| <b>Problem Statement 2:</b> There appears to be a gap in the understanding among staff, students and parents regarding the safety protocols established at the district, campus, and classroom levels. Additionally, awareness of the resources available to support safety and well-being within the school community remains limited. <b>Root Cause:</b> A possible lack of clear, accessible, and consistent messaging, limited opportunities for engagement and training, and inadequate dissemination of information through channels that effectively reach all families. |

**Goal 3:** All students and staff will learn and work in a safe and responsive environment.

**Performance Objective 3:** The campus will meet all compliance requirements for improvement planning.

**Evaluation Data Sources:** Annual review of improvement plan requirements

|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> The 2024-2025 end-of-year average daily attendance was 94.7%, representing an improvement, yet remaining slightly below the district goal of 95%. <b>Root Cause:</b> While Holiday Heights benefits from strong family and community engagement, student academic performance has not consistently met state standards. Gaps in achievement are influenced by inconsistent attendance and chronic absenteeism, which limit learning opportunities. |

## Perceptions

**Problem Statement 2:** There appears to be a gap in the understanding among staff, students and parents regarding the safety protocols established at the district, campus, and classroom levels. Additionally, awareness of the resources available to support safety and well-being within the school community remains limited. **Root Cause:** A possible lack of clear, accessible, and consistent messaging, limited opportunities for engagement and training, and inadequate dissemination of information through channels that effectively reach all families.

# State Compensatory

## Budget for Holiday Heights Elementary

**Total SCE Funds:**

**Total FTEs Funded by SCE: 2.8**

## Demographics

### Demographics Summary

Jack C. Binion Elementary School is located in Richland Hills, Texas, a suburban city in the northeastern part of Tarrant County. The school is part of the Birdville Independent School District and serves the local community, providing education to elementary-aged children. The area around the school is primarily residential, characterized by single-family homes and parks, making it a family-friendly environment. The school is situated within a vibrant community that supports educational development and student growth.

### Demographics Strengths

Jack C. Binion Elementary School boasts several key strengths that contribute to its vibrant learning environment and support its school improvement plan:

The school serves a richly diverse student body, which enhances cultural understanding and fosters an inclusive atmosphere. This diversity allows for broader perspectives and experiences, enriching classroom discussions and peer interactions.

Jack C. Binion Elementary's teaching staff is a mix of new and experienced educators. This balance promotes a dynamic learning environment where innovative teaching methods are implemented alongside proven strategies, benefiting student engagement and learning outcomes.

With nearly 50% of the staff being bilingual, the school is well-equipped to support English language learners and their families. This capability not only aids in effective communication but also ensures that students receive tailored support in their learning journeys.

The school offers the Academy 4 mentorship program for 4th graders, which focuses on providing one-to-one mentorship. This initiative is instrumental in fostering meaningful relationships between mentors, students, and families, ultimately equipping the community to support educational success.

The Parent-Teacher Association (PTA) at Jack C. Binion Elementary is crucial in supporting academic and extracurricular activities. Their

involvement helps create a strong school community, promotes parental engagement, and enhances student resources.

The school has demonstrated consistent academic growth, reflecting effective teaching strategies and a supportive environment. This commitment to continuous improvement ensures that students are well-prepared for their future educational endeavors.

Overall, these strengths position Jack C. Binion Elementary School as a nurturing and effective educational institution dedicated to fostering student success and community engagement.

### **Problem Statements Identifying Demographics Needs**

**Problem Statement 1 (Prioritized):** Student attendance at Jack C. Binion Elementary improved slightly from 94.2% in 2023-2024 to 94.6% in 2024-2025; however, it remains below the district and campus goal of 96%.

**Root Cause:** Inconsistent parent communication regarding the impact of absences on learning, coupled with barriers such as transportation challenges, health-related concerns, and limited engagement in attendance incentive programs, contributes to ongoing gaps in meeting the attendance goal.

**Problem Statement 2:** Achievement gaps exist among student demographic groups, with certain populations not performing at the same level as their peers on state assessments.

**Root Cause:** Inconsistent use of differentiated instructional strategies and limited targeted interventions have not fully addressed the diverse academic and linguistic needs of all student groups.

## Student Learning

### Student Learning Summary

The data presented below includes assessment information for the 2024-2025 school year. Notably, Jack C. Binion Elementary School continues to show consistent improvement in its State of Texas Assessment of Academic Readiness (STAAR) scores from 2024 to 202, demonstrating growth across all subject areas.

| STAAR                      |            |      |      |       |      |      |         |      |      |
|----------------------------|------------|------|------|-------|------|------|---------|------|------|
| Grade                      | Approaches |      |      | Meets |      |      | Masters |      |      |
|                            | 2023       | 2024 | 2025 | 2023  | 2024 | 2025 | 2023    | 2024 | 2025 |

| Campus Rating:             | B          |      |      |       |      |      |         |      |      |

### Student Learning Strengths

## 3rd Grade

**Math (English):** Student performance increased at Meets (24 → 35) and Masters (7 → 9), showing more are reaching higher levels of problem-solving.

**Math (Spanish):** While Approaches declined, Meets (26) and Masters (10) held steady or improved, demonstrating

deeper learning for a core group of students.

**Reading (English):** Large jumps at Approaches (58 → 75), Meets (37 → 44), and Masters (14 → 20), showing growth in comprehension and critical thinking.

**Reading (Spanish):** Significant gains at Meets (6 → 23) and Masters (0 → 6), reflecting stronger literacy skills in Spanish testers.

### **4th Grade**

**Math (English):** Approaches (66 → 69), Meets (38 → 43), and Masters (11 → 13) all grew, highlighting consistent math improvement.

**Math (Spanish):** Major progress across the board—Approaches (27 → 39), Meets (9 → 13), Masters (0 → 4). Students are showing stronger math foundations.

**Reading (English):** Approaches improved (80 → 84) and Masters rose (14 → 18), indicating more students are excelling in comprehension.

**Reading (Spanish):** Growth at higher levels with Meets (0 → 17) and Masters (0 → 4), a strong step forward for Spanish readers.

### **5th Grade**

**Math (English):** Meets (41 → 43) and Masters (3 → 13) rose sharply, with Masters scores more than quadrupling.

**Math (Spanish):** Big increase in Approaches (53 → 73) and Meets (18 → 27), showing stronger math achievement among Spanish testers.

**Reading (English):** Growth at Meets (42 → 55) and Masters (12 → 20), signaling more advanced reading comprehension.

**Reading (Spanish):** Approaches (58 → 69) grew, showing stronger baseline reading readiness.

**Science (English):** Approaches (53 → 69), Meets (18 → 23), and Masters (1 → 6) all climbed, with more students excelling in science content.

**Science (Spanish):** Approaches improved (19 → 27), showing a stronger foundation in scientific concepts

## **Campus-Wide Highlights**

Gains across all three grade levels in math, reading, and science, particularly in the Meets and Masters categories.

Spanish testers demonstrated especially strong growth in 3rd-grade reading, 4th-grade math and reading, and 5th-grade math.

5th-grade math and science showed dramatic jumps at the Masters level, highlighting success in advanced problem-solving and critical thinking.

Campus performance supports continued momentum with an overall “B” rating.

### **Problem Statements Identifying Student Learning Needs**

**Problem Statement 1 (Prioritized):** While Jack C. Binion Elementary demonstrated gains in students achieving Meets and Masters on the 2025 STAAR, overall performance at Meets and Masters has not shown consistent growth in Monolingual and Bilingual students, which indicates gaps in foundational skills and overall readiness.

**Root Cause:** Instructional practices may not consistently align with the rigor, depth, and expectations of the grade level standards, specifically in Meets and Masters performance levels.

# School Processes & Programs

## School Processes & Programs Summary

Jack C. Binion Elementary is a Title I school that offers extensive support and programs for students and staff.

Starting in Pre-Kindergarten, students undergo universal screening in reading and math, enabling teachers to tailor instruction to each student's needs. While the majority of students participate in the general education curriculum, Jack C. Binion Elementary provides additional support systems for students who are performing above or below grade level, ensuring that all students receive the help they need to succeed.

Staff are supported through weekly professional learning community meetings and targeted professional development. Teacher growth is prioritized through a focus on learning to analyze data, incorporate high-yield instructional strategies, and prioritize continuous improvement. Teachers receive weekly feedback on instruction from their team, Instructional facilitators, and campus administration.

## School Processes & Programs Strengths

A wide variety of support systems are provided for students, which may include:

- Full Day Pre-Kindergarten
- Dyslexia Support
- Strong Bilingual Program
- Emergent Bilingual Support
- Special Education Services
- Gifted and Talented Services
- Accelerated Instruction
- Intervention and Tutorials in Reading, Math, and Science

Jack C. Binion Professional Learning Communities meet weekly to analyze student data and plan for instruction.

## Problem Statements Identifying School Processes & Programs Needs

**Problem Statement 1 (Prioritized):** Students are not reaching their potential in academic achievement.

**Root Cause:** Implementing critical instructional strategies such as goal setting and reflection, workshop model, and formative assessments are inconsistent within the classroom and across the campus.

**Problem Statement 2 (Prioritized):** Students are disengaging from challenging academics because the curriculum is not being taught with consistent depth and rigor

**Root Cause:** Inconsistent application of lesson internalization when teaching the curriculum leads to gaps in instructional delivery, making it difficult for students to remain engaged in rigorous academic tasks.

# Perceptions

## Perceptions Summary

In the spring of 2024, Jack C. Binion Elementary collected perception data from students and parents for our annual campus needs assessment.

### Student Results

- 76% of students feel safe at school
- 89% of students feel that their teacher believes they will be successful.
- 81% of students feel there is an adult they can talk to at school if they have a problem.
- 74% of students feel they are treated fairly at school.

### Parent Results

- 79% of parents feel that Jack C. Binion students are safe at school.
- 74% of parents feel welcome at Jack C. Binion Elementary.
- 69% of parents feel that Jack C. Binion students show respect for other students.
- 79% of parents feel that Jack C. Binion's teachers have respect for students.

Jack C. Binion has many opportunities for parent involvement and engagement.

- Meet the Teacher
- Curriculum Night/Title 1 Night
- Reading and Math Nights
- Turkey Trot Race
- Open House
- Breakfast with Santa
- Multicultural Night
- Academy 4 Student Mentorship Program

## Perceptions Strengths

The results from the 2025 Campus Needs Assessment Parent Survey indicate that 79% of parents feel their students are safe at school, indicating parents believe Jack C. Binion Elementary provides a secure, caring, and well-supervised environment for their children. 74% of parents feel welcome at Jack C. Binion Elementary, indicating many parents feel comfortable and accepted when they visit our campus or interact with staff. When parents feel welcome, they are more likely to attend events, communicate with teachers, and support their child's learning at home.

## **Problem Statements Identifying Perceptions Needs**

**Problem Statement 1 (Prioritized):** Parent participation in school activities, including meetings and events, is below expectations, leading to limited parental involvement in their child's education and school community.

**Root Cause:** Low parent participation stems from a lack of awareness about its importance and limited engagement opportunities due to scheduling conflicts or insufficient outreach. Enhancing communication, offering flexible event times, and educating parents on the impact of their involvement can help increase participation in school activities and the community.

**Problem Statement 2 (Prioritized):** 100% of students and parents do not feel safe at school, even though extensive safety measures and training have been implemented. Students, staff, and parents identified ongoing concerns related to bullying and disruptive behavior that impact the sense of safety on the campus.

**Root Cause:** Even with extensive safety protocols and training in place, students and parents may feel unsafe due to a lack of process communication, the number of nationwide incidents, and media coverage. Inconsistent implementation of behavior expectations, supervision routines, and safety protocols on campus has led to varied experiences with student conduct and campus safety.

# Priority Problem Statements

**Problem Statement 1:** While Jack C. Binion Elementary demonstrated gains in students achieving Meets and Masters on the 2025 STAAR, overall performance at Meets and Masters has not shown consistent growth in Monolingual and Bilingual students, which indicates gaps in foundational skills and overall readiness.

**Root Cause 1:** Instructional practices may not consistently align with the rigor, depth, and expectations of the grade level standards, specifically in Meets and Masters performance levels.

**Problem Statement 1 Areas:** Student Learning

**Problem Statement 2:** Students are not reaching their potential in academic achievement.

**Root Cause 2:** Implementing critical instructional strategies such as goal setting and reflection, workshop model, and formative assessments are inconsistent within the classroom and across the campus.

**Problem Statement 2 Areas:** School Processes & Programs

**Problem Statement 3:** Student attendance at Jack C. Binion Elementary improved slightly from 94.2% in 2023-2024 to 94.6% in 2024-2025; however, it remains below the district and campus goal of 96%.

**Root Cause 3:** Inconsistent parent communication regarding the impact of absences on learning, coupled with barriers such as transportation challenges, health-related concerns, and limited engagement in attendance incentive programs, contributes to ongoing gaps in meeting the attendance goal.

**Problem Statement 3 Areas:** Demographics

**Problem Statement 4:** 100% of students and parents do not feel safe at school, even though extensive safety measures and training have been implemented. Students, staff, and parents identified ongoing concerns related to bullying and disruptive behavior that impact the sense of safety on the campus.

**Root Cause 4:** Even with extensive safety protocols and training in place, students and parents may feel unsafe due to a lack of process communication, the number of nationwide incidents, and media coverage. Inconsistent implementation of behavior expectations, supervision routines, and safety protocols on campus has led to varied experiences with student conduct and campus safety.

**Problem Statement 4 Areas:** Perceptions

**Problem Statement 5:** Parent participation in school activities, including meetings and events, is below expectations, leading to limited parental involvement in their child's education and school community.

**Root Cause 5:** Low parent participation stems from a lack of awareness about its importance and limited engagement opportunities due to scheduling conflicts or insufficient outreach. Enhancing communication, offering flexible event times, and educating parents on the impact of their involvement can help increase participation in school activities and the community.

**Problem Statement 5 Areas:** Perceptions

**Problem Statement 6:** Students are disengaging from challenging academics because the curriculum is not being taught with consistent depth and rigor

**Root Cause 6:** Inconsistent application of lesson internalization when teaching the curriculum leads to gaps in instructional delivery, making it difficult for students to remain

engaged in rigorous academic tasks.

**Problem Statement 6 Areas:** School Processes & Programs

# Goals

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 1:** All students will make at least one year's progress in reading and mathematics by the end of the school year.

a) Meet the progress monitoring targets in Prekindergarten - 3rd for each demographic group as measured by district-approved screeners (BOY, MOY and EOY) to achieve HB3 Board Goals. b) Improve performance in Domain 3 Closing the Gaps by making more than a year's growth in reading and mathematics which would, in turn, increase the number of students performing at the "Meets" and "Masters" level as measured by the spring 2026 STAAR assessments. This will also increase Domain 1 Student Achievement, which counts the number of students at the various performance levels for state assessments- (Focus Domain 2)

## **HB3 Goal**

**Evaluation Data Sources:** CLI Engage: CIRCLE (prekindergarten reading and math), mClass (kindergarten reading and math), mClass (grades 1-2 reading), and Renaissance STAR Assessments (reading, grades 3-5 and mathematics, grades 1-5) Campus CFAs (Curriculum Focused Assessment) Historic STAAR (State of Texas Assessment of Academic Readiness) Data, CBA (Curriculum Based Assessment) Data (District Common Assessments)

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                | Reviews   |     |     |           |

### Performance Objective 1 Problem Statements:

#### Student Learning

**Problem Statement 1:** While Jack C. Binion Elementary demonstrated gains in students achieving Meets and Masters on the 2025 STAAR, overall performance at Meets and Masters has not shown consistent growth in Monolingual and Bilingual students, which indicates gaps in foundational skills and overall readiness. **Root Cause:** Instructional practices may not consistently align with the rigor, depth, and expectations of the grade level standards, specifically in Meets and Masters performance levels.

#### School Processes & Programs

**Problem Statement 1:** Students are not reaching their potential in academic achievement. **Root Cause:** Implementing critical instructional strategies such as goal setting and reflection, workshop model, and formative assessments are inconsistent within the classroom and across the campus.

**Problem Statement 2:** Students are disengaging from challenging academics because the curriculum is not being taught with consistent depth and rigor **Root Cause:** Inconsistent application of lesson internalization when teaching the curriculum leads to gaps in instructional delivery, making it difficult for students to remain engaged in rigorous academic tasks.

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 2:** Close achievement gaps for all under-performing student groups, as identified through state and district assessments.

- a) Ensure all identified student groups in grades PreK-3 meet progress monitoring targets in reading and mathematics, as measured by a district-approved assessment tool.
- b) Develop a campus-targeted improvement plan for underperforming student groups and participate in quarterly, data-driven progress monitoring meetings to track and accelerate growth.

**HB3 Goal**

**Evaluation Data Sources:** Historical performance by student subgroup on state and district assessments

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       | Reviews   |     |     |           |

| <b>Strategy 3:</b> Provide opportunities for students, parents, and the community to engage in the educational process at Jack C Binion.<br><b>Actions:</b> a) Expand upon the Jack C. Binion reading initiative, Learning with Legends, which utilizes the experience and skills of retired community educators to support early literacy development by meeting weekly with selected students to improve their acquisition of foundational reading skills.<br>b) Continue the Academy 4 Mentorship program to ensure that every fourth-grade student is paired with a mentor, helping them develop leadership skills and personal growth.<br>c) Host Title 1 meetings and organize Family Nights focused on math, reading/social studies, and science to engage parents in academics and provide insights into the curriculum.<br>d) Strengthen collaboration with City Point Methodist Church to support school initiatives and community involvement.<br>e) Schedule musical performances for selected grade levels to enrich the educational experience and showcase student talents.<br>f) Strengthen the JCB Bobcat Dads program, which is specifically designed to involve fathers and male role models in school activities, mentoring, and educational support.<br><b>Staff Responsible for Monitoring:</b> Administration<br><br><b>TEA Priorities:</b><br>Improve low-performing schools<br><b>Problem Statements:</b> Perceptions 1<br><b>Funding Sources:</b> Family Engagement Resources - 211 - Title I |  | Formative |     |     | Summative |

| <b>Problem Statement 1:</b> While Jack C. Binion Elementary demonstrated gains in students achieving Meets and Masters on the 2025 STAAR, overall performance at Meets and Masters has not shown consistent growth in Monolingual and Bilingual students, which indicates gaps in foundational skills and overall readiness. <b>Root Cause:</b> Instructional practices may not consistently align with the rigor, depth, and expectations of the grade level standards, specifically in Meets and Masters performance levels.                                                                                                                                                                        |
| School Processes & Programs                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| <b>Problem Statement 1:</b> Students are not reaching their potential in academic achievement. <b>Root Cause:</b> Implementing critical instructional strategies such as goal setting and reflection, workshop model, and formative assessments are inconsistent within the classroom and across the campus.<br><b>Problem Statement 2:</b> Students are disengaging from challenging academics because the curriculum is not being taught with consistent depth and rigor <b>Root Cause:</b> Inconsistent application of lesson internalization when teaching the curriculum leads to gaps in instructional delivery, making it difficult for students to remain engaged in rigorous academic tasks. |
| Perceptions                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| <b>Problem Statement 1:</b> Parent participation in school activities, including meetings and events, is below expectations, leading to limited parental involvement in their child's education and school community. <b>Root Cause:</b> Low parent participation stems from a lack of awareness about its importance and limited engagement opportunities due to scheduling conflicts or insufficient outreach. Enhancing communication, offering flexible event times, and educating parents on the impact of their involvement can help increase participation in school activities and the community.                                                                                             |

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 3:** Reduce the number of students assigned to behavioral MTSS (Multi-Tiered Systems of Support) Tiers 2 and 3.

**Evaluation Data Sources:** Behavioral MTSS (Multi-Tiered Systems of Support) data records

**Performance Objective 3 Problem Statements:**

| Perceptions                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 2:</b> 100% of students and parents do not feel safe at school, even though extensive safety measures and training have been implemented. Students, staff, and parents identified ongoing concerns related to bullying and disruptive behavior that impact the sense of safety on the campus. <b>Root Cause:</b> Even with extensive safety protocols and training in place, students and parents may feel unsafe due to a lack of process communication, the number of nationwide incidents, and media coverage. Inconsistent implementation of behavior expectations, supervision routines, and safety protocols on campus has led to varied experiences with student conduct and campus safety. |

**Goal 2:** Utilize efficient and effective operations to support and improve the learning organization.

**Performance Objective 1:** Increase the annual total average daily attendance as compared to the prior school year.

**Evaluation Data Sources:** Overall campus average daily attendance reports

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 | Reviews   |     |     |           |

**Performance Objective 1 Problem Statements:**

| Demographics                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> Student attendance at Jack C. Binion Elementary improved slightly from 94.2% in 2023-2024 to 94.6% in 2024-2025; however, it remains below the district and campus goal of 96%. <b>Root Cause:</b> Inconsistent parent communication regarding the impact of absences on learning, coupled with barriers such as transportation challenges, health-related concerns, and limited engagement in attendance incentive programs, contributes to ongoing gaps in meeting the attendance goal. |

**Goal 2:** Utilize efficient and effective operations to support and improve the learning organization.

**Performance Objective 2:** Strengthen campuswide classroom management and positive behavior supports by implementing Love and Logic strategies, resulting in a reduction of discipline referrals by 10% compared to the 2024-2025 school year. + Family engagement.

**Evaluation Data Sources:** Discipline Referrals

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                | Reviews   |     |     |           |

| <b>Problem Statement 2:</b> 100% of students and parents do not feel safe at school, even though extensive safety measures and training have been implemented. Students, staff, and parents identified ongoing concerns related to bullying and disruptive behavior that impact the sense of safety on the campus. <b>Root Cause:</b> Even with extensive safety protocols and training in place, students and parents may feel unsafe due to a lack of process communication, the number of nationwide incidents, and media coverage. Inconsistent implementation of behavior expectations, supervision routines, and safety protocols on campus has led to varied experiences with student conduct and campus safety. |

**Goal 3:** All students and staff will learn and work in a safe and responsive environment.

**Performance Objective 1:** Increase the percentage of students and staff who report feeling safe at school.

**High Priority**

**Evaluation Data Sources:** Safe School's Report, Campus and District Survey

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |  | Reviews   |     |     |           |

### Performance Objective 1 Problem Statements:

#### Perceptions

**Problem Statement 2:** 100% of students and parents do not feel safe at school, even though extensive safety measures and training have been implemented. Students, staff, and parents identified ongoing concerns related to bullying and disruptive behavior that impact the sense of safety on the campus. **Root Cause:** Even with extensive safety protocols and training in place, students and parents may feel unsafe due to a lack of process communication, the number of nationwide incidents, and media coverage. Inconsistent implementation of behavior expectations, supervision routines, and safety protocols on campus has led to varied experiences with student conduct and campus safety.

**Goal 3:** All students and staff will learn and work in a safe and responsive environment.

**Performance Objective 2:** Reduce the cost of accidents resulting in workers' compensation claims by 10% and reduce the number of work days lost due to accidents occurring on the job by 10%

**High Priority**  
**Evaluation Data Sources:** Annual worker's compensation claims report

**Performance Objective 2 Problem Statements:**

| Perceptions                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 2:</b> 100% of students and parents do not feel safe at school, even though extensive safety measures and training have been implemented. Students, staff, and parents identified ongoing concerns related to bullying and disruptive behavior that impact the sense of safety on the campus. <b>Root Cause:</b> Even with extensive safety protocols and training in place, students and parents may feel unsafe due to a lack of process communication, the number of nationwide incidents, and media coverage. Inconsistent implementation of behavior expectations, supervision routines, and safety protocols on campus has led to varied experiences with student conduct and campus safety. |

**Goal 3:** All students and staff will learn and work in a safe and responsive environment.

**Performance Objective 3:** The campus will provide a safe and supportive learning environment by maintaining a robust counseling and mental health support system.

**Performance Objective 3 Problem Statements:**

Perceptions

**Problem Statement 2:** 100% of students and parents do not feel safe at school, even though extensive safety measures and training have been implemented. Students, staff, and parents identified ongoing concerns related to bullying and disruptive behavior that impact the sense of safety on the campus. **Root Cause:** Even with extensive safety protocols and training in place, students and parents may feel unsafe due to a lack of process communication, the number of nationwide incidents, and media coverage. Inconsistent implementation of behavior expectations, supervision routines, and safety protocols on campus has led to varied experiences with student conduct and campus safety.

In the 2024-2025 academic year, 63.34% of students, or 273 individuals, are considered at-risk. No students are currently in foster care or continuing with an Individualized Education Program (IEP). The student body includes 24 immigrants, representing 5.57%, and 244 students, or 56.61%, who have an intervention indicator. There are no migrant or unschooled asylee/refugee students, but 6 students, or 1.39%, are military-connected. Additionally, 28 students, or 6.49%, transferred into the school this year, and the mobility rate is 23.31%, accounting for 83 students.

Regarding economic disadvantage, 292 students, or 67.75%, fall into this category. Of these, 249 students (57.77%) receive free meals, while 43 students (9.98%) qualify for free or reduced-price meals.

When it comes to homelessness, 1.16% of the student population, or five students, have a homeless status. Of these, three students in a hotel (0.70%), and two are in a shelter (0.46%). All five of these students are not classified as unaccompanied youth, and there are no students identified as unaccompanied youth.

## Demographics Strengths

The diversity of our student population provides different cultures that bring a rich learning environment and different perspectives to our students and families. Additionally, the staff at Spicer Elementary is very diverse to meet the needs of our student population. The English Language Proficiency Status target measure set by the state for the TELPAS progress measure is 49%. According to TELPAS data from 2024, Spicer EB students exceeded the target by scoring 53%. Spicer earned 100% in closing the gaps for our ELP status indicator on 2024 Closing the Gap Performance Targets. In the category of Closing the Gaps, our Emergent Bilingual population exceeded the state reading goal by 4 points. Additionally, the high focus group exceeded the state goal for reading by 4 points, economically disadvantaged exceeded by 6 points, African American exceeded by 9 points, and Hispanic exceeded by 10 points.

## Problem Statements Identifying Demographics Needs

**Problem Statement 1 (Prioritized):** Our campus attendance rate is 94.9%, only a 1.6% increase over four years and below the 96% state target. This gap reduces instructional time, increases chronic absenteeism, and negatively affects student learning and overall performance.

**Root Cause:** Our below-target attendance rate is driven by systemic barriers, including 67.75% of students economically disadvantaged, 63.4% at-risk, and a 25.72% mobility rate. Economic hardship, unstable housing, limited health care and limited transportation contribute to chronic absenteeism, while 50% relying on bus/daycare transport face added challenges, preventing progress toward the 96% state goal.

# Student Learning

## Student Learning Summary

### mClass Data

64% of kindergarteners scored at or above benchmark on the composite mClass score for reading.

71% of first graders scored at or above benchmark on the composite mClass score for reading.

69% of second graders scored at or above benchmark on the composite mClass score for reading.

68% of all students in grades K-2 scored at or above benchmark on the composite mClass score for reading.

At John D. Spicer Elementary, the 2024-2025 performance data highlights achievement levels across various student groups. Overall, 69% of students scored at or above the "Approaches GL Standard," with 42% meeting or exceeding the "Meets GL Standard," and 20% achieving the "Masters GL Standard."

### Key Insights:

- **African American Students:** 67% scored at or above the "Approaches GL Standard," with 37% meeting the "Meets GL Standard" and 15% reaching the "Masters GL Standard."
- **Hispanic Students:** 65% achieved at or above the "Approaches GL Standard," with 42% meeting the "Meets GL Standard" and 21% at the "Masters GL Standard."

### High Focus Group:

- The overall percentage of tests at or above the "Approaches GL Standard" for the high focus group is 65%, with 35% meeting the "Meets GL Standard" and 17% reaching the "Masters GL Standard."

### Observations:

- **Performance Gaps:** There are noticeable performance gaps, particularly among African American students who show lower percentages at the "Meets GL Standard" and "Masters GL Standard" compared to Hispanic students and white students.
- **High Focus Performance:** The high focus group shows lower achievement levels compared to the overall student population, indicating a need for targeted support to close these gaps.

The data suggests a need for focused interventions to support African American students and the high focus group, addressing performance gaps and improving achievement across all performance indicators.

The data from John D. Spicer Elementary highlights key areas of student achievement across different subjects and groups.

### Overall Performance:

- **Approaches GL Standard or Above:** 69% of all students, with varied performance across groups. African American and Hispanic students performed at 67% and 65%, respectively, while the high focus group achieved 65%.
- **Meets GL Standard or Above:** 42% of all students met this standard, with African American students at 37% and Hispanic students at 42%. The high focus group had a lower percentage at 35%.
- **Masters GL Standard:** 20% of all students reached this level. African American students had 15% and Hispanic students 21%, whereas the high focus group achieved 17%.

#### Subject-Specific Performance:

- **Reading/Language Arts (RLA):** 75% of students met the "Approaches GL Standard or Above," with African American students at 74% and Hispanic students at 72%. The high focus group had a lower performance rate at 70%.
- **Mathematics:** 70% of students achieved the "Approaches GL Standard or Above," with African American students at 64% and Hispanic students at 67%. The high focus group had a rate of 65%.
- **Science:** 53% of students met the "Approaches GL Standard or Above," with African American students at 55% and Hispanic students at 39%. The high focus group performed at 49%.

#### Action Steps:

1. **Focus on Closing Achievement Gaps:** Address the lower performance among Hispanic students and the high focus group, particularly in Science and Mathematics, through targeted interventions and support.
2. **Enhance Reading and Math Instruction:** Strengthen instructional practices in Reading/Language Arts and Mathematics to improve performance, especially for high focus students.
3. **Increase Support for Science:** Implement strategies to boost achievement in Science, with a focus on underperforming groups.

The plan will aim to improve overall student achievement and address specific needs based on the performance data.

---

John D. Spicer Elementary's data highlights current performance and future targets in Reading/Language Arts (RLA) and Mathematics.

#### Reading/Language Arts (RLA):

- **2025 Achievement:** 48% of students met or exceeded the "Meets GL Standard," with African American students at 43% and Hispanic students at 49%.
- **Targets:** Increase to 55% by 2027-28 and 73% by 2037-38.
- **Growth:** Academic growth is at 75% overall, with African American students at 74% and Hispanic students at 69%.

#### Mathematics:

- **2024 Achievement:** 48% of students met or exceeded the "Meets GL Standard," with African American students at 43% and Hispanic students at 43%.
- **Targets:** Achieve 58% by 2027-28 and 75% by 2037-38.
- **Growth:** Academic growth is at 82% overall, with African American students at 43% meets and above and Hispanic students at 49% meets and above.

#### Action Steps:

1. **Enhance Instruction:** Focus on strategies to improve achievement in RLA and Mathematics
2. **Boost Growth:** Implement targeted interventions to reach growth targets in both subjects.
3. **Address Gaps:** Develop support plans to improve performance for high focus groups.

The plan aims to align instructional strategies with performance targets to enhance overall student achievement and growth.

### Student Learning Strengths

Interventions and EB strategies that were implemented on campus last year positively impacted student performance according to TELPAS data from 2025. Spicer EB students exceeded the target by scoring 53%. Spicer earned 100% for our ELP status indicator on 2024 Closing the Gap Performance Targets. Additionally, in the category of Academic Achievement, our Emergent Bilingual population exceeded the state math goal by 4 points. This group also met the state reading goal of 62%.

Economically disadvantaged students performed higher than the state target by 9 points in reading by 8% in reading and 2% in math.

John D. Spicer Elementary demonstrates notable strengths in student learning, particularly in Reading/Language Arts (RLA) and Mathematics. The school's commitment to targeted interventions and instructional improvements has resulted in solid performance outcomes, including 42% Meeting Grade Level or above in RLA and 46% Meeting Grade Level or above in Mathematics. These strengths reflect effective educational practices and a focused approach to enhancing student learning. The campus will build on these strengths to further advance student performance and achieve future academic goals.

### Problem Statements Identifying Student Learning Needs

**Problem Statement 1 (Prioritized):** Students scored 3% below the performance measure goal in both Reading and Math STAAR assessments, indicating a need for targeted instruction and interventions to improve overall achievement and close the gap to meet state expectations.

**Root Cause:** The campus has a high mobility rate (25.72%). Frequent mobility disrupts learning continuity, complicating skill development. 63.4% of students are at-risk and 67.75% are economically disadvantaged, creating substantial educational gaps in foundational skills. 21.35% of students identified as Emergent Bilingual, language barriers also hinder math and reading comprehension.

**Problem Statement 2 (Prioritized):** Our campus 5th grade Science STAAR scores were well below target, with only 12.3% of students meeting or mastering expectations. All subgroups are performing under state targets, highlighting gaps in content mastery and instructional effectiveness that require targeted support and interventions.

**Root Cause:** Low 5th grade Science STAAR scores stem from gaps in content mastery, limited academic vocabulary, difficulty with constructed responses and academic language, challenges for emergent bilinguals, and struggles interpreting pictures and models, compounded by insufficient hands-on lab experiences.

**Problem Statement 3 (Prioritized):** On the Reading STAAR, 51.3% of students scored 0 and 4.3% scored 1 on the extended constructed response, indicating a critical need for targeted instruction in writing, comprehension, and academic language to improve student performance.

**Root Cause:** Low extended response scores stem from limited cross-curricular writing time, difficulty answering prompts, challenges locating and explaining evidence, underdeveloped academic vocabulary, and inconsistent modeling of constructed responses across content areas.

# School Processes & Programs

## School Processes & Programs Summary

At Spicer we provide Special Education through our Resource and inclusion programs, early childhood education and positive approach to student success (PASS) self-contained programs. Struggling students are addressed through our special support provided by our Title I tutors, Multi-tiered system of supports intervention support staff, and dyslexia interventionist. Our emergent bilingual students are supported in their classrooms by teachers who are certified in English Language Supports.

For our gifted and talented (GT) students, we provide a variety of leveled services for students in grades kindergarten through 5th grade. All teachers are required to complete annual gifted and talented training and our GT students are clustered in specific classes. Pull out classes are offered to our students on our campus and at a separate location where our 3rd, 4th and 5th graders travel one day each week.

Our teachers attend professional development provided by our district where we focus on math and literacy. Teachers are provided expectations for learning and engaging our learners in a campus culture of writing and reading. Teachers are provided support through training and weekly staff walk throughs that provide teachers productive feedback. Weekly planning for learning communities, vertical team meetings and Leaders of Learners ensure all staff are trained in district initiatives.

We offer incentives for our students who have perfect attendance. Students are recognized at school assemblies for good grades, good attendance and positive behavior. Our students are supported emotionally through programs offered such as: Red Ribbon week, Character Strong Lessons, Conscious Discipline strategies, and daily use of our district core values.

Technology is integrated in classrooms as teachers use interactive whiteboards, online Reading resources laptops, chromebooks, Google tools and Google Classroom. Additionally, teachers utilize digital communication applications such as remind, dojo and/or classtag to communicate regularly with parents.

## School Processes & Programs Strengths

Spicer serves a diverse population that is reflective of our community. Parents are involved in school opportunities where teachers work together to support individual needs of our families and students.

1. **High Attendance Rate:** The school has shown a 1.6% increase in attendance rate of 94.9%, reflecting strong student engagement and commitment to regular attendance.
2. **Diverse Student Programs:** The school offers a variety of student programs, including Dyslexia support, Gifted and Talented programs, and Special Education services. This diversity in programs demonstrates the school's commitment to addressing varied learning needs and providing specialized support.
3. **Comprehensive ESL and Bilingual Support:** With 92 Emergent Bilingual students and 92 students receiving English as a Second Language (ESL) support, the school is well-equipped to address the needs of English language learners, fostering an inclusive learning environment.
4. **Title I School-Wide Program:** The school-wide Title I program ensures that all students benefit from federal funding aimed at improving educational outcomes, which supports equitable access to resources and interventions.
5. **Strong Special Education Services:** The school provides extensive Special Education services, including Speech Therapy, Resource Rooms, and Self-Contained classrooms, catering to a wide range of disabilities and ensuring targeted support for students with special needs.
6. **Dedicated Staff:** With a substantial number of teachers and educational aides, the school has a solid support structure for delivering effective instruction and personalized support to students.

7. **School-Wide Expectations** - The staff and students work together to establish and promote school wide expectations in common areas that support the learning environment for all students to feel safe.

These strengths reflect the school's dedication to creating an inclusive, supportive environment that addresses the diverse needs of its student body.

Interventions and EB strategies have positively impacted student performance.

Economically disadvantaged students performed near the campus percentage for each STAAR test.

Targeting increased campus EB strategies, with a focus on vocabulary caused an increase in performance by EB students on STAAR Assessment. EB students scored higher than the campus average for all test in approaches, meets, and masters.

All students successfully utilized data folders to highlight deficiencies in learning to close learning gaps.

### **Problem Statements Identifying School Processes & Programs Needs**

**Problem Statement 1 (Prioritized):** Only 46% of students met the closing-the-gap target in Math, falling 3% below the campus goal, highlighting the need for strengthening tier 1 instruction and targeted interventions to support student growth and improve overall performance.

**Root Cause:** The gap in Math performance is driven by inconsistent Tier 1 instruction, limited targeted interventions, and gaps in foundational skills, which prevent students from meeting the closing-the-gap target and achieving grade-level proficiency.

**Problem Statement 2 (Prioritized):** Seventeen percent of K-2 students scored well below standard on the end-of-year mClass assessment. Kindergarten had the lowest percentage at or above grade level, first grade met the target, and second grade fell just 1% below the goal, highlighting a need for targeted support in early literacy.

**Root Cause:** High percentages of at-risk (63.4%), economically disadvantaged (67.75%), and Emergent Bilingual students (21.35%), including 18% of K-1 students at risk for dyslexia, have gaps in early literacy. Addressing these needs requires differentiated instruction and targeted interventions to ensure grade-level proficiency.

**Problem Statement 3 (Prioritized):** This campus has 63.4% of students identified at risk that exhibit an increase in social emotional gaps affecting academic performance.

**Root Cause:** The high percentage of at-risk students, combined with insufficient social-emotional support, creates barriers to effective learning and engagement. These gaps hinder students' ability to focus on their studies, resulting in decreased academic performance.

# Perceptions

## Perceptions Summary

At Spicer, we have a belief that all of our students have an opportunity to show their culture and experience how we value education. Below are the results from our end-of-year parent survey:

School Environment: My child feels safe and happy at school.  
43 responses

Our dismissal procedures are safe and effective?  
43 responses

The majority of respondents, 55.8%, strongly agree that their child feels safe and happy at school, indicating a high level of satisfaction with the school environment. Additionally, 34.9% of respondents agree, further supporting the positive sentiment. A small percentage, 5%, remain neutral on the topic, while 2.3% disagree and another 2.3% strongly disagree. Overall, the responses reflect a largely favorable view of the school environment in terms of safety and happiness for students. The majority of respondents, 65.1%, strongly agree that the dismissal procedures are safe and effective, suggesting a generally positive assessment of the process. Another 30.2% agree, reinforcing the overall favorable opinion. A small percentage, 2.3%, remain neutral, while 2.3% disagree and another 0% strongly disagree. Overall, the responses reflect that most participants view the dismissal procedures as safe and effective, with a small minority expressing concerns.

The school has improved my child's social skills.

43 responses

Our building is clean and well maintained.

43 responses

The majority of respondents, 46.5%, strongly agree that the school has improved their child's social skills, indicating a positive impact in this area. Another 32.6% agree, further supporting this view. A smaller portion, 16.3%, remain neutral, while 4.7% disagree and another 0% strongly disagree. Overall, the responses reflect a generally favorable opinion of the school's role in enhancing students' social skills, with only a small percentage expressing dissatisfaction.

The majority of respondents, 69.8%, strongly agree that the building is clean and well-maintained, reflecting a positive assessment of the facility's upkeep. An additional 30.2% agree, further supporting this favorable view. 0% remain neutral, with no disagreement reported. Overall, the responses indicate that most participants believe the building is well maintained, with cleanliness being a strong point.

The school environment is caring and supportive.

43 responses

The majority of respondents, 65.1%, strongly agree that the school environment is caring and supportive, indicating a highly positive perception. Another 28% agree, further emphasizing the favorable sentiment. A small percentage, 5%, remain neutral, while 2.3% strongly disagree. Overall, the responses reflect a predominantly positive view of the school's caring and supportive environment, with only a minor portion expressing dissent.

My child receives the attention he/she needs in the classroom.

43 responses

The majority of respondents, 39.5%, strongly agree that their child receives the attention needed in the classroom, indicating a strong level of satisfaction. Additionally, 41.9% agree, supporting the positive sentiment. A smaller portion, 11.6%, remain neutral, while 7% disagree and 0% strongly disagree. Overall, the responses suggest that most participants feel their child is receiving adequate attention in the classroom, with only a small minority expressing concerns.

I feel welcome at my child's school.

43 responses

My child is learning a lot in school this year.

43 responses

The majority of respondents, 65.1%, strongly agree that they feel welcome at their child's school, reflecting a positive and inclusive atmosphere. An additional 25.6% agree, reinforcing this sentiment. A small percentage, 5%, remain neutral, while 5% strongly disagree. Overall, the responses indicate that most participants feel welcomed at the school, with only a few expressing concerns.

The majority of respondents, 46.5%, strongly agree that their child is learning a lot in school this year, reflecting a strong sense of academic progress. Another 46.5% agree, further supporting this view. A smaller portion, 5%, remain neutral, while 2% strongly disagree. Overall, the responses indicate that most participants believe their child is experiencing significant learning, with only a small minority expressing dissatisfaction.

I would be very interested in after school day care at Spicer provided by Spicer staff for my child/children.  
43 responses

Out of the responses, 39.5% are in favor of after-school daycare at Spicer provided by Spicer staff, indicating a significant level of interest. In contrast, 61% are not interested. Overall, there was not a notable interest in the after-school daycare program, most of our families rely on the bus transportation.

Communication: How often do you communicate with your child teacher.  
43 responses

Does the teacher respond in timely manner  
43 responses

How would you like your child's teacher to communicate with you?  
43 responses

The majority of respondents, 46.5%, communicate with their child’s teacher on a weekly basis, indicating frequent and regular contact. Additionally, 32.6% communicate monthly, reflecting less frequent but still regular interactions. A smaller portion, 14%, communicate quarterly, while 7% either never communicate or do so once a school year. Overall, the responses show a strong trend toward regular communication, with a notable number of participants engaging on a weekly basis. 95.3%, reported that the teacher responds in a timely manner. This suggests a high level of satisfaction with the teacher’s responsiveness. The majority of respondents prefer communication through apps such as Classtag, ClassDojo, or Remind, with 62.8% indicating this preference. E-mail is the second most preferred method, chosen by 23.3% of respondents. Phone calls are the least preferred, with only 14% selecting this option. Overall, there is a strong preference for app-based communication, with a smaller number favoring e-mail and very few preferring phone calls.

I feel comfortable discussing my child's needs with teachers and staff.  
43 responses

I feel well-informed about what is going on at the school.  
43 responses

My child can get the resources he/she needs to be successful.  
43 responses

The majority of respondents, 46.5%, strongly agree that the school keeps them updated about their child’s progress, indicating a high level of satisfaction with communication regarding academic performance. Additionally, 32.6% agree, further supporting this positive view. A smaller portion, 11.6%, are neutral, and 9.3% disagree, with no responses indicating strong disagreement. Overall, the responses reflect that most participants feel well-informed about their child’s progress, though there is a small group that feels less updated. The majority of respondents, 62.8%, strongly agree that they feel comfortable discussing their child’s needs with teachers and staff, indicating a high level of confidence in communication. Additionally, 32.6% agree, further supporting this positive sentiment. A smaller portion, 4.7%, remain neutral, and none disagree. Overall, the responses suggest that most participants feel comfortable and supported in addressing their child's needs with school personnel. The majority of respondents, 48.8%, strongly agree that their child can get the resources needed to be successful, reflecting a strong belief in the availability of necessary support. Additionally, 41.9% agree, further supporting this positive view. A smaller portion, 7%, remain neutral, while 2.3% disagree and none strongly disagree. Overall, the responses suggest that most participants feel their child has access to the resources required for success, with only a small minority expressing concerns.

The school encourages parent involvement in school activities.

43 responses

I would be interested in helping in the school.

43 responses

Do you follow our school on fb and is it helpful?

43 responses

The majority of respondents, 55.8%, strongly agree that they follow the school on Facebook and find it helpful, indicating a high level of satisfaction with the school's social media presence. An additional 23.3% agree, further supporting the positive view. A smaller portion, 20.9%, are neutral, and no disagreement. Overall, the responses suggest that most participants find the school's Facebook page both useful and informative, with only a small number expressing dissatisfaction.

The majority of respondents, 65.1%, strongly agree that the school encourages parent involvement in school activities, reflecting a strong perception of support for parental engagement. Additionally, 25.6% agree, further reinforcing this positive view. A smaller portion, 7%, remain neutral, and 2.3% strongly disagree. Overall, the responses suggest that most participants feel the school actively promotes parent involvement, with only a minor group expressing reservations. The majority of respondents, 44.2%, expressed interest in helping at the school, indicating a strong willingness to get involved. Additionally, 44.2% are unsure, reflecting a cautious or uncertain interest. A smaller portion, 11.6%, indicated they are not interested. Overall, there is a significant interest in contributing to the school, with a considerable number still uncertain or considering their involvement.

The principal or assistant principal is available to parents and willing to listen.

43 responses

The school counselor provides support to my child when needed.

43 responses

The front office staff is welcoming and helpful.

43 responses

The front office is able to answer my questions and provide me with what I need.

43 responses

The majority of respondents, 60.5%, strongly agree that the principal or assistant principal is available to parents and willing to listen, reflecting a strong perception of accessibility and responsiveness. Additionally, 20.9% agree, further supporting this positive view. A smaller portion, 18.6%, remain neutral, and there was no disagreement. Overall, the responses suggest that most participants feel that the school leadership is approachable and attentive to parent concerns.

The majority of respondents, 58.1%, strongly agree that the school counselor provides support to their child when needed, indicating a high level of satisfaction with the counseling services. Additionally, 23.3% agree, further supporting this positive view. A smaller portion, 18.6%, remain neutral, and no disagreement. Overall, the responses suggest that most participants feel the school counselor is effective in offering necessary support.

The majority of respondents, 76.7%, strongly agree that the front office staff is welcoming and helpful, indicating a high level of satisfaction with their service. Additionally, 20.9% agree, further reinforcing this positive assessment. A small portion, 0%, remain neutral, with 2.3% expressing disagreement. Overall, the responses suggest that most participants find the front office staff to be friendly and supportive, with only a minor group feeling indifferent.

The majority of respondents, 69.8%, strongly agree that the front office is able to answer their questions and provide them with what they need, indicating a high level of satisfaction with the office's responsiveness and effectiveness. Additionally, 23.3% agree, further supporting this positive view. A small portion, 7%, remain neutral, with no respondents expressing disagreement. Overall, the responses suggest that most participants feel well-supported by the front office, with only a minor group feeling indifferent.

### **Perceptions Strengths**

Our diverse population brings richness to our school by providing a depth of individual differences between our students and families. One example, we have a fourth- and fifth-grade multilingual leadership team. These students assist with translations for staff and other students who speak a language that our district does not have an interpreter for. Additionally, these students serve as ambassadors to our newcomers who speak very limited or no English at all. Twice a year, we offer two multicultural events. The first event is a dinner. We invite families to bring a dish to share as we learn about the variety of cultures at Spicer. This event also provides an opportunity for staff to share our school expectations and answering any questions our parents have. We invite interpreters to ensure that our parents can get the most out of the event. The second event is a Reading, Math and Science Night where families can interact with staff and learn games that reinforce learning with their child.

