result of the termination of an interdistrict tuition agreement. (Education Code 44955)

4. An amendment of state law requires modification of the curriculum. (Education Code 44955)

5. During the time period between five days after the enactment of the Budget Act and August 15 of that fiscal year, the Board determines that the district's total revenue limit per ADA for the fiscal year of that Budget Act has not increased by at least two percent. (Education Code 44955.5)

Determination of the Order of Layoffs

When it is necessary to reduce the number of certificated employees for any of the reasons listed above, the services of employees shall be terminated in the inverse of the order in which they were employed by the district in probationary status, except as otherwise authorized by law. (Education Code 44844, 44955)

The Superintendent or designee shall maintain the seniority list for this purpose and shall make it available upon request.

Unless otherwise provided by law, a permanent employee shall have the right to be retained over a probationary employee or any employee with less seniority if the position is one for which he/she is certificated and competent to render service. (Education Code 44955)

To determine the order of termination between employees who first rendered paid service on the same date, the Board shall rank order those employees solely on the basis of the needs of the district and students. Upon the request of an employee whose order of termination is to be determined based on such ranking, the Board shall furnish the employee, no later than five days prior to the commencement of the administrative hearing on the layoff, a written statement of the specific criteria used in determining the order of termination and the application of the criteria in ranking the employee relative to the other employees in the group. (Education Code 44955)

The district may deviate from terminating certificated employees in order of seniority for either of the following reasons: (Education Code 44955, 44956)

1. To fill a demonstrated specific need for personnel to teach a specific course or courses of study, or to provide services authorized by a services credential with a specialization in either student personnel services or health for a school nurse, when the certificated employee has the necessary special training and experience which others with more seniority do not possess

2. To maintain or achieve compliance with constitutional requirements related to equal protection of the law

Notice and Hearing Rights

When it becomes necessary to reduce the number of permanent and/or probationary employees pursuant to Education Code 44955 as specified in items #1-4 above, the district shall give notice to the affected employees, no later than March 15, stating the reasons for the action and the employees' right to a hearing. The district shall adhere to the notice, hearing, and layoff procedures in Education Code 44949, 44955, and other applicable provisions of law.

When an employee has requested a hearing before an administrative law judge regarding the reduction or discontinuation of services, the Board shall make a final decision regarding the sufficiency of the cause and disposition of the layoff upon receipt of the administrative law judge's proposed decision. None of the findings, recommendations, or determinations of the administrative law judge shall be binding on the Board. (Education Code 44949)

The Board may conduct its own hearing, adopt the administrative law judge's proposed decision, refer the case back to the administrative law judge for additional evidence, or reject or modify the proposed decision and make its own determination based upon its review of the record.

Following the Board's decision, the Superintendent or designee shall give final notice, in the manner specified, to the affected employees before May 15 unless the parties agree otherwise in accordance with procedures required by law. (Education Code 44955)

When layoffs become necessary pursuant to Education Code 44955.5 as specified in item #5 above, layoff proceedings shall be carried out as required by law but in accordance with a schedule of notice and hearing adopted by the Board. (Education Code 44955.5)

Reappointment

If the number of employees is increased or the discontinued service reestablished, permanent certificated employees shall have the right to reappointment, in order of seniority, for 39 months from the date of termination. Probationary certificated employees shall have the same right for 24 months after being terminated, subject to the prior reappointment rights of permanent employees. (Education Code 44846, 44956, 44957)

During the period of the preferred right to reappointment, permanent certificated employees shall, in the order of original employment, be offered first opportunity for substitute service during the absence of any employee who has been granted a leave of absence or who is temporarily absent from duty. Such substitute service may be terminated upon the return to duty of the other employee. Such substitute service shall not affect the retention of the employees' previous classification and rights. Probationary certificated employees shall have the same right to substitute service during the period of preferred right to reappointment to the extent required by law, subject to the rights of permanent certificated employees. (Education Code 44918, 44956, 44957)

Before reappointing any certificated employee to teach a subject which he/she has not previously taught and for which he/she does not have a teaching credential or which is not within the employee's major area of postsecondary study, the Board shall require the employee to pass a subject matter competency test in the appropriate subject. (Education Code 44956)

Reappointed certificated employees shall not be subject to any requirements that were not imposed on employees who continued in service. Their period of absence shall be treated as a leave of absence and not considered a break in the continuity of their service. (Education Code 44956, 44957)

The district does not discriminate on the basis of sex in any of its programs or activities and complies with Title IX of the Education Amendments of 1972 and its implementing regulations. Sex discrimination, including sex-based harassment, is prohibited in district education programs and activities.

The following administrative regulation shall apply to all allegations of sex discrimination and sex-based harassment by and against district employees, interns, volunteers, and job applicants, but shall not be used to resolve any complaint by a student.

Definitions

Sex discrimination includes treating an employee differently based on the employee's sex, which includes differential treatment based on sex stereotypes; sex characteristics; sexual orientation; gender; gender identity; gender expression; pregnancy, childbirth, termination of pregnancy, or lactation, including related medical conditions and recovery; parental, family, or marital status; or association with a person or group with one or more of these actual or perceived characteristics.

Sex discrimination, including sex-based harassment, intimidation, or bullying, may result from physical, verbal, nonverbal, or written conduct and occurs when prohibited conduct is so severe, persistent, or pervasive that it creates an intimidating, threatening, hostile, or offensive work environment; has the effect of substantially or unreasonably interfering with an employee's term or condition of employment; or otherwise adversely affects an employee's employment opportunities.

Sex-based harassment is a form of sex discrimination and means sexual harassment and other harassment on the basis of sex, sex stereotypes, sex characteristics, or other bases specified above. Conduct will constitute sex-based harassment when it takes the form of: (34 CFR 106.2, 106.11)

1. Quid pro quo harassment: A district employee, agent, or other individual authorized by the district to provide an aid, benefit, or service in the district's education program or activity conditioning the provision of district aid, benefit, or service on a student's participation in unwelcome sexual conduct

2. Hostile environment harassment: Unwelcome sex-based conduct that, based on the totality of the circumstances, is subjectively and objectively offensive and is so severe or pervasive that it limits or denies a person's ability to participate in or benefit from the district's education program or activity

   Any prohibited conduct that occurs off campus or outside of school-related or school-sponsored programs or activities will be regarded as sex-based harassment in violation of district policy if it has a continuing effect on a student's ability to participate in or benefit from district educational programs or activities.

3. Sexual assault, dating violence, domestic violence, or stalking, as defined in 34 CFR 106.2

Sexual harassment includes, but is not limited to, unwelcome sexual advances, unwanted requests for sexual favors, or other unwanted verbal, visual, or physical conduct of a sexual nature, regardless of whether the conduct is motivated by sexual desire. Conduct is considered to be sexual harassment when made against another person of the same or opposite sex in the work or educational setting under any of the following conditions: (Education Code 212.5; Government Code 12940; 2 CCR 11034)

1. Submission to the conduct is made explicitly or implicitly a term or condition of the individual's employment

2. Submission to or rejection of the conduct is used as the basis for an employment decision affecting the individual

3. The conduct has the purpose or effect of having a negative impact upon the individual's work performance or of creating an intimidating, hostile, or offensive work environment

4. Submission to or rejection of the conduct is used as the basis for any decision affecting the individual regarding benefits, services, honors, programs, or activities available at or through the district

Examples of Sex Discrimination and Sex-Based Harassment

Examples of actions that might constitute sex-based harassment under state and/or federal law in accordance with the definitions above, in the work or educational setting, whether committed by a supervisor, a co-worker, or a non-employee, include, but are not limited to:

1. Unwelcome verbal conduct such as sex-based flirtations or propositions; graphic comments about an individual's body; overly personal conversations or pressure for sex-based activity; sex-based jokes or stories; unwelcome sex-based slurs, epithets, threats, innuendoes; derogatory comments; sex-based degrading descriptions; or the spreading of sex-based rumors

2. Unwelcome visual conduct such as drawings, pictures, graffiti, or gestures; sexually explicit emails or messaging; or displaying sexually suggestive objects

3. Unwelcome physical conduct such as massaging, grabbing, fondling, stroking, or brushing the body; touching an individual's body or clothes in a sexual way; or cornering, blocking, leaning over, or impeding normal movements

Regulation 4119.12: Title IX Sexual Harassment Complaint Procedures

Status: DRAFT

Original Adopted Date: 07/01/2020 **| Last Revised Date:** 07/01/2024

The complaint procedures described in this administrative regulation shall be used to address any complaint governed by Title IX of the Education Amendments of 1972 alleging that a district employee, while in an education program or activity, was subjected to conduct on or after August 1, 2024, including, but not limited to, conduct that is under the authority of the district, that constitutes sex discrimination, including sex-based harassment. For conduct that occurred prior to this date, the district should utilize its policies in place at the time the alleged sex discrimination, including sex-based harassment, occurred, so long as they are in accordance with the applicable statutes and regulations.

Sex discrimination and sex-based harassment include, but are not limited to, sex-based conduct as specified in Administrative Regulation 4119.11/4219.11/4319.11 - Sex Discrimination and Sex-Based Harassment.

Basic Requirements

When implementing Title IX grievance procedures, the district shall: (34 CFR 106.45)

1. Treat complainants and respondents equitably

2. Ensure that the Title IX Coordinator or designee, investigator, or decisionmaker not have a conflict of interest or bias for or against complainants or respondents generally or an individual complainant or respondentf

   The investigator and the decisionmaker may be the same person as the Title IX Coordinator or designee.

3. Presume that the respondent is not responsible for the alleged sex discrimination, including sex-based harassment, until a determination is made at the conclusion of the grievance procedures

4. Establish reasonably prompt timeframes for the major stages of the grievance procedures, such as evaluation of whether to dismiss or investigate a complaint, investigation, decision, and appeals if any

5. Establish a process that allows for the reasonable extension of timeframes on a case-by-case basis for good cause with notice to the parties that includes the reason for the delay

Additionally, the district shall not disclose personally identifiable information obtained while implementing Title IX complaint procedures unless the district has obtained prior written consent from a person with the legal right to consent to the disclosure; the information is disclosed to a parent/guardian or other authorized legal representative with the legal right to receive disclosures on behalf of the person whose personally identifiable information is at issue; to take action to address conduct that reasonably may constitute sex discrimination under Title IX, including sex-based harassment, in the district's education program or activity; as required by federal law, regulations, or as a condition to a federal award; as required by state or local law; or to the extent such disclosures are not otherwise in conflict with Title IX. (34 CFR 106.44)

If the respondent is a student with a disability, the Title IX Coordinator or designee shall consult with one or more members, as appropriate, of the student's individualized education program or 504 team, to determine how to comply with the requirements of the Individuals with Disabilities Education Act or Section 504 of the Rehabilitation Act of 1973.

Filing a Complaint

Upon receiving information of an allegation of sex discrimination, including sex-based harassment, the Title IX Coordinator or designee shall notify the individual(s) specified in law of the Title IX grievance procedures, and of the informal resolution process, if available and appropriate.

A *complaint* is an oral or written request that can objectively be understood by the Title IX Coordinator or designee as a request for the district to investigate and make a determination about alleged sex discrimination, including sex-based harassment. (34 CFR 106.2)

Complaints of sex discrimination and sex-based harassment may only be brought by an employee, or former employee, who was participating or attempting to participate in the district's education program or activity at the

time of the alleged sex-based harassment, or the Title IX Coordinator or designee. (34 CFR 106.45)

If the alleged victim chooses not to bring a complaint, or withdraws any or all of the allegations in a complaint, and in the absence or termination of an informal resolution process, the Title IX Coordinator or designee shall consider whether to initiate a complaint. To do so, the Title IX Coordinator or designee shall first consider the following factors: (34 CFR 106.44)

1. The victim's request not to proceed with initiation of a complaint
2. The victim's reasonable safety concerns regarding initiation of a complaint
3. The risk that additional acts of sex discrimination, including sex-based harassment, would occur if a complaint is not initiated
4. The severity of the alleged sex discrimination or sex-based harassment, including whether the discrimination, if established, would require the removal of a respondent from campus or imposition of another disciplinary sanction to end the discrimination and prevent its recurrence
5. The age and relationship of the parties, including whether the respondent is an employee of the district
6. The scope of the alleged sex discrimination, including information suggesting a pattern; ongoing sex discrimination, including sex-based harassment; or sex discrimination, including sex-based harassment, alleged to have impacted multiple individuals
7. The availability of evidence to assist a decisionmaker in determining whether sex discrimination, including sex-based harassment, occurred
8. Whether the district could end the alleged sex discrimination, including sex-based harassment, and prevent its recurrence without initiating the Title IX grievance procedures

If, after considering these factors, the Title IX Coordinator determines that the alleged conduct presents an imminent and serious threat to the health and safety of the complainant or another person, or that the conduct as alleged prevents the district from ensuring equal access to a district program or activity on the basis of sex, the Title IX Coordinator may initiate a complaint.

If the Title IX Coordinator initiates a complaint, the Title IX Coordinator shall provide the alleged victim notice of the complaint as well as other notices as required by the Title IX regulations at specific points in the complaint process. The Title IX Coordinator shall also address reasonable concerns about the victim's safety or the safety of others, including providing supportive measures as described in "Supportive Measures" below, and taking other appropriate prompt and effective steps to ensure that sex discrimination, including sex-based harassment, does not continue or recur within the district. (34 CFR 106.44)

The Title IX Coordinator or designee, investigator, decisionmaker, other person who is responsible for implementing the district's grievance procedures or have the authority to modify or terminate supportive measures, or a facilitator of an informal resolution process shall not have a conflict of interest or bias for or against complainants or respondents generally or an individual complainant or respondent. Such persons shall receive training in accordance with 34 CFR 106.8. (34 CFR 106.44)

In order to ensure that employees are not barred from reporting information about conduct that reasonably may constitute sex discrimination under Title IX, including sex-based harassment, the Title IX Coordinator shall monitor the district for barriers to reporting and take steps reasonably calculated to address such barriers. (34 CFR 106.44, 106.45)

Supportive Measures

Upon receipt of a report of Title IX sex discrimination or sex-based harassment, the Title IX Coordinator or designee shall offer and coordinate supportive measures. Supportive measures may vary depending on what the district determines to be reasonably available and shall not unreasonably burden either the complainant or respondent. Supportive measures shall be provided without charging a fee to the complainant or respondent and be designed to protect the safety of the complainant, respondent, and the district's educational environment, and to provide support during any grievance procedures implemented as specified in 34 CFR 106.45 or informal resolution process as

specified in 34 CFR 106.44. The district shall not impose such measures for punitive or disciplinary reasons. Supportive measures may include, but are not limited to, counseling; extensions of deadlines and other course- or work-related adjustment; changes in class, work, housing, or extracurricular or any other activity regardless of whether there is a comparable alternative; campus escort services; modifications of class or work schedules; mutual restrictions on contact; changes in class or work locations; leaves of absence; increased security; monitoring of certain areas of the campus; and, training and education programs related to sex-based harassment. (34 CFR 106.2, 106.44)

Unless there is an allegation of sex-based harassment or retaliation, the district may provide supportive measures without altering the alleged discriminatory conduct. (34 CFR 106.44)

Upon the conclusion of any grievance procedures implemented as specified in 34 CFR 106.45 or informal resolution process as specified in 34 CFR 106.44, the district may continue with the supportive measures, or modify or terminate such measures, as appropriate. (34 CFR 106.44)

The district shall provide a complainant or respondent for whom supportive measures have been implemented with a timely opportunity to seek, from an impartial employee with authority to modify or reverse the supportive measures, modification or reversal of the district's decision to provide, deny, modify, or terminate such measures, and to seek additional modification or termination of the supportive measures if circumstances materially change. (34 CFR 106.44)

The district shall not disclose information about supportive measures to any person other than the person to whom they apply, including informing one party of supportive measures provided to another party, unless the disclosure is necessary to providing the supportive measures, or restoring or preserving a party's access to the district's education program or activity. (34 CFR 106.44)

Emergency Removal

If a district employee is the respondent, the employee may be placed on administrative leave during the pendency of the formal complaint process. (34 CFR 106.44)

If the respondent is a student, the district may, on an emergency basis, remove the student from the district's education program or activity, provided that the district conducts an individualized safety and risk analysis, determines that removal is justified due to an imminent and serious threat to the health or safety of a complainant or any student, employee, or other individual arising from the allegations, and provides the respondent with notice and an opportunity to challenge the decision immediately following the removal. This authority to remove a student does not modify a student's rights under the IDEA or Section 504 of the Rehabilitation Act of 1973. (34 CFR 106.44)

Dismissal of Complaint

The Title IX Coordinator or designee may dismiss a complaint if: (34 CFR 106.45)

1. The district is unable to identify the respondent after taking reasonable steps to do so

2. The respondent is not participating in the district's education program or activity and is not employed by the district

3. The district determines that the conduct alleged in the complaint, even if proven, would not constitute sex discrimination, including sex-based harassment, under Title IX

   Before dismissing the complaint, the Title IX Coordinator shall make reasonable efforts to clarify the allegations with the complainant.

4. The complainant voluntarily withdraws any or all of the allegations in the complaint, the Title IX Coordinator declines to initiate a complaint, and the Title IX Coordinator determines that, without the complainant's withdrawn allegations, the conduct that remains alleged in the complaint, if any, would not constitute sex discrimination, including sex-based harassment, under Title IX, even if proven

The Title IX Coordinator shall determine whether to dismiss or investigate any complaint of sex discrimination, including sex-based harassment, within 45 days, unless such timeline is extended in accordance with this administrative regulation.

Upon dismissal, the Title IX Coordinator shall promptly notify the complainant of the dismissal and the reasons for the dismissal. Additionally, if the dismissal occurs after the respondent has been notified of the allegations, the Title IX Coordinator shall provide such notification to the respondent, which shall occur simultaneously to both parties if the notification is in writing. The Title IX Coordinator shall also inform the complainant, and the respondent if the dismissal occurs after the respondent has been notified of the allegations, of their right to appeal. Dismissals may be appealed on the following bases: (34 CFR 106.45)

1. A procedural irregularity that would change the outcome

2. New evidence that would change the outcome and that was not reasonably available when the dismissal was made

3. The Title IX Coordinator, investigator, or decisionmaker had a conflict of interest or bias for or against complainants or respondents generally or the individual complainant or respondent that would change the outcome

If the dismissal is appealed, the district shall: (34 CFR 106.45)

1. Notify the parties of any appeal, including notice of the allegations, if notice was not previously provided to the respondent

2. Implement appeal procedures equally for the parties

3. Ensure that the decisionmaker for the appeal did not take part in an investigation of the allegations or dismissal of the complaint

4. Ensure that the decisionmaker for the appeal has been trained consistent with the Title IX regulations

5. Provide the parties a reasonable and equal opportunity to make a statement in support of, or challenging, the outcome

6. Notify the parties of the result of the appeal and the rationale for the result

If a complaint is dismissed, the Title IX Coordinator or designee shall offer supportive measures as described above in "Supportive Measures" to the complainant. Additionally, the respondent shall be offered supportive measures if the complaint was dismissed because the complainant voluntarily withdrew any or all of the allegations in the complaint and the district determined that without the withdrawn allegations the conduct, even if proven, would not constitute sex discrimination, including sex-based harassment, under Title IX, or if the complaint was dismissed because the district determined, after taking reasonable efforts to clarify the allegations of the complaint, that the alleged conduct would not constitute sex discrimination, including sex-based harassment, even if proven. The Title IX Coordinator shall also take other appropriate prompt and effective steps to ensure that sex discrimination, including sex-based harassment, does not continue or recur within the district's education program or activity. (34 CFR 106.45)

If a complaint is dismissed, the conduct may still be addressed pursuant to Administrative Regulation 4030 - Nondiscrimination in Employment as applicable.

Informal Resolution Process

At any time prior to determining whether sex discrimination, including sex-based harassment, occurred under the complaint procedures specified in 34 CFR 106.45, the district may offer, if it is determined to be appropriate upon receiving information about conduct that reasonably may constitute sex discrimination under Title IX or when a complaint of sex discrimination is made, an informal resolution process, such as mediation, to the complainant and respondent. However, the district shall not offer an informal resolution process if the complaint alleges that an employee engaged in sex-based harassment of an elementary or secondary school student or that such process would conflict with federal, state, or local law. (34 CFR 106.44)

The district shall not require or pressure a party to participate in the informal resolution process, or to waive the right to an investigation and determination of a complaint as a condition of employment or continuing employment, or exercise of any other right. The district may decline to offer an informal resolution process including, but not

limited to, when the district determines that the alleged conduct would present a future risk of harm to others. (34 CFR 106.44)

The district may facilitate an informal resolution process provided that the district, prior to initiating such process: (34 CFR 106.44)

1. Provides the parties with written notice disclosing the allegations; the requirements of the informal resolution process; the right to withdraw from the informal process and resume the formal complaint process; the inability to initiate or resume complaint procedures arising from the same allegations once the informal resolution process is concluded; the potential terms that may be requested or offered in an informal resolution agreement, including that the agreement would only be binding on the parties; and the information that the district will maintain and whether and how the district could disclose such information for use in Title IX grievance procedures if such procedures are initiated or resumed

2. Obtains the parties' voluntary consent to the informal resolution process

The Title IX Coordinator or designee shall ensure that the facilitator of the informal resolution process is not the same person as the investigator or decisionmaker of any ongoing or newly initiated complaint process specified in 34 CFR 106.45, does not have a conflict of interest or bias for or against complainants or respondents generally or an individual complainant or respondent, and receives training in accordance with 34 CFR 106.8. (34 CFR 106.44)

If the district facilitates an informal resolution process, the Title IX Coordinator shall, to the extent necessary, take other appropriate prompt and effective steps to ensure that sex discrimination, including sex-based harassment, does not continue or recur within the district' education program or activity. (34 CFR 106.45)

Notice of Allegations

If the district initiates a formal Title IX investigation, the Title IX Coordinator or designee shall provide the known parties with written notice of the following: (34 CFR 106.45)

1. The district's complaint process, including any informal resolution process

2. Sufficient information, available at the time, to allow the parties to respond to the allegations, including, to the extent available, the identity of parties involved in the incident(s), the conduct allegedly constituting sex discrimination, including sex-based harassment, and the date(s) and location(s) of the alleged incidentSuch notice shall be provided with sufficient time for the parties to prepare a response before any initial interview.

   If, during the course of the investigation, new Title IX allegations arise about the complainant or respondent that are not included in the initial notice, the Title IX Coordinator shall provide notice of the additional allegations to the parties.

3. A statement that retaliation is prohibited

4. A statement that the parties are entitled to an equal opportunity to access the relevant and not otherwise impermissible evidence or an accurate description of such evidence, as specified

The above notice may also include the name of the investigator, facilitator of an informal process, and decisionmaker and shall inform the parties that, if at any time a party has concerns regarding conflict of interest or bias regarding any of these persons, the party should immediately notify the Title IX Coordinator or designee.

Consolidation of Complaints

The district may consolidate complaints of sex discrimination, including sex-based harassment, against more than one respondent; by more than one complainant against one or more respondents; or by one party against another party, when the allegations of sex discrimination, including sex-based harassment, arise out of the same facts or circumstances. (34 CFR 106.45)

Investigation Procedures

The district shall provide for adequate, reliable, and impartial investigation of complaints. (34 CFR 106.45)

During the investigation process, the district's designated investigator shall: (34 CFR 106.45)

1. Provide an equal opportunity for the parties to present fact witnesses and other inculpatory and exculpatory evidence that is relevant and not otherwise impermissible

2. Review all evidence gathered through the investigation and determine which evidence is relevant and which evidence is impermissible regardless of relevance

3. Provide each party with an equal opportunity to access evidence that is relevant, and not otherwise impermissible, to the allegations of sex discrimination, including sex-based harassment, by:

    a. Providing an equal opportunity to access either the relevant and not otherwise impermissible evidence or an accurate description of such evidence

        If an accurate description is provided, the district shall, upon request of any party, provide the parties with an equal opportunity to access the relevant and permissible evidence.

    b. Providing a reasonable opportunity to respond to the evidence or to the accurate description of the evidence

    c. Taking reasonable steps to prevent and address the parties' unauthorized disclosure of information and evidence obtained solely through the grievance procedures

4. Take reasonable steps to protect the privacy of parties and witnesses which do not restrict the ability of the parties to obtain and present evidence, including, by speaking to witnesses; consulting with family members, confidential resources, or advisors; or otherwise preparing for or participating in the grievance procedures

5. Objectively evaluate all evidence that is relevant and not otherwise impermissible, including both inculpatory and exculpatory evidence, including that credibility determinations will not be based on a person's status as complainant, respondent, or witness

6. Exclude as impermissible the following types of evidence, and questions seeking that evidence:

    a. Evidence that is protected under a privilege recognized by state or federal law or evidence that is provided to a confidential employee, unless the person to whom the privilege or confidentiality is owed has voluntarily waived the privilege

    b. A party's or witness's records that are made or maintained by a physician, psychologist, or other recognized professional or paraprofessional in connection with the provision of treatment to the party or witness, unless the district obtains that party's or witness's voluntary, written consent for use in its grievance procedures

        Evidence that relates to the complainant's sexual interests or prior sexual conduct, unless evidence about the complainant's prior sexual conduct is offered to prove that someone other than the respondent committed the alleged conduct or is evidence about specific incidents of the complainant's prior sexual conduct with the respondent that is offered to prove consent to the alleged sex-based harassment.

        The fact of prior consensual sexual conduct between the complainant and respondent does not by itself demonstrate or imply the complainant's consent to the alleged sex-based harassment or preclude determination that sex-based harassment occurred.

The district shall ensure that the decisionmaker is able to question parties and witnesses adequately to assess a party's or witness's credibility to the extent credibility is both in dispute and relevant to evaluating one or more allegations of sex-based harassment. (34 CFR 106.45)

If the complaint is against an employee, rights conferred under an applicable collective bargaining agreement shall be applied to the extent they do not conflict with the Title IX requirements.

The investigator shall complete the investigation within 60-90 days after the Title IX Coordinator determines to proceed with an investigation, unless such timeline is extended in accordance with this administrative regulation.

Written Decision

The Superintendent shall designate an employee as the decisionmaker to determine responsibility for the alleged conduct, who may be the Title IX Coordinator or designee or the investigator so long as there is no conflict of interest or bias. (34 CFR 106.45)

Following an investigation and evaluation of all relevant and not otherwise impermissible evidence, the district shall: (34 CFR 106.45)

1. Use the preponderance of the evidence standard of proof to determine whether sex discrimination, including sex-based harassment, has occurred

2. Notify the parties in writing of the determination of whether sex discrimination, including sex-based harassment, occurred

   The notification shall include the rationale for such determination and the procedures and permissible bases for the complainant and respondent to appeal, if applicable.

HEPATITIS B VACCINE DECLINATION

In accordance with 8 CCR 5193 and 29 CFR 1910.1030, the district makes the hepatitis B vaccine available to employees who may reasonably be expected to have contact with blood or other potentially infectious materials in the performance of their duties. Any employee who declines this vaccine is required to read and sign the following statement:

I understand that, due to my occupational exposure to blood or other potentially infectious materials, I may be at risk of acquiring hepatitis B virus (HBV) infection. I have been given the opportunity to be vaccinated with hepatitis B vaccine, at no charge to myself. However, I decline hepatitis B vaccination at this time. I understand that by declining this vaccine, I continue to be at risk of acquiring hepatitis B, a serious disease. If in the future I continue to have occupational exposure to blood or other potentially infectious materials and I want to be vaccinated with hepatitis B vaccine, I can receive the vaccination series at no charge to myself.

Policy 4119.43: Universal Precautions

Status: DRAFT

Original Adopted Date: 03/01/1993 **| Last Revised Date:** 05/01/2020

In order to protect all employees from contact with potentially infectious blood or other body fluids, the Board of Trustees requires that universal precautions be observed throughout the district. Universal precautions are appropriate for preventing the spread of all infectious diseases and shall be used regardless of whether bloodborne pathogens are known to be present.

The Superintendent or designee shall distribute to employees information provided by the California Department of Education (CDE) regarding acquired immune deficiency syndrome (AIDS), AIDS-related conditions, and hepatitis B. This information shall include, but not be limited to, any appropriate methods employees may use to prevent exposure to AIDS and hepatitis B, including information concerning the availability of a vaccine to prevent contraction of hepatitis B, and that the cost of this vaccination may be covered by the health plan of the employees. Information shall be distributed annually, or more frequently if there is new information supplied by CDE. (Health and Safety Code 120875, 120880)

Information regarding universal precautions may be included in employee handbooks.

Employees shall immediately report any exposure incident or first aid incident in accordance with the district's exposure control plan for bloodborne pathogens or other safety procedures.

Regulation 4119.43: Universal Precautions

Status: DRAFT

Original Adopted Date: 03/01/1993 **| Last Revised Date:** 05/01/2020

Definitions

Universal precautions are an approach to infection control. All human blood and certain human body fluids, including, but not limited to semen, vaginal secretions, and any body fluid that is visibly contaminated with blood, are treated as if known to be infectious for human immunodeficiency virus (HIV), hepatitis B virus (HBV), hepatitis C virus (HCV), and other bloodborne pathogens. (8 CCR 5193; 29 CFR 1910.1030)

Occupational exposure means reasonably anticipated contact with blood or other potentially infectious materials that may result from the performance of an employee's duties. (8 CCR 5193; 29 CFR 1910.1030)

A sharp is any object that can be reasonably anticipated to penetrate the skin or any other part of the body and to result in an exposure incident. (8 CCR 5193)

Infection Control Practices

For the prevention of infectious disease, the district shall:

1. Effectively maintain the worksite in a clean and sanitary condition, and implement an appropriate written schedule for cleaning and decontamination of the worksite

2. When necessary for employees with occupational exposure to bloodborne pathogens, provide appropriate personal protective equipment, such as gloves, masks, and outer garments, at no cost to the employee (8 CCR 5193)

3. Provide handwashing facilities which are readily accessible to employees, or, if not feasible, provide an appropriate antiseptic hand cleanser in conjunction with clean cloth or paper towels, or antiseptic towelettes

Any employee who has contact with blood or other body fluid, regardless of whether bloodborne pathogens are known to be present, shall:

1. Use personal protective equipment as appropriate.

2. Wash hands and other skin surfaces thoroughly with soap and running water:

    a. Immediately or as soon as feasible following contact with blood or other potentially infectious materials

    b. Immediately after removing gloves or other personal protective equipment

3. When handwashing facilities are not available, use antiseptic hand cleanser in conjunction with clean cloth or paper towels, or antiseptic towelettes. In such instances, hands shall be washed with soap and running water as soon as feasible.

