Federal Funds

Supplement, Not Supplant Methodology

County-District #: 101921

LEA Name: Tomball ISD

School Year: 2023-2024

Supplement, Not Supplant (SNS) Methodology

Purpose:

The Supplement, Not Supplant (SNS) Methodology described in this document is used to ensure that State and local funds are distributed in such a way that each Title I campus receives all of the State and local funds that it would receive in the absence of Title I funds.

(1) IN GENERAL –A State educational agency or local educational agency shall use Federal funds received under this part only to supplement the funds that would, in the absence of such Federal funds, be made available from State and local sources for the education of students participating in programs assisted under this part, and not to supplant such funds.

Tomball ISD has adopted the following policies to assure compliance with regulations regarding Federal funds:

[EHBD \(LEGAL\)](#)

[EHBD \(LOCAL\)](#)

(2) COMPLIANCE. –To demonstrate compliance with paragraph (1), a local educational agency shall demonstrate that the methodology used to allocate State and local funds to each school receiving assistance under this part ensures that such school receives all of the State and local funds it would otherwise receive if it were not receiving assistance under this part.

Assurance:

The LEA assures that—

- ☒ any State and local funds that are retained at the LEA level will be used in a Title I neutral manner; and
- ☒ any Title I, Part A funds that are reserved at the LEA level will be used only for Title I, Part A purposes, as indicated in the LEA's approved ESSA Consolidated Federal Grant Application.

As part of Tomball ISD's priority-based budget process, the District uses the following methodology to allocate state and local funds to district and campus programs without regard to participation in the Title I, Part A program.

*Distribution by Personnel and Non-personnel Expenditures
(per-personnel position plus per-pupil).*

The annual budget process is a major activity in moving the District and its organizational units toward the achievement of strategic goals designed to improve student learning. In essence, the budget process is the translation of the planning process into financial terms and measurements. Tomball ISD focuses on the following priorities when financially planning for the school year:

1. Sustainability of existing staff
2. Hiring need for the projected student enrollment growth
3. Class-reduction teachers for campuses with greatest number of at-risk students
4. Innovative programs

The District prioritizes campus staffing because we understand that providing smaller student-teacher ratios in all classrooms increases student academic achievement. The average student-teacher ratio for Tomball ISD is 16:1 K-12 in comparison to the State's mandated 22:1 for K-4.

It is understood that the LEA must provide sufficient State and local funds to campuses in order to provide a free, public education, in the absence of Title I, Part A funds.

Description of methodology:

The basis on which State and local funds are allocated:

- ☐ DISTRICTWIDE or
- ☒ CAMPUS CATEGORY

The type of methodology used:

- ☒ SIMPLE FLAT AMOUNT PER-PUPIL
- ☐ WEIGHTED PER-PUPIL
- ☐ PERSONNEL-NONPERSONNEL COSTS

Description of criteria used: Tomball ISD (LEA) used a simple per-pupil amount for all campuses in Tomball ISD (LEA). The per-pupil amount is multiplied by the campus enrollment amount to identify the campus allocation for the school year.

Tomball ISD spends approximately 87 percent of general fund expenditures on payroll related expenses.

Accreditation

Tomball Independent School District and Wildwood ES are fully [accredited](#) by the Texas Education Agency with no warnings or probationary sanctions for the district nor any campuses.

Tomball ISD is a Texas Education Agency District of Innovation.

Campus and Program Description

Wildwood was established in 2015, with approximately 770 students. In the past 10 years, Wildwood continues to experience growth in student enrollment. This year Wildwood has approximately 820 students enrolled on campus. Special programs provided on campus include Prekindergarten, Early Childhood Special Education (ECSC), Structured Learning Lab (SLL), and an Adaptive Behavior (AB) Program. This is our sixth year of Implementation for Great Expectations. In 2020-2021, Wildwood reached the Model School status for Great Expectations. The majority of Wildwood faculty and staff have attended the GE training offered. All teachers have the 8 expectations posted in the classrooms along with the life principles and quotes that go with the life principles. With the implementation of the PLC process at Wildwood, we have identified our essential learning targets for Math, Reading, and Writing to focus on critical learning standards.