Positive behavioral supports/strategies are utilized in the classrooms and also implemented by the administration to address student behavior in a positive manner. Individual student incentives are utilized and set up for specific students who need more one-on-one support.

Spicer has a culture committee that provides emotional support to our staff, plan events for our campus community, and help build positive culture. We also have a campus safety committee called Campus Safety Investigation (CSI Team) that addresses a variety of campus problems dealing with safety, logistics, and customer service. Our culture committee works to invite a variety of community helpers to attend at our curriculum night to assist families with needs they might have.

The administration team communicates weekly with a staff newsletter sent out every Friday and communicates with a community newsletter each month. Important district and campus dates and events are communicated through the monthly newsletter. Facebook is another tool we use to communicate positive happenings at Spicer as well as advertising for school activities.

Spicer teachers collaborate to achieve overall campus goals through PLCs and vertical team meetings.

Increased community/family involvement to include participants for World Read Aloud Day, Haltom High School Pals, collaboration with community partners such as Mercy Cares and The Tree to provide supports for our families, and an active PTA program.

We implement systematic methods of communication between the school and parents, along with positively promoting the campus.

All classrooms will have safe space, wish you well, and safe keeper ritual.

Survey data shows that 100% of staff, students, and parents feel the school is safe.

### **Problem Statements Identifying Perceptions Needs**

**Problem Statement 1 (Prioritized):** The campus has limited parent involvement for volunteering opportunities that support students and staff in our school, such as PTA. Additionally, we have a lack of community partnerships with organizations and businesses that could bring much needed resources and support to our economically disadvantaged and emergent bilingual students and their families.

**Root Cause:** Connections need to be made with community partners to bring in resources and support for families that would also encourage parent involvement. District resources need to be utilized, such as multilingual services to break down language barriers so that school staff can connect with families in a more meaningful way.

# Priority Problem Statements

**Problem Statement 1:** This campus has 63.4% of students identified at risk that exhibit an increase in social emotional gaps affecting academic performance.

**Root Cause 1:** The high percentage of at-risk students, combined with insufficient social-emotional support, creates barriers to effective learning and engagement. These gaps hinder students' ability to focus on their studies, resulting in decreased academic performance.

**Problem Statement 1 Areas:** School Processes & Programs

**Problem Statement 2:** Only 46% of students met the closing-the-gap target in Math, falling 3% below the campus goal, highlighting the need for strengthening tier 1 instruction and targeted interventions to support student growth and improve overall performance.

**Root Cause 2:** The gap in Math performance is driven by inconsistent Tier 1 instruction, limited targeted interventions, and gaps in foundational skills, which prevent students from meeting the closing-the-gap target and achieving grade-level proficiency.

**Problem Statement 2 Areas:** School Processes & Programs

**Problem Statement 3:** Students scored 3% below the performance measure goal in both Reading and Math STAAR assessments, indicating a need for targeted instruction and interventions to improve overall achievement and close the gap to meet state expectations.

**Root Cause 3:** The campus has a high mobility rate (25.72%). Frequent mobility disrupts learning continuity, complicating skill development. 63.4% of students are at-risk and 67.75% are economically disadvantaged, creating substantial educational gaps in foundational skills. 21.35% of students identified as Emergent Bilingual, language barriers also hinder math and reading comprehension.

**Problem Statement 3 Areas:** Student Learning

**Problem Statement 4:** The campus has limited parent involvement for volunteering opportunities that support students and staff in our school, such as PTA. Additionally, we have a lack of community partnerships with organizations and businesses that could bring much needed resources and support to our economically disadvantaged and emergent bilingual students and their families.

**Root Cause 4:** Connections need to be made with community partners to bring in resources and support for families that would also encourage parent involvement. District resources need to be utilized, such as multilingual services to break down language barriers so that school staff can connect with families in a more meaningful way.

**Problem Statement 4 Areas:** Perceptions

**Problem Statement 5:** Our campus attendance rate is 94.9%, only a 1.6% increase over four years and below the 96% state target. This gap reduces instructional time, increases chronic absenteeism, and negatively affects student learning and overall performance.

**Root Cause 5:** Our below-target attendance rate is driven by systemic barriers, including 67.75% of students economically disadvantaged, 63.4% at-risk, and a 25.72% mobility rate. Economic hardship, unstable housing, limited health care and limited transportation contribute to chronic absenteeism, while 50% relying on bus/daycare transport face added challenges, preventing progress toward the 96% state goal.

**Problem Statement 5 Areas:** Demographics

**Problem Statement 6:** Our campus 5th grade Science STAAR scores were well below target, with only 12.3% of students meeting or mastering expectations. All subgroups are performing under state targets, highlighting gaps in content mastery and instructional effectiveness that require targeted support and interventions.

**Root Cause 6:** Low 5th grade Science STAAR scores stem from gaps in content mastery, limited academic vocabulary, difficulty with constructed responses and academic language, challenges for emergent bilinguals, and struggles interpreting pictures and models, compounded by insufficient hands-on lab experiences.

**Problem Statement 6 Areas:** Student Learning

**Problem Statement 7:** Seventeen percent of K-2 students scored well below standard on the end-of-year mClass assessment. Kindergarten had the lowest percentage at or above grade level, first grade met the target, and second grade fell just 1% below the goal, highlighting a need for targeted support in early literacy.

**Root Cause 7:** High percentages of at-risk (63.4%), economically disadvantaged (67.75%), and Emergent Bilingual students (21.35%), including 18% of K-1 students at risk for dyslexia, have gaps in early literacy. Addressing these needs requires differentiated instruction and targeted interventions to ensure grade-level proficiency.

**Problem Statement 7 Areas:** School Processes & Programs

**Problem Statement 8:** On the Reading STAAR, 51.3% of students scored 0 and 4.3% scored 1 on the extended constructed response, indicating a critical need for targeted instruction in writing, comprehension, and academic language to improve student performance.

**Root Cause 8:** Low extended response scores stem from limited cross-curricular writing time, difficulty answering prompts, challenges locating and explaining evidence, underdeveloped academic vocabulary, and inconsistent modeling of constructed responses across content areas.

**Problem Statement 8 Areas:** Student Learning

# Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

## **Improvement Planning Data**

- District goals
- Campus goals
- HB3 Reading and math goals for PreK-3
- Performance Objectives with summative review (prior year)
- Campus/District improvement plans (current and prior years)
- Planning and decision making committee(s) meeting data
- State and federal planning requirements

## **Accountability Data**

- Texas Academic Performance Report (TAPR) data
- Student Achievement Domain
- Student Progress Domain
- Accountability Distinction Designations

# Goals

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social and emotional needs of the student.

**Performance Objective 1:** Reduce the number of students assigned to MTSS Tiers 2 and 3.

**Evaluation Data Sources:** Campus response to intervention records, Focus, parent meetings, counselor and office referrals.

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               | Reviews   |     |     |           |

| <p><b>Strategy 1:</b> Implement schoolwide student monitoring and support systems to reduce the number of students requiring MTSS Tier 2 and 3. Use data to identify needs, provide targeted interventions, track progress, and adjust supports through PLCs and leadership team reviews.</p> <p><b>Actions:</b> 1. Keep and monitor school wide behavioral and academic Multi tiered system of support (MTSS) data records and document strategies used.<br/> 2. Implement campus wide strategies, structures, and procedures from Conscious Discipline.<br/> 3. Provide ongoing professional learning to all staff on Conscious Discipline.<br/> 4. Use positive behavior intervention supports (PBIS) strategies to recognize students for positive behavior campus wide.<br/> 5. Provide families with additional supports through various organizations and resources.<br/> 6. RTI collaborative meetings once a quarter to monitor student progress in behavior.<br/> 7. Title I tutor for pulling small groups for tiered students.<br/> 8. Work with teachers to identify gaps in student data to form small groups during RTI and PLC meetings.<br/> 9. The campus leadership team will assist the campus in promoting and teaching campus-wide expectations for all staff to consistently use to address behaviors in common areas.<br/> 10. Anchor charts for teaching campus wide expectations for behavior and procedures posted throughout the school.<br/> 11. Implement student data folders and hold regular teacher-student data conferences to review progress, set goals, and empower students to take ownership of their learning and growth.<br/> 12. Before and/or after school tutoring.</p> <p><b>Staff Responsible for Monitoring:</b> Principal, Assistant Principal, campus conscious discipline team, counselor, and Instructional Facilitator</p> <p><b>TEA Priorities:</b><br/> Recruit, support, retain teachers and principals, Build a foundation of reading and math<br/> - <b>ESF Levers:</b><br/> Lever 3: Positive School Culture</p> <p><b>Problem Statements:</b> Student Learning 1, 2, 3 - School Processes &amp; Programs 1, 2, 3</p> | Formative |     |     | Summative |

**Performance Objective 1 Problem Statements:****Student Learning**

**Problem Statement 1:** Students scored 3% below the performance measure goal in both Reading and Math STAAR assessments, indicating a need for targeted instruction and interventions to improve overall achievement and close the gap to meet state expectations. **Root Cause:** The campus has a high mobility rate (25.72%). Frequent mobility disrupts learning continuity, complicating skill development. 63.4% of students are at-risk and 67.75% are economically disadvantaged, creating substantial educational gaps in foundational skills. 21.35% of students identified as Emergent Bilingual, language barriers also hinder math and reading comprehension.

**Problem Statement 2:** Our campus 5th grade Science STAAR scores were well below target, with only 12.3% of students meeting or mastering expectations. All subgroups are performing under state targets, highlighting gaps in content mastery and instructional effectiveness that require targeted support and interventions. **Root Cause:** Low 5th grade Science STAAR scores stem from gaps in content mastery, limited academic vocabulary, difficulty with constructed responses and academic language, challenges for emergent bilinguals, and struggles interpreting pictures and models, compounded by insufficient hands-on lab experiences.

**Problem Statement 3:** On the Reading STAAR, 51.3% of students scored 0 and 4.3% scored 1 on the extended constructed response, indicating a critical need for targeted instruction in writing, comprehension, and academic language to improve student performance. **Root Cause:** Low extended response scores stem from limited cross-curricular writing time, difficulty answering prompts, challenges locating and explaining evidence, underdeveloped academic vocabulary, and inconsistent modeling of constructed responses across content areas.

**School Processes & Programs**

**Problem Statement 1:** Only 46% of students met the closing-the-gap target in Math, falling 3% below the campus goal, highlighting the need for strengthening tier 1 instruction and targeted interventions to support student growth and improve overall performance. **Root Cause:** The gap in Math performance is driven by inconsistent Tier 1 instruction, limited targeted interventions, and gaps in foundational skills, which prevent students from meeting the closing-the-gap target and achieving grade-level proficiency.

**Problem Statement 2:** Seventeen percent of K-2 students scored well below standard on the end-of-year mClass assessment. Kindergarten had the lowest percentage at or above grade level, first grade met the target, and second grade fell just 1% below the goal, highlighting a need for targeted support in early literacy. **Root Cause:** High percentages of at-risk (63.4%), economically disadvantaged (67.75%), and Emergent Bilingual students (21.35%), including 18% of K-1 students at risk for dyslexia, have gaps in early literacy. Addressing these needs requires differentiated instruction and targeted interventions to ensure grade-level proficiency.

**Problem Statement 3:** This campus has 63.4% of students identified at risk that exhibit an increase in social emotional gaps affecting academic performance. **Root Cause:** The high percentage of at-risk students, combined with insufficient social-emotional support, creates barriers to effective learning and engagement. These gaps hinder students' ability to focus on their studies, resulting in decreased academic performance.

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social and emotional needs of the student.

**Performance Objective 2:** All students will make at least one year's growth in reading and mathematics by the end of the school year. This includes meeting progress monitoring targets in PreK-5 for all demographic groups as measured by district-approved screeners (BOY, MOY, EOY), improving performance in Domain 3 Closing the Gaps, increasing the number of students achieving "meets" and "masters" on STAAR/EOC assessments, and closing achievement gaps for all underperforming student groups.

**Evaluation Data Sources:** CIRCLE (prekindergarten reading and math), mClass (kindergarten reading and math), mClass (grades 1-2 reading), and Renaissance STAR Assessments (reading, grades 2-5 and mathematics, grades 1-5), district reading and math common assessments and mid-module for grades 1-5 and kindergarten module checklists for math.

| <p><b>Strategy 1:</b> Provide professional development that assists teachers in the development, administration, and use of student performance data to evaluate student growth and enhance instructional practices.</p> <p><b>Actions:</b> 1. Ensure teachers attend district curriculum previews and professional development throughout the year.<br/> 2. Provide instructional facilitator support for Blue Bonnet Math, 95 Phonics (K-1), and phonics curriculum (Grades 2-3).<br/> 3. Offer professional development on Tier 2 academic vocabulary, small group instruction, and planning activities that support listening and speaking skills.<br/> 4. Teachers will utilize print and digital literature resources to support literacy across the curriculum.<br/> 5. Conduct instructional walks led by administration and instructional facilitator to observe vertical alignment and peer practices.<br/> 6. Create digital feedback forms for staff to communicate on instructional practices.<br/> 7. Highlight staff mastery by having teachers present best practices in Reading and Math during staff meetings, weekly PLC's and monthly vertical team meetings.<br/> 8. Track student progress using PDSA cycles with unit assessments and district common assessments.<br/> 9. Implement student data folders and hold regular teacher-student data conferences to review progress, set goals, and empower students to take ownership of their learning and growth.<br/> 10. Use PLC and data to plan focused instruction and targeted interventions.<br/> 11. Schedule 2 power planning days a quarter for teachers to internalize and collaborate on math, reading, and science instruction.<br/> 12. Use tier 1 priorities for academic vocabulary instruction.</p> <p><b>Staff Responsible for Monitoring:</b> Principal, Assistant Principal, Instructional facilitator, and Leader of Learners.</p> <p><b>Title I:</b><br/> 2.51, 2.52, 2.53, 2.531, 2.532, 2.533, 2.534, 2.535</p> <p><b>Problem Statements:</b> Student Learning 1, 2, 3 - School Processes &amp; Programs 1, 2</p> | Formative |     |     | Summative |

| <b>Strategy 2:</b> Ensure the consistent implementation of literacy across all content areas by aligning instruction with district Tier 1 priorities, with a targeted focus on student mastery of constructed responses.<br><b>Actions:</b> 1. Collaborate on strategies to integrate literacy components across all subjects during PLC meetings.<br>2. Discuss and implement strategies that build tier 2 academic vocabulary across all content during PLC meetings.<br>3. Integrate writing into cross-curricular content areas to enhance students' skills in constructed response writing.<br>4. Instructional leaders will provide ongoing professional development, monitor implementation through classroom walkthroughs and PLC collaboration.<br>5. Use student work samples to assess progress in literacy integration and constructed response quality.<br>6. Teachers will integrate reading, writing, speaking, and critical thinking opportunities into daily lessons across disciplines to strengthen comprehension, academic vocabulary, and written communication.<br>7. Professional development for teachers on strategies for teaching tier 2 academic vocabulary and the planning of classroom activities that support the opportunity for students to work on listening and speaking skills.<br><b>Staff Responsible for Monitoring:</b> Assistant principal, principal, instructional facilitator, and teachers<br><br><b>Problem Statements:</b> Student Learning 1, 2, 3 - School Processes & Programs 2 |  | Formative |     |     | Summative |

| <p><b>Problem Statement 1:</b> Students scored 3% below the performance measure goal in both Reading and Math STAAR assessments, indicating a need for targeted instruction and interventions to improve overall achievement and close the gap to meet state expectations. <b>Root Cause:</b> The campus has a high mobility rate (25.72%). Frequent mobility disrupts learning continuity, complicating skill development. 63.4% of students are at-risk and 67.75% are economically disadvantaged, creating substantial educational gaps in foundational skills. 21.35% of students identified as Emergent Bilingual, language barriers also hinder math and reading comprehension.</p> <p><b>Problem Statement 2:</b> Our campus 5th grade Science STAAR scores were well below target, with only 12.3% of students meeting or mastering expectations. All subgroups are performing under state targets, highlighting gaps in content mastery and instructional effectiveness that require targeted support and interventions. <b>Root Cause:</b> Low 5th grade Science STAAR scores stem from gaps in content mastery, limited academic vocabulary, difficulty with constructed responses and academic language, challenges for emergent bilinguals, and struggles interpreting pictures and models, compounded by insufficient hands-on lab experiences.</p> <p><b>Problem Statement 3:</b> On the Reading STAAR, 51.3% of students scored 0 and 4.3% scored 1 on the extended constructed response, indicating a critical need for targeted instruction in writing, comprehension, and academic language to improve student performance. <b>Root Cause:</b> Low extended response scores stem from limited cross-curricular writing time, difficulty answering prompts, challenges locating and explaining evidence, underdeveloped academic vocabulary, and inconsistent modeling of constructed responses across content areas.</p> |
| School Processes & Programs                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| <p><b>Problem Statement 1:</b> Only 46% of students met the closing-the-gap target in Math, falling 3% below the campus goal, highlighting the need for strengthening tier 1 instruction and targeted interventions to support student growth and improve overall performance. <b>Root Cause:</b> The gap in Math performance is driven by inconsistent Tier 1 instruction, limited targeted interventions, and gaps in foundational skills, which prevent students from meeting the closing-the-gap target and achieving grade-level proficiency.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |

School Processes & Programs

**Problem Statement 2:** Seventeen percent of K-2 students scored well below standard on the end-of-year mClass assessment. Kindergarten had the lowest percentage at or above grade level, first grade met the target, and second grade fell just 1% below the goal, highlighting a need for targeted support in early literacy. **Root Cause:** High percentages of at-risk (63.4%), economically disadvantaged (67.75%), and Emergent Bilingual students (21.35%), including 18% of K-1 students at risk for dyslexia, have gaps in early literacy. Addressing these needs requires differentiated instruction and targeted interventions to ensure grade-level proficiency.

**Goal 2:** Utilize efficient and effective operations to support and improve the learning organization.

**Performance Objective 1:** Increase the annual total average daily attendance (ADA) to 96% by improving student retention, supporting consistent daily attendance, and implementing strategies for student recruitment and engagement compared to the prior school year.

**Evaluation Data Sources:** On Data Suite

| <p><b>Strategy 1:</b> Implement a comprehensive approach to increase student attendance that involves students, parents, teachers, and the community.</p> <p><b>Actions:</b> 1. Reward individual perfect attendance at quarterly school wide assemblies. Student names will be placed in a drawing for prizes and all students will be given a certificate for perfect attendance.<br/> 2. Provide information to parents at school events regarding importance of attendance and how it is linked to academic success.<br/> 3. Celebration on social media - A celebration notice will be sent home spotlighting students with perfect attendance. The parent will submit a picture and the student's reason they love coming to school. The picture and student expression will be posted on Spicer's social media.<br/> 4. Individual class attendance graphs will be displayed in a centralized location to track progress toward the campus goal of 96% and discussed during announcements.<br/> 5. Implementing Conscious Discipline routines campus wide such as "wish you well".<br/> 6. Teachers will make phone calls to parents/guardians when students are absent.<br/> 7. Monthly newsletters will be sent out to families to communicate school events and promote attending school, including our attendance rate.<br/> 8. Implement rewards for classrooms that accumulate 10 days of 100% attendance.<br/> 9. Administration will collaborate with parents of students with three or more unexcused absences to develop individualized plans that address barriers and support consistent school attendance.<br/> 10. Establish a campus attendance committee of staff members to meet monthly to review attendance data, monitor progress toward the campus goal, and plan or adjust strategies to improve student attendance.<br/> 11. Make plans that specifically target PreK families to strengthen school-home partnerships and promote a culture of learning and consistent attendance through events, education, and regular communication.</p> <p><b>Staff Responsible for Monitoring:</b> Principal, Assistant Principal, attendance clerk, Counselor, teachers, and campus attendance committee</p> <p><b>TEA Priorities:</b><br/> Recruit, support, retain teachers and principals, Build a foundation of reading and math<br/> - <b>ESF Levers:</b><br/> Lever 3: Positive School Culture</p> <p><b>Problem Statements:</b> Demographics 1 - School Processes &amp; Programs 1, 2, 3</p> | Formative |     |     | Summative |
|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         | Nov       | Jan | Mar | June      |
|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |           |     |     |           |

**Performance Objective 1 Problem Statements:**

### Demographics

**Problem Statement 1:** Our campus attendance rate is 94.9%, only a 1.6% increase over four years and below the 96% state target. This gap reduces instructional time, increases chronic absenteeism, and negatively affects student learning and overall performance. **Root Cause:** Our below-target attendance rate is driven by systemic barriers, including 67.75% of students economically disadvantaged, 63.4% at-risk, and a 25.72% mobility rate. Economic hardship, unstable housing, limited health care and limited transportation contribute to chronic absenteeism, while 50% relying on bus/daycare transport face added challenges, preventing progress toward the 96% state goal.

### School Processes & Programs

**Problem Statement 1:** Only 46% of students met the closing-the-gap target in Math, falling 3% below the campus goal, highlighting the need for strengthening tier 1 instruction and targeted interventions to support student growth and improve overall performance. **Root Cause:** The gap in Math performance is driven by inconsistent Tier 1 instruction, limited targeted interventions, and gaps in foundational skills, which prevent students from meeting the closing-the-gap target and achieving grade-level proficiency.

**Problem Statement 2:** Seventeen percent of K-2 students scored well below standard on the end-of-year mClass assessment. Kindergarten had the lowest percentage at or above grade level, first grade met the target, and second grade fell just 1% below the goal, highlighting a need for targeted support in early literacy. **Root Cause:** High percentages of at-risk (63.4%), economically disadvantaged (67.75%), and Emergent Bilingual students (21.35%), including 18% of K-1 students at risk for dyslexia, have gaps in early literacy. Addressing these needs requires differentiated instruction and targeted interventions to ensure grade-level proficiency.

**Problem Statement 3:** This campus has 63.4% of students identified at risk that exhibit an increase in social emotional gaps affecting academic performance. **Root Cause:** The high percentage of at-risk students, combined with insufficient social-emotional support, creates barriers to effective learning and engagement. These gaps hinder students' ability to focus on their studies, resulting in decreased academic performance.

**Goal 2:** Utilize efficient and effective operations to support and improve the learning organization.

**Performance Objective 2:** Increase family and community involvement by offering engagement opportunities that are accessible to all families, fostering strong school partnerships and supporting student success.

**Evaluation Data Sources:** Event attendance records (sign-in sheets for day and evening activities)

Parent surveys measuring satisfaction, engagement, and perceived accessibility

PTA participation logs and records of collaborative events

Social media metrics (reach, likes, shares, engagement with school posts)

Volunteer hours contributed by families and community members

Feedback from staff regarding family and community involvement

Number and diversity of partnerships with local businesses and organizations

Follow-up participation trends across multiple events to track growth over time

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                | Reviews   |     |     |           |

| <b>Strategy 1:</b> Increase communication with student families and community.<br><b>Actions:</b> 1. Utilize Spicer's facebook page and Instagram to advertise school events and celebrate good things happening on campus.<br>2. Partner with the district's multilingual service department to facilitate connections with families.<br>3. Recruit community partners to support our students, families, and staff.<br>4. Provide a community newsletter using smore to communicate campus achievements, activities, upcoming events, trainings, etc with all stakeholders.<br>5. Use blackboard and Focus to email out important campus information.<br>6. Provide parent surveys at the beginning and end of school year.<br>7. Send out quarterly calendar of school wide events.<br>8. Utilize sign-in sheets to track participation in events.<br>9. Leverage social media to share activities and build partnerships with community businesses.<br>10. Offer a mix of day and evening events to increase accessibility.<br>11. Partner with local organizations to host family learning nights.<br>12. Provide translation/interpretation and childcare to reduce barriers to involvement.<br>13. Recognize and celebrate family and community contributions at school events.<br>14. Partner with the PTA to strengthen its presence on campus through event collaboration and staff support initiatives.<br>15. Campus leadership will meet monthly with the PTA board to plan schoolwide parent engagement activities and student events<br>16. Host a Reading, Math, and Science Night on campus to engage families, provide resources, and promote at-home practice of student skills across core subjects.<br><b>Staff Responsible for Monitoring:</b> Assistant Principal, Principal, PTA, teachers, campus webmaster, district language specialist, and Counselor<br><br><b>TEA Priorities:</b><br>Recruit, support, retain teachers and principals, Build a foundation of reading and math<br>- <b>ESF Levers:</b><br>Lever 1: Strong School Leadership and Planning, Lever 3: Positive School Culture<br><b>Problem Statements:</b> Demographics 1 - School Processes & Programs 3 - Perceptions 1<br><b>Funding Sources:</b> Family Engagement - 211 - Title I | Formative |     |     | Summative |
|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   | Nov       | Jan | Mar | June      |
|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |           |     |     |           |

## Performance Objective 2 Problem Statements:

### Demographics

**Problem Statement 1:** Our campus attendance rate is 94.9%, only a 1.6% increase over four years and below the 96% state target. This gap reduces instructional time, increases chronic absenteeism, and negatively affects student learning and overall performance. **Root Cause:** Our below-target attendance rate is driven by systemic barriers, including 67.75% of students economically disadvantaged, 63.4% at-risk, and a 25.72% mobility rate. Economic hardship, unstable housing, limited health care and limited transportation contribute to chronic absenteeism, while 50% relying on bus/daycare transport face added challenges, preventing progress toward the 96% state goal.

### School Processes & Programs

**Problem Statement 3:** This campus has 63.4% of students identified at risk that exhibit an increase in social emotional gaps affecting academic performance. **Root Cause:** The high percentage of at-risk students, combined with insufficient social-emotional support, creates barriers to effective learning and engagement. These gaps hinder students' ability to focus on their studies, resulting in decreased academic performance.

### Perceptions

**Problem Statement 1:** The campus has limited parent involvement for volunteering opportunities that support students and staff in our school, such as PTA. Additionally, we have a lack of community partnerships with organizations and businesses that could bring much needed resources and support to our economically disadvantaged and emergent bilingual students and their families. **Root Cause:** Connections need to be made with community partners to bring in resources and support for families that would also encourage parent involvement. District resources need to be utilized, such as multilingual services to break down language barriers so that school staff can connect with families in a more meaningful way.

**Goal 3:** All students and staff will learn and work in a safe and responsive environment.

**Performance Objective 1:** Ensure that 100% of students, staff, and families feel safe, supported, and valued at school by fostering a positive school climate, implementing proactive social-emotional learning, and maintaining consistent safety practices.

**Evaluation Data Sources:** As measured by Anonymous Alerts, annual safety survey, Safe Schools, staff and parent surveys from campus.

| <p><b>Strategy 1:</b> Ensure all staff are compliant and current in all state, district, and campus safety procedures.</p> <p><b>Actions:</b> 1. Partner with the SRO to lead safety trainings for staff, students, and families on emergency procedures and crisis response.<br/> 2. Involve the SRO in monthly safety committee meetings to review data and update campus safety plans.<br/> 3. Conduct regular campus safety walk-throughs with the SRO to identify and address potential risks.<br/> 4. Provide student education sessions with the SRO on digital safety, bullying prevention, and conflict resolution.<br/> 5. Collaborate with the SRO to strengthen community partnerships with local law enforcement and emergency services.<br/> 6. Utilize the SRO to support schoolwide safety drills and ensure compliance with district and state requirements.<br/> 7. Conduct an annual review of all state, district, and campus safety procedures with staff.<br/> 8. Maintain a tracking system to monitor staff completion of required safety trainings and certifications in Safe Schools.<br/> 9. Provide regular refresher trainings and updates on changes to safety policies.<br/> 10. Integrate safety procedure reviews into staff meetings and professional development days.<br/> 11. Conduct monthly drills (fire, lockdown, severe weather) to ensure staff readiness and compliance.<br/> 12. Campus safety committee will meet once a month to discuss campus data and collaborate on proactive measures to keep the campus safe.<br/> 13. Communicate reminders and updates via email, teams, and newsletters to ensure awareness.<br/> 14. Substitutes are given a folder with campus safety information when they receive their key from the secretary.<br/> 15. Safety plans and campus maps are updated and included in Raptor.<br/> 16. Each classroom has an emergency backpack that maintains a student roster, campus emergency plan, maps, and emergency supplies.<br/> 17. The nurse will train the campus AED team, monitor the emergency supply bag, and ensure the AED machine is in working order.<br/> 18. The administration team keeps record of staff emergency contacts and information.<br/> 19. Raptor will be used for all drills.<br/> 20. Include school safety procedures in monthly parent newsletters and communication.</p> <p><b>Staff Responsible for Monitoring:</b> Assistant principal, campus safety committee, SRO, and principal.</p> <p><b>TEA Priorities:</b><br/> Recruit, support, retain teachers and principals, Build a foundation of reading and math<br/> - <b>ESF Levers:</b><br/> Lever 3: Positive School Culture</p> <p><b>Problem Statements:</b> Demographics 1 - School Processes &amp; Programs 3 - Perceptions 1</p> | Formative |     |     | Summative |
|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              | Nov       | Jan | Mar | June      |

| <p><b>Strategy 2:</b> Ensure a safe and supportive learning environment for all staff and students by maintaining compliance with safety procedures, promoting a positive school culture, and implementing proactive prevention and response measures.</p> <p><b>Actions:</b> 1. After each drill staff will receive feedback on drill effectiveness and improvements needed.<br/> 2. Google form for staff to report campus concerns regarding safety concerns and/or procedures.<br/> 3. Educate students and families on Anonymous Alerts.<br/> 4. Maintaining locked doors and completing daily and weekly door checks of inside, outside doors and gates.<br/> 5. Incorporate Conscious Discipline strategies and procedures campus wide.<br/> 6. Incorporate a dedicated campus crisis counselor to improve student and staff emotional well-being and mental health, reduce incidents of crisis situations escalating without intervention, and enhance academic performance through better emotional support.<br/> 7. Counseling lessons presented monthly by the counselor to all students.<br/> 8. Threat assessment committee meets once a week to review student plans.<br/> 9. Students receive Character Strong lessons in their classrooms each week.<br/> 10. We celebrate Colt with Character every Friday and Strong Students once a quarter.<br/> 11. Implementing Academy 4 to build strong leadership in fourth grade.<br/> 12. Engage the 4th and 5th grade leadership team to support younger students, model the school mission, and promote safety procedures through service and communication across campus.<br/> 13. Bullying committee meets once a quarter.<br/> 14. Each classroom has a safe place for students and our campus has a designated safe place for staff to help with emotional regulation.</p> <p><b>Staff Responsible for Monitoring:</b> Principal, assistant principal, counselors, SRO, and campus safety committee.</p> <p><b>TEA Priorities:</b><br/> Recruit, support, retain teachers and principals, Build a foundation of reading and math</p> <p><b>Problem Statements:</b> Demographics 1 - School Processes &amp; Programs 3 - Perceptions 1</p> |           |     |     |           |

### Performance Objective 1 Problem Statements:

| Demographics                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p><b>Problem Statement 1:</b> Our campus attendance rate is 94.9%, only a 1.6% increase over four years and below the 96% state target. This gap reduces instructional time, increases chronic absenteeism, and negatively affects student learning and overall performance. <b>Root Cause:</b> Our below-target attendance rate is driven by systemic barriers, including 67.75% of students economically disadvantaged, 63.4% at-risk, and a 25.72% mobility rate. Economic hardship, unstable housing, limited health care and limited transportation contribute to chronic absenteeism, while 50% relying on bus/daycare transport face added challenges, preventing progress toward the 96% state goal.</p> |

### School Processes & Programs

**Problem Statement 3:** This campus has 63.4% of students identified at risk that exhibit an increase in social emotional gaps affecting academic performance. **Root Cause:** The high percentage of at-risk students, combined with insufficient social-emotional support, creates barriers to effective learning and engagement. These gaps hinder students' ability to focus on their studies, resulting in decreased academic performance.

### Perceptions

**Problem Statement 1:** The campus has limited parent involvement for volunteering opportunities that support students and staff in our school, such as PTA. Additionally, we have a lack of community partnerships with organizations and businesses that could bring much needed resources and support to our economically disadvantaged and emergent bilingual students and their families. **Root Cause:** Connections need to be made with community partners to bring in resources and support for families that would also encourage parent involvement. District resources need to be utilized, such as multilingual services to break down language barriers so that school staff can connect with families in a more meaningful way.

**Goal 3:** All students and staff will learn and work in a safe and responsive environment.

**Performance Objective 2:** Build a positive and supportive staff culture, leading to increased job satisfaction, improved workplace morale, and reduced staff turnover, while also fostering an inviting school environment where families and community members feel welcomed, engaged, and eager to participate in the life of the school.

**Evaluation Data Sources:** Staff surveys

| <b>Strategy 1:</b> Design a comprehensive strategy that aims to create a positive and supportive staff culture by recognizing achievements, offering opportunities for growth, and fostering a connected and collaborative work environment.<br><b>Actions:</b> 1. Establish a monthly recognition during staff meetings where staff members are celebrated for their achievements, contributions, birthdays, and dedication.<br>2. Implement peer-nominated awards such as "Staff Member of the week" to highlight individual and team efforts.<br>3. Organize monthly morale-boosting activities, such as staff potlucks, wellness days, or team-building exercises, to foster camaraderie and a positive work environment.<br>4. Introduce a system of incentives, such as extra planning time, school supplies, lunch and learns, and celebrations for reaching specific goals or milestones.<br>5. Regularly solicit feedback from staff through surveys and suggestion boxes to identify areas for improvement in the workplace environment.<br>6. Offer targeted professional development sessions focused on areas identified by staff as important for their personal and professional growth.<br>7. Implement recognition programs and provide opportunities for staff to take on leadership roles within the school, such as leading a committee or a professional learning community (PLC), to empower and engage them in school decision-making.morale-building incentives campus-wide.<br>8. Implement a staff wish well board and friends and family board to increase connectedness amongst staff members.<br>9. Implement staff surveys and feedback opportunities to guide campus culture initiatives.<br>10. Host family and community events that encourage active participation and partnerships.<br>11. Strengthen communication with families through multiple platforms to ensure accessibility.<br>12. Partner with the PTA and community organizations to support staff and student initiatives.<br>13. Create opportunities for families and community members to volunteer and serve on campus committees.<br>14. The campus will partner with community churches, businesses, and other organizations such as The Tree, Mercy Cares, Christ Haven, etc. to provide supports for our students and their families.<br>15. Partner with Academy 4 and Haltom City Church to provide mentors and Academy 4 program to our fourth graders and increase volunteers in our school.<br><b>Staff Responsible for Monitoring:</b> Principal, assistant principal, LOL Team, and Counselor.<br><br><b>Problem Statements:</b> Demographics 1 - School Processes & Programs 3 - Perceptions 1 |  | Formative |     |     | Summative |

| Demographics                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> Our campus attendance rate is 94.9%, only a 1.6% increase over four years and below the 96% state target. This gap reduces instructional time, increases chronic absenteeism, and negatively affects student learning and overall performance. <b>Root Cause:</b> Our below-target attendance rate is driven by systemic barriers, including 67.75% of students economically disadvantaged, 63.4% at-risk, and a 25.72% mobility rate. Economic hardship, unstable housing, limited health care and limited transportation contribute to chronic absenteeism, while 50% relying on bus/daycare transport face added challenges, preventing progress toward the 96% state goal. |

### School Processes & Programs

**Problem Statement 3:** This campus has 63.4% of students identified at risk that exhibit an increase in social emotional gaps affecting academic performance. **Root Cause:** The high percentage of at-risk students, combined with insufficient social-emotional support, creates barriers to effective learning and engagement. These gaps hinder students' ability to focus on their studies, resulting in decreased academic performance.

### Perceptions

**Problem Statement 1:** The campus has limited parent involvement for volunteering opportunities that support students and staff in our school, such as PTA. Additionally, we have a lack of community partnerships with organizations and businesses that could bring much needed resources and support to our economically disadvantaged and emergent bilingual students and their families. **Root Cause:** Connections need to be made with community partners to bring in resources and support for families that would also encourage parent involvement. District resources need to be utilized, such as multilingual services to break down language barriers so that school staff can connect with families in a more meaningful way.

# Comprehensive Needs Assessment

## Demographics

### Demographics Summary

#### Current Student Overview:

North Oaks Middle School, served 535 students in grades 6 through 8 during the 2024-2025 school year, before reaching a final enrollment of approximately 480 students in the spring of 2025. The student body is nearly evenly distributed across grade levels, with 6th and 7th grades each comprising approximately 33.6% of enrollment and 8th grade at 32.7%. The campus is culturally diverse, with 47.1% of students identifying as Hispanic/Latino, followed by White (20.0%), Black/African American (18.7%), and Asian (8.4%). Male students slightly outnumber females, making up 53.1% of the population. North Oaks operates as a 100% Title I Schoolwide Program, with 71.96% of students identified as economically disadvantaged, including 59.6% receiving free meals and 12.3% receiving reduced-price meals. The school supports a range of student needs: 26.4% are Emergent Bilinguals, 19.3% receive Special Education services, 8.8% qualify for Section 504, 12.9% receive dyslexia services, and 5.2% are identified as Gifted and Talented. Notably, 62.8% of students are identified for academic intervention, and 20% have Student Accelerated Education Plans. Special education services are primarily delivered through resource (15.2%) and learning lab (7.5%) settings, with a small percentage in self-contained behavior classrooms. The school currently matriculates into an Early College High School, which presents a potential area for growth. Overall, North Oaks Middle School serves a high-need, high-diversity population, and campus improvement efforts must remain focused on equity, academic intervention, differentiated support, and whole-child development.

#### Current Staff Overview:

North Oaks Middle School employs a total of 53.5 staff members, of which 90% are professional staff, including 74.9% classroom teachers. The remaining staff includes 10% educational aides and 6.5% campus administrators. Compared to district and state averages, the campus has a higher proportion of teachers and campus leadership, but slightly fewer professional support staff. The teacher-to-student ratio at North Oaks is 11.7, which is notably better than both the district (14.9) and state (14.7) averages, allowing for more individualized instruction. The teaching staff is predominantly White (70.7%), with Hispanic (16.8%) and African American (5%) teachers representing a smaller portion, resulting in a total minority staff rate of 21.8%—significantly lower than the state average of 54.4%. Gender representation among teachers leans female (62.9%), though the male teacher percentage (37.1%) is above state averages.

Most teachers (72.2%) hold a bachelor's degree, while 25.3% hold a master's, and 2.5% hold a doctorate. In terms of experience, over half of the staff (56.3%) have more than 10 years of experience, and only 5.3% are beginning teachers—well below the district and state percentages. The average teacher has 10.3 years of experience overall and 6.7 years within the district. Campus leadership is stable and experienced, with the principal averaging 8 years of leadership experience, all within the district. Assistant principals average 3.5 years of experience, also with the district.

Overall, North Oaks Middle School is staffed with experienced educators and administrators, maintains a favorable student-to-teacher ratio, and offers solid instructional coverage across most programs. However, the campus may benefit from increased diversity among staff and expanded services in areas such as gifted education and Bilingual/ESL support to better meet the needs of its diverse student population.

### Demographics Strengths

North Oaks Middle School demonstrates several notable demographic strengths based on recent performance data. Academic achievement across diverse groups, strong performance in End-of-Course (EOC) exams, consistent performance in STAAR performance, effective support for economically disadvantaged students, and support for students served in special education.

First, the data reveal some academic achievement across diverse groups in reading and math proficiency. In reading proficiency, the school has achieved high performance rates with students across various ethnic groups generally meeting or exceeding grade-level expectations. Specifically, Hispanic and White students show strong performance in reading, with Hispanic students showing improvements, reaching 82% at Approaches Grade Level or Above in 7th grade reading in 2023. In 8th grade reading, African American and Hispanic students performed particularly well, with 83% of African American students and 85% of Hispanic students scoring at Approaches Grade Level or Above in 2023. In mathematics, the school has experienced improvements across various grade levels. For example, 7th grade mathematics saw 73% of Hispanic students achieving Approaches Grade Level or Above in 2023. Asian students also showed some mathematical success, achieving high performance rates in both Approaches and Meets Grade Level or Above categories.

Secondly, the campus has experience strong performance in Algebra I, End-of-Course (EOC) Exams, which is the only EOC tested at North Oaks, as it is a high school level course. The entire student body, regardless of demographic background, has shown exceptional performance in Algebra I, with 100% of all groups meeting or exceeding the Approaches Grade Level standard in both 2022 and 2023. High performance rates are consistent among different ethnic groups, including African American and Hispanic students.

Next, the school has shown consistent improvement in STAAR performance. To begin, at grade level performance, the overall percentage of students meeting or exceeding grade-level standards has shown improvement from 2022 to 2023. For instance, in 6th grade reading, performance increased from 70% to 77% at Approaches Grade Level or Above. In mathematics, the percentage of students meeting grade-level expectations has improved across multiple grades, indicating progress and suggests the broader use of effective instructional strategies. Students characterized as economically disadvantaged have seen improvements, particularly in reading. For instance, in 6th grade reading, economically disadvantaged students improved from 65% at Approaches Grade Level or Above in 2022 to 73% in 2023.

Finally, the data suggests increasing and effective support of students in special education. Their performance has shown positive trends. For example, 7th grade students with special education needs achieved 67% at Approaches Grade Level or Above in mathematics in 2023.

Overall, the strengths of the demographic data include high and improving performance, equity across demographics, and effective End-of-Course Results. Across most subjects and grades, North Oaks Middle School demonstrates strong and improving performance, particularly in reading and mathematics. The school has successfully supported various student groups, including Hispanic, African American, and economically disadvantaged students, showcasing equitable academic progress. Consistently high performance in Algebra I reflects effective preparation and support across all demographic groups in this program. These strengths provide a solid foundation for further enhancing educational outcomes and addressing areas needing improvement in the campus improvement plan.

While, the campus celebrates the strengths of the data, there is a glaring recognition of areas of improvement. Recognizing that "Approaching Grade Level" is passing, but not indicative of a students grade level performance is one. The campus endeavors to increase the percentages and number of students who meet and master grade level standards. Additionally, although diverse groups of students are experiencing growth, gaps between and among learners persist and must be addressed. There is also an increasing number of emergent bilingual students who speak a variety of native languages and must be support in their acquisition of learning the English language while concurrently aiming to approach, met, and master grade level standards.

## **Problem Statements Identifying Demographics Needs**

**Problem Statement 1 (Prioritized):** Over 60% of students at North Oaks Middle School are identified for academic intervention, indicating significant gaps in foundational skills and consistent academic performance across grade levels, and a need for increased targeted intervention.

**Root Cause:** High percentage of economically disadvantaged students (72%) contributing to learning barriers outside of school. Limited access to enrichment and intervention programs, underrepresentation of students in Gifted and Talented programs (only 5.2%), suggests missed opportunities to identify, challenge and accelerate high-potential learners.

**Problem Statement 2 (Prioritized):** Emergent Bilinguals make up over 26% of the student population, but staffing and programming to support language acquisition are minimal.

**Root Cause:** Lack of certified bilingual/ESL staff or push-in/pull-out support systems, absence of Dual Language Immersion programs on campus, and limited training in sheltered

instruction or SIOP strategies for general education teachers.

**Problem Statement 3 (Prioritized):** The school serves a high-need population with 19.3% in Special Education, 12.9% receiving dyslexia services, and 20% on Accelerated Education Plans, yet behavioral services and self-contained programming are minimal.

**Root Cause:** Understaffing or lack of capacity in special education support roles, inconsistent MTSS/RTI implementation across content areas, and limited training in trauma-informed practices or behavioral interventions may be root causes in this area.

**Problem Statement 4:** While over 75% of students are students of color, only 21.8% of staff identify as minority, which may impact cultural responsiveness and student-staff relationships.

**Root Cause:** Recruitment efforts may not be effectively targeting diverse teacher pipelines.

# Student Learning

## Student Learning Summary

North Oaks Middle School administered a total of 1,163 STAAR assessments across Reading/Language Arts (RLA), Mathematics, Science, and Social Studies. Overall, 63% of tests scored at the *Approaches Grade Level* or above, 38% at the *Meets Grade Level* standard, and 17% reached the *Masters Grade Level*. Reading/Language Arts yielded the strongest overall results, with 69% of students performing at the Approaches level or higher, 49% at Meets, and 25% at Masters. Science followed closely with 73% Approaches, 44% Meets, and 13% Masters. Mathematics and Social Studies presented more significant challenges. In Mathematics, only 57% of students met the Approaches standard, 28% achieved Meets, and 13% reached Masters. Social Studies had the lowest performance, with just 53% at Approaches, 28% at Meets, and 9% at Masters.

Performance varied significantly across student groups. Asian students outperformed all other racial and ethnic groups, with 77% reaching Approaches or higher and 27% at Masters. White students also performed above the school average, while Hispanic and African American students scored below in all performance categories, particularly at the Masters level, where both groups had only 15%. Students identified as Economically Disadvantaged scored lower than their peers, with 59% at Approaches and only 14% at Masters, compared to 72% and 26%, respectively, for Non-Economically Disadvantaged students. Special Education students had the greatest academic challenges, with only 35% meeting the Approaches standard and just 5% at Masters. English Learners (current) also underperformed, with only 54% at Approaches and 7% at Masters. On the other hand, Gifted and Talented students significantly outperformed all groups, with 100% reaching Approaches and 77% at Masters.

The High Focus student group—which includes students who are Economically Disadvantaged, English Learners (current and monitored), Special Education (current), or Highly Mobile—scored below campus averages, with only 60% of their tests at Approaches, 34% at Meets, and 14% at Masters. While this highlights the importance of continued targeted intervention, it also reflects opportunities for growth in closing achievement gaps. The campus received a component score of 39, based on cumulative performance across all tested subjects. This score indicates that while a solid foundation exists at the Approaches level, there is a pressing need to increase the number of students achieving Meets and Masters standards, especially in Mathematics and Social Studies.

In summary, North Oaks Middle School demonstrates strong foundational achievement in RLA and Science, a high-performing Gifted/Talented program, and a favorable student-to-teacher ratio that supports individualized learning. However, challenges remain in improving Math and Social Studies outcomes, as well as addressing achievement disparities among African American, Hispanic, Special Education, and English Learner populations. Focused instructional strategies, data-driven intervention systems, and culturally responsive teaching will be critical in supporting these groups and improving overall academic performance.

## Student Learning Strengths

North Oaks Middle School demonstrates several notable strengths in student learning and academic performance. The campus achieved an overall *Approaches Grade Level* performance rate of 63% across all tested subjects, with especially strong results in Reading/Language Arts (69%) and Science (73%). The component score of 39 reflects a solid foundation of academic achievement at the campus level.

A major strength lies in the performance of Gifted and Talented (G/T) students, with 100% meeting the *Approaches* and *Meets* standards and an impressive 77% reaching the *Masters* level. This indicates that the G/T program is highly effective in meeting the needs of advanced learners. Additionally, Asian students consistently outperformed all other ethnic groups, achieving 77% at *Approaches* and 27% at *Masters*, showcasing strong academic support and outcomes for this subgroup.

The Science department also showed strong results, with 44% of students achieving *Meets* and 13% reaching *Masters*, exceeding or closely aligning with district averages in many subgroups. Notably, White students performed above campus averages in all subject areas, indicating effective instructional strategies within that demographic.