4. Refrain from eating, drinking, smoking, applying cosmetics or lip balm, or handling contact lenses in work areas with a reasonable likelihood of occupational exposure to bloodborne pathogens.

5. Clean and decontaminate all equipment and environmental and work surfaces after contact with blood or other potentially infectious material, no later than the end of the shift or more frequently as required by state regulations.

6. Rather than using the hands directly, use mechanical means such as a brush and dust pan, tongs, or forceps to clean up broken glassware which may be contaminated.

7. Use effective techniques designed to minimize the risk of a sharps injury in all procedures involving the use of sharps.

8. Handle, store, treat, and dispose of regulated waste in accordance with Health and Safety Code 117600-118360 and other applicable state and federal regulations.

a. Immediately or as soon as possible after use, contaminated sharps shall be placed in containers meeting the requirements of 8 CCR 5193.

b. Specimens of blood or other potentially infectious material shall be placed in a container which prevents leakage during collection, handling, processing, storage, transport, or shipping.

Policy 4121: Temporary/Substitute Personnel

Status: DRAFT

Original Adopted Date: 07/01/2012 **| Last Revised Date:** 06/01/2024

The Board of Trustees recognizes that substitute and temporary personnel perform an essential role in promoting student achievement and desires to employ highly qualified, appropriately credentialed employees to fill such positions.

Hiring

The Superintendent or designee shall recommend candidates for substitute or temporary positions for Board approval, and shall ensure that all substitute and temporary employees are assigned in accordance with law and the authorizations specified in their credential.

Substitute personnel may be employed on an on-call, day-to-day basis.

In addition, after September 1 of any school year, the Board may employ substitute personnel for the remainder of the school year in positions for which no regular employee is available. The district shall first demonstrate to the Commission on Teacher Credentialing the inability to acquire the services of a qualified regular employee. (Education Code 44917)

Permanent or probationary certificated employees who were laid off pursuant to Education Code 44955 and who have a preferred right of reappointment shall be given priority for substitute service in the order of their original employment. (Education Code 44956, 44957)

Classification

At the time of initial employment and each July thereafter, the Board shall classify substitute and temporary employees as such. (Education Code 44915, 44916)

The Board may classify as substitute personnel a teacher hired to fill the position of a regularly employed person who is absent from service. (Education Code 44917)

To address the need for additional certificated employees when regular district employees are absent due to leaves or long-term illness, the Board may classify a teacher who is employed for at least one semester and up to one complete school year as a temporary employee. Any person whose service begins in the second semester and before March 15 may be classified as a temporary employee, even if employed for less than a semester. The Board shall determine the number of persons who shall be so employed, which shall not exceed the identified need based on the absence of regular employees. (Education Code 44920)

Additionally, the Board shall classify as temporary employees those certificated persons, other than substitute employees, who are employed to:

1. Serve from day to day during the first three months of any school term to teach temporary classes which shall not exist after that time, or perform any other duties which do not last longer than the first three months of any school term (Education Code 44919)

2. Teach in special day and evening classes for adults or in schools of migratory population for not more than four months of any school term (Education Code 44919)

3. Serve in a limited assignment supervising student athletic activities provided such assignments have first been made available to teachers presently employed in the district (Education Code 44919)

4. Serve in a position for a period not to exceed 20 working days, in order to prevent the stoppage of district business during an emergency when persons are not immediately available for probationary classification (Education Code 44919)

For purposes of classifying employees pursuant to Item #1 or #2 above, the school year shall not be divided into more than two school terms. (Education Code 44919)

Any employee hired to provide services in a categorically funded program or project may be employed for a period

less than a full school year. An employee may be classified as a temporary employee if the period of employment will end at the expiration of that program or project. (Education Code 44909)

Salary and Benefits

The Board shall adopt and make public a salary schedule setting the daily or pay period rate(s) for substitute employees for all categories or classes of certificated employees of the district. (Education Code 44977, 45030)

Temporary employees shall participate in the health and welfare plans or other fringe benefits of the district.

Paid Sick Leave

Except for a retired annuitant who is not reinstated to the retirement system, any temporary or substitute employee who works for 30 or more days within a year of employment shall be entitled to one hour of paid sick leave for every 30 hours worked. Accrued paid sick days shall carry over to the following year of employment, up to a maximum of 80 hours or ten days. However, the district may limit an employee's use of accrued paid sick days to 40 hours or five days in each year of employment. (Labor Code 246)

Any temporary or substitute employee may begin to use accrued paid sick days on the 90th day of employment, after which the employee may use the sick days as they are accrued. (Labor Code 246)

A temporary or substitute employee may use accrued sick leave for absences due to: (Labor Code 246.5)

1. The employee's own need or the need of a family member, as defined in Labor Code 245.5, for the diagnosis, care, or treatment of an existing health condition or for preventive care

2. Need of the employee to obtain or seek any relief or medical attention specified in Labor Code 230(c) and 230.1(a) for the health, safety, or welfare of the employee, or the employee's child, when the employee has been a victim of domestic violence, sexual assault, or stalking

No employee shall be denied the right to use accrued sick days and the district shall not in any manner discriminate or retaliate against an employee for using or attempting to use sick leave, filing a complaint with the Labor Commissioner, or alleging district violation of Labor Code 245-249. The Superintendent or designee shall display a poster containing required information, provide notice to eligible employees of their sick leave rights, keep records of employees' use of sick leave for three years, and comply with other requirements specified in Labor Code 245-249 and in Administrative Regulation 4161.1/4361.1 - Personal Illness/Injury Leave.

Release from Employment/Dismissal

The Board may dismiss a substitute employee at any time at its discretion. (Education Code 44953)

The Board may release a temporary employee at its discretion if the employee has served less than 75 percent of the number of days the regular schools of the district are maintained during one school year. After serving 75 percent of the number of days that district schools are maintained during one school year, a temporary employee may be released as long as the employee is notified, before the last day of June, of the district's decision not to reelect the temporary employee for the following school year. (Education Code 37200, 44954)

Reemployment as a Probationary Employee

Reemployment provisions contained in Education Code 44918 do not apply to districts with average daily attendance of over 250,000; such districts should modify the following section accordingly.

Unless released from employment pursuant to Education Code 44954, any person employed for one complete school year as a temporary employee shall, if reemployed for the following school year in a vacant position requiring certification qualifications, be classified as a probationary employee. With the exception of on-call, day-to-day substitutes, if a temporary or substitute employee performs the duties normally required of certificated employees for at least 75 percent of the number of days the regular schools of the district were maintained in that school year and is then employed as a probationary employee for the following school year, the employee's previous employment as a temporary or substitute employee shall be credited as one year's employment as a probationary employee for purposes of acquiring permanent status. (Education Code 44917, 44918, 44920)

Vacant position means a position in which the employee is qualified to serve and which is not filled by a permanent or probationary employee. It shall not include a position which would be filled by a permanent or probationary employee except for the fact that such employee is on leave. (Education Code 44920, 44921)

A temporary employee hired pursuant to Item #1 or #2 in the section "Classification" above shall be classified as a probationary employee if the duties continue beyond the time limits of the assignment. (Education Code 44919)

A person employed pursuant to Item #5 in the section "Classification" above who is then continued in employment beyond the first semester shall be classified as a probationary employee for the entire school year and shall be reemployed to fill any vacant position in the district for which the employee is certified. Preference for available positions shall be determined by the Board as prescribed by Education Code 44845 and 44846. (Education Code 44921)

With the exception of on-call, day-to-day substitutes, any temporary or substitute employee who was released pursuant to Education Code 44954 but who has nevertheless served in a certificated position in the district for at least 75 percent of each of two consecutive school years shall receive first priority if the district fills a vacant position for the subsequent school year at the grade level at which the employee served during either year. In the case of a departmentalized program, the employee shall have taught the subject matter in which the vacant position occurs. (Education Code 44918)

Regulation 4121: Temporary/Substitute Personnel

Status: DRAFT

Original Adopted Date: 06/01/1997 **| Last Revised Date:** 06/01/2024

Qualifications

Any candidate recommended by the Superintendent or designee for a substitute or temporary position requiring certification qualifications shall possess the appropriate credential or permit authorizing employment in such position and shall meet all other requirements of law for certificated positions. (Education Code 44830)

The district shall not initially hire a certificated person on a substitute or temporary basis in a capacity designated in the person's credential unless the person has demonstrated basic skills proficiency in reading, writing, and mathematics pursuant to Education Code 44252.5, or is exempted by law. (Education Code 44830)

A noncredentialed person shall not substitute for any special education certificated position. The Superintendent or designee shall recruit and maintain lists of appropriately credentialed substitute teachers for special education positions. The Superintendent or designee shall contact institutes of higher education with approved special education programs for possible recommendations of appropriately credentialed special education personnel. (Education Code 56060, 56063)

Notifications

Before starting work, each new temporary employee shall receive a written statement indicating employment status and salary. This statement shall clearly indicate the temporary nature of the employment and the length of time for which the person is being employed. (Education Code 44916)

The Superintendent or designee shall notify all substitute and part-time certificated employees, within 30 days of their hire, of their right to elect membership in a defined benefit program under a qualified retirement plan. The employee shall sign a form provided by the system to acknowledge receipt of this notice and to indicate whether the employee elects or declines membership. Election of membership shall be irrevocable for all future employment to perform creditable service. (Education Code 22455.5, 22515)

Assignments

A person who holds an emergency 30-day substitute permit, emergency career substitute permit, emergency substitute permit for prospective teachers, or emergency substitute permit for career technical education shall be restricted in the number of days the employee may substitute for any one teacher in accordance with 5 CCR 80025-80025.5.

In placing substitute teachers in special education classrooms, the district shall give first priority to substitute teachers with the appropriate special education credential(s), second priority to substitute teachers with any other special education credential, and third priority to substitute teachers with a regular teaching credential. An inappropriately credentialed substitute teacher shall not serve as a substitute for a special education teacher for a period of more than 20 cumulative school days for each special education teacher absent during each school year. The district may apply to the Superintendent of Public Instruction for an extension of 20 school days, or for a longer period in extraordinary circumstances. (Education Code 56060, 56061, 56062)

All coaches shall be subject to applicable law, Board policies, administrative regulations, and California Interscholastic Federation bylaws and codes of ethical conduct.

Noncertificated coaches shall have no authority to assign grades to students. (5 CCR 5591)

Qualifications and Training

The Superintendent or designee shall establish qualification criteria for all athletic coaches in accordance with law and district standards. These criteria shall ensure that coaches possess an appropriate level of competence, knowledge, and skill.

Any noncertificated employee or volunteer who works with students in a district-sponsored interscholastic athletic activity shall, prior to beginning the individual's duties, submit to the Superintendent or designee either an Activity Supervisor Clearance Certificate issued by the Commission on Teacher Credentialing or a Department of Justice and Federal Bureau of Investigation criminal background clearance. (Education Code 49024)

Following the selection of a temporary athletic team coach, the Superintendent or designee shall certify to the Board, at the next regular Board meeting or within 30 days, whichever is sooner, that the coach meets the qualifications and competencies required by 5 CCR 5593. By April 1 of each year, the Board shall certify to the State Board of Education that the provisions of 5 CCR 5593 have been met. (5 CCR 5594)

Original Adopted Date: 09/01/1991 **| Last Revised Date:** 07/01/2008

In order to help maintain public trust in the integrity of district operations, the Board of Trustees expects all employees to give the responsibility of their positions precedence over any other outside employment. A district employee may receive compensation for outside activities as long as these activities are not inconsistent, incompatible, in conflict with, or inimical to his/her district duties.

An outside activity shall be considered inconsistent, incompatible, or inimical to district employment when such activity: (Government Code 1126)

1. Requires time periods that interfere with the proper, efficient discharge of the employee's duties

3. Involves using the district's name, prestige, time, facilities, equipment, or supplies for private gain

Policy 4140: Bargaining Units

Status: DRAFT

Original Adopted Date: 11/01/2011 **| Last Revised Date:** 03/01/2024

The Board of Trustees recognizes the right of district employees to form a bargaining unit and to select an employee organization as the exclusive representative for the employees in the employees' employment relationship with the district. The Board is committed to negotiating in good faith with the exclusive representative and respecting the rights of employees and employee organizations.

The district shall not dominate or interfere with the formation or administration of any employee organization or contribute financial or other support to it. (Government Code 3543.5)

Employees shall not be prohibited from wearing union buttons, insignia, or other pictorial or written messages that favor or oppose the formation of a bargaining unit or any matter that is the subject of negotiations.

Formation of Bargaining Units

Certificated and classified employees shall not be included in the same bargaining unit. (Government Code 3545)

A bargaining unit of certificated or classified supervisory employees may only be recognized if the bargaining unit includes all certificated or classified supervisory employees, respectively, and is not represented by the same employee organization that represents district employees who are supervised by the supervisory employees. (Government Code 3545)

For this purpose, supervisory employee means any employee, regardless of job description, having authority, in the interest of the district, to hire, transfer, suspend, lay off, recall, promote, discharge, assign, reward, or discipline other employees, or the responsibility to assign work to, direct, or adjust grievance of other employees, or effectively recommend that action, when the exercise of that authority is not of a merely routine or clerical nature, but requires the use of independent judgment. (Government Code 3540.1)

Employees serving in management, senior management, or confidential positions shall not be represented by an exclusive representative. In the employment relationship with the district, employees who serve in a management, senior management, or confidential position may represent themselves or be represented by an employee organization whose membership is composed entirely of employees designated as holding those positions. However, an employee organization representing management, senior management, or confidential employees shall not be permitted to meet and negotiate with the district on behalf of the employees. (Education Code 45100.5, Government Code 3543.4)

Management employee means an employee in a position having significant responsibilities for formulating district policies or administering district programs. (Government Code 3540.1)

Confidential employee means any employee who is required to develop or present management positions with respect to employer-employee relations or whose duties normally require access to confidential information that is used to contribute significantly to the development of management positions. (Government Code 3540.1)

Membership

The district shall not deter or discourage employees or job applicants from becoming or remaining members of an employee organization, authorizing representation by an employee organization, or authorizing dues or fee deductions to an employee organization. In addition, the district shall not impose or threaten to impose reprisals on employees, discriminate or threaten to discriminate against employees, or otherwise interfere with, restrain, or coerce employees because of their membership or nonmembership in an employee organization. (Government Code 3543.5, 3550, 3551.5)

District Communications to Employees

The Superintendent or designee may communicate with district employees regarding their rights to join and/or support or to refrain from joining or supporting an officially recognized employee organization. Such communications shall be factual and accurate and may not promise a benefit, threaten a reprisal, or in any way deter or discourage employees from joining an employee organization or paying dues.

The district may disseminate written documents, recorded messages, or other mass communications to actual or prospective employees represented by an exclusive representative concerning their rights to join and/or support, or refrain from joining and/or supporting, an employee organization only after the Superintendent or designee meets and confers with the exclusive representative concerning the content of the mass communication. If the district and exclusive representative do not come to agreement on the content of the mass communication and the district still chooses to disseminate it, the Superintendent or designee shall request that the exclusive representative provide a communication of reasonable length to the district that shall be disseminated to the employees at the same time as the district's own mass communication. (Government Code 3553)

Access to New Employee Orientations

The district shall permit each exclusive representative access to new employee orientation or onboarding process where newly hired employees represented by the exclusive representative are advised, whether in person, online, or through other means or mediums, of their employment status, rights, benefits, duties, responsibilities, or any other employment-related matters. The district shall provide the exclusive representative at least 10 days' notice in advance of an orientation, except that a shorter notice may be provided where there is an urgent need critical to the district's operations that was not reasonably foreseeable. (Government Code 3556)

Following a request to negotiate by either party, the structure, time, and manner of access to new employee orientations shall be determined by mutual agreement of the district and the exclusive representative. If the district and exclusive representative fail to reach an agreement, the structure, time, and manner of access to the new employee orientation shall be subject to compulsory interest arbitration. The district and the exclusive representative may mutually agree to submit any dispute to compulsory interest arbitration at any time. In addition, if any dispute arises during negotiations and is not resolved within 45 days after the first meeting or within 60 days after the initial request to negotiate, whichever is earlier, either party may make a demand for compulsory interest arbitration. When any such dispute arises during the summer when the district's administrative office is closed, the timeline shall commence on the first day the administrative office reopens. The arbitrator's decision shall be issued within 10 days and shall be final and binding on the parties. (Government Code 3556, 3557)

The date, time, and place of a new employee orientation shall not be disclosed to anyone other than employees, the exclusive representative, or a vendor that is contracted to provide a service for purposes of the orientation. (Government Code 3556)

Until June 30, 2025, unless the district and the exclusive representative have agreed otherwise, when the district has not conducted an in-person orientation within 30 days of hiring a new employee, the Superintendent or designee shall permit the exclusive representative to schedule an in-person meeting during employment hours at the new employee's worksite, during which the new employee shall have the opportunity to attend and shall be relieved of other duties for the purpose of attending the meeting. The district shall provide appropriate space at the worksite within seven calendar days of receiving a request from the exclusive representative. (Government Code 3556, 3557)

During this meeting, the exclusive representative shall be permitted to communicate directly with the new employees for up to 30 minutes of paid time. (Government Code 3556)

Access to Employee Contact Information

The Superintendent or designee shall provide an exclusive representative with the name, job title, department, work location, telephone numbers (work, home, and personal cell phone), of all employees represented by the exclusive representative on file with the district. An employee's personal email address shall only be disclosed if it used by the employee to conduct district business.

Such information shall be provided within 30 days of hire or by the first pay period of the month following hire for all new employees represented by the exclusive representative, unless the exclusive representative has agreed to a different interval for the provision of the information. Additionally, the Superintendent or designee shall provide the exclusive representative with the same information for all employees represented by the exclusive representative every 120 days, unless more frequent disclosure is required by agreement with the exclusive representative. (Government Code 3558, 7928.300)

However, the Superintendent or designee shall not disclose: (Government Code 3558, 6205-6210, 6215-6216, 7928.300)

1. The home address and any phone numbers on file for employees performing law enforcement-related functions

2. The home address, home telephone or personal cell phone number(s), or personal email address(es) of any employee who is a participant in the Safe at Home address confidentiality program pursuant to Government Code 6205-6210 and 6215-16

3. The employee's home address, home telephone and personal cell phone numbers, and personal email address of an employee not performing law enforcement related functions if the employee has submitted a written request to the district to keep such information private. In such instances, the Superintendent or designee shall also remove the employee's home address, home telephone number, and personal cell phone number from any mailing list maintained by the district unless the list is only used by the district to contact the employee.

Within 20 calendar days after an exclusive representative notifies the Superintendent or designee that a list of employees provided by the district is inaccurate or incomplete, the Superintendent or designee shall take steps to correct the list and provide a new list of employees to the exclusive representative. (Government Code 3558)

The Superintendent or designee shall review the list of contact information for district employees at the beginning of each school year, or more often as appropriate.

Communications with Employees by Employee Organizations

Subject to reasonable regulation by the district, employee organizations shall have access, at reasonable times, to the work areas of employees represented by the employee organization and to district facilities for the purpose of meeting with employees represented by the employee organization. Access may be limited in instances where it would be disruptive to district operations. (Government Code 3543.1)

Additionally, subject to reasonable regulation by the district, employee organizations shall have the ability to use institutional bulletin boards, mailboxes, and other means of communication to communicate with employees represented by the employee organization. (Government Code 3543.1)

Membership Dues or Other Payments to an Employee Organization

When drawing an order for the salary or wage payment of a bargaining unit employee of an employee organization, the district shall deduct any amount that has been requested by the employee in a revocable written authorization for the purpose of paying dues or other payments for any service, program, or committee provided or sponsored by the employee organization. (Education Code 45060, 45168)

When an employee organization has certified to the district that it has and will maintain individual employee authorizations for payroll deductions, the district shall rely on information from the employee organization regarding the amounts of such payroll deductions and the employees to whom they apply and shall not handle or process employee written authorizations for the employees represented by such employee organization. The district also shall not require a copy of the written authorization to be submitted by the employee organization, except when there is a dispute about the existence or terms of the written authorization. (Education Code 45060, 45168)

A written authorization shall remain in effect until expressly revoked in writing by the employee and pursuant to the terms of the written authorization. Employee requests to cancel or change authorizations for payroll deductions for employee organizations shall be directed to the employee organization that represents the employee rather than the district. The employee organization shall be responsible for processing these requests. The district shall rely on the information provided by the employee organization regarding whether deductions for an employee organization were properly canceled or changed. The employee organization shall be required to indemnify the district for any claims made by an employee for deductions made by the district in reliance on information from the employee organization. (Education Code 45060, 45168)

When an employee organization has declined to certify that it will handle and process written authorizations from employee(s) represented by the employee organization and makes a request for payroll deductions, the district shall request a copy of the written authorization for an employee before making the payroll deductions for that employee. (Education Code 45060, 45168)

The Board is committed to carrying out the provisions of each agreement and expects the agreements to be consistently and uniformly administered.

Following adoption of the collective bargaining agreement, the Superintendent or designee shall review related Board policies and recommend to the Board any action needed to maintain consistency with the agreement. Whenever a Board policy conflicts with a provision in the collective bargaining agreement, the agreement shall be binding for those employees covered by the terms of the agreement. Whenever a law conflicts with a provision in the collective bargaining agreement, the law will prevail as to those employees for whom the law applies.

Upon request by the Public Employment Relations Board, the Superintendent or designee shall provide, within 15 days of the request, a copy of the written agreement and any amendments. (8 CCR 32120)

If an employee organization gives notice that it intends to strike, the Superintendent or designee shall notify the Public Employment Relations Board, Employment Development Department, employees in the striking unit, other district employees, parents/guardians, students, law enforcement, the media, and others as appropriate.

Employees should be held accountable for their behavior during any labor dispute. The district may take disciplinary action against any employee who engages in an unlawful concerted action or in unlawful behavior in an otherwise protected activity, taking into account the seriousness of the behavior and the district's efforts to rebuild relations following the withholding of services by employees.

However, the district shall not discontinue or threaten to discontinue employer contributions for health care or other medical coverage for any employee or their enrolled dependents for the duration of the employee's participation in an authorized strike, as defined in Government Code 3141 and specified in the accompanying administrative regulation.

Step 1: Informal Complaint Process

Prior to instituting a formal, written complaint, the employee shall first discuss the issue with his/her supervisor or the principal of the school where the alleged act took place. Formal complaint procedures shall not be initiated until the employee has first attempted to resolve the complaint informally.

Step 2: Site Level Formal Complaint Process

If a complaint has not been satisfactorily resolved through the informal process in Step 1, the complainant may file a written complaint with his/her immediate supervisor or principal within 60 days of the act or event which is the subject of the complaint. The Board shall adopt separate salary schedules for certificated, classified, and supervisory and administrative personnel that comply with law and applicable collective bargaining agreements. (Education Code 45022, 45160, 45162, 45268)

Each certificated employee, except an employee in an administrative or supervisory position, shall be classified on the salary schedule on the basis of uniform allowance for education level and years of experience, unless the Board and employee organization negotiate and mutually agree to a salary schedule based on different criteria. Certificated employees shall not be placed in different classifications on the schedule, nor paid different salaries, solely on the basis of the grade levels at which they teach. (Education Code 45028)

Salary schedules for staff who are not a part of a bargaining unit shall be determined by the Board at the recommendation of the Superintendent or designee.

The salary schedules adopted by the Board shall be printed and made available for review at the district office. (Education Code 45023)

Additionally, by January 31, 2026, and annually thereafter, the Superintendent or designee shall complete the Salary and Benefit Schedule for Bargaining Units (Form J-90) for classified and certificated staff assigned to a district school site and report the Form J-90 to the California Department of Education. (Education Code 42238.016)

Unless otherwise provided for in any applicable collective bargaining agreement, district employees shall be paid monthly and in 10, 11 or 12 equal payments over the year. However, if the district participates in the Classified School Employee Summer Assistance Program, eligible classified employees may elect to have up to 10 percent of the employee's monthly salary withheld and paid out during the summer recess in either one or two payments. However, teachers, school administrators, and other employees in positions established by the Board as executive, administrative, or professional shall be exempt from overtime rules. (Education Code 45128, 45130; 29 USC 213; 29 CFR 541.204, 541.303, 541.600 , 553.27, 553.32)

If the district requires a classified employee in an exempt position to work on a holiday designated in law or by the Board, the employee shall be paid the regular pay for that day plus compensation or compensatory time off at a rate not less than the employee's normal rate of pay. (Education Code 45130)

When authorized in a collective bargaining agreement or other agreement between the district and employees, an employee may take compensatory time off in lieu of overtime compensation, provided the employee has not accrued compensatory time in excess of the limits specified in 29 USC 207. An employee who has requested the use of compensatory time shall be allowed to use such time within 12 calendar months following the month the overtime was worked if the use of the compensatory time does not unduly disrupt district operations. For each nonexempt employee, the Superintendent or designee shall maintain records on the employee's wages, hours, and other information specified in 29 CFR 516.5-516.6.

Wage Overpayment

If the district determines an employee has been overpaid, the district shall notify the employee in writing of the overpayment, afford the employee an opportunity to respond before commencing any recoupment actions, and inform the employee of the employee's rights to dispute the existence or amount of the claimed overpayment. If the employee agrees there was an overpayment in the claimed amount, reimbursement shall be made to the district through one of the methods described in Education Code 44042.5, as mutually agreed upon by the employee and the district. (Education Code 44042.5)

If a mutual agreement on a method of reimbursement is not reached, within 30 days of the employee verifying the overpayment amount, the district shall recoup the overpayment through payroll deductions in accordance with Education Code 44042.5.

If the employee does not respond or disputes the existence or amount of the district's claimed overpayment, the district may only recover the overpayment after pursuing appropriate legal action. (Education Code 44042.5)

If the employee separates from the district before the overpayment is fully repaid, the district shall withhold the remaining balance due from any money owed to the employee upon separation, provided that the state minimum wage is still paid to the employee as required by Education Code 44042.5. The Superintendent or designee may consult with legal counsel to calculate the amount to withhold.

If an outstanding overpayment balance still remains, the district may exercise any legal means to recover the remaining amount owed by the employee. (Education Code 44042.5)

Legal action to recover any overpayment under this policy shall be initiated within three years from the date of the overpayment, which for leave credits is the date that the employee receives compensation in exchange for leave erroneously credited to the employee. (Education Code 44042.5)

(Government Code 12945.8)

Upon the request of the Superintendent or designee, an employee requesting a reasonable accommodation shall provide a written statement, signed by the employee or an individual acting on the employee's behalf, certifying that the accommodation is for an authorized purpose. (Education Code 44978.2)

The Superintendent or designee may require verification, in accordance with the section "Verification Requirements" below, that the employee used the leave to obtain treatment of a military service-connected disability.

If the duration of absence becomes shorter than estimated, the employee shall notify the district not later than three o'clock in the afternoon of the day preceding the day on which the employee intends to return to work. If the employee fails to notify the district and the failure results in a substitute being secured, the cost of the substitute shall be deducted from the employee's pay.

Continued Absence After Available Sick Leave Is Exhausted/Differential Pay

During each school year, when a certificated employee has exhausted all available sick leave, including all accumulated sick leave, and, due to illness or accident, continues to be absent for an additional period of up to five school months, the district shall deduct from the employee's regular salary for that period the actual cost of a substitute to fill the position. If the district has made every reasonable effort to secure the services of a substitute and has been unable to do so, the amount that would have been paid to a substitute shall be deducted from the employee's salary. (Education Code 44977)

Verification Requirements

After any absence due to illness or injury, the employee shall verify the absence by submitting a completed and signed district absence form to the employee's immediate supervisor.

The Superintendent or designee may require verification whenever an employee's absence record shows chronic absenteeism or a pattern of absences immediately before or after weekends and/or holidays or whenever available evidence clearly indicates that an absence is not related to illness or injury.

In addition, the Superintendent or designee may require an employee to visit a physician selected by the district, at district expense, in order to receive a report on the employee's need for further leave of absence and a prognosis as to when the employee will be able to return to work. If the report concludes that the employee's condition does not warrant continued absence, the Superintendent or designee may, after giving notice to the employee, deny further leave.

Any district request for additional verification by an employee's physician or a district-selected physician shall be in writing and shall specify that the report to be submitted to the district should not contain the employee's genetic information. Any genetic information received by the district on behalf of an employee shall be treated as a confidential medical record, maintained in a file separate from the employee's personnel file, and not be disclosed except in accordance with 29 CFR 1635.9.

Before returning to work, an employee who has been absent for surgery, hospitalization, or extended medical treatment may be asked to submit a letter from a physician stating that the employee is able to return to duty and stipulating any necessary restrictions or limitations.

Healthy Workplaces, Healthy Families Act Requirements

No employee shall be denied the right to use accrued sick days, and the district shall not in any manner discriminate or retaliate against an employee for using or attempting to use sick leave, filing a complaint with the Labor Commissioner, or alleging district violation of Labor Code 245-249.