Wildwood uses the essential learning targets to establish intervention and extension groups to meet the needs of all students. A focus of high-quality instruction is evident throughout the building. The teachers receive ongoing professional development during collaborative sessions and faculty meetings to move our practices and capacity forward continuously. Not only are the teachers learning and growing, but the majority of the students are setting appropriately challenging goals for learning to inspire and encourage our young learners.

Data Analysis and Comprehensive Needs Assessment

Data Action is structured around a multidimensional “data cube” which represents the dynamic relationship between all students, teachers, and standards. Data Action starts with an analysis of integrated data sources through which district needs are identified. The District Improvement Plan is based on a comprehensive needs assessment of the entire school that takes into account information on the academic achievement of children in relation to challenging State academic standards, particularly the needs of those children who are failing, or are at-risk of failing, to meet the challenging State academic standards and any other factors as determined by the district. The needs are assessed to determine what is the root cause which drives the current results. Lastly, strategies are developed to address those root causes. Action items are detailed to monitor timelines, responsibility, and resources, and a SMART goal is established to measure efficacy.

Effective Schools Framework (ESF)

At the core of effective schools is effective instruction: interactions between students, teachers, and content determine learning outcomes. This instructional core is strengthened and supported by effective, well-supported teachers, high-quality curriculum, and positive school culture. Strong school leadership and careful planning encompass and ensure each of these prioritized levers.

The [Effective Schools Framework](#) consists of a set of district commitments and, for schools, essential actions. District Commitments describe what local education agencies do to ensure that schools are set up for success. The Essential Actions describe what the most effective schools do to support powerful teaching and learning. The ESF framework is rooted in the continuous improvement process.

ESF Theory of Action

BUILD A COMMON VISION

The Effective Schools Framework builds a common vision with clarity and specificity to codify the best practices that effective Texas schools engage in daily.

ASSESS

Campuses should assess current campus practices to the aspiration language of the Essential Actions in the Effective Schools Framework. This practice will act as a needs assessment to determine strengths and areas of growth. To ensure campuses and districts are appropriately prioritizing the highest leverage actions for continuous improvement efforts, the ESF Diagnostic Process serves as an effective tool to clearly identify strengths and areas of growth through the lens of an unbiased ESF Facilitator.

PRIORITIZE GAPS

Once a campus has assessed their current practices, they will prioritize 2 – 3 Essential Actions to prioritize their focus. Prioritization can be identified through a big gap/small gap analysis to narrow the focus on highest leverage actions that lead to improved systems and student outcomes.

CONNECT WITH CAPACITY BUILDERS

Capacity building is a key part of the school improvement process. Campuses can partner with Vetted Improvement Partners (VIPs) or Education Services Centers (ESCs) who offer services to help improve campus practices and procedures aligned to specific essential actions of the Effective Schools Framework.

TARGETED SUPPORT

Accountability is the foundation to success in any change effort. Districts and campuses should establish an ongoing targeted support plan throughout their continuous improvement efforts.

	High Quality Instructional Materials and Assessments	All students engage daily with TEKS-aligned, high-quality instructional materials, and assessments that support learning at appropriate levels of rigor.
	Effective Instruction	Campus leaders provide teachers with job-embedded professional development, including observation and feedback cycles, and access to time and data needed to reflect, adjust, and deliver instruction that meets the needs of all students.

These codes include those specified by TEA as mandatory expulsion incidents in the [Unsafe School Choice Option Guidance Handbook](#). Codes 59 and 61 are also monitored by TEA.

Campuswide Reform Strategies and SMART Goals

The Campus will implement the following campus-wide reform strategies to address campus needs and provide opportunities for all children, including each of the subgroups of students (economically disadvantaged students, students from major racial and ethnic groups, children with disabilities, English learners, and at-risk students) to meet the challenging State academic standards. The Campus will particularly address the needs of those at-risk of not meeting the challenging State academic standards. This Campus will use methods and instructional strategies to strengthen the academic program in the Campus, increase the amount and quality of learning time, and help provide an enriched and accelerated curriculum which may include programs, activities, and courses necessary to provide a well-rounded education.