Gender data and teacher-student ratios suggest further instructional advantages. With a student-to-teacher ratio of 11.7, North Oaks is well positioned to provide more personalized, small-group instruction. Additionally, the school's stable and experienced teaching staff, particularly those with over 10 years of experience, enhances instructional consistency and academic support for students.

Finally, the school's Highly Mobile student group performed comparably to other groups, with 60% at *Approaches*, 50% at *Meets*, and 30% at *Masters*, demonstrating the school's ability to support students facing transitional challenges.

### **Problem Statements Identifying Student Learning Needs**

**Problem Statement 1 (Prioritized):** Student achievement in Mathematics and Social Studies is significantly below expected levels, with only 57% of students meeting Approaches in Math and 53% in Social Studies. Masters level performance is particularly low in both subjects (13% in Math, 9% in Social Studies).

**Root Cause:** Limited conceptual understanding and gaps in foundational skills from earlier grade levels, inconsistent implementation of rigorous, standards-aligned instruction, lack of targeted intervention systems for struggling students, especially in Social Studies, and possibly underuse of data to inform small-group instruction in these content areas.

**Problem Statement 2 (Prioritized):** African American and Hispanic students consistently perform below campus averages across all subjects. Economically Disadvantaged students (which make up a large portion of the student population) also show significantly lower performance than their peers (e.g., 59% Approaches vs. 72% for non-Econ Disadvantaged).

**Root Cause:** Lack of differentiated instruction and targeted intervention for these specific subgroups, and potentially limited family engagement strategies that support academic development outside of school.

**Problem Statement 3 (Prioritized):** Students receiving Special Education services and current English Learners show the lowest levels of performance, with only 35% (Special Ed) and 54% (EL) at Approaches and even fewer at Meets and Masters.

**Root Cause:** General education instruction may not be sufficiently scaffolded to meet the linguistic or learning needs of these students, inadequate use of the learning lab, professional development for teachers in supporting ELs and students with disabilities, and limited progress monitoring and targeted skill-building opportunities.

**Problem Statement 4 (Prioritized):** While 63% of students are performing at Approaches Grade Level, only 38% meet the Meets standard and 17% reach Masters, indicating a lack of depth in learning.

**Root Cause:** Focus may be primarily on remediation to Approaches, with less emphasis on acceleration to higher levels. Lack of rigorous instruction and higher-order questioning across classrooms. Infrequent use of formative assessment data to push students beyond the minimum proficiency level. Limited opportunities for academic discourse and critical thinking in lessons.

# School Processes & Programs

## School Processes & Programs Summary

North Oaks Middle School offers a range of academic, extracurricular, and support programs designed to aid in and promote student learning and development. Academic Programs include a district provided core curriculum in Mathematics, Science, Reading Language Arts, and Social Studies that form the foundation of the middle school curriculum. The school provides instruction that aligns with state standards and aims to prepare students for high school. Additionally, as of the Fall 2023 semester, the student programs at North Oaks reflect a diverse range of services and supports designed to meet the varied needs of our student body. Dyslexia Support: We have 53 students, making up 11.32% of the student population, receiving specialized dyslexia services, accommodations or monitoring. Gifted and Talented: 26 students, or 5.56% of the student body, are enrolled in the Gifted and Talented program, providing them with advanced learning opportunities, such as Honors and Honors Plus. Special Education (SPED): There are 69 students, representing 14.74% of the total, who receive tailored support through our Special Education services. The campus houses one of three middle school PASS Programs, which includes a students with a range of behavioral needs. Section 504: 33 students, or 7.05%, are supported under Section 504, which ensures accommodations for those with disabilities - temporary or permanent. Emergent Bilingual (EB) and ESL: A significant portion of our student body, 118 students (25.21%), are classified as Emergent Bilingual or participate in English as a Second Language (ESL) programs. This reflects a strong focus on supporting students who are developing their English language skills. Finally, 73% of North Oaks Students are considered Economically Disadvantaged as determined by the number of students who qualify for the Federal free and Reduced Lunch Program. Being over the 40% threshold criteria for qualification, this earns the campus a designation of Title I. As a result, every student in the school benefits from the Title I Program. This comprehensive approach ensures that every student benefits from Title I resources and support, enhancing their overall educational experience. In summary, our school offers a robust array of programs to support students with diverse needs, including special education, dyslexia services, and language acquisition programs. The full implementation of the Title I Schoolwide Program highlights our commitment to providing equitable educational opportunities for all students.

Extracurricular Programs, including clubs and organizations, sports and athletics, and fine arts provides students with opportunities to excel outside of the classroom. Clubs and organizations like Student Council, National Junior Honor Society, Yearbook Club, Camp Connect, as well as a few interest-based clubs provide students with opportunities to develop leadership skills, engage in community service, and explore personal interests. Meanwhile, sports and athletics includes sports such as basketball, football, track and field, volleyball, and others, depending on the season and available facilities. Fine Arts includes music, theater, and visual arts allow students to explore their artistic talents in band, choir, art, and theater.

Student Support Services include guidance and crisis intervention counseling services to provide support for academic planning, career exploration, conflict resolution, and personal counseling. Students also receive tutoring from their teachers before and after school. Through the Student Code of Conduct and campus-wide PBIS, clear guidelines and expectations are delineated for student behavior to maintain a positive and respectful learning environment. Moreover, students participate in Character Strong, social-emotional learning, twenty minutes per week.

Parent and community involvement and communication are limited and few strategies, programs, and processes exist. The campus does not currently have an active PTA or volunteer presence to encourage parents and community members to participate in school activities and support student success. Nor, does the campus outline a plan for community and family engagement, despite Title I funds to increase participation in these areas.

The PLC process is also in need of strengthening.

## School Processes & Programs Strengths

North Oaks Middle School offers a comprehensive suite of academic, extracurricular, and support programs designed to foster student learning and development across various needs and interests. The school provides a district-aligned core curriculum in Mathematics, Science, Reading Language Arts, and Social Studies, ensuring that instruction meets state standards and prepares students for high school. A variety of clubs and organizations, such as Student Council, National Junior Honor Society, Yearbook Club, and Camp Connect,

provide students with opportunities to develop leadership skills, engage in community service, and explore personal interests. The school offers a range of sports, including basketball, football, track and field, and volleyball, depending on the season and available facilities. Students have opportunities to explore artistic talents through band, choir, art, and theater, supporting their creative development. The school provides guidance and crisis intervention counseling for academic planning, career exploration, conflict resolution, and personal support. The Student Code of Conduct and campus-wide PBIS ensure clear guidelines and expectations for behavior, while the Character Strong program offers social-emotional learning for 20 minutes each week. Overall, North Oaks Middle School demonstrates a strong commitment to supporting a diverse student body through its range of academic, extracurricular, and support programs. Enhancing community involvement and PLC processes will further contribute to the school's ongoing efforts to improve student outcomes and engagement.

### **Problem Statements Identifying School Processes & Programs Needs**

**Problem Statement 1 (Prioritized):** Although student support services, including guidance counseling and tutoring, are available, there is a need for more targeted and comprehensive support to address diverse student needs effectively.

**Root Cause:** There may be insufficient resources to provide comprehensive and individualized support for all students. Also, support services may be fragmented and lack coordination, leading to gaps in addressing students' needs.

**Problem Statement 2 (Prioritized):** Although the school provides various academic support programs, disparities exist in the effectiveness and accessibility of these programs for different student groups, particularly for those in special education and economically disadvantaged backgrounds.

**Root Cause:** There may be a lack of ongoing monitoring and adjustment of support programs to ensure they are meeting the diverse needs of all student groups.

# Perceptions

## Perceptions Summary

The 2023-2024 Student Safety Survey, in which 62% of the student body responded, revealed perspectives of the student experience on several topics. Overall, the data reflects a generally supportive and connected student body, but also highlights areas where additional efforts could help those who may feel less connected. Eighty-nine (89%) of students report having a trusting relationship with a least one other student, while 3.4% and 6.8% of students didn't have a trusting relationship, or weren't sure. The data also shows a strong engagement in athletics and fine arts programs, suggesting these areas are well-supported and popular among the respondents. Many students are involved in multiple activities, indicating a diverse range of interests and commitments. The presence of a substantial number of respondents not involved in extracurricular activities presents an opportunity for schools or organizations to promote and facilitate greater participation in such activities. Overall,

The majority of respondents (around 70%) consider the campus to be safe and orderly. A significant portion of respondents (about 25%) are unsure about the campus safety and orderliness, indicating some uncertainty or variability in experiences or perceptions. A smaller percentage (about 5%) do not consider the campus to be safe and orderly. The predominant view among respondents is that the campus is perceived as safe and orderly. However, there is a notable level of uncertainty among many, which suggests that while most people feel positive about campus safety and order, there are still concerns or ambiguities that need to be addressed. The small percentage of negative responses highlights that there might be specific areas where improvements could be beneficial. Addressing the uncertainties and concerns could further enhance the overall perception of safety and orderliness on campus. Students also reported their understanding of a PBIS program although, both student and teacher behaviors do not always reflect its use and new teachers and staff had not been trained.

The annual parent survey included 37 parents who indicated they felt their kids were safe at school. The number of respondents would indicate a need for more parent involvement, education, and understanding of the instructional processes and procedures. Parents requested more supervision in the drop off line, more communication, and more education for the students on conflict resolution.

Teacher's indicated the need for students being held more accountable.

## Perceptions Strengths

Perceptual Survey data reveals several strengths at North Oaks Middle School. Trusting Relationships Among Students, Engagement in Extracurricular Activities, Engagement in Extracurricular Activities, Positive Perception of Campus Safety and Orderliness, Parental Perception of Student Safety, and Understanding of PBIS Program. Students report trusting relationships among each other. A high percentage of students (89%) report having a trusting relationship with at least one other student. This indicates a supportive and connected student body with a strong sense of peer support. Secondly, engagement in extracurricular activities is also a strength. There is strong engagement in athletics and fine arts programs, reflecting their popularity and support among students. The involvement in multiple activities shows diverse interests and commitments, suggesting effective programs and opportunities in these areas. Moreover, positive perceptions of campus safety and orderliness was reported. Approximately 70% of students consider the campus to be safe and orderly. The majority of students have a positive perception of campus safety, indicating that the campus is generally perceived as a secure and well-managed environment. Even so, variability in perceptions can undermine overall confidence in campus safety, indicating a need for more uniform practices and clearer communication about safety measures.

Parental perception of student safety was also reported to be high from the small sample size of parents completing the surveyed. All parents surveyed indicated that they felt their children were safe at school suggesting that, from a parental perspective, there is a strong sense of security regarding student safety. Insufficient parent participation can lead to missed opportunities for feedback and collaboration in supporting student success and safety. Finally, an understanding of PBIS Program was reported by the students implicating there is awareness of the program among students, indicating that the program's goals and principles are communicated effectively, even if full implementation may need improvement. Without full implementation, the PBIS program may not be as effective in shaping student behavior and fostering a positive school culture.

Overall, North Oaks Middle School shows notable strengths in fostering trusting relationships among students, engaging them in extracurricular activities, and maintaining a generally positive perception of campus safety and orderliness. Parent feedback also supports the notion of student safety, and there is awareness of the PBIS program among students. These

strengths highlight areas where the school is successfully supporting student experience and engagement.

### **Problem Statements Identifying Perceptions Needs**

**Problem Statement 1 (Prioritized):** The number of parents who participated in the survey is limited, indicating a need for increased parent engagement and communication.

**Root Cause:** The small sample size of the parent survey suggests a lack of effective outreach or involvement strategies to engage a broader parent population.

**Problem Statement 2 (Prioritized):** Although students understand the PBIS program, there is evidence that full implementation and consistent application may be lacking.

**Root Cause:** Awareness of the PBIS program is not fully translated into consistent practice, possibly due to inadequate training for new staff or inconsistent application across the school.

**Problem Statement 3 (Prioritized):** About 25% of students are unsure about the campus safety and orderliness, suggesting variability in perceptions or experiences.

**Root Cause:** The uncertainty reported by a significant portion of students may stem from inconsistent enforcement of safety and orderliness protocols or differences in individual experiences.

# Priority Problem Statements

**Problem Statement 1:** The number of parents who participated in the survey is limited, indicating a need for increased parent engagement and communication.

**Root Cause 1:** The small sample size of the parent survey suggests a lack of effective outreach or involvement strategies to engage a broader parent population.

**Problem Statement 1 Areas:** Perceptions

**Problem Statement 2:** Student achievement in Mathematics and Social Studies is significantly below expected levels, with only 57% of students meeting Approaches in Math and 53% in Social Studies. Masters level performance is particularly low in both subjects (13% in Math, 9% in Social Studies).

**Root Cause 2:** Limited conceptual understanding and gaps in foundational skills from earlier grade levels, inconsistent implementation of rigorous, standards-aligned instruction, lack of targeted intervention systems for struggling students, especially in Social Studies, and possibly underuse of data to inform small-group instruction in these content areas.

**Problem Statement 2 Areas:** Student Learning

**Problem Statement 3:** Over 60% of students at North Oaks Middle School are identified for academic intervention, indicating significant gaps in foundational skills and consistent academic performance across grade levels, and a need for increased targeted intervention.

**Root Cause 3:** High percentage of economically disadvantaged students (72%) contributing to learning barriers outside of school. Limited access to enrichment and intervention programs, underrepresentation of students in Gifted and Talented programs (only 5.2%), suggests missed opportunities to identify, challenge and accelerate high-potential learners.

**Problem Statement 3 Areas:** Demographics

**Problem Statement 4:** Emergent Bilinguals make up over 26% of the student population, but staffing and programming to support language acquisition are minimal.

**Root Cause 4:** Lack of certified bilingual/ESL staff or push-in/pull-out support systems, absence of Dual Language Immersion programs on campus, and limited training in sheltered instruction or SIOP strategies for general education teachers.

**Problem Statement 4 Areas:** Demographics

**Problem Statement 5:** The school serves a high-need population with 19.3% in Special Education, 12.9% receiving dyslexia services, and 20% on Accelerated Education Plans, yet behavioral services and self-contained programming are minimal.

**Root Cause 5:** Understaffing or lack of capacity in special education support roles, inconsistent MTSS/RTI implementation across content areas, and limited training in trauma-informed practices or behavioral interventions may be root causes in this area.

**Problem Statement 5 Areas:** Demographics

**Problem Statement 6:** African American and Hispanic students consistently perform below campus averages across all subjects. Economically Disadvantaged students (which make up a large portion of the student population) also show significantly lower performance than their peers (e.g., 59% Approaches vs. 72% for non-Econ Disadvantaged).

**Root Cause 6:** Lack of differentiated instruction and targeted intervention for these specific subgroups, and potentially limited family engagement strategies that support academic development outside of school.

**Problem Statement 6 Areas:** Student Learning

**Problem Statement 7:** Students receiving Special Education services and current English Learners show the lowest levels of performance, with only 35% (Special Ed) and 54% (EL) at Approaches and even fewer at Meets and Masters.

**Root Cause 7:** General education instruction may not be sufficiently scaffolded to meet the linguistic or learning needs of these students, inadequate use of the learning lab, professional development for teachers in supporting ELs and students with disabilities, and limited progress monitoring and targeted skill-building opportunities.

**Problem Statement 7 Areas:** Student Learning

**Problem Statement 8:** While 63% of students are performing at Approaches Grade Level, only 38% meet the Meets standard and 17% reach Masters, indicating a lack of depth in learning.

**Root Cause 8:** Focus may be primarily on remediation to Approaches, with less emphasis on acceleration to higher levels. Lack of rigorous instruction and higher-order questioning across classrooms. Infrequent use of formative assessment data to push students beyond the minimum proficiency level. Limited opportunities for academic discourse and critical thinking in lessons.

**Problem Statement 8 Areas:** Student Learning

**Problem Statement 9:** Although student support services, including guidance counseling and tutoring, are available, there is a need for more targeted and comprehensive support to address diverse student needs effectively.

**Root Cause 9:** There may be insufficient resources to provide comprehensive and individualized support for all students. Also, support services may be fragmented and lack coordination, leading to gaps in addressing students' needs.

**Problem Statement 9 Areas:** School Processes & Programs

**Problem Statement 10:** Although the school provides various academic support programs, disparities exist in the effectiveness and accessibility of these programs for different student groups, particularly for those in special education and economically disadvantaged backgrounds.

**Root Cause 10:** There may be a lack of ongoing monitoring and adjustment of support programs to ensure they are meeting the diverse needs of all student groups.

**Problem Statement 10 Areas:** School Processes & Programs

**Problem Statement 11:** Although students understand the PBIS program, there is evidence that full implementation and consistent application may be lacking.

**Root Cause 11:** Awareness of the PBIS program is not fully translated into consistent practice, possibly due to inadequate training for new staff or inconsistent application across the school.

**Problem Statement 11 Areas:** Perceptions

**Problem Statement 12:** About 25% of students are unsure about the campus safety and orderliness, suggesting variability in perceptions or experiences.

**Root Cause 12:** The uncertainty reported by a significant portion of students may stem from inconsistent enforcement of safety and orderliness protocols or differences in individual experiences.

**Problem Statement 12 Areas:** Perceptions

# Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

## **Improvement Planning Data**

- District goals
- Campus goals
- Performance Objectives with summative review (prior year)
- Campus/District improvement plans (current and prior years)
- Planning and decision making committee(s) meeting data
- State and federal planning requirements

## **Accountability Data**

- Texas Academic Performance Report (TAPR) data
- Student Achievement Domain
- Student Progress Domain
- Closing the Gaps Domain
- Comprehensive, Targeted, and/or Additional Targeted Support Identification data
- Federal Report Card and accountability data

## **Student Data: Assessments**

- STAAR current and longitudinal results, including all versions
- STAAR End-of-Course current and longitudinal results, including all versions
- STAAR Emergent Bilingual (EB) progress measure data
- Texas English Language Proficiency Assessment System (TELPAS) and TELPAS Alternate results
- PSAT
- Student failure and/or retention rates

## **Student Data: Student Groups**

- Race and ethnicity data, including number of students, academic achievement, discipline, attendance, and rates of progress between groups
- Special programs data, including number of students, academic achievement, discipline, attendance, and rates of progress for each student group
- Economically disadvantaged / Non-economically disadvantaged performance and participation data
- Male / Female performance, progress, and participation data
- Special education/non-special education population including discipline, progress and participation data
- Emergent Bilingual (EB) /non-EB data, including academic achievement, progress, support and accommodation needs, race, ethnicity, gender etc.
- Section 504 data
- Gifted and talented data
- Dyslexia data

## **Student Data: Behavior and Other Indicators**

- Attendance data
- Mobility rate, including longitudinal data

- Discipline records
- Class size averages by grade and subject
- School safety data

#### **Employee Data**

- Professional learning communities (PLC) data
- Staff surveys and/or other feedback
- Teacher/Student Ratio
- Campus leadership data
- Campus department and/or faculty meeting discussions and data
- Professional development needs assessment data
- Evaluation(s) of professional development implementation and impact
- T-TESS data

#### **Parent/Community Data**

- Parent surveys and/or other feedback
- Community surveys and/or other feedback

#### **Support Systems and Other Data**

- Organizational structure data

# Goals

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 1:** All students will make at least one year's progress in reading and mathematics by the end of the school year: Improve performance in Domain 3 Closing the Gaps by making more than a year's growth in reading and mathematics which would in turn increase the number of students performing at the "meets" and "masters" level as measured by the spring 2026 STAAR and EOC assessments. This will also increase Domain 1 Student Achievement which counts the number of students at the various performance levels for state assessments.

## HB3 Goal

**Evaluation Data Sources:** Renaissance STAR Assessments (grades 6-8 mathematics and grades 6-8 reading) and State Interim Assessments for EOC tested subjects Alignment to Strategic Plan,

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          | Reviews   |     |     |           |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|-----|-----|-----------|
| <p><b>Strategy 1:</b> Fortify the PLC process to support lesson internalization, the instructional delivery system, and provide teachers with job embedded coaching and learning that will positively impact student achievement for all students. The IF and department leaders will work in tandem to be activators of the PLC process where all are responsible for the norms and protocols (including the five questions) needed for a successful PLC.</p> <p><b>Actions:</b> a. Content coordinators will deliver Curriculum Previews during the PLC prior to each grading period and follow-up throughout the year to support ongoing learning.</p> <p>b. Teachers will use District Common Assessments (DCAs) to assess learning. Following DCAs, the Data Analysis Protocol, and Student Work Analysis will be used to analyze the teaching and learning process and make improvements.</p> <p>c. The Fundamental Five Book Study and Walkthrough form will be used to assess, analyze, and improve instruction in each classroom. Additional training will be identified and provided to teachers to improve teaching prowess.</p> <p>d. Edit and adhere to campus Instructional Coherency documents for each core content area with a focus on district "look fors" outlined in each curriculum document.</p> <p><b>Staff Responsible for Monitoring:</b> Administrators, Instructional Facilitator, Department Leaders</p> <p><b>Title I:</b><br/>2.51, 2.52, 2.53, 2.531, 2.532, 2.533, 2.534, 2.535<br/>- <b>Targeted Support Strategy</b></p> <p><b>Problem Statements:</b> Demographics 1</p> <p><b>Funding Sources:</b> SCE Campus Personnel - 199 - General Funds: SCE</p> | Formative |     |     | Summative |

| <p><b>Strategy 2:</b> Emphasis on reading and mathematics instruction with a focus on the implementation and internalization of the district approved curriculum, the use of best practices, and continuous improvement.</p> <p><b>Actions:</b> a. Campus administration will articulate the use of the district academic MTSS system to monitor and improve learning for targeted students and sub-groups, to include regular intervals for progress monitoring.</p> <p>b. Campus administration will create and use a weekly walkthrough system and provide teachers with snapshots of the campus learning culture to discuss during PLCs and make improvements. This will be separate from T-TESS Walkthroughs</p> <p>c. Campus administrators and teacher leaders will create and monitor the implementation of a more systemic tutorial system for targeted students and subgroups.</p> <p>d. Campus administrators and teacher leaders will explore the use of a teaching and instructional strategy training for teachers (i.e., Kaagan, book study, training relative to teaching and learning)</p> <p>e. The Instructional Facilitator, with the support of the Data and Assessment office, will train teachers on the use of data collection and analysis software tools (STAR Renaissance, Eduphoria/AWARE, etc.) to monitor student progress and make instructional decisions based on the data with emphasis on subpopulations targeted for improvement.</p> <p>f. Hire and utilize math and reading Title I tutors to push-in, pull-out, and support teachers and students.</p> <p><b>Staff Responsible for Monitoring:</b> Administrators, Instructional Facilitator</p> <p><b>Targeted Support Strategy</b><br/> <b>Problem Statements:</b> Student Learning 1<br/> <b>Funding Sources:</b> Instructional Facilitator - 255 - Title II</p> | Formative |     |     | Summative |
|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            | Nov       | Jan | Mar | June      |

| <b>Strategy 3:</b> Create and implement a system of support for subgroups making minimal progress as measured by the "Closing the Gaps" model (i.e., Emergent Bilinguals)<br><b>Actions:</b> a. Identify students in targeted subpopulations and ensure, through the PLC process, teachers are aware of their baseline data, monitor, and use the plans for intervention with these students for one year's growth.<br><br>b. Use ODS focus groups, Aware monitor groups, and a Pertinent Data Sheet to track student progress, within the MTSS framework.<br><br>c. Assign case managers to students in these groups who will also serve as family contacts.<br><br>d. Host family engagement nights designed to increase knowledge and support of students and families in subpopulations.<br><br>e. Train teachers on the use of sheltered instructional strategies to support emergent bilinguals.<br><b>Staff Responsible for Monitoring:</b> Administrators, Instructional Facilitator<br><br><b>Targeted Support Strategy</b><br><b>Problem Statements:</b> Demographics 1, 2 - Student Learning 2, 3<br><b>Funding Sources:</b> Tutoring - 211 - Title I | Formative |     |     | Summative |

### Performance Objective 1 Problem Statements:

| Demographics                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> Over 60% of students at North Oaks Middle School are identified for academic intervention, indicating significant gaps in foundational skills and consistent academic performance across grade levels, and a need for increased targeted intervention. <b>Root Cause:</b> High percentage of economically disadvantaged students (72%) contributing to learning barriers outside of school. Limited access to enrichment and intervention programs, underrepresentation of students in Gifted and Talented programs (only 5.2%), suggests missed opportunities to identify, challenge and accelerate high-potential learners. |

### Demographics

**Problem Statement 2:** Emergent Bilinguals make up over 26% of the student population, but staffing and programming to support language acquisition are minimal. **Root Cause:** Lack of certified bilingual/ESL staff or push-in/pull-out support systems, absence of Dual Language Immersion programs on campus, and limited training in sheltered instruction or SIOP strategies for general education teachers.

### Student Learning

**Problem Statement 1:** Student achievement in Mathematics and Social Studies is significantly below expected levels, with only 57% of students meeting Approaches in Math and 53% in Social Studies. Masters level performance is particularly low in both subjects (13% in Math, 9% in Social Studies). **Root Cause:** Limited conceptual understanding and gaps in foundational skills from earlier grade levels, inconsistent implementation of rigorous, standards-aligned instruction, lack of targeted intervention systems for struggling students, especially in Social Studies, and possibly underuse of data to inform small-group instruction in these content areas.

**Problem Statement 2:** African American and Hispanic students consistently perform below campus averages across all subjects. Economically Disadvantaged students (which make up a large portion of the student population) also show significantly lower performance than their peers (e.g., 59% Approaches vs. 72% for non-Econ Disadvantaged). **Root Cause:** Lack of differentiated instruction and targeted intervention for these specific subgroups, and potentially limited family engagement strategies that support academic development outside of school.

**Problem Statement 3:** Students receiving Special Education services and current English Learners show the lowest levels of performance, with only 35% (Special Ed) and 54% (EL) at Approaches and even fewer at Meets and Masters. **Root Cause:** General education instruction may not be sufficiently scaffolded to meet the linguistic or learning needs of these students, inadequate use of the learning lab, professional development for teachers in supporting ELs and students with disabilities, and limited progress monitoring and targeted skill-building opportunities.

### School Processes & Programs

**Problem Statement 1:** Although student support services, including guidance counseling and tutoring, are available, there is a need for more targeted and comprehensive support to address diverse student needs effectively. **Root Cause:** There may be insufficient resources to provide comprehensive and individualized support for all students. Also, support services may be fragmented and lack coordination, leading to gaps in addressing students' needs.

### Perceptions

**Problem Statement 2:** Although students understand the PBIS program, there is evidence that full implementation and consistent application may be lacking. **Root Cause:** Awareness of the PBIS program is not fully translated into consistent practice, possibly due to inadequate training for new staff or inconsistent application across the school.

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 2:** Close achievement gaps that exist for all underperforming student groups as measured by state and district assessments.

**Evaluation Data Sources:** Focus (Referrals), Safe School Climate Surveys by Staff, Students, and Parents

| <b>Strategy 2:</b> Create, monitor, and improve, a campus system of support for students in need of targeted intervention.<br><b>Actions:</b> a. Develop and monitor a system for targeted intervention in which identified students remain on campus, at least two days per week to strengthen skills. An evening bus would be provided.<br><br>b. Utilize "Super Saturday" interventions, one Saturday per month to bolster specific skills and the confidence of identified students for intervention.<br><br>c. Train students and staff to use the PDSA cycle for intervention and improvement.<br><br>d. Assign "case managers" to help encourage and monitor identified groups of students in need of improvement.<br><br>e. Implement "No Zero Zone" Policy.<br><br>f. Improve communication with parents of students in targeted areas of intervention.<br><br><b>Problem Statements:</b> Demographics 1 - School Processes & Programs 2 | Formative |     |     | Summative |

### Performance Objective 2 Problem Statements:

| Demographics                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> Over 60% of students at North Oaks Middle School are identified for academic intervention, indicating significant gaps in foundational skills and consistent academic performance across grade levels, and a need for increased targeted intervention. <b>Root Cause:</b> High percentage of economically disadvantaged students (72%) contributing to learning barriers outside of school. Limited access to enrichment and intervention programs, underrepresentation of students in Gifted and Talented programs (only 5.2%), suggests missed opportunities to identify, challenge and accelerate high-potential learners. |
| <b>Problem Statement 2:</b> Emergent Bilinguals make up over 26% of the student population, but staffing and programming to support language acquisition are minimal. <b>Root Cause:</b> Lack of certified bilingual/ESL staff or push-in/pull-out support systems, absence of Dual Language Immersion programs on campus, and limited training in sheltered instruction or SIOP strategies for general education teachers.                                                                                                                                                                                                                               |
| <b>Problem Statement 3:</b> The school serves a high-need population with 19.3% in Special Education, 12.9% receiving dyslexia services, and 20% on Accelerated Education Plans, yet behavioral services and self-contained programming are minimal. <b>Root Cause:</b> Understaffing or lack of capacity in special education support roles, inconsistent MTSS/RTI implementation across content areas, and limited training in trauma-informed practices or behavioral interventions may be root causes in this area.                                                                                                                                   |
| Student Learning                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| <b>Problem Statement 2:</b> African American and Hispanic students consistently perform below campus averages across all subjects. Economically Disadvantaged students (which make up a large portion of the student population) also show significantly lower performance than their peers (e.g., 59% Approaches vs. 72% for non-Econ Disadvantaged). <b>Root Cause:</b> Lack of differentiated instruction and targeted intervention for these specific subgroups, and potentially limited family engagement strategies that support academic development outside of school.                                                                            |
| <b>Problem Statement 3:</b> Students receiving Special Education services and current English Learners show the lowest levels of performance, with only 35% (Special Ed) and 54% (EL) at Approaches and even fewer at Meets and Masters. <b>Root Cause:</b> General education instruction may not be sufficiently scaffolded to meet the linguistic or learning needs of these students, inadequate use of the learning lab, professional development for teachers in supporting ELs and students with disabilities, and limited progress monitoring and targeted skill-building opportunities.                                                           |

### Student Learning

**Problem Statement 4:** While 63% of students are performing at Approaches Grade Level, only 38% meet the Meets standard and 17% reach Masters, indicating a lack of depth in learning. **Root Cause:** Focus may be primarily on remediation to Approaches, with less emphasis on acceleration to higher levels. Lack of rigorous instruction and higher-order questioning across classrooms. Infrequent use of formative assessment data to push students beyond the minimum proficiency level. Limited opportunities for academic discourse and critical thinking in lessons.

### School Processes & Programs

**Problem Statement 2:** Although the school provides various academic support programs, disparities exist in the effectiveness and accessibility of these programs for different student groups, particularly for those in special education and economically disadvantaged backgrounds. **Root Cause:** There may be a lack of ongoing monitoring and adjustment of support programs to ensure they are meeting the diverse needs of all student groups.

### Perceptions

**Problem Statement 2:** Although students understand the PBIS program, there is evidence that full implementation and consistent application may be lacking. **Root Cause:** Awareness of the PBIS program is not fully translated into consistent practice, possibly due to inadequate training for new staff or inconsistent application across the school.

**Problem Statement 3:** About 25% of students are unsure about the campus safety and orderliness, suggesting variability in perceptions or experiences. **Root Cause:** The uncertainty reported by a significant portion of students may stem from inconsistent enforcement of safety and orderliness protocols or differences in individual experiences.

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 3:** By the end of the academic year, increase community and parent engagement by 30% through the implementation of targeted outreach programs and events, resulting in improved student outcomes as measured by a 15% increase in parent participation in school activities and a 10% increase in student academic performance and overall school satisfaction.

**Evaluation Data Sources:** Feedback Surveys, Increased Social Media Visits, Sign-In Sheets

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 | Reviews   |     |     |           |

### Performance Objective 3 Problem Statements:

#### School Processes & Programs

**Problem Statement 1:** Although student support services, including guidance counseling and tutoring, are available, there is a need for more targeted and comprehensive support to address diverse student needs effectively. **Root Cause:** There may be insufficient resources to provide comprehensive and individualized support for all students. Also, support services may be fragmented and lack coordination, leading to gaps in addressing students' needs.

**Problem Statement 2:** Although the school provides various academic support programs, disparities exist in the effectiveness and accessibility of these programs for different student groups, particularly for those in special education and economically disadvantaged backgrounds. **Root Cause:** There may be a lack of ongoing monitoring and adjustment of support programs to ensure they are meeting the diverse needs of all student groups.

#### Perceptions

**Problem Statement 1:** The number of parents who participated in the survey is limited, indicating a need for increased parent engagement and communication. **Root Cause:** The small sample size of the parent survey suggests a lack of effective outreach or involvement strategies to engage a broader parent population.

**Goal 2:** Utilize efficient and effective operations to support and improve the learning organization.

**Performance Objective 1:** Increase the annual total average daily attendance (ADA) as compared to the prior school year, through improved student retention, recruitment, and days in attendance.

**High Priority**

**Evaluation Data Sources:** Overall district ADA as per Summer PEIMS submission

| <b>Problem Statement 1:</b> Over 60% of students at North Oaks Middle School are identified for academic intervention, indicating significant gaps in foundational skills and consistent academic performance across grade levels, and a need for increased targeted intervention. <b>Root Cause:</b> High percentage of economically disadvantaged students (72%) contributing to learning barriers outside of school. Limited access to enrichment and intervention programs, underrepresentation of students in Gifted and Talented programs (only 5.2%), suggests missed opportunities to identify, challenge and accelerate high-potential learners.                                                                                 |
| School Processes & Programs                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| <b>Problem Statement 1:</b> Although student support services, including guidance counseling and tutoring, are available, there is a need for more targeted and comprehensive support to address diverse student needs effectively. <b>Root Cause:</b> There may be insufficient resources to provide comprehensive and individualized support for all students. Also, support services may be fragmented and lack coordination, leading to gaps in addressing students' needs.                                                                                                                                                                                                                                                           |
| Perceptions                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| <b>Problem Statement 2:</b> Although students understand the PBIS program, there is evidence that full implementation and consistent application may be lacking. <b>Root Cause:</b> Awareness of the PBIS program is not fully translated into consistent practice, possibly due to inadequate training for new staff or inconsistent application across the school.<br><b>Problem Statement 3:</b> About 25% of students are unsure about the campus safety and orderliness, suggesting variability in perceptions or experiences. <b>Root Cause:</b> The uncertainty reported by a significant portion of students may stem from inconsistent enforcement of safety and orderliness protocols or differences in individual experiences. |

**Goal 2:** Utilize efficient and effective operations to support and improve the learning organization.

**Performance Objective 2:** Utilize job descriptions, PDSA, satisfaction surveys, and key results data to assess and improve campus operations, in order to enhance the efficiency, effectiveness, and overall satisfaction of processes and departments.

**Evaluation Data Sources:** Survey data, PDSA, Evaluation of goal attainment.

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  | Reviews   |     |     |           |

| <b>Strategy 1:</b> Clarify and align job descriptions of key roles and use PDSA to set goals and improve outcomes.<br><b>Actions:</b> a. Each staff member will obtain and review job description; update description to reflect current duties, expectations, and performance indicators, and align roles with campus improvement goals and district priorities.<br><br>b. Hold regular team meetings to review job descriptions and ensure each staff member understands how their role contributes to school operations and student outcomes.<br><br>c. Use job descriptions to guide performance evaluations and identify professional development (PD) needs.<br><br>d. Use the PDSA template to create PDSA cycles on key performance measures within their role.<br><br>e. Have individuals and teams present results during team meetings.<br><br>f. Develop targeted surveys for students, staff, and families based on specific operational areas (e.g., communication, safety, support services).<br><br>g. Present survey data to all stakeholders and tie to specific metrics of improvement.<br><b>Staff Responsible for Monitoring:</b> Administrators, Office Staff, Counselors<br><br><b>Problem Statements:</b> Demographics 1, 3 - School Processes & Programs 1 | Formative |     |     | Summative |

| <b>Problem Statement 1:</b> Over 60% of students at North Oaks Middle School are identified for academic intervention, indicating significant gaps in foundational skills and consistent academic performance across grade levels, and a need for increased targeted intervention. <b>Root Cause:</b> High percentage of economically disadvantaged students (72%) contributing to learning barriers outside of school. Limited access to enrichment and intervention programs, underrepresentation of students in Gifted and Talented programs (only 5.2%), suggests missed opportunities to identify, challenge and accelerate high-potential learners. |
| <b>Problem Statement 3:</b> The school serves a high-need population with 19.3% in Special Education, 12.9% receiving dyslexia services, and 20% on Accelerated Education Plans, yet behavioral services and self-contained programming are minimal. <b>Root Cause:</b> Understaffing or lack of capacity in special education support roles, inconsistent MTSS/RTI implementation across content areas, and limited training in trauma-informed practices or behavioral interventions may be root causes in this area.                                                                                                                                   |
| Student Learning                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| <b>Problem Statement 2:</b> African American and Hispanic students consistently perform below campus averages across all subjects. Economically Disadvantaged students (which make up a large portion of the student population) also show significantly lower performance than their peers (e.g., 59% Approaches vs. 72% for non-Econ Disadvantaged). <b>Root Cause:</b> Lack of differentiated instruction and targeted intervention for these specific subgroups, and potentially limited family engagement strategies that support academic development outside of school.                                                                            |
| School Processes & Programs                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| <b>Problem Statement 1:</b> Although student support services, including guidance counseling and tutoring, are available, there is a need for more targeted and comprehensive support to address diverse student needs effectively. <b>Root Cause:</b> There may be insufficient resources to provide comprehensive and individualized support for all students. Also, support services may be fragmented and lack coordination, leading to gaps in addressing students' needs.                                                                                                                                                                           |

**School Processes & Programs**

**Problem Statement 2:** Although the school provides various academic support programs, disparities exist in the effectiveness and accessibility of these programs for different student groups, particularly for those in special education and economically disadvantaged backgrounds. **Root Cause:** There may be a lack of ongoing monitoring and adjustment of support programs to ensure they are meeting the diverse needs of all student groups.

**Goal 2:** Utilize efficient and effective operations to support and improve the learning organization.

**Performance Objective 3:** By the end of the fall semester, review the master schedule and teacher certifications to balance class sizes as measured by enrollment report of the number of students in each class section to be greater than 15, less than 28, and have a balance of students in special populations.

**Evaluation Data Sources:** Master schedule, class size

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            | Reviews   |     |     |           |

**Performance Objective 3 Problem Statements:**

| School Processes & Programs                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> Although student support services, including guidance counseling and tutoring, are available, there is a need for more targeted and comprehensive support to address diverse student needs effectively. <b>Root Cause:</b> There may be insufficient resources to provide comprehensive and individualized support for all students. Also, support services may be fragmented and lack coordination, leading to gaps in addressing students' needs. |
| <b>Problem Statement 2:</b> Although the school provides various academic support programs, disparities exist in the effectiveness and accessibility of these programs for different student groups, particularly for those in special education and economically disadvantaged backgrounds. <b>Root Cause:</b> There may be a lack of ongoing monitoring and adjustment of support programs to ensure they are meeting the diverse needs of all student groups.                |

**Goal 3:** All students and staff will learn and work in a safe and responsive environment.

**Performance Objective 1:** By the end of the academic year, achieve 90% adherence to the PBIS (Positive Behavioral Interventions and Supports) program by ensuring consistent implementation and practice across the school, as evidenced by regular observations and feedback.

**Evaluation Data Sources:** PBIS Implementation Data: Use observation data, implementation audits, and staff feedback to measure adherence to the PBIS program and identify areas for improvement.

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  | Reviews   |     |     |           |

### Performance Objective 1 Problem Statements:

| School Processes & Programs                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> Although student support services, including guidance counseling and tutoring, are available, there is a need for more targeted and comprehensive support to address diverse student needs effectively. <b>Root Cause:</b> There may be insufficient resources to provide comprehensive and individualized support for all students. Also, support services may be fragmented and lack coordination, leading to gaps in addressing students' needs. |
| <b>Problem Statement 2:</b> Although the school provides various academic support programs, disparities exist in the effectiveness and accessibility of these programs for different student groups, particularly for those in special education and economically disadvantaged backgrounds. <b>Root Cause:</b> There may be a lack of ongoing monitoring and adjustment of support programs to ensure they are meeting the diverse needs of all student groups.                |

## Perceptions

**Problem Statement 2:** Although students understand the PBIS program, there is evidence that full implementation and consistent application may be lacking. **Root Cause:** Awareness of the PBIS program is not fully translated into consistent practice, possibly due to inadequate training for new staff or inconsistent application across the school.

**Problem Statement 3:** About 25% of students are unsure about the campus safety and orderliness, suggesting variability in perceptions or experiences. **Root Cause:** The uncertainty reported by a significant portion of students may stem from inconsistent enforcement of safety and orderliness protocols or differences in individual experiences.

**Goal 3:** All students and staff will learn and work in a safe and responsive environment.

**Performance Objective 2:** By the end of the academic year, increase student perceptions of campus safety and orderliness by 30% through consistent enforcement of safety protocols and enhanced communication of safety procedures.

**Evaluation Data Sources:** Student Perception Surveys: Administer surveys to assess changes in student perceptions of safety and orderliness, and analyze the data to evaluate the effectiveness of safety protocols and communication efforts.

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         | Reviews   |     |     |           |

### Performance Objective 2 Problem Statements:

| Perceptions                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p><b>Problem Statement 1:</b> The number of parents who participated in the survey is limited, indicating a need for increased parent engagement and communication. <b>Root Cause:</b> The small sample size of the parent survey suggests a lack of effective outreach or involvement strategies to engage a broader parent population.</p> <p><b>Problem Statement 2:</b> Although students understand the PBIS program, there is evidence that full implementation and consistent application may be lacking. <b>Root Cause:</b> Awareness of the PBIS program is not fully translated into consistent practice, possibly due to inadequate training for new staff or inconsistent application across the school.</p> <p><b>Problem Statement 3:</b> About 25% of students are unsure about the campus safety and orderliness, suggesting variability in perceptions or experiences. <b>Root Cause:</b> The uncertainty reported by a significant portion of students may stem from inconsistent enforcement of safety and orderliness protocols or differences in individual experiences.</p> |

**Goal 3:** All students and staff will learn and work in a safe and responsive environment.

**Performance Objective 3:** By the end of the academic year, increase parent engagement by 40% through the implementation of targeted outreach and communication strategies, resulting in a more representative sample of parent feedback and improved school-community collaboration.

**Evaluation Data Sources:** Parent Engagement Metrics: Track participation rates in parent engagement events, survey response rates, sign-in sheets, and the number of new communication strategies implemented to measure the increase in parent engagement.

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         | Reviews   |     |     |           |

# Title I

**Birdville Independent School District**  
**North Richland Middle School**  
**2025-2026 Campus Improvement Plan**

# Mission Statement

*North Richland Middle School is committed to building a foundation of excellence in all students by fostering academic, social, and emotional success today, in order to create their future.*

## Vision

*At NRMS, we will be the difference-makers in our students' futures.*

## Value Statement

1. We create an environment where students and parents feel cared about, valued, welcome, and have a sense of belonging.
2. We teach students to take risks, to be comfortable with the prospect of failure, to learn from their mistakes, and to not be discouraged by them.
3. We embrace new challenges as opportunities for growth.
4. We build strong relationships to foster social, emotional, and academic growth.
5. We treat all students with respect, regardless of race, religion, sexual orientation, disability, or economic status.
6. We achieve academic potential through a shared culture of good citizenship and the ongoing pursuit of excellence.
7. We model and teach respect, acceptance, cooperation, empathy, and kindness.
8. We show excitement and knowledge about the learning process.

9. We show pride and ownership of our campus.
10. We are empowered to create unique, memorable, and personal experiences to encourage parent involvement and student success.
11. We own and immediately resolve problems and model self-accountability by being solution-seekers, not problem-finders.

# Comprehensive Needs Assessment

## Demographics

### Demographics Summary

North Richland Middle School serves a diverse student population of 882 students, with 52% male and 48% female. The largest ethnic group is Hispanic-Latino, representing 47% of the student body, followed by White students at 30%, and Black or African American students at 11%. Approximately 24% of students are classified as Emergent Bilinguals, and 66% of the students are economically disadvantaged. Key student programs include Special Education, which serves 17% of the population, and Section 504, supporting 12%. The school is fully Title I, serving a high percentage of at-risk students (61%).

### Demographics Strengths

North Richland Middle School boasts a vibrant and diverse cultural community, enriching the learning environment for all students. Teachers effectively use a variety of strategies tailored to support the diverse demographic makeup of the school, ensuring that each student's unique background is recognized and valued in the classroom. Additionally, both staff and students promote a culture of acceptance and inclusivity, creating a welcoming atmosphere where diversity is celebrated and embraced.

### Problem Statements Identifying Demographics Needs

**Problem Statement 1 (Prioritized):** Special Education students performed significantly lower than the overall campus score for the 2025 school year.

**Root Cause:** instructional practices and interventions are not consistently differentiated or aligned to students' Individualized Education Plans (IEPs). Teachers need additional support in implementing evidence-based strategies, progress monitoring, and accommodations with fidelity. Furthermore, gaps in foundational skills and limited access to targeted small-group instruction have not been systematically add

**Problem Statement 2 (Prioritized):** Hispanic students are performing lower than their non-Hispanic peers across all content areas.

**Root Cause:** This performance gap is due to a combination of factors, including gaps in foundational literacy and academic vocabulary, limited access to differentiated instructional strategies that meet language and cultural needs, and inconsistent implementation of targeted interventions. Additionally, family engagement and culturally responsive practices have not been leveraged consistently to build strong c

# Student Learning

## Student Learning Summary

Data projections have indicated that North Richland Middle School is expected to receive a C rating in Domain 1 of the state accountability system for the 2024-2025 school year, with an average passing rate of 67%. This projection highlights the need for targeted interventions and strategic planning to improve student outcomes and elevate our school's performance.

To address these challenges, we are implementing a range of strategies, including the deployment of math, reading, and Limited English Proficiency (LEP) interventionists. These specialists will work closely with students to provide targeted support and ensure that all learners have the opportunity to succeed. Additionally, we are utilizing backwards design for common assessments, which allows us to align our teaching with desired learning outcomes and better prepare our students for success.

Our approach includes intensive data discussions with a particular focus on English Bilingual (EB) and Special Education (Sped) populations. By analyzing data closely, we can identify areas of need and tailor our instruction to support all learners effectively. We are also emphasizing intentional instruction that targets specific learning goals, ensuring that every student receives the support they need to thrive.

The implementation of a STEM curriculum in Math and Science is another key component of our strategy. By integrating Science, Technology, Engineering, and Math into our curriculum, we aim to engage students in hands-on, inquiry-based learning that fosters critical thinking and problem-solving skills.

Professional Learning Communities (PLCs) are collaborating to prioritize Tier 1 instruction, focusing on increasing rigor, relevance, and engagement in the classroom. For students requiring additional support, we are providing Tier 2 and 3 interventions through small group instruction and utilizing STMath for tutorial sessions both during and outside of the school day. These efforts are designed to enrich and remediate all students, ensuring that no learner is left behind.

Our instructional strategies also include the "Talk Read, Talk Write" structure, which promotes active engagement and comprehension. We are incorporating EB strategies, visible learning techniques, and practices that increase student accountability. Interactive vocabulary practice and the use of word walls are being implemented to enhance language acquisition and retention, supporting our students in becoming more confident and capable learners.

|                | Approaches | Meets | Masters |
|----------------|------------|-------|---------|
| Reading        | 72%        | 45%   | 18%     |
| Math           | 70%        | 46%   | 36%     |
| Science        | 75%        | 48%   | 14%     |
| Social Studies | 51%        | 21%   | 9%      |

## Student Learning Strengths

Our school has made significant strides in ensuring that our students approach and meet grade-level standards, which has resulted in increased academic achievement across the board. This progress is a testament to the dedication of our educators and the hard work of our students, who have consistently risen to the challenges set before them.