To ensure the district's compliance with Labor Code 245-249, the Superintendent or designee shall:

1. At a conspicuous location in each workplace, display a poster on paid sick leave that includes the following information:

    a. That an employee is entitled to accrue, request, and use paid sick days

    b. The number of sick days provided by Labor Code 245-249

c. The terms of use of paid sick days

d. That discrimination or retaliation against an employee for requesting and/or using sick leave is prohibited by law and that an employee has the right to file a complaint with the Labor Commissioner if the district discriminates or retaliates against the employee

An eligible employee shall be entitled to a leave of absence for an industrial accident or illness arising in the course of his/her assigned duties. (Education Code 44984, 45192)

For such leave, the employee shall be granted no more than 60 working days in any one fiscal year for the same industrial accident or illness.

To be eligible for industrial accident or illness leave, a classified employee shall have served in the district continuously for at least three years.

Allowable industrial accident or illness leave shall not be accumulated from year to year. (Education Code 44984, 45192)

When an employee is absent from his/her duties because of an industrial accident or illness: (Education Code 44043, 44044, 44984, 45192)

1. The leave shall start on the first day of absence.

2. During the period of absence, the employee shall be paid such portion of his/her wage or salary that, when added to the award granted under state workers' compensation laws, will not exceed his/her normal wage or salary.

3. The leave shall be reduced by one day for each day of authorized absence, regardless of an award granted under workers' compensation laws.

4. When the leave overlaps into the next fiscal year, the employee is entitled to only the amount of unused leave due the employee for the same illness or injury.

During any paid leave of absence, the employee shall endorse to the district any workers' compensation checks received on account of an industrial accident or illness. The Superintendent or designee shall then issue payment of the employee's normal wage or salary less any appropriate deductions, including, but not limited to, employee retirement contributions. (Education Code 44043)

Absence for industrial accident or illness shall not be considered a break in service of the employee. An employee using such leave shall retain all status and benefits to which he/she would otherwise be entitled.

When available industrial accident or illness leave has been exhausted, the employee shall be so notified in writing and shall be offered an opportunity to request any additional paid or unpaid leave available to the employee. (Education Code 45192)

Upon expiration of allowable leave for an industrial accident or illness, the employee may use personal illness and injury leave provided pursuant to Education Code 44977, 44978, 44983, or 45191, as applicable, provided that such leave, when added to any continuing workers' compensation award, does not result in a payment to the employee of more than his/her full wage or salary. (Education Code 44984, 45192)

If a certificated employee is unable to resume the duties of his/her position after exhausting all accumulated sick leave, including the consecutive five-month period provided by Education Code 44977, he/she shall, if not placed in another position, be placed on a reemployment list for a period of 24 months if he/she is a probationary employee or 39 months if he/she is a permanent employee. If the employee becomes medically able to resume duties during the period of reemployment eligibility, he/she shall be returned to employment in a position for which he/she is credentialed and qualified. (Education Code 44978.1)

If a classified employee has exhausted all available leaves of absence, paid or unpaid, and is not medically able to resume the duties of his/her position, he/she shall, if not placed in another position, be placed on a reemployment list for a period of 39 months. If he/she becomes medically able to resume duties during the period of reemployment eligibility, he/she shall be employed in a vacant position in the class of his/her previous assignment over all other candidates except those on a reemployment list established because of lack of work or lack of funds, in which case the employee shall be listed in accordance with seniority regulations. If the employee is medically released to return

to duty but fails to accept an appropriate assignment, he/she shall be dismissed. (Education Code 45192)

Whenever possible, employees shall request personal leaves in advance and prepare suitable instructions, including lesson plans as applicable, for a substitute employee.

(Education Code 44985, 45194; Government Code 12945.7)

No deduction shall be made from the employee's salary for any authorized paid bereavement leave as specified in the collective bargaining agreement or as otherwise established by this policy, nor shall such leave be deducted from any other leave to which the employee is entitled unless requested by the employee. (Education Code 44985, 45194; Government Code 12945.7)

The employee shall take the leave within three months following the event. Any request or inquiry or information provided by an employee related to reproductive loss leave and/or a reproductive loss shall remain confidential, except to internal personnel or counsel as necessary or as required by law.

The Superintendent or designee shall have final discretion as to whether a request reflects personal necessity.

Advance permission shall not be required of an employee in any case involving the death of a member of the employee's immediate family, an accident involving the employee's person or property or the person or property of a member of the employee's immediate family, or the illness, preventive care, or other need of a member of the employee's family. In the case of Items #2 and #3 where an application is required, the employee's application may be made orally or in writing and need not follow any particular format. (38 USC 4312; 20 CFR 1002.115, 1002.117, 1002.118)

An employee who is hospitalized for, or convalescing from, an illness or injury incurred in or aggravated during the performance of military service shall report for duty or submit an application for reinstatement at the end of the period that is necessary to recover from such illness or injury, but no more than two years after the completion of military service unless circumstances beyond the employee's control make reporting within the two-year period impossible or unreasonable. (38 USC 4312; 20 CFR 1002.116)

Upon receiving an application for reinstatement, the Superintendent or designee shall reinstate the employee as soon as practicable under the circumstances of the case, but within a time period not to exceed two weeks, absent unusual circumstances. (20 CFR 1002.181)

If the employee's previous position has been abolished, the district shall reinstate the employee in a position of like seniority, status, and pay, if such position exists, or to a comparable vacant position for which the employee is qualified. (Military and Veterans Code 395, 395.1; 38 USC 4313; 20 CFR 1002.192)

An employee who fails to report or apply for reinstatement within the appropriate period does not automatically forfeit the entitlement to reinstatement but shall be subject to the district's rules and/or practices governing unexcused absences. (38 USC 4312)

The Superintendent or designee may elect not to reinstate an employee following military leave if any of the following conditions exists:

1. The district's circumstances have so changed as to make such re-employment impossible or unreasonable, such as a reduction in force that would have included the employee. (38 USC 4312; 20 CFR 1002.139)

2. The accommodation, training, or effort described in 38 USC 4313(a)(3), (a)(4), or (b)(2)(B) would impose an undue hardship on the district as defined in 20 CFR 1002.5 or 1002.198. (38 USC 4312; 20 CFR 1002.139)

3. The employee's position was for a brief, nonrecurrent period and there was no reasonable expectation that such employment will continue indefinitely or for a significant period. (38 USC 4312; 20 CFR 1002.139)

4. The employee's cumulative length of absence and length of all previous military leave while employed with the district exceeds five years, excluding those training and service obligations specified in 38 USC 4312(c). (38 USC 4312; 20 CFR 1002.99-1002.103)

5. The employee was separated from military service with a disqualifying discharge or under other than honorable conditions. (Military and Veterans Code 395.1; 20 USC 4304, 4312; 20 CFR 1002.134-1002.138)

Notices

The Superintendent or designee shall provide employees a notice of the rights, benefits, and obligations of employees granted military leave and of the district under the Uniformed Services Employment and Reemployment Rights Act (USERRA), 38 USC 4301-4334. (38 USC 4334)

This requirement may be met by posting the notice where the district customarily places notices for employees. (38 USC 4334)

Status: DRAFT

Original Adopted Date: 07/01/2015 **| Last Revised Date:** 06/01/2023

The district shall not deny any eligible employee the right to family care or medical leave pursuant to the Family and Medical Leave Act (FMLA) or the California Family Rights Act (CFRA), or to Pregnancy Disability Leave (PDL), when an employee is disabled by a pregnancy, childbirth, or related medical condition. The district shall not interfere with, restrain, or deny the exercise of an employee's right to any such leave, nor shall the district discharge, discriminate against, or retaliate against an employee for taking such leave, opposing or challenging an unlawful employment practice in relation to any of these laws, or being involved in any related inquiry or proceeding. (Government Code 12945, 12945.2; 2 CCR 11094; 29 USC 2615)

Definitions

The words and phrases defined below shall have the same meaning throughout this administrative regulation except where a different meaning is otherwise specified.

Child means a biological, adopted, or foster child; a stepchild; a legal ward; or a person to whom the employee stands in loco parentis. For purposes of CFRA leave, child also includes a child of a registered domestic partner. (Government Code 12945.2; 2 CCR 11087; 29 USC 2611)

Eligible employee, for FMLA and CFRA purposes, means an employee who has been employed with the district for at least 12 months and who has at least 1,250 hours of service with the district during the 12 months immediately preceding the leave. However, these requirements shall not apply when an employee applies for PDL. (Government Code 12945.2; 2 CCR 11087; 29 USC 2611; 29 CFR 825.110)

Eligible family member means an employee's child, parent, or spouse. For purposes of leave to care for a family member with a serious health condition pursuant to CFRA, eligible family member includes an employee's child, parent, parent-in-law, spouse, registered domestic partner, grandparent, grandchild, sibling, or designated person. (Government Code 12945.2; 2 CCR 11087; 29 USC 2612)

2. Parent means a biological, foster, or adoptive parent; a parent-in-law; a stepparent; a legal guardian; or another person who stood in loco parentis to the employee when the employee was a child. However, for FMLA purposes, parent does not include a spouse's parents. (Government Code 12945.2; 2 CCR 11087; 29 USC 2611; 29 CFR 825.122)

Serious health condition means an illness, injury (including, but not limited to, on-the-job injuries), impairment, or physical or mental condition of the employee or an eligible family member of the employee that involves either inpatient care or continuing treatment, including treatment for substance abuse, as follows: (Government Code 12945.2; 2 CCR 11087, 11097; 29 USC 2611, 2612; 29 CFR 825.113-825.115)

1. Inpatient care in a hospital, hospice, or residential health care facility, any subsequent treatment in connection with such inpatient care, or any period of incapacity.

   A person is considered an inpatient when formally admitted to a health care facility with the expectation of remaining overnight and occupying a bed, even if it later develops that the person can be discharged or transferred to another facility and does not actually remain overnight.

Incapacity means the inability to work, attend school, or perform other regular daily activities due to a serious health condition, its treatment, or the recovery that it requires.

2. Continuing treatment or continuing supervision by a health care provider, including one or more of the following:

    a. A period of incapacity of more than three consecutive full days

    b. Any period of incapacity or treatment for such incapacity due to a chronic serious health condition

Eligibility/Purposes of Leave

The district shall grant FMLA or CFRA leave to eligible employees for any of the following reasons: (Government Code 12945.2; 29 USC 2612; 29 CFR 825.112, 825.126, 825.127)

1. The birth of a child of the employee or placement of a child with the employee in connection with the employee's adoption or foster care of the child (parental leave)

2. The care of an eligible family member with a serious health condition

3. The employee's own serious health condition that makes the employee unable to perform the job functions of the position

4. A qualifying exigency arising out of the fact that the employee's spouse, child, parent, or, for CFRA leave only, a registered domestic partner, is a military member on covered active duty or call to covered active duty (or has been notified of an impending call or order to covered active duty)

5. The care of a covered servicemember with a serious injury or illness when the employee is a spouse, child, parent, or next of kin of the covered servicemember

In addition, the district shall grant PDL to any employee who is disabled by pregnancy, childbirth, or other related medical condition. (Government Code 12945; 2 CCR 11037)

Terms of Leave

An eligible employee shall be entitled to a total of 12 work weeks of FMLA or CFRA leave during any 12-month period, except in the case of leave to care for a covered servicemember as provided under "Military Caregiver Leave" below. To the extent allowed by law, CFRA and FMLA leaves shall run concurrently. (Government Code 12945.2; 29 USC 2612)

The 12-month period shall be a rolling period measured backward from the date an employee uses any family care and medical leave, as defined in 29 CFR 825.200. (29 CFR 825.200)

In addition, any employee who is disabled by pregnancy, childbirth, or other related condition shall be entitled to PDL for the period of the disability not to exceed four months. For a part-time employee, the four months shall be calculated on a proportional basis. (Government Code 12945; 2 CCR 11042)

PDL shall run concurrently with FMLA leave for disability caused by an employee's pregnancy. At the end of the employee's FMLA leave for disability caused by pregnancy, or at the end of four months of PDL, whichever occurs

first, a CFRA-eligible employee may request to take CFRA leave of up to 12 work weeks, for the reason of the birth of a child or to bond with or care for the child. (Government Code 12945, 12945.2; 2 CCR 11046, 11093)

Leave taken for the birth or placement of a child must be concluded within the 12-month period beginning on the date of the birth or placement of the child. Such leave does not need to be taken in one continuous period of time. (2 CCR 11090; 29 USC 2612)

Each eligible employee shall be granted up to 12 work weeks for family care and medical leave related to the birth or placement of a child, regardless of whether both parents of the child work for the district.

Use/Substitution of Paid Leave

During any otherwise unpaid period of FMLA or CFRA leave, except leave for an employee's own serious health condition, an employee shall use accrued paid leave, including, but not limited to, vacation leave, personal leave, or family leave. If the leave is for the employee's own serious health condition, the employee shall use accrued paid leave, including but not limited to, vacation leave, personal leave, or sick leave. During an unpaid period of PDL, the employee shall use any accrued sick leave and may elect to use any vacation time or other accrued personal time off. (Government Code 12945, 12945.2; 2 CCR 11044, 11092; 29 USC 2612)

The district and employee may also come to agreement regarding the use of any additional paid or unpaid time off instead of using the employee's CFRA leave. (2 CCR 11092)

Intermittent Leave/Reduced Work or Leave Schedule

PDL and family care and medical leave for the serious health condition of an employee or eligible family member may be taken intermittently or on a reduced work or leave schedule when medically necessary, as determined by the health care provider of the person with the serious health condition. However, the district shall limit leave increments to the shortest period of time that the district's payroll system uses to account for absences or use of leave provided it is not to be greater than one hour. (Government Code 12945.2; 2 CCR 11042, 11090; 29 USC 2612)

The basic minimum duration of leave for the birth, adoption, or foster care placement of a child shall be two weeks. However, the district shall grant a request for such leave of less than two weeks on any two occasions. (2 CCR 11090; 29 USC 2612)

The district may require an employee to transfer temporarily to an available alternative position under any of the following circumstances: (2 CCR 11041, 11090; 29 USC 2612)

1. The employee needs intermittent leave or leave on a reduced work schedule that is foreseeable based on a planned medical treatment for the employee or family member

2. A medical certification is provided by the employee's health care provider that, because of pregnancy, the employee has a medical need to take intermittent leave or leave on a reduced work schedule

3. The district agrees to permit intermittent leave or leave on a reduced work schedule due to the birth, adoption, or foster care placement of the employee's child

The alternative position must have equivalent pay and benefits and must better accommodate recurring periods of leave than the employee's regular job, and the employee must be qualified for the position. Transfer to an alternative position may include altering an existing job to better accommodate the employee's need for intermittent leave or a reduced work or leave schedule. (2 CCR 11041, 11090; 29 USC 2612)

Request for Leave

The district shall consider an employee's request for PDL or family care and medical leave only if the employee provides at least verbal notice sufficient to make the district aware of the need to take the leave and the anticipated timing and duration of the leave. (2 CCR 11050, 11091)

For family care and medical leave, the employee need not expressly assert or mention FMLA/CFRA to satisfy this requirement. However, the employee must state the reason the leave is needed (e.g., birth of child, medical treatment). If more information is necessary to determine whether the employee is eligible for family care and

medical leave, the Superintendent or designee shall inquire further and obtain the necessary details of the leave to be taken. (2 CCR 11091)

The district shall respond to requests for leave as soon as practicable, but no later than five business days after receiving the employee's request. (2 CCR 11091)

Based on the information provided by the employee, the Superintendent or designee shall designate the leave, paid or unpaid, as FMLA/CFRA qualifying leave and shall give notice of such designation to the employee. Failure of an employee to respond to permissible inquiries regarding the leave request may result in denial of CFRA protection if the district is unable to determine whether the leave is CFRA qualifying. (2 CCR 11091; 29 CFR 825.300)

When an employee is able to foresee the need for PDL or family care and medical leave at least 30 days in advance of the leave, the employee shall provide the district with at least 30 days advance notice before the leave. When the 30 days' notice is not practicable because of a lack of knowledge of when leave will be required to begin, a change in circumstances, a medical emergency, or other good cause, the employee shall provide the district with notice as soon as practicable. Failure of an employee to provide required notice may result in a denial of leave. (2 CCR 11050, 11091)

In all instances, the employee shall consult with the Superintendent or designee and make a reasonable effort to schedule, subject to the health care provider's approval, any planned appointment or medical treatment or supervision so as to minimize disruption to district operations. (Government Code 12945.2; 2 CCR 11050, 11091)

An eligible employee may request CFRA leave to care for a designated person with a serious health condition. The employee may identify the designated person at the time of the employee's request for the leave. The district may limit an employee to using CFRA leave to care for one designated person per 12-month period. (Government Code 12945.2; Labor Code 245.5)

Certification of Health Condition

Within five business days of an employee's request for family care and medical leave for the serious health condition of the employee or an eligible family member, the Superintendent or designee shall request that the employee provide certification by a health care provider of the need for leave. Upon receiving the district's request, the employee shall provide the certification within 15 calendar days, unless either the Superintendent or designee provides additional time or it is not practicable under the particular circumstances, despite the employee's diligent, good faith efforts. (2 CCR 11087, 11091; 29 CFR 825.305)

The certification shall include the following: (Government Code 12945.2; 2 CCR 11087; 29 USC 2613)

1. The date on which the serious health condition began

2. The probable duration of the condition

3. If the employee is requesting leave to care for an eligible family member with a serious health condition, both of the following:

    a. Statement that the serious health condition warrants the participation of the employee to provide care, such as by providing psychological comfort, arranging for third party care, or directly providing or participating in the medical care of the eligible family member during a period of the treatment or supervision

    b. Estimated amount of time the health care provider believes the employee needs to care for the eligible family member

4. If the employee is requesting leave because of the employee's own serious health condition, a statement that due to the serious health condition, the employee is unable to work at all or is unable to perform one or more essential job functions of the position

5. If the employee is requesting leave for intermittent treatment or on a reduced work or leave schedule for planned medical treatment, a statement of the medical necessity for the leave, the dates on which treatment is expected to be given, the duration of such treatment, and the expected duration of the leave

The Superintendent or designee shall not request any genetic information related to an employee except as authorized by law in accordance with the California Genetic Information Nondiscrimination Act of 2011. (Government Code 12940)

When an employee has provided sufficient medical certification to enable the district to determine whether the employee's leave request is FMLA/CFRA-eligible, the Superintendent or designee shall notify the employee within five business days whether the leave is FMLA/CFRA-eligible. The Superintendent or designee may also retroactively designate leave as FMLA/CFRA leave as long as appropriate notice is given to the employee and there is no harm or injury to the employee. (2 CCR 11091; 29 CFR 825.301)

If the Superintendent or designee has a good faith objective reason to doubt the validity of a certification that accompanies a request for leave for the employee's own serious health condition, the Superintendent or designee may require the employee to obtain a second opinion from a district-approved health care provider, at district expense. If the second opinion is contrary to the first, the Superintendent or designee may require the employee to obtain a third medical opinion from a third health care provider approved by both the employee and the district, again at district expense. The opinion of the third health care provider shall be final and binding. (Government Code 12945.2; 2 CCR 11091; 29 USC 2613)

Release to Return to Work

Upon expiration of an employee's PDL or family care and medical leave taken for the employee's own serious health condition, the employee shall present certification from the health care provider of the employee's ability to resume work. The certification shall address the employee's ability to perform the essential job functions of the position.

Rights to Reinstatement

Upon granting an employee's request for PDL or FMLA/CFRA leave, the Superintendent or designee shall guarantee to reinstate the employee in the same or a comparable position when the leave ends. (Government Code 12945.2; 2 CCR 11043, 11089; 29 USC 2614)

The district may refuse to reinstate an employee to the same or a comparable position if the FMLA/CFRA leave was fraudulently obtained by the employee. (2 CCR 11089; 29 CFR 825.216)

The district may refuse to reinstate an employee to the same position after taking PDL if, at the time the reinstatement is requested, the employee would not otherwise have been employed in that position for legitimate business reasons unrelated to the employee's PDL. (2 CCR 11043)

Maintenance of Benefits/Failure to Return from Leave

During the period when an employee is on PDL or family care and medical leave, the employee shall maintain employee status with the district and the leave shall not constitute a break in service for purposes of longevity, seniority under any collective bargaining agreement, or any employee benefit plan. (Government Code 12945.2; 2 CCR 11092; 29 USC 2614)

For up to a maximum of four months for PDL and 12 work weeks for other family care and medical leave, the district shall continue to provide an eligible employee the group health plan coverage that was in place before the employee took the leave. The employee shall reimburse the district for premiums paid during the leave if the employee fails to return to district employment after the expiration of all available leaves and the failure is for a reason other than the continuation, recurrence, or onset of a serious health condition or other circumstances beyond the employee's control. (Government Code 12945.2; 2 CCR 11044, 11092; 29 USC 2614; 29 CFR 825.213)

In addition, during the period when an employee is on PDL or family care and medical leave, the employee shall be entitled to continue to participate in other employee benefit plans including life insurance, short-term or long-term disability insurance, accident insurance, pension and retirement plans, and supplemental unemployment benefit plans to the same extent and under the same conditions as would apply to an unpaid leave taken for any other purpose. However, for purposes of pension and retirement plans, the district shall not make plan payments for an employee during any unpaid portion of the leave period and the leave period shall not be counted for purposes of time accrued under the plan. (Government Code 12945.2; 2 CCR 11044, 11092)

Military Family Leave Resulting from Qualifying Exigencies

An eligible employee may take up to 12 work weeks of unpaid FMLA/CFRA leave, during each 12-month period established by the district in the section entitled "Terms of Leave" above, for one or more qualifying exigencies while the employee's child, parent, spouse, or, for purposes of CFRA leave, registered domestic partner, who is a military member is on covered active duty or on call to covered active duty status. (Government Code 12945.2; 29 USC 2612; 29 CFR 825.126)

Covered active duty means, for members of the Regular Armed forces, duty during the deployment of a member of the regular Armed Forces to a foreign country or, for members of the Reserve components of the Armed forces, duty during the deployment of a member of the National Guard or Reserves to a foreign country under a call or an order to active duty in support of a contingency operation pursuant to law. Deployment to a foreign country includes deployment to international waters. (29 USC 2611; 29 CFR 825.126)

Qualifying exigencies include time needed to: (29 CFR 825.126)

2. Attend military events and related activities, such as any official ceremony or family assistance program related to the covered active duty or call to covered active duty status

3. Arrange child care or attend school activities arising from the covered active duty or call to covered active duty, such as arranging for alternative child care, enrolling or transferring a child to a new school, or attending meetings

4. Make or update financial and legal arrangements to address a military member's absence

5. Attend counseling provided by someone other than a health care provider

6. Spend time (up to 15 calendar days of leave per instance) with a military member who is on short-term, temporary, rest and recuperation leave during deployment

7. Attend to certain post-deployment activities, such as arrival ceremonies or reintegration briefings

8. Care for a military member's parent who is incapable of self-care when the care is necessitated by the military member's covered active duty

9. Address any other event that the employee and district agree is a qualifying exigency

The employee shall provide the Superintendent or designee with notice of the need for the qualifying exigency leave as soon as practicable, regardless of how far in advance such leave is foreseeable. (29 CFR 825.302)

An employee who is requesting leave for qualifying exigencies shall provide the Superintendent or designee with a copy of the military member's active duty orders, or other documentation issued by the military, and the dates of the service. In addition, the employee shall provide the Superintendent or designee with certification of the qualifying exigency necessitating the leave. The certification shall contain the information specified in 29 CFR 825.309.

The employee's qualifying exigency leave may be taken on an intermittent or reduced work or leave schedule basis. (29 CFR 825.302)

During the period of qualified exigency leave, the district's rule regarding an employee's use of accrued vacation leave and any other accrued paid or unpaid time off, as specified in the section "Use/Substitution of Paid Leave" above, shall apply.

Military Caregiver Leave

The district shall grant an eligible employee up to a total of 26 work weeks of leave during a single 12-month period, measured forward from the first date the leave is taken, to care for a covered servicemember with a serious illness or injury. In order to be eligible for such military caregiver leave, the employee must be the spouse, child, parent, or next of kin of the covered servicemember. This 26-week period is inclusive of the 12 work weeks of leave that may be taken for other FMLA qualifying reasons. (29 USC 2611, 2612; 29 CFR 825.127)

Covered servicemember may be: (29 CFR 825.127)

1. A current member of the Armed Forces, including a member of the National Guard or Reserves, who is undergoing medical treatment, recuperation, or therapy; is otherwise in outpatient status; or is otherwise on the temporary disability retired list for a serious injury or illness

2. A veteran who was discharged or released under conditions other than dishonorable at any time during the five-year period prior to the first date the eligible employee takes FMLA leave to care for the covered veteran

Child of a covered servicemember means the covered servicemember's biological, adopted, or foster child, stepchild, legal ward, or child for whom the covered servicemember stood in loco parentis, and who is of any age. (29 CFR 825.127)

Parent of a covered servicemember means the covered servicemember's biological, adopted, step, or foster parent, or any other individual who stood in loco parentis to the covered servicemember (except "parents-in-law"). (29 CFR 825.127)

Serious injury or illness means: (29 USC 2611; 29 CFR 825.127)

1. For a current member of the Armed Forces, an injury or illness incurred by the member in the line of duty on active duty, or that existed before the beginning of the member's active duty and was aggravated by the member's service in the line of duty while on active duty in the Armed Forces, and that may render the member medically unfit to perform the duties of the member's office, grade, rank, or rating

2. For a veteran, an injury or illness incurred or aggravated by the member's service in the line of duty on active duty in the Armed Forces, including the National Guard or Reserves, that manifested itself before or after the member became a veteran and that is at least one of the following:

    a. A continuation of a serious injury or illness incurred or aggravated while the veteran was a member of the Armed Forces and rendered the servicemember unable to perform the duties of the servicemember's office, grade, rank, or rating

    b. A physical or mental condition for which the veteran has received a U.S. Department of Veterans Affairs (VA) Service-Related Disability Rating of 50 percent or greater, based wholly or partly on that physical or mental condition

    c. A physical or mental condition that substantially impairs the veteran's ability to secure or follow a substantially gainful occupation by reason of one or more disabilities related to the servicemember's military service or that would do so but for treatment received by the veteran

    d. An injury, including a psychological injury, on the basis of which the veteran has been enrolled in the VA's Program of Comprehensive Assistance for Family Caregivers

The employee shall provide reasonable and practicable notice of the need for the leave in accordance with the procedures in the section entitled "Request for Leave" above.

An employee requesting leave to care for a covered servicemember with a serious injury or illness shall provide the Superintendent or designee with certification from an authorized health care provider of the servicemember that contains the information specified in 29 CFR 825.310.

The leave may be taken intermittently or on a reduced work or leave schedule when medically necessary. An employee taking military caregiver leave in combination with other family care and medical leaves pursuant to this administrative regulation shall be entitled to a combined total of 26 work weeks of leave during a single 12-month period. When both spouses work for the district and both wish to take such leave, the spouses are limited to a

maximum combined total of 26 work weeks during a single 12-month period. (29 USC 2612)

During the period of military caregiver leave, the district's rule regarding an employee's use of accrued vacation leave and other accrued paid or unpaid time off, as specified in the section "Use/Substitution of Paid Leave" above, shall apply.

Notifications

The Superintendent or designee shall provide the following notifications regarding state and federal law related to PDL or FMLA/CFRA leave:

1. General Notice: Information explaining the provisions of the Fair Employment and Housing Act/PDL and FMLA/CFRA and employees' rights and obligations shall be posted in a conspicuous place on district premises, or electronically, and shall be included in employee handbooks. (2 CCR 11049, 11095; 29 USC 2619)

2. The general notice shall also explain an employee's obligation to provide the Superintendent or designee with at least 30 days' notice of the need for the requested leave, when the need is reasonably foreseeable at least 30 days prior to the start of the leave. (2 CCR 11049, 11050, 11091)

3. Eligibility Notice: When an employee requests leave, including PDL, or when the Superintendent or designee acquires knowledge that an employee's leave may be for an FMLA/CFRA qualifying reason, the Superintendent or designee shall, within five business days, provide notification to the employee of eligibility to take such leave. (2 CCR 11049, 11091; 29 CFR 825.300)

4. Original Adopted Date: 11/01/2009 | **Last Revised Date:** 12/01/2014

Tuberculosis Tests

No applicant shall be initially employed by the district, or employed under contract, in a classified or certificated position unless he/she has submitted to a tuberculosis risk assessment within the past 60 days and, if tuberculosis risk factors are identified, has submitted to an intradermal or other approved tuberculosis examination to determine that he/she is free of infectious tuberculosis. If the results of the examination are positive, the applicant shall obtain an x-ray of the lungs. At his/her discretion, an applicant may choose to submit to the examination instead of the risk assessment. (Education Code 49406)

Prior to employment by the district, an applicant shall submit a certificate from an authorized health provider stating that the applicant was assessed and/or examined and found to be free of infectious tuberculosis. (Education Code 49406)

An applicant who was previously employed in another school district or private or parochial school shall be deemed to have fulfilled the tuberculosis testing requirement if he/she produces a certificate showing that he/she was found to be free of infectious tuberculosis within 60 days of initial hire or if his/her previous employer verifies that it has a certificate on file showing that the applicant is free from infectious tuberculosis. (Education Code 49406)

Thereafter, each district employee who was found free of infectious tuberculosis shall undergo a tuberculosis risk assessment, and an examination whenever risk factors are identified, at least once every four years or more often when required by the Board of Trustees upon recommendation of the county health officer. However, once an employee has a documented positive test for tuberculosis infection followed by an x-ray, he/she shall no longer be required to submit to the tuberculosis risk assessment but shall be referred to the county health officer within 30 days of the examination to determine the need for follow-up care. (Education Code 49406)

The cost of the pre-employment tuberculosis risk assessment and/or examination shall be paid by the applicant, unless the Board has determined that the district will reimburse an applicant who is subsequently hired by the district. The district shall reimburse the employee for the cost, if any, of subsequent tuberculosis risk assessments and examinations. The district may provide for the risk assessment and examination or may establish a reasonable fee for the examination that is reimbursable to the employee. (Education Code 49406)

Whenever the district contracts for the transportation of students, the contract shall require that all drivers who will be transporting students complete the tuberculosis risk assessment and, if indicated, the examination for infectious tuberculosis within 60 days of initial hire. (Education Code 49406)

The following applicants or employees shall be exempted from the requirement to submit to a tuberculosis risk assessment and/or examination: (Education Code 49406)

1. An applicant/employee who files an affidavit stating that he/she adheres to the faith or teachings of a well-recognized religious sect, denomination, or organization and, in accordance with its creed, tenets, or principles, depends for healing upon prayer in the practice of religion and that, to the best of his/her knowledge and belief, he/she is free from infectious tuberculosis

   Such an exemption shall be allowed only if the Board determines by resolution, after a hearing, that the health of students would not be jeopardized. If at any time there is probable cause to believe that the applicant/employee is afflicted with infectious tuberculosis, he/she may be excluded from service until the Board is satisfied that he/she is not afflicted.