Goal 1	<i>The percentage of third and fourth-grade students performing at or above grade level in reading as measured by Meets Grade Level Standard on STAAR will increase 5% from 85% in spring 2025 to 90% in spring 2026, and Masters will increase 5% from 55% to 60%.</i>

Staff Development Needs

Summary of Needs:

The district addresses the Excellent Educators for All Initiative (Title I, Part A under the Every Student Succeeds Act) by developing goals and strategies to decrease the equity gaps as they relate to low-income students and students of color being taught at higher rates than other students by inexperienced, out-of-field, and ineffective teachers. It does not matter what classroom these students walk into – in Tomball ISD, an effective teacher awaits them. In order to successfully implement the CIP for 2025-2026, professional development, including teacher-led training is required for teachers and administrators in the major areas of collaboration, infused technology, multiple pathways to teaching and leading, meaningful evaluation and support, strong teacher leadership, mentoring, instructional leadership.

The professional learning and development provided for all staff members is aligned to district Goals, Priorities contained in the Destination 2030 strategic plan, and designed to support the TISD Boulders.

Future Ready Learners:

Specific sessions aligned to this priority are designed to address CTE and CCMR outcomes.

Responsive and Personalized Learning:

Collaborative practices and coaching related to these practices is a focus to support the instructional design process and to ensure collaboration and high quality instruction in each classroom.

Social, Emotional, and Safety Welfare of the Whole Child:

Campus Staff Development Needs

Staff development has been identified as one of the strategies to meet the assessed needs addressed in this improvement plan. Summarize below what those campus staff development needs are. The Campus Improvement Team must approve this portion of the Campus Improvement Plan.

Date of CIT Approval: 9/11/2025

Summary of Needs:

Our campus is continuing to learn and grow in the areas of academic vocabulary development and increasing depth of knowledge through depth and complexity strategies. In addition, staff are strengthening practices in Emergent Bilingual strategies, the implementation of Strategic WIN Time, and the intentional use of exit tickets and exemplars to guide instruction and monitor learning. These areas will remain a key focus of professional development during faculty meetings and will also be intentionally reinforced during collaborative team meetings.

Waivers

Tomball ISD has requested and been approved by the Commissioner of Education for the following waivers allowable through the Texas Education Code and the Texas Administrative Code:

Waiver Type	Reason	Expires	Description
Foreign Exchange Student (5 or more)	Financial or staffing hardship / diminish high quality services / competition for resources	2027	Allows the district to limit the number of foreign exchange students to 5 per high school.
Modified Schedule State Assessment Testing Days	STAAR EOC testing day schedules	2027	This waiver allows the district or charter school to modify the schedule of classes on State Assessment testing days during the school year to reduce interruptions during testing periods.
Texas Data Portal of Texas Assessment Management System	Use of Eduphoria Aware	2027	This waiver allows school districts and charter schools to apply for a waiver of participation in the teacher portal component of the Texas Assessment Management System. A waiver is granted if a district or charter school can provide assurance that the local teacher data portal meets the statutory requirements.
Staff Development General	Professional Development	2026	Each district and open-enrollment charter school may choose how to apply their approved Staff Development Minutes Waiver. For instance, schools may choose to offer early release, late start, all day staff development, or a combination. However, the total waiver minutes for staff development shall not exceed 2,100 minutes per year. This waiver is for staff development in place of student instruction; therefore, the waiver minutes are only applicable to staff development provided instead of student instruction during the school year. Effective with the 2019-2020 school year, the Staff Development Minutes Waiver may not be used prior to the first day of student instruction or after the last day of student instruction.

District of Innovation

Tomball ISD is an approved Texas Education Agency District of Innovation. Districts of Innovation may be exempt from state statutes to:

- take greater local control in decision-making about the educational and instructional model for students
- have increased autonomy from state mandates that govern educational programming
- be empowered to innovate and plan differently – to think outside of the box

The Tomball ISD renewal plan will be in effect for the 2022-2023 school year through the 2026-2027 school year. This plan may be amended at any time by the committee with the approval of the Board of Trustees.