We are particularly proud of the growth demonstrated by our White, African American, and English Bilingual (EB) students. Their strong performance in reading and math highlights the effectiveness of our tailored instructional strategies and the supportive learning environment we strive to maintain. This growth is a clear indicator of our commitment to fostering an inclusive and equitable educational experience for all students.

In addition to our achievements in reading and math, our students have also shown solid results in science. This success reflects our emphasis on hands-on, inquiry-based learning that encourages students to explore and understand the world around them. Furthermore, our social studies program has reached our "Meets" goal, underscoring our dedication to providing a comprehensive education that prepares students to be informed and engaged citizens.

## Problem Statements Identifying Student Learning Needs

**Problem Statement 1 (Prioritized):** Our students have not shown mastery to level of like campuses.

**Root Cause:** Students have not demonstrated mastery at the level of like campuses because classroom instruction often lacks the appropriate level of rigor needed to meet grade-level expectations. Excessive reliance on scaffolds for struggling learners has limited opportunities for students to engage in productive struggle, apply higher-order thinking, and develop independent problem-solving skills.

**Problem Statement 2 (Prioritized):** Special Education students performed significantly lower than the overall campus score for the 2025 school year.

**Root Cause:** instructional practices and interventions are not consistently differentiated or aligned to students' Individualized Education Plans (IEPs). Teachers need additional support in implementing evidence-based strategies, progress monitoring, and accommodations with fidelity. Furthermore, gaps in foundational skills and limited access to targeted small-group instruction have not been systematically add

# School Processes & Programs

## School Processes & Programs Summary

- NRMS daily schedule consists of 8 classes, with over 45 minutes in each class period. On-level Mathematics is double blocked allowing two class periods with honors moving at a faster pace with only 45 minute class periods.. This provides one session for instruction and another for intervention. Sixth and seventh grade English Language Arts follow the blocked schedule like Mathematics.
- All NRMS teachers offer tutorials to students, with at least one morning tutorial session and one afternoon tutorial session to accommodate students needs.
- Teachers utilize PLC to plan using the Planning for Learning Protocols to align teaching to the rigor of the TEKS (Texas Essential Knowledge and Skills), DCA's (District Common Assessment), and STAAR (State of Texas Assessments of Academic Readiness) with a focus on backwards design of assessments to ensure alignment of taught and tested curriculum.
- Instructional Coherency Documents outline expectations for core content classrooms.
- Departments implement grade-level and team SMART (specific, measurable, achievable, relevant and time-bound) goals to monitor students' progress throughout the year. Goals are shared with students and monitored on a nine-weeks basis as part of the PDSA (Plan-Do-Study-Act) protocols.
- RtI is implemented through small group instruction during one period of the math block and through Reading Intervention Classes.
- A focus on the district and campus professional learning in literacy development through the campus-wide implementation of Literacy strategies in all content and a focus on Read, Write, Think and Discuss.
- The campus professional learning focuses on the continued implementation of the continuous improvement process and tools, including a PDSA board, posting of mission statements, and use of student data folders.
- The campus implementation of STEM curriculum through Science and Math classes through the use of PBL's to increase the rigor and relevance.
- Specialized programs for special education students. PASS (Positive Approach to Student Success) is designed to serve students whose behaviors impede their learning or the learning of others. SEEC (Structured Environment to Enhance Communication) program is an early intervention environment designed to meet the need of K-8 grades students who have multiple learning and language barriers.
- Staff is recruited through job fairs, local universities and staff recommendations.
- Our campus has a number of resources available to teachers. Classrooms are equipped with one computer and projector for teacher use and document cameras are available for use. All classrooms are 1 to 1 student-to-device to device usage.
- Classrooms are equipped with newline screens throughout the campus.
- Our students engage in the **Engineering Design Process (EDP)** across grade levels, fostering creativity, collaboration, and problem-solving.
- Cross-curricular **STEM projects** encourage students to apply knowledge in real-world contexts, preparing them for college, career, and beyond.
- **STEM Night** provides families with opportunities to experience hands-on activities that mirror the classroom learning process.

## School Processes & Programs Strengths

- Teachers utilize the instructional time to the fullest by teaching bell to bell and not holding students back from another class period.
- PLC's are functioning. The focus on collaboration, PLC+ structures and use of district and campus protocols for analyzing assessments and instruction.
- District Common Assessments results are used to guide future instruction and adjust current instruction. They are used for remediation and intervention of students to close gaps in learning.
- Common assessment data utilized through AWARE is used to evaluate the alignment of the taught and tested curriculum and provide appropriate interventions to support students.
- SMART goals are monitored each nine weeks to allow teachers to reflect on their goals and ensure they are moving towards the goal.
- NRMS teachers are attending professional development offered through the district in support of literacy strategies, continuous improvement, lesson planning system, technology resources and instructional best practices.
- NRMS teachers are utilizing Canvas to support all learners.

- Our campus provides students with frequent opportunities to engage in **hands-on STEM learning through the Engineering Design Process (EDP)**, which strengthens problem-solving, collaboration, and critical thinking skills.
- **STEM Night and cross-curricular STEM projects** build excitement for learning, foster family and community engagement, and showcase students' ability to apply classroom knowledge in real-world contexts.

### **Problem Statements Identifying School Processes & Programs Needs**

**Problem Statement 1 (Prioritized):** Students are not consistently performing at or above grade level because classroom instruction does not regularly provide the rigor necessary to meet state standards..

**Root Cause:** The root cause of low rigor in classroom instruction is inconsistent teacher capacity to design and deliver lessons that balance scaffolding with grade-level expectations. Teachers frequently provide supports that help students access content but unintentionally reduce opportunities for students to engage in challenging, standards-aligned tasks requiring critical thinking, problem-solving, and ind

**Problem Statement 2 (Prioritized):** Students are not attending school at required levels.

**Root Cause:** Inconsistent attendance may be due to a variety of factors, including a lack of engagement with the school environment, external pressures such as family responsibilities or socioeconomic challenges, and inadequate support systems for students facing barriers to regular attendance.

**Problem Statement 3 (Prioritized):** Special Education students performed significantly lower than the overall campus score for the 2025 school year.

**Root Cause:** instructional practices and interventions are not consistently differentiated or aligned to students' Individualized Education Plans (IEPs). Teachers need additional support in implementing evidence-based strategies, progress monitoring, and accommodations with fidelity. Furthermore, gaps in foundational skills and limited access to targeted small-group instruction have not been systematically add

# Perceptions

## Perceptions Summary

At our school, we recognize the importance of effective communication with all families, which is why we offer campus communication in several languages. This initiative ensures that families who do not speak English as their first language can fully engage with the school community and access important information regarding their children's education.

We are proud to offer our students a diverse range of academic and extracurricular activities at NRMS. This variety allows students to explore their interests, develop new skills, and engage in enriching experiences beyond the traditional classroom setting.

Our commitment to character education is exemplified through the Character Strong curriculum, which is supported by the Falcon Way. Additionally, students are encouraged to participate in community service activities throughout the year, fostering a sense of responsibility and empathy towards others.

Addressing bullying is a priority at our school, and we adhere to district protocols to document and investigate incidents, including cyber-bullying, bullying, and harassment. Campus administrators are dedicated to meeting with both victims and perpetrators to resolve issues and promote a safe and supportive environment for all students.

The discipline data indicates a positive trend, with a noticeable improvement in student incidents. It is important to note that most referrals are attributed to a small percentage of students, highlighting the need for targeted interventions to support these individuals.

Each year, we evaluate our Campus Mission Statements and Core Belief statements to ensure they accurately reflect our identity and aspirations as a campus. This ongoing process helps us maintain a clear focus on our goals and values.

This year, we have introduced the NRMS Spirit Club, which is designed to enhance school spirit through student-led initiatives. This club provides students with the opportunity to take an active role in fostering a positive and inclusive school culture.

## Perceptions Strengths

At North Richland Middle School, we prioritize effective communication by offering information in multiple languages, ensuring that non-English speaking families are fully supported and engaged in their children's education. This commitment to inclusivity helps bridge language barriers and fosters a strong partnership between the school and our diverse community.

Our students benefit from a comprehensive array of academic and extracurricular activities, providing them with opportunities to explore their interests and develop new skills. This diverse offering not only enhances their educational experience but also encourages personal growth and a well-rounded development.

The Character Strong curriculum, along with the Falcon Way and community service initiatives, plays a crucial role in cultivating a positive campus culture. These programs emphasize character development and community involvement, which are essential in shaping responsible and empathetic individuals.

We are proud to report that recent discipline data shows significant improvements, with a noticeable decrease in physical altercations. Our focus on resolving conflicts through mediation has been instrumental in creating a more harmonious school environment, where students learn to address issues constructively.

The perception of our staff has improved, reflecting the positive changes in our campus culture. Students consistently report feeling safe at school, which is a testament to the supportive and nurturing environment we strive to maintain.

The implementation of various clubs, such as the Book Club, Game Club, Garden Club, and NRMS Spirit Club, further enriches our students' experience. These clubs provide additional avenues for student support and foster a strong sense of school spirit, contributing to a vibrant and engaged school community.

### **Problem Statements Identifying Perceptions Needs**

**Problem Statement 1 (Prioritized):** Students need increased confidence in reporting their concerns to ensure their voices are heard and addressed.

**Root Cause:** the current systems for student voice and reporting are either unclear, inconsistently implemented, or not perceived as safe and responsive. Students have limited opportunities to practice self-advocacy skills, and communication structures do not consistently ensure that students see follow-up or outcomes after raising concerns.

**Problem Statement 2:** Campus culture is improving with staff, however, we need to engage the community to create a positive culture and positive relationships with external organizations and stakeholders.

**Root Cause:** Consistent systems for outreach, communication, and collaboration with families and external stakeholders have not been fully developed or implemented. Opportunities for partnerships are often event-based rather than ongoing, and there is limited intentionality in building two-way communication and sustained relationships that connect community resources to student learning and campus culture.

# Priority Problem Statements

**Problem Statement 1:** Special Education students performed significantly lower than the overall campus score for the 2025 school year.

**Root Cause 1:** instructional practices and interventions are not consistently differentiated or aligned to students' Individualized Education Plans (IEPs). Teachers need additional support in implementing evidence-based strategies, progress monitoring, and accommodations with fidelity. Furthermore, gaps in foundational skills and limited access to targeted small-group instruction have not been systematically add

**Problem Statement 1 Areas:** Demographics - Student Learning - School Processes & Programs

**Problem Statement 2:** Hispanic students are performing lower than their non-Hispanic peers across all content areas.

**Root Cause 2:** This performance gap is due to a combination of factors, including gaps in foundational literacy and academic vocabulary, limited access to differentiated instructional strategies that meet language and cultural needs, and inconsistent implementation of targeted interventions. Additionally, family engagement and culturally responsive practices have not been leveraged consistently to build strong c

**Problem Statement 2 Areas:** Demographics

**Problem Statement 3:** Students are not consistently performing at or above grade level because classroom instruction does not regularly provide the rigor necessary to meet state standards..

**Root Cause 3:** The root cause of low rigor in classroom instruction is inconsistent teacher capacity to design and deliver lessons that balance scaffolding with grade-level expectations. Teachers frequently provide supports that help students access content but unintentionally reduce opportunities for students to engage in challenging, standards-aligned tasks requiring critical thinking, problem-solving, and ind

**Problem Statement 3 Areas:** School Processes & Programs

**Problem Statement 4:** Students are not attending school at required levels.

**Root Cause 4:** Inconsistent attendance may be due to a variety of factors, including a lack of engagement with the school environment, external pressures such as family responsibilities or socioeconomic challenges, and inadequate support systems for students facing barriers to regular attendance.

**Problem Statement 4 Areas:** School Processes & Programs

**Problem Statement 5:** Students need increased confidence in reporting their concerns to ensure their voices are heard and addressed.

**Root Cause 5:** the current systems for student voice and reporting are either unclear, inconsistently implemented, or not perceived as safe and responsive. Students have limited opportunities to practice self-advocacy skills, and communication structures do not consistently ensure that students see follow-up or outcomes after raising concerns.

**Problem Statement 5 Areas:** Perceptions

**Problem Statement 6:** Our students have not shown mastery to level of like campuses.

**Root Cause 6:** Students have not demonstrated mastery at the level of like campuses because classroom instruction often lacks the appropriate level of rigor needed to meet grade-level expectations. Excessive reliance on scaffolds for struggling learners has limited opportunities for students to engage in productive struggle, apply higher-order thinking, and develop independent problem-solving skills.

**Problem Statement 6 Areas: Student Learning**

# Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

## **Improvement Planning Data**

- District goals
- Campus goals
- Performance Objectives with summative review (prior year)

## **Accountability Data**

- Texas Academic Performance Report (TAPR) data
- Student Achievement Domain
- Student Progress Domain
- Closing the Gaps Domain
- Effective Schools Framework data
- Accountability Distinction Designations

## **Student Data: Assessments**

- STAAR current and longitudinal results, including all versions
- STAAR End-of-Course current and longitudinal results, including all versions
- Texas English Language Proficiency Assessment System (TELPAS) and TELPAS Alternate results
- Local benchmark or common assessments data

## **Student Data: Student Groups**

- Male / Female performance, progress, and participation data
- Special education/non-special education population including discipline, progress and participation data
- At-risk/non-at-risk population including performance, progress, discipline, attendance, and mobility data
- Gifted and talented data

## **Student Data: Behavior and Other Indicators**

- Attendance data
- Discipline records
- Student surveys and/or other feedback

## **Employee Data**

- Campus department and/or faculty meeting discussions and data

# Goals

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 1:** Improve performance in Domain 3 Closing the Gaps by making a year's growth on Renaissance Star reading and mathematics which would in turn increase the number of students performing at the "meet" or "master" level as measured by the spring 2026 STAAR assessments.

The All Students group will score 56% on "Meets" for the 2025 STAAR Reading Assessment.

The All Students group will score 42% on "Meets" for the 2025 STAAR Math Assessment.

## High Priority

**Evaluation Data Sources:** Renaissance STAR Assessments (grades 6-8 mathematics and grades 6-8 reading) and State Interim Assessments for EOC tested subjects Alignment to Strategic Plan,

**Performance Objective 1 Problem Statements:****Demographics**

**Problem Statement 1:** Special Education students performed significantly lower than the overall campus score for the 2025 school year. **Root Cause:** instructional practices and interventions are not consistently differentiated or aligned to students' Individualized Education Plans (IEPs). Teachers need additional support in implementing evidence-based strategies, progress monitoring, and accommodations with fidelity. Furthermore, gaps in foundational skills and limited access to targeted small-group instruction have not been systematically add

**Problem Statement 2:** Hispanic students are performing lower than their non-Hispanic peers across all content areas. **Root Cause:** This performance gap is due to a combination of factors, including gaps in foundational literacy and academic vocabulary, limited access to differentiated instructional strategies that meet language and cultural needs, and inconsistent implementation of targeted interventions. Additionally, family engagement and culturally responsive practices have not been leveraged consistently to build strong c

**Student Learning**

**Problem Statement 1:** Our students have not shown mastery to level of like campuses. **Root Cause:** Students have not demonstrated mastery at the level of like campuses because classroom instruction often lacks the appropriate level of rigor needed to meet grade-level expectations. Excessive reliance on scaffolds for struggling learners has limited opportunities for students to engage in productive struggle, apply higher-order thinking, and develop independent problem-solving skills.

**Problem Statement 2:** Special Education students performed significantly lower than the overall campus score for the 2025 school year. **Root Cause:** instructional practices and interventions are not consistently differentiated or aligned to students' Individualized Education Plans (IEPs). Teachers need additional support in implementing evidence-based strategies, progress monitoring, and accommodations with fidelity. Furthermore, gaps in foundational skills and limited access to targeted small-group instruction have not been systematically add

**School Processes & Programs**

**Problem Statement 1:** Students are not consistently performing at or above grade level because classroom instruction does not regularly provide the rigor necessary to meet state standards.. **Root Cause:** The root cause of low rigor in classroom instruction is inconsistent teacher capacity to design and deliver lessons that balance scaffolding with grade-level expectations. Teachers frequently provide supports that help students access content but unintentionally reduce opportunities for students to engage in challenging, standards-aligned tasks requiring critical thinking, problem-solving, and ind

**Problem Statement 3:** Special Education students performed significantly lower than the overall campus score for the 2025 school year. **Root Cause:** instructional practices and interventions are not consistently differentiated or aligned to students' Individualized Education Plans (IEPs). Teachers need additional support in implementing evidence-based strategies, progress monitoring, and accommodations with fidelity. Furthermore, gaps in foundational skills and limited access to targeted small-group instruction have not been systematically add

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 2:** Close achievement gaps that exist for all under-performing groups as measured by state and district assessments.

**High Priority**

**Evaluation Data Sources:** Historical performance by student subgroup on state and district assessments.

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         | Reviews   |     |     |           |

| <b>Strategy 6:</b> Implementation of STEM inquiry and PBL through science classrooms to ensure 51% of NRMS science students meet grade level expectations on all campus, district and state assessments.<br><b>Actions:</b> A) Establish STEM committee and attend TEA STEM training as a team.<br>B) Develop PLC with department heads and facilitators to provide support on areas of need based on data and the district PLC rubric.<br>C) Provide coaching on Tier 1 priorities for teachers.<br>D) Utilize the district Tier 1 rubric to calibrate teacher's implementation of domains within instruction through walk-through data.<br>E) Collaborate with district content coordinator to provide the science PLC with professional learning and support around active vocabulary strategies and document analysis strategies, as well as assessment design and utilizing results to drive instruction.<br>F) Train and support implementation of Nancy Motley's Talk Read Talk Write routines and strategies to increase student critical thinking and discourse in the classroom.<br>G) Train and support teacher's on use of EDP (engineering design protocol) in all classrooms to support higher order thinking skills and collaborative problem solving.<br>H) Develop and implement PBL projects for each grade level to be used in the second semester of the 25-26 school year.<br><b>Staff Responsible for Monitoring:</b> Administrative Leadership Team (includes Department Heads, Admin Instructional Facilitators), Math and Science Teachers, Content Coordinators<br><br><b>Problem Statements:</b> Demographics 1 - Student Learning 1, 2 - School Processes & Programs 1, 2, 3 |  | Formative |     |     | Summative |

| <b>Problem Statement 1:</b> Special Education students performed significantly lower than the overall campus score for the 2025 school year. <b>Root Cause:</b> instructional practices and interventions are not consistently differentiated or aligned to students' Individualized Education Plans (IEPs). Teachers need additional support in implementing evidence-based strategies, progress monitoring, and accommodations with fidelity. Furthermore, gaps in foundational skills and limited access to targeted small-group instruction have not been systematically add |
| <b>Problem Statement 2:</b> Hispanic students are performing lower than their non-Hispanic peers across all content areas. <b>Root Cause:</b> This performance gap is due to a combination of factors, including gaps in foundational literacy and academic vocabulary, limited access to differentiated instructional strategies that meet language and cultural needs, and inconsistent implementation of targeted interventions. Additionally, family engagement and culturally responsive practices have not been leveraged consistently to build strong c                   |
| Student Learning                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| <b>Problem Statement 1:</b> Our students have not shown mastery to level of like campuses. <b>Root Cause:</b> Students have not demonstrated mastery at the level of like campuses because classroom instruction often lacks the appropriate level of rigor needed to meet grade-level expectations. Excessive reliance on scaffolds for struggling learners has limited opportunities for students to engage in productive struggle, apply higher-order thinking, and develop independent problem-solving skills.                                                               |
| <b>Problem Statement 2:</b> Special Education students performed significantly lower than the overall campus score for the 2025 school year. <b>Root Cause:</b> instructional practices and interventions are not consistently differentiated or aligned to students' Individualized Education Plans (IEPs). Teachers need additional support in implementing evidence-based strategies, progress monitoring, and accommodations with fidelity. Furthermore, gaps in foundational skills and limited access to targeted small-group instruction have not been systematically add |

### School Processes & Programs

**Problem Statement 1:** Students are not consistently performing at or above grade level because classroom instruction does not regularly provide the rigor necessary to meet state standards.. **Root Cause:** The root cause of low rigor in classroom instruction is inconsistent teacher capacity to design and deliver lessons that balance scaffolding with grade-level expectations. Teachers frequently provide supports that help students access content but unintentionally reduce opportunities for students to engage in challenging, standards-aligned tasks requiring critical thinking, problem-solving, and ind

**Problem Statement 2:** Students are not attending school at required levels. **Root Cause:** Inconsistent attendance may be due to a variety of factors, including a lack of engagement with the school environment, external pressures such as family responsibilities or socioeconomic challenges, and inadequate support systems for students facing barriers to regular attendance.

**Problem Statement 3:** Special Education students performed significantly lower than the overall campus score for the 2025 school year. **Root Cause:** instructional practices and interventions are not consistently differentiated or aligned to students' Individualized Education Plans (IEPs). Teachers need additional support in implementing evidence-based strategies, progress monitoring, and accommodations with fidelity. Furthermore, gaps in foundational skills and limited access to targeted small-group instruction have not been systematically add

### Perceptions

**Problem Statement 1:** Students need increased confidence in reporting their concerns to ensure their voices are heard and addressed. **Root Cause:** the current systems for student voice and reporting are either unclear, inconsistently implemented, or not perceived as safe and responsive. Students have limited opportunities to practice self-advocacy skills, and communication structures do not consistently ensure that students see follow-up or outcomes after raising concerns.

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 3:** Students will display an awareness of social-emotional development as measured by a district-administered student survey.

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  | Reviews   |     |     |           |

### Performance Objective 3 Problem Statements:

| School Processes & Programs                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 2:</b> Students are not attending school at required levels. <b>Root Cause:</b> Inconsistent attendance may be due to a variety of factors, including a lack of engagement with the school environment, external pressures such as family responsibilities or socioeconomic challenges, and inadequate support systems for students facing barriers to regular attendance.                                                                                                          |
| Perceptions                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| <b>Problem Statement 1:</b> Students need increased confidence in reporting their concerns to ensure their voices are heard and addressed. <b>Root Cause:</b> the current systems for student voice and reporting are either unclear, inconsistently implemented, or not perceived as safe and responsive. Students have limited opportunities to practice self-advocacy skills, and communication structures do not consistently ensure that students see follow-up or outcomes after raising concerns. |

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 4:** Reduce the number of students assigned to behavior RtI tiers 2 and 3.

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    | Reviews   |     |     |           |

## School Processes & Programs

**Problem Statement 1:** Students are not consistently performing at or above grade level because classroom instruction does not regularly provide the rigor necessary to meet state standards.. **Root Cause:** The root cause of low rigor in classroom instruction is inconsistent teacher capacity to design and deliver lessons that balance scaffolding with grade-level expectations. Teachers frequently provide supports that help students access content but unintentionally reduce opportunities for students to engage in challenging, standards-aligned tasks requiring critical thinking, problem-solving, and ind

**Problem Statement 2:** Students are not attending school at required levels. **Root Cause:** Inconsistent attendance may be due to a variety of factors, including a lack of engagement with the school environment, external pressures such as family responsibilities or socioeconomic challenges, and inadequate support systems for students facing barriers to regular attendance.

**Problem Statement 3:** Special Education students performed significantly lower than the overall campus score for the 2025 school year. **Root Cause:** instructional practices and interventions are not consistently differentiated or aligned to students' Individualized Education Plans (IEPs). Teachers need additional support in implementing evidence-based strategies, progress monitoring, and accommodations with fidelity. Furthermore, gaps in foundational skills and limited access to targeted small-group instruction have not been systematically add

**Goal 2:** The system will utilize efficient and effective operations to support and improve the learning organization.

**Performance Objective 1:** Increase the annual total average daily attendance (ADA) as compared to the prior school year, through improved student retention, recruitment, and days in attendance.

**Evaluation Data Sources:** Focus, report cards

| <b>Problem Statement 1:</b> Students are not consistently performing at or above grade level because classroom instruction does not regularly provide the rigor necessary to meet state standards.. <b>Root Cause:</b> The root cause of low rigor in classroom instruction is inconsistent teacher capacity to design and deliver lessons that balance scaffolding with grade-level expectations. Teachers frequently provide supports that help students access content but unintentionally reduce opportunities for students to engage in challenging, standards-aligned tasks requiring critical thinking, problem-solving, and ind |

**Goal 3:** All students and staff will learn and work in a safe and responsive environment.

**Performance Objective 1:** Increase the percentage of students and staff who report feeling safe at school.

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  | Reviews   |     |     |           |

**Performance Objective 1 Problem Statements:**

| School Processes & Programs                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 2:</b> Students are not attending school at required levels. <b>Root Cause:</b> Inconsistent attendance may be due to a variety of factors, including a lack of engagement with the school environment, external pressures such as family responsibilities or socioeconomic challenges, and inadequate support systems for students facing barriers to regular attendance.                                                                                                          |
| Perceptions                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| <b>Problem Statement 1:</b> Students need increased confidence in reporting their concerns to ensure their voices are heard and addressed. <b>Root Cause:</b> the current systems for student voice and reporting are either unclear, inconsistently implemented, or not perceived as safe and responsive. Students have limited opportunities to practice self-advocacy skills, and communication structures do not consistently ensure that students see follow-up or outcomes after raising concerns. |

**Goal 3:** All students and staff will learn and work in a safe and responsive environment.

**Performance Objective 2:** Reduce the cost of accidents resulting in workers' compensation claims by 10% over the previous year and reduce the number of work days lost each year due to accidents occurring on the job by 10%.

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                            |  | Reviews   |     |     |           |

**Performance Objective 2 Problem Statements:**

| School Processes & Programs                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 2:</b> Students are not attending school at required levels. <b>Root Cause:</b> Inconsistent attendance may be due to a variety of factors, including a lack of engagement with the school environment, external pressures such as family responsibilities or socioeconomic challenges, and inadequate support systems for students facing barriers to regular attendance.                                                                                                          |
| Perceptions                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| <b>Problem Statement 1:</b> Students need increased confidence in reporting their concerns to ensure their voices are heard and addressed. <b>Root Cause:</b> the current systems for student voice and reporting are either unclear, inconsistently implemented, or not perceived as safe and responsive. Students have limited opportunities to practice self-advocacy skills, and communication structures do not consistently ensure that students see follow-up or outcomes after raising concerns. |

**Goal 3:** All students and staff will learn and work in a safe and responsive environment.

**Performance Objective 3:** The campus will meet all compliance requirements for improvement planning.

**Performance Objective 3 Problem Statements:**

| Demographics                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> Special Education students performed significantly lower than the overall campus score for the 2025 school year. <b>Root Cause:</b> instructional practices and interventions are not consistently differentiated or aligned to students' Individualized Education Plans (IEPs). Teachers need additional support in implementing evidence-based strategies, progress monitoring, and accommodations with fidelity. Furthermore, gaps in foundational skills and limited access to targeted small-group instruction have not been systematically add |
| <b>Problem Statement 2:</b> Hispanic students are performing lower than their non-Hispanic peers across all content areas. <b>Root Cause:</b> This performance gap is due to a combination of factors, including gaps in foundational literacy and academic vocabulary, limited access to differentiated instructional strategies that meet language and cultural needs, and inconsistent implementation of targeted interventions. Additionally, family engagement and culturally responsive practices have not been leveraged consistently to build strong c                   |
| Student Learning                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| <b>Problem Statement 1:</b> Our students have not shown mastery to level of like campuses. <b>Root Cause:</b> Students have not demonstrated mastery at the level of like campuses because classroom instruction often lacks the appropriate level of rigor needed to meet grade-level expectations. Excessive reliance on scaffolds for struggling learners has limited opportunities for students to engage in productive struggle, apply higher-order thinking, and develop independent problem-solving skills.                                                               |

### Student Learning

**Problem Statement 2:** Special Education students performed significantly lower than the overall campus score for the 2025 school year. **Root Cause:** instructional practices and interventions are not consistently differentiated or aligned to students' Individualized Education Plans (IEPs). Teachers need additional support in implementing evidence-based strategies, progress monitoring, and accommodations with fidelity. Furthermore, gaps in foundational skills and limited access to targeted small-group instruction have not been systematically add

### School Processes & Programs

**Problem Statement 1:** Students are not consistently performing at or above grade level because classroom instruction does not regularly provide the rigor necessary to meet state standards.. **Root Cause:** The root cause of low rigor in classroom instruction is inconsistent teacher capacity to design and deliver lessons that balance scaffolding with grade-level expectations. Teachers frequently provide supports that help students access content but unintentionally reduce opportunities for students to engage in challenging, standards-aligned tasks requiring critical thinking, problem-solving, and ind

**Problem Statement 2:** Students are not attending school at required levels. **Root Cause:** Inconsistent attendance may be due to a variety of factors, including a lack of engagement with the school environment, external pressures such as family responsibilities or socioeconomic challenges, and inadequate support systems for students facing barriers to regular attendance.

**Problem Statement 3:** Special Education students performed significantly lower than the overall campus score for the 2025 school year. **Root Cause:** instructional practices and interventions are not consistently differentiated or aligned to students' Individualized Education Plans (IEPs). Teachers need additional support in implementing evidence-based strategies, progress monitoring, and accommodations with fidelity. Furthermore, gaps in foundational skills and limited access to targeted small-group instruction have not been systematically add

### Perceptions

**Problem Statement 1:** Students need increased confidence in reporting their concerns to ensure their voices are heard and addressed. **Root Cause:** the current systems for student voice and reporting are either unclear, inconsistently implemented, or not perceived as safe and responsive. Students have limited opportunities to practice self-advocacy skills, and communication structures do not consistently ensure that students see follow-up or outcomes after raising concerns.

## Demographics

### Demographics Summary

North Ridge Elementary is located in North Richland Hills, Texas, Northeast Tarrant County. North Ridge serves 510 students in pre-kindergarten through fifth grade based on the Fall 2024 PEIMS report. North Ridge has two special education self-contained classrooms, serving a total of 20 Kindergarten-5th grade students. North Ridge Elementary has been identified as a Title 1 campus for the 2025-2026 school year.

Student ethnicity distribution includes 6.86% (35) African American, 27.84% (142) Hispanic, 55.49% (283) White, 3.14% (16) Asian, .39% (2) Native Hawaiian- Pacific Islander and 6.08% (31) Two or More Races. A total of 36.67% (187) North Ridge Elementary students qualify as Economically Disadvantaged. 4.51% (23) are Emergent Bilingual and 49.22% (251) of the students have met the criteria for a Student At-Risk. 7.65% (39) of students qualify to receive Gifted and Talented services and 19.80% (101) of the student population is served through Special Education. Data is collected from the 2024-25 Texas Academic Performance Report.

Of the 78 faculty members, 8.5% are White, 1.3% are Asian and 6.4% are African American. Of the 51 faculty members, the average years of experience is 18 years.

Student average attendance rate for the 2023-2024 school year was 95.74%. The mobility rate of our students is 8.82%.

### Demographics Strengths

Our school has consistently demonstrated a commitment to nurturing the potential of our students, as evidenced by our gifted and talented program. Although the percentage of students identified as gifted and talented has seen a slight decrease from 8.8% to 7.65%, we remain dedicated to providing challenging and enriching opportunities for all students. This shift encourages us to refine our identification processes and support systems to ensure that we are recognizing and fostering the abilities of every student who can benefit from advanced learning experiences.

In terms of attendance, our school has maintained a strong attendance rate, which recently adjusted from 96.1% to 95.74%. This slight decline serves as a reminder of the importance of our ongoing efforts to engage students and families in the educational process. We are committed to understanding and addressing the factors that influence attendance, ensuring that our school environment remains welcoming and supportive, and that students are motivated to attend regularly. Our focus will continue to be on creating a positive school culture that values and promotes consistent attendance as a key component of academic success.

### Problem Statements Identifying Demographics Needs

**Problem Statement 1 (Prioritized):** The Gifted and Talented population percentage has not shown adequate growth.

**Root Cause:** There is a lack of adequate information and guidance provided to both parents and teachers regarding the identification and support of Gifted and Talented students, which hinders the effective recognition and development of these students.

**Problem Statement 2 (Prioritized):** TELPAS data indicates that only 12.5% (5) of Emergent Bilingual students grew 2 or more instructional levels within a single year.

**Root Cause:** There is a need for enhanced monitoring and support to ensure that Emergent Bilingual students are making adequate progress in their language development.

**Problem Statement 3 (Prioritized):** Female students in fifth grade are underperforming in math as evidenced by 14 of the 20 students not meeting grade level on the STAAR being girls.

**Root Cause:** Instructional practices and supports are not sufficiently addressing the learning needs, confidence and engagement of female students in mathematics.

## Student Learning Summary

### 2024-2025 State of Texas Assessments of Academic Achievement (STAAR) Data

#### Third Grade State Assessment

STAAR Reading Language Arts: 96% Approaches, 71% Meets and 28% Masters

STAAR Math: 85% Approaches, 64% Meets and 26% Masters

STAAR Alternate 2 Reading: 100% Satisfactory and 20% Accomplished

STAAR Alternate 2 Math: 100% Satisfactory and 60% Accomplished

#### Fourth Grade State Assessment

STAAR Reading Language Arts: 94% Approaches, 74% Meets and 35% Masters

STAAR Math: 86% Approaches, 54% Meets and 24% Masters

STAAR Alternate 2 Reading: No data reported for less than 5 students

STAAR Alternate 2 Math: No data reported for less than 5 students

#### Fifth Grade State Assessment

STAAR Reading Language Arts: 84% Approaches, 60% Meets and 29% Masters

STAAR Math: 73% Approaches, 40% Meets and 23% Masters

STAAR Science: 79% Approaches, 64% Meets and 30% Masters

STAAR Alternate 2 Reading: No data reported for students less than 5 students

STAAR Alternate 2 Math: No data reported for students less than 5 students

STAAR Alternate 2 Science: No data reported for students less than 5 students

Third Grade: 5 Did Not Meet, 8 Approaches, 38 Meets, 22 Masters

Fourth Grade: 3 Did Not Meet, 14 Approaches, 22 Meets, 30 Masters

Fifth Grade: 9 Did Not Meet, 14 Approaches, 24 Meets, 23 Masters

## **Student Learning Strengths**

In third grade, our students have shown remarkable progress in their STAR Renaissance Math assessments. At the beginning of the year, 17 students did not meet the expected standards, but this number has impressively decreased to just 6 students. Furthermore, the number of students mastering the content has increased from 18 to 25, indicating a significant improvement in their mathematical understanding and skills.

Our first-grade students have also demonstrated commendable growth in their STAR Renaissance Math data. Initially, 17 students did not meet the expected standards, but through targeted interventions and support, this number has been reduced to 7. This progress reflects the effectiveness of our teaching strategies and the dedication of our educators in fostering a strong mathematical foundation for our young learners.

In terms of the STAAR assessments, our third-grade students have shown a notable increase in the percentage of students achieving the mastered level, growing from 21% to 26%. This improvement highlights the success of our curriculum and instructional methods in preparing students to excel in their academic pursuits.

Our fourth-grade students have also made significant strides on the STAAR assessments, with the percentage of students approaching grade level increasing from

74% to 86%. This growth is a testament to the hard work of both our students and teachers in striving for academic excellence and ensuring that all students are on the path to success.

In the area of reading and language arts, our third-grade students have achieved an impressive rise in the percentage of those approaching grade level, from 84% to 96%. Similarly, our fourth-grade students have shown substantial progress, with their percentage increasing from 87% to 94%. These achievements underscore the effectiveness of our literacy programs and the commitment of our educators to developing strong reading and language skills in our students.

### **Problem Statements Identifying Student Learning Needs**

**Problem Statement 1 (Prioritized):** STAAR scores for Fifth Grade Math student dropped 10 percentage points.

**Root Cause:** The ten point decline is likely due to gaps in consistent math fluency, limited opportunities for problem solving practice and uneven alignment of instruction to tested standards.

**Problem Statement 2 (Prioritized):** Kindergarten Reading M-Class data indicates little growth from the beginning of the year assessment to the middle of the year assessment with Well Below numbers at a high percentage.

**Root Cause:** Instruction and interventions may not have provided enough targeted, differentiated practice in early reading skills to accelerate growth.

# School Processes & Programs

## School Processes & Programs Summary

North Ridge Elementary implements a variety of processes and programs to ensure academic success, student growth, and a safe, supportive learning environment. Instructional planning is guided by the Texas Essential Knowledge and Skills (TEKS), district curriculum frameworks, and regular analysis of student performance data. Teachers collaborate in Professional Learning Communities (PLCs) to design lessons, monitor progress, and adjust instruction to meet diverse learner needs.

Student learning is supported by intervention and enrichment programs, including small-group instruction, targeted RTI support, and accelerated learning opportunities. Assessment are built into the curriculum to address both remediation and enrichment needs.

Technology integration is emphasized through the use of digital tools, learning platforms, and 1:1 device access, equipping students with 21st-century skills. Positive school culture is strengthened by programs such as Capturing Kids Hearts, Longhorn Leaders, and social-emotional learning initiatives.

Ongoing professional development for teachers is provided in alignment with campus goals, focusing on effective instructional strategies, classroom management, and data-driven decision making. Systems for family and community engagement include parent nights, newsletters, and partnerships with local organizations to increase support and collaboration.

Overall, our school processes and programs are designed to create a data-informed, collaborative, and student-centered approach that supports high levels of achievement and growth for all learners.

## School Processes & Programs Strengths

North Ridge Elementary demonstrates several strengths in the area of school processes and programs. Teachers collaborate regularly in Professional Learning Communities (PLCs) to align instruction with the TEKS, analyze assessment data, and make adjustments to meet the needs of all learners. Decision making is data-driven, with clear processes in place for monitoring student progress and implementing timely interventions. The Response to Intervention (RTI) system provides structured supports for struggling learners while enrichment opportunities challenge advanced students. Teachers are lead and supported by a full time Instructional Facilitator.

Our positive school culture is reinforced through consistent behavior expectations through the implementation of Capturing Kids Hearts, which foster a safe and supportive learning environment. Technology is effectively integrated into instruction, equipping students with 21st-century skills and engaging them in digital learning platforms. Teachers benefit from ongoing professional development aligned with campus and district goals, which strengthens instructional practices and supports continuous growth.

Family engagement remains a strong area, with parent nights, newsletters, and outreach programs that encourage collaboration between home and school. The NRE PTA assists in planning events throughout the school year that encourages a strong home-school connection. Students also have opportunities to develop leadership skills through After School Clubs and Longhorn Leaders/ Peer Mentoring. Finally, strong communication systems ensure that staff, parents, and community members are informed and actively involved in supporting student success.

## Problem Statements Identifying School Processes & Programs Needs

**Problem Statement 1 (Prioritized):** Not all teaching staff consistently use data with the same depth to drive instructional decisions, intervention and enrichment opportunities.

**Root Cause:** There are inconsistencies in our school process for implementing and monitoring instructional practices.

**Problem Statement 2 (Prioritized):** Targeted interventions are inconsistently applied and do not attain expected results.

**Root Cause:** Planning for interventions has not been a focus in our RTI process for all grade levels.

# Perceptions

## Perceptions Summary

We believe learning starts in the heart of our students. Building positive relationships with our students and families are top priority. We have implemented Capturing Kids Hearts to increase positive student-teacher-home relationships. We have also adopted a Positive Behavior System and implement Character Strong practices in which students are involved in creating classroom mission statements, social contracts and classroom agreements. Parent involvement is a target focus of our school and PTA this year. The fully-staffed Parent Teacher (PTA) Association Board plans family events throughout the school year to encourage community involvement. Our Watch D.O.G.S. (Dads of Great Students) program involves an average of 60 fathers/ father figures who volunteer during the school year. Staff is retained yearly due to a strong and positive school culture.

Safety and Capturing Kids Hearts surveys are used to gain stakeholder feedback.

## Perceptions Strengths

The Watch D.O.G.S. program participant rate continues to grow each year and also increases volunteerism at North Ridge Elementary.

North Ridge Elementary Parent Teacher Association meetings involve student performances to encourage attendance.

School and PTA events: Grandparents Luncheon, Back to School Picnic, Trunk or Treat, Cookies with Santa, Idea Explosion and End of Year Bash promotes community involvement.

Our school discipline referral rates stay at low numbers due to the implementation of Capturing Kids Hearts and Character Strong.

## Problem Statements Identifying Perceptions Needs

**Problem Statement 1 (Prioritized):** Stakeholder surveys are not collecting all facets of data needed to create useful, actionable results.

**Root Cause:** North Ridge Elementary needs to improve the stakeholder survey process, as the two surveys conducted last year focused only on elements of the Capturing Kids Hearts program.

**Problem Statement 2 (Prioritized):** Survey results reveal inadequate communication between classroom teachers and home.

**Root Cause:** The school needs to refine and improve its process of teacher/parent communication to foster better engagement and support.

# Priority Problem Statements

**Problem Statement 1:** The Gifted and Talented population percentage has not shown adequate growth.

**Root Cause 1:** There is a lack of adequate information and guidance provided to both parents and teachers regarding the identification and support of Gifted and Talented students, which hinders the effective recognition and development of these students.

**Problem Statement 1 Areas:** Demographics

**Problem Statement 2:** STAAR scores for Fifth Grade Math student dropped 10 percentage points.

**Root Cause 2:** The ten point decline is likely due to gaps in consistent math fluency, limited opportunities for problem solving practice and uneven alignment of instruction to tested standards.

**Problem Statement 2 Areas:** Student Learning

**Problem Statement 3:** Kindergarten Reading M-Class data indicates little growth from the beginning of the year assessment to the middle of the year assessment with Well Below numbers at a high percentage.

**Root Cause 3:** Instruction and interventions may not have provided enough targeted, differentiated practice in early reading skills to accelerate growth.

**Problem Statement 3 Areas:** Student Learning

**Problem Statement 4:** Targeted interventions are inconsistently applied and do not attain expected results.

**Root Cause 4:** Planning for interventions has not been a focus in our RTI process for all grade levels.

**Problem Statement 4 Areas:** School Processes & Programs

**Problem Statement 5:** Stakeholder surveys are not collecting all facets of data needed to create useful, actionable results.

**Root Cause 5:** North Ridge Elementary needs to improve the stakeholder survey process, as the two surveys conducted last year focused only on elements of the Capturing Kids Hearts program.

**Problem Statement 5 Areas:** Perceptions

**Problem Statement 6:** TELPAS data indicates that only 12.5% (5) of Emergent Bilingual students grew 2 or more instructional levels within a single year.

**Root Cause 6:** There is a need for enhanced monitoring and support to ensure that Emergent Bilingual students are making adequate progress in their language development.

**Problem Statement 6 Areas:** Demographics

**Problem Statement 7:** Not all teaching staff consistently use data with the same depth to drive instructional decisions, intervention and enrichment opportunities.

**Root Cause 7:** There are inconsistencies in our school process for implementing and monitoring instructional practices.

**Problem Statement 7 Areas:** School Processes & Programs

**Problem Statement 8:** Female students in fifth grade are underperforming in math as evidenced by 14 of the 20 students not meeting grade level on the STAAR being girls.

**Root Cause 8:** Instructional practices and supports are not sufficiently addressing the learning needs, confidence and engagement of female students in mathematics.

**Problem Statement 8 Areas:** Demographics

**Problem Statement 9:** Survey results reveal inadequate communication between classroom teachers and home.

**Root Cause 9:** The school needs to refine and improve its process of teacher/parent communication to foster better engagement and support.

**Problem Statement 9 Areas:** Perceptions

# Goals

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social and emotional needs of the student.

**Performance Objective 1:** All students will make at least one year's progress in reading and mathematics by the end of school year. a) Meet the progress monitoring targets in Prekindergarten - 3rd for each demographic group as measured by district approved screeners (BOY, MOY and EOY) to achieve the HB3 Board Goals. b) Improve performance in Domain 3 Closing the Gaps by making more than a year's growth in reading and mathematics which would in turn increase the number of students performing at the "meets" and "masters" level as measured by the Spring 2026 STAAR. This will also increase Domain 1 Student Achievement which counts the number of students at the various performance levels for state assessments.

| <b>Strategy 4:</b> Review and monitor data at all grade levels and develop action plans for targeted interventions following all assessments using data tracking systems during the PLC/RTI processes.<br><b>Actions:</b> A) Teachers will collect data on students, meet in PLCs to analyze the data and plan for interventions.<br>B) Grade level teams will work in PLCs to analyze demographic data and determine plan for interventions.<br>C) Principal and Assistant Principal reviews student report cards and failure reports each nine weeks. Student/ Parent conferences are scheduled using this data to discuss student progress concerns.<br>D) Response to Intervention meetings will be held five times during the school year to monitor student progress and plan for intervention.<br><b>Staff Responsible for Monitoring:</b> Principal<br>Assistant Principal<br>Counselor<br>Classroom Teachers<br>Dyslexia Specialist<br>Resource Teachers<br>Instructional Facilitator<br><br><b>Title I:</b><br>2.53, 2.533<br><b>Problem Statements:</b> Demographics 2 - Student Learning 1, 2 - School Processes & Programs 1, 2 - Perceptions 1 | Formative |     |     | Summative |

| <p><b>Problem Statement 1:</b> The Gifted and Talented population percentage has not shown adequate growth. <b>Root Cause:</b> There is a lack of adequate information and guidance provided to both parents and teachers regarding the identification and support of Gifted and Talented students, which hinders the effective recognition and development of these students.</p> <p><b>Problem Statement 2:</b> TELPAS data indicates that only 12.5% (5) of Emergent Bilingual students grew 2 or more instructional levels within a single year. <b>Root Cause:</b> There is a need for enhanced monitoring and support to ensure that Emergent Bilingual students are making adequate progress in their language development.</p> <p><b>Problem Statement 3:</b> Female students in fifth grade are underperforming in math as evidenced by 14 of the 20 students not meeting grade level on the STAAR being girls. <b>Root Cause:</b> Instructional practices and supports are not sufficiently addressing the learning needs, confidence and engagement of female students in mathematics.</p> |

| <p><b>Problem Statement 1:</b> STAAR scores for Fifth Grade Math student dropped 10 percentage points. <b>Root Cause:</b> The ten point decline is likely due to gaps in consistent math fluency, limited opportunities for problem solving practice and uneven alignment of instruction to tested standards.</p> <p><b>Problem Statement 2:</b> Kindergarten Reading M-Class data indicates little growth from the beginning of the year assessment to the middle of the year assessment with Well Below numbers at a high percentage. <b>Root Cause:</b> Instruction and interventions may not have provided enough targeted, differentiated practice in early reading skills to accelerate growth.</p>                                                                                                                                                                                                                                                                                                                                                                                             |
| School Processes & Programs                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| <p><b>Problem Statement 1:</b> Not all teaching staff consistently use data with the same depth to drive instructional decisions, intervention and enrichment opportunities. <b>Root Cause:</b> There are inconsistencies in our school process for implementing and monitoring instructional practices.</p> <p><b>Problem Statement 2:</b> Targeted interventions are inconsistently applied and do not attain expected results. <b>Root Cause:</b> Planning for interventions has not been a focus in our RTI process for all grade levels.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| Perceptions                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| <p><b>Problem Statement 1:</b> Stakeholder surveys are not collecting all facets of data needed to create useful, actionable results. <b>Root Cause:</b> North Ridge Elementary needs to improve the stakeholder survey process, as the two surveys conducted last year focused only on elements of the Capturing Kids Hearts program.</p> <p><b>Problem Statement 2:</b> Survey results reveal inadequate communication between classroom teachers and home. <b>Root Cause:</b> The school needs to refine and improve its process of teacher/parent communication to foster better engagement and support.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social and emotional needs of the student.