2. A pregnant employee who has positive results on a tuberculosis skin test, in which case she shall be exempted from the requirement to follow up with an x-ray of the lungs for a period not to exceed 60 days after the end of the pregnancy

Examination of Certificated Employees for Disabling Diseases

To fill a certificated position with an applicant who has not previously been employed in a certificated position in California, or with a retirant who has not been employed as a retirant, the district shall have on file a medical certification indicating that the applicant or retirant is free from any disabling disease which would render him/her

unfit to instruct or associate with children. (Education Code 44839, 44839.5)

The certificate shall be completed and submitted directly to the district by an authorized health care provider. The medical examination referenced in the certificate must have been conducted within six months of the date that the certificate is filed. (Education Code 44839, 44839.5; 5 CCR 5503)

Applicants and retirants shall pay for the cost of obtaining the medical certification. (Education Code 44849, 44839.5)

Certificated employees and/or retirants shall be required to periodically undergo, at district expense, a medical examination pursuant to Education Code 44839 or 44839.5 to determine that they are free from any communicable disease making them unfit to instruct or associate with children. (Education Code 44839, 44839.5)

Mental Examination for Certificated Employees

Whenever the Board is considering the suspension or transfer of a certificated employee based on its reasonable belief that the employee is suffering from mental illness of such a degree as to render him/her incompetent to perform his/her duties, the employee shall be offered the opportunity of being examined by a three-member panel of psychiatrists and psychologists in accordance with Education Code 44942. The employee shall select the members of the panel from a list of psychiatrists and psychologists provided by the district. The examination shall be conducted, at district expense, within 15 days of the ordered suspension or transfer. Policy 4212.42: Drug And Alcohol Testing For School Bus Drivers

Status: DRAFT

Original Adopted Date: 02/01/1996 **| Last Revised Date:** 06/01/2021

The Board of Trustees desires to ensure that district-provided transportation is safe for students, staff, and the public. To that end, the Superintendent or designee shall establish a drug and alcohol testing program designed to prevent the operation of buses or the performance of other safety-sensitive functions by a driver who is under the influence of drugs or alcohol, including a driver of a school bus, student activity bus, or other school transportation vehicle or any other employee who holds a commercial driver's license which is necessary to perform duties related to district employment.

A driver shall not report for duty or remain on duty when the driver has used any drug listed in 21 CFR 1308.11. A driver is also prohibited from reporting for duty or remaining on duty when the driver has used any drug listed in 21 CFR 1308.12-1308.15, unless the driver is using the drug under the direction of a physician who has advised the driver that the substance will not adversely affect the driver's ability to safely operate a bus. (49 CFR 382.213)

In addition, a driver shall not consume alcohol while on duty and/or performing safety-sensitive functions, or for four hours prior to on-duty time. (49 CFR 382.205, 382.207)

Drivers shall submit to drug and alcohol testing as required under federal law and specified in the accompanying administrative regulation. The district's testing program for drivers shall include pre-employment drug testing and reasonable suspicion, random, post-accident, return-to-duty, and follow-up drug and alcohol testing of drivers. (49 USC 31306; 49 CFR 382.301-382.311)

The Board shall contract for testing services upon verifying that the personnel are appropriately qualified and/or certified and that testing procedures conform to federal regulations.

Except as otherwise provided by law, the Superintendent or designee shall not release individual test results or medical information about a driver to a third party without the driver's specific written consent. (49 CFR 40.321)

Consequences Based on Test Results

No driver shall be temporarily removed from the performance of safety-sensitive functions based only on a laboratory report of a confirmed positive test for a drug or drug metabolite before the certified medical review officer has completed verification of the test results, unless the district has obtained a waiver from the Federal Motor Carrier Safety Administration. (49 CFR 40.3, 40.21, 382.107, 382.119)

Any driver for whom the district receives a verified positive drug test result or who is found to have a blood alcohol concentration of 0.04 or higher shall be immediately removed from performing safety-sensitive functions in accordance with 49 CFR 40.23 and 382.211. An alcohol concentration between 0.02 and 0.04 requires temporary removal of the bus driver for a 24-hour period following the test. Any driver who refuses to take a required drug or alcohol test shall not be permitted to perform or continue to perform safety-sensitive functions. (49 CFR 40.23, 382.211)

Not later than five days after receiving notification of the test result or refusal to comply, the Superintendent or designee shall report any refusal, failure to comply, or positive test result to the California Department of Motor Vehicles (DMV) using a form approved by the DMV. (Vehicle Code 13376)

A driver who has violated federal drug and alcohol regulations may be subject to disciplinary action up to and including dismissal in accordance with law, administrative regulations, and the district's collective bargaining agreement.

Any driver provided with an opportunity to return to a safety-sensitive duty following a violation shall be evaluated by a qualified substance abuse professional and complete the evaluation recommendations before returning to such duty. (49 CFR 40.289)

If the substance abuse professional recommends that further and ongoing services are needed to assist the driver to maintain sobriety or abstinence from drug use, the Superintendent or designee shall require the driver to participate in the recommended services as part of a return-to-duty agreement and shall monitor the driver's compliance. Any drop from a rehabilitation or return-to-duty program or a subsequent positive test result shall be reported to the

DMV. (Vehicle Code 13376; 49 CFR 40.285, 40.287, 40.303, 382.605)

Voluntary Self-Identification

1. No adverse action shall be taken against the driver by the district.

2. The driver shall be allowed sufficient opportunity to seek evaluation, education, or treatment to establish control over the drug or alcohol problem.

3. The driver shall be permitted to participate in safety-sensitive functions only after:

    a. Successfully completing an education or treatment program, as determined by a drug and alcohol abuse evaluation expert, such as an employee assistance professional, substance abuse professional, or qualified drug and alcohol counselor

    b. Undergoing a return-to-duty test with a result indicating an alcohol concentration of less than 0.02 and/or a verified negative result for drug use

A driver who admits to alcohol or drug misuse shall not be subject to federal requirements related to referral, evaluation, and treatment, provided that the driver does not self-identify in order to avoid drug or alcohol testing, makes the admission prior to performing a safety-sensitive function, and does not perform a safety-sensitive function until the driver has been evaluated and has successfully completed education or treatment requirements in accordance with program guidelines. (49 CFR 382.121)

Regulation 4212.42: Drug And Alcohol Testing For School Bus Drivers

Status: DRAFT

Original Adopted Date: 08/01/2013 **| Last Revised Date:** 06/01/2021

Definitions

For purposes of drug testing required by the U.S. Department of Transportation (DOT), drugs include marijuana, cocaine, amphetamines, phencyclidine (PCP), and opioids. (49 CFR 40.3, 40.85, 382.107)

Alcohol concentration (or content) means the alcohol in a volume of breath expressed in terms of grams of alcohol per 210 liters of breath as indicated by an evidential breath test. (49 CFR 40.3, 382.107)

Safety-sensitive function means all time from the time the driver begins to work or is required to be in readiness to work until the time the driver is relieved from work and all responsibility for performing work. Safety-sensitive functions include, but are not limited to, all time driving or otherwise in the bus or other school transportation vehicle; waiting at a district facility to be dispatched; inspecting, servicing, or conditioning the vehicle or vehicle equipment; loading or unloading the vehicle; supervising or assisting in the loading or unloading of the vehicle; and repairing, obtaining assistance, or remaining in attendance upon a disabled vehicle. (49 CFR 382.107)

Designated Employer Representative

The Superintendent or designee shall identify a designated employer representative who is authorized to take immediate action to remove drivers from safety-sensitive functions and to make required decisions in the testing and evaluation processes. The designated employer representative shall also be responsible for receiving test results and other communications. The name and telephone number of the designated employer representative shall be provided to the testing contractor to contact about any problems or issues that may arise during the testing process. (49 CFR 40.35, 40.215)

Pre-employment Testing

When hiring a new driver, the Superintendent or designee shall, with the driver's written consent, conduct a pre-employment query using the Commercial Driver's License Drug and Alcohol Clearinghouse to obtain information about whether the driver has committed a violation of federal drug or alcohol regulations. (49 CFR 382.701)

The Superintendent or designee shall also, with the driver's consent, request the driver's past drug and alcohol testing record, as specified in 49 CFR 40.25 and 382.413, from any employer who has employed the driver at any time during the previous three years. To the extent practicable, the Superintendent or designee shall obtain and review such information before the driver first performs safety-sensitive functions. In addition, the Superintendent or designee shall ask the driver if there was a positive test, or a refusal to test, on any pre-employment drug or alcohol test that was administered during the past two years in the course of applying for another safety-sensitive transportation position that was not obtained. (49 CFR 40.25, 382.413)

The driver shall not be permitted to perform safety-sensitive functions if the driver refuses to provide consent to obtain the information from previous employers or from the Clearinghouse; the information from previous employers is not received within 30 days of the date on which the driver first performed safety-sensitive functions for the district; or the driver, the Clearinghouse, or a previous employer reports a violation of a drug or alcohol regulation without subsequent completion of the return-to-duty process. (49 CFR 40.25, 382.413, 382.701, 382.703)

A driver whom the district intends to hire or use shall undergo testing for drugs and receive a verified negative test result prior to the first time the driver performs safety-sensitive functions for the district. This testing requirement may be waived if all of the following conditions exist: (49 CFR 382.301)

1. The driver has participated in a qualified drug testing program within the previous 30 days.

2. While participating in the program, the driver either was tested within the past six months from the date of application or participated in a random drug testing program for the previous 12 months from the date of application.

3. No prior employer of the driver of whom the district has knowledge has records of the driver's violation of

federal drug testing regulations within the previous six months.

The Superintendent or designee shall contact the testing program(s) in which the driver has participated and obtain information about the program and the driver's participation as specified in 49 CFR 382.301.

In addition, the Superintendent or designee shall require the driver to undergo pre-employment alcohol testing in accordance with the procedures in 49 CFR 40.1-40.605 and to receive a test result indicating an alcohol concentration of less than 0.04. (49 CFR 382.301)

Post-Accident Testing

As soon as practicable following an accident involving a school bus or student activity bus, the Superintendent or designee shall ensure that the driver involved is tested for alcohol and/or drugs under either of the following conditions: (49 CFR 382.303)

1. The accident involved loss of human life.

2. The driver receives a citation for a moving traffic violation within eight hours of the accident and the accident involved bodily injury to a person who required immediate medical treatment away from the scene of the accident and/or disabling damage to one or more vehicles requiring towing.

The Superintendent or designee shall attempt to administer a required alcohol test up to eight hours following the accident and/or a drug test up to 32 hours following the accident. The results of an alcohol or drug test conducted by federal, state, or local officials having independent authority for the test shall be considered to meet this requirement. If the alcohol test is not administered within two hours following the accident, or the test for drugs is not administered within 32 hours following the accident, the Superintendent or designee shall make a record stating the reasons the test was not promptly administered. (49 CFR 382.303)

No driver required to take a post-accident alcohol test pursuant to 49 CFR 382.303 shall use alcohol for eight hours following the accident or until the driver undergoes a post-accident alcohol test, whichever occurs first. (49 CFR 382.209)

Random Testing

The Superintendent or designee shall ensure that random, unannounced drug and alcohol tests of bus drivers are conducted on testing dates reasonably spread throughout the year.

Such tests shall be unannounced and conducted during, immediately before, or immediately after the performance of safety-sensitive functions. (49 CFR 382.305)

The Superintendent or designee shall ensure that the percentage of district drivers randomly tested for drugs and alcohol meets or exceeds the minimum annual percentage rates specified in 49 CFR 382.305 or subsequently published in the Federal Register.

Each driver selected for random testing shall have an equal chance of being tested each time selections are made. (49 CFR 382.305)

Each driver who is selected for testing shall proceed to the test site immediately or, if performing a safety-sensitive function other than driving a bus, then as soon as possible after ceasing that function. (49 CFR 382.305)

Reasonable Suspicion Testing

A driver shall be required to submit to a drug or alcohol test whenever the Superintendent or designee has reasonable suspicion that the driver has violated the prohibitions against the use of drugs or alcohol. Such reasonable suspicion shall be based on specific, contemporaneous, articulable observations, conducted during, immediately before, or immediately after the performance of safety-sensitive functions, concerning the driver's appearance, behavior, speech, and/or body odors. Reasonable suspicion of drug use may also include indications of the chronic and withdrawal effects of drugs. (49 CFR 382.307)

The person who makes the required observations for reasonable suspicion testing for drugs or alcohol shall be trained in accordance with 49 CFR 382.603. The person who makes the determination that reasonable suspicion

exists to conduct an alcohol test shall not be the same person who conducts the alcohol test. (49 CFR 382.307)

Within 24 hours of the observed behavior or before the results of the drug or alcohol test are released, whichever is earlier, a written record of the observations leading to a reasonable suspicion test shall be made and signed by the person who made the observations. (49 CFR 382.307)

An alcohol test required as a result of reasonable suspicion shall be administered within eight hours following the determination of reasonable suspicion. If the test is not administered within two hours, the Superintendent or designee shall prepare and maintain on file a record stating the reasons the test was not promptly administered. (49 CFR 382.307)

In the absence of a reasonable suspicion alcohol test, the district shall take no action against a driver based solely on the driver's behavior and appearance, except that the driver shall not be allowed to report for or remain on safety-sensitive functions until an alcohol test is administered and the results show a concentration less than 0.02 or 24 hours have elapsed following the determination of reasonable suspicion. (49 CFR 382.307)

Return-to-Duty Testing

The Superintendent or designee may permit a driver who has violated federal drug or alcohol regulations to return to safety-sensitive functions after the driver has successfully complied with the education and treatment services prescribed by a substance abuse professional and has taken a return-to-duty drug or alcohol test. The driver shall not resume performance of safety-sensitive functions unless the drug test shows a negative result and/or the alcohol test shows a concentration of less than 0.02. (49 CFR 40.305, 382.309)

Follow-Up Testing

Upon receiving a written follow-up testing plan from a substance abuse professional, the Superintendent or designee shall determine the actual dates for follow-up testing consistent with those recommendations and shall ensure that such tests are unannounced and follow no discernable pattern as to their timing. No additional tests beyond those included in the plan shall be imposed by the district. (49 CFR 40.307-40.309, 382.111)

Mandatory Reporting and Annual Queries to the Drug and Alcohol Clearinghouse

The Superintendent or designee shall report to the Clearinghouse any violation of federal drug and alcohol regulations, any refusal to test, and other required information by the close of the third business day following the date on which the information was obtained. (49 CFR 382.705)

The Superintendent or designee shall conduct a query using the Clearinghouse at least once a year for all drivers to determine whether information exists in the Clearinghouse about the drivers. (49 CFR 382.701)

In lieu of a full query, the Superintendent or designee may obtain the individual driver's consent to conduct a limited query that is effective for more than one year and informs the district about whether there is information about the driver in the Clearinghouse without releasing that information to the district. If the limited query shows that information exists in the Clearinghouse about the individual driver, the Superintendent or designee shall conduct a full query within 24 hours of conducting the limited query. If a full query is not conducted within 24 hours, the driver may not perform any safety-sensitive function until the results from a full query confirm that the driver may perform such functions. (49 CFR 382.701)

A driver may not perform any safety-sensitive function if the results of a Clearinghouse query demonstrate that the driver has committed a violation of federal drug or alcohol regulations. (49 CFR 382.701)

Notifications

The Superintendent or designee shall provide each driver with materials explaining the federal regulations and the district's policy and procedure related to drug and alcohol testing and shall notify representatives of employee organizations of the availability of this information. This information shall include a detailed discussion of at least the following: (49 CFR 382.113, 382.303, 382.601)

1. The identity of the person designated by the district to answer driver questions about the materials

2. The categories of drivers who are subject to drug and alcohol testing

3. Sufficient information about the safety-sensitive functions performed by those drivers to make clear what period of the workday the driver is required to be in compliance

4. Specific information concerning prohibited driver conduct

5. The circumstances under which a driver will be tested for drugs and/or alcohol, including post-accident testing

6. The procedures that will be used to test for the presence of drugs and alcohol, protect the driver and the integrity of the testing processes, safeguard the validity of the test results, and ensure that those results are attributed to the correct driver

7. The requirement that a driver submit to drug and alcohol tests

8. An explanation of what constitutes a refusal to submit to a drug or alcohol test and the attendant consequences

9. The consequences for drivers found to have violated the prohibitions against drug or alcohol use, including the circumstances under which drivers will be removed immediately from safety-sensitive functions and the requirements for education, treatment, and return-to-duty testing

10. The consequences for drivers found to have a blood alcohol concentration between 0.02 and 0.04

11. Information concerning the effects of drug and alcohol use on an individual's health, work, and personal life; signs and symptoms of a drug or alcohol problem (the driver's or a co-worker's); and available methods of intervening when a drug or alcohol problem is suspected, including confrontation, referral to any employee assistance program, and/or referral to management

12. The requirement that personal information collected and maintained pursuant to 49 CFR 382 shall be reported to the Clearinghouse

Each driver shall sign a statement certifying receipt of a copy of the above materials. The Superintendent or designee shall maintain the original of the signed certificate and may provide a copy of the certificate to the driver. (49 CFR 382.601)

In addition, prior to administering each alcohol or drug test, the driver shall be notified that the test is required pursuant to Title 49, Part 382, of the Code of Federal Regulations. (49 CFR 382.113)

The driver shall be notified of the results of drug and alcohol tests in accordance with 49 CFR 382.411.

Records

The Superintendent or designee shall maintain records of the district's drug and alcohol testing program in accordance with 49 CFR 40.333 and 382.401. Such records shall be maintained in a secure location with controlled access and shall be disclosed only in accordance with 49 CFR 382.405.

Pre-Employment Record Check

The Superintendent or designee shall require each person to be employed by the district to submit fingerprints electronically through the Live Scan system so that a criminal record check may be conducted by the Department of Justice (DOJ). The Superintendent or designee shall provide the applicant with a Live Scan request form and a list of nearby Live Scan locations.

When a person is applying for a classified position, the Superintendent or designee shall request that the DOJ also obtain a criminal record check through the Federal Bureau of Investigation whenever the applicant meets one of the following conditions: (Education Code 45125)

1. The applicant has not resided in California for at least one year immediately preceding the application for employment.

2. The applicant has resided in California for more than one year, but less than seven years, and the DOJ has ascertained that the person was convicted of a sex offense where the victim was a minor or a drug offense where an element of the offense is either the distribution to or the use of a controlled substance by a minor.

Subsequent Arrest Notification

probationary year shall be terminated automatically unless the employee challenges the DOJ record and the DOJ withdraws its notification in writing. Upon receipt of the written withdrawal of notification by the DOJ, the Superintendent or designee shall immediately reinstate the employee with full restoration of salary and benefits for the period of time from the suspension without pay to the reinstatement if the employee is still employed by the district. (Penal Code 11102.2)

An employee designated as custodian of records shall receive a criminal background check clearance from the DOJ prior to serving in that capacity. (Penal Code 11102.2)

The custodian of records shall sign and return to the DOJ the Employee Statement Form acknowledging an understanding of the laws prohibiting misuse of CORI. In addition, the custodian of records shall ensure that any individual with access to CORI has on file a signed Employee Statement Form.

To ensure its confidentiality, CORI shall be accessible only to the custodian of records and shall be kept in a locked file separate from other files. CORI shall be used only for the purpose for which it is requested and its contents shall not be disclosed or reproduced. (Education Code 44830.1, 45125)

An employee may initiate a written reaction or response to his/her performance evaluation. The response shall be permanently attached to the evaluation and placed in the employee's personnel file.

Policy 4212.8: Employment Of Relatives

Status: DRAFT

Original Adopted Date: 02/01/1986 **| Last Revised Date:** 03/01/2008

The Board of Trustees desires to maximize staff and community confidence in district hiring, promotion, and other employment decisions by promoting practices that are free of conflicts of interest or the appearance of impropriety.

The Board prohibits the appointment of any person to a position for which his/her relative maintains management, supervisory, evaluation, or promotion responsibilities and prohibits an employee from participating in any decision that singularly applies to any of his/her relatives.

For purposes of this policy, relative includes the individual's spouse, domestic partner, parents, grandparents, great-grandparents, children, grandchildren, great-grandchildren, brothers, sisters, aunts, uncles, nieces, nephews, and the similar family of the individual's spouse or domestic partner.

In addition, the Superintendent or designee may determine, on a case-by-case basis, whether to appoint a person to a position in the same department or facility as an employee with whom he/she maintains a personal relationship when that relationship has the potential to create (1) an adverse impact on supervision, safety, security, or morale of other district employees or (2) a conflict of interest for the individuals involved which is greater because of the their relationship than it would be for another person.

An employee shall notify his/her supervisor within 30 days of any change in his/her circumstances that may constitute a violation of this policy.

Policy 4213.4: Temporary Modified/Light-Duty Assignment

Status: DRAFT

Original Adopted Date: 10/01/1995 **| Last Revised Date:** 07/01/2007

The Board of Trustees recognizes that, when employees have temporarily disabling medical conditions, temporary modified or light-duty assignments can allow the district to continue to use their valuable knowledge, skills, and abilities while minimizing time away from work. Temporary modified/light-duty assignments may also serve to facilitate the employee's transition back to his/her regular duties or full-time work.

Any employee may request a modified or light-duty assignment when he/she has a temporary medical condition which prevents the performance of the essential functions of his/her current assignment or position. The Superintendent or designee shall determine, on a case-by-case basis, whether a suitable temporary position currently exists to accommodate the physical restrictions specified by the employee's medical provider.

An employee's initial assignment to a temporary modified or light-duty position shall be for a limited duration, not to exceed 30 days. At the end of the initial assignment, the employee may request that the Superintendent or designee extend the assignment. When requesting any such extension, the employee shall submit documentation from his/her medical provider verifying that the employee is still temporarily disabled and is not medically able to return to his/her regular assignment. Temporary assignments generally shall not exceed 90 days, but may be extended at the discretion of the Superintendent or designee for an additional 90 days upon verification by the employee's medical provider that such an extension will allow the employee to return to unrestricted regular duties.

An employee who rejects a temporary modified/light-duty assignment may be subject to a loss of workers' compensation benefits in accordance with district's insurance policy.

Policy 4213.5: Working Remotely

Status: DRAFT

Original Adopted Date: 04/01/2020

The Board of Trustees recognizes that working remotely at home or at another alternative location may be necessary at times when widespread illness, natural disaster, or other emergency condition makes the school or worksite unsafe or otherwise interrupts the district's ability to effectively conduct operations at the school or worksite. A full-time, part-time, or short-term remote work arrangement may also be granted by the Superintendent or designee to an individual employee, upon request, provided that the position is suitable for remote work, the employee has consistently demonstrated the ability to work independently and meet performance expectations, and the work arrangement does not hinder district operations.

The opportunity to work remotely shall be entirely at the district's discretion, and no grievance or appeal right may arise from district denial of any employee request for remote work.

Employees approved for remote work shall comply with all district policies, administrative regulations, work schedules, and job assignments. Except when specifically agreed, approval of remote work shall not change the compensation, benefits, or other terms and conditions of employment of an employee.

Unless otherwise approved in advance by the Superintendent or designee, employees working remotely shall do so within regular work hours established for the position. Employees are entitled and expected to take appropriate, uninterrupted meal and rest breaks, and shall keep accurate records of the hours they work. Employees shall notify their supervisor when unable to perform work assignments due to illness, equipment failure, or other unforeseen circumstances.

Employees working remotely are expected to conduct their work in a location that is safe and free of obstructions, hazards, and distractions. Such employees shall report to their supervisor any serious injury or illness occurring in the home workspace or in connection with their employment as soon as practically possible in accordance with Board policy.

Work done at a remote work location is considered official public business. District records and communications shall be retained and safeguarded against damage or loss, and shall be kept confidential or made accessible to the public in accordance with law.

Any employee working remotely shall be available during work hours to the employee's supervisor and other staff, students, parents/guardians, and members of the public, as appropriate, via email, phone, or other means. Lack of responsiveness on the part of the employee may result in discipline and/or termination of remote work responsibilities. Employees shall be required to attend virtual or in-person meetings when directed by their supervisor.

Employee productivity shall be evaluated on the basis of time spent on tasks and projects, task completion, and quality of job performance in the same manner as all employees in the same position at the assigned school or office.

Remote work arrangements may be discontinued at any time at the discretion of the Superintendent or designee.

Policy 4215: Evaluation/Supervision

Status: DRAFT

Original Adopted Date: 01/01/1985 **| Last Revised Date:** 03/01/2006

The Board of Trustees recognizes that appropriate supervision and regular, comprehensive evaluations can help employees to continually improve in the performance of their responsibilities. Evaluations shall be made in accordance with procedures specified in negotiated contracts and based on job-specific standards of performance.

The Board expects supervisors to gauge employees' on-the-job effectiveness and skills in a fair, objective, and consistent manner. Evaluations shall address the competence and care with which the employee executes his/her assigned responsibilities. As appropriate, evaluations also may address the extent to which the employee works cooperatively with others and observes school or district rules and regulations.

The Superintendent or designee shall ensure that evaluation ratings have uniform meaning throughout the district.

Evaluations shall be used to recognize the exemplary skills and accomplishments of staff and to identify areas needing improvement. When the evaluation indicates areas needing improvement, the Board expects employees to accept responsibility and take initiative to improve their performance. The Superintendent or designee shall assist employees in obtaining needed job skills.

The evaluation shall be dated and signed by both the employee and the supervisor.

The Superintendent or designee shall ensure that classified employees have access to rules and procedures related to performance evaluations.

Policy 4216: Probationary/Permanent Status

Status: DRAFT

Original Adopted Date: 06/01/1996 **| Last Revised Date:** 09/01/2022

The Board of Trustees desires to employ and retain highly qualified classified personnel to support the district's educational program and operations. Newly hired classified employees shall serve a probationary period during which the Board shall determine their suitability for long-term district employment.

A probationary employee who has been employed by the district for six months or 130 days of paid service, whichever is longer, shall be classified as a permanent employee of the district. (Education Code 45113, 45301)

However, in order to receive permanent classified service status, a full-time district police officer or public safety dispatcher who operates a dispatch center certified by the Commission on Peace Officer Standards and Training shall serve in a probationary status for not less than one year from the date of appointment. (Education Code 45113, 45301)

Probationary employees shall receive written performance evaluations by their supervisor during the probationary period. These evaluations shall indicate whether the evaluator is satisfied or not satisfied with the employee's ability, performance, and compatibility with the job.

The district may, without cause, dismiss a new employee during the probationary period.

Permanent employees promoted to a higher classification shall be considered probationary in their new position until they have satisfactorily completed the probationary period.

A permanent employee who accepts a promotion and fails to complete the probationary period for that promotional position shall be employed in the classification from which the employee was promoted. (Education Code 45113, 45301)

This policy shall be made available to classified employees and the public. (Education Code 45113)

Policy 4217.2: Resignation

Status: DRAFT

Original Adopted Date: 10/01/1996 **| Last Revised Date:** 07/01/2001

Any district employee who desires to resign his/her position shall submit, in writing, a letter of resignation which indicates the date which the employee intends as his/her last day at work. The Board of Trustees encourages employees to provide advance notice that is appropriate for the position they hold.

The Board authorizes the Superintendent or designee to accept an employee's written resignation and to set its effective date. Once the Superintendent or designee has accepted and set an effective date for this resignation, the resignation may not thereafter be withdrawn by the employee.

