#### 1. Narrative description of the Prop 28 arts education program(s) funded. (2500 character limit).

Prop 28 funds enabled the district to expand equitable, standards-aligned arts education across middle and high schools. We increased access during and after school and removed cost barriers for supplies, equipment, and experiences. Students engaged in music, theater, visual arts, dance, and digital media. Baile folklórico operates at two middle schools and one high school, with additional dance options districtwide. Music programs added upgraded instruments and digital tools. Visual arts expanded through ceramics, graphic design, digital art, mixed media, and campus murals. For example, Salinas High offers after-school ceramics and theater where students design costumes, build sets, and attend local productions. Community partnerships brought artists to students, including Artist Ink and mariachi ensembles that mentor youth and model arts careers. Students perform and exhibit at district and community events such as the Honor Choir and Band concerts. Field trips, with transportation and entry fees covered, connected classroom learning to professional arts. Artists and contractors provided real-world guidance on murals and productions. Prop 28 supported teacher learning through conferences and targeted training that strengthen curriculum and assessment. Districtwide, these investments increased participation, improved learning environments, and nurtured creativity and cultural pride. We will maintain our equipment, continue to offer after-school access, and sustain partnerships so that every student can explore and grow through the arts.