**Performance Objective 2:** Close achievement gaps that exist for all under-performing student groups as measured by state and district assessments. Meet all progress monitoring targets for grades prekindergarten - 3rd in reading and mathematics for identified student groups as measured by a district-approved monitoring instrument.

**HB3 Goal**

**Evaluation Data Sources:** RTI Campus Data  
Interim Data  
DCA Data  
Benchmark Data  
Report Cards  
Student Data Folder

**Performance Objective 2 Problem Statements:**

### Student Learning

**Problem Statement 1:** STAAR scores for Fifth Grade Math student dropped 10 percentage points. **Root Cause:** The ten point decline is likely due to gaps in consistent math fluency, limited opportunities for problem solving practice and uneven alignment of instruction to tested standards.

**Problem Statement 2:** Kindergarten Reading M-Class data indicates little growth from the beginning of the year assessment to the middle of the year assessment with Well Below numbers at a high percentage. **Root Cause:** Instruction and interventions may not have provided enough targeted, differentiated practice in early reading skills to accelerate growth.

### School Processes & Programs

**Problem Statement 2:** Targeted interventions are inconsistently applied and do not attain expected results. **Root Cause:** Planning for interventions has not been a focus in our RTI process for all grade levels.

### Perceptions

**Problem Statement 1:** Stakeholder surveys are not collecting all facets of data needed to create useful, actionable results. **Root Cause:** North Ridge Elementary needs to improve the stakeholder survey process, as the two surveys conducted last year focused only on elements of the Capturing Kids Hearts program.

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social and emotional needs of the student.

**Performance Objective 3:** Students will display an awareness of social-emotional development as measured by a campus and district administered student surveys.

**Evaluation Data Sources:** Behavior RTI Data

### Performance Objective 3 Problem Statements:

| School Processes & Programs                                                                                                                                                                                                                                                                           |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> Not all teaching staff consistently use data with the same depth to drive instructional decisions, intervention and enrichment opportunities. <b>Root Cause:</b> There are inconsistencies in our school process for implementing and monitoring instructional practices. |
| <b>Problem Statement 2:</b> Targeted interventions are inconsistently applied and do not attain expected results. <b>Root Cause:</b> Planning for interventions has not been a focus in our RTI process for all grade levels.                                                                         |

### Perceptions

**Problem Statement 1:** Stakeholder surveys are not collecting all facets of data needed to create useful, actionable results. **Root Cause:** North Ridge Elementary needs to improve the stakeholder survey process, as the two surveys conducted last year focused only on elements of the Capturing Kids Hearts program.

**Problem Statement 2:** Survey results reveal inadequate communication between classroom teachers and home. **Root Cause:** The school needs to refine and improve its process of teacher/parent communication to foster better engagement and support.

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social and emotional needs of the student.

**Performance Objective 4:** Reduce the number of students assigned to behavioral MTSS Tiers 2 and 3.

**Performance Objective 2 Problem Statements:**

| Demographics                                                                                                                                                                                                                                                                                                                                                                |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> The Gifted and Talented population percentage has not shown adequate growth. <b>Root Cause:</b> There is a lack of adequate information and guidance provided to both parents and teachers regarding the identification and support of Gifted and Talented students, which hinders the effective recognition and development of these students. |
| <b>Problem Statement 2:</b> TELPAS data indicates that only 12.5% (5) of Emergent Bilingual students grew 2 or more instructional levels within a single year. <b>Root Cause:</b> There is a need for enhanced monitoring and support to ensure that Emergent Bilingual students are making adequate progress in their language development.                                |

### Student Learning

**Problem Statement 1:** STAAR scores for Fifth Grade Math student dropped 10 percentage points. **Root Cause:** The ten point decline is likely due to gaps in consistent math fluency, limited opportunities for problem solving practice and uneven alignment of instruction to tested standards.

**Problem Statement 2:** Kindergarten Reading M-Class data indicates little growth from the beginning of the year assessment to the middle of the year assessment with Well Below numbers at a high percentage. **Root Cause:** Instruction and interventions may not have provided enough targeted, differentiated practice in early reading skills to accelerate growth.

### School Processes & Programs

**Problem Statement 1:** Not all teaching staff consistently use data with the same depth to drive instructional decisions, intervention and enrichment opportunities. **Root Cause:** There are inconsistencies in our school process for implementing and monitoring instructional practices.

**Problem Statement 2:** Targeted interventions are inconsistently applied and do not attain expected results. **Root Cause:** Planning for interventions has not been a focus in our RTI process for all grade levels.

### Perceptions

**Problem Statement 1:** Stakeholder surveys are not collecting all facets of data needed to create useful, actionable results. **Root Cause:** North Ridge Elementary needs to improve the stakeholder survey process, as the two surveys conducted last year focused only on elements of the Capturing Kids Hearts program.

**Problem Statement 2:** Survey results reveal inadequate communication between classroom teachers and home. **Root Cause:** The school needs to refine and improve its process of teacher/parent communication to foster better engagement and support.

**Goal 3:** All students and staff will learn and work in a safe and responsive environment.

**Performance Objective 1:** Increase the percentage of students and staff who report feeling safe at school from the previous year.

**Performance Objective 1 Problem Statements:**

| School Processes & Programs                                                                                                                                                                                                                                                                                                         |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> Not all teaching staff consistently use data with the same depth to drive instructional decisions, intervention and enrichment opportunities. <b>Root Cause:</b> There are inconsistencies in our school process for implementing and monitoring instructional practices.                               |
| Perceptions                                                                                                                                                                                                                                                                                                                         |
| <b>Problem Statement 1:</b> Stakeholder surveys are not collecting all facets of data needed to create useful, actionable results. <b>Root Cause:</b> North Ridge Elementary needs to improve the stakeholder survey process, as the two surveys conducted last year focused only on elements of the Capturing Kids Hearts program. |
| <b>Problem Statement 2:</b> Survey results reveal inadequate communication between classroom teachers and home. <b>Root Cause:</b> The school needs to refine and improve its process of teacher/parent communication to foster better engagement and support.                                                                      |

**Goal 3:** All students and staff will learn and work in a safe and responsive environment.

**Performance Objective 2:** Reduce the cost of accidents resulting in workers' compensation claims by 10% over the previous year and reduce the number of work days lost each year due to accidents occurring on the job by 10%.

**Performance Objective 3 Problem Statements:**

| Perceptions                                                                                                                                                                                                                                                                                                                         |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> Stakeholder surveys are not collecting all facets of data needed to create useful, actionable results. <b>Root Cause:</b> North Ridge Elementary needs to improve the stakeholder survey process, as the two surveys conducted last year focused only on elements of the Capturing Kids Hearts program. |
| <b>Problem Statement 2:</b> Survey results reveal inadequate communication between classroom teachers and home. <b>Root Cause:</b> The school needs to refine and improve its process of teacher/parent communication to foster better engagement and support.                                                                      |

**Goal 4:** North Ridge Elementary will build a strong relationship with all stakeholders.

**Performance Objective 1:** This year, 100% of NRE families will participate in at least two family engagement events this school year.

**Evaluation Data Sources:** North Ridge Elementary Parent Surveys  
Event Attendance

**Performance Objective 2 Problem Statements:**

| School Processes & Programs                                                                                                                                                                                                   |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 2:</b> Targeted interventions are inconsistently applied and do not attain expected results. <b>Root Cause:</b> Planning for interventions has not been a focus in our RTI process for all grade levels. |

### Perceptions

**Problem Statement 1:** Stakeholder surveys are not collecting all facets of data needed to create useful, actionable results. **Root Cause:** North Ridge Elementary needs to improve the stakeholder survey process, as the two surveys conducted last year focused only on elements of the Capturing Kids Hearts program.

**Problem Statement 2:** Survey results reveal inadequate communication between classroom teachers and home. **Root Cause:** The school needs to refine and improve its process of teacher/parent communication to foster better engagement and support.

# Mission Statement

*Through collaborative practice, purposeful work, and responsive review,  
North Ridge Middle School will  
empower lifelong learners who will value creativity and diversity as they  
deepen strong moral character within a meaningful, safe, and stimulating learning environment.*

# Vision

Through open, honest communication with our students, parents, and colleagues, we will foster a safe environment committed to creating a lifelong love of learning. Students will know that their successes are due to their hard work and effort. Through our example, our students will learn to respect themselves, their peers, and gain a yearning for self-improvement. Their educational experience will instill the belief that they can succeed and will continue to contribute

# Value Statement

- 1. We build strong relationships on our campus in which our encounters are personal and meaningful, with a goal to produce a positive, proactive work environment.*
- 2. We see all challenges as opportunities and we own them.*
- 3. We embrace the opportunity to continually grow through a refusal to be complacent, a desire to be the best, and functioning within a system that supports reflective practice.*
- 4. We value the differences inherent in each stakeholder and place ourselves in a position of reciprocal*

*trust and transparency to be relied upon for the unique strengths we bring to the table.*

*5. We are adaptive and transparent.*

*6. We celebrate the success of one another.*

*7. We set clear expectations and boundaries, as well as provide an engaging learning environment.*

*8. We know our roles. We clarify them often and provide additional assistance when and where needed.*

*9. We seek to create unique, rigorous, and real-world experiences.*

*10. We respond to the needs of our students with a sense of urgency and adhere to the belief in a holistic approach to helping each student grow academically and socially.*

*11. We strive to anticipate the explicit and implied needs of our students and staff members.*

*12. We strive to ensure that our school is safe, clean, comfortable, and maintained to the strictest standards.*

*13. We use data to guide our decisions, improve and develop the learner, and to evaluate our effectiveness.*

*14. We strive for perfection in order to be excellent.*

# Comprehensive Needs Assessment

## Demographics

### Demographics Summary

North Ridge Middle School is home to a diverse student body of 662 individuals, reflecting a rich tapestry of cultural and ethnic backgrounds. The majority of our students, 55.1%, identify as White, while 27.0% are Hispanic, contributing to the vibrant multicultural environment of our school. Additionally, 7.0% of our students are Black or African American, 3.2% are Asian, and 6.1% identify as being of Two or More Races. A smaller percentage, 0.5%, are American Indian or Alaska Native, further adding to the diversity that we celebrate and embrace within our school community.

Our school is committed to providing tailored educational support to meet the varied needs of our students. Currently, 13.79% of our students receive Special Education services, ensuring that they have access to the resources and support necessary for their academic success. We also recognize and nurture the potential of our high-achieving students, with 9.5% identified as Gifted and Talented, offering them opportunities to excel and challenge themselves further.

Career and Technology education is a significant focus at North Ridge Middle School, with 48.00% of our students enrolled in one or more courses in this area. This participation underscores our commitment to equipping students with practical skills and knowledge that will serve them well in their future educational and career endeavors. Additionally, we support 7.6% of our students who are Emergent Bilinguals, providing them with the language assistance they need to thrive academically and socially.

We are acutely aware of the socioeconomic challenges faced by some of our students, with 42.6% identified as Economically Disadvantaged. Our school is dedicated to providing equitable access to educational resources and opportunities to ensure that all students can succeed, regardless of their economic background. Furthermore, 46.1% of our students are identified as At Risk, and we are committed to implementing targeted interventions and support systems to help these students overcome barriers to their academic success.

### North Ridge Middle School currently serves 662 students:

55.1% White

27.0% Hispanic

7.0% Black/African American

3.2% Asian

6.1% Two or More Races

.5% American Indian or Alaska Native

### Other sub populations include:

13.79% - Students receive Special Educations services

9.5% - Students are identified as Gifted and Talented

48.00% - Students are taking one or more Career and Technology courses

7.6% - Emergent Bilingual Students

42.6% - Economically Disadvantaged Students

46.1% - Students identified as At Risk

### **Demographics Strengths**

North Ridge Middle has a welcoming and collaborative culture that excels in continuous improvement focusing on student learning and student achievement.

\* Earned an A school rating

\* Earned 7 out of 7 Distinctions

### **Problem Statements Identifying Demographics Needs**

**Problem Statement 1 (Prioritized):** North Ridge Middle School observed a decline in the percentage of 7th grade students meeting the "approaches grade level" standard in Math.

**Root Cause:** The effectiveness of Professional Learning Communities (PLCs) was below expectations, impacting the support and strategies implemented to address student learning needs in Math.

# Student Learning

## Student Learning Summary

Based on scores, our Meets to Masters levels need improvement.

Meets:

6th Grade Math: Meets 38% Masters 21%

6th Grade Reading: Meets 31% Masters 49%

7th Grade Math: Meets 38% Masters 19%

7th Grade Reading: Meets 26% Masters 45%

8th Grade Math: Meets 27% Masters 15%

8th Grade Reading: Meets 29% Masters 41%

8th Grade Science: Meets 33% Masters 29%

8th Grade History: Meets 15% Masters 24%

## Student Learning Strengths

The strength of the campus are the teachers and meeting the needs of the students. We have worked extremely effectively to ensure that intentional instructional teaching was done.

6th Grade Math: Approaches 93%

6th Grade Reading: Approaches 91%

7th Grade Math: Approaches 80%

7th Grade Reading: Approaches 89%

8th Grade Math: Approaches 74%

8th Grade Reading: Approaches 88%

8th Grade Science: Approaches 86%

### **Problem Statements Identifying Student Learning Needs**

**Problem Statement 1:** STAAR performance in areas of Reading and Math have decreased slightly over the last four years.

**Root Cause:** The inconsistent use of resources and instructional materials has led to this decline. This year, the school will utilize resources, including funding, to provide personnel, technology, training, support, and instructional materials in order to close achievement gaps in core content areas. We will also use Blue Bonnet Math as well as Reading strategies referred by RLA and Math coordinators.

## School Processes & Programs

### School Processes & Programs Summary

New teachers to NRMS are assigned mentors to help in their growth.

Teachers are encouraged to observe other teachers in their classrooms to gain ideas, knowledge, ask questions, and relationships.

Teachers are being evaluated on a less than annual appraisal system if they have taught on campus for two years and received at least proficient in three domains on their T-TESS evaluations.

Teachers are evaluated yearly on the T-TESS statement and monitored by pre conference, walk through, formal evaluations and post conference using the T-TESS appraisal system rubric.

We seek teachers that are talented, highly motivated, student-centered and that are capable of understanding Best Practices as well as develop a Growth Mindset when it comes to student achievement.

All staff are highly qualified in the content area that they teach. In addition NRMS is moving towards teachers certified in the content area that they teach.

### School Processes & Programs Strengths

High-quality staff are employed throughout the campus.

NRMS has attracted several Master Teachers from various campuses district-wide as well as throughout the Metroplex.

NRMS retains staff by being inclusive and allowing all staff members to feel like their voice can be heard at all times. Our building also promotes and encourages an environment for leaders to grow throughout the building.

The collaborative, collegial atmosphere of NRMS lends itself to retention of excellent staff members and the recruitment of like-minded individuals.

### Problem Statements Identifying School Processes & Programs Needs

**Problem Statement 1 (Prioritized):** New teachers struggle to utilize the many programs and platforms designed to promote efficiency within the teaching/learning process.

**Root Cause:** Teacher turnover has led to gaps in teacher proficiency in online programs and platforms. To address this issue, NRMS has assigned mentor teachers to new teachers to assist with utilizing technology.

# Perceptions

## Perceptions Summary

At North Ridge Middle, we strive to maintain a culture and climate that ensures that all students experience high levels of learning every day. Over the last few years, we have noticed that our Economically Disadvantaged students have increased.

Since my arrival here at North Ridge, we noticed an increase in the number of economically disadvantaged students. I arrived 15 years ago as a Texas History Teacher. The data indicated that NRMS's percentage of Economically Disadvantaged was under 10%. Administration has monitored the numbers over the years, and as of 2024, NRMS has reached 42% of Economically Disadvantaged students, with an At-Risk percentage of 46.1%. This is our third year of qualifying for Title I, and we want to meet the needs of ALL students while constantly focusing on our Economically Disadvantaged population. The staff has embraced this opportunity by meeting and collecting data collectively to meet the needs of the campus. The priorities of our campus will not change, but we will continue to focus on continuous improvement, literacy, and culture. If we focus on those areas, we will not have an option but to exceed the needs of all students.

Through courageous leadership, pertinent professional development, access to more technology than ever before and support of our Professional Learning

In a community framework, we make sure that students and teachers have the resources necessary to succeed.

We have a zero-tolerance policy regarding bullying, and we address each grade level at the beginning of the year to speak with our young people about the negative effects of bullying. We have adopted several programs to assist with inclusion and tolerance, such as the North Ridge Middle Housing System.

At the beginning of the year, all students are placed into houses and mini-houses. In their mini-houses, which consist of 12-14 students and 1 faculty/staff member, students learn rules, procedures, soft skills, communication skills, and more to be successful in the building and in the real world.

We meet with our incoming 6th-grade parents to discuss the transition to middle school and what they can expect, hoping to relieve any uncertainty they may have about the experience.

Students at North Ridge Middle also excel in a wide variety of extra-curricular activities that lend themselves to helping students grow academically and socially. Athletics and Fine Arts students typically demonstrate high levels of excellence and their programs do a lot to enhance the environment and to attribute to a positive esteem-building experience for our students.

We plan on meeting students' needs assessment-wise by focusing on master-level improvement in community relationships with Dads.

Our vision, mission, and beliefs guide the work at North Ridge Middle School. They embody our collective thoughts about valuing, serving, and cultivating our students.

## Perceptions Strengths

Students and teachers feel like they are safe when they enter the doors of North Ridge Middle School.

The stakeholders in our community are highly involved and visible which is a tremendous advantage that we embrace.

Students are well-behaved and take school seriously.

North Ridge Middle is highly structured and this helps translate to an environment that is conducive to positive and respectful behavior. NRMS also has created "The Ridge Way", a positive behavior team attended by teachers from each grade and department.

Continuous Improvement: Attendance and academic goal boards are in front of the school to promote positive growth in these areas. Throughout the building, our departments and individual classes promote and demonstrate progress by graphing and charting student and class growth based on common assessments.

C.O.R.E. values are evident throughout the building. In the main hall on display are the values as well as in every classroom. Each month NRMS teachers select worthy students who have demonstrated the C.O.R.E. value for the month. The students are acknowledged and rewarded.

### **Problem Statements Identifying Perceptions Needs**

**Problem Statement 1 (Prioritized):** Because of past success NRMS has become a school that has relaxed in communicating our cultural expectations. In efforts to improve this process we have adopted a new focus on Continuous Improvement, Literacy, and Culture. Each lends itself to new and improved ways to increase our cultural deficiencies.

**Root Cause:** Lack of communication with all stakeholders has impeded the communication of the expectations.

# Priority Problem Statements

**Problem Statement 1:** North Ridge Middle School observed a decline in the percentage of 7th grade students meeting the "approaches grade level" standard in Math.

**Root Cause 1:** The effectiveness of Professional Learning Communities (PLCs) was below expectations, impacting the support and strategies implemented to address student learning needs in Math.

# Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

## **Improvement Planning Data**

- District goals
- State and federal planning requirements

## **Accountability Data**

- Texas Academic Performance Report (TAPR) data
- Student Achievement Domain
- Student Progress Domain
- Closing the Gaps Domain
- Accountability Distinction Designations

## **Student Data: Assessments**

- State and federally required assessment information
- STAAR current and longitudinal results, including all versions
- STAAR End-of-Course current and longitudinal results, including all versions
- STAAR released test questions
- Observation Survey results
- Grades that measure student performance based on the TEKS

## **Student Data: Student Groups**

- Male / Female performance, progress, and participation data
- Special education/non-special education population including discipline, progress and participation data
- At-risk/non-at-risk population including performance, progress, discipline, attendance, and mobility data
- Dyslexia data
- Response to Intervention (RtI) student achievement data

## **Student Data: Behavior and Other Indicators**

- Attendance data
- Discipline records
- Student surveys and/or other feedback

## **Employee Data**

- Professional learning communities (PLC) data
- Staff surveys and/or other feedback
- Teacher/Student Ratio
- State certified and high quality staff data
- Campus leadership data
- Campus department and/or faculty meeting discussions and data

- Professional development needs assessment data
- Evaluation(s) of professional development implementation and impact

**Parent/Community Data**

- Parent surveys and/or other feedback
- Parent engagement rate

**Support Systems and Other Data**

- Organizational structure data
- Processes and procedures for teaching and learning, including program implementation
- Communications data
- Capacity and resources data
- Budgets/entitlements and expenditures data
- Study of best practices
- Action research results
- Other additional data

# Goals

**Goal 1:** All students will achieve their full potential by taking ownership of their learning and setting high academic goals.

**Performance Objective 1:** Improve performance in Domain 3 Closing the Gaps by making more than a year's growth in reading and mathematics which would in turn increase the number of students performing at the "meets" and "masters" level as measured by the spring 2026 STAAR and EOC assessments. This will also increase Domain 1 Student Achievement which counts the number of students at the various performance levels for state assessments.

**Evaluation Data Sources:** Renaissance STAR Assessments (grades 6-8 mathematics and grades 6-8 reading) and State Interim Assessments for EOC tested subjects Alignment to Strategic Plan,

**Summative Evaluation:** Significant progress made toward meeting Objective

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |  | Reviews   |     |     |           |

| <b>Problem Statement 1:</b> North Ridge Middle School observed a decline in the percentage of 7th grade students meeting the "approaches grade level" standard in Math. <b>Root Cause:</b> The effectiveness of Professional Learning Communities (PLCs) was below expectations, impacting the support and strategies implemented to address student learning needs in Math.                 |
| School Processes & Programs                                                                                                                                                                                                                                                                                                                                                                  |
| <b>Problem Statement 1:</b> New teachers struggle to utilize the many programs and platforms designed to promote efficiency within the teaching/learning process. <b>Root Cause:</b> Teacher turnover has led to gaps in teacher proficiency in online programs and platforms. To address this issue, NRMS has assigned mentor teachers to new teachers to assist with utilizing technology. |

## Perceptions

**Problem Statement 1:** Because of past success NRMS has become a school that has relaxed in communicating our cultural expectations. In efforts to improve this process we have adopted a new focus on Continuous Improvement, Literacy, and Culture. Each lends itself to new and improved ways to increase our cultural deficiencies. **Root Cause:** Lack of communication with all stakeholders has impeded the communication of the expectations.

**Goal 1:** All students will achieve their full potential by taking ownership of their learning and setting high academic goals.

**Performance Objective 2:** Increase the percentage of students approaching or meeting STAAR or ELL progress measures by 3 percentage points over 2024-25 across all applicable grade levels and subject areas.

**Evaluation Data Sources:** 2024-2025 STAAR Assessments

**Summative Evaluation:** Some progress made toward meeting Objective

**Performance Objective 3 Problem Statements:**

### Demographics

**Problem Statement 1:** North Ridge Middle School observed a decline in the percentage of 7th grade students meeting the "approaches grade level" standard in Math. **Root Cause:** The effectiveness of Professional Learning Communities (PLCs) was below expectations, impacting the support and strategies implemented to address student learning needs in Math.

### School Processes & Programs

**Problem Statement 1:** New teachers struggle to utilize the many programs and platforms designed to promote efficiency within the teaching/learning process. **Root Cause:** Teacher turnover has led to gaps in teacher proficiency in online programs and platforms. To address this issue, NRMS has assigned mentor teachers to new teachers to assist with utilizing technology.

### Perceptions

**Problem Statement 1:** Because of past success NRMS has become a school that has relaxed in communicating our cultural expectations. In efforts to improve this process we have adopted a new focus on Continuous Improvement, Literacy, and Culture. Each lends itself to new and improved ways to increase our cultural deficiencies. **Root Cause:** Lack of communication with all stakeholders has impeded the communication of the expectations.

**Goal 1:** All students will achieve their full potential by taking ownership of their learning and setting high academic goals.

**Performance Objective 4:** Increase the STAAR performance of 8th Grade Social Studies at the Meets Grade Level standard by 3 percentage points of the 2024-25 level.

- High Priority**
- Evaluation Data Sources:** 2024-2025 55% of our EB students approached in STAAR testing.
- Summative Evaluation:** Some progress made toward meeting Objective

| Demographics                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> North Ridge Middle School observed a decline in the percentage of 7th grade students meeting the "approaches grade level" standard in Math. <b>Root Cause:</b> The effectiveness of Professional Learning Communities (PLCs) was below expectations, impacting the support and strategies implemented to address student learning needs in Math.                                                                                   |
| School Processes & Programs                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| <b>Problem Statement 1:</b> New teachers struggle to utilize the many programs and platforms designed to promote efficiency within the teaching/learning process. <b>Root Cause:</b> Teacher turnover has led to gaps in teacher proficiency in online programs and platforms. To address this issue, NRMS has assigned mentor teachers to new teachers to assist with utilizing technology.                                                                   |
| Perceptions                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| <b>Problem Statement 1:</b> Because of past success NRMS has become a school that has relaxed in communicating our cultural expectations. In efforts to improve this process we have adopted a new focus on Continuous Improvement, Literacy, and Culture. Each lends itself to new and improved ways to increase our cultural deficiencies. <b>Root Cause:</b> Lack of communication with all stakeholders has impeded the communication of the expectations. |

**Goal 1:** All students will achieve their full potential by taking ownership of their learning and setting high academic goals.

**Performance Objective 5:** Increase English Proficiency Status measures set by the state for TELPAS

**Evaluation Data Sources:** The English Language Proficiency Status target measure set by the state for the TELPAS progress measure is 36%. In 2024-2025 North Ridge MS met the target with a TELPAS progress rate of 78%

**Goal 2:** All students and staff will demonstrate personal responsibility and integrity reflective of noble character by using their unique gifts and talents as productive members of the global community.

**Performance Objective 1:** By the end of the 2025-2026 school year, 100% of classrooms will develop mission statements that align to and support the portrait of a graduate.

**Evaluation Data Sources:** Campus survey data

**Summative Evaluation:** Significant progress made toward meeting Objective

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          | Reviews   |     |     |           |

**Performance Objective 1 Problem Statements:**

| Demographics                                                                                                                                                                                                                                                                                                                                                                 |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> North Ridge Middle School observed a decline in the percentage of 7th grade students meeting the "approaches grade level" standard in Math. <b>Root Cause:</b> The effectiveness of Professional Learning Communities (PLCs) was below expectations, impacting the support and strategies implemented to address student learning needs in Math. |

**School Processes & Programs**

**Problem Statement 1:** New teachers struggle to utilize the many programs and platforms designed to promote efficiency within the teaching/learning process. **Root Cause:** Teacher turnover has led to gaps in teacher proficiency in online programs and platforms. To address this issue, NRMS has assigned mentor teachers to new teachers to assist with utilizing technology.

**Perceptions**

**Problem Statement 1:** Because of past success NRMS has become a school that has relaxed in communicating our cultural expectations. In efforts to improve this process we have adopted a new focus on Continuous Improvement, Literacy, and Culture. Each lends itself to new and improved ways to increase our cultural deficiencies. **Root Cause:** Lack of communication with all stakeholders has impeded the communication of the expectations.

**Goal 2:** All students and staff will demonstrate personal responsibility and integrity reflective of noble character by using their unique gifts and talents as productive members of the global community.

**Performance Objective 2:** By the end of the 2025-2026 school year, every campus will establish goals for student, parent and community engagement (covers CaSE, schools of specialization)

- Evaluation Data Sources:** Campus survey data
- Summative Evaluation:** Significant progress made toward meeting Objective

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                | Reviews   |     |     |           |

**Performance Objective 3 Problem Statements:**

### Demographics

**Problem Statement 1:** North Ridge Middle School observed a decline in the percentage of 7th grade students meeting the "approaches grade level" standard in Math. **Root Cause:** The effectiveness of Professional Learning Communities (PLCs) was below expectations, impacting the support and strategies implemented to address student learning needs in Math.

### School Processes & Programs

**Problem Statement 1:** New teachers struggle to utilize the many programs and platforms designed to promote efficiency within the teaching/learning process. **Root Cause:** Teacher turnover has led to gaps in teacher proficiency in online programs and platforms. To address this issue, NRMS has assigned mentor teachers to new teachers to assist with utilizing technology.

### Perceptions

**Problem Statement 1:** Because of past success NRMS has become a school that has relaxed in communicating our cultural expectations. In efforts to improve this process we have adopted a new focus on Continuous Improvement, Literacy, and Culture. Each lends itself to new and improved ways to increase our cultural deficiencies. **Root Cause:** Lack of communication with all stakeholders has impeded the communication of the expectations.

**Goal 3:** All students and staff will learn and work in a safe and responsive environment.

**Performance Objective 1:** Reduce the amount of time students with behavioral/social-emotional concerns are removed from the regular classroom.

**Evaluation Data Sources:** Annual Report of Disciplinary Incidents:

**Summative Evaluation:** Some progress made toward meeting Objective

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 | Reviews   |     |     |           |

## Performance Objective 2 Problem Statements:

### Demographics

**Problem Statement 1:** North Ridge Middle School observed a decline in the percentage of 7th grade students meeting the "approaches grade level" standard in Math. **Root Cause:** The effectiveness of Professional Learning Communities (PLCs) was below expectations, impacting the support and strategies implemented to address student learning needs in Math.

### School Processes & Programs

**Problem Statement 1:** New teachers struggle to utilize the many programs and platforms designed to promote efficiency within the teaching/learning process. **Root Cause:** Teacher turnover has led to gaps in teacher proficiency in online programs and platforms. To address this issue, NRMS has assigned mentor teachers to new teachers to assist with utilizing technology.

### Perceptions

**Problem Statement 1:** Because of past success NRMS has become a school that has relaxed in communicating our cultural expectations. In efforts to improve this process we have adopted a new focus on Continuous Improvement, Literacy, and Culture. Each lends itself to new and improved ways to increase our cultural deficiencies. **Root Cause:** Lack of communication with all stakeholders has impeded the communication of the expectations.

# Comprehensive Needs Assessment

## Demographics

### Demographics Summary

O.H. Stowe Elementary School is located in Haltom City, Texas which is just northeast of downtown Fort Worth. We have approximately 675 students with 81% qualifying for Free/Reduced Lunch. Our student demographics are as follows: African American- 14%, American Indian-0.4%, Asian-7%, Hispanic-53%, White-21%, Two or More- 4%. Additionally, OHS has the following special population groups: Gifted and Talented 2.5%, Special Education 14%, ESL Students 34%, Mobility Rate 20%. We believe that having a positive and collaborative campus culture where everyone works together to do what is needed will help us meet the varied needs of our students. Stowe staff values collaboration and effective professional learning communities (PLC's). The faculty and staff place value on knowing our students and designing engaging work that meets their needs. Our teachers pay attention to all content areas but give additional attention to reading, math, science, social studies, and writing. Student performance data on TEKS objectives are analyzed and used to guide instruction. Individual data based on the TEKS is used to design specific intervention plans to meet the needs of our students.

### Demographics Strengths

The diversity at OHS is a strength due to our ability to learn from each other and value different ways of thinking to become global learners. The staff works to identify the individual needs of each student and develop educational plans that improve the student's learning experience. Additionally, due to our students' experiences, our staff is able to draw from a variety of life lessons which enhances the learning platform. Families share that they love our campus and how included they feel in their child's educational experience. Stowe has many families that take pride in the fact that they have had generations attend the school.

### Problem Statements Identifying Demographics Needs

**Problem Statement 1 (Prioritized):** Our ADA is 94.6% and the district goal is 96%.

**Root Cause:** We need to continue to communicate to parents how important daily attendance is. We have and will continue to utilize our district's Tribunal process as well as the campus processes we have created along with our Attendance Truancy Officer.

# Student Learning

## Student Learning Summary

OH Stowe works to provide a learning environment that is focused on the growth and development of the whole child. In addition to academic resources, Stowe has seen the need to provide a full-time second assistant principal and counselor to the campus. The counselor serves as a Crisis Intervention Counselor.

As a campus, 75% of students are considered Tier II or Tier III in reading and/or mathematics. Based on the 2025 STAAR data, Stowe saw significant growth in all grade levels in all subjects in English from 2024-2025. In Spanish however, we only saw pockets of growth in math and science from the previous year. Stowe still is performing below the district average in reading and math, with the exception of 4th grade math. Students in Kindergarten through 2nd grade are working to get to on grade level before entering 3rd grade. In 3rd-5th grade, students are working to make at least one year's growth in reading and math.

This year O.H. Stowe is not identified for having any targeted support and improvement areas. However we will be closely watching our Special Education demographic to ensure that student growth is occurring. We will also continue to have our efforts focused in the area of student achievement so that our percentage for meeting academic achievement is improving.

### Student Learning Strengths

We have made giant gains last year moving from a D to a B in our overall rating. We also have made an increase in every grade in every subject level from the previous year. Sometimes growing in as much as 17 points in Reading and 25 points in Math. We have worked to closely align our TEKS to the work we are doing in the classroom. We also have realized how important vocabulary and questioning are in our work.

### **Problem Statements Identifying Student Learning Needs**

**Problem Statement 1 (Prioritized):** Current STAAR Reading data shows that we are performing below the district average in all grade levels.

**Root Cause:** Tier I instruction, specifically small group guided reading needs to be implemented with fidelity and teachers need to provide intervention in the instructional setting.

**Problem Statement 2 (Prioritized):** STAAR Math data shows that we are performing below the district average in all grade levels.

**Root Cause:** Tier I instruction, specifically small group math groups and higher level thinking skills and questioning need to be implemented with fidelity and teachers need to provide intervention in the instructional setting.

# School Processes & Programs

## School Processes & Programs Summary

Students at Stowe are served by a number of specialized programs related to student need. 74% of students are served by the free/reduced price lunch program, (BISD 58%) and 33% of students are English Learners (ELs), (BISD 20%) served by bilingual or English as a second language (EB) programs. Currently, 17% of students are served through special education, (BISD 10%).

The academic RtI/MTSS program serves students in grades K through 5 in both reading and mathematics. Students are identified for tiered intervention services using data from universal screeners administered three times each year and through consideration of other performance evidence by a collaborative conference committee. The specific services provided for students on Tiers 2 and 3 are outlined in the district MTSS Manual, which is updated annually to reflect programmatic changes in screening assessments and interventions. The campus houses three certified reading interventionists, three educational assistants, and one MTSS Specialist who works with teachers in order to develop quality intervention in the classroom setting.

Performance data suggest that the RtI program has been moderately successful in moving students off of tiered interventions, there remains too large of a proportion of students served on Tier 3, which is based in part on universal screener performance below the 10th percentile nationally.

## School Processes & Programs Strengths

The Stowe staff has a commitment to be creative in how to serve each student. The campus did a deep dive into Professional Learning Communities (PLCs) in order to align the decision-making process for enrichment, intervention, and behavior needs. The campus also uses highly qualified tutors to come in and support our intervention process. We have refocused our efforts on the foundational pieces that make a successful campus and are implementing Capturing Kids' Hearts and Continuous Improvement Processes at a high level.

## Problem Statements Identifying School Processes & Programs Needs

**Problem Statement 1 (Prioritized):** At Stowe Elementary, a significant proportion of students remain on Tier 3 interventions in reading and math, indicating that current instructional and intervention practices are not consistently meeting the needs of all learners. Despite available support programs, too many students continue to perform below the 10th percentile nationally on universal screeners

**Root Cause:** High levels of student need--including elevated percentages of students qualifying for free/reduced lunch, English Learners, and students served by special education--combined with inconsistent alignment between core instruction and targeted interventions, contribute to ongoing gaps in performance.

**Problem Statement 2 (Prioritized):** Our campus struggles to maintain a positive climate and culture due to high student needs, socioeconomic barriers, and frequent behavioral challenges. These factors negatively affect staff morale, student engagement, and teacher retention

**Root Cause:** Last year we began to implement a consistent relationship-building systems and create opportunities for students and staff to develop a shared sense of pride and belonging hinder a unified, joyful school culture. We need to keep these processes going and continue to use the EXCEL model.

# Perceptions

## Perceptions Summary

Stowe plans to increase the amount of data collected on a regular basis from students, parents and staff regarding their perceptions of campus programs, processes, and procedures. We will continue to collect perception data on school safety issues.

Data collected last year states that 81% of students report they consider the campus safe and orderly. 74% of parents reported that they felt the campus was safe and orderly.

Community Outreach - Stowe maintains relationships with community organizations that support our weekend food backpack program, a mobile food pantry, holiday food provisions for families, school supplies, volunteers and tutors. All campus communication is in both English and Spanish. When available, communication is done through Blackboard so that the information can be translated into the native language of parents.

## Perceptions Strengths

Stowe maintains relationships with community organizations that support our weekend food backpack program, a mobile food pantry, holiday food provisions for families, school supplies, volunteers and tutors. All campus communication is in both English and Spanish.

Families feel welcomed to participate in their child's educational experience.

The campus is perceived to be an overall safe and orderly place to send your child.

## Problem Statements Identifying Perceptions Needs

**Problem Statement 1 (Prioritized):** While the majority of students (85%) and parents (74%) report that Stowe Elementary is a safe and orderly campus, perception data reveals room for growth in strengthening parent and student confidence in campus programs, processes, and procedures. Additionally, current data collection methods provide only a limited picture of stakeholder perceptions, making it difficult to identify and address spe

**Root Cause:** Perception data is not gathered consistently or in sufficient detail across all stakeholder groups. While safety is monitored, there is less structured collection of feedback regarding other areas such as instructional support, communication effectiveness, and campus culture. As a result, opportunities to engage families and staff more deeply in continuous improvement may be missed

# Priority Problem Statements

**Problem Statement 1:** At Stowe Elementary, a significant proportion of students remain on Tier 3 interventions in reading and math, indicating that current instructional and intervention practices are not consistently meeting the needs of all learners. Despite available support programs, too many students continue to perform below the 10th percentile nationally on universal screeners

**Root Cause 1:**

High levels of student need--including elevated percentages of students qualifying for free/reduced lunch, English Learners, and students served by special education--combined with inconsistent alignment between core instruction and targeted interventions, contribute to ongoing gaps in performance.

**Problem Statement 1 Areas:** School Processes & Programs

**Problem Statement 2:** STAAR Math data shows that we are performing below the district average in all grade levels.

**Root Cause 2:** Tier I instruction, specifically small group math groups and higher level thinking skills and questioning need to be implemented with fidelity and teachers need to provide intervention in the instructional setting.

**Problem Statement 2 Areas:** Student Learning

**Problem Statement 3:** Current STAAR Reading data shows that we are performing below the district average in all grade levels.

**Root Cause 3:** Tier I instruction, specifically small group guided reading needs to be implemented with fidelity and teachers need to provide intervention in the instructional setting.

**Problem Statement 3 Areas:** Student Learning

**Problem Statement 4:** Our ADA is 94.6% and the district goal is 96%.

**Root Cause 4:** We need to continue to communicate to parents how important daily attendance is. We have and will continue to utilize our district's Tribunal process as well as the campus processes we have created along with our Attendance Truancy Officer.

**Problem Statement 4 Areas:** Demographics

**Problem Statement 5:** While the majority of students (85%) and parents (74%) report that Stowe Elementary is a safe and orderly campus, perception data reveals room for growth in strengthening parent and student confidence in campus programs, processes, and procedures. Additionally, current data collection methods provide only a limited picture of stakeholder perceptions, making it difficult to identify and address spe

**Root Cause 5:** Perception data is not gathered consistently or in sufficient detail across all stakeholder groups. While safety is monitored, there is less structured collection of feedback regarding other areas such as instructional support, communication effectiveness, and campus culture. As a result, opportunities to engage families and staff more deeply in continuous improvement may be missed

**Problem Statement 5 Areas:** Perceptions

**Problem Statement 6:** Our campus struggles to maintain a positive climate and culture due to high student needs, socioeconomic barriers, and frequent behavioral challenges. These factors negatively affect staff morale, student engagement, and teacher retention

**Root Cause 6:** Last year we began to implement a consistent relationship-building systems and create opportunities for students and staff to develop a shared sense of pride and

belonging hinder a unified, joyful school culture. We need to keep these processes going and continue to use the EXCEL model.

**Problem Statement 6 Areas:** School Processes & Programs

# Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

## **Improvement Planning Data**

- District goals
- Campus goals
- State and federal planning requirements

## **Accountability Data**

- Student Achievement Domain
- Student Progress Domain
- Closing the Gaps Domain
- Accountability Distinction Designations
- Federal Report Card and accountability data

## **Student Data: Assessments**

- STAAR current and longitudinal results, including all versions
- Texas English Language Proficiency Assessment System (TELPAS) and TELPAS Alternate results
- Other PreK - 2nd grade assessment data

## **Student Data: Student Groups**

- Economically disadvantaged / Non-economically disadvantaged performance and participation data
- Special education/non-special education population including discipline, progress and participation data
- Section 504 data

## **Student Data: Behavior and Other Indicators**

- Attendance data
- Discipline records

## **Employee Data**

- Staff surveys and/or other feedback

## **Parent/Community Data**

- Parent surveys and/or other feedback

# Goals

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 1:** All students will make at least one year's progress in reading and mathematics by the end of school year. a) Meet the progress monitoring targets in Prekindergarten - 3rd for each demographic group as measured by district approved screeners (BOY, MOY and EOY) to achieve the HB3 Board Goals. b) Improve performance in Domain 3 Closing the Gaps by making more than a year's growth in reading and mathematics which would in turn increase the number of students performing at the "meets" and "masters" level as measured by the spring 2026 STAAR and EOC assessments. This will also increase Domain 1 Student Achievement which counts the number of students at the various performance levels for state assessments.

**High Priority**

**HB3 Goal**

**Evaluation Data Sources:** CLI Engage - CIRCLE (prekindergarten reading and math), mCLASS (kindergarten reading and math), mCLASS (grades 1-2 reading and K math), and Renaissance STAR Assessments (reading, grades 1-5 and mathematics, grades 1-5)

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                | Reviews   |     |     |           |

### Performance Objective 1 Problem Statements:

### Student Learning

**Problem Statement 1:** Current STAAR Reading data shows that we are performing below the district average in all grade levels. **Root Cause:** Tier I instruction, specifically small group guided reading needs to be implemented with fidelity and teachers need to provide intervention in the instructional setting.

**Problem Statement 2:** STAAR Math data shows that we are performing below the district average in all grade levels. **Root Cause:** Tier I instruction, specifically small group math groups and higher level thinking skills and questioning need to be implemented with fidelity and teachers need to provide intervention in the instructional setting.

### School Processes & Programs

**Problem Statement 1:** At Stowe Elementary, a significant proportion of students remain on Tier 3 interventions in reading and math, indicating that current instructional and intervention practices are not consistently meeting the needs of all learners. Despite available support programs, too many students continue to perform below the 10th percentile nationally on universal screeners **Root Cause:** High levels of student need--including elevated percentages of students qualifying for free/reduced lunch, English Learners, and students served by special education--combined with inconsistent alignment between core instruction and targeted interventions, contribute to ongoing gaps in performance.

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 2:** Close achievement gaps that exist for all under-performing student groups as measured by state and district assessments. Ensure all student groups PK-5 meet all progress monitoring targets for grades prekindergarten - 3rd in reading and mathematics for identified student groups as measured by a district-approved monitoring instrument.

| <b>Strategy 2:</b> Build teacher and leader capacity to use data effectively for instructional planning, interventions, and monitoring progress of underperforming student groups.<br><b>Actions:</b> a) Teachers will engage in ongoing PD on using data (universal screeners, STAAR, TELPAS, STAR Ren, formative assessments) to inform instruction and track student growth.<br>b) Grade-level PLCs will include regular review of subgroup performance, focusing on adjusting core instruction and intervention practices.<br>c) Instructional coaches will provide job-embedded support by modeling data-driven instructional strategies and guiding teachers in differentiating for EB and SPED students.<br>d) Teachers will design and implement lesson plans that include targeted vocabulary, questioning, and scaffolds to close academic language gaps for emergent bilinguals and struggling learners.<br><b>Staff Responsible for Monitoring:</b> Principal , Assistant Principals and Instructional Coach<br><br><b>Problem Statements:</b> Student Learning 1, 2 - School Processes & Programs 1                                                                                                                                                                                                                    | Formative |     |     | Summative |

| <b>Strategy 3:</b> Reinforce and strengthen the consistent use of the PDSA (Plan-Do-Study-Act) process in classrooms and PLCs to improve instruction, monitor student learning, and accelerate growth for all student groups.<br><b>Actions:</b> a) Teachers will engage in ongoing training and coaching on the PDSA process, applying it directly to lesson planning, classroom instruction, and intervention cycles.<br>b) Grade-level PLCs will implement PDSA cycles regularly, using formative assessments and progress monitoring data to adjust instruction and track student outcomes.<br>c) Instructional coaches and administrators will provide feedback during PLCs and classroom walkthroughs on how effectively teachers are implementing the PDSA cycle.<br>d) Teachers will maintain student-friendly data folders or tracking tools so students can set goals, monitor their own progress, and take ownership of their learning.<br>e) Exemplary use of PDSA cycles (e.g., effective goal setting, data tracking, or rapid-response instructional adjustments) will be highlighted in PLCs and staff meetings to share best practices across the campus.<br><b>Staff Responsible for Monitoring:</b> Campus Administrators, Instructional Coaches<br><br><b>Problem Statements:</b> School Processes & Programs 1 | Formative |     |     | Summative |
|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     | Nov       | Jan | Mar | June      |
|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |           |     |     |           |
| <div>  No Progress  Accomplished  Continue/Modify  Discontinue </div>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |           |     |     |           |

### Performance Objective 2 Problem Statements:

| Student Learning                                                                                                                                                                                                                                                                                                                 |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> Current STAAR Reading data shows that we are performing below the district average in all grade levels. <b>Root Cause:</b> Tier I instruction, specifically small group guided reading needs to be implemented with fidelity and teachers need to provide intervention in the instructional setting. |

### Student Learning

**Problem Statement 2:** STAAR Math data shows that we are performing below the district average in all grade levels. **Root Cause:** Tier I instruction, specifically small group math groups and higher level thinking skills and questioning need to be implemented with fidelity and teachers need to provide intervention in the instructional setting.

### School Processes & Programs

**Problem Statement 1:** At Stowe Elementary, a significant proportion of students remain on Tier 3 interventions in reading and math, indicating that current instructional and intervention practices are not consistently meeting the needs of all learners. Despite available support programs, too many students continue to perform below the 10th percentile nationally on universal screeners **Root Cause:** High levels of student need--including elevated percentages of students qualifying for free/reduced lunch, English Learners, and students served by special education--combined with inconsistent alignment between core instruction and targeted interventions, contribute to ongoing gaps in performance.

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 3:** Reduce the number of students assigned to Tier 2 and Tier 3 Behavior RtI/MTSS

**Evaluation Data Sources:** referral data; classroom walk-through data; students on Behavior RtI list; counselor guidance lessons; counselor caseload; number of SEL groups; number of counseling groups

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   | Reviews   |     |     |           |

**Performance Objective 3 Problem Statements:**

| School Processes & Programs                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 2:</b> Our campus struggles to maintain a positive climate and culture due to high student needs, socioeconomic barriers, and frequent behavioral challenges. These factors negatively affect staff morale, student engagement, and teacher retention <b>Root Cause:</b> Last year we began to implement a consistent relationship-building systems and create opportunities for students and staff to develop a shared sense of pride and belonging hinder a unified, joyful school culture. We need to keep these processes going and continue to use the EXCEL model. |

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 4:** Students will display an awareness of social-emotional development.