The effective date of the resignation shall be a date not later than the close of the school year during which the resignation is received. However, an employee and the Board may agree that a resignation will be accepted at a mutually agreed upon date not later than two years beyond the close of the school year during which the resignation is received by the Board. (Education Code 44930, 45201)

Regulation 4217.3: Layoff/Rehire

Status: DRAFT

Original Adopted Date: 11/01/2003 **| Last Revised Date:** 09/01/2023

Classified employees shall be subject to layoff for lack of work or lack of funds. (Education Code 45114, 45308)

A classified employee shall not be laid off if a short-term employee is retained to render a service that the classified employee is qualified to render. (Education Code 45117)

Order of Layoff Within a Classification/Determination of Seniority

Within each class, the order of layoff shall be determined by length of service. (Education Code 45114, 45308)

Length of service shall be determined by the date of hire. The employee who has been employed the shortest time in the class, plus higher classes, by the district shall be laid off first. (Education Code 45308)

For an employee in a "restricted position" under Education Code 45105 or 45259, the original date of employment in the restricted position shall be used to determine the length of service, provided the employee has completed six months of satisfactory service and has successfully passed the qualifying examination required for service in the class. (Education Code 45105)

Notice of Layoff and Hearing Rights

Whenever a permanent classified employee is to be laid off for lack of work or lack of funds, the Superintendent or designee shall, no later than March 15 and before the employee is given formal notice by the Board of Trustees, give to the employee written notice of the recommendation, the reasons that the employee's services will not be required for the ensuing year, any displacement rights, reemployment rights, and the employee's right to a hearing. The district shall adhere to the notice, hearing, and layoff procedures in Education Code 45117, Government Code 11503 and 11505, and other applicable provisions of law. (Education Code 45117)

An employee who is so notified may request a hearing to determine if there is cause for not reemploying the employee for the ensuing year. The request shall be in writing and shall be delivered to the person who sent notice to the employee, on or before March 15 but not less than seven days after the date the notice is served on the employee. Failure of an employee to request a hearing on or before the date specified shall constitute a waiver of the employee's right to a hearing. (Education Code 45117)

The Superintendent or designee shall serve an employee who timely requests a hearing with District Statement of Reduction in Force documents. The employee has five calendar days from service of the documents to timely file a notice of participation with the district. The parties are entitled to discovery, if requested within 15 days of service. (Education Code 45117)

If a hearing is requested by a permanent classified employee, the proceeding shall be conducted and a decision made by an administrative law judge in accordance with Government Code 11500-11529. At the hearing, the employee may be represented by an attorney or by a nonattorney representative of the employee organization designated as the exclusive representative for classified employees. The Board shall make a final decision regarding the sufficiency of the cause and disposition of the layoff upon receipt of the administrative law judge's proposed decision. None of the findings, recommendations, or determinations in the proposed decision prepared by the administrative law judge shall be binding on the Board. (Education Code 45117)

Following the Board's decision, the Superintendent or designee shall give final notice of termination to the affected employee(s) before May 15 unless a continuance was granted after a request for hearing was made, in which case such date may be extended by the number of days of the continuance. (Education Code 45117)

If during the time between five days after the enactment of an annual Budget Act and August 15 of the fiscal year to which the Budget Act applies, the Board determines that the district's local control funding formula apportionment per unit of ADA for that fiscal year has not increased by at least two percent, and that it is therefore necessary to decrease the number of classified employees due to lack of work or lack of funds, the Board may issue a District Statement of Reduction in Force to those employees in accordance with a schedule of notice and hearing adopted by the Board, and layoff proceedings shall be carried out as required by law. (Education Code 45117)

When classified positions are eliminated as a result of the expiration of a specifically funded program, the district shall give written notice to the affected employee(s) not less than 60 days prior to the effective date of the layoff informing the employee(s) of the layoff date, any displacement rights, and employment rights. (Education Code 45117)

The district is not required to provide a layoff notice to any person hired as a short-term employee for a period not exceeding 60 days whose service may not be extended or renewed. (Education Code 45117)

Additionally, the district may release probationary classified employees without notice or hearing for reasons other than lack of work or lack of funds. (Education Code 45117)

Reemployment

Classified employees laid off because of lack of work or lack of funds shall be eligible for reemployment for a period of 39 months and shall be reemployed in preference to new applicants. Reemployment shall be in order of seniority. Persons so laid off also have the right to apply and establish their qualification for vacant promotional positions within the district during the 39-month period. (Education Code 45114, 45298, 45308)

When a vacancy occurs, the district shall give the employee with the most seniority an opportunity to accept or reject the position, by first calling the employee at the employee's last known telephone number to notify the employee of the vacancy and then sending written notice by certified and standard mail to the employee's last known address. The employee shall advise the district of the decision by any means no later than 10 calendar days from the date the notice was sent. If the employee accepts, the employee shall report to work no later than two calendar weeks from the vacancy notification date or on a later date specified by the district.

In order to be reemployed, the employee must be capable of performing the essential duties of the job with or without reasonable accommodations. When an otherwise eligible employee is unable to perform the essential duties of the job, the employee shall be kept on the reemployment list until another opportunity becomes available or the period of reemployment eligibility expires, whichever occurs first.

Upon rejecting two offers of reemployment, the employee's name shall be removed from the reemployment list and the employee will forfeit all reemployment rights to which the employee would otherwise be entitled.

When an employee is notified of a vacancy and fails to respond or report to work within time limits specified by district procedures, the employee's name shall be removed from the reemployment list and all reemployment rights to which the employee would otherwise be entitled shall be forfeited.

If an employee is reemployed in a new position and fails to complete the probationary period in the new position, the employee shall be returned to the reemployment list for the remainder of the 39-month period. The remaining time period shall be calculated as the time remaining in the 39-month period as of the date of reemployment. (Education Code 45114, 45298)

Reinstatement of Benefits

When a laid-off employee is reemployed, all accumulated sick leave credit shall be restored.

A laid-off permanent employee shall be reemployed with all rights and benefits accorded at the time of layoff.

A laid-off probationary employee shall be reemployed as a probationary employee, and the previous time served toward the completion of the required probationary period shall be counted. The employee shall also be reemployed with all rights and benefits accorded to a probationary employee at the time of layoff.

A laid-off employee, when reemployed, shall be placed on the salary step held at the time of layoff. An employee who was bumped into a lower class shall, when reinstated to the previous class, be placed on the salary step to which the employee would have progressed had the employee remained there. An adjusted anniversary date shall be established for step increment purposes so as to reflect the actual amount of time served in the district.

Voluntary Demotion or Reduction of Hours

Classified employees who take voluntary demotion or voluntary reduction in assigned time in lieu of layoff, or in order to remain in their present position rather than be reclassified or reassigned, shall be granted the same rights as

employees who are laid off. In addition, such employees shall retain eligibility to be considered for reemployment in their previously held class or position with increased assigned time, for an additional period of time up to 24 months as determined by the Board on a class-by-class basis, provided that the same test of fitness under which they qualified for appointment to that class shall still apply. (Education Code 45114, 45298)

Employees who take voluntary demotion or voluntary reduction in assigned time in lieu of layoff shall have the option of returning to a position in their former class or to positions with increased assigned time as vacancies become available and without limitation of time. If there is a valid reemployment list, they shall be ranked on that list in accordance with their proper seniority. (Education Code 45114, 45298)

Regulation 4217.5: Termination Agreements

Status: DRAFT

Original Adopted Date: 06/01/1993 **| Last Revised Date:** 10/01/1997

If a termination settlement agreement has been made with an employee, the Superintendent or designee shall inform prospective employers, upon request for an employment reference, that an agreement exists and that he/she may only provide information as provided for in the agreement.

Cash settlements made upon the termination of a contract shall never exceed an amount equal to the employee's monthly salary multiplied by the number of months, up to 18, in the unexpired term of the contract. This amount is a maximum ceiling, not to be construed as a target amount for settlement agreements. (Government Code 53260)

Settlement agreements shall not include noncash items other than health benefits, which the district may offer to continue for the unexpired term up to 18 months or until the employee finds other employment, whichever comes first. (Government Code 53261)

Copies of settlement agreements with a superintendent, deputy superintendent, assistant superintendent, associate superintendent or other similar chief administrative officer or chief executive officer shall be made available to the public upon request. (Government Code 53262)

Policy 4218: Dismissal/Suspension/Disciplinary Action

Status: DRAFT

Original Adopted Date: 07/01/2019 **| Last Revised Date:** 03/01/2024

The Board of Trustees expects all employees to perform their jobs satisfactorily, to exhibit professional and appropriate conduct, and serve as positive role models both at school and in the community. A classified employee may be disciplined for unprofessional conduct or unsatisfactory performance in accordance with law or any applicable collective bargaining agreement, Board policy, or administrative regulation.

Disciplinary actions shall be based on the particular facts and circumstances involved and the severity of the employee's conduct or performance.

The Superintendent or designee shall ensure that disciplinary actions are taken in a consistent, nondiscriminatory manner. In addition, an employee shall not be suspended, disciplined, reassigned, transferred, dismissed, or otherwise retaliated against solely for engaging in protected activities, or for acting to protect a student engaged in exercising any free speech or press right authorized by, or for refusing to infringe upon a student's conduct protected pursuant to, Education Code 48907 or 48950.

Disciplinary actions may include, but are not limited to, verbal and written warnings, involuntary reassignment, demotion, suspension or leave without pay, reduction of wages, or dismissal.

A probationary classified employee may be dismissed without cause anytime before the probationary period expires.

Permanent classified employees shall be subject to disciplinary action only for cause as specified in the accompanying administrative regulation. (Education Code 45113)

Procedures for Serious Disciplinary Proceedings

The Superintendent or designee shall develop disciplinary procedures for use when dismissal, suspension, demotion, involuntary reassignment, or other serious disciplinary action is contemplated against an employee. The procedures for such discipline shall include an opportunity for an employee for whom any such disciplinary action is recommended to meet with, or respond in writing to, a designated district official ("Skelly officer") who will determine whether the recommended discipline should proceed further or be modified or withdrawn.

After meeting with the employee or considering the employee's written response, if the Skelly officer determines that the recommended discipline should proceed, the Superintendent or designee shall send the employee a notice of the recommended disciplinary action, a statement of charges, and the results of the Skelly review process. The notice shall include a statement advising the employee of the right to request a Board hearing on the matter. (Education Code 45113, 45116)

If the employee fails to request a hearing within the time specified in the notice, the employee is deemed to have waived the right to do so, and the Board may order the recommended disciplinary action into effect immediately.

If a timely request is submitted, a hearing shall be conducted by the Board or by a third-party hearing officer, in accordance with law. (Education Code 45113, 45312)

A classified employee who timely requests a hearing may only be suspended, demoted, or dismissed pending the outcome of the hearing in accordance with Education Code 45113 and as specified in the accompanying administrative regulation.

The hearing shall be held at the earliest convenient date, taking into consideration the established schedule of the Board and the availability of legal counsel and witnesses. The employee shall be notified of the time and place of the hearing.

The hearing shall be held in closed session unless the employee requests that the matter be heard in an open session meeting. (Government Code 54957)

The employee shall be entitled to appear personally, produce evidence, and be represented by legal counsel.

The Board may use the services of its legal counsel in ruling upon procedural questions, objections to evidence, and

issues of law. The Board may review and consider the records of any prior personnel action proceedings against the employee in which disciplinary action was ultimately sustained, and any records contained in the employee's personnel files and introduced into evidence at the hearing. The Board shall not be bound by rules of evidence used in California courts. Informality in any such hearing shall not invalidate any order or decision made by the Board.

At any time before a matter is submitted to the Board for decision, the Superintendent or designee may, with the consent of the Board, serve on the employee and file with the Board an amended or supplemental recommendation of disciplinary action. If the amended or supplemental recommendation includes new causes or allegations, the employee shall be afforded a reasonable opportunity to prepare a defense. Any new causes or allegations shall be deemed controverted and any objections to the amended or supplemental causes or allegations may be made orally at the hearing and shall be noted on the record.

Following the hearing or, if the employee has not requested a hearing, after reviewing the Superintendent or designee's recommendation for disciplinary action, the Board shall affirm, modify, or reject the recommended disciplinary action. The decision of the Board shall be in writing and shall contain findings of fact and the disciplinary action approved, if any. The decision of the Board shall be final.

Within 10 working days of the Board's final decision, a copy of the decision shall be delivered to the employee and/or designated representative personally or by registered mail.

Except for an allegation of egregious misconduct in which a minor is involved, the Board may delegate the authority to determine whether sufficient cause exists for disciplinary action to an impartial third-party hearing officer. When a matter is heard by a third-party hearing officer, the Board shall review the determination and adopt or reject the recommended decision. (Education Code 45113)

When any matter involves an allegation of egregious misconduct as defined in Education Code 44932 and involves a witness who is a minor, the matter shall be referred to an administrative law judge to determine whether sufficient cause exists for disciplinary action against the employee. In such cases, the ruling of the administrative law judge shall be binding on the district and the employee. (Education Code 45113)

Compulsory Leave of Absence

Upon being informed that a classified employee has been charged with a mandatory leave of absence offense, the Superintendent or designee shall immediately place the employee on a compulsory leave of absence. (Education Code 44940, 44940.5, 45304)

Regulation 4218: Dismissal/Suspension/Disciplinary Action

7. Unprofessional conduct

10. Insubordination
11. Use of alcohol or a controlled substance while on duty or in such close time proximity thereto as to affect the employee's performance
12. Destruction or misuse of district property

14. A physical or mental condition which precludes the employee from the proper performance of duties and responsibilities as determined by competent medical authority, except as otherwise provided by a contract or by law
15. Retaliation against any person who, in good faith, reports, discloses, divulges, or otherwise brings to the attention of any appropriate authority any information relative to an actual or suspected violation of state or federal law occurring on or directly related to the job
16. Violation of Education Code 45303 or Government Code 1028 prohibiting the advocacy or teaching of communism
17. Any other misconduct which is of such nature that it causes discredit or injury to the district or the employee's position

(Education Code 45113)

Initiation and Notification of Charges

The Superintendent or designee shall provide notice to the employee of a recommendation for discipline, which includes the charges and materials upon which the recommendation is based. The notification shall identify an impartial district official ("Skelly officer") with whom the employee may meet at a specified time and place or to whom the employee may provide a written response to the recommendation of discipline. After meeting with the employee or considering any response from the employee, the Skelly officer shall recommend to the Superintendent or designee whether to proceed with the recommendation for discipline.

The Superintendent or designee shall file any final recommendation for disciplinary action in writing with the Board of Trustees. A copy of the recommendation shall be served upon the employee either personally or by registered or certified mail, return receipt requested, at the employee's last known address.

The notice shall, in ordinary and concise language, inform the employee of the specific charge(s) or cause(s) for the disciplinary action, the specific acts and omissions upon which the action is based, and, if applicable, the district rule or regulation that the employee has allegedly violated. In addition, the notice shall include the employee's right to a hearing on those charges, the time within which the hearing may be requested, which shall be not less than five days after service of the notice to the employee, and a card or paper which the employee may sign and file to deny the charges and request a hearing. (Education Code 45113, 45116)

Request for Board Hearing

Within the time specified in the notice of the recommendation of disciplinary action, the employee may request a hearing on the charges by signing and filing the card or paper included with the notice. (Education Code 45113)

Any other written document signed and appropriately filed within the specified time limit by the employee shall constitute sufficient notice of the request for a hearing. The request shall be delivered to the office of the Superintendent or designee during normal work hours of that office. If mailed to the office of the Superintendent or designee, it must be received or postmarked no later than the time limit specified by the district. In cases where an order of suspension without pay has been issued in conjunction with a recommendation of dismissal, any request for a hearing on the dismissal shall also constitute a request to hear the suspension order, and the necessity of the suspension order shall be an issue in the hearing.

Employment Status Pending a Disciplinary Hearing

A classified employee against whom a recommendation for disciplinary action has been issued may remain on active duty or may be placed on paid leave pending a hearing on the charges. The employee shall not be suspended without pay, suspended or demoted with a reduction in pay, or dismissed pending the outcome of a timely requested hearing, except as specified below. (Education Code 45113)

However, the disciplinary action may be imposed prior to the decision if the Board, or an impartial third-party hearing officer provided pursuant to a collective bargaining agreement, finds by a preponderance of the evidence that at the time discipline was imposed, the employee (1) engaged in criminal misconduct, (2) engaged in misconduct that presents a risk of harm to students, staff, or property, or (3) committed habitual violations of the district's policies or regulations. Such finding(s) must be made at the conclusion of the Skelly review process. (Education Code 45113)

In such cases where the disciplinary action is imposed prior to the decision, the employee shall be given written notice of the disciplinary action and the findings made at the conclusion of the Skelly review process. Such written notice shall be served upon the employee personally.

In addition, the district may cease paying the employee if a decision has not been rendered by an impartial third-party hearing officer, pursuant to a collective bargaining agreement, or the Board within 30 days of the date the hearing was requested. (Education Code 45113)

Compulsory Leave of Absence

Upon being informed that a classified employee has been charged with a "mandatory leave of absence offense," the Superintendent or designee shall immediately place the employee on a leave of absence. A mandatory leave of absence offense includes: (Education Code 44940, 45304)

1. Any sex offense as defined in Education Code 44010

2. Violation or attempted violation of Penal Code 187, prohibiting murder or attempted murder

3. Any offense involving the unlawful sale, use, or exchange to minors of controlled substances as listed in Health and Safety Code 11054, 11055, and 11056

The Superintendent or designee may place on an immediate compulsory leave of absence a classified employee who is charged with an "optional leave of absence offense," defined as a controlled substance offense specified in Education Code 44011 and Health and Safety Code 11357-11361, 11363, 11364, and 11370.1 except as it relates to marijuana, mescaline, peyote, or tetrahydrocannabinol. (Education Code 44940, 44940.5, 45304)

An employee's compulsory leave for a mandatory or optional leave of absence offense may extend for not more than 10 days after the entry of judgment in the criminal proceedings. However, the compulsory leave may be extended if the Board gives notice, within 10 days after the entry of judgment in the proceedings, that the employee will be dismissed within 30 days from the date of service of the notice unless the employee demands a hearing on the dismissal. (Education Code 44940, 44940.5)

Regulation 4219.11: Sexual Harassment

Status: DRAFT

Original Adopted Date: 12/01/2016 **| Last Revised Date:** 07/01/2024

The district does not discriminate on the basis of sex in any of its programs or activities and complies with Title IX of the Education Amendments of 1972 and its implementing regulations. Sex discrimination, including sex-based harassment, is prohibited in district education programs and activities.

The following administrative regulation shall apply to all allegations of sex discrimination and sex-based harassment by and against district employees, interns, volunteers, and job applicants, but shall not be used to resolve any complaint by a student.

Definitions

Sex discrimination includes treating an employee differently based on the employee's sex, which includes differential treatment based on sex stereotypes; sex characteristics; sexual orientation; gender; gender identity; gender expression; pregnancy, childbirth, termination of pregnancy, or lactation, including related medical conditions and recovery; parental, family, or marital status; or association with a person or group with one or more of these actual or perceived characteristics.

Sex discrimination, including sex-based harassment, intimidation, or bullying, may result from physical, verbal, nonverbal, or written conduct and occurs when prohibited conduct is so severe, persistent, or pervasive that it creates an intimidating, threatening, hostile, or offensive work environment; has the effect of substantially or unreasonably interfering with an employee's term or condition of employment; or otherwise adversely affects an employee's employment opportunities.

Sex-based harassment is a form of sex discrimination and means sexual harassment and other harassment on the basis of sex, sex stereotypes, sex characteristics, or other bases specified above. Conduct will constitute sex-based harassment when it takes the form of: (34 CFR 106.2, 106.11)

1. Quid pro quo harassment: A district employee, agent, or other individual authorized by the district to provide an aid, benefit, or service in the district's education program or activity conditioning the provision of district aid, benefit, or service on a student's participation in unwelcome sexual conduct

2. Hostile environment harassment: Unwelcome sex-based conduct that, based on the totality of the circumstances, is subjectively and objectively offensive and is so severe or pervasive that it limits or denies a person's ability to participate in or benefit from the district's education program or activity

   Any prohibited conduct that occurs off campus or outside of school-related or school-sponsored programs or activities will be regarded as sex-based harassment in violation of district policy if it has a continuing effect on a student's ability to participate in or benefit from district educational programs or activities.

3. Sexual assault, dating violence, domestic violence, or stalking, as defined in 34 CFR 106.2

Sexual harassment includes, but is not limited to, unwelcome sexual advances, unwanted requests for sexual favors, or other unwanted verbal, visual, or physical conduct of a sexual nature, regardless of whether the conduct is motivated by sexual desire. Conduct is considered to be sexual harassment when made against another person of the same or opposite sex in the work or educational setting under any of the following conditions: (Education Code 212.5; Government Code 12940; 2 CCR 11034)

1. Submission to the conduct is made explicitly or implicitly a term or condition of the individual's employment

2. Submission to or rejection of the conduct is used as the basis for an employment decision affecting the individual

3. The conduct has the purpose or effect of having a negative impact upon the individual's work performance or of creating an intimidating, hostile, or offensive work environment

4. Submission to or rejection of the conduct is used as the basis for any decision affecting the individual regarding benefits, services, honors, programs, or activities available at or through the district

Examples of Sex Discrimination and Sex-Based Harassment

Examples of actions that might constitute sex-based harassment under state and/or federal law in accordance with the definitions above, in the work or educational setting, whether committed by a supervisor, a co-worker, or a non-employee, include, but are not limited to:

1. Unwelcome verbal conduct such as sex-based flirtations or propositions; graphic comments about an individual's body; overly personal conversations or pressure for sex-based activity; sex-based jokes or stories; unwelcome sex-based slurs, epithets, threats, innuendoes; derogatory comments; sex-based degrading descriptions; or the spreading of sex-based rumors

2. Unwelcome visual conduct such as drawings, pictures, graffiti, or gestures; sexually explicit emails or messaging; or displaying sexually suggestive objects

3. Unwelcome physical conduct such as massaging, grabbing, fondling, stroking, or brushing the body; touching an individual's body or clothes in a sexual way; or cornering, blocking, leaning over, or impeding normal movements

Regulation 4219.12: Title IX Sexual Harassment Complaint Procedures

Status: DRAFT

Original Adopted Date: 07/01/2020 **| Last Revised Date:** 07/01/2024

The complaint procedures described in this administrative regulation shall be used to address any complaint governed by Title IX of the Education Amendments of 1972 alleging that a district employee, while in an education program or activity, was subjected to conduct on or after August 1, 2024, including, but not limited to, conduct that is under the authority of the district, that constitutes sex discrimination, including sex-based harassment. For conduct that occurred prior to this date, the district should utilize its policies in place at the time the alleged sex discrimination, including sex-based harassment, occurred, so long as they are in accordance with the applicable statutes and regulations.

Sex discrimination and sex-based harassment include, but are not limited to, sex-based conduct as specified in Administrative Regulation 4119.11/4219.11/4319.11 - Sex Discrimination and Sex-Based Harassment.

Basic Requirements

When implementing Title IX grievance procedures, the district shall: (34 CFR 106.45)

1. Treat complainants and respondents equitably

2. Ensure that the Title IX Coordinator or designee, investigator, or decisionmaker not have a conflict of interest or bias for or against complainants or respondents generally or an individual complainant or respondent

   The investigator and the decisionmaker may be the same person as the Title IX Coordinator or designee.

3. Presume that the respondent is not responsible for the alleged sex discrimination, including sex-based harassment, until a determination is made at the conclusion of the grievance procedures

4. Establish reasonably prompt timeframes for the major stages of the grievance procedures, such as evaluation of whether to dismiss or investigate a complaint, investigation, decision, and appeals if any

5. Establish a process that allows for the reasonable extension of timeframes on a case-by-case basis for good cause with notice to the parties that includes the reason for the delay

Additionally, the district shall not disclose personally identifiable information obtained while implementing Title IX complaint procedures unless the district has obtained prior written consent from a person with the legal right to consent to the disclosure; the information is disclosed to a parent/guardian or other authorized legal representative with the legal right to receive disclosures on behalf of the person whose personally identifiable information is at issue; to take action to address conduct that reasonably may constitute sex discrimination under Title IX, including sex-based harassment, in the district's education program or activity; as required by federal law, regulations, or as a condition to a federal award; as required by state or local law; or to the extent such disclosures are not otherwise in conflict with Title IX. (34 CFR 106.44)

If the respondent is a student with a disability, the Title IX Coordinator or designee shall consult with one or more members, as appropriate, of the student's individualized education program or 504 team, to determine how to comply with the requirements of the Individuals with Disabilities Education Act or Section 504 of the Rehabilitation Act of 1973.

Filing a Complaint

Upon receiving information of an allegation of sex discrimination, including sex-based harassment, the Title IX Coordinator or designee shall notify the individual(s) specified in law of the Title IX grievance procedures, and of the informal resolution process, if available and appropriate.

A *complaint* is an oral or written request that can objectively be understood by the Title IX Coordinator or designee as a request for the district to investigate and make a determination about alleged sex discrimination, including sex-based harassment. (34 CFR 106.2)

Complaints of sex discrimination and sex-based harassment may only be brought by an employee, or former employee, who was participating or attempting to participate in the district's education program or activity at the

time of the alleged sex-based harassment, or the Title IX Coordinator or designee. (34 CFR 106.45)

If the alleged victim chooses not to bring a complaint, or withdraws any or all of the allegations in a complaint, and in the absence or termination of an informal resolution process, the Title IX Coordinator or designee shall consider whether to initiate a complaint. To do so, the Title IX Coordinator or designee shall first consider the following factors: (34 CFR 106.44)

1. The victim's request not to proceed with initiation of a complaint
2. The victim's reasonable safety concerns regarding initiation of a complaint
3. The risk that additional acts of sex discrimination, including sex-based harassment, would occur if a complaint is not initiated
4. The severity of the alleged sex discrimination or sex-based harassment, including whether the discrimination, if established, would require the removal of a respondent from campus or imposition of another disciplinary sanction to end the discrimination and prevent its recurrence
5. The age and relationship of the parties, including whether the respondent is an employee of the district
6. The scope of the alleged sex discrimination, including information suggesting a pattern; ongoing sex discrimination, including sex-based harassment; or sex discrimination, including sex-based harassment, alleged to have impacted multiple individuals
7. The availability of evidence to assist a decisionmaker in determining whether sex discrimination, including sex-based harassment, occurred
8. Whether the district could end the alleged sex discrimination, including sex-based harassment, and prevent its recurrence without initiating the Title IX grievance procedures

If, after considering these factors, the Title IX Coordinator determines that the alleged conduct presents an imminent and serious threat to the health and safety of the complainant or another person, or that the conduct as alleged prevents the district from ensuring equal access to a district program or activity on the basis of sex, the Title IX Coordinator may initiate a complaint.

If the Title IX Coordinator initiates a complaint, the Title IX Coordinator shall provide the alleged victim notice of the complaint as well as other notices as required by the Title IX regulations at specific points in the complaint process. The Title IX Coordinator shall also address reasonable concerns about the victim's safety or the safety of others, including providing supportive measures as described in "Supportive Measures" below, and taking other appropriate prompt and effective steps to ensure that sex discrimination, including sex-based harassment, does not continue or recur within the district. (34 CFR 106.44)

The Title IX Coordinator or designee, investigator, decisionmaker, other person who is responsible for implementing the district's grievance procedures or have the authority to modify or terminate supportive measures, or a facilitator of an informal resolution process shall not have a conflict of interest or bias for or against complainants or respondents generally or an individual complainant or respondent. Such persons shall receive training in accordance with 34 CFR 106.8. (34 CFR 106.44)

In order to ensure that employees are not barred from reporting information about conduct that reasonably may constitute sex discrimination under Title IX, including sex-based harassment, the Title IX Coordinator shall monitor the district for barriers to reporting and take steps reasonably calculated to address such barriers. (34 CFR 106.44, 106.45)

Supportive Measures

Upon receipt of a report of Title IX sex discrimination or sex-based harassment, the Title IX Coordinator or designee shall offer and coordinate supportive measures. Supportive measures may vary depending on what the district determines to be reasonably available and shall not unreasonably burden either the complainant or respondent. Supportive measures shall be provided without charging a fee to the complainant or respondent and be designed to protect the safety of the complainant, respondent, and the district's educational environment, and to provide support during any grievance procedures implemented as specified in 34 CFR 106.45 or informal resolution process as

specified in 34 CFR 106.44. The district shall not impose such measures for punitive or disciplinary reasons. Supportive measures may include, but are not limited to, counseling; extensions of deadlines and other course- or work-related adjustment; changes in class, work, housing, or extracurricular or any other activity regardless of whether there is a comparable alternative; campus escort services; modifications of class or work schedules; mutual restrictions on contact; changes in class or work locations; leaves of absence; increased security; monitoring of certain areas of the campus; and, training and education programs related to sex-based harassment. (34 CFR 106.2, 106.44)

Unless there is an allegation of sex-based harassment or retaliation, the district may provide supportive measures without altering the alleged discriminatory conduct. (34 CFR 106.44)

Upon the conclusion of any grievance procedures implemented as specified in 34 CFR 106.45 or informal resolution process as specified in 34 CFR 106.44, the district may continue with the supportive measures, or modify or terminate such measures, as appropriate. (34 CFR 106.44)

The district shall provide a complainant or respondent for whom supportive measures have been implemented with a timely opportunity to seek, from an impartial employee with authority to modify or reverse the supportive measures, modification or reversal of the district's decision to provide, deny, modify, or terminate such measures, and to seek additional modification or termination of the supportive measures if circumstances materially change. (34 CFR 106.44)

The district shall not disclose information about supportive measures to any person other than the person to whom they apply, including informing one party of supportive measures provided to another party, unless the disclosure is necessary to providing the supportive measures, or restoring or preserving a party's access to the district's education program or activity. (34 CFR 106.44)

Emergency Removal

If a district employee is the respondent, the employee may be placed on administrative leave during the pendency of the formal complaint process. (34 CFR 106.44)

If the respondent is a student, the district may, on an emergency basis, remove the student from the district's education program or activity, provided that the district conducts an individualized safety and risk analysis, determines that removal is justified due to an imminent and serious threat to the health or safety of a complainant or any student, employee, or other individual arising from the allegations, and provides the respondent with notice and an opportunity to challenge the decision immediately following the removal. This authority to remove a student does not modify a student's rights under the IDEA or Section 504 of the Rehabilitation Act of 1973. (34 CFR 106.44)

Dismissal of Complaint

The Title IX Coordinator or designee may dismiss a complaint if: (34 CFR 106.45)

1. The district is unable to identify the respondent after taking reasonable steps to do so

2. The respondent is not participating in the district's education program or activity and is not employed by the district

3. The district determines that the conduct alleged in the complaint, even if proven, would not constitute sex discrimination, including sex-based harassment, under Title IX

   Before dismissing the complaint, the Title IX Coordinator shall make reasonable efforts to clarify the allegations with the complainant.