Statutory Exemption	Texas Education Code/ Tomball ISD Board Policy	Proposed Innovation
1. OPERATION OF SCHOOL AND SCHOOL ATTENDANCE	TEC 25.0811 EB(LEGAL)	To allow for a calendar that fits the local needs of our community, we would like to consider moving the mandatory start date back one week which would better benefit our students. a. Students will begin no earlier than the <u>2nd</u> Monday of August. b. Teachers will begin no earlier than the <u>1st</u> Monday of August. c. This will allow the first and second semesters to be closer in the number of days of instruction. d. The goal is to improve the district attendance rate and student success through the flexibility in the calendar. e. Flexible start dates and times will accommodate Early College High School schedules.
2. SUBMITTING WAIVERS FOR KINDERGARTEN – GRADE 4 CLASS SIZE	TEC 25.111 TEC 25.112 TEC 25.113 EEB(LEGAL)	While we certainly believe that small class size plays a positive role in the classroom, we do not believe it has a negative effect when you only add one or two more students. Many times it is not the number of the students but the makeup and chemistry of the classroom which influence the learning environment. a. TISD will attempt to keep all K-4th core classrooms to a 22:1 ratio. However, in the event the class size exceeds this ratio, the superintendent will report to the Board of Trustees. b. In the event a K-4th core classroom reaches 24:1, the campus will notify the parents of the number of students in the classroom and inform them of the situation. c. A TEA waiver will not be necessary when a K-4th classroom exceeds the 22:1 ratio. d. This gives TISD flexibility without having to apply for waivers within the Texas Education Agency.

3. TEACHER CERTIFICATION	TEC 21.003a TEC 21.057a-e (DK LEGAL) (DK LOCAL) (DK EXHIBIT)	In order to best serve TISD students and allow more flexibility in our scheduling and class offerings, certification issues will be handled locally. a. The campus principal may submit to the superintendent a request to allow a certified teacher to teach one subject out of their certified field. The principal must specify in writing the reason for the request and document what credentials the certified teacher possesses which qualify this individual to teach this subject. b. Flexibility with personnel on Title I campuses per ESSA guidelines. c. In exceptional circumstances, when a certified educator is not found for a unique or innovative class, the campus principal may submit to the superintendent a request for local certification that will allow a non-certified yet highly qualified professional to teach OR a certified educator to teach a subject in a related field for which she or he is not credentialed by the state. d. A teacher certification waiver, state permit applications or other paperwork will not be submitted to the Texas Education Agency.
4. IMPLEMENT A LOCAL TEACHER AND ADMINISTRATOR APPRAISAL SYSTEM	TEC 21.203 TEC 21.352 DNA(LEGAL)	a. Tomball ISD will follow a modified TTESS and TPESS as a localized Teacher Appraisal System and an Administrator Appraisal System, which are better aligned with the Tomball ISD strategic goals and student assessments. This exemption would allow flexibility to evaluate various performance measures, including classroom observations, goal setting and tracking, and collective student growth progress toward identified learning objectives. The local system will be detailed in Board Policy DNA(LOCAL) and accompanying documents.
5. CAMPUS BEHAVIOR COORDINATOR	TEC 37.0012 FO(LEGAL)	The proposal is for the District to seek exemption from the statute requiring each school to have a designated campus behavior coordinator. The relationships that are established between the campus administrator, counselor, student, and parent are the foundation for promoting and maintaining positive behavior. Utilizing a local district process allows the administrator who currently has a relationship with the parent and student to be the person to make parental contact. The administrator notifies the parent of discipline or behavior concerns, rather than having contact by a campus behavior coordinator, who may not know all the students, providing a much more individual and personal approach.

6. INTER-DISTRICT TRANSFERS	TEC 25.036 FDA(LEGAL)	Texas Education Code 25.036 and Tomball ISD Board Policy FDA (Local) currently allow for inter-district student transfers. Under Section 25.036, a transfer is interpreted to be for one school year. However, in rare instances, a transfer appears not to be in the best interest of the student, the students of Tomball ISD, and the District when the transferred student engages in behavior that warrants significant discipline, does not attend needed interventions, and/or has attendance that falls below the TEA truancy standard. In those rare instances, Tomball ISD seeks the ability to revoke the transfer during the one school year time period. Proposed Innovation: Tomball maintains an inter-district transfer policy under Board Policy FDA (Local) requiring nonresident students wishing to transfer to file a transfer application for each school year, and in approving transfer requests, the Superintendent or designee shall consider the availability of space and instructional staff and the student's disciplinary history and attendance records. Under Policy FDA, transfer students are expected to follow the rules and regulations of the District. The District is seeking to eliminate the provision of a one-year commitment in accepting an inter-district transfer for the following circumstances: - student behavior warrants suspension (in or out of school), placement in a disciplinary alternative program, or expulsion; and/or - student has not attended required interventions (if needed); and/or - student attendance falls below the TEA truancy standard.