#### Performance Objective 4 Problem Statements:

##### School Processes & Programs

**Problem Statement 2:** Our campus struggles to maintain a positive climate and culture due to high student needs, socioeconomic barriers, and frequent behavioral challenges. These factors negatively affect staff morale, student engagement, and teacher retention. **Root Cause:** Last year we began to implement a consistent relationship-building systems and create opportunities for students and staff to develop a shared sense of pride and belonging hinder a unified, joyful school culture. We need to keep these processes going and continue to use the EXCEL model.

**Goal 2:** The system will utilize efficient and effective operations to support and improve the learning organization.

**Performance Objective 1:** Increase the annual total average daily attendance (ADA) as compared to the prior school year through improved student retention and days in attendance.

**Evaluation Data Sources:** attendance, truancy, absentee numbers

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 | Reviews   |     |     |           |

| <b>Problem Statement 2:</b> Our campus struggles to maintain a positive climate and culture due to high student needs, socioeconomic barriers, and frequent behavioral challenges. These factors negatively affect staff morale, student engagement, and teacher retention <b>Root Cause:</b> Last year we began to implement a consistent relationship-building systems and create opportunities for students and staff to develop a shared sense of pride and belonging hinder a unified, joyful school culture. We need to keep these processes going and continue to use the EXCEL model. |

**Goal 3:** All students and staff will learn and work in a safe and responsive environment.

**Performance Objective 1:** All students and staff will learn and work in a safe and responsive environment.

**Evaluation Data Sources:** safety survey data

**Performance Objective 1 Problem Statements:**

| Perceptions                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> While the majority of students (85%) and parents (74%) report that Stowe Elementary is a safe and orderly campus, perception data reveals room for growth in strengthening parent and student confidence in campus programs, processes, and procedures. Additionally, current data collection methods provide only a limited picture of stakeholder perceptions, making it difficult to identify and address spe <b>Root Cause:</b> Perception data is not gathered consistently or in sufficient detail across all stakeholder groups. While safety is monitored, there is less structured collection of feedback regarding other areas such as instructional support, communication effectiveness, and campus culture. As a result, opportunities to engage families and staff more deeply in continuous improvement may be missed |

**Goal 3:** All students and staff will learn and work in a safe and responsive environment.

**Performance Objective 2:** Reduce the cost of accidents resulting in workers' compensation claims by 10% over the previous year and reduce the number of work days lost each year due to accidents occurring on the job by 10%

**Evaluation Data Sources:** Workers' Comp Data

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       | Reviews   |     |     |           |

# Mission Statement

*Through cooperative efforts with the community, Richland High School's programs of instruction not only promote self-confidence, creativity, scholarship, and citizenship, but also provide skills for an ever-changing world. BISD and Richland High School support the diversity of our students, staff and community.*

## Vision

**Excellence isn't the goal, it's the expectation!**

# Comprehensive Needs Assessment

## Demographics

### Demographics Summary

The student population at Richland High School has continued to change significantly over the last five years both ethnically and socio-economically. There has been an increase in Hispanic population has shown the greatest increase and now represents over 35% of our student population and that increase brings additional students classified as Emergent Bilingual.

The percentage of our students classified as economically disadvantaged has grown to 48%.

Our At-Risk percentage has risen to 39%.

Our SpED population currently sits at 9.2%.

These changes have caused us to provide more training to our staff on how to more effectively reach our ever-changing population.

More focus and systems need to be put in place for our SpEd (Special Education) and EB (Emergent Bilingual) populations.

Student Diversity

## Demographics Strengths

Richland High School has a great mix of demographics both in race and in socio-economic status. This mix brings a variety of viewpoints and experiences. While some schools are isolated bubbles within Birdville ISD (BISD), based on our demographic makeup, it is evident that Richland HS represents the overall BISD community. This allows our teachers and students to experience deeper conversations from several viewpoints.

## Problem Statements Identifying Demographics Needs

**Problem Statement 1 (Prioritized):** Richland High School has experienced a fast change in our demographics and we want to ensure that those students needs are being addressed. We need to adjust our teaching to the students we have.

**Root Cause:** A rapid change in demographics at Richland High School could be due to economic shifts, new housing developments, increased immigration, or changes in community services affecting local population movement.

# Student Learning

## Student Learning Summary

Much attention was given to End-of-Course (EOC) scores during the 23-24 school year. RHS was trending in the wrong direction with regard to "meets" and "approaches" in previous years. The results from the 23-24 state testing indicated that our efforts paid off as we saw increases in Biology and English 2 in approaches. We saw an increase in Biology and English 2 in meets grade level performance. We additionally saw an increase in Algebra 1, English 1, and English 2 in masters grade level performance.

The 24-25 school year will see a focus on bringing up the "Mastery" level across the board. Based on current data, the indicators point to the fact that we are teaching the subject matter well, but need to increase the rigor and depth of our courses.

Furthermore, RHS did very well in regard to AP (Advanced Placement) testing, scoring above the national average in most areas. Work still needs to be done in some AP subjects such as Foreign languages and chemistry.

## Student Learning Strengths

Strong systems and processes regarding classroom expectations were put in place during the 23-24 school year. We feel the work done during this year were a driving force behind the increase of student success at Richland High School.

AP tests were given district-wide face-to-face allowing for a consistent testing environment for all students.

Campus-wide focus on best practices for classroom instruction will provide needed consistency and support for instruction. Utilizing processes that were working prior to the pandemic and strengthening direct instruction with campus-identified areas for targets that include:

- Plan, DO, Study, Act
- Data collection and goal setting by students: data binders
- Literacy strategies for every content
- PLC process

## Problem Statements Identifying Student Learning Needs

**Problem Statement 1 (Prioritized):** While test scores and student performance greatly increased during the 23-24 year, students performed at the basic level. We need to increase rigor and depth in all subjects by maintaining the systems and procedures we put in place last year, as well as a more detailed focus on student data throughout the year.

**Root Cause:** Lack of process and systems.

### **Problem Statement 2 (Prioritized):**

Richland High School's CCMR score of 65 is low because too few students are meeting readiness indicators such as college exams, dual credit/AP, or industry-based certifications.

**Root Cause:** Students have limited access, awareness, and support to successfully complete college entrance exams, dual credit/AP courses, and industry-based certifications, resulting in fewer students meeting CCMR benchmarks.

# School Processes & Programs

## School Processes & Programs Summary

Developing campus-wide systems and processes for just about everything was the main work our campus focused on during the 22-23 school year. The campus lacked systems in certain areas that needed to be created from the ground up. Furthermore, the systems that we did have were not being monitored closely to see if staff, students, and teachers were following those systems and not operating as independent contractors within our organization.

We have created systems for almost everything and our campus is now running as one unit. Work will need to be done to monitor and adjust these systems as we discover what does and does not work. This will allow us to focus on Tier 1 priorities within the classrooms during the 23-24 and 24-25 school year.

One system we started was a campus-wide system to look at and use student and campus data on an ongoing basis. This year we will focus on breaking that data down to use throughout the year so that we can identify and fix issues (Example - gaps in student learning) before they become larger or go unnoticed.

## School Processes & Programs Strengths

Advanced Placement (AP) program options remain a strong offering at RHS with increased success with qualifying scores for the 2023-24 school year. However, the number of students enrolling in those classes continues to decline and we are addressing that by hitting it in the 8th grade and freshman years.

CTE options allow for students to be transported each period to the BCTAL along with CTE options at RHS. These options are available to any student at RHS.

The Royal Time Advisory are now using Character Strong curriculum to guide students and teachers through SEL lessons. In addition, Royal Time is now being used to address AI and some RTI needs.

Students and teachers are publicly recognized for positive influences and student achievement. We have awards assemblies for students throughout the year.

2024 Graduation Rate is 99% and all measurable domains were met in Domain III for STAAR Accountability measures.

Teacher and Student safety surveys are administered.

## Problem Statements Identifying School Processes & Programs Needs

**Problem Statement 1 (Prioritized):** We need to identify why the areas that we are seeing a downward trend in continue to move that direction. Is it our failure to respond to the changing demographics? Covid hangover? lack of strong systems and structures?

**Root Cause:** Data analysis has not been done to determine what issue is.

# Perceptions

## Perceptions Summary

The 23-24 school year was a year focused on changing the culture of RHS. Based on student surveys and staff surveys including the OHI (Organizational Health Index) large gains were made. One indication of growth can be seen in the increase in numbers of students are getting involved in multiple student organizations. Our tennis, drill team, and cheer programs have all increased in size. Furthermore, attendance at campus events has greatly increased across the board.

The overall perception of RHS is starting to change in a positive direction throughout the community in terms of culture and academic performance.

## Perceptions Strengths

Richland High School has strong community support and the expectations for this campus remain high - they want to see Richland be successful in all areas. While the recent change in the mascot and other areas of the school has caused a loss of identity, the core of RHS is still strong and something to build upon as we rebrand ourselves.

There is a campus expectation of contacting parents for positive reinforcement.

Social media is used to communicate school news and accomplishments.

## Problem Statements Identifying Perceptions Needs

**Problem Statement 1 (Prioritized):** Richland High School has experienced a fast change in our demographics and we want to ensure that those students needs are being addressed. We need to adjust our teaching to the students we have.

**Root Cause:** A rapid change in demographics at Richland High School could be due to economic shifts, new housing developments, increased immigration, or changes in community services affecting local population movement.

# Priority Problem Statements

**Problem Statement 1:** Richland High School's CCMR score of 65 is low because too few students are meeting readiness indicators such as college exams, dual credit/AP, or industry-based certifications.

**Root Cause 1:** Students have limited access, awareness, and support to successfully complete college entrance exams, dual credit/AP courses, and industry-based certifications, resulting in fewer students meeting CCMR benchmarks.

**Problem Statement 1 Areas:** Student Achievement - Student Learning

**Problem Statement 2:** While test scores and student performance greatly increased during the 23-24 year, students performed at the basic level. We need to increase rigor and depth in all subjects by maintaining the systems and procedures we put in place last year, as well as a more detailed focus on student data throughout the year.

**Root Cause 2:** Lack of process and systems.

**Problem Statement 2 Areas:** Student Learning

**Problem Statement 3:** Richland High School has experienced a fast change in our demographics and we want to ensure that those students needs are being addressed. We need to adjust our teaching to the students we have.

**Root Cause 3:** A rapid change in demographics at Richland High School could be due to economic shifts, new housing developments, increased immigration, or changes in community services affecting local population movement.

**Problem Statement 3 Areas:** Demographics - Perceptions

**Problem Statement 4:** We need to identify why the areas that we are seeing a downward trend in continue to move that direction. Is it our failure to respond to the changing demographics? Covid hangover? lack of strong systems and structures?

**Root Cause 4:** Data analysis has not been done to determine what issue is.

**Problem Statement 4 Areas:** Demographics - School Processes & Programs

# Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

## Improvement Planning Data

- District goals
- Campus goals
- HB3 CCMR goals
- Performance Objectives with summative review (prior year)
- Campus/District improvement plans (current and prior years)
- Planning and decision making committee(s) meeting data

## Accountability Data

- Texas Academic Performance Report (TAPR) data
- Student Achievement Domain
- Student Progress Domain
- Closing the Gaps Domain
- Accountability Distinction Designations
- Federal Report Card and accountability data

## Student Data: Assessments

- State and federally required assessment information
- STAAR End-of-Course current and longitudinal results, including all versions
- STAAR released test questions
- Postsecondary college, career or military-ready graduates including enlisting in U. S. armed services, earning an industry based certification, earning an associate degree, graduating with completed IEP and workforce readiness
- Advanced Placement (AP) and/or International Baccalaureate (IB) assessment data
- SAT and/or ACT assessment data
- PSAT
- Student failure and/or retention rates
- Local benchmark or common assessments data
- Observation Survey results
- State-developed online interim assessments
- Grades that measure student performance based on the TEKS

## Student Data: Student Groups

- Race and ethnicity data, including number of students, academic achievement, discipline, attendance, and rates of progress between groups
- Special programs data, including number of students, academic achievement, discipline, attendance, and rates of progress for each student group
- Economically disadvantaged / Non-economically disadvantaged performance and participation data
- Special education/non-special education population including discipline, progress and participation data
- Emergent Bilingual (EB) /non-EB data, including academic achievement, progress, support and accommodation needs, race, ethnicity, gender etc.
- Career and Technical Education (CTE) Programs of Study data including completer, concentrator, explorer, participant, and non-participant achievements by race, ethnicity,

- gender, etc.
- Section 504 data
- Homeless data
- Dual-credit and/or college prep course completion data
- STEM and/or STEAM data

#### **Student Data: Behavior and Other Indicators**

- Completion rates and/or graduation rates data
- Attendance data
- Discipline records
- Violence and/or violence prevention records
- Student surveys and/or other feedback
- School safety data
- Enrollment trends

#### **Employee Data**

- Professional learning communities (PLC) data
- Staff surveys and/or other feedback
- Campus department and/or faculty meeting discussions and data
- Professional development needs assessment data
- T-TESS data
- T-PESS data

#### **Parent/Community Data**

- Parent surveys and/or other feedback
- Community surveys and/or other feedback

#### **Support Systems and Other Data**

- Organizational structure data
- Processes and procedures for teaching and learning, including program implementation
- Communications data
- Budgets/entitlements and expenditures data

# Goals

**Goal 1:** Goal 1: Students will achieve their full potential through a system that is responsive to the academic, social and emotional needs of the student.

**Performance Objective 1:** Improve performance in Domain 3 Closing the Gaps by making more than a year's growth in reading and mathematics which would in turn increase the number of students performing at the "meets" and "masters" level as measured by the spring 2026 STAAR and EOC assessments. This will also increase Domain 1 Student Achievement which counts the number of students at the various performance levels for state assessments

**Evaluation Data Sources:** Secondary: Lexile levels from STAAR

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           | Reviews   |     |     |           |

### Performance Objective 1 Problem Statements:

#### Demographics

**Problem Statement 1:** Richland High School has experienced a fast change in our demographics and we want to ensure that those students needs are being addressed. We need to adjust our teaching to the students we have. **Root Cause:** A rapid change in demographics at Richland High School could be due to economic shifts, new housing developments, increased immigration, or changes in community services affecting local population movement.

#### Student Learning

**Problem Statement 1:** While test scores and student performance greatly increased during the 23-24 year, students performed at the basic level. We need to increase rigor and depth in all subjects by maintaining the systems and procedures we put in place last year, as well as a more detailed focus on student data throughout the year. **Root Cause:** Lack of process and systems.

#### Perceptions

**Problem Statement 1:** Richland High School has experienced a fast change in our demographics and we want to ensure that those students needs are being addressed. We need to adjust our teaching to the students we have. **Root Cause:** A rapid change in demographics at Richland High School could be due to economic shifts, new housing developments, increased immigration, or changes in community services affecting local population movement.

**Goal 1:** Goal 1: Students will achieve their full potential through a system that is responsive to the academic, social and emotional needs of the student.

**Performance Objective 2:** Close achievement gaps that exist for all under-performing groups as measured by STAAR, DCA, and district CBA assessments.

**Evaluation Data Sources:** STAAR, DCA, and CBA results

| <b>Problem Statement 1:</b> Richland High School has experienced a fast change in our demographics and we want to ensure that those students needs are being addressed. We need to adjust our teaching to the students we have. <b>Root Cause:</b> A rapid change in demographics at Richland High School could be due to economic shifts, new housing developments, increased immigration, or changes in community services affecting local population movement. |
| Student Learning                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| <b>Problem Statement 1:</b> While test scores and student performance greatly increased during the 23-24 year, students performed at the basic level. We need to increase rigor and depth in all subjects by maintaining the systems and procedures we put in place last year, as well as a more detailed focus on student data throughout the year. <b>Root Cause:</b> Lack of process and systems.                                                              |
| School Processes & Programs                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| <b>Problem Statement 1:</b> We need to identify why the areas that we are seeing a downward trend in continue to move that direction. Is it our failure to respond to the changing demographics? Covid hangover? lack of strong systems and structures? <b>Root Cause:</b> Data analysis has not been done to determine what issue is.                                                                                                                            |

## Perceptions

**Problem Statement 1:** Richland High School has experienced a fast change in our demographics and we want to ensure that those students needs are being addressed. We need to adjust our teaching to the students we have. **Root Cause:** A rapid change in demographics at Richland High School could be due to economic shifts, new housing developments, increased immigration, or changes in community services affecting local population movement.

**Goal 1:** Goal 1: Students will achieve their full potential through a system that is responsive to the academic, social and emotional needs of the student.

**Performance Objective 3:** Students will display dispositions indicative of high levels of social-emotional development as measured by a campus administered survey of student perceptions.

**Evaluation Data Sources:** Character Strong Lessons and Character Dares

**Goal 1:** Goal 1: Students will achieve their full potential through a system that is responsive to the academic, social and emotional needs of the student.

**Performance Objective 4:** Reduce the number of students assigned to behavior RtI tiers 2 and 3.

**Evaluation Data Sources:** Student Discipline Referrals and DAEP Placements

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         | Reviews   |     |     |           |

### Performance Objective 4 Problem Statements:

| School Processes & Programs                                                                                                                                                                                                                                                                                                            |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> We need to identify why the areas that we are seeing a downward trend in continue to move that direction. Is it our failure to respond to the changing demographics? Covid hangover? lack of strong systems and structures? <b>Root Cause:</b> Data analysis has not been done to determine what issue is. |

**Goal 1:** Goal 1: Students will achieve their full potential through a system that is responsive to the academic, social and emotional needs of the student.

**Performance Objective 5:** Improving our CCMR goal.

| Strategy 1 Details                                                                                                                               | Reviews   |     |     |           |

**Performance Objective 5 Problem Statements:**

| Student Learning                                                                                                                                                                                                                                                                                                                                                                                                                         |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Problem Statement 2: Richland High School's CCMR score of 65 is low because too few students are meeting readiness indicators such as college exams, dual credit/AP, or industry-based certifications. Root Cause: Students have limited access, awareness, and support to successfully complete college entrance exams, dual credit/AP courses, and industry-based certifications, resulting in fewer students meeting CCMR benchmarks. |

**Goal 2:** The system will utilize efficient and effective operations to support and improve the learning organization.

**Performance Objective 1:** Increase the annual total average daily attendance (ADA) as compared to the prior school year, through improved student retention, recruitment, and days in attendance. Our goal is 96%.

**Evaluation Data Sources:** Attendance Data

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            | Reviews   |     |     |           |

### Performance Objective 1 Problem Statements:

| Demographics                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> Richland High School has experienced a fast change in our demographics and we want to ensure that those students needs are being addressed. We need to adjust our teaching to the students we have. <b>Root Cause:</b> A rapid change in demographics at Richland High School could be due to economic shifts, new housing developments, increased immigration, or changes in community services affecting local population movement. |
| Student Learning                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| <b>Problem Statement 1:</b> While test scores and student performance greatly increased during the 23-24 year, students performed at the basic level. We need to increase rigor and depth in all subjects by maintaining the systems and procedures we put in place last year, as well as a more detailed focus on student data throughout the year. <b>Root Cause:</b> Lack of process and systems.                                                              |
| Perceptions                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

| <b>Problem Statement 1:</b> Richland High School has experienced a fast change in our demographics and we want to ensure that those students needs are being addressed. We need to adjust our teaching to the students we have. <b>Root Cause:</b> A rapid change in demographics at Richland High School could be due to economic shifts, new housing developments, increased immigration, or changes in community services affecting local population movement. |
| Perceptions                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

| <b>Problem Statement 1:</b> Richland High School has experienced a fast change in our demographics and we want to ensure that those students needs are being addressed. We need to adjust our teaching to the students we have. <b>Root Cause:</b> A rapid change in demographics at Richland High School could be due to economic shifts, new housing developments, increased immigration, or changes in community services affecting local population movement. |

## Perceptions

**Problem Statement 1:** Richland High School has experienced a fast change in our demographics and we want to ensure that those students needs are being addressed. We need to adjust our teaching to the students we have. **Root Cause:** A rapid change in demographics at Richland High School could be due to economic shifts, new housing developments, increased immigration, or changes in community services affecting local population movement.

**Goal 3:** All students and staff will learn and work in a safe and responsive environment.

**Performance Objective 2:** Reduce the cost of accidents resulting in workers' compensation claims by 25% over the previous year and reduce the number of work days lost each year due to accidents occurring on the job by 25%.

**Evaluation Data Sources:** Workers' compensation claims and days missed due to accidents

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            | Reviews   |     |     |           |

**Performance Objective 2 Problem Statements:**

### Demographics

**Problem Statement 1:** Richland High School has experienced a fast change in our demographics and we want to ensure that those students needs are being addressed. We need to adjust our teaching to the students we have. **Root Cause:** A rapid change in demographics at Richland High School could be due to economic shifts, new housing developments, increased immigration, or changes in community services affecting local population movement.

### School Processes & Programs

**Problem Statement 1:** We need to identify why the areas that we are seeing a downward trend in continue to move that direction. Is it our failure to respond to the changing demographics? Covid hangover? lack of strong systems and structures? **Root Cause:** Data analysis has not been done to determine what issue is.

### Perceptions

**Problem Statement 1:** Richland High School has experienced a fast change in our demographics and we want to ensure that those students needs are being addressed. We need to adjust our teaching to the students we have. **Root Cause:** A rapid change in demographics at Richland High School could be due to economic shifts, new housing developments, increased immigration, or changes in community services affecting local population movement.

**Goal 3:** All students and staff will learn and work in a safe and responsive environment.

**Performance Objective 3:** The campus will meet all compliance requirements for improvement planning.

**Evaluation Data Sources:** College Readiness Data and Health Surveys

### Performance Objective 3 Problem Statements:

#### Demographics

**Problem Statement 1:** Richland High School has experienced a fast change in our demographics and we want to ensure that those students needs are being addressed. We need to adjust our teaching to the students we have. **Root Cause:** A rapid change in demographics at Richland High School could be due to economic shifts, new housing developments, increased immigration, or changes in community services affecting local population movement.

#### Perceptions

**Problem Statement 1:** Richland High School has experienced a fast change in our demographics and we want to ensure that those students needs are being addressed. We need to adjust our teaching to the students we have. **Root Cause:** A rapid change in demographics at Richland High School could be due to economic shifts, new housing developments, increased immigration, or changes in community services affecting local population movement.

# Comprehensive Needs Assessment

## Demographics

### Demographics Summary

The number of renters as opposed to homeowners in our Richland Middle School attendance zone accounts for much of our mobility. Many of the students have gaps in their schooling associated with moving and it is difficult to assess quickly the academic capabilities of these students.

In addition to the mobility rate, we have a large population of Economically Disadvantaged and at Risk students who come to us with educational gaps. Approximately 25% of the students on campus are designated Special Education and/or 504. Over 30% limited English proficient students. With the increase in our limited English proficient students Richland Middle School will utilize resources to prepare and accommodate students to ensure we are providing the best education for them, both socially and academically.

Student Population 2024 (CY=Current Year/PY=Previous Year)

- Grade 6: CY - 239; PY - 176; Change: +63
- Grade 7: CY - 192; PY - 167; Change: +25
- Grade 8: CY - 191; PY - 197; Change: -6
- Total Student Population Change: +28 students

### Ethnic Distribution

- African American: CY - 19.0%; PY - 20.8%; Change: -1.8%
- Hispanic: CY - 54.4%; PY - 48.8%; Change: +5.6%
- White: CY - 21.1%; PY - 24.8%; Change: -3.7%
- American Indian: CY - 0.3%; PY - 0.6%; Change: -0.3%
- Asian: CY - 2.8%; PY - 1.3%; Change: +1.5%
- Pacific Islander: CY - 0.8%; PY - 0.6%; Change: +0.2%
- Two or more races: CY - 1.6%; PY - 3.1%; Change: -1.5%

Economically Disadvantaged: CY - 76.8%; PY - 78.5%; Change: -1.7%

### Demographics Strengths

We had increases demographically in the English proficient students. The district has provided support in personnel to meet these needs. The campus has also realigned the use of its core personnel trained in SIOP (Sheltered Instruction) to support core departments with effective techniques when working with EB students in the classroom. This will be an ongoing process to work with the RMS core teachers to provide training and support. We will be strategic in utilizing PLC (Professional Learning Communities) time to provide continuing SIOP training for staff at RMS. In the 2025 school year, RMS will also begin a push-in model in which our campus EB (Emergent Bilingual) Specialist will provide in-class support

to teachers and students. We recognize that our growing linguistic diversity is one of RMS's greatest strengths, enriching our campus culture and providing opportunities for all students to develop empathy, global awareness, and collaborative skills. Embracing and supporting this diversity is essential to our mission of academic excellence and inclusivity.

### **Problem Statements Identifying Demographics Needs**

**Problem Statement 1 (Prioritized):** Filling the academic gaps of children could pose a challenge in the on-level classrooms. RMS had an increase in its Mobility Rate, At-Risk, and Emergent Bilingual populations during the 2026 school year. These are all areas of need for improvement.

**Root Cause:** With approximately 30% of the RMS population as mobile, we are combining a variety of learning styles and teaching methods into each classroom. This poses opportunities for our teachers to find ways to meet those children where they are and assist them in closing educational gaps due to Mobility.

# Student Learning

## Student Learning Summary

Richland Middle School showed some gains in several areas in 2025. The 6th grade math STAAR scores showed an 11% growth on Approaches Grade Level and 3% growth on Meets Grade Level. In 6th grade RLA, the Masters Grade Level improved by 5%. The 8th Grade Science scores showed improvement in Approaches, Meets, and Masters Grade level.

STAAR Math Meets Grade Level (2025):

- 6th Grade Actual - 32.5%; Target - 47%
- 7th Grade Actual - 20.2%; Target - 47%
- 8th grade Actual 33.3%; Target - 47%
- Algebra Actual - 66.7%; Target - 47%

STAAR RLA Meets Grade Level (2025):

- 6th grade Actual - 40.4%; Target - 47%
- 7th grade Actual - 42.3%; Target - 47%
- 8th grade Actual - 34.6%; Target - 47%

RMS met the RLA Performance MEasure goal for 2025 in the following areas:

White students Actual - 56%; Target 56%

American Indian Actual - 67%; Target 53%

Asian Actual - 88%; Target 67%

Pacific Islander Actual 50%; Target 43%

2 or more Races - Actual 47%; Target 47%

There is more work to do in the following areas:

African American - Actual 36%; Target 45%

Hispanic- Actual 38%; Target 43%

Emergent Bilingual - Actual 30%; Target 34%

Economically Disadvantaged- Actual 41%; Target 43%

In STAAR Math, RMS did not meet the Performance Measure Goals.

African American was 13% below the target.

Hispanic 8% below target.

White 9% below Target

Emergent Bilingual 15% below target.

Economically Disadvantaged 11% below target.

Special Education 15% below target.

### **Student Learning Strengths**

RMS experienced tremendous gains during the 2022/2023 school year overall in honors mathematics and reading. Both 6th and 7th grade honors math reached 100% approaches. Our 8th grade Algebra was able to obtain 100% approaches, 100% meets, and 98% masters. Our reading continued to improve with 6th grade honors achieving 96% approaches, 7th grade honors 98% approaches and 8th grade honors at 99% approaches. While 8th grade social studies has been an area of concern, scores showed growth again in 2023 honors with results of 85% approaches, 48% meets, 42% masters.

### **Problem Statements Identifying Student Learning Needs**

**Problem Statement 1 (Prioritized):** There are still several areas below targeted rates for our EB populations. In our high focus group Reading has a target of 42% Meets while Math is set at a 44% Meets rate.

**Root Cause:** Our EB population accounts for approximately 28% of our population and our teachers are still not proficient in sheltered instruction strategies and many of the teachers have only had partial training in sheltered instruction.

**Problem Statement 2 (Prioritized):** There are still several areas below a targeted Meets Rate in our total scholar population. This is an ongoing concern that will be measured in the 2026 school year.

**Root Cause:** A lack of consistent implementation of data-driven instruction has resulted in missed opportunities for these students to achieve their full potential.

**Problem Statement 3 (Prioritized):** Filling the academic gaps of children could pose a challenge in the on-level classrooms. RMS had an increase in its Mobility Rate, At-Risk, and Emergent Bilingual populations during the 2026 school year. These are all areas of need for improvement.

**Root Cause:** With approximately 30% of the RMS population as mobile, we are combining a variety of learning styles and teaching methods into each classroom. This poses opportunities for our teachers to find ways to meet those children where they are and assist them in closing educational gaps due to Mobility.

# School Processes & Programs

## School Processes & Programs Summary

RMS has implemented a House System where students earn points by demonstrating leadership qualities and positive choices. Incentives are awarded every three weeks to all students in the winning house, with larger rewards given at the end of each nine-week period. To maintain engagement and healthy competition, point totals reset at the beginning of each new nine weeks. We have also developed a prize cart to award individual students for other leadership qualities such as academic growth, teacher recognition, and avoiding academic detentions.

The RMS committee system is implemented to ensure that leadership roles are taken across the board. Teachers much each sign up to help with one committee and one of our monthly RMS community events.

We have also developed a system for academic accountability for our students. Our No Zero Zone process has added a layer of intentionality to checking in on student progress academically. Students are not only held accountable for monitoring their test data with their digital data folders, but also for their grades in class. Our goal is to capture students who have zeroes in classes in which they are also in danger of failing with a 75 or below. These students report to the cafeteria once a week for an academic detention, with the purpose of correcting those assignments, and the hopes that they will continue to monitor their own progress.

## School Processes & Programs Strengths

The teachers are committed to the House System evolving into a true success story. The House Committee meets monthly to plan upcoming house activities for our students. These activities involve team building, school spirit, pep rallies, and incentives for house points. Students demonstrate motivation to earn house points and are prideful in winning incentives. RMS will be working with local businesses to try and secure support to help with this initiative and provide additional school resources.

Our commitment to community engagement is exemplified by the requirement for teachers to assist with one of our monthly RMS community events. This involvement not only strengthens the bond between the school and the community but also provides teachers with a platform to showcase their talents and connect with students and parents outside the traditional classroom setting. Through these events, we aim to create a vibrant and inclusive school culture that values collaboration and community spirit.

A key strength of the No Zero Zone process is that it promotes student ownership of learning by placing the responsibility for monitoring grades and academic progress directly on the students. Rather than relying on teachers for last-minute corrections, students are held accountable for identifying and addressing missing assignments in a timely manner. This not only reduces the workload for teachers but also fosters accountability and independence among students. The system provides an intentional safety net for those at risk of failing, while encouraging them to take initiative in correcting their work. Ultimately, the No Zero Zone helps students build long-term habits of self-monitoring, responsibility, and academic perseverance.

## Problem Statements Identifying School Processes & Programs Needs

**Problem Statement 1 (Prioritized):** As RMS has worked to implement a successful Positive Behavior Intervention System (PBIS) there is still a need on the campus for all students to have a sense of belonging and wellbeing.

**Root Cause:** Because the RMS House system has not always been implemented consistently, students have struggled to develop buy-in toward working collaboratively for the success of the whole.

**Problem Statement 2 (Prioritized):** Filling the academic gaps of children could pose a challenge in the on-level classrooms. RMS had an increase in its Mobility Rate, At-Risk, and

Emergent Bilingual populations during the 2026 school year. These are all areas of need for improvement.

**Root Cause:** With approximately 30% of the RMS population as mobile, we are combining a variety of learning styles and teaching methods into each classroom. This poses opportunities for our teachers to find ways to meet those children where they are and assist them in closing educational gaps due to Mobility.

# Perceptions

## Perceptions Summary

Parents continue to view Richland Middle School as a safe and supportive environment, with strong trends carrying over from last year into this year. The majority of families report that their children have meaningful adult connections on campus, and nearly all agree that respect and safety are emphasized daily. Compared to the previous year, the perception of campus orderliness and safety has remained consistently high, while parent confidence in student preparedness for emergency procedures has shown growth, with more families now “very confident” their children know what to do..

Between 2023–24 and 2024–25, Richland Middle School maintained strong perceptions of safety, with over 95% of staff reporting the campus as safe and orderly. Awareness and training improved, particularly in safety equipment use, emergency protocols, and student lessons on bullying and suicide prevention. Positive Behavior Intervention Systems like CHAMPS remained widely implemented, and nearly all staff reported compliance with hallway monitoring, ID badges, and annual safety trainings. Overall, trends show steady improvement and continued confidence in campus safety and culture

Between 2023–24 and 2024–25, Richland Middle School students reported stronger connections, with over 90% having a trusted peer and nearly three-fourths having a trusted adult. Around 70–75% recalled training in bullying prevention, cyberbullying, suicide prevention, and Anonymous Alerts, while about two-thirds felt confident in emergency procedures. However, fewer than half strongly agreed that respect is emphasized, and only 63% viewed the campus as safe and orderly. Overall, student trends show improving relationships and training, but mixed perceptions of campus climate and safety

## Perceptions Strengths

Across staff and student surveys from 2023–24 to 2024–25, Richland Middle School showed strong safety and culture strengths. Staff consistently reported very high confidence in campus safety, emergency preparedness, and annual training, with nearly all noting hallway monitoring, ID badge compliance, and the successful use of Positive Behavior Intervention Systems like CHAMPS. Students highlighted strong peer and adult connections, with over 90% reporting a trusted friend and nearly three-fourths identifying a trusted adult on campus. Both groups reported broad exposure to safety and prevention training, including bullying, cyberbullying, and suicide prevention, while most students also expressed confidence in responding to emergency procedures. Overall, Richland Middle’s key strengths are its safe and orderly environment, strong staff preparedness, and the supportive relationships and training that help students feel connected and equipped.

## Problem Statements Identifying Perceptions Needs

**Problem Statement 1 (Prioritized):** While staff at Richland Middle School report strong safety practices and preparedness, fewer than two-thirds of students view the campus as safe and orderly, and less than half strongly agree that respect is consistently emphasized. This gap suggests a disconnect between staff confidence in systems and student perceptions of daily campus climate.

**Root Cause:** While safety protocols are strong and consistent, opportunities remain to strengthen students' daily experiences of respect, relationships, and communication so that the campus climate feels as positive and supportive as the systems in place.

# Priority Problem Statements

**Problem Statement 1:** Filling the academic gaps of children could pose a challenge in the on-level classrooms. RMS had an increase in its Mobility Rate, At-Risk, and Emergent Bilingual populations during the 2026 school year. These are all areas of need for improvement.

**Root Cause 1:** With approximately 30% of the RMS population as mobile, we are combining a variety of learning styles and teaching methods into each classroom. This poses opportunities for our teachers to find ways to meet those children where they are and assist them in closing educational gaps due to Mobility.

**Problem Statement 1 Areas:** Demographics - Student Achievement - Demographics - Student Learning - School Processes & Programs

**Problem Statement 2:** There are still several areas below targeted rates for our EB populations. In our high focus group Reading has a target of 42% Meets while Math is set at a 44% Meets rate.

**Root Cause 2:** Our EB population accounts for approximately 28% of our population and our teachers are still not proficient in sheltered instruction strategies and many of the teachers have only had partial training in sheltered instruction.

**Problem Statement 2 Areas:** Student Learning

**Problem Statement 3:** There are still several areas below a targeted Meets Rate in our total scholar population. This is an ongoing concern that will be measured in the 2026 school year.

**Root Cause 3:** A lack of consistent implementation of data-driven instruction has resulted in missed opportunities for these students to achieve their full potential.

**Problem Statement 3 Areas:** Student Learning

**Problem Statement 4:** As RMS has worked to implement a successful Positive Behavior Intervention System (PBIS) there is still a need on the campus for all students to have a sense of belonging and wellbeing.

**Root Cause 4:** Because the RMS House system has not always been implemented consistently, students have struggled to develop buy-in toward working collaboratively for the success of the whole.

**Problem Statement 4 Areas:** School Processes & Programs

**Problem Statement 5:** While staff at Richland Middle School report strong safety practices and preparedness, fewer than two-thirds of students view the campus as safe and orderly, and less than half strongly agree that respect is consistently emphasized. This gap suggests a disconnect between staff confidence in systems and student perceptions of daily campus climate.

**Root Cause 5:** While safety protocols are strong and consistent, opportunities remain to strengthen students' daily experiences of respect, relationships, and communication so that the campus climate feels as positive and supportive as the systems in place.

**Problem Statement 5 Areas:** Perceptions

# Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

## Improvement Planning Data

- District goals
- Campus goals
- HB3 CCMR goals
- Performance Objectives with summative review (prior year)
- Campus/District improvement plans (current and prior years)
- Covid-19 Factors and/or waivers for Assessment, Accountability, ESSA, Missed School Days, Educator Appraisals, etc.
- Planning and decision making committee(s) meeting data
- State and federal planning requirements

## Accountability Data

- Texas Academic Performance Report (TAPR) data
- Student Achievement Domain
- Closing the Gaps Domain
- Comprehensive, Targeted, and/or Additional Targeted Support Identification data
- Accountability Distinction Designations
- Local Accountability Systems (LAS) data
- Community Based Accountability System (CBAS)

## Student Data: Assessments

- State and federally required assessment information
- STAAR current and longitudinal results, including all versions
- STAAR End-of-Course current and longitudinal results, including all versions
- STAAR released test questions
- Texas English Language Proficiency Assessment System (TELPAS) and TELPAS Alternate results
- Student failure and/or retention rates
- Local diagnostic reading assessment data
- Local benchmark or common assessments data
- State-developed online interim assessments
- Grades that measure student performance based on the TEKS

## Student Data: Student Groups

- Race and ethnicity data, including number of students, academic achievement, discipline, attendance, and rates of progress between groups
- Special programs data, including number of students, academic achievement, discipline, attendance, and rates of progress for each student group
- Economically disadvantaged / Non-economically disadvantaged performance and participation data
- Special education/non-special education population including discipline, progress and participation data
- At-risk/non-at-risk population including performance, progress, discipline, attendance, and mobility data
- Emergent Bilingual (EB) /non-EB data, including academic achievement, progress, support and accommodation needs, race, ethnicity, gender etc.

- Response to Intervention (RtI) student achievement data

#### **Student Data: Behavior and Other Indicators**

- Attendance data
- Mobility rate, including longitudinal data
- Discipline records
- Student surveys and/or other feedback
- School safety data

#### **Employee Data**

- Professional learning communities (PLC) data
- Staff surveys and/or other feedback
- Campus leadership data
- Professional development needs assessment data

#### **Parent/Community Data**

- Parent surveys and/or other feedback
- Parent engagement rate
- Community surveys and/or other feedback

#### **Support Systems and Other Data**

- Budgets/entitlements and expenditures data
- Other additional data

# Goals

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 1:** Improve performance in Domain 3: Closing the Gaps by making more than a year's growth in reading and mathematics. This would increase the number of students performing at the "meets" and "masters" levels as measured by the spring 2026 STAAR and EOC assessments. This will also increase Domain 1: Student Achievement, which counts the number of students at the various performance levels for state assessments.

**High Priority**

**Evaluation Data Sources:** Renaissance STAR Assessments (grades 6-8 mathematics and grades 6-8 reading) and District Common Assessments for EOC tested subjects aligned to Strategic Plan.

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   | Reviews   |     |     |           |

| <p><b>Strategy 1:</b> Implement PDSA cycles to allow staff and students to monitor student growth during the school year and to determine students at risk of not reaching 1 years growth.</p> <p><b>Actions:</b> 1.) Instructional Facilitators and administration will meet with teachers to track progress among all tiers and conduct PDSA (Plan, Do, Study, Act) cycles on a monthly basis during PLC to ensure all staff are following progress monitoring.</p> <p>2.) Instructional Facilitators will meet with core teachers to monitor, review, and adjust PDSA data. Conversations will include how teachers are responsive to the data.</p> <p>3.) Instructional Facilitators will provide PLC (Professional Learning Community) training to all core departments by the end of September about effect PDSA use in the classroom to increase student performance levels. New teachers received a PDSA training from Instructional Facilitators on August 27, 2025.</p> <p>4.) Admin/Instructional Facilitators will do calibration walks to monitor the use of best practices involving PDSA. Teachers will have the opportunity to walk to classrooms to see examples as well.</p> <p>5.) All students will track their progress by utilizing our campus RMS digital data folder. Each core content teacher will be responsible once throughout the nine weeks to review and assess the completion of the student digital data folder.</p> <p><b>Staff Responsible for Monitoring:</b> Core Content Teachers<br/>Instructional Facilitators<br/>RLA secondary content coordinator<br/>Math secondary content coordinator<br/>District PAR<br/>Administration</p> <p><b>Title I:</b><br/>2.51, 2.52, 2.53, 2.531, 2.532, 2.533, 2.534, 2.535</p> <p>- <b>ESF Levers:</b><br/>Lever 5: Effective Instruction</p> <p>- <b>Targeted Support Strategy - Additional Targeted Support Strategy</b></p> <p><b>Problem Statements:</b> Demographics 1 - Demographics 1 - Student Learning 3 - Student Achievement 1 - School Processes &amp; Programs 2</p> <p><b>Funding Sources:</b> Instructional Facilitators - 255 - Title II, Instructional Facilitator - 211 - Title I</p> | Formative |     |     | Summative |

| <b>Strategy 2:</b> Incorporate reading strategies regularly in all core and CTE content areas to support student reading growth.<br><b>Actions:</b> 1.) All Core teachers will utilize reading strategies within their content on a weekly basis to support the learning of all students. Emphasis will be placed on student mastery of the strategy. This goal will be measured by weekly and monthly calibration walkthroughs performed by Administration and Instructional Facilitators.<br><br>2.) Instructional Facilitators will provide intentional structured training during PLC's throughout the year for educators to assist with implementation of reading strategies in all core content areas.<br><br>3.) RLA (Reading Language Arts) Department Chair will provide instruction to all staff during September Instructional Focus Faculty Meeting on high impact reading strategies.<br><b>Staff Responsible for Monitoring:</b> All Core teachers<br>Instructional Facilitators<br>Administration<br>RLA secondary content coordinator<br><br><b>TEA Priorities:</b><br>Build a foundation of reading and math, Improve low-performing schools<br>- <b>ESF Levers:</b><br>Lever 5: Effective Instruction<br>- <b>Targeted Support Strategy - Additional Targeted Support Strategy</b><br><b>Problem Statements:</b> Student Learning 1 |  | Formative |     |     | Summative |
|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |  | Nov       | Jan | Mar | June      |
|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |  |           |     |     |           |
| Strategy 3 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |  | Reviews   |     |     |           |
| <b>Strategy 3:</b> Offer ongoing professional learning during PLC that will positively impact the success of our EB students.<br><b>Actions:</b> 1.) RMS (Richland Middle School) will begin with a push in model for in class support of EB students. The RMS EB specialist will provide SIOP (Sheltered Instruction Observation Protocols) strategies. This process will be monitored by the assessment of TELPAS in the spring of 2026.<br><br>2.) PLC topics will be based on the needs of students as revealed through data, PLCs and campus walks.<br><b>Staff Responsible for Monitoring:</b> EB District Representative<br>EB Teachers<br>Instructional Facilitators<br>Administrator over EB<br><br><b>TEA Priorities:</b><br>Build a foundation of reading and math<br>- <b>ESF Levers:</b><br>Lever 5: Effective Instruction<br>- <b>Targeted Support Strategy - Additional Targeted Support Strategy</b><br><b>Problem Statements:</b> Student Learning 2                                                                                                                                                                                                                                                                                                                                                                                 |  | Formative |     |     | Summative |

**Performance Objective 1 Problem Statements:****Demographics**

**Problem Statement 1:** Filling the academic gaps of children could pose a challenge in the on-level classrooms. RMS had an increase in its Mobility Rate, At-Risk, and Emergent Bilingual populations during the 2026 school year. These are all areas of need for improvement. **Root Cause:** With approximately 30% of the RMS population as mobile, we are combining a variety of learning styles and teaching methods into each classroom. This poses opportunities for our teachers to find ways to meet those children where they are and assist them in closing educational gaps due to Mobility.

**Student Learning**

**Problem Statement 1:** There are still several areas below targeted rates for our EB populations. In our high focus group Reading has a target of 42% Meets while Math is set at a 44% Meets rate. **Root Cause:** Our EB population accounts for approximately 28% of our population and our teachers are still not proficient in sheltered instruction strategies and many of the teachers have only had partial training in sheltered instruction.

**Problem Statement 2:** There are still several areas below a targeted Meets Rate in our total scholar population. This is an ongoing concern that will be measured in the 2026 school year. **Root Cause:** A lack of consistent implementation of data-driven instruction has resulted in missed opportunities for these students to achieve their full potential.

**Problem Statement 3:** Filling the academic gaps of children could pose a challenge in the on-level classrooms. RMS had an increase in its Mobility Rate, At-Risk, and Emergent Bilingual populations during the 2026 school year. These are all areas of need for improvement. **Root Cause:** With approximately 30% of the RMS population as mobile, we are combining a variety of learning styles and teaching methods into each classroom. This poses opportunities for our teachers to find ways to meet those children where they are and assist them in closing educational gaps due to Mobility.

**School Processes & Programs**

**Problem Statement 2:** Filling the academic gaps of children could pose a challenge in the on-level classrooms. RMS had an increase in its Mobility Rate, At-Risk, and Emergent Bilingual populations during the 2026 school year. These are all areas of need for improvement. **Root Cause:** With approximately 30% of the RMS population as mobile, we are combining a variety of learning styles and teaching methods into each classroom. This poses opportunities for our teachers to find ways to meet those children where they are and assist them in closing educational gaps due to Mobility.

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 2:** Close achievement gaps that exist for all under-performing groups as measured by STAAR .

**High Priority**

**Evaluation Data Sources:** Richland Middle School will experience gains in STAAR 2025 scores and targeted problem areas as outlined by the state and federal government. This will be an ongoing effort for Richland Middle School beginning in the 2026 school year.