4. The complainant voluntarily withdraws any or all of the allegations in the complaint, the Title IX Coordinator declines to initiate a complaint, and the Title IX Coordinator determines that, without the complainant's withdrawn allegations, the conduct that remains alleged in the complaint, if any, would not constitute sex discrimination, including sex-based harassment, under Title IX, even if proven

The Title IX Coordinator shall determine whether to dismiss or investigate any complaint of sex discrimination, including sex-based harassment, within 45 days, unless such timeline is extended in accordance with this administrative regulation.

Upon dismissal, the Title IX Coordinator shall promptly notify the complainant of the dismissal and the reasons for the dismissal. Additionally, if the dismissal occurs after the respondent has been notified of the allegations, the Title IX Coordinator shall provide such notification to the respondent, which shall occur simultaneously to both parties if the notification is in writing. The Title IX Coordinator shall also inform the complainant, and the respondent if the dismissal occurs after the respondent has been notified of the allegations, of their right to appeal. Dismissals may be appealed on the following bases: (34 CFR 106.45)

1. A procedural irregularity that would change the outcome

2. New evidence that would change the outcome and that was not reasonably available when the dismissal was made

3. The Title IX Coordinator, investigator, or decisionmaker had a conflict of interest or bias for or against complainants or respondents generally or the individual complainant or respondent that would change the outcome

If the dismissal is appealed, the district shall: (34 CFR 106.45)

1. Notify the parties of any appeal, including notice of the allegations, if notice was not previously provided to the respondent

2. Implement appeal procedures equally for the parties

3. Ensure that the decisionmaker for the appeal did not take part in an investigation of the allegations or dismissal of the complaint

4. Ensure that the decisionmaker for the appeal has been trained consistent with the Title IX regulations

5. Provide the parties a reasonable and equal opportunity to make a statement in support of, or challenging, the outcome

6. Notify the parties of the result of the appeal and the rationale for the result

If a complaint is dismissed, the Title IX Coordinator or designee shall offer supportive measures as described above in "Supportive Measures" to the complainant. Additionally, the respondent shall be offered supportive measures if the complaint was dismissed because the complainant voluntarily withdrew any or all of the allegations in the complaint and the district determined that without the withdrawn allegations the conduct, even if proven, would not constitute sex discrimination, including sex-based harassment, under Title IX, or if the complaint was dismissed because the district determined, after taking reasonable efforts to clarify the allegations of the complaint, that the alleged conduct would not constitute sex discrimination, including sex-based harassment, even if proven. The Title IX Coordinator shall also take other appropriate prompt and effective steps to ensure that sex discrimination, including sex-based harassment, does not continue or recur within the district's education program or activity. (34 CFR 106.45)

If a complaint is dismissed, the conduct may still be addressed pursuant to Administrative Regulation 4030 - Nondiscrimination in Employment as applicable.

Informal Resolution Process

At any time prior to determining whether sex discrimination, including sex-based harassment, occurred under the complaint procedures specified in 34 CFR 106.45, the district may offer, if it is determined to be appropriate upon receiving information about conduct that reasonably may constitute sex discrimination under Title IX or when a complaint of sex discrimination is made, an informal resolution process, such as mediation, to the complainant and respondent. However, the district shall not offer an informal resolution process if the complaint alleges that an employee engaged in sex-based harassment of an elementary or secondary school student or that such process would conflict with federal, state, or local law. (34 CFR 106.44)

The district shall not require or pressure a party to participate in the informal resolution process, or to waive the right to an investigation and determination of a complaint as a condition of employment or continuing employment, or exercise of any other right. The district may decline to offer an informal resolution process including, but not

limited to, when the district determines that the alleged conduct would present a future risk of harm to others. (34 CFR 106.44)

The district may facilitate an informal resolution process provided that the district, prior to initiating such process: (34 CFR 106.44)

1. Provides the parties with written notice disclosing the allegations; the requirements of the informal resolution process; the right to withdraw from the informal process and resume the formal complaint process; the inability to initiate or resume complaint procedures arising from the same allegations once the informal resolution process is concluded; the potential terms that may be requested or offered in an informal resolution agreement, including that the agreement would only be binding on the parties; and the information that the district will maintain and whether and how the district could disclose such information for use in Title IX grievance procedures if such procedures are initiated or resumed

2. Obtains the parties' voluntary consent to the informal resolution process

The Title IX Coordinator or designee shall ensure that the facilitator of the informal resolution process is not the same person as the investigator or decisionmaker of any ongoing or newly initiated complaint process specified in 34 CFR 106.45, does not have a conflict of interest or bias for or against complainants or respondents generally or an individual complainant or respondent, and receives training in accordance with 34 CFR 106.8. (34 CFR 106.44)

If the district facilitates an informal resolution process, the Title IX Coordinator shall, to the extent necessary, take other appropriate prompt and effective steps to ensure that sex discrimination, including sex-based harassment, does not continue or recur within the district' education program or activity. (34 CFR 106.45)

Notice of Allegations

If the district initiates a formal Title IX investigation, the Title IX Coordinator or designee shall provide the known parties with written notice of the following: (34 CFR 106.45)

1. The district's complaint process, including any informal resolution process

2. Sufficient information, available at the time, to allow the parties to respond to the allegations, including, to the extent available, the identity of parties involved in the incident(s), the conduct allegedly constituting sex discrimination, including sex-based harassment, and the date(s) and location(s) of the alleged incidentSuch notice shall be provided with sufficient time for the parties to prepare a response before any initial interview.

   If, during the course of the investigation, new Title IX allegations arise about the complainant or respondent that are not included in the initial notice, the Title IX Coordinator shall provide notice of the additional allegations to the parties.

3. A statement that retaliation is prohibited

4. A statement that the parties are entitled to an equal opportunity to access the relevant and not otherwise impermissible evidence or an accurate description of such evidence, as specified

The above notice may also include the name of the investigator, facilitator of an informal process, and decisionmaker and shall inform the parties that, if at any time a party has concerns regarding conflict of interest or bias regarding any of these persons, the party should immediately notify the Title IX Coordinator or designee.

Consolidation of Complaints

The district may consolidate complaints of sex discrimination, including sex-based harassment, against more than one respondent; by more than one complainant against one or more respondents; or by one party against another party, when the allegations of sex discrimination, including sex-based harassment, arise out of the same facts or circumstances. (34 CFR 106.45)

Investigation Procedures

The district shall provide for adequate, reliable, and impartial investigation of complaints. (34 CFR 106.45)

During the investigation process, the district's designated investigator shall: (34 CFR 106.45)

1. Provide an equal opportunity for the parties to present fact witnesses and other inculpatory and exculpatory evidence that is relevant and not otherwise impermissible

2. Review all evidence gathered through the investigation and determine which evidence is relevant and which evidence is impermissible regardless of relevance

3. Provide each party with an equal opportunity to access evidence that is relevant, and not otherwise impermissible, to the allegations of sex discrimination, including sex-based harassment, by:

    a. Providing an equal opportunity to access either the relevant and not otherwise impermissible evidence or an accurate description of such evidence

        If an accurate description is provided, the district shall, upon request of any party, provide the parties with an equal opportunity to access the relevant and permissible evidence.

    b. Providing a reasonable opportunity to respond to the evidence or to the accurate description of the evidence

    c. Taking reasonable steps to prevent and address the parties' unauthorized disclosure of information and evidence obtained solely through the grievance procedures

4. Take reasonable steps to protect the privacy of parties and witnesses which do not restrict the ability of the parties to obtain and present evidence, including, by speaking to witnesses; consulting with family members, confidential resources, or advisors; or otherwise preparing for or participating in the grievance procedures

5. Objectively evaluate all evidence that is relevant and not otherwise impermissible, including both inculpatory and exculpatory evidence, including that credibility determinations will not be based on a person's status as complainant, respondent, or witness

6. Exclude as impermissible the following types of evidence, and questions seeking that evidence:

    a. Evidence that is protected under a privilege recognized by state or federal law or evidence that is provided to a confidential employee, unless the person to whom the privilege or confidentiality is owed has voluntarily waived the privilege

    b. A party's or witness's records that are made or maintained by a physician, psychologist, or other recognized professional or paraprofessional in connection with the provision of treatment to the party or witness, unless the district obtains that party's or witness's voluntary, written consent for use in its grievance procedures

        Evidence that relates to the complainant's sexual interests or prior sexual conduct, unless evidence about the complainant's prior sexual conduct is offered to prove that someone other than the respondent committed the alleged conduct or is evidence about specific incidents of the complainant's prior sexual conduct with the respondent that is offered to prove consent to the alleged sex-based harassment.

        The fact of prior consensual sexual conduct between the complainant and respondent does not by itself demonstrate or imply the complainant's consent to the alleged sex-based harassment or preclude determination that sex-based harassment occurred.

The district shall ensure that the decisionmaker is able to question parties and witnesses adequately to assess a party's or witness's credibility to the extent credibility is both in dispute and relevant to evaluating one or more allegations of sex-based harassment. (34 CFR 106.45)

If the complaint is against an employee, rights conferred under an applicable collective bargaining agreement shall be applied to the extent they do not conflict with the Title IX requirements.

The investigator shall complete the investigation within 60-90 days after the Title IX Coordinator determines to proceed with an investigation, unless such timeline is extended in accordance with this administrative regulation.

Written Decision

The Superintendent shall designate an employee as the decisionmaker to determine responsibility for the alleged conduct, who may be the Title IX Coordinator or designee or the investigator so long as there is no conflict of interest or bias. (34 CFR 106.45)

Following an investigation and evaluation of all relevant and not otherwise impermissible evidence, the district shall: (34 CFR 106.45)

1. Use the preponderance of the evidence standard of proof to determine whether sex discrimination, including sex-based harassment, has occurred

Definitions

Universal precautions are an approach to infection control. All human blood and certain human body fluids, including, but not limited to semen, vaginal secretions, and any body fluid that is visibly contaminated with blood, are treated as if known to be infectious for human immunodeficiency virus (HIV), hepatitis B virus (HBV), hepatitis C virus (HCV), and other bloodborne pathogens. (8 CCR 5193; 29 CFR 1910.1030)

Occupational exposure means reasonably anticipated contact with blood or other potentially infectious materials that may result from the performance of an employee's duties. (8 CCR 5193; 29 CFR 1910.1030)

Infection Control Practices

For the prevention of infectious disease, the district shall:

1. Effectively maintain the worksite in a clean and sanitary condition, and implement an appropriate written schedule for cleaning and decontamination of the worksite

1. Use personal protective equipment as appropriate.

2. Wash hands and other skin surfaces thoroughly with soap and running water:

    a. Immediately or as soon as feasible following contact with blood or other potentially infectious materials

5. Clean and decontaminate all equipment and environmental and work surfaces after contact with blood or other potentially infectious material, no later than the end of the shift or more frequently as required by state regulations.

6. Rather than using the hands directly, use mechanical means such as a brush and dust pan, tongs, or forceps to clean up broken glassware which may be contaminated.

7. Use effective techniques designed to minimize the risk of a sharps injury in all procedures involving the use of sharps.

8. Handle, store, treat, and dispose of regulated waste in accordance with Health and Safety Code 117600-118360 and other applicable state and federal regulations.

Original Adopted Date: 11/01/2011 **| Last Revised Date:** 03/01/2024

The Board of Trustees recognizes the right of district employees to form a bargaining unit and to select an employee organization as the exclusive representative for the employees in the employees' employment relationship with the district. The Board is committed to negotiating in good faith with the exclusive representative and respecting the rights of employees and employee organizations.

The district shall not dominate or interfere with the formation or administration of any employee organization or contribute financial or other support to it. (Government Code 3543.5)

Employees shall not be prohibited from wearing union buttons, insignia, or other pictorial or written messages that favor or oppose the formation of a bargaining unit or any matter that is the subject of negotiations.

Formation of Bargaining Units

Certificated and classified employees shall not be included in the same bargaining unit. (Government Code 3545)

A bargaining unit of certificated or classified supervisory employees may only be recognized if the bargaining unit includes all certificated or classified supervisory employees, respectively, and is not represented by the same employee organization that represents district employees who are supervised by the supervisory employees. (Government Code 3545)

For this purpose, supervisory employee means any employee, regardless of job description, having authority, in the interest of the district, to hire, transfer, suspend, lay off, recall, promote, discharge, assign, reward, or discipline other employees, or the responsibility to assign work to, direct, or adjust grievance of other employees, or effectively recommend that action, when the exercise of that authority is not of a merely routine or clerical nature, but requires the use of independent judgment. (Government Code 3540.1)

Employees serving in management, senior management, or confidential positions shall not be represented by an exclusive representative. In the employment relationship with the district, employees who serve in a management, senior management, or confidential position may represent themselves or be represented by an employee organization whose membership is composed entirely of employees designated as holding those positions. However, an employee organization representing management, senior management, or confidential employees shall not be permitted to meet and negotiate with the district on behalf of the employees. (Education Code 45100.5, Government Code 3543.4)

Management employee means an employee in a position having significant responsibilities for formulating district policies or administering district programs. (Government Code 3540.1)

Confidential employee means any employee who is required to develop or present management positions with respect to employer-employee relations or whose duties normally require access to confidential information that is used to contribute significantly to the development of management positions. (Government Code 3540.1)

Membership

The district shall not deter or discourage employees or job applicants from becoming or remaining members of an employee organization, authorizing representation by an employee organization, or authorizing dues or fee deductions to an employee organization. In addition, the district shall not impose or threaten to impose reprisals on employees, discriminate or threaten to discriminate against employees, or otherwise interfere with, restrain, or coerce employees because of their membership or nonmembership in an employee organization. (Government Code 3543.5, 3550, 3551.5)

District Communications to Employees

The Superintendent or designee may communicate with district employees regarding their rights to join and/or support or to refrain from joining or supporting an officially recognized employee organization. Such communications shall be factual and accurate and may not promise a benefit, threaten a reprisal, or in any way deter or discourage employees from joining an employee organization or paying dues.

The district may disseminate written documents, recorded messages, or other mass communications to actual or prospective employees represented by an exclusive representative concerning their rights to join and/or support, or refrain from joining and/or supporting, an employee organization only after the Superintendent or designee meets and confers with the exclusive representative concerning the content of the mass communication. If the district and exclusive representative do not come to agreement on the content of the mass communication and the district still chooses to disseminate it, the Superintendent or designee shall request that the exclusive representative provide a communication of reasonable length to the district that shall be disseminated to the employees at the same time as the district's own mass communication. (Government Code 3553)

Access to New Employee Orientations

The district shall permit each exclusive representative access to new employee orientation or onboarding process where newly hired employees represented by the exclusive representative are advised, whether in person, online, or through other means or mediums, of their employment status, rights, benefits, duties, responsibilities, or any other employment-related matters. The district shall provide the exclusive representative at least 10 days' notice in advance of an orientation, except that a shorter notice may be provided where there is an urgent need critical to the district's operations that was not reasonably foreseeable. (Government Code 3556)

Following a request to negotiate by either party, the structure, time, and manner of access to new employee orientations shall be determined by mutual agreement of the district and the exclusive representative. If the district and exclusive representative fail to reach an agreement, the structure, time, and manner of access to the new employee orientation shall be subject to compulsory interest arbitration. The district and the exclusive representative may mutually agree to submit any dispute to compulsory interest arbitration at any time. In addition, if any dispute arises during negotiations and is not resolved within 45 days after the first meeting or within 60 days after the initial request to negotiate, whichever is earlier, either party may make a demand for compulsory interest arbitration. When any such dispute arises during the summer when the district's administrative office is closed, the timeline shall commence on the first day the administrative office reopens. The arbitrator's decision shall be issued within 10 days and shall be final and binding on the parties. (Government Code 3556, 3557)

The date, time, and place of a new employee orientation shall not be disclosed to anyone other than employees, the exclusive representative, or a vendor that is contracted to provide a service for purposes of the orientation. (Government Code 3556)

Until June 30, 2025, unless the district and the exclusive representative have agreed otherwise, when the district has not conducted an in-person orientation within 30 days of hiring a new employee, the Superintendent or designee shall permit the exclusive representative to schedule an in-person meeting during employment hours at the new employee's worksite, during which the new employee shall have the opportunity to attend and shall be relieved of other duties for the purpose of attending the meeting. The district shall provide appropriate space at the worksite within seven calendar days of receiving a request from the exclusive representative. (Government Code 3556, 3557)

During this meeting, the exclusive representative shall be permitted to communicate directly with the new employees for up to 30 minutes of paid time. (Government Code 3556)

Access to Employee Contact Information

The Superintendent or designee shall provide an exclusive representative with the name, job title, department, work location, telephone numbers (work, home, and personal cell phone), of all employees represented by the exclusive representative on file with the district. An employee's personal email address shall only be disclosed if it used by the employee to conduct district business.

Such information shall be provided within 30 days of hire or by the first pay period of the month following hire for all new employees represented by the exclusive representative, unless the exclusive representative has agreed to a different interval for the provision of the information. Additionally, the Superintendent or designee shall provide the exclusive representative with the same information for all employees represented by the exclusive representative every 120 days, unless more frequent disclosure is required by agreement with the exclusive representative. (Government Code 3558, 7928.300)

However, the Superintendent or designee shall not disclose: (Government Code 3558, 6205-6210, 6215-6216, 7928.300)

1. The home address and any phone numbers on file for employees performing law enforcement-related functions

2. The home address, home telephone or personal cell phone number(s), or personal email address(es) of any employee who is a participant in the Safe at Home address confidentiality program pursuant to Government Code 6205-6210 and 6215-16

3. The employee's home address, home telephone and personal cell phone numbers, and personal email address of an employee not performing law enforcement related functions if the employee has submitted a written request to the district to keep such information private. In such instances, the Superintendent or designee shall also remove the employee's home address, home telephone number, and personal cell phone number from any mailing list maintained by the district unless the list is only used by the district to contact the employee.

Within 20 calendar days after an exclusive representative notifies the Superintendent or designee that a list of employees provided by the district is inaccurate or incomplete, the Superintendent or designee shall take steps to correct the list and provide a new list of employees to the exclusive representative. (Government Code 3558)

The Superintendent or designee shall review the list of contact information for district employees at the beginning of each school year, or more often as appropriate.

Communications with Employees by Employee Organizations

Subject to reasonable regulation by the district, employee organizations shall have access, at reasonable times, to the work areas of employees represented by the employee organization and to district facilities for the purpose of meeting with employees represented by the employee organization. Access may be limited in instances where it would be disruptive to district operations. (Government Code 3543.1)

Additionally, subject to reasonable regulation by the district, employee organizations shall have the ability to use institutional bulletin boards, mailboxes, and other means of communication to communicate with employees represented by the employee organization. (Government Code 3543.1)

Membership Dues or Other Payments to an Employee Organization

When drawing an order for the salary or wage payment of a bargaining unit employee of an employee organization, the district shall deduct any amount that has been requested by the employee in a revocable written authorization for the purpose of paying dues or other payments for any service, program, or committee provided or sponsored by the employee organization. (Education Code 45060, 45168)

When an employee organization has certified to the district that it has and will maintain individual employee authorizations for payroll deductions, the district shall rely on information from the employee organization regarding the amounts of such payroll deductions and the employees to whom they apply and shall not handle or process employee written authorizations for the employees represented by such employee organization. The district also shall not require a copy of the written authorization to be submitted by the employee organization, except when there is a dispute about the existence or terms of the written authorization. (Education Code 45060, 45168)

A written authorization shall remain in effect until expressly revoked in writing by the employee and pursuant to the terms of the written authorization. Employee requests to cancel or change authorizations for payroll deductions for employee organizations shall be directed to the employee organization that represents the employee rather than the district. The employee organization shall be responsible for processing these requests. The district shall rely on the information provided by the employee organization regarding whether deductions for an employee organization were properly canceled or changed. The employee organization shall be required to indemnify the district for any claims made by an employee for deductions made by the district in reliance on information from the employee organization. (Education Code 45060, 45168)

When an employee organization has declined to certify that it will handle and process written authorizations from employee(s) represented by the employee organization and makes a request for payroll deductions, the district shall request a copy of the written authorization for an employee before making the payroll deductions for that employee. (Education Code 45060, 45168)

Status: DRAFT

Original Adopted Date: 09/01/1988 **| Last Revised Date:** 06/01/2021

The Board of Trustees recognizes that collective bargaining agreements are legally binding, bilateral agreements with the exclusive representatives of employees pertaining to terms and conditions of employment. The Board is committed to carrying out the provisions of each agreement and expects the agreements to be consistently and uniformly administered.

Following adoption of the collective bargaining agreement, the Superintendent or designee shall review related Board policies and recommend to the Board any action needed to maintain consistency with the agreement. Whenever a Board policy conflicts with a provision in the collective bargaining agreement, the agreement shall be binding for those employees covered by the terms of the agreement. Whenever a law conflicts with a provision in the collective bargaining agreement, the law will prevail as to those employees for whom the law applies.

Upon request by the Public Employment Relations Board, the Superintendent or designee shall provide, within 15 days of the request, a copy of the written agreement and any amendments. (8 CCR 32120)

Policy 4241.6: Concerted Action/Work Stoppage

Status: DRAFT

Original Adopted Date: 12/01/1989 **| Last Revised Date:** 03/01/2022

The Board of Trustees recognizes the importance of maintaining ongoing positive relations with employees and engaging in fair, respectful negotiations with employee organizations. The Board desires to reach agreement on employment contracts in a manner that prevents disruption to school operations and minimizes impact on student achievement.

The Board recognizes that advance planning is necessary to ensure that, in the event of a work stoppage, strike, or other concerted employee activity, students continue to receive educational services to which they are entitled. The Superintendent or designee shall develop a written plan which shall include strategies for the provision of internal and external communications, preservation of student and staff safety, maintenance of district operations, and appropriate student instruction and supervision during a work slowdown or stoppage.

Days of instruction lost due to a work stoppage may be made up following the end of the normal school year.

If an employee organization gives notice that it intends to strike, the Superintendent or designee shall notify the Public Employment Relations Board, Employment Development Department, employees in the striking unit, other district employees, parents/guardians, students, law enforcement, the media, and others as appropriate.

Employees should be held accountable for their behavior during any labor dispute. The district may take disciplinary action against any employee who engages in an unlawful concerted action or in unlawful behavior in an otherwise protected activity, taking into account the seriousness of the behavior and the district's efforts to rebuild relations following the withholding of services by employees.

However, the district shall not discontinue or threaten to discontinue employer contributions for health care or other medical coverage for any employee or their enrolled dependents for the duration of the employee's participation in an authorized strike, as defined in Government Code 3141 and specified in the accompanying administrative regulation.

Any employee withholding services may be subject to the loss of payroll deduction privileges.

Throughout the duration of any enrolled employee's participation in an authorized strike, the district shall not fail or refuse to maintain and pay for the employee's continued health care or other medical coverage or the coverage of their enrolled dependents, nor shall the district fail to collect and remit the employee's contributions to any such coverage. The district shall maintain the coverage at the same level and under the same conditions that the coverage would have been provided if the employee had continued to work in the employee's position for the duration of the strike. Health care or other medical coverage for this purpose includes coverage for medical, dental, vision, behavioral health, disability, accidental death and dismemberment, life, and supplemental health insurance benefits. (Government Code 3141-3142)

Employees whose vacation leave has been authorized prior to the work stoppage shall receive vacation pay for the authorized period.

If an employee is on a paid sick or disability leave when the work stoppage begins, the employee shall be entitled to continued payment as long as the employee remains ill or disabled and is otherwise eligible according to Board policy and collective bargaining agreements.

The Superintendent or designee may determine that credit shall not be applied toward probationary service, salary schedule advancement, permanent status, vacation earnings, retirement credit or sick leave accrual during the period of time that employees withhold services.

Policy 4243: Negotiations/Consultation

Status: DRAFT

Original Adopted Date: 10/01/1995 **| Last Revised Date:** 04/01/2015

Certain meetings related to negotiations shall not be open to the public in accordance with Government Code 3549.1 and 54957.6, except as otherwise required by law. Matters discussed in these meetings shall be kept in strict confidence in accordance with law.

The Board and its negotiator(s) shall not knowingly provide the employee organization with inaccurate information regarding the financial resources of the district. (Government Code 3543.5)

The Board shall monitor the progress of negotiations and carefully consider how proposed contract provisions would affect the district's short- and long-term fiscal, programmatic, instructional, and personnel goals.

The Board and/or Superintendent or designee shall keep the public informed about the progress of negotiations and the ways in which negotiations may affect district goals unless otherwise agreed upon by the district and exclusive representative.

Whenever the district has a qualified or negative certification on an interim fiscal report, it shall allow the county office of education at least 10 working days to review and comment on any proposed agreement with exclusive representatives of employees. The district shall provide the County Superintendent of Schools with all information relevant to gain an understanding of the financial impact of any final collective bargaining agreement. (Government Code 3540.2)

Any agreement adopted by the Board may be for a term not to exceed three years. (Government Code 3540.1)

In the event of an impasse in negotiations, the district shall participate in good faith in mediation and fact-finding procedures pursuant to Government Code 3548-3548.8. (Government Code 3543.5)

Following adoption of the collective bargaining agreement, any subsequent amendments shall be executed in writing and ratified by the Board and the employees' exclusive representative.

The Board of Trustees recognizes the need to establish a process to allow employees and job applicants to have their concerns heard in an expeditious and unbiased manner. The Board expects that employees will make every effort to resolve complaints and disagreements informally before filing a formal complaint.

The Board prohibits retaliation against complainants. The Superintendent or designee may keep a complainant's identity confidential, except to the extent necessary to investigate the complaint.

All matters related to a complaint shall be kept confidential and any document, communication, or record regarding the complaint shall be placed in a separate file and shall not be placed in an employee's personnel file.

Regulation 4244: Complaints

Status: DRAFT

Original Adopted Date: 06/01/1990 **| Last Revised Date:** 12/01/2017

The procedure specified in this administrative regulation shall be used to investigate and resolve any complaint by an employee alleging misapplication of the district's policies, regulations, rules, or procedures or for "whistleblower" complaints by an employee or job applicant regarding an improper district activity including, but not limited to, an allegation of gross mismanagement, a significant waste of funds, an abuse of authority, or a specific danger to public health or safety.

Any of the time limits specified in the following procedure may be extended by written agreement between the district and complainant.

Step 1: Informal Complaint Process

Prior to instituting a formal, written complaint, the employee shall first discuss the issue with his/her supervisor or the principal of the school where the alleged act took place. Formal complaint procedures shall not be initiated until the employee has first attempted to resolve the complaint informally.

Step 2: Site Level Formal Complaint Process

If a complaint has not been satisfactorily resolved through the informal process in Step 1, the complainant may file a written complaint with his/her immediate supervisor or principal within 60 days of the act or event which is the subject of the complaint. If an employee fails to file a written complaint within 60 days, the complaint shall be considered resolved on the basis of the preceding step.

In the written complaint, the employee shall specify the nature of the problem, including names, dates, locations, witnesses, the remedy sought by the employee, and a description of informal efforts to resolve the issue.

Within 10 working days of receiving the complaint, the immediate supervisor or principal shall conduct any necessary investigation and meet with the complainant in an effort to resolve the complaint. Within five working days after the meeting, he/she shall prepare and send a written response to the complainant.

Step 3: District Level Appeal

If a complaint has not been satisfactorily resolved at Step 2, the complainant may file the written complaint with the Superintendent or designee within five working days of receiving the written response from the immediate supervisor or the principal. The complainant shall include all information presented to the immediate supervisor or principal at Step 2.

Within 10 working days of receiving the complaint, the Superintendent or designee shall conduct any necessary investigation, including reviewing the investigation and written response by the immediate supervisor or principal at Step 2, and shall meet with the complainant in an effort to resolve the complaint. Within five working days after the meeting, he/she shall prepare and send a written response to the complainant.

Step 4: Appeal to the Board of Trustees

If a complaint has not been satisfactorily resolved at Step 3, the complainant may file a written appeal to the Board within five working days of receiving the Superintendent or designee's response. All information presented at Steps 1, 2, and 3 shall be included with the appeal, and the Superintendent or designee shall submit to the Board a written report describing attempts to resolve the complaint and the district's response.

The Board may uphold the findings by the Superintendent or designee without hearing the complaint or the Board may hear the complaint at a regular or special Board meeting. The hearing shall be held in closed session if the complaint relates to matters that may be addressed in closed session in accordance with law.

The Board shall make its decision within 30 days of the hearing and shall send its decision to all concerned parties. The Board's decision shall be final.

Certificated employees shall not be placed in different classifications on the schedule, nor paid different salaries, solely on the basis of the grade levels at which they teach. (Education Code 45028)

Salary schedules for staff who are not a part of a bargaining unit shall be determined by the Board at the recommendation of the Superintendent or designee.

The salary schedules adopted by the Board shall be printed and made available for review at the district office. (Education Code 45023)

Additionally, by January 31, 2026, and annually thereafter, the Superintendent or designee shall complete the Salary and Benefit Schedule for Bargaining Units (Form J-90) for classified and certificated staff assigned to a district school site and report the Form J-90 to the California Department of Education. However, teachers, school administrators, and other employees in positions established by the Board as executive, administrative, or professional shall be exempt from overtime rules. (Education Code 45128, 45130; 29 USC 213; 29 CFR 541.204, 541.303, 541.600 , 553.27, 553.32)

(Education Code 45130)

When authorized in a collective bargaining agreement or other agreement between the district and employees, an employee may take compensatory time off in lieu of overtime compensation, provided the employee has not accrued compensatory time in excess of the limits specified in 29 USC 207. An employee who has requested the use of compensatory time shall be allowed to use such time within 12 calendar months following the month the overtime was worked if the use of the compensatory time does not unduly disrupt district operations. If a mutual agreement on a method of reimbursement is not reached, within 30 days of the employee verifying the overpayment amount, the district shall recoup the overpayment through payroll deductions in accordance with Education Code 44042.5.

If the employee does not respond or disputes the existence or amount of the district's claimed overpayment, the district may only recover the overpayment after pursuing appropriate legal action. (Education Code 44042.5)

If the employee separates from the district before the overpayment is fully repaid, the district shall withhold the remaining balance due from any money owed to the employee upon separation, provided that the state minimum wage is still paid to the employee as required by Education Code 44042.5. The Superintendent or designee may consult with legal counsel to calculate the amount to withhold.

If an outstanding overpayment balance still remains, the district may exercise any legal means to recover the remaining amount owed by the employee. (Education Code 44042.5)

Legal action to recover any overpayment under this policy shall be initiated within three years from the date of the overpayment, which for leave credits is the date that the employee receives compensation in exchange for leave erroneously credited to the employee. (Education Code 44042.5)

(Government Code 12945.8)

Upon the request of the Superintendent or designee, an employee requesting a reasonable accommodation shall provide a written statement, signed by the employee or an individual acting on the employee's behalf, certifying that the accommodation is for an authorized purpose. The Superintendent or designee may also request that the employee provide certification of the employee's status as a victim of domestic violence, sexual assault, stalking, or other qualifying act of violence. Such certification may include: (Government Code 12945.8)

1. A police report indicating that the employee, or a family member of the employee, was a victim

3. Documentation from a licensed medical professional or health care provider, domestic violence or sexual assault counselor, victim advocate, or counselor that the employee, or family member of the employee, was undergoing treatment or receiving services for physical or mental injuries or abuse resulting in victimization from the crime or abuse
4. Any other form of documentation that reasonably verifies that the crime or abuse occurred, including, but not limited to, a written statement signed by the employee or by an individual acting on the employee's behalf

Any verbal or written statement, police or court record, or other documentation identifying an employee, or a family

member of the employee, as a victim shall be confidential and shall not be disclosed by the district except as required by federal or state law or as necessary to protect the employee's safety in the workplace. The employee shall be notified before any authorized disclosure. (Government Code 12945.8)

Every six months after the date of the certification, the Superintendent or designee may request recertification of the employee's status as a victim of domestic violence, sexual assault, stalking, other specified offense, or ongoing circumstances related to the crime or abuse. The employee shall notify the Superintendent or designee if, due to changing circumstances, the employee needs a new accommodation or no longer needs an accommodation. If a new accommodation is needed, the Superintendent or designee shall follow the procedures described above when making the initial determination regarding effective reasonable accommodations. (Government Code 12945.8)

The district shall not discharge or retaliate against an employee because of the employee's status as a victim of crime or abuse or for requesting a reasonable accommodation, regardless of whether the request was granted. (Government Code 12945.8)

Use of Pepper Spray

The Superintendent or designee shall notify employees of the district's policy prohibiting the possession of pepper spray on school property or at school-related activities without prior approval of the Superintendent or designee. Employees wishing to carry pepper spray shall submit to the Superintendent or designee a written request setting forth the need to carry or possess pepper spray and for how long the need is anticipated to last. The Superintendent or designee shall notify the employee in writing as to whether the request was approved or denied.

When approving an employee's request, the Superintendent or designee shall inform the employee of the following conditions:

1. The pepper spray shall be used only in self-defense pursuant to Penal Code 22810

2. An employee who uses pepper spray other than in self-defense shall be subject to disciplinary action by the district and, in accordance with law, a fine and/or imprisonment

3. The pepper spray must be stored in a secure place and not be accessible to students or other individuals

   Negligent storage or use of the pepper spray may subject the employee to disciplinary action.

Regulation 4261.1: Personal Illness/Injury Leave

Status: DRAFT

Original Adopted Date: 03/01/2017 **| Last Revised Date:** 06/01/2024

The following administrative regulation applies to classified employees, including classified management. For certificated employees, including certificated management, see Administrative Regulation 4161.1/4361.1 - Personal Illness/Injury Leave.

Classified employees employed five days a week are entitled to 12 days leave of absence with full pay for personal illness or injury (sick leave) per fiscal year. Employees who work less than a full fiscal year or fewer than five days a week (part-time employees) shall be granted sick leave in proportion to the time they work. However, part-time employees who are entitled to less than 24 hours of paid sick leave per fiscal year due to the amount of time worked shall be granted sick leave pursuant to Labor Code 246, if they are eligible. (Education Code 45191; Labor Code 245-249)

Use of Sick Leave

A classified employee may use sick leave for absences as authorized by law and/or collective bargaining agreement, including, but not limited to:

1. Accident or illness, whether or not the absence arises out of or in the course of employment, or by quarantine which results from contact in the course of employment with other persons having a contagious disease (Education Code 45199)

2. Pregnancy, miscarriage, childbirth, and related recovery, as well as reproductive loss (Education Code 45193; Government Code 12945.6)

3. Personal necessity (Education Code 45207)

4. Medical and dental appointments, in increments of not less than one hour

5. Industrial accident or illness when leave granted specifically for that purpose has been exhausted (Education Code 45192)

6. Need of an employee to bond with a child within one year of the child's birth, adoption, or foster care placement (parental leave) (Education Code 45196.1; Government Code 12945.2; 29 USC 2612; 29 CFR 825.112)

7. Need of the employee or the employee's family member, including a designated person, as defined in Labor Code 245.5, for the diagnosis, care, or treatment of an existing health condition or for preventive care (Government Code 12945.2; Labor Code 233, 246.5)

8. Need of the employee to seek or obtain any relief or medical attention specified in Labor Code 230(c) and 230.1(a) for the health, safety, or welfare of the employee or the employee's child, when the employee has been a victim of domestic violence, sexual assault, or stalking (Labor Code 233, 246.5)

9. Bereavement leave, as specified in Administrative Regulation 4161.2/4261.2/4361.2 - Personal Leaves (Education Code 45194; Government Code 12945.7)

For the purposes specified in Items #7-8, an employee may use, in any calendar year, the amount of sick leave that would be accrued during six months at the employee's then current rate of entitlement. (Labor Code 233)

An employee may take leave for personal illness or injury at any time during the year, even if credit for such leave has not yet been accrued. However, a new full-time classified employee shall not be entitled to more than six days of sick leave, or the proportionate amount to which the employee may be entitled, until the first day of the month after the employee has completed six months of active service with the district. (Education Code 45191)

Unused days of sick leave shall be accumulated from year to year without limitation. (Education Code 45191)

An employee shall reimburse the district for any unearned sick leave used as of the date of termination, in accordance with Education Code 44042.5.

At the beginning of each school year, employees shall be notified of the amount of sick leave they have accumulated.

The district shall not require newly employed classified employees to waive leave accumulated in a previous district. However, if the employee's previous employment was terminated for cause, the transfer of the accumulated leave shall be made only if approved by the Board of Trustees. (Education Code 45202)

The Superintendent or designee shall notify any classified employee whose employment with the district is terminated after at least one calendar year for reasons other than for cause that, if the employee accepts employment in another district, county office of education, or community college district within one year of the termination of employment, the employee may request that the district transfer any accumulated sick leave to the new employer. (Education Code 45202)

Additional Leave for Disabled Military Veterans

In addition to any other entitlement for sick leave with pay, a classified employee who is a former active duty member of the U.S. Armed Forces or a former or current member of the California National Guard or a federal reserve component shall be entitled to sick leave with pay of up to 12 days for the purpose of undergoing medical treatment, including mental health treatment, for a military service-connected disability rated at 30 percent or higher by the U.S. Department of Veterans Affairs. An eligible employee who works less than five days per week shall be entitled to such leave in proportion to the time worked. (Education Code 45191.5)

The amount of leave shall be credited to the employee either on the date the employee receives confirmation of the submission of the disability application to the U.S. Department of Veterans Affairs or on the first day the employee begins or returns to employment after active duty, whichever is later. When the employee receives the disability rating decision, the employee shall report that information to the Superintendent or designee. If the disability rating decision makes the employee eligible for the leave, the time used before the decision shall be counted toward the 12-day maximum leave. If the disability rating decision makes the employee ineligible for the leave, the district may change the sick leave time used before the disability rating decision to an alternative leave balance. (Education Code 45191.5)

The Superintendent or designee may require verification, in accordance with the section "Verification Requirements" below, that the employee used the leave to obtain treatment of a military service-connected disability.

Leave for military-service connected disability shall be available for 12 months following the first date that the leave was credited. Leave not used during the 12-month period shall not be carried over and shall be forfeited. (Education Code 45191.5)

Notification of Absence

An employee shall notify the Superintendent or the designated manager or supervisor of the need to be absent as soon as such need is known so that the services of a substitute may be secured as necessary. This notification shall include an estimate of the expected duration of absence. If the absence becomes longer than estimated, the employee shall so notify the district. If the duration of absence becomes shorter than estimated, the employee shall notify the district not later than three o'clock in the afternoon of the day preceding the day on which the employee intends to return to work. If the employee fails to notify the district and the failure results in a substitute being secured, the cost of the substitute shall be deducted from the employee's pay.

Continued Absence After Available Sick Leave Is Exhausted/Differential Pay

Each year, each regular classified employee shall be credited with no fewer than 100 working days of paid leave for personal illness or injury, including current year and accumulated days of leave. When the current year and accumulated days at full pay are exhausted, the remainder of the 100 days shall be compensated at least 50 percent of the employee's regular salary. Any of the 100 days of leave not used during the year in which they are credited shall be forfeited and shall not accumulate from year to year. This paid leave shall be exclusive of any other paid leave, holidays, vacation, or compensatory time to which the employee may be entitled. (Education Code 45196)

Parental Leave

During each school year, a classified employee may use all available sick leave, including accumulated sick leave, for the purpose of parental leave for a period of up to 12 work weeks. The 12-week period shall be reduced by any

period of sick leave, including accumulated sick leave, taken during a period of such parental leave. (Education Code 45196.1)

Eligibility for such leave shall not require 1,250 hours of service with the district during the previous 12 months. (Education Code 45196.1)

An employee who has exhausted all available sick leave, including accumulated sick leave, and continues to be absent on account of parental leave shall receive differential pay of at least 50 percent of the employee's regular salary for the remainder of the 12 work weeks. (Education Code 45196.1)

Parental leave taken pursuant to Education Code 45196.1 shall run concurrently with the parental leave taken pursuant to Government Code 12945.2 or 12945.6, and the aggregate amount of parental leave shall not exceed 12 work weeks in a 12-month period. (Education Code 45196.1; Government Code 12945.2, 12945.6)

Extension of Leave

A permanent employee who is absent because of a personal illness or injury and who has exhausted all available sick leave, vacation, compensatory overtime, and any other paid leave shall be so notified, in writing, and offered an opportunity to request additional leave. The Board may grant the employee additional leave, paid or unpaid, for a period not to exceed six months and may renew this leave for two additional six-month periods or for lesser periods. The total additional leave granted shall not exceed 18 months. (Education Code 45195)

If the employee is still unable to return to work after all available paid and unpaid leaves have been exhausted, the employee shall be placed on a reemployment list for a period of 39 months. If during this time the employee becomes medically able, the employee shall be offered reemployment in the first vacancy in the classification of the employee's previous assignment. During the 39 months, the employee's reemployment shall take preference over all other applicants except those laid off for lack of work or lack of funds, in which case the employee shall be ranked according to seniority. (Education Code 45195)

Verification Requirements

After any absence due to illness or injury, the employee shall submit a completed and signed district absence form to the employee's immediate supervisor.

The Superintendent or designee may require verification whenever an employee's absence record shows chronic absenteeism or a pattern of absences immediately before or after weekends and/or holidays or whenever available evidence clearly indicates that an absence is not related to illness or injury.

In addition, the Superintendent or designee may require an employee to visit a physician selected by the district, at district expense, in order to receive a report on the medical condition of the employee. The report shall include a statement as to the employee's need for additional leave of absence and a prognosis as to when the employee will be able to return to work. If the report concludes that the employee's condition does not warrant continued absence, the Superintendent or designee may, after giving notice to the employee, deny the request for additional leave.

Any district request for additional verification by an employee's physician or a district-selected physician shall be in writing and shall specify that the report to be submitted to the district should not contain the employee's genetic information. Any genetic information received by the district on behalf of an employee shall be treated as a confidential medical record, maintained in a file separate from the employee's personnel file, and shall not be disclosed except in accordance with 29 CFR 1635.9.

Before returning to work, an employee who has been absent for surgery, hospitalization, or extended medical treatment may be asked to submit a letter from a physician stating that the employee is able to return to work and stipulating any necessary restrictions or limitations.

Short-Term and Substitute Employees

Except for a retired annuitant who is not reinstated to the retirement system, short-term or substitute employees who work for 30 or more days within a year of their employment shall be credited with 40 hours or five days of paid sick leave for that year. Unused sick leave shall not carry over to the following year of employment. (Labor Code 246)

Short-term or substitute employees may begin to use accrued paid sick days on the 90th day of their employment, after which they may use the sick days as they are accrued. (Labor Code 246)

A short-term or substitute employee may use accrued sick leave for absences due to: (Labor Code 246.5)

1. The employee's own need or the need of a family member, as defined in Labor Code 245.5, for the diagnosis, care, or treatment of an existing health condition or for preventive care

2. Need of the employee to obtain or seek any relief or medical attention specified in Labor Code 230(c) and 230.1(a) for the health, safety, or welfare of the employee, or the employee's child, when the employee has been a victim of domestic violence, sexual assault, or stalking

Healthy Workplaces, Healthy Families Act Requirements

No employee, including a short-term or substitute employee, shall be denied the right to use accrued sick days and the district shall not in any manner discriminate or retaliate against an employee for using or attempting to use sick leave, filing a complaint with the Labor Commissioner, or alleging district violation of Labor Code 245-249.

To ensure the district's compliance with Labor Code 245-249, the Superintendent or designee shall:

1. At a conspicuous location in each workplace, display a poster on paid sick leave that includes the following information:

    a. That an employee is entitled to accrue, request, and use paid sick days

    b. The number of sick days provided by Labor Code 245-249

    c. The terms of use of paid sick days

    d. That discrimination or retaliation against an employee for requesting and/or using sick leave is prohibited by law and that an employee has the right to file a complaint with the Labor Commissioner if the district discriminates or retaliates against the employee

2. Provide at least 40 hours or five days of paid sick leave to each eligible employee to use per year and allow eligible employees to use accrued sick leave upon reasonable request

3. Provide eligible employees written notice, on their pay stub or other document issued with their pay check, of the amount of paid sick leave they have available

4. Keep a record documenting the hours worked and paid sick days accrued and used by each eligible employee for three years

For such leave, the employee shall be granted no more than 60 working days in any one fiscal year for the same industrial accident or illness.

To be eligible for industrial accident or illness leave, a classified employee shall have served in the district continuously for at least three years.

Allowable industrial accident or illness leave shall not be accumulated from year to year. (Education Code 44984, 45192)

When an employee is absent from his/her duties because of an industrial accident or illness: (Education Code 44043, 44044, 44984, 45192)

1. The leave shall start on the first day of absence.

2. During the period of absence, the employee shall be paid such portion of his/her wage or salary that, when added to the award granted under state workers' compensation laws, will not exceed his/her normal wage or salary.

3. The leave shall be reduced by one day for each day of authorized absence, regardless of an award granted under workers' compensation laws.

4. When the leave overlaps into the next fiscal year, the employee is entitled to only the amount of unused leave due the employee for the same illness or injury.

During any paid leave of absence, the employee shall endorse to the district any workers' compensation checks received on account of an industrial accident or illness. The Superintendent or designee shall then issue payment of the employee's normal wage or salary less any appropriate deductions, including, but not limited to, employee retirement contributions. (Education Code 44043)

Absence for industrial accident or illness shall not be considered a break in service of the employee. An employee using such leave shall retain all status and benefits to which he/she would otherwise be entitled.

When available industrial accident or illness leave has been exhausted, the employee shall be so notified in writing and shall be offered an opportunity to request any additional paid or unpaid leave available to the employee. (Education Code 45192)

Upon expiration of allowable leave for an industrial accident or illness, the employee may use personal illness and injury leave provided pursuant to Education Code 44977, 44978, 44983, or 45191, as applicable, provided that such leave, when added to any continuing workers' compensation award, does not result in a payment to the employee of more than his/her full wage or salary. (Education Code 44984, 45192)

If a certificated employee is unable to resume the duties of his/her position after exhausting all accumulated sick leave, including the consecutive five-month period provided by Education Code 44977, he/she shall, if not placed in another position, be placed on a reemployment list for a period of 24 months if he/she is a probationary employee or 39 months if he/she is a permanent employee. If the employee becomes medically able to resume duties during the period of reemployment eligibility, he/she shall be returned to employment in a position for which he/she is credentialed and qualified. (Education Code 44978.1)

If a classified employee has exhausted all available leaves of absence, paid or unpaid, and is not medically able to resume the duties of his/her position, he/she shall, if not placed in another position, be placed on a reemployment list for a period of 39 months. If he/she becomes medically able to resume duties during the period of reemployment eligibility, he/she shall be employed in a vacant position in the class of his/her previous assignment over all other candidates except those on a reemployment list established because of lack of work or lack of funds, in which case the employee shall be listed in accordance with seniority regulations. If the employee is medically released to return

to duty but fails to accept an appropriate assignment, he/she shall be dismissed. (Education Code 45192)

For the purpose of any personal leave offered pursuant to state law, a registered domestic partner shall have the same rights, protections, and benefits as a spouse and any protections provided to a spouse's child shall also apply to a child of a registered domestic partner. (Family Code 297.5)

Whenever possible, employees shall request personal leaves in advance and prepare suitable instructions, including lesson plans as applicable, for a substitute employee.

Bereavement

Employees are entitled to a leave of up to five days upon the death of any member of the employee's immediate family, as defined in Education Code 44985 and 45194.

"Immediate family" means a parent, parent-in-law, grandparent, or grandchild of the employee or of the spouse of the employee, and the spouse, domestic partner, child, child-in-law, sibling, or sibling-in-law of the employee, or any relative living in the immediate household of the employee. (Education Code 44985, 45194; Government Code 12945.7)

No deduction shall be made from the employee's salary for any authorized paid bereavement leave as specified in the collective bargaining agreement or as otherwise established by this policy, nor shall such leave be deducted from any other leave to which the employee is entitled unless requested by the employee. (Education Code 44985, 45194; Government Code 12945.7)

At the employee's request, bereavement leave may be extended under personal necessity leave provisions as provided in the section "Personal Necessity" below. (Education Code 44981, 45207)

Reproductive Loss

Upon request by any employee who has experienced a reproductive loss event, defined as the day or, for a multiple-day event, the final day of a failed adoption, failed surrogacy, miscarriage, stillbirth, or an unsuccessful assisted reproduction, the district shall grant the employee up to five days of reproductive loss leave, to be taken consecutively or non-consecutively. The employee shall take the leave within three months following the event. If the employee is on another type of leave at the time of the reproductive loss event, or chooses to take another type of leave immediately following a reproductive loss event, then the reproductive loss leave shall be completed within three months of the end date of the other leave. (Government Code 12945.6)

Reproductive loss leave will be unpaid unless the employee chooses to use vacation, personal leave, accrued and available sick leave, or compensatory time off that is otherwise available to the employee. (Government Code 12945.6)

Any request or inquiry or information provided by an employee related to reproductive loss leave and/or a reproductive loss shall remain confidential, except to internal personnel or counsel as necessary or as required by law.

Personal Necessity

Employees may use a maximum of seven days of accrued personal illness/injury leave (sick leave) during each school year for reasons of personal necessity. (Education Code 44981, 45207)

Acceptable reasons for the use of personal necessity leave include:

1. Death of a member of the employee's immediate family when the number of days of absence exceeds the limits set by bereavement leave provisions (Education Code 44981, 45207; Government Code 12945.7)

2. An accident involving the employee or the employee's property, or the person or property of a member of the employee's immediate family (Education Code 44981, 45207)

5. Fire, flood, or other immediate danger to the home of the employee

6. Personal business of a serious nature which the employee cannot disregard

Leave for personal necessity may be allowed for other reasons at the discretion of the Superintendent or designee. However, personal necessity leave shall not be granted for purposes of personal convenience, for the extension of a holiday or vacation, or for matters which can be taken care of outside of working hours. The Superintendent or designee shall have final discretion as to whether a request reflects personal necessity.

Advance permission shall not be required of an employee in any case involving the death of a member of the employee's immediate family, an accident involving the employee's person or property or the person or property of a member of the employee's immediate family, or the illness, preventive care, or other need of a member of the employee's family. (Education Code 44981, 45207)

For any leave that is planned, or for which the need is foreseeable, an employee shall notify the Superintendent or designee in advance. In all other circumstances, the employee shall notify the Superintendent or designee of the need for the leave as soon as practicable.

After any absence due to personal necessity, the employee shall verify the absence by submitting a completed and signed district absence form to the employee's immediate supervisor.

An employee may take time off work in order to: (Labor Code 230)

1. Serve on an inquest jury or trial jury

2. Comply with a subpoena or other court order to appear as a witness

Notices, summons, and subpoenas for court appearances shall be submitted to the district office when requesting leave.

A certificated employee shall be granted leave with pay to appear in court as a witness other than as a litigant or to respond to an official order from another governmental jurisdiction for reasons not brought about through the connivance or misconduct of the employee. Such an employee shall receive the difference between the employee's regular earnings and any witness fees received. (Education Code 44036)

Leaves for Crime Victims for Judicial Proceedings

An employee who is a victim of a crime or an immediate family member, registered domestic partner, or child of a registered domestic partner of such victim may be absent from work in order to attend related judicial proceedings, if the crime is any of the following: (Labor Code 230.2)

1. A violent felony as defined in Penal Code 667.5(c)

2. A serious felony as defined in Penal Code 1192.7(c)

3. A felony provision of law proscribing theft or embezzlement

For these purposes, the employee may use vacation, personal leave, personal illness/injury leave, unpaid leave, or compensatory time off that is otherwise available to the employee. (Labor Code 230.2)

Prior to taking time off, an employee shall give the Superintendent or designee a copy of the notice of each scheduled proceeding that is provided by the responsible agency, unless advance notice is not feasible. When advance notice is not feasible or an unscheduled absence occurs, the employee shall, within a reasonable time after the absence, provide documentation evidencing the judicial proceeding from the court or government agency setting the hearing, the district attorney or prosecuting attorney's office, or the victim/witness office that is advocating on behalf of the victim. (Education Code 44800; Military and Veterans Code 395; 20 CFR 1002.149)

Reinstatement Rights

At the conclusion of the military duty, an employee shall be promptly reinstated in the position held at the beginning of the leave, at the salary to which the employee would otherwise have been entitled, except under the conditions noted below in this section. (Education Code 44800; Military and Veterans Code 395, 395.2; 38 USC 4304, 4313; 20 CFR 1002.180-1002.181)

Any employee who performs active military duty in time of war, national emergency, or United Nations military or police operation has a right to return to the position held prior to the military service, during terminal leave prior to the employee's discharge, separation, or release from the armed forces, or within six months of the employee's release, separation, honorable discharge, or placement on inactive duty. Reinstatement rights shall not be extended to any such employee who fails to return within 12 months after the first date upon which the employee could terminate or could cause to have terminated active service. (Education Code 44800; Military and Veterans Code 395.1)

When an employee has been on military leave for reasons other than war or national emergency, the time frame for seeking reinstatement shall depend on the length of military service as follows: (38 USC 4312; 20 CFR 1002.115, 1002.118)

In the case of Items #2 and #3 where an application is required, the employee's application may be made orally or in writing and need not follow any particular format. (38 USC 4312; 20 CFR 1002.115, 1002.117, 1002.118)

An employee who is hospitalized for, or convalescing from, an illness or injury incurred in or aggravated during the performance of military service shall report for duty or submit an application for reinstatement at the end of the period that is necessary to recover from such illness or injury, but no more than two years after the completion of military service unless circumstances beyond the employee's control make reporting within the two-year period impossible or unreasonable. (38 USC 4312; 20 CFR 1002.116)

Upon receiving an application for reinstatement, the Superintendent or designee shall reinstate the employee as soon as practicable under the circumstances of the case, but within a time period not to exceed two weeks, absent unusual circumstances. (20 CFR 1002.181)

If the employee's previous position has been abolished, the district shall reinstate the employee in a position of like seniority, status, and pay, if such position exists, or to a comparable vacant position for which the employee is qualified. (Military and Veterans Code 395, 395.1; 38 USC 4313; 20 CFR 1002.192)

An employee who fails to report or apply for reinstatement within the appropriate period does not automatically forfeit the entitlement to reinstatement but shall be subject to the district's rules and/or practices governing unexcused absences. (38 USC 4312)

The Superintendent or designee may elect not to reinstate an employee following military leave if any of the following conditions exists:

1. The district's circumstances have so changed as to make such re-employment impossible or unreasonable, such as a reduction in force that would have included the employee. (38 USC 4312; 20 CFR 1002.139)

2. The accommodation, training, or effort described in 38 USC 4313(a)(3), (a)(4), or (b)(2)(B) would impose an undue hardship on the district as defined in 20 CFR 1002.5 or 1002.198. (38 USC 4312; 20 CFR 1002.139)

3. The employee's position was for a brief, nonrecurrent period and there was no reasonable expectation that such employment will continue indefinitely or for a significant period. (38 USC 4312; 20 CFR 1002.139)

4. The employee's cumulative length of absence and length of all previous military leave while employed with the district exceeds five years, excluding those training and service obligations specified in 38 USC 4312(c). (38 USC 4312; 20 CFR 1002.99-1002.103)

The basic minimum duration of leave for the birth, adoption, or foster care placement of a child shall be two weeks. However, the district shall grant a request for such leave of less than two weeks on any two occasions. (2 CCR 11090; 29 USC 2612)

The district may require an employee to transfer temporarily to an available alternative position under any of the following circumstances: (2 CCR 11041, 11090; 29 USC 2612)

1. The employee needs intermittent leave or leave on a reduced work schedule that is foreseeable based on a planned medical treatment for the employee or family member

2. A medical certification is provided by the employee's health care provider that, because of pregnancy, the employee has a medical need to take intermittent leave or leave on a reduced work schedule

3. The district agrees to permit intermittent leave or leave on a reduced work schedule due to the birth, adoption, or foster care placement of the employee's child

The alternative position must have equivalent pay and benefits and must better accommodate recurring periods of leave than the employee's regular job, and the employee must be qualified for the position. Transfer to an alternative position may include altering an existing job to better accommodate the employee's need for intermittent leave or a reduced work or leave schedule. (2 CCR 11041, 11090; 29 USC 2612)

Request for Leave

The district shall consider an employee's request for PDL or family care and medical leave only if the employee provides at least verbal notice sufficient to make the district aware of the need to take the leave and the anticipated timing and duration of the leave. (2 CCR 11050, 11091)

For family care and medical leave, the employee need not expressly assert or mention FMLA/CFRA to satisfy this requirement. However, the employee must state the reason the leave is needed (e.g., birth of child, medical treatment). If more information is necessary to determine whether the employee is eligible for family care and

medical leave, the Superintendent or designee shall inquire further and obtain the necessary details of the leave to be taken. (2 CCR 11091)

The district shall respond to requests for leave as soon as practicable, but no later than five business days after receiving the employee's request. (2 CCR 11091)

Based on the information provided by the employee, the Superintendent or designee shall designate the leave, paid or unpaid, as FMLA/CFRA qualifying leave and shall give notice of such designation to the employee. Failure of an employee to respond to permissible inquiries regarding the leave request may result in denial of CFRA protection if the district is unable to determine whether the leave is CFRA qualifying. (2 CCR 11091; 29 CFR 825.300)

When an employee is able to foresee the need for PDL or family care and medical leave at least 30 days in advance of the leave, the employee shall provide the district with at least 30 days advance notice before the leave. When the 30 days' notice is not practicable because of a lack of knowledge of when leave will be required to begin, a change in circumstances, a medical emergency, or other good cause, the employee shall provide the district with notice as soon as practicable. Failure of an employee to provide required notice may result in a denial of leave. (2 CCR 11050, 11091)

In all instances, the employee shall consult with the Superintendent or designee and make a reasonable effort to schedule, subject to the health care provider's approval, any planned appointment or medical treatment or supervision so as to minimize disruption to district operations. (Government Code 12945.2; 2 CCR 11050, 11091)

An eligible employee may request CFRA leave to care for a designated person with a serious health condition. The employee may identify the designated person at the time of the employee's request for the leave. The district may limit an employee to using CFRA leave to care for one designated person per 12-month period. (Government Code 12945.2; Labor Code 245.5)

Certification of Health Condition

Within five business days of an employee's request for family care and medical leave for the serious health condition of the employee or an eligible family member, the Superintendent or designee shall request that the employee provide certification by a health care provider of the need for leave. Upon receiving the district's request, the employee shall provide the certification within 15 calendar days, unless either the Superintendent or designee provides additional time or it is not practicable under the particular circumstances, despite the employee's diligent, good faith efforts. (2 CCR 11087, 11091; 29 CFR 825.305)

The certification shall include the following: (Government Code 12945.2; 2 CCR 11087; 29 USC 2613)

1. The date on which the serious health condition began

2. The probable duration of the condition

3. If the employee is requesting leave to care for an eligible family member with a serious health condition, both of the following:

    a. Statement that the serious health condition warrants the participation of the employee to provide care, such as by providing psychological comfort, arranging for third party care, or directly providing or participating in the medical care of the eligible family member during a period of the treatment or supervision

    b. Estimated amount of time the health care provider believes the employee needs to care for the eligible family member

4. If the employee is requesting leave because of the employee's own serious health condition, a statement that due to the serious health condition, the employee is unable to work at all or is unable to perform one or more essential job functions of the position

5. If the employee is requesting leave for intermittent treatment or on a reduced work or leave schedule for planned medical treatment, a statement of the medical necessity for the leave, the dates on which treatment is expected to be given, the duration of such treatment, and the expected duration of the leave

The Superintendent or designee shall not request any genetic information related to an employee except as authorized by law in accordance with the California Genetic Information Nondiscrimination Act of 2011. (Government Code 12940)

When an employee has provided sufficient medical certification to enable the district to determine whether the employee's leave request is FMLA/CFRA-eligible, the Superintendent or designee shall notify the employee within five business days whether the leave is FMLA/CFRA-eligible. The Superintendent or designee may also retroactively designate leave as FMLA/CFRA leave as long as appropriate notice is given to the employee and there is no harm or injury to the employee. (2 CCR 11091; 29 CFR 825.301)

If the Superintendent or designee has a good faith objective reason to doubt the validity of a certification that accompanies a request for leave for the employee's own serious health condition, the Superintendent or designee may require the employee to obtain a second opinion from a district-approved health care provider, at district expense. If the second opinion is contrary to the first, the Superintendent or designee may require the employee to obtain a third medical opinion from a third health care provider approved by both the employee and the district, again at district expense. The opinion of the third health care provider shall be final and binding. (Government Code 12945.2; 2 CCR 11091; 29 USC 2613)

Release to Return to Work

Upon expiration of an employee's PDL or family care and medical leave taken for the employee's own serious health condition, the employee shall present certification from the health care provider of the employee's ability to resume work. The certification shall address the employee's ability to perform the essential job functions of the position.