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              | Reviews   |     |     |           |

| <p><b>Strategy 2:</b> Utilize all campus and district summative data, as well as classroom formative data, in PDSA processes within core classrooms to drive student achievement on state objectives.</p> <p><b>Actions:</b> 1.) All formative and summative assessments will be utilized as data for PDSA discussions in the classroom both as a whole class and individually to determine student areas of needed growth.</p> <p>2.) Remediation plans will be created by the teacher based on data collected. Accelerated Instruction will also be provided by teacher to close instructional gaps via House Bill 1416.</p> <p>3.) Administration will have individual data discussions with core teachers by 09/12/2025.</p> <p>4.) Instructional Facilitators will provide continuous support for all core subjects through the school year during PLC's.</p> <p>This is a fully funded district initiative.</p> <p><b>Staff Responsible for Monitoring:</b> Core content teachers<br/>Administration<br/>Secondary Core content coordinators<br/>Instructional Facilitators</p> <p><b>TEA Priorities:</b><br/>Build a foundation of reading and math, Improve low-performing schools</p> <p><b>Problem Statements:</b> Demographics 1 - Demographics 1 - Student Learning 3 - Student Achievement 1 - School Processes &amp; Programs 2</p> <p><b>Funding Sources:</b> SCE Campus Personnel - 199 - General Funds: SCE</p> | Formative |     |     | Summative |

| <p><b>Strategy 3:</b> Use BOY, MOY and EOY Screeners, DCAs, CBA's, and Mock STAAR tests in the spring of 2026 and prior year STAAR scores in all core classes to create remediation watch lists.</p> <p><b>Actions:</b> 1.) Remediation watch lists will be updated each nine weeks by the core teachers, with the help of instructional facilitators.</p> <p>2.) Teachers will create specific mandatory tutorials for students on watch lists and will track student work and progress on a campus document.</p> <p>3.) Admin and Instructional Facilitators will monitor watch list document and support teachers as necessary.</p> <p><b>Staff Responsible for Monitoring:</b> Core content teachers<br/>Administration<br/>Instructional Facilitators</p> <p><b>TEA Priorities:</b><br/>Build a foundation of reading and math, Improve low-performing schools<br/>- <b>ESF Levers:</b><br/>Lever 5: Effective Instruction<br/>- <b>Targeted Support Strategy - Additional Targeted Support Strategy</b></p> <p><b>Problem Statements:</b> Student Learning 2</p> | Formative |     |     | Summative |

| <p><b>Strategy 4:</b> Social Studies department will provide rigorous STAAR 2.0 aligned questions in order to increase each 8th grade and Social Studies student's familiarity with the STAAR 2.0 test. This is an ongoing district provided initiative.</p> <p><b>Actions:</b> 1.) Classroom observations, feedback, and resources will be shared with the Social Studies team in the areas of active engagement, vocabulary best practices, and instructional alignment.</p> <p>2.) Campus leadership will partner with the content coordinator to provide the Social Studies PLC with professional learning and support around active vocabulary strategies and document analysis strategies, as well as assessment design and utilizing results to drive instruction.</p> <p>3.) Social Studies teachers will receive training and support for the creation of STAAR 2.0 new item types, as well as the use of local item banks. STAAR 2.0 professional learning will include a focus on how to align Social Studies process skills to the cognitive requirements of STAAR 2.0.</p> <p>4.) Campus leadership will partner with the content coordinator to monitor student progress through Social Studies common assessments, CBAs, and interim assessments, and facilitate PLC data meetings to discuss instructional implications of data.</p> <p>5.) Campus leadership will monitor and communicate support needs for Social Studies teachers new to Birdville ISD and/or the content and curriculum.</p> <p><b>Staff Responsible for Monitoring:</b> Social Studies PLC<br/>Administration<br/>Instructional Facilitators</p> <p><b>TEA Priorities:</b><br/>Improve low-performing schools</p> <p><b>Problem Statements:</b> Demographics 1 - Demographics 1 - Student Learning 3 - Student Achievement 1 - School Processes &amp; Programs 2</p> | Formative |     |     | Summative |

| <b>Strategy 5:</b> Offer tutorials before and after school for all students in areas of deficiencies based on the state TEKS. Due to House Bill 1416, this is an ongoing concern that will be measured in the 2026 school year.<br><b>Actions:</b> 1.) Teachers will be given the opportunity to tutor their children in core subject area to help close significant gaps. They will be paid using Title I funds.<br><br>2.) We will provide additional tutoring for students before and after school utilizing Title I funds. Students will receive targeted tutorials based on their data.<br><b>Staff Responsible for Monitoring:</b> All Teacher Tutors<br>Administration<br>Instructional Facilitators<br><br><b>Problem Statements:</b> Demographics 1 - Demographics 1 - Student Learning 3 - Student Achievement 1 - School Processes & Programs 2<br><b>Funding Sources:</b> Tutors - 211 - Title I                                                                                                                                                                                                                                                                                                              |  | Formative |     |     | Summative |

| <b>Strategy 6:</b> RMS will enlist community and business partners to assist in providing educational support to students and families. This is an ongoing effort that will be measured in the 2026 school year.<br><b>Actions:</b> 1.) Utilize the Events committees to schedule and host school-wide events in order to increase parent and community involvement.<br><br>2.) Identify and communicate the needs of the student population and their families with community partners.<br><br>3.) Design and Implement a Family and Parent Engagement Policy.<br><br>4.) Host a Title 1 Meeting on 08/04/2025 and 08/21/2025.<br><br>5.) Provide opportunities, on and off campus, for our Life Skills Students to experience real-life working scenarios.<br><b>Staff Responsible for Monitoring:</b> Campus Administration<br>Corporate Sponsor and Campus Liaison<br>PTA<br>Parents<br>RMS Teachers and Staff<br>Community members<br>AABLE and ACCESS Teachers and Students<br>Local Businesses<br><br><b>Problem Statements:</b> Demographics 1 - Demographics 1 - Student Learning 3 - Student Achievement 1 - School Processes & Programs 2<br><b>Funding Sources:</b> Title I Family Engagement - 211 - Title I |  | Formative |     |     | Summative |

|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> Filling the academic gaps of children could pose a challenge in the on-level classrooms. RMS had an increase in its Mobility Rate, At-Risk, and Emergent Bilingual populations during the 2026 school year. These are all areas of need for improvement. <b>Root Cause:</b> With approximately 30% of the RMS population as mobile, we are combining a variety of learning styles and teaching methods into each classroom. This poses opportunities for our teachers to find ways to meet those children where they are and assist them in closing educational gaps due to Mobility.                                                                                                                                                                                                                                                                                                                                                                                    |
| Student Learning                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| <b>Problem Statement 2:</b> There are still several areas below a targeted Meets Rate in our total scholar population. This is an ongoing concern that will be measured in the 2026 school year. <b>Root Cause:</b> A lack of consistent implementation of data-driven instruction has resulted in missed opportunities for these students to achieve their full potential.<br><br><b>Problem Statement 3:</b> Filling the academic gaps of children could pose a challenge in the on-level classrooms. RMS had an increase in its Mobility Rate, At-Risk, and Emergent Bilingual populations during the 2026 school year. **Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 3:** Students will display dispositions indicative of high levels of social-emotional development as measured by a district-administered survey of student perceptions. This is an ongoing concern that will be measured in the 2026 school year.

**High Priority**

**Evaluation Data Sources:** The House system gives students a "family" homeroom class in which they work collaboratively toward common goals by earning House points. Students get House points for actions and choices reflective of leadership. Students will have a stronger sense of belonging to RMS which will be measured by a reduction in discipline slips and suicide attempts. Administration will do weekly walks to ensure that the Character Strong Curriculum is utilized with fidelity.

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  | Reviews   |     |     |           |

Performance Objective 3 Problem Statements:

| School Processes & Programs                                                                                                                                                                                                                                                                                                                                                                                                |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> As RMS has worked to implement a successful Positive Behavior Intervention System (PBIS) there is still a need on the campus for all students to have a sense of belonging and wellbeing. <b>Root Cause:</b> Because the RMS House system has not always been implemented consistently, students have struggled to develop buy-in toward working collaboratively for the success of the whole. |

**Goal 2:** The system will utilize efficient and effective operations to support and improve the learning organization.

**Performance Objective 1:** Increase the annual total average daily attendance (ADA) as compared to the prior school year, through improved student retention, recruitment, and days in attendance. This is an ongoing concern that will be measured in the 2026 school year.

**High Priority**

**Evaluation Data Sources:** Richland Middle School will utilize a student committee to provide rewards to students with perfect attendance in hopes that we can raise our ADA from 94% to 96%.

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            | Reviews   |     |     |           |

| <b>Strategy 2:</b> Develop a comprehensive plan for parent conferences and communication with regard to student absences. RMS will utilize the Attendance system of attendance tracking to progress monitor throughout the 2026 school year.<br><b>Actions:</b> 1.) Attendance clerk will provide absence data to teachers and administration at key intervals.<br><br>2.) Administration will increase number of parent conferences with students who have excessive absences as well as meeting with the students themselves.<br><br>3.) Administration will provide tracking data to review students of concern.<br><b>Staff Responsible for Monitoring:</b> Administration<br>Teachers<br>Attendance clerk<br><br><b>Problem Statements:</b> Demographics 1 - Demographics 1 - Student Learning 3 - Student Achievement 1 - School Processes & Programs 2 |  | Formative |     |     | Summative |
|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |  | Nov       | Jan | Mar | June      |

| Demographics                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> Filling the academic gaps of children could pose a challenge in the on-level classrooms. RMS had an increase in its Mobility Rate, At-Risk, and Emergent Bilingual populations during the 2026 school year. These are all areas of need for improvement. <b>Root Cause:</b> With approximately 30% of the RMS population as mobile, we are combining a variety of learning styles and teaching methods into each classroom. This poses opportunities for our teachers to find ways to meet those children where they are and assist them in closing educational gaps due to Mobility. |
| Student Learning                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| <b>Problem Statement 3:</b> Filling the academic gaps of children could pose a challenge in the on-level classrooms. RMS had an increase in its Mobility Rate, At-Risk, and Emergent Bilingual populations during the 2026 school year. These are all areas of need for improvement. <b>Root Cause:</b> With approximately 30% of the RMS population as mobile, we are combining a variety of learning styles and teaching methods into each classroom. This poses opportunities for our teachers to find ways to meet those children where they are and assist them in closing educational gaps due to Mobility. |
| School Processes & Programs                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| <b>Problem Statement 2:</b> Filling the academic gaps of children could pose a challenge in the on-level classrooms. RMS had an increase in its Mobility Rate, At-Risk, and Emergent Bilingual populations during the 2026 school year. These are all areas of need for improvement. <b>Root Cause:</b> With approximately 30% of the RMS population as mobile, we are combining a variety of learning styles and teaching methods into each classroom. This poses opportunities for our teachers to find ways to meet those children where they are and assist them in closing educational gaps due to Mobility. |

**Goal 2:** The system will utilize efficient and effective operations to support and improve the learning organization.

**Performance Objective 2:** Use continuous improvement to identify and improve operations and outcomes in every department and campus. This is an ongoing concern that will be measured in the 2026 school year.

**Evaluation Data Sources:** Continuous Improvement PDSA charts will be one of the items that we look for in every room during T-TESS observations and Walk-Throughs. Three strategic walk-throughs will be conducted to measure this objective. The first walk will be in early fall, a second in late winter, and final walk in early spring. RMS will also add a layer of Instructional Calibration walks to verify the use of all academic systems.

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          | Reviews   |     |     |           |

| <b>Strategy 1:</b> Employ continuous improvement cycles using Plan-Do-Study-Act (PDSA) in all core classes for each unit of instruction.<br><br><b>Actions:</b> 1.) The PDSA cycle will be completed with each unit of instruction with grade level team and Instructional Facilitator.<br><br>2.) Implementation of PDSA will be monitored by admin and Instructional Coaches during walkthroughs. Support for PDSA cycles will be provided by instructional facilitators. Core teacher evidence/PDSA training will occur during August staff meeting and in PLCs by Instructional Facilitators.<br><br>3.) Individual teacher support will be delivered by instructional facilitators and admin as needed.<br><b>Staff Responsible for Monitoring:</b> Instructional Coaches<br>Administration<br>Department chairs<br>Teachers<br><br><b>ESF Levers:</b><br>Lever 2: Strategic Staffing<br><b>Problem Statements:</b> Student Learning 1 | Formative |     |     | Summative |

| <b>Strategy 2:</b> Use behavioral MTSS data as well as other discipline data to increase student time in class. This will be measured by end of the year discipline results. Richland Middle School has set a reduction goal of 5% from the previous 2025 year of students who were out of placement (In School Suspension/Out of School Suspension).<br><b>Actions:</b> 1.) Data will be collected by assistant principals at each of the three MTSS sessions throughout the school year.<br><br>2.) Administrators will review the discipline data on a weekly basis and utilize progressive discipline to help remediate inappropriate students behavior which in turn will provide a better experience in the classroom.<br><br>3.) Administrators will begin weekly discipline reviews to ensure effectiveness of behavior monitoring systems by educators.<br><b>Staff Responsible for Monitoring:</b> Administration<br>Instructional Facilitators<br>Counselors<br><br><b>ESF Levers:</b><br>Lever 2: Strategic Staffing<br><b>Problem Statements:</b> Demographics 1 - Demographics 1 - Student Learning 3 - Student Achievement 1 - School Processes & Programs 2 |  | Formative |     |     | Summative |

| <b>Problem Statement 1:</b> Filling the academic gaps of children could pose a challenge in the on-level classrooms. RMS had an increase in its Mobility Rate, At-Risk, and Emergent Bilingual populations during the 2026 school year. These are all areas of need for improvement. <b>Root Cause:</b> With approximately 30% of the RMS population as mobile, we are combining a variety of learning styles and teaching methods into each classroom. This poses opportunities for our teachers to find ways to meet those children where they are and assist them in closing educational gaps due to Mobility.                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| Student Learning                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| <b>Problem Statement 1:</b> There are still several areas below targeted rates for our EB populations. In our high focus group Reading has a target of 42% Meets while Math is set at a 44% Meets rate. <b>Root Cause:</b> Our EB population accounts for approximately 28% of our population and our teachers are still not proficient in sheltered instruction strategies and many of the teachers have only had partial training in sheltered instruction.<br><br><b>Problem Statement 3:</b> Filling the academic gaps of children could pose a challenge in the on-level classrooms. RMS had an increase in its Mobility Rate, At-Risk, and Emergent Bilingual populations during the 2026 school year. These are all areas of need for improvement. <b>Root Cause:</b> With approximately 30% of the RMS population as mobile, we are combining a variety of learning styles and teaching methods into each classroom. **School Processes & Programs**

**Problem Statement 2:** Filling the academic gaps of children could pose a challenge in the on-level classrooms. RMS had an increase in its Mobility Rate, At-Risk, and Emergent Bilingual populations during the 2026 school year. These are all areas of need for improvement. **Root Cause:** With approximately 30% of the RMS population as mobile, we are combining a variety of learning styles and teaching methods into each classroom. This poses opportunities for our teachers to find ways to meet those children where they are and assist them in closing educational gaps due to Mobility.

**Goal 2:** The system will utilize efficient and effective operations to support and improve the learning organization.

**Performance Objective 3:** RMS will highlight/spotlight students to promote healthy well-being and achievements.

**Evaluation Data Sources:** RMS will monitor quarterly discipline, attendance, academic, and acts of leadership to ensure there is improvement in each category quarter over quarter. RMS will also utilize end of year student surveys to review the effectiveness and efficiency of this objective. RMS will utilize the frequency of the House system to promote positive well-being by tracking points earned by individual and groups of students. These groups of students will be celebrated throughout the 2026 school year.

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               | Reviews   |     |     |           |

Performance Objective 3 Problem Statements:

| School Processes & Programs                                                                                                                                                                                                                                                                                                                                                                                                |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> As RMS has worked to implement a successful Positive Behavior Intervention System (PBIS) there is still a need on the campus for all students to have a sense of belonging and wellbeing. <b>Root Cause:</b> Because the RMS House system has not always been implemented consistently, students have struggled to develop buy-in toward working collaboratively for the success of the whole. |

**Goal 3:** All students and staff will learn and work in a safe and responsive environment reaching a 95% approval rating on a district provided survey. This is an ongoing effort that will be measured in the 2025 school year.

**Performance Objective 1:** Increase the percentage of students and staff who report feeling safe at school.

**High Priority**

**Evaluation Data Sources:** Use a district and campus survey in May 2025 to gauge the success of this goal.

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      | Reviews   |     |     |           |

| <b>Problem Statement 1:</b> While staff at Richland Middle School report strong safety practices and preparedness, fewer than two-thirds of students view the campus as safe and orderly, and less than half strongly agree that respect is consistently emphasized. This gap suggests a disconnect between staff confidence in systems and student perceptions of daily campus climate. <b>Root Cause:</b> While safety protocols are strong and consistent, opportunities remain to strengthen students' daily experiences of respect, relationships, and communication so that the campus climate feels as positive and supportive as the systems in place. |

**Goal 3:** All students and staff will learn and work in a safe and responsive environment reaching a 95% approval rating on a district provided survey. This is an ongoing effort that will be measured in the 2025 school year.

**Performance Objective 2:** Ensure staff and students have a sense of safety and security while at Richland Middle School.

**High Priority**

**Evaluation Data Sources:** Faithfully present all BISD Safety and Security Videos to appropriate groups.

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          | Reviews   |     |     |           |

**Performance Objective 2 Problem Statements:**

| Demographics                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> Filling the academic gaps of children could pose a challenge in the on-level classrooms. RMS had an increase in its Mobility Rate, At-Risk, and Emergent Bilingual populations during the 2026 school year. These are all areas of need for improvement. <b>Root Cause:</b> With approximately 30% of the RMS population as mobile, we are combining a variety of learning styles and teaching methods into each classroom. This poses opportunities for our teachers to find ways to meet those children where they are and assist them in closing educational gaps due to Mobility. |

### Student Learning

**Problem Statement 3:** Filling the academic gaps of children could pose a challenge in the on-level classrooms. RMS had an increase in its Mobility Rate, At-Risk, and Emergent Bilingual populations during the 2026 school year. These are all areas of need for improvement. **Root Cause:** With approximately 30% of the RMS population as mobile, we are combining a variety of learning styles and teaching methods into each classroom. This poses opportunities for our teachers to find ways to meet those children where they are and assist them in closing educational gaps due to Mobility.

### School Processes & Programs

**Problem Statement 2:** Filling the academic gaps of children could pose a challenge in the on-level classrooms. RMS had an increase in its Mobility Rate, At-Risk, and Emergent Bilingual populations during the 2026 school year. These are all areas of need for improvement. **Root Cause:** With approximately 30% of the RMS population as mobile, we are combining a variety of learning styles and teaching methods into each classroom. This poses opportunities for our teachers to find ways to meet those children where they are and assist them in closing educational gaps due to Mobility.

### Perceptions

**Problem Statement 1:** While staff at Richland Middle School report strong safety practices and preparedness, fewer than two-thirds of students view the campus as safe and orderly, and less than half strongly agree that respect is consistently emphasized. This gap suggests a disconnect between staff confidence in systems and student perceptions of daily campus climate. **Root Cause:** While safety protocols are strong and consistent, opportunities remain to strengthen students' daily experiences of respect, relationships, and communication so that the campus climate feels as positive and supportive as the systems in place.

**Goal 3:** All students and staff will learn and work in a safe and responsive environment reaching a 95% approval rating on a district provided survey. This is an ongoing effort that will be measured in the 2025 school year.

**Performance Objective 3:** The district will meet all compliance requirements for improvement planning.

**Evaluation Data Sources:** Sign in sheets for all meetings that are appropriate.

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           | Reviews   |     |     |           |

**School Processes & Programs**

**Problem Statement 2:** Filling the academic gaps of children could pose a challenge in the on-level classrooms. RMS had an increase in its Mobility Rate, At-Risk, and Emergent Bilingual populations during the 2026 school year. These are all areas of need for improvement. **Root Cause:** With approximately 30% of the RMS population as mobile, we are combining a variety of learning styles and teaching methods into each classroom. This poses opportunities for our teachers to find ways to meet those children where they are and assist them in closing educational gaps due to Mobility.

**Perceptions**

**Problem Statement 1:** While staff at Richland Middle School report strong safety practices and preparedness, fewer than two-thirds of students view the campus as safe and orderly, and less than half strongly agree that respect is consistently emphasized. This gap suggests a disconnect between staff confidence in systems and student perceptions of daily campus climate. **Root Cause:** While safety protocols are strong and consistent, opportunities remain to strengthen students' daily experiences of respect, relationships, and communication so that the campus climate feels as positive and supportive as the systems in place.

# Comprehensive Needs Assessment

## Demographics

### Demographics Summary

Smithfield Elementary School (SES) serves approximately 603 students in grades PK-5th. Of those 603 students, 56% (340 students) are White, 27% (164 students) are Hispanic, 9% (57 students) are African American, 4% (24 students) are Asian and 1% (7 students) are of two or more races. SES is a Title I campus which means that 42% (256 students) of our students are economically disadvantaged. We have 51% (308 students) of our students which are considered to be "At-Risk". 11% (64 students) of our students are Limited English Proficient (LEP). We have 15% (92 students) of our students who receive special education services. We also have 8% (50 of our students) of our students who are identified and served in the Gifted and Talented program. Our student attendance was 95%.

### Demographics Strengths

Smithfield Elementary School benefits from a diverse student population, with a significant proportion of students in the Gifted and Talented program (8%) and a high student attendance rate of 95%. The school effectively supports a broad range of student needs, including those in special education (15%) and Limited English Proficient (LEP) students (11%). The school's status as a Title I campus reflects its commitment to addressing the needs of economically disadvantaged students (42%) and those classified as "At-Risk" (51%). The diverse demographics and attendance rate are strengths that provide a solid foundation for targeted interventions and support within the campus improvement plan.

### Problem Statements Identifying Demographics Needs

**Problem Statement 1 (Prioritized):** Smithfield Elementary is experiencing a growing emergent bilingual population, increasing from 7% in 2020-2021 to 11% in 2025 - 2026. This rising trend poses challenges in providing adequate support and resources tailored to the needs of these students, which may impact their overall educational experience and integration.

**Root Cause:** The root cause is likely a lack of scalable and adaptive support systems to keep pace with the growing number of emergent bilingual students. The current resources and instructional strategies may not be sufficient to effectively address the expanding needs of this population, leading to potential gaps in language development and academic support.

# Student Learning

## Student Learning Summary

Based on the Spring 2024 STAAR data for Smithfield Elementary School, the following summary highlights student performance across different accountability groups:

### Overall Performance

- 89% of students met the Approaches Grade Level (GL) Standard, 67% met the Meets GL Standard, and 35% achieved the Masters GL Standard.
- Students from the Asian subgroup showed the highest performance across all metrics, with 100% meeting the Approaches GL Standard, 87% meeting the Meets GL Standard, and 57% achieving the Masters GL Standard.
- The High Focus group had lower performance, with 82% at Approaches, 56% at Meets, and 24% at Masters GL Standard.

### Reading/Language Arts (RLA)

- 94% of students met the Approaches GL Standard, 75% met the Meets GL Standard, and 48% achieved the Masters GL Standard.
- The Asian and Two or More Races subgroups excelled, with 100% of students meeting the Approaches and Meets GL Standards, and a significant percentage achieving the Masters GL Standard (85% and 100%, respectively).
- The African American subgroup had lower performance, with 84% at Approaches, 58% at Meets, and 21% at Masters GL Standard.

### Mathematics

- 88% of students met the Approaches GL Standard, 67% met the Meets GL Standard, and 28% achieved the Masters GL Standard.
- Asian students again performed exceptionally well, with 100% meeting the Approaches and Meets GL Standards, and 46% reaching the Masters GL Standard.
- The African American subgroup had the lowest performance, with 80% at Approaches, 35% at Meets, and 10% at Masters GL Standard.

### Science

- 78% of students met the Approaches GL Standard, 40% met the Meets GL Standard, and 15% achieved the Masters GL Standard.
- American Indian and Asian students excelled, with 100% meeting the Approaches GL Standard and high performance at Meets and Masters GL Standards.
- The African American subgroup had 100% Approaches, with no students meeting the Meets or Masters GL Standards.

## Student Learning Strengths

The STAAR data reveals that Smithfield Elementary School has significant strengths in student learning, particularly in Reading/Language Arts, Mathematics, and Science. Mastery levels in Reading/Language Arts are notably high, with nearly half of the students achieving the Masters GL Standard. The consistent high performance of the Asian, American Indian, and Two or More Races subgroups across all three subjects—Reading/Language Arts, Mathematics, and Science—further underscores the effectiveness of the school's educational programs. These strengths provide a strong foundation for continued academic success and suggest that Smithfield Elementary is effectively fostering both proficiency and advanced understanding across key academic areas.

### **Problem Statements Identifying Student Learning Needs**

**Problem Statement 1 (Prioritized):** Smithfield Elementary faces disparities in academic achievement and/or growth across various student subgroups, particularly in Reading/ Language Arts, Mathematics, and Science.

**Root Cause:** These gaps indicate a need for more targeted and effective interventions to ensure that all students succeed academically and reach their full potential.

# School Processes & Programs

## School Processes & Programs Summary

The academic RtI program at Smithfield Elementary serves students in grades K through 5 in both reading and mathematics. Students are identified for tiered intervention services using data from universal screeners administered three times each year and through consideration of other performance evidence by a collaborative conference committee. Progress monitoring and collaboratives take place once every 9 weeks to reevaluate where students are. The specific services provided for students on Tiers 2 and 3 are outlined in the district RtI Manual, which is updated annually to reflect programmatic changes in screening assessments and interventions.

Performance data suggest that the RtI program has been moderately successful in moving students off of tiered interventions. There remains a large proportion of students served on Tier 2 and Tier 3, (22% in reading and 13% in math for grades K-5 as of May 2024) which is based in part on universal screener performance.

## School Processes & Programs Strengths

We have developed a process for evaluating student progress every 9 weeks through a collaborative meeting between teachers, administration, the instructional facilitator and the dyslexia specialist. Interventions are also discussed during these collaboratives. Our math percentage of tier 2 and 3 students has remained the same over the past 2 years.

## Problem Statements Identifying School Processes & Programs Needs

**Problem Statement 1 (Prioritized):** Screener assessments for May 2025 indicate that 26% of kinder- 2 and 30% of 3rd - 5th grade students are reading below grade level.

**Root Cause:** These gaps indicate a need for more targeted and effective interventions to ensure that all students succeed academically and reach their full potential, particularly with guided reading practices and phonics.

# Perceptions

## Perceptions Summary

At Smithfield Elementary we conduct Parent Surveys at the beginning of the year. However, the data that is collected is about expectations that parents have of teachers and their students, in addition to what we can expect from them as parents. We also have a parent survey that asks what they feel are strengths of SES and areas that need improvement. We utilize the data from the district safety survey, as well. The top 2 areas of improvement are:

1. Parking/pick-up and drop off
2. Increase in security officer presence

## Perceptions Strengths

One of the consistent responses that parents give is that they feel as though their child is safe at school and that they feel welcomed while they are on campus.

## Problem Statements Identifying Perceptions Needs

**Problem Statement 1:** At our campus, parking and dismissal processes are creating significant challenges for parents.

**Root Cause:** The current parking facilities are inadequate to accommodate the number of vehicles, leading to congestion and safety concerns. During dismissal times, the situation exacerbates as traffic flow becomes unpredictable, causing delays and increasing frustration among the school community.

**Problem Statement 2 (Prioritized):** Survey data indicate that parents believe campus safety is an area of concern, even though they strongly agree that students feel safe at school.

**Root Cause:** Limited or unclear communication regarding school safety has contributed to parents' concerns and perceptions about the campus environment.

# Priority Problem Statements

**Problem Statement 1:** Screener assessments for May 2025 indicate that 26% of kinder- 2 and 30% of 3rd - 5th grade students are reading below grade level.

**Root Cause 1:** These gaps indicate a need for more targeted and effective interventions to ensure that all students succeed academically and reach their full potential, particularly with guided reading practices and phonics.

**Problem Statement 1 Areas:** School Processes & Programs

**Problem Statement 2:** Smithfield Elementary faces disparities in academic achievement and/or growth across various student subgroups, particularly in Reading/Language Arts, Mathematics, and Science.

**Root Cause 2:** These gaps indicate a need for more targeted and effective interventions to ensure that all students succeed academically and reach their full potential.

**Problem Statement 2 Areas:** Curriculum, Instruction, and Assessment - Student Learning

**Problem Statement 3:** Smithfield Elementary is experiencing a growing emergent bilingual population, increasing from 7% in 2020-2021 to 11% in 2025 - 2026. This rising trend poses challenges in providing adequate support and resources tailored to the needs of these students, which may impact their overall educational experience and integration.

**Root Cause 3:** The root cause is likely a lack of scalable and adaptive support systems to keep pace with the growing number of emergent bilingual students. The current resources and instructional strategies may not be sufficient to effectively address the expanding needs of this population, leading to potential gaps in language development and academic support.

**Problem Statement 3 Areas:** Demographics

**Problem Statement 4:** Survey data indicate that parents believe campus safety is an area of concern, even though they strongly agree that students feel safe at school.

**Root Cause 4:** Limited or unclear communication regarding school safety has contributed to parents' concerns and perceptions about the campus environment.

**Problem Statement 4 Areas:** Perceptions

# Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

## **Improvement Planning Data**

- District goals
- Campus/District improvement plans (current and prior years)
- State and federal planning requirements

## **Accountability Data**

- Student Achievement Domain
- Student Progress Domain
- Closing the Gaps Domain
- Accountability Distinction Designations
- Federal Report Card and accountability data

## **Student Data: Assessments**

- STAAR current and longitudinal results, including all versions
- Texas English Language Proficiency Assessment System (TELPAS) and TELPAS Alternate results
- Other PreK - 2nd grade assessment data

## **Student Data: Behavior and Other Indicators**

- Attendance data
- Discipline records

## **Employee Data**

- Staff surveys and/or other feedback

## **Parent/Community Data**

- Parent surveys and/or other feedback

# Goals

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 1:** All students will make at least one year's progress in reading and mathematics by the end of school year.

a) Meet the progress monitoring targets in Prekindergarten - 3rd for each demographic group as measured by district approved screeners (BOY, MOY and EOY) to achieve the HB3 Board Goals.

b) Improve performance in Domain 3 Closing the Gaps by making more than a year's growth in reading and mathematics which would, in turn, increase the number of students performing at the "meets" and "masters" level as measured by the spring 2025 STAAR and EOC assessments. This will also increase Domain 1 Student Achievement which counts the number of students at the various performance levels for state assessments.

## **HB3 Goal**

**Evaluation Data Sources:** PK: CIRCLE (reading and math)

K-5: Fountas & Pinnell reading levels

K: mClass (reading and math)

1-2: mClass (reading)

1-5: Renaissance STAR Reading

1-5: Renaissance STAR Math

3-5: State released STAAR tests Assessments (reading, math)

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |  | Reviews   |     |     |           |

| <b>Strategy 2:</b> Continue to implement the literacy plan with the focus of responsive teaching and continuous improvement.<br><b>Actions:</b> a. Schedule and implement instructional rounds based on best practices and responsive teaching.<br>b. Provide professional development focused on best practices and strategies to help support teachers.<br>c. Conduct campus walk throughs for the purpose of collecting artifacts to support literacy implementation.<br>d. Increase teacher capacity to teach the required K-3 phonics program.<br>e. Purchase "Amplify Boost" to support Core 95 instruction.<br>f. Purchase No Red Ink to improve ECR and SCR performance.<br>g. Provide intensive planning and coaching in 2nd grade to sustain the growth from the previous grades.<br>h. Implement QSSSA to help students develop writing skills for short-constructed responses which will be scored on the STAAR 5 point rubric.<br><b>Staff Responsible for Monitoring:</b> Administrators<br>Instructional Coach<br><br><b>TEA Priorities:</b><br>Recruit, support, retain teachers and principals, Build a foundation of reading and math<br>- <b>ESF Levers:</b><br>Lever 4: High-Quality Instructional Materials and Assessments, Lever 5: Effective Instruction<br><b>Problem Statements:</b> School Processes & Programs 1 |  | Formative |     |     | Summative |

| <b>Strategy 3:</b> Continue to refine and implement a campus-wide plan for gifted and talented (GT) students to provide opportunities for rigorous learning beyond Tier I coursework.<br><b>Actions:</b> a. Teachers will continue to refine their practice in the Rigor and Relevance Framework.<br>b. Collaborate with teachers to provide activities during intervention instruction and K-2 push-in to provide enrichment lessons, when possible<br>c. Create guided reading groups focused on GT students to have greater gain.<br>d. Students above grade-level in 2nd grade will receive weekly instruction from IF or classroom teacher with higher level texts and Depth of Knowledge (DOK) 5 questioning and extended constructed responses.<br><b>Staff Responsible for Monitoring:</b> Administrators<br>Instructional Facilitator<br><br><b>TEA Priorities:</b><br>Build a foundation of reading and math<br><b>Problem Statements:</b> Student Learning 1 - Curriculum, Instruction, and Assessment 1 | Formative |     |     | Summative |

| <b>Strategy 5:</b> Train staff to administer progress monitoring assessments with fidelity for reading and math in grades PK-5.<br><b>Actions:</b> a. Continue to support and train staff on assessments (mClass, and STAR Renaissance).<br>b. Ensure that the instructional facilitator is working with teachers to utilize progress monitoring data to inform instruction/interventions and document student growth.<br>c. Continue to train and require the use of continuous improvement processes in the classroom.<br>d. Recalibrate grades k-2 in mClass and refresh training on progress monitoring.<br><b>Staff Responsible for Monitoring:</b> Administrators<br>Instructional Coach<br><br><b>TEA Priorities:</b><br>Build a foundation of reading and math<br><b>Problem Statements:</b> Demographics 1 |  | Formative |     |     | Summative |

| <b>Problem Statement 1:</b> Smithfield Elementary is experiencing a growing emergent bilingual population, increasing from 7% in 2020-2021 to 11% in 2025 - 2026. This rising trend poses challenges in providing adequate support and resources tailored to the needs of these students, which may impact their overall educational experience and integration. <b>Root Cause:</b> The root cause is likely a lack of scalable and adaptive support systems to keep pace with the growing number of emergent bilingual students. The current resources and instructional strategies may not be sufficient to effectively address the expanding needs of this population, leading to potential gaps in language development and academic support. |
| Student Learning                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| <b>Problem Statement 1:</b> Smithfield Elementary faces disparities in academic achievement and/or growth across various student subgroups, particularly in Reading/Language Arts, Mathematics, and Science. <b>Root Cause:</b> These gaps indicate a need for more targeted and effective interventions to ensure that all students succeed academically and reach their full potential.                                                                                                                                                                                                                                                                                                                                                         |
| School Processes & Programs                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| <b>Problem Statement 1:</b> Screener assessments for May 2025 indicate that 26% of kinder- 2 and 30% of 3rd - 5th grade students are reading below grade level. <b>Root Cause:</b> These gaps indicate a need for more targeted and effective interventions to ensure that all students succeed academically and reach their full potential, particularly with guided reading practices and phonics.                                                                                                                                                                                                                                                                                                                                              |

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 2:** Close achievement gaps that exist for all under-performing student groups as measured by state and district assessments. Meet all progress monitoring targets for grades prekindergarten - 3rd in reading and mathematics for identified student groups as measured by a district-approved monitoring instrument.

**HB3 Goal**

**Evaluation Data Sources:** Historical performance by student subgroup on state and local assessments

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  | Reviews   |     |     |           |

## Performance Objective 2 Problem Statements:

### Demographics

**Problem Statement 1:** Smithfield Elementary is experiencing a growing emergent bilingual population, increasing from 7% in 2020-2021 to 11% in 2025 - 2026. This rising trend poses challenges in providing adequate support and resources tailored to the needs of these students, which may impact their overall educational experience and integration. **Root Cause:** The root cause is likely a lack of scalable and adaptive support systems to keep pace with the growing number of emergent bilingual students. The current resources and instructional strategies may not be sufficient to effectively address the expanding needs of this population, leading to potential gaps in language development and academic support.

### Student Learning

**Problem Statement 1:** Smithfield Elementary faces disparities in academic achievement and/or growth across various student subgroups, particularly in Reading/Language Arts, Mathematics, and Science. **Root Cause:** These gaps indicate a need for more targeted and effective interventions to ensure that all students succeed academically and reach their full potential.

### School Processes & Programs

**Problem Statement 1:** Screener assessments for May 2025 indicate that 26% of kinder- 2 and 30% of 3rd - 5th grade students are reading below grade level. **Root Cause:** These gaps indicate a need for more targeted and effective interventions to ensure that all students succeed academically and reach their full potential, particularly with guided reading practices and phonics.

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 3:** Students will display an awareness of social-emotional development as measured by a district-administered student survey.

**Evaluation Data Sources:** Social-Emotional Learning survey TBD

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               | Reviews   |     |     |           |

| Perceptions                                                                                                                                                                                                                                                                                                                                  |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 2:</b> Survey data indicate that parents believe campus safety is an area of concern, even though they strongly agree that students feel safe at school. <b>Root Cause:</b> Limited or unclear communication regarding school safety has contributed to parents' concerns and perceptions about the campus environment. |

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 4:** Reduce the number of students assigned to behavioral RtI Tiers 2 and 3.

**Evaluation Data Sources:** Behavioral RtI data records

# Comprehensive Needs Assessment

## Demographics

### Demographics Summary

Smithfield Middle School is located in the North East boundary of the Birdville Independent School District and serves approximately 830 students from Hurst, North Richland Hills, and Colleyville. These classes are comprised of the following demographics:

Male Students-53.2%

Female Students-46.8%

White-63.2%

Hispanic-20.7%

Asian-6.5%

Black-7.8%

Other-3.65%

Special Education-11.21%

Gifted and Talented-18.27%

Economically Disadvantaged-28.38%

Emergent Bilingual- 8%

### Demographics Strengths

The medium income of our families does allow a large percent of our parents the ability to not work, thus allowing them more time to be directly involved in their children's education. We firmly believe, that in order to successfully educate a child, a strong partnership between the home and the school must be established. Our goal is to form this partnership with every one of our parents. The demographics of this area certainly allow us opportunities to get our parents involved. Parental support and involvement is hardly ever an issue at Smithfield Middle School. Furthermore, many of our students come from homes who one or both of the parents have college degrees. We feel that the importance of education is stressed not only while our students are at school but also at home.

### Problem Statements Identifying Demographics Needs

**Problem Statement 1 (Prioritized):** While emergent bilingual students have been successful on state assessments, SMS staff need additional training to continue meeting the needs of these students.

**Root Cause:** The emergent bilingual population has doubled in the last three years.

**Problem Statement 2 (Prioritized):** Student transfers sit at 7%. Students new to Smithfield Middle School need support learning the systems of support.

**Root Cause:** Student Mobility is a factor across the state and can affect any student.

**Problem Statement 3 (Prioritized):** Special Education students passing percentage decreased in all subject areas for 2025 STAAR assessments.

**Root Cause:** Large number of student population in special education contributed to the higher percentage of failures.

**Problem Statement 4 (Prioritized):** Parent survey revealed that 15% of parents do not feel informed of their child's progress, and 19% don't know what is expected of their child in the classroom.

**Root Cause:** Parents are not aware of the systems that are available to them to know the status of their child's academic status.

# Student Learning

## Student Learning Summary

Math- 6th and 8th are performing in the 90%+ for approaches

RLA- 6th RLA increased meets (8%) and masters (9%) from the year before

Most decreases were within 3% from the previous year with a few exceptions (7th Math, 7th RLA, 8th Social Studies

Algebra continues to be a strength with 100% passing and 95% masters

Students indicated that they were prepared for the STAAR assessment and the rigor of the new STAAR 2.0 questions. Special education students and Emergent Bilingual students continue to be an area that we will address for more support in the classroom through specific interventions and supports in and out of the classroom.

## Student Learning Strengths

Reading- 50%+ Masters in all three grade levels

Algebra- 94% in masters category

Science- 8% increase in masters from 2024

Social Studies- 4% increase in masters from 2024

Math- top 1-3 schools in 40 comparison group

## Problem Statements Identifying Student Learning Needs

**Problem Statement 1 (Prioritized):** Over 60% of Smithfield Middle School's teachers are new to the campus over the last four years.

**Root Cause:** There continues to be a challenge of teacher retention and longevity in the profession.

## School Processes & Programs

### School Processes & Programs Summary

The faculty and staff at Smithfield Middle School believe, that in order to be a top tier school, a campus must focus on both the culture and systems of the organization. When both culture and systems are well balanced and aligned, optimal learning conditions will be present.

Instructional- Smithfield Middle staff members are invested in best practices of teaching by using district initiatives designed around curriculum and instruction for student success. Smithfield teachers provide training for the district in implementing best practices teaching strategies. Throughout the year, teachers perform "Raider Rounds" where they observe other teachers teaching. This system allows teachers to provide feedback to improve their craft of teaching and managing students.

From 2022-2024, Smithfield Middle hired 30 new teachers, which makes up 58% of our teaching staff. Teachers are learning our systems and the processes that run the school. The challenge for the new teachers is to become as familiar with the systems and know how to use them.

Smithfield Middle School's fine art's programs have had a tradition of success. Band, choir, art, theatre lead the way in competitions and put an emphasis on being successful extra curricular activities for a well rounded education. Athletics is also an area students find success and growth during their time at Smithfield. Through football, basketball, volleyball, track, and cross country, students learn to compete and more importantly, they learn to work as a team and support one another. Smithfield Middle also offers off-campus gymnastics and tennis where they are able to compete in a specialized sport.

Special Education Programs: In addition to our regular special education program, SMS also supports the Regional Day School for the Deaf. This program serves 10-20 students who have profound hearing loss from all across North Texas. In addition to the RDSD program, SMS also serves as the cluster campus for students who are identified as Emotionally disturbed. The PASS program is designed to serve these students by working on both their academics and their behavior needs through a combination of self contained and inclusion classes. This program serves between 8-10 students per year.

### School Processes & Programs Strengths

Smithfield Middle has many systems that help run the day-to-day operations that allow students to be successful. The Tutorial Board is a system that allows students to independently attend tutorials. This decreases barriers for students to seek help when they are in need. The Tutorial List system is a communication and accountability system that supports teachers and students. Teachers use the list to document missing assignments, and this is communicated to parents and students. The result of the system is students are accountable to turning in their missing assignments; students follow-through in completing the assignments; and student learning increases. This is the most important

system we use for student success.

The Raider Recovery System is to support students completing and turning in assignments. If a student has missing assignments, teachers add the assignments to a spreadsheet, so administration can communicate the missing assignments to the students and parents. Parents are emailed several times a week to notify them of the assignments and expectations for completing the assignments. The Raider Recovery System has recovered over 11,000 assignments over the last two years.

Smithfield Administration sends progress reports to students and parents with grades for all classes once a week to communicate student progress and concerns. Students and parents are also emailed once a week if a student is failing one or more classes. This allows for students and parents to have conversations about the grades and communicate with the teachers about a plan to improve the grade.

#### **Problem Statements Identifying School Processes & Programs Needs**

**Problem Statement 1 (Prioritized):** Smithfield Middle School hired thirty new teachers in the last two years, leading to a period of adjustment as these staff members familiarize themselves with established processes and systems.

**Root Cause:** Teacher turnover rates are contributing to ongoing challenges with staff integration and continuity.

**Problem Statement 2:** Tardies increased to over 2000 for 2024-2025 school year.

**Root Cause:** Consequences changed from previous years' expectations. This will be changed to mirror previous years' expectations.

# Perceptions

## Perceptions Summary

The perception and feeling on students and staff safety is 85% feel safe or believe their child is safe. There were no subject groups that was above 10% where they felt that Smithfield Middle was not a safe school. The leadership survey shows that administration is trusted, cultivate a culture of relationships, and have autonomy to do their job to the best of their ability. With 46% of the staff being new to SMS over the last two years, data is trending in a good direction. We hire teachers who have the same mission and vision as the current staff members.

## Perceptions Strengths

### Safety Survey Results

Safe and Orderly School

Students- 79% Yes, 7% No

Teachers- 89% Yes, 9% No

Parents- 88% Yes, 5% No

### Referral Data from 2023-2024

0% Gang Related Activity

Vape Pen/Tobacco- 1

THC- 0

### Leadership Survey

On a 4 point scale, teachers said they feel:

Connected with administration: 3.6

Connected with Staff: 3.5

Trust with Admin: 3.8

Culture of Relationships: 3.7

Autonomy: 3.8

Trusted: 3.8

## Problem Statements Identifying Perceptions Needs

**Problem Statement 1 (Prioritized):** Discipline referrals continue to increase year over year with an increased number of referrals for tardies.

**Root Cause:** There was a change in methodology in discipline for tardies.

**Problem Statement 2 (Prioritized):** In 2024-2025, there was an increase in the number of referrals for mutual combat.

**Problem Statement 3:** 10% of parents feel students don't show respect to other students.

**Root Cause:** The shift in culture and social media has had an impact on the behaviors of the students.

# Priority Problem Statements

**Problem Statement 1:** While emergent bilingual students have been successful on state assessments, SMS staff need additional training to continue meeting the needs of these students.

**Root Cause 1:** The emergent bilingual population has doubled in the last three years.

**Problem Statement 1 Areas:** Demographics - Student Achievement - Demographics

**Problem Statement 2:** Smithfield Middle School hired thirty new teachers in the last two years, leading to a period of adjustment as these staff members familiarize themselves with established processes and systems.

**Root Cause 2:** Teacher turnover rates are contributing to ongoing challenges with staff integration and continuity.

**Problem Statement 2 Areas:** School Culture and Climate - Staff Quality, Recruitment, and Retention - School Organization - School Processes & Programs

**Problem Statement 3:** Special Education students passing percentage decreased in all subject areas for 2025 STAAR assessments.

**Root Cause 3:** Large number of student population in special education contributed to the higher percentage of failures.

**Problem Statement 3 Areas:** Demographics - Student Achievement - Curriculum, Instruction, and Assessment - Demographics

**Problem Statement 4:** Student transfers sit at 7%. Students new to Smithfield Middle School need support learning the systems of support.

**Root Cause 4:** Student Mobility is a factor across the state and can affect any student.

**Problem Statement 4 Areas:** Demographics - Student Achievement - Staff Quality, Recruitment, and Retention - Demographics

**Problem Statement 5:** Parent survey revealed that 15% of parents do not feel informed of their child's progress, and 19% don't know what is expected of their child in the classroom.

**Root Cause 5:** Parents are not aware of the systems that are available to them to know the status of their child's academic status.

**Problem Statement 5 Areas:** School Culture and Climate - Staff Quality, Recruitment, and Retention - Family and Community Engagement - School Organization - Demographics

**Problem Statement 6:** Over 60% of Smithfield Middle School's teachers are new to the campus over the last four years.

**Root Cause 6:** There continues to be a challenge of teacher retention and longevity in the profession.

**Problem Statement 6 Areas:** School Culture and Climate - Staff Quality, Recruitment, and Retention - School Organization - Student Learning

**Problem Statement 7:** Discipline referrals continue to increase year over year with an increased number of referrals for tardies.