Rights to Reinstatement

Upon granting an employee's request for PDL or FMLA/CFRA leave, the Superintendent or designee shall guarantee to reinstate the employee in the same or a comparable position when the leave ends. (Government Code 12945.2; 2 CCR 11043, 11089; 29 USC 2614)

The district may refuse to reinstate an employee to the same or a comparable position if the FMLA/CFRA leave was fraudulently obtained by the employee. (2 CCR 11089; 29 CFR 825.216)

The district may refuse to reinstate an employee to the same position after taking PDL if, at the time the reinstatement is requested, the employee would not otherwise have been employed in that position for legitimate business reasons unrelated to the employee's PDL. (2 CCR 11043)

Maintenance of Benefits/Failure to Return from Leave

During the period when an employee is on PDL or family care and medical leave, the employee shall maintain employee status with the district and the leave shall not constitute a break in service for purposes of longevity, seniority under any collective bargaining agreement, or any employee benefit plan. (Government Code 12945.2; 2 CCR 11092; 29 USC 2614)

For up to a maximum of four months for PDL and 12 work weeks for other family care and medical leave, the district shall continue to provide an eligible employee the group health plan coverage that was in place before the employee took the leave. The employee shall reimburse the district for premiums paid during the leave if the employee fails to return to district employment after the expiration of all available leaves and the failure is for a reason other than the continuation, recurrence, or onset of a serious health condition or other circumstances beyond the employee's control. (Government Code 12945.2; 2 CCR 11044, 11092; 29 USC 2614; 29 CFR 825.213)

In addition, during the period when an employee is on PDL or family care and medical leave, the employee shall be entitled to continue to participate in other employee benefit plans including life insurance, short-term or long-term disability insurance, accident insurance, pension and retirement plans, and supplemental unemployment benefit plans to the same extent and under the same conditions as would apply to an unpaid leave taken for any other purpose. However, for purposes of pension and retirement plans, the district shall not make plan payments for an employee during any unpaid portion of the leave period and the leave period shall not be counted for purposes of time accrued under the plan. (Government Code 12945.2; 2 CCR 11044, 11092)

Military Family Leave Resulting from Qualifying Exigencies

An eligible employee may take up to 12 work weeks of unpaid FMLA/CFRA leave, during each 12-month period established by the district in the section entitled "Terms of Leave" above, for one or more qualifying exigencies while the employee's child, parent, spouse, or, for purposes of CFRA leave, registered domestic partner, who is a military member is on covered active duty or on call to covered active duty status. (Government Code 12945.2; 29 USC 2612; 29 CFR 825.126)

6. Spend time (up to 15 calendar days of leave per instance) with a military member who is on short-term, temporary, rest and recuperation leave during deployment

8. Care for a military member's parent who is incapable of self-care when the care is necessitated by the military member's covered active duty

9. Address any other event that the employee and district agree is a qualifying exigency

The employee shall provide the Superintendent or designee with notice of the need for the qualifying exigency leave as soon as practicable, regardless of how far in advance such leave is foreseeable. (29 CFR 825.302)

An employee who is requesting leave for qualifying exigencies shall provide the Superintendent or designee with a copy of the military member's active duty orders, or other documentation issued by the military, and the dates of the service. In addition, the employee shall provide the Superintendent or designee with certification of the qualifying exigency necessitating the leave. The certification shall contain the information specified in 29 CFR 825.309.

The employee's qualifying exigency leave may be taken on an intermittent or reduced work or leave schedule basis. (29 CFR 825.302)

During the period of qualified exigency leave, the district's rule regarding an employee's use of accrued vacation leave and any other accrued paid or unpaid time off, as specified in the section "Use/Substitution of Paid Leave" above, shall apply.

Military Caregiver Leave

The district shall grant an eligible employee up to a total of 26 work weeks of leave during a single 12-month period, measured forward from the first date the leave is taken, to care for a covered servicemember with a serious illness or injury. In order to be eligible for such military caregiver leave, the employee must be the spouse, child, parent, or next of kin of the covered servicemember. This 26-week period is inclusive of the 12 work weeks of leave that may be taken for other FMLA qualifying reasons. (29 USC 2611, 2612; 29 CFR 825.127)

2. For a veteran, an injury or illness incurred or aggravated by the member's service in the line of duty on active duty in the Armed Forces, including the National Guard or Reserves, that manifested itself before or after the member became a veteran and that is at least one of the following:

Such notice shall include, as applicable: (29 CFR 825.300)

(2 CCR 11091; 29 CFR 825.300)

In accordance with law, the Superintendent or designee shall ensure that district employment practices do not unlawfully discriminate on the basis of citizenship status or national origin, including, but not limited to, discrimination against any refugees, grantees of asylum, or persons qualified for permanent or temporary residency.

Policy 4312.1: Contracts

Status: DRAFT

Original Adopted Date: 07/01/2007 | **Last Revised Date:** 05/01/2017

The Board of Trustees recognizes the importance of employing qualified and competent individuals to manage district programs and to assist the Superintendent in coordinating efforts to achieve district goals and objectives. To that end, the Board may fill certificated administrative and supervisory positions and classified senior management positions on a contract basis.

The Board may offer a continuing contract of up to four years to any deputy, associate, or assistant superintendent; any certificated employee holding a position requiring a supervision or administration credential; or any senior manager of the classified service. (Education Code 35031, 44929.20)

Prior to entering into any such contract, the Board and Superintendent shall consider the financial impact of the contract on the district. The proposed contract shall also be reviewed by legal counsel to ensure that all legally required provisions are included in the contract and to address any potentially adverse obligations for the district.

The Board may deliberate in the closed session of a regular meeting about the terms of an employment contract for a deputy, associate, or assistant superintendent; other certificated employee holding a position requiring a supervision or administration credential; or a senior manager of the classified service. Discussions regarding salary, salary schedule, or other compensation may occur in the closed session of a regular meeting only between the Board and its designated representative(s), as permitted under Government Code 54957.6 (the "labor exception") for the purpose of reviewing the Board's position and/or instructing the designated representative(s) prior to or during bona fide negotiations with the employee. Such deliberations shall not be held during a special meeting. (Government Code 54956, 54957, 54957.6)

The Board shall take final action on an employment contract during an open session of a regularly scheduled Board meeting, and that action shall be reflected in the Board's minutes. At that meeting, prior to taking action, the Board shall orally report a summary of the recommendation for the final action on salary or compensation in the form of fringe benefits. (Government Code 3511.1, 53262, 54953)

Copies of any contract and other public records created or received in the process of developing the recommendation related to the salary, benefits, and other compensation shall be available to the public upon request. (Government Code 53262, 54953)

Extension of Contract/Reemployment

A contract shall be extended only by Board action and subsequent to a satisfactory evaluation of the employee's performance. No employment contract shall include a provision for automatic renewal of the contract.

During the term of the contract and with the consent of the employee involved, the Board may reelect or reemploy the employee starting on the next succeeding first day of July and based on terms and conditions mutually agreed upon by the Board and the employee. (Education Code 35031)

If the Board decides not to reelect or reemploy a deputy, associate, or assistant superintendent or a senior manager of the classified service upon the expiration of his/her term, it shall notify the employee in writing 45 calendar days prior to the expiration of the term of the contract. (Education Code 35031)

Termination of Contract

The Board may terminate an employment contract prior to its expiration date in accordance with the conditions and process specified in the contract.

Every employment contract shall include a provision specifying the legal maximum cash settlement that the employee may receive in the event that the contract is terminated prior to its expiration date. (Government Code 3511.2, 53260)

In addition, all employment contracts shall include a provision that, if the employee is convicted of a crime involving an abuse of his/her office or position, he/she shall fully reimburse the district for payments he/she receives as paid leave salary pending investigation or as cash settlement upon his/her termination and for any funds expended by the

(Government Code 3100-3102)

Regulation 4312.4: Health Examinations

Status: DRAFT

Original Adopted Date: 11/01/2009 | **Last Revised Date:** 12/01/2014

Tuberculosis Tests

No applicant shall be initially employed by the district, or employed under contract, in a classified or certificated position unless he/she has submitted to a tuberculosis risk assessment within the past 60 days and, if tuberculosis risk factors are identified, has submitted to an intradermal or other approved tuberculosis examination to determine that he/she is free of infectious tuberculosis. If the results of the examination are positive, the applicant shall obtain an x-ray of the lungs. At his/her discretion, an applicant may choose to submit to the examination instead of the risk assessment. (Education Code 49406)

Prior to employment by the district, an applicant shall submit a certificate from an authorized health provider stating that the applicant was assessed and/or examined and found to be free of infectious tuberculosis. (Education Code 49406)

An applicant who was previously employed in another school district or private or parochial school shall be deemed to have fulfilled the tuberculosis testing requirement if he/she produces a certificate showing that he/she was found to be free of infectious tuberculosis within 60 days of initial hire or if his/her previous employer verifies that it has a certificate on file showing that the applicant is free from infectious tuberculosis. (Education Code 49406)

Thereafter, each district employee who was found free of infectious tuberculosis shall undergo a tuberculosis risk assessment, and an examination whenever risk factors are identified, at least once every four years or more often when required by the Board of Trustees upon recommendation of the county health officer. However, once an employee has a documented positive test for tuberculosis infection followed by an x-ray, he/she shall no longer be required to submit to the tuberculosis risk assessment but shall be referred to the county health officer within 30 days of the examination to determine the need for follow-up care. (Education Code 49406)

The cost of the pre-employment tuberculosis risk assessment and/or examination shall be paid by the applicant, unless the Board has determined that the district will reimburse an applicant who is subsequently hired by the district. The district shall reimburse the employee for the cost, if any, of subsequent tuberculosis risk assessments and examinations. The district may provide for the risk assessment and examination or may establish a reasonable fee for the examination that is reimbursable to the employee. (Education Code 49406)

Whenever the district contracts for the transportation of students, the contract shall require that all drivers who will be transporting students complete the tuberculosis risk assessment and, if indicated, the examination for infectious tuberculosis within 60 days of initial hire. (Education Code 49406)

The following applicants or employees shall be exempted from the requirement to submit to a tuberculosis risk assessment and/or examination: (Education Code 49406)

1. An applicant/employee who files an affidavit stating that he/she adheres to the faith or teachings of a well-recognized religious sect, denomination, or organization and, in accordance with its creed, tenets, or principles, depends for healing upon prayer in the practice of religion and that, to the best of his/her knowledge and belief, he/she is free from infectious tuberculosis

   Such an exemption shall be allowed only if the Board determines by resolution, after a hearing, that the health of students would not be jeopardized. If at any time there is probable cause to believe that the applicant/employee is afflicted with infectious tuberculosis, he/she may be excluded from service until the Board is satisfied that he/she is not afflicted.

2. A pregnant employee who has positive results on a tuberculosis skin test, in which case she shall be exempted from the requirement to follow up with an x-ray of the lungs for a period not to exceed 60 days after the end of the pregnancy

Examination of Certificated Employees for Disabling Diseases

To fill a certificated position with an applicant who has not previously been employed in a certificated position in California, or with a retirant who has not been employed as a retirant, the district shall have on file a medical certification indicating that the applicant or retirant is free from any disabling disease which would render him/her

unfit to instruct or associate with children. (Education Code 44839, 44839.5)

The certificate shall be completed and submitted directly to the district by an authorized health care provider. The medical examination referenced in the certificate must have been conducted within six months of the date that the certificate is filed. (Education Code 44839, 44839.5; 5 CCR 5503)

Applicants and retirants shall pay for the cost of obtaining the medical certification. (Education Code 44849, 44839.5)

Certificated employees and/or retirants shall be required to periodically undergo, at district expense, a medical examination pursuant to Education Code 44839 or 44839.5 to determine that they are free from any communicable disease making them unfit to instruct or associate with children. (Education Code 44839, 44839.5)

Mental Examination for Certificated Employees

Whenever the Board is considering the suspension or transfer of a certificated employee based on its reasonable belief that the employee is suffering from mental illness of such a degree as to render him/her incompetent to perform his/her duties, the employee shall be offered the opportunity of being examined by a three-member panel of psychiatrists and psychologists in accordance with Education Code 44942. The employee shall select the members of the panel from a list of psychiatrists and psychologists provided by the district. The examination shall be conducted, at district expense, within 15 days of the ordered suspension or transfer. The employee shall submit to the examination, but shall also be entitled to present a report of any psychiatrist, psychologist, or physician of his/her own choice. (Education Code 44942)

Policy 4312.42: Drug And Alcohol Testing For School Bus Drivers

Status: DRAFT

Original Adopted Date: 02/01/1996 **| Last Revised Date:** 06/01/2021

The Board of Trustees desires to ensure that district-provided transportation is safe for students, staff, and the public. To that end, the Superintendent or designee shall establish a drug and alcohol testing program designed to prevent the operation of buses or the performance of other safety-sensitive functions by a driver who is under the influence of drugs or alcohol, including a driver of a school bus, student activity bus, or other school transportation vehicle or any other employee who holds a commercial driver's license which is necessary to perform duties related to district employment.

A driver shall not report for duty or remain on duty when the driver has used any drug listed in 21 CFR 1308.11. A driver is also prohibited from reporting for duty or remaining on duty when the driver has used any drug listed in 21 CFR 1308.12-1308.15, unless the driver is using the drug under the direction of a physician who has advised the driver that the substance will not adversely affect the driver's ability to safely operate a bus. (49 CFR 382.213)

In addition, a driver shall not consume alcohol while on duty and/or performing safety-sensitive functions, or for four hours prior to on-duty time. (49 CFR 382.205, 382.207)

Drivers shall submit to drug and alcohol testing as required under federal law and specified in the accompanying administrative regulation. The district's testing program for drivers shall include pre-employment drug testing and reasonable suspicion, random, post-accident, return-to-duty, and follow-up drug and alcohol testing of drivers. (49 USC 31306; 49 CFR 382.301-382.311)

The Board shall contract for testing services upon verifying that the personnel are appropriately qualified and/or certified and that testing procedures conform to federal regulations.

Except as otherwise provided by law, the Superintendent or designee shall not release individual test results or medical information about a driver to a third party without the driver's specific written consent. (49 CFR 40.321)

Consequences Based on Test Results

No driver shall be temporarily removed from the performance of safety-sensitive functions based only on a laboratory report of a confirmed positive test for a drug or drug metabolite before the certified medical review officer has completed verification of the test results, unless the district has obtained a waiver from the Federal Motor Carrier Safety Administration. (49 CFR 40.3, 40.21, 382.107, 382.119)

Any driver for whom the district receives a verified positive drug test result or who is found to have a blood alcohol concentration of 0.04 or higher shall be immediately removed from performing safety-sensitive functions in accordance with 49 CFR 40.23 and 382.211. An alcohol concentration between 0.02 and 0.04 requires temporary removal of the bus driver for a 24-hour period following the test. Any driver who refuses to take a required drug or alcohol test shall not be permitted to perform or continue to perform safety-sensitive functions. (49 CFR 40.23, 382.211)

Not later than five days after receiving notification of the test result or refusal to comply, the Superintendent or designee shall report any refusal, failure to comply, or positive test result to the California Department of Motor Vehicles (DMV) using a form approved by the DMV. (Vehicle Code 13376)

A driver who has violated federal drug and alcohol regulations may be subject to disciplinary action up to and including dismissal in accordance with law, administrative regulations, and the district's collective bargaining agreement.

Any driver provided with an opportunity to return to a safety-sensitive duty following a violation shall be evaluated by a qualified substance abuse professional and complete the evaluation recommendations before returning to such duty. (49 CFR 40.289)

If the substance abuse professional recommends that further and ongoing services are needed to assist the driver to maintain sobriety or abstinence from drug use, the Superintendent or designee shall require the driver to participate in the recommended services as part of a return-to-duty agreement and shall monitor the driver's compliance. Any drop from a rehabilitation or return-to-duty program or a subsequent positive test result shall be reported to the

DMV. (Vehicle Code 13376; 49 CFR 40.285, 40.287, 40.303, 382.605)

Voluntary Self-Identification

Whenever a driver admits to alcohol or drug misuse under the district's voluntary self-identification program, the Superintendent or designee shall ensure all of the following: (49 CFR 382.121)

1. No adverse action shall be taken against the driver by the district.

2. The driver shall be allowed sufficient opportunity to seek evaluation, education, or treatment to establish control over the drug or alcohol problem.

3. The driver shall be permitted to participate in safety-sensitive functions only after:

    a. Successfully completing an education or treatment program, as determined by a drug and alcohol abuse evaluation expert, such as an employee assistance professional, substance abuse professional, or qualified drug and alcohol counselor

    b. Undergoing a return-to-duty test with a result indicating an alcohol concentration of less than 0.02 and/or a verified negative result for drug use

A driver who admits to alcohol or drug misuse shall not be subject to federal requirements related to referral, evaluation, and treatment, provided that the driver does not self-identify in order to avoid drug or alcohol testing, makes the admission prior to performing a safety-sensitive function, and does not perform a safety-sensitive function until the driver has been evaluated and has successfully completed education or treatment requirements in accordance with program guidelines. (49 CFR 382.121)

Regulation 4312.42: Drug And Alcohol Testing For School Bus Drivers

Status: DRAFT

Original Adopted Date: 08/01/2013 **| Last Revised Date:** 06/01/2021

Definitions

For purposes of drug testing required by the U.S. Department of Transportation (DOT), drugs include marijuana, cocaine, amphetamines, phencyclidine (PCP), and opioids. (49 CFR 40.3, 40.85, 382.107)

Alcohol concentration (or content) means the alcohol in a volume of breath expressed in terms of grams of alcohol per 210 liters of breath as indicated by an evidential breath test. (49 CFR 40.3, 382.107)

Safety-sensitive function means all time from the time the driver begins to work or is required to be in readiness to work until the time the driver is relieved from work and all responsibility for performing work. Safety-sensitive functions include, but are not limited to, all time driving or otherwise in the bus or other school transportation vehicle; waiting at a district facility to be dispatched; inspecting, servicing, or conditioning the vehicle or vehicle equipment; loading or unloading the vehicle; supervising or assisting in the loading or unloading of the vehicle; and repairing, obtaining assistance, or remaining in attendance upon a disabled vehicle. (49 CFR 382.107)

Designated Employer Representative

The Superintendent or designee shall identify a designated employer representative who is authorized to take immediate action to remove drivers from safety-sensitive functions and to make required decisions in the testing and evaluation processes. The designated employer representative shall also be responsible for receiving test results and other communications. The name and telephone number of the designated employer representative shall be provided to the testing contractor to contact about any problems or issues that may arise during the testing process. (49 CFR 40.35, 40.215)

Pre-employment Testing

When hiring a new driver, the Superintendent or designee shall, with the driver's written consent, conduct a pre-employment query using the Commercial Driver's License Drug and Alcohol Clearinghouse to obtain information about whether the driver has committed a violation of federal drug or alcohol regulations. (49 CFR 382.701)

The Superintendent or designee shall also, with the driver's consent, request the driver's past drug and alcohol testing record, as specified in 49 CFR 40.25 and 382.413, from any employer who has employed the driver at any time during the previous three years. To the extent practicable, the Superintendent or designee shall obtain and review such information before the driver first performs safety-sensitive functions. In addition, the Superintendent or designee shall ask the driver if there was a positive test, or a refusal to test, on any pre-employment drug or alcohol test that was administered during the past two years in the course of applying for another safety-sensitive transportation position that was not obtained. (49 CFR 40.25, 382.413)

The driver shall not be permitted to perform safety-sensitive functions if the driver refuses to provide consent to obtain the information from previous employers or from the Clearinghouse; the information from previous employers is not received within 30 days of the date on which the driver first performed safety-sensitive functions for the district; or the driver, the Clearinghouse, or a previous employer reports a violation of a drug or alcohol regulation without subsequent completion of the return-to-duty process. (49 CFR 40.25, 382.413, 382.701, 382.703)

A driver whom the district intends to hire or use shall undergo testing for drugs and receive a verified negative test result prior to the first time the driver performs safety-sensitive functions for the district. This testing requirement may be waived if all of the following conditions exist: (49 CFR 382.301)

1. The driver has participated in a qualified drug testing program within the previous 30 days.

2. While participating in the program, the driver either was tested within the past six months from the date of application or participated in a random drug testing program for the previous 12 months from the date of application.

3. No prior employer of the driver of whom the district has knowledge has records of the driver's violation of

federal drug testing regulations within the previous six months.

The Superintendent or designee shall contact the testing program(s) in which the driver has participated and obtain information about the program and the driver's participation as specified in 49 CFR 382.301.

In addition, the Superintendent or designee shall require the driver to undergo pre-employment alcohol testing in accordance with the procedures in 49 CFR 40.1-40.605 and to receive a test result indicating an alcohol concentration of less than 0.04. (49 CFR 382.301)

Post-Accident Testing

As soon as practicable following an accident involving a school bus or student activity bus, the Superintendent or designee shall ensure that the driver involved is tested for alcohol and/or drugs under either of the following conditions: (49 CFR 382.303)

1. The accident involved loss of human life.

2. The driver receives a citation for a moving traffic violation within eight hours of the accident and the accident involved bodily injury to a person who required immediate medical treatment away from the scene of the accident and/or disabling damage to one or more vehicles requiring towing.

The Superintendent or designee shall attempt to administer a required alcohol test up to eight hours following the accident and/or a drug test up to 32 hours following the accident. The results of an alcohol or drug test conducted by federal, state, or local officials having independent authority for the test shall be considered to meet this requirement. If the alcohol test is not administered within two hours following the accident, or the test for drugs is not administered within 32 hours following the accident, the Superintendent or designee shall make a record stating the reasons the test was not promptly administered. (49 CFR 382.303)

No driver required to take a post-accident alcohol test pursuant to 49 CFR 382.303 shall use alcohol for eight hours following the accident or until the driver undergoes a post-accident alcohol test, whichever occurs first. (49 CFR 382.209)

Random Testing

The Superintendent or designee shall ensure that random, unannounced drug and alcohol tests of bus drivers are conducted on testing dates reasonably spread throughout the year.

Such tests shall be unannounced and conducted during, immediately before, or immediately after the performance of safety-sensitive functions. (49 CFR 382.305)

The Superintendent or designee shall ensure that the percentage of district drivers randomly tested for drugs and alcohol meets or exceeds the minimum annual percentage rates specified in 49 CFR 382.305 or subsequently published in the Federal Register.

Each driver selected for random testing shall have an equal chance of being tested each time selections are made. (49 CFR 382.305)

Each driver who is selected for testing shall proceed to the test site immediately or, if performing a safety-sensitive function other than driving a bus, then as soon as possible after ceasing that function. (49 CFR 382.305)

Reasonable Suspicion Testing

A driver shall be required to submit to a drug or alcohol test whenever the Superintendent or designee has reasonable suspicion that the driver has violated the prohibitions against the use of drugs or alcohol. Such reasonable suspicion shall be based on specific, contemporaneous, articulable observations, conducted during, immediately before, or immediately after the performance of safety-sensitive functions, concerning the driver's appearance, behavior, speech, and/or body odors. Reasonable suspicion of drug use may also include indications of the chronic and withdrawal effects of drugs. (49 CFR 382.307)

The person who makes the required observations for reasonable suspicion testing for drugs or alcohol shall be trained in accordance with 49 CFR 382.603. The person who makes the determination that reasonable suspicion

exists to conduct an alcohol test shall not be the same person who conducts the alcohol test. (49 CFR 382.307)

Within 24 hours of the observed behavior or before the results of the drug or alcohol test are released, whichever is earlier, a written record of the observations leading to a reasonable suspicion test shall be made and signed by the person who made the observations. (49 CFR 382.307)

An alcohol test required as a result of reasonable suspicion shall be administered within eight hours following the determination of reasonable suspicion. If the test is not administered within two hours, the Superintendent or designee shall prepare and maintain on file a record stating the reasons the test was not promptly administered. (49 CFR 382.307)

In the absence of a reasonable suspicion alcohol test, the district shall take no action against a driver based solely on the driver's behavior and appearance, except that the driver shall not be allowed to report for or remain on safety-sensitive functions until an alcohol test is administered and the results show a concentration less than 0.02 or 24 hours have elapsed following the determination of reasonable suspicion. (49 CFR 382.307)

Return-to-Duty Testing

The Superintendent or designee may permit a driver who has violated federal drug or alcohol regulations to return to safety-sensitive functions after the driver has successfully complied with the education and treatment services prescribed by a substance abuse professional and has taken a return-to-duty drug or alcohol test. The driver shall not resume performance of safety-sensitive functions unless the drug test shows a negative result and/or the alcohol test shows a concentration of less than 0.02. (49 CFR 40.305, 382.309)

Follow-Up Testing

Upon receiving a written follow-up testing plan from a substance abuse professional, the Superintendent or designee shall determine the actual dates for follow-up testing consistent with those recommendations and shall ensure that such tests are unannounced and follow no discernable pattern as to their timing. No additional tests beyond those included in the plan shall be imposed by the district. (49 CFR 40.307-40.309, 382.111)

Mandatory Reporting and Annual Queries to the Drug and Alcohol Clearinghouse

The Superintendent or designee shall report to the Clearinghouse any violation of federal drug and alcohol regulations, any refusal to test, and other required information by the close of the third business day following the date on which the information was obtained. (49 CFR 382.705)

The Superintendent or designee shall conduct a query using the Clearinghouse at least once a year for all drivers to determine whether information exists in the Clearinghouse about the drivers. (49 CFR 382.701)

In lieu of a full query, the Superintendent or designee may obtain the individual driver's consent to conduct a limited query that is effective for more than one year and informs the district about whether there is information about the driver in the Clearinghouse without releasing that information to the district. If the limited query shows that information exists in the Clearinghouse about the individual driver, the Superintendent or designee shall conduct a full query within 24 hours of conducting the limited query. If a full query is not conducted within 24 hours, the driver may not perform any safety-sensitive function until the results from a full query confirm that the driver may perform such functions. (49 CFR 382.701)

A driver may not perform any safety-sensitive function if the results of a Clearinghouse query demonstrate that the driver has committed a violation of federal drug or alcohol regulations. (49 CFR 382.701)

Notifications

The Superintendent or designee shall provide each driver with materials explaining the federal regulations and the district's policy and procedure related to drug and alcohol testing and shall notify representatives of employee organizations of the availability of this information. This information shall include a detailed discussion of at least the following: (49 CFR 382.113, 382.303, 382.601)

1. The identity of the person designated by the district to answer driver questions about the materials

2. The categories of drivers who are subject to drug and alcohol testing

3. Sufficient information about the safety-sensitive functions performed by those drivers to make clear what period of the workday the driver is required to be in compliance

4. Specific information concerning prohibited driver conduct

5. The circumstances under which a driver will be tested for drugs and/or alcohol, including post-accident testing

6. The procedures that will be used to test for the presence of drugs and alcohol, protect the driver and the integrity of the testing processes, safeguard the validity of the test results, and ensure that those results are attributed to the correct driver

7. The requirement that a driver submit to drug and alcohol tests

8. An explanation of what constitutes a refusal to submit to a drug or alcohol test and the attendant consequences

9. The consequences for drivers found to have violated the prohibitions against drug or alcohol use, including the circumstances under which drivers will be removed immediately from safety-sensitive functions and the requirements for education, treatment, and return-to-duty testing

10. The consequences for drivers found to have a blood alcohol concentration between 0.02 and 0.04

11. Information concerning the effects of drug and alcohol use on an individual's health, work, and personal life; signs and symptoms of a drug or alcohol problem (the driver's or a co-worker's); and available methods of intervening when a drug or alcohol problem is suspected, including confrontation, referral to any employee assistance program, and/or referral to management

The Superintendent or designee shall provide the applicant with a Live Scan request form and a list of nearby Live Scan locations.