**Root Cause 7:** There was a change in methodology in discipline for tardies.

**Problem Statement 7 Areas:** Perceptions

**Problem Statement 8:** In 2024-2025, there was an increase in the number of referrals for mutual combat.

# Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

## Improvement Planning Data

- District goals
- Campus goals
- Performance Objectives with summative review (prior year)
- Campus/District improvement plans (current and prior years)

## Accountability Data

- Texas Academic Performance Report (TAPR) data
- Comprehensive, Targeted, and/or Additional Targeted Support Identification data
- Community Based Accountability System (CBAS)

## Student Data: Assessments

- State and federally required assessment information
- STAAR current and longitudinal results, including all versions
- STAAR End-of-Course current and longitudinal results, including all versions
- STAAR released test questions
- STAAR Emergent Bilingual (EB) progress measure data
- Texas English Language Proficiency Assessment System (TELPAS) and TELPAS Alternate results
- PSAT
- Student failure and/or retention rates
- Local diagnostic reading assessment data
- Local benchmark or common assessments data
- Observation Survey results
- State-developed online interim assessments

## Student Data: Student Groups

- Race and ethnicity data, including number of students, academic achievement, discipline, attendance, and rates of progress between groups
- Special education/non-special education population including discipline, progress and participation data
- At-risk/non-at-risk population including performance, progress, discipline, attendance, and mobility data
- Emergent Bilingual (EB) /non-EB data, including academic achievement, progress, support and accommodation needs, race, ethnicity, gender etc.
- Section 504 data
- Gifted and talented data
- Dyslexia data
- Response to Intervention (RtI) student achievement data

## Student Data: Behavior and Other Indicators

- Attendance data
- Discipline records

- Student surveys and/or other feedback
- Class size averages by grade and subject
- School safety data
- Enrollment trends

#### **Employee Data**

- Professional learning communities (PLC) data
- Staff surveys and/or other feedback
- Teacher/Student Ratio
- Campus department and/or faculty meeting discussions and data
- Professional development needs assessment data
- Evaluation(s) of professional development implementation and impact

#### **Parent/Community Data**

- Parent surveys and/or other feedback

#### **Support Systems and Other Data**

- Organizational structure data
- Budgets/entitlements and expenditures data

# Goals

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 1:** Improve performance in Domain 3 Closing the Gaps by making more than a year's growth in reading and mathematics which would in turn increase the number of students performing at the "meets" and "masters" level as measured by the spring 2025 STAAR and EOC assessments. This will also increase Domain 1 Student Achievement which counts the number of students at the various performance levels for state assessments

## High Priority

**Evaluation Data Sources:** Secondary: Renaissance STAR Assessments (grades 6-8, reading and mathematics), iStation (grade 7 diagnostic for reading difficulties), TEA Interim reading/ELA and mathematics (grades 6-8, and Algebra)

| <b>Strategy 1:</b> Support the implementation of Tier 1 priorities within each content area.<br><b>Actions:</b> A. Math- Use the internalization to better understand the connection between the content learned and the activities that will be used.<br><br>B. Social Studies- Implement sentence stems in daily activities to increase the students' capacity to write and orally respond with depth of the content.<br><br>C. Science- Engage students with content vocabulary using interactive word walls and tracking data on student mastery of content vocabulary.<br><br>D. Reading/Language Arts- Use variety of sentence stem options to provide students opportunities to communicate verbally or written on the content.<br><br>E. Social Studies and Reading Language Arts teachers will collaborate to incorporate content and strategies. RLA teachers will have students annotate current social studies primary sources. Social Studies teachers will use the annotated sources to evaluate the content.<br><b>Staff Responsible for Monitoring:</b> Department Chairs<br>Campus Administration<br><br><b>ESF Levers:</b><br>Lever 5: Effective Instruction<br><b>Problem Statements:</b> School Processes & Programs 1 - School Culture and Climate 3 - Staff Quality, Recruitment, and Retention 4 - School Organization 3<br><b>Funding Sources:</b> Instructional Facilitator - 255 - Title II | Formative |     |     | Summative |

### Performance Objective 1 Problem Statements:

#### School Processes & Programs

**Problem Statement 1:** Smithfield Middle School hired thirty new teachers in the last two years, leading to a period of adjustment as these staff members familiarize themselves with established processes and systems. **Root Cause:** Teacher turnover rates are contributing to ongoing challenges with staff integration and continuity.

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 2:** Close achievement gaps that exist for all under-performing student groups as measured by state and district assessments.

**High Priority**  
**Evaluation Data Sources:** Historical performance by student subgroup on state and district assessments

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            | Reviews   |     |     |           |

| <b>Problem Statement 1:</b> While emergent bilingual students have been successful on state assessments, SMS staff need additional training to continue meeting the needs of these students. <b>Root Cause:</b> The emergent bilingual population has doubled in the last three years. |

|                                                                                                                                                                                                                                                                   |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Demographics</b>                                                                                                                                                                                                                                               |
| <b>Problem Statement 3:</b> Special Education students passing percentage decreased in all subject areas for 2025 STAAR assessments. <b>Root Cause:</b> Large number of student population in special education contributed to the higher percentage of failures. |

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 3:** Students will display an awareness of social-emotional development as measured by a district-administered student survey.

**Evaluation Data Sources:** Social-Emotional Learning survey

**Performance Objective 3 Problem Statements:**

| Perceptions                                                                                                                                                                                                             |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> Discipline referrals continue to increase year over year with an increased number of referrals for tardies. <b>Root Cause:</b> There was a change in methodology in discipline for tardies. |
| <b>Problem Statement 2:</b> In 2024-2025, there was an increase in the number of referrals for mutual combat.                                                                                                           |

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 4:** Create a culture of respect and expectations for students to be successful.

**Evaluation Data Sources:** Behavioral RtI data records, Discipline Reports, Staying Inside the Circle form data

| <b>Strategy 1:</b> Implement school wide systems that support positive student behavior, restorative practice, and additional behavioral support for students.<br><b>Actions:</b> A. Teachers post and refer to their CHAMPS posters in order to create clear communication and consistent expectations.<br><br>B. CHAMPS expectations will be aligned in common spaces throughout the building .<br><br>C. Hold behavioral Response to Intervention (RTI) committee meetings to review discipline data every four weeks and recommend Tier Placement and interventions.<br><br>D. Teachers utilize "Staying Inside the Circle Form" as a restorative strategy to allow for conversation between a staff and student to address misbehavior.<br><br>E. Teachers communicate with parents for each Stay Inside the Circle Form to provide clarity of the behavior and seek support.<br><br>F. Administration will collect quarterly data from behavioral referrals and Stay Inside the Circle Forms to identify student needs and counseling referrals.<br><br>G. Partner with three local businesses to support student incentives for good behavior.<br><b>Staff Responsible for Monitoring:</b> Campus Administration, Staff<br><br><b>Problem Statements:</b> Demographics 4 - School Culture and Climate 1 - Perceptions 1 - Staff Quality, Recruitment, and Retention 3 - Family and Community Engagement 1 - School Organization 1 | Formative |     |     | Summative |

| <b>Demographics</b>                                                                                                                                                                                                                                                                                                                 |
| <b>Problem Statement 4:</b> Parent survey revealed that 15% of parents do not feel informed of their child's progress, and 19% don't know what is expected of their child in the classroom. <b>Root Cause:</b> Parents are not aware of the systems that are available to them to know the status of their child's academic status. |
| <b>Perceptions</b>                                                                                                                                                                                                                                                                                                                  |
| <b>Problem Statement 1:</b> Discipline referrals continue to increase year over year with an increased number of referrals for tardies. <b>Root Cause:</b> There was a change in methodology in discipline for tardies.                                                                                                             |

**Goal 2:** The system will utilize efficient and effective operations to support and improve the learning organization.

**Performance Objective 1:** Increase the annual total average daily attendance (ADA) as compared to the prior school year, through improved student retention, recruitment, and days in attendance.

**Evaluation Data Sources:** Overall district ADA as per Summer PEIMS submission

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |  | Reviews   |     |     |           |

**Performance Objective 1 Problem Statements:**

| Demographics                                                                                                                                                                                                                                                                                                                                          |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 2:</b> Student transfers sit at 7%. Students new to Smithfield Middle School need support learning the systems of support. <b>Root Cause:</b> Student Mobility is a factor across the state and can affect any student.                                                                                                          |
| <b>Problem Statement 4:</b> Parent survey revealed that 15% of parents do not feel informed of their child's progress, and 19% don't know what is expected of their child in the classroom. <b>Root Cause:</b> Parents are not aware of the systems that are available to them to know the status of their child's academic status.                   |
| School Processes & Programs                                                                                                                                                                                                                                                                                                                           |
| <b>Problem Statement 1:</b> Smithfield Middle School hired thirty new teachers in the last two years, leading to a period of adjustment as these staff members familiarize themselves with established processes and systems. <b>Root Cause:</b> Teacher turnover rates are contributing to ongoing challenges with staff integration and continuity. |

**Goal 2:** The system will utilize efficient and effective operations to support and improve the learning organization.

**Performance Objective 2:** Use continuous improvement to identify and improve operations and outcomes in every department and campus.

**Evaluation Data Sources:** Evaluation of goal achievement as per department improvement plans.

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               | Reviews   |     |     |           |

**Performance Objective 2 Problem Statements:**

| Student Learning                                                                                                                                                                                                                       |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> Over 60% of Smithfield Middle School's teachers are new to the campus over the last four years. <b>Root Cause:</b> There continues to be a challenge of teacher retention and longevity in the profession. |

**Goal 3:** All students and staff will learn and work in a safe and responsive environment.

**Performance Objective 1:** Smithfield Middle School students will grow with each other by staff supporting initiatives that promote self discovery, values, advocacy, and empathy.

**Evaluation Data Sources:** District safety survey of students, parents and staff

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       | Reviews   |     |     |           |

# Comprehensive Needs Assessment

## Demographics

### Demographics Summary

Snow Heights Elementary, located in North Richland Hills, Texas, is a PreK-5 Title 1 campus in Birdville ISD. Although this improvement plan focuses on the 2025-2026 school year, the demographic information comes from the Texas Academic Performance Report data collected during the 2024-2025 school year. Student enrollment at Snow Heights Elementary during 2024-2025 was lower compared to previous years. Enrollment data shows that campus enrollment was approximately 380 students for the majority of the school year.

Our Hispanic student group is one of our largest ethnic groups and represents 30% (114 students) of the population. Our largest student group is White at 49.47% (188 students). Our smallest groups are the following: African American-9.21% (35 students), Asian-3.16% (12 students), and 7.37% (28 students) claim Two-or-More Races. The percentages for most of these groups have stayed similar to previous years. The approximate 14.63% student mobility rate for Snow Heights Elementary remains consistent from year to year, while 38.95% (148) of our students are Economically Disadvantaged, which is slightly lower than the previous school year. The other student groups for Snow Heights Elementary include 5% (19 students) Emergent Bilingual (EB), 9.47% (36 students) Gifted and Talented, and 25.26% (96 students) Special Education. Additionally, 52.89% (201) of our students have been identified as at-risk. The campus attributes much of its achievement to a strong partnership with parents and a focus on high-quality education. The campus is predominantly a neighborhood school, where most students reside within the neighborhood, and approximately one-fourth of students are transported. Snow Heights strives for good attendance and had a 96.19% student rate last year, which has increased from the previous school year. While this is below our campus and district goal of 97%, we will continue to work on increasing the attendance rate for staff and students.

### Demographics Strengths

Snow Heights Elementary has many strengths. Some of the most notable demographic strengths include:

1. The community of Snow Heights is steeped in tradition, involved, consistent, and committed to education. Many families stay in the area just for the school, and many of the teachers went to Snow Heights as students. Since our families value education, we have many supportive parents and students who strive for success.
2. The attendance rate at Snow Heights Elementary is always a focus for any school year and will continue to be for the current year. It remains very close year to year: 96.8% in 2015-2016, 96.6% in 2016-2017, 96.0% in 2017-2018, 96.2% in 2018-2019, and 96.8% in 2020-2021. Attendance dipped severely during the 2021-2022 school year, 94.8%, due to continued Covid protocols. While attendance decreased from the 2022-2023 school year (95.07%) to the 2023-2024 school year (94.31%), our attendance during the 2024-2025 school year increased to 96.19%. Our goal is to reach a rate of 97% or higher for the 2025-2026 school year.
3. Students at Snow Heights Elementary are very accepting of new students regardless of race or ethnicity. Utilizing the district's Social Emotional Behavior (SEB) curriculum, as well as Capturing Kids' Hearts (CKH) strategies, keeps the students and staff committed to building strong relationships with one another. These strong relationships spill over into the homes of our families and into our community.

### Problem Statements Identifying Demographics Needs

**Problem Statement 1 (Prioritized):** Campus attendance is falling short of the 97% goal, indicating a need for improvement in maintaining student attendance rates.

**Root Cause:** Decreased attendance rates since COVID-19 may be due to lingering impacts of the pandemic, such as health concerns, changes in routine, or challenges in re-engaging students and families.

**Problem Statement 2 (Prioritized):** In addition to Resource and Speech students, we have two self-contained Special Education classes on campus. This puts Snow Heights with a 25.26% in Special Education, which is almost a 4% increase from the previous school year and above the district average.

**Root Cause:** The increase in the percentage of Special Education students at Snow Heights, including those coming from other campuses for specialized programs, may be due to changes in district-wide placement practices, variations in student support needs, or adjustments in enrollment patterns.

**Problem Statement 3 (Prioritized):** While most of our students meet the district and campus goal of achieving at least one year's growth in Math, there is still an achievement gap in this subject area.

**Root Cause:** Despite most students meeting the growth goals in Math, an achievement gap persists due to underlying disparities in instructional quality, access to resources, or individual learning needs that are not fully addressed.

**Problem Statement 4 (Prioritized):** There is a disconnect between K-2 and 3-5 Writing; students are not making adequate progress as they enter upper grades.

**Root Cause:** With the addition of Extended Constructed Responses on the STAAR tests, students are not adequately prepared when using the current writing curriculum.

# Student Learning

## Student Learning Summary

The following scores show Snow Heights' performance on the 2025 State of Texas Assessment of Academic Readiness (STAAR) test:

| Subject                       | Campus<br>Approaches | Campus<br>Meets | Campus<br>Masters | District<br>Approaches |
|-------------------------------|----------------------|-----------------|-------------------|------------------------|
| 3 <sup>rd</sup> Grade-Reading | 87.5%                | 62.5%           | 28.57%            | 79.11%                 |
| 3 <sup>rd</sup> Grade-Math    | 74.55%               | 47.27%          | 18.18%            | 73.3%                  |
| 4 <sup>th</sup> Grade-Reading | 88.89%               | 64.81%          | 25.93%            | 84%                    |
| 4 <sup>th</sup> Grade-Math    | 81.82%               | 49.09%          | 27.27%            | 69.69%                 |
| 5 <sup>th</sup> Grade-Reading | 86.76%               | 72.05%          | 30.88%            | 77.59%                 |
| 5 <sup>th</sup> Grade-Math    | 83.82%               | 48.52%          | 20.58%            | 74.03%                 |
| 5 <sup>th</sup> Grade-Science | 85.29%               | 51.47%          | 14.7%             | 66.19%                 |

In addition, the following scores show Snow Heights' performance on the 2025 STAAR Alternate 2 test:

| Subject                       | Campus<br>Satisfactory | Campus<br>Accomplished | District<br>Satisfactory | District<br>Accomplished |
|-------------------------------|------------------------|------------------------|--------------------------|--------------------------|
| 4 <sup>th</sup> Grade-Reading | 100%                   | 100%                   | 92.59%                   | 11.11%                   |
| 4 <sup>th</sup> Grade-Math    | 100%                   | 100%                   | 100%                     | 14.18%                   |

## Student Learning Strengths

Snow Heights Elementary has a population of hard-working, high-achieving students. The campus is proud of many different student achievement strengths, including:

- Strong Reading Interim & STAAR scores in 3rd, 4th, and 5th Grades
- Strong mCLASS scores in K-2
- Closing gaps in the area of Math

## **Problem Statements Identifying Student Learning Needs**

**Problem Statement 1 (Prioritized):** Most of our Special Education students are not meeting the Approaches level on any STAAR test they take.

**Root Cause:** Many of our Special Education students do not qualify for STAAR Alt. While these students can utilize accommodations, many are still below grade level and struggle completing the STAAR test at the Approaches level.

**Problem Statement 2 (Prioritized):** There is not adequate growth in Masters scores in most subject areas for students in Grades 3-5

**Root Cause:** Students are not achieving growth from Meets to Masters levels due to potential gaps in instructional strategies, support systems, or enrichment opportunities that may not fully address the needs of advanced learners.

**Problem Statement 3 (Prioritized):** Students are not achieving allowable points on Writing responses in Grades 3-5.

**Root Cause:** Additional professional learning is needed in this area so students are prepared for the writing components tested on STAAR.

# School Processes & Programs

## School Processes & Programs Summary

At Snow Heights Elementary, students are served by a number of specialized programs related to their individual needs. Almost 39% (approximately 148) of our students are served by the Free and Reduced Lunch program. Nineteen (5%) of our students are considered Emergent Bilingual and receive services through our English as a Second Language program. Currently, 25.26% (96) of our students are served in Special Education. Many of those students have been assigned to our AABLE (Academic and Adaptive Behavior Learning Environment). This program includes students with significant deficits in cognitive and adaptive behaviors who demonstrate needs in functional and developmental areas. Finally, 9.47% of our students have been identified as gifted and talented and are served in the district's Advanced Academics program.

The Multi-Tiered System of Support (MTSS) program serves students in grades Kindergarten through 5 in both Reading and Mathematics. Students are identified for tiered intervention services using data from universal screeners administered three times each year and through consideration of other performance evidence by a collaborative conference committee. Our goal is to keep the intervention groups small and staffed appropriately, which will aid students in closing gaps in their learning. In addition, we offer enrichment to our Tier 1 students by utilizing tutors and other staff members.

## School Processes & Programs Strengths

- Snow Heights has a strong vertical alignment among teachers and staff. They meet in vertical teams (Reading/Writing, Math, and Science) throughout the year to align curriculum and interventions. In addition, they meet to discuss campus expectations K-2 and 3-5 regularly.
- Trained tutors are utilized to assist in providing intervention to struggling students
- Teachers implement Tier 1 priorities to ensure strong Tier 1 instruction is being delivered

## Problem Statements Identifying School Processes & Programs Needs

**Problem Statement 1 (Prioritized):** The Reading and Math year's growth data for Snow Heights shows that our higher level Tier One students are not making adequate growth.

**Root Cause:** The campus is not providing sufficient differentiation opportunities for students.

**Problem Statement 2 (Prioritized):** Students are slow to respond to intervention as many are not moving off tiers in a timely manner.

**Root Cause:** Insufficient adherence to Tier 1 instructional priorities and inconsistent implementation of interventions may be contributing to gaps in student learning and achievement.

**Problem Statement 3 (Prioritized):** Misalignment between cluster campuses, including middle and high schools, is leading to inconsistent educational experiences and outcomes

across our feeder schools.

**Root Cause:** Misalignment between cluster campuses, including middle and high schools, is leading to inconsistent educational experiences and outcomes across our feeder schools.

**Problem Statement 4 (Prioritized):** Campus attendance is falling short of the 97% goal, indicating a need for improvement in maintaining student attendance rates.

**Root Cause:** Decreased attendance rates since COVID-19 may be due to lingering impacts of the pandemic, such as health concerns, changes in routine, or challenges in re-engaging students and families.

# Perceptions

## Perceptions Summary

During the 2024-2025 school year, Snow Heights Elementary collected data from students and parents in regards to school safety, processes, and events. Staff, parents, and students in Grades 3-5 completed these surveys during the Spring of 2025. Data collected included perceptions of the overall safety environment of Snow Heights, as well as meeting the social/emotional needs of students.

Students, parents, and staff responded to the following questions:

1. Visitors must present a photo ID to obtain a visitor's badge?
2. Have you noticed any open or unlocked exterior doors during the instructional day?
3. Does your student have a trusting relationship with at least one adult on campus?
4. Have you noticed any staff member without an ID badge?
5. Staff members monitor hallways during school hours?
6. Procedures used to make disciplinary decisions are well known to students?
7. Students receive training specifically on bullying prevention and cyberbullying?
8. Students receive training on positive social skills, violence prevention, conflict resolution and communication/decision making skills?
9. Are you informed about Anonymous Alerts?
10. Have you discussed Stand Response Protocols (Lock-Down, Secure Lock-Out, Shelter, Hold, and Evacuation)?
11. Respect for all persons is emphasized throughout the campus?
12. Are you (is your student) involved in at least one extra-curricular activity either at school or outside of the campus?
13. Overall do you consider your campus safe and orderly?

## Perceptions Strengths

Survey results indicated the following regarding perceptions of school safety, processes, and procedures.

- Over 87% of student responses showed that students were trained and ready to implement Standard Response Protocols
- 93.75% of parents reported that their student had a trusting relationship with at least one adult on campus
  - 93.55% of students reported that they had a trusting relationship with at least one adult on campus
  - 100% of parents consider Snow Heights safe and orderly
- Parents and Staff shared the importance of all student/family activities set Snow Heights apart from other campuses

## Problem Statements Identifying Perceptions Needs

**Problem Statement 1 (Prioritized):** Even though students indicated that they are aware of Standard Response protocols, parents need more communication in this area so they can discuss with their student(s)

**Root Cause:** Insufficient communication of Standard Response Protocols throughout the school year has led to a lack of awareness among parents about safety procedures.

**Problem Statement 2 (Prioritized):** Despite having social-emotional learning programs in place, there is a perceived gap in the training and support provided for positive social

skills, violence prevention, conflict resolution, and communication/decision-making skills, as indicated by feedback from students and parents.

**Root Cause:** In regards to Social Emotional Behaviors, students and parents indicated a need for training in positive social skills, violence prevention, conflict resolution, and communication/decision making skills.

**Problem Statement 3 (Prioritized):** Parents have expressed a need for more communication regarding curriculum expectations and disciplinary procedures, indicating that current methods may not effectively keep them informed.

**Root Cause:** Current communication strategies and outlets (campus, teacher, grade level) may be insufficient or inconsistent in conveying curriculum expectations and disciplinary procedures, leading to gaps in parental awareness and understanding.

# Priority Problem Statements

**Problem Statement 1:** There is not adequate growth in Masters scores in most subject areas for students in Grades 3-5

**Root Cause 1:** Students are not achieving growth from Meets to Masters levels due to potential gaps in instructional strategies, support systems, or enrichment opportunities that may not fully address the needs of advanced learners.

**Problem Statement 1 Areas:** Student Learning

**Problem Statement 2:** The Reading and Math year's growth data for Snow Heights shows that our higher level Tier One students are not making adequate growth.

**Root Cause 2:** The campus is not providing sufficient differentiation opportunities for students.

**Problem Statement 2 Areas:** School Processes & Programs

**Problem Statement 3:** Even though students indicated that they are aware of Standard Response protocols, parents need more communication in this area so they can discuss with their student(s)

**Root Cause 3:** Insufficient communication of Standard Response Protocols throughout the school year has led to a lack of awareness among parents about safety procedures.

**Problem Statement 3 Areas:** Perceptions

**Problem Statement 4:** Despite having social-emotional learning programs in place, there is a perceived gap in the training and support provided for positive social skills, violence prevention, conflict resolution, and communication/decision-making skills, as indicated by feedback from students and parents.

**Root Cause 4:** In regards to Social Emotional Behaviors, students and parents indicated a need for training in positive social skills, violence prevention, conflict resolution, and communication/decision making skills.

**Problem Statement 4 Areas:** Perceptions

**Problem Statement 5:** While most of our students meet the district and campus goal of achieving at least one year's growth in Math, there is still an achievement gap in this subject area.

**Root Cause 5:** Despite most students meeting the growth goals in Math, an achievement gap persists due to underlying disparities in instructional quality, access to resources, or individual learning needs that are not fully addressed.

**Problem Statement 5 Areas:** Demographics

**Problem Statement 6:** Students are slow to respond to intervention as many are not moving off tiers in a timely manner.

**Root Cause 6:** Insufficient adherence to Tier 1 instructional priorities and inconsistent implementation of interventions may be contributing to gaps in student learning and achievement.

**Problem Statement 6 Areas:** School Processes & Programs

**Problem Statement 7:** In addition to Resource and Speech students, we have two self-contained Special Education classes on campus. This puts Snow Heights with a 25.26% in

Special Education, which is almost a 4% increase from the previous school year and above the district average.

**Root Cause 7:** The increase in the percentage of Special Education students at Snow Heights, including those coming from other campuses for specialized programs, may be due to changes in district-wide placement practices, variations in student support needs, or adjustments in enrollment patterns.

**Problem Statement 7 Areas:** Demographics

**Problem Statement 8:** Most of our Special Education students are not meeting the Approaches level on any STAAR test they take.

**Root Cause 8:** Many of our Special Education students do not qualify for STAAR Alt. While these students can utilize accommodations, many are still below grade level and struggle completing the STAAR test at the Approaches level.

**Problem Statement 8 Areas:** Student Learning

**Problem Statement 9:** Misalignment between cluster campuses, including middle and high schools, is leading to inconsistent educational experiences and outcomes across our feeder schools.

**Root Cause 9:** Misalignment between cluster campuses, including middle and high schools, is leading to inconsistent educational experiences and outcomes across our feeder schools.

**Problem Statement 9 Areas:** School Processes & Programs

**Problem Statement 10:** Parents have expressed a need for more communication regarding curriculum expectations and disciplinary procedures, indicating that current methods may not effectively keep them informed.

**Root Cause 10:** Current communication strategies and outlets (campus, teacher, grade level) may be insufficient or inconsistent in conveying curriculum expectations and disciplinary procedures, leading to gaps in parental awareness and understanding.

**Problem Statement 10 Areas:** Perceptions

**Problem Statement 11:** There is a disconnect between K-2 and 3-5 Writing; students are not making adequate progress as they enter upper grades.

**Root Cause 11:** With the addition of Extended Constructed Responses on the STAAR tests, students are not adequately prepared when using the current writing curriculum.

**Problem Statement 11 Areas:** Demographics

**Problem Statement 12:** Students are not achieving allowable points on Writing responses in Grades 3-5.

**Root Cause 12:** Additional professional learning is needed in this area so students are prepared for the writing components tested on STAAR.

**Problem Statement 12 Areas:** Student Learning

**Problem Statement 13:** Campus attendance is falling short of the 97% goal, indicating a need for improvement in maintaining student attendance rates.

**Root Cause 13:** Decreased attendance rates since COVID-19 may be due to lingering impacts of the pandemic, such as health concerns, changes in routine, or challenges in re-engaging students and families.

**Problem Statement 13 Areas:** Demographics - School Processes & Programs

# Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

## Improvement Planning Data

- District goals
- State and federal planning requirements

## Accountability Data

- Texas Academic Performance Report (TAPR) data
- Student Achievement Domain
- Student Progress Domain
- Closing the Gaps Domain

## Student Data: Assessments

- State and federally required assessment information
- STAAR current and longitudinal results, including all versions
- STAAR Emergent Bilingual (EB) progress measure data
- Student failure and/or retention rates
- Running Records results

## Student Data: Student Groups

- Dyslexia data
- Response to Intervention (RtI) student achievement data

## Student Data: Behavior and Other Indicators

- Attendance data
- Mobility rate, including longitudinal data
- Discipline records
- Student surveys and/or other feedback

## Employee Data

- Professional learning communities (PLC) data
- Staff surveys and/or other feedback
- Campus leadership data
- Campus department and/or faculty meeting discussions and data

## Parent/Community Data

- Parent surveys and/or other feedback
- Parent engagement rate

## Support Systems and Other Data

- Processes and procedures for teaching and learning, including program implementation
- Study of best practices

# Goals

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 1:** All students will make at least one year's progress in Reading and mathematics by the end of school year.

a) Meet the progress monitoring targets in Prekindergarten - 3rd for each demographic group as measured by district approved screeners (BOY, MOY and EOY) to achieve the HB3 Board Goals.

b) Improve performance in Domain 3 Closing the Gaps by making more than a year's growth in reading and mathematics which would in turn increase the number of students performing at the "meets" and "masters" level as measured by the spring 2025 STAAR and EOC assessments. This will also increase Domain 1 Student Achievement which counts the number of students at the various performance levels for state assessments.

## **HB3 Goal**

**Evaluation Data Sources:** CLI Engage-CIRCLE (PreKindergarten Reading and Math)

Fountas & Pinnell Reading Levels

mClass (Kindergarten, Reading and Math)

mClass (Grades 1-2, Reading)

### Performance Objective 1 Problem Statements:

| Demographics                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 2:</b> In addition to Resource and Speech students, we have two self-contained Special Education classes on campus. This puts Snow Heights with a 25.26% in Special Education, which is almost a 4% increase from the previous school year and above the district average. <b>Root Cause:</b> The increase in the percentage of Special Education students at Snow Heights, including those coming from other campuses for specialized programs, may be due to changes in district-wide placement practices, variations in student support needs, or adjustments in enrollment patterns. |
| <b>Problem Statement 3:</b> While most of our students meet the district and campus goal of achieving at least one year's growth in Math, there is still an achievement gap in this subject area. <b>Root Cause:</b> Despite most students meeting the growth goals in Math, an achievement gap persists due to underlying disparities in instructional quality, access to resources, or individual learning needs that are not fully addressed.                                                                                                                                                              |
| <b>Problem Statement 4:</b> There is a disconnect between K-2 and 3-5 Writing; students are not making adequate progress as they enter upper grades. <b>Root Cause:</b> With the addition of Extended Constructed Responses on the STAAR tests, students are not adequately prepared when using the current writing curriculum.                                                                                                                                                                                                                                                                               |
| Student Learning                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| <b>Problem Statement 1:</b> Most of our Special Education students are not meeting the Approaches level on any STAAR test they take. <b>Root Cause:</b> Many of our Special Education students do not qualify for STAAR Alt. While these students can utilize accommodations, many are still below grade level and struggle completing the STAAR test at the Approaches level.                                                                                                                                                                                                                                |
| <b>Problem Statement 2:</b> There is not adequate growth in Masters scores in most subject areas for students in Grades 3-5 <b>Root Cause:</b> Students are not achieving growth from Meets to Masters levels due to potential gaps in instructional strategies, support systems, or enrichment opportunities that may not fully address the needs of advanced learners.                                                                                                                                                                                                                                      |

### Student Learning

**Problem Statement 3:** Students are not achieving allowable points on Writing responses in Grades 3-5. **Root Cause:** Additional professional learning is needed in this area so students are prepared for the writing components tested on STAAR.

### School Processes & Programs

**Problem Statement 1:** The Reading and Math year's growth data for Snow Heights shows that our higher level Tier One students are not making adequate growth. **Root Cause:** The campus is not providing sufficient differentiation opportunities for students.

**Problem Statement 3:** Misalignment between cluster campuses, including middle and high schools, is leading to inconsistent educational experiences and outcomes across our feeder schools. **Root Cause:** Misalignment between cluster campuses, including middle and high schools, is leading to inconsistent educational experiences and outcomes across our feeder schools.

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 2:** Close achievement gaps that exist for all under-performing student groups as measured by state and district assessments. Meet all progress monitoring targets for grades prekindergarten - 3rd in reading and mathematics for identified student groups as measured by a district-approved monitoring instrument.

**HB3 Goal**

**Evaluation Data Sources:** Historical performance by student subgroup on state and district assessments

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             | Reviews   |     |     |           |

| <b>Problem Statement 1:</b> Campus attendance is falling short of the 97% goal, indicating a need for improvement in maintaining student attendance rates. <b>Root Cause:</b> Decreased attendance rates since COVID-19 may be due to lingering impacts of the pandemic, such as health concerns, changes in routine, or challenges in re-engaging students and families. |

| <p><b>Problem Statement 2:</b> In addition to Resource and Speech students, we have two self-contained Special Education classes on campus. This puts Snow Heights with a 25.26% in Special Education, which is almost a 4% increase from the previous school year and above the district average. <b>Root Cause:</b> The increase in the percentage of Special Education students at Snow Heights, including those coming from other campuses for specialized programs, may be due to changes in district-wide placement practices, variations in student support needs, or adjustments in enrollment patterns.</p> <p><b>Problem Statement 3:</b> While most of our students meet the district and campus goal of achieving at least one year's growth in Math, there is still an achievement gap in this subject area. <b>Root Cause:</b> Despite most students meeting the growth goals in Math, an achievement gap persists due to underlying disparities in instructional quality, access to resources, or individual learning needs that are not fully addressed.</p>                                                                                                                                                                                                                                                                                                                         |
| Student Learning                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| <p><b>Problem Statement 1:</b> Most of our Special Education students are not meeting the Approaches level on any STAAR test they take. <b>Root Cause:</b> Many of our Special Education students do not qualify for STAAR Alt. While these students can utilize accommodations, many are still below grade level and struggle completing the STAAR test at the Approaches level.</p> <p><b>Problem Statement 2:</b> There is not adequate growth in Masters scores in most subject areas for students in Grades 3-5 <b>Root Cause:</b> Students are not achieving growth from Meets to Masters levels due to potential gaps in instructional strategies, support systems, or enrichment opportunities that may not fully address the needs of advanced learners.</p> <p><b>Problem Statement 3:</b> Students are not achieving allowable points on Writing responses in Grades 3-5. <b>Root Cause:</b> Additional professional learning is needed in this area so students are prepared for the writing components tested on STAAR.</p>                                                                                                                                                                                                                                                                                                                                                             |
| School Processes & Programs                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| <p><b>Problem Statement 1:</b> The Reading and Math year's growth data for Snow Heights shows that our higher level Tier One students are not making adequate growth. <b>Root Cause:</b> The campus is not providing sufficient differentiation opportunities for students.</p> <p><b>Problem Statement 2:</b> Students are slow to respond to intervention as many are not moving off tiers in a timely manner. <b>Root Cause:</b> Insufficient adherence to Tier 1 instructional priorities and inconsistent implementation of interventions may be contributing to gaps in student learning and achievement.</p> <p><b>Problem Statement 3:</b> Misalignment between cluster campuses, including middle and high schools, is leading to inconsistent educational experiences and outcomes across our feeder schools. <b>Root Cause:</b> Misalignment between cluster campuses, including middle and high schools, is leading to inconsistent educational experiences and outcomes across our feeder schools.</p> <p><b>Problem Statement 4:</b> Campus attendance is falling short of the 97% goal, indicating a need for improvement in maintaining student attendance rates. <b>Root Cause:</b> Decreased attendance rates since COVID-19 may be due to lingering impacts of the pandemic, such as health concerns, changes in routine, or challenges in re-engaging students and families.</p> |
| Perceptions                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| <p><b>Problem Statement 2:</b> Despite having social-emotional learning programs in place, there is a perceived gap in the training and support provided for positive social skills, violence prevention, conflict resolution, and communication/decision-making skills, as indicated by feedback from students and parents. <b>Root Cause:</b> In regards to Social Emotional Behaviors, students and parents indicated a need for training in positive social skills, violence prevention, conflict resolution, and communication/decision making skills.</p> <p><b>Problem Statement 3:</b> Parents have expressed a need for more communication regarding curriculum expectations and disciplinary procedures, indicating that current methods may not effectively keep them informed. <b>Root Cause:</b> Current communication strategies and outlets (campus, teacher, grade level) may be insufficient or inconsistent in conveying curriculum expectations and disciplinary procedures, leading to gaps in parental awareness and understanding.</p>                                                                                                                                                                                                                                                                                                                                         |

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 3:** Decrease the number of students in behavioral MTSS Tiers 2 and 3 who are assigned disciplinary placements.

**Evaluation Data Sources:** Social-Emotional Learning survey TBD

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         | Reviews   |     |     |           |

| <b>Problem Statement 1:</b> Campus attendance is falling short of the 97% goal, indicating a need for improvement in maintaining student attendance rates. <b>Root Cause:</b> Decreased attendance rates since COVID-19 may be due to lingering impacts of the pandemic, such as health concerns, changes in routine, or challenges in re-engaging students and families.                                                                                                                                                                                |
| School Processes & Programs                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| <b>Problem Statement 2:</b> Students are slow to respond to intervention as many are not moving off tiers in a timely manner. <b>Root Cause:</b> Insufficient adherence to Tier 1 instructional priorities and inconsistent implementation of interventions may be contributing to gaps in student learning and achievement.                                                                                                                                                                                                                             |
| <b>Problem Statement 4:</b> Campus attendance is falling short of the 97% goal, indicating a need for improvement in maintaining student attendance rates. <b>Root Cause:</b> Decreased attendance rates since COVID-19 may be due to lingering impacts of the pandemic, such as health concerns, changes in routine, or challenges in re-engaging students and families.                                                                                                                                                                                |
| Perceptions                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| <b>Problem Statement 2:</b> Despite having social-emotional learning programs in place, there is a perceived gap in the training and support provided for positive social skills, violence prevention, conflict resolution, and communication/decision-making skills, as indicated by feedback from students and parents. <b>Root Cause:</b> In regards to Social Emotional Behaviors, students and parents indicated a need for training in positive social skills, violence prevention, conflict resolution, and communication/decision making skills. |

**Goal 2:** Utilize efficient and effective operations to support and improve the learning organization.

**Performance Objective 1:** Increase annual average daily attendance (ADA) by improving student enrollment, retention, and recruitment efforts, while maximizing the number of instructional days students are present throughout the school year.

**Evaluation Data Sources:** Overall district ADA as per Summer PEIMS submission

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              | Reviews   |     |     |           |

|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> Campus attendance is falling short of the 97% goal, indicating a need for improvement in maintaining student attendance rates. <b>Root Cause:</b> Decreased attendance rates since COVID-19 may be due to lingering impacts of the pandemic, such as health concerns, changes in routine, or challenges in re-engaging students and families. |
| School Processes & Programs                                                                                                                                                                                                                                                                                                                                               |
| <b>Problem Statement 4:</b> Campus attendance is falling short of the 97% goal, indicating a need for improvement in maintaining student attendance rates. <b>Root Cause:</b> Decreased attendance rates since COVID-19 may be due to lingering impacts of the pandemic, such as health concerns, changes in routine, or challenges in re-engaging students and families. |

**Goal 3:** All students and staff will learn and work in a safe and responsive environment.

**Performance Objective 1:** Attain a 10% annual increase in results on a school safety survey that is administered to students, staff, and parents.

**Evaluation Data Sources:** District and campus safety survey of students, parents and staff

**Performance Objective 1 Problem Statements:**

### Demographics

**Problem Statement 3:** While most of our students meet the district and campus goal of achieving at least one year's growth in Math, there is still an achievement gap in this subject area. **Root Cause:** Despite most students meeting the growth goals in Math, an achievement gap persists due to underlying disparities in instructional quality, access to resources, or individual learning needs that are not fully addressed.

### Perceptions

**Problem Statement 1:** Even though students indicated that they are aware of Standard Response protocols, parents need more communication in this area so they can discuss with their student(s) **Root Cause:** Insufficient communication of Standard Response Protocols throughout the school year has led to a lack of awareness among parents about safety procedures.

**Problem Statement 2:** Despite having social-emotional learning programs in place, there is a perceived gap in the training and support provided for positive social skills, violence prevention, conflict resolution, and communication/decision-making skills, as indicated by feedback from students and parents. **Root Cause:** In regards to Social Emotional Behaviors, students and parents indicated a need for training in positive social skills, violence prevention, conflict resolution, and communication/decision making skills.

**Problem Statement 3:** Parents have expressed a need for more communication regarding curriculum expectations and disciplinary procedures, indicating that current methods may not effectively keep them informed. **Root Cause:** Current communication strategies and outlets (campus, teacher, grade level) may be insufficient or inconsistent in conveying curriculum expectations and disciplinary procedures, leading to gaps in parental awareness and understanding.

**Goal 3:** All students and staff will learn and work in a safe and responsive environment.

**Performance Objective 2:** Reduce the cost of accidents resulting in workers' compensation claims by 10% over the previous year and reduce the number of work days lost each year due to accidents occurring on the job by 10%.

**Evaluation Data Sources:** Annual report of worker's compensation claims

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           | Reviews   |     |     |           |

| <b>Problem Statement 1:</b> Even though students indicated that they are aware of Standard Response protocols, parents need more communication in this area so they can discuss with their student(s) <b>Root Cause:</b> Insufficient communication of Standard Response Protocols throughout the school year has led to a lack of awareness among parents about safety procedures.                                                                                                                                                                      |
| <b>Problem Statement 2:</b> Despite having social-emotional learning programs in place, there is a perceived gap in the training and support provided for positive social skills, violence prevention, conflict resolution, and communication/decision-making skills, as indicated by feedback from students and parents. <b>Root Cause:</b> In regards to Social Emotional Behaviors, students and parents indicated a need for training in positive social skills, violence prevention, conflict resolution, and communication/decision making skills. |

**Performance Objective 3 Problem Statements:**

| Demographics                                                                                                                                                                                                                                                                                                                                                              |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> Campus attendance is falling short of the 97% goal, indicating a need for improvement in maintaining student attendance rates. <b>Root Cause:</b> Decreased attendance rates since COVID-19 may be due to lingering impacts of the pandemic, such as health concerns, changes in routine, or challenges in re-engaging students and families. |

### School Processes & Programs

**Problem Statement 3:** Misalignment between cluster campuses, including middle and high schools, is leading to inconsistent educational experiences and outcomes across our feeder schools. **Root Cause:** Misalignment between cluster campuses, including middle and high schools, is leading to inconsistent educational experiences and outcomes across our feeder schools.

**Problem Statement 4:** Campus attendance is falling short of the 97% goal, indicating a need for improvement in maintaining student attendance rates. **Root Cause:** Decreased attendance rates since COVID-19 may be due to lingering impacts of the pandemic, such as health concerns, changes in routine, or challenges in re-engaging students and families.

### Perceptions

**Problem Statement 2:** Despite having social-emotional learning programs in place, there is a perceived gap in the training and support provided for positive social skills, violence prevention, conflict resolution, and communication/decision-making skills, as indicated by feedback from students and parents. **Root Cause:** In regards to Social Emotional Behaviors, students and parents indicated a need for training in positive social skills, violence prevention, conflict resolution, and communication/decision making skills.

**Problem Statement 3:** Parents have expressed a need for more communication regarding curriculum expectations and disciplinary procedures, indicating that current methods may not effectively keep them informed. **Root Cause:** Current communication strategies and outlets (campus, teacher, grade level) may be insufficient or inconsistent in conveying curriculum expectations and disciplinary procedures, leading to gaps in parental awareness and understanding.

**Goal 3:** All students and staff will learn and work in a safe and responsive environment.

**Performance Objective 4:** The district will provide a safe and support learning environment by maintaining a robust counseling and mental health support system.

**Evaluation Data Sources:** Campus climate surveys  
 Campus behavior reports for discipline, detention, and suspensions  
 Meeting notes and agendas from mental health committees  
 Staff training agendas and logs  
 Campus crisis referral reports  
 Counseling lesson documentation  
 Pre and post survey data

|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 2:</b> Despite having social-emotional learning programs in place, there is a perceived gap in the training and support provided for positive social skills, violence prevention, conflict resolution, and communication/decision-making skills, as indicated by feedback from students and parents. <b>Root Cause:</b> In regards to Social Emotional Behaviors, students and parents indicated a need for training in positive social skills, violence prevention, conflict resolution, and communication/decision making skills. |
| <b>Problem Statement 3:</b> Parents have expressed a need for more communication regarding curriculum expectations and disciplinary procedures, indicating that current methods may not effectively keep them informed. <b>Root Cause:</b> Current communication strategies and outlets (campus, teacher, grade level) may be insufficient or inconsistent in conveying curriculum expectations and disciplinary procedures, leading to gaps in parental awareness and understanding.                                                                    |

## 1. Comprehensive Needs Assessment (CNA) ESSA Section 1114(b)(6)

### 1.1: Description of CNA Process

The Comprehensive Needs Assessment was conducted during the months of March and April 2025. It was then presented in May using data from the 2023-2024 and any current data from the 2024-2025 school year which included STAAR achievement, TELPAS and universal screener results, attendance and behavior data, and spring survey feedback.

### 1.2: Location for Evidence of Multiple Meetings Held

Documentation is housed locally in Canvas.

## 2. Schoolwide Program Plan/Campus Improvement Plan (CIP) ESSA Section 1114(b)

### 2.1: Timeline for Schoolwide Program/CIP Development 1114(b)(1)(A)

March through October

### 2.2: Stakeholders 1114(b)(2)

The Campus Improvement Plan was developed with the following stakeholders:

Casey Orr-Resource Teacher, SBDM Member

Dawnya Morrison-4th Grade Teacher, SBDM Member

Jessica Hancock-3rd Grade English Language Arts Teacher, SBDM Member

Jillian Dreixler-Assistant Principal, LOL & SBDM Member

Tonya Bishop-1st Grade Teacher, SBDM Member

Susan Nall-Principal

Sheri Norton-Instructional Facilitator, SBDM & LOL member

Chelsea White-SHE PTA President and parent

Melissa Vittas-SHE parent, PTA Member

Don Beach-Business Representative & Volunteer

### **2.3: Description of Plan Availability, Format, and Language 1114(b)(4)**

The Snow Heights 2025-2026 campus plan will be available to parents and community members on the campus' website: [www.birdvilleschools.net/she](http://www.birdvilleschools.net/she). The plan is also available through the district website in English, and a printed copy may be requested in the campus front office.

### **2.4: Description of Plan Coordination (if Applicable) 1114(b)(5)**

Described in plan

## **3. Evaluation of Program Effectiveness ESSA Section 114(b)(3)**

### **3.1: Location and Confirmation for Evaluation of Program Effectiveness Documentation**

The Campus Improvement Plan for Snow Heights Elementary is revised and evaluated in November, January, March and June each school year.

## Demographics

### Demographics Summary

W. A. Porter Elementary School, established in 1975, is located in northeast Tarrant County and serves portions of three municipalities: North Richland Hills, Hurst, and Colleyville. The school draws students from neighborhoods that range from urban, low-income communities to upper-middle-class suburban areas.

The campus currently serves **538 students in grades EE–5**. The student population is composed of **66.17% White (356)**, **20.45% Hispanic (110)**, **5.2% Asian (28)**, **3.9% African American (21)**, and **3.9% two or more races (21)**. Approximately **16.91% (91)** of students are identified as Economically Disadvantaged. Over the past decade, the percentage of Hispanic students has steadily increased, while the percentage of White students has gradually declined. During the same period, the percentage of English Language Learners has risen, though the number of students identified as Limited English Proficient has stabilized at **6.51% (35)** for the past three years. Enrollment trends show a slight increase in Asian students and a slight decrease in African American students. Overall, student enrollment has remained relatively stable over the last 12 years, with only minor fluctuations.

A distinguishing characteristic of W. A. Porter is its diverse range of student needs and strengths. The campus serves a **higher-than-average percentage of students receiving Special Education services (23.79%, 128)**, while also supporting a robust **Gifted and Talented population (10.97%, 59)**. Additionally, W. A. Porter is the **Regional Day School for the Deaf (PK–5)**, serving students from Birdville, Carroll, Hurst-Euless-Bedford, Keller, Grapevine-Colleyville, and Eagle Mountain-Saginaw ISDs. Students in the Deaf Education program account for **7.43% (40)** of the total enrollment.

The teaching staff consists of **38 educators**, of whom **97.4% are female and 97.4% are White, with 2.6% identifying as two or more races** (2023–2024 TAPR data). Teacher retention remains high, with little staff turnover, which contributes to a stable and experienced faculty. The distribution of teaching experience is as follows: **18% have 1–5 years of experience, 15.7% have 6–10 years, 25.1% have 11–20 years, and 32.2% have more than 20 years of experience**. The average length of service within BISD is **15.7 years**. All teachers hold a bachelor's degree, and **34.6% hold a master's degree**. In recent years, several staff members have advanced into instructional leadership or pursued administrative credentials, reflecting the campus's commitment to professional growth and leadership development.

The **student attendance rate** for the most recent year was **95.89%**. The percentage of students identified as Economically Disadvantaged (**16.91%**) decreased from the previous year, while the percentage of **at-risk students (43.31%, 233)** has increased by approximately 10% over the past three years.

### Demographics Strengths

- **Stable Enrollment:** Student enrollment has remained consistent over the past 12 years, providing continuity for long-term planning and a strong sense of community.
- **Diverse Student Needs:** W. A. Porter serves a broad range of students, including a higher-than-average percentage of both Special Education (23.79%) and Gifted and Talented students (10.97%), demonstrating the campus's ability to support students across the learning spectrum.
- **Regional Leadership in Deaf Education:** As the Regional Day School for the Deaf, Porter serves students from multiple districts, providing specialized programming and expertise that benefit both students and staff.
- **Shifting Diversity:** While the student population remains majority White, the steady increase in Hispanic students and other groups reflects growing cultural and linguistic

diversity, enriching the school environment and preparing students to thrive in diverse communities.

- **Experienced and Stable Staff:** Teacher retention is high, with very little turnover. The majority of teachers have more than 10 years of experience, and the average service in BISD is 15.7 years, ensuring instructional consistency and deep knowledge of district expectations.
- **Highly Qualified Teachers:** 100% of teachers hold a bachelor's degree, and more than one-third (34.6%) hold a master's degree, reflecting a well-educated and professionally invested faculty.
- **Leadership Development Culture:** Several teachers have advanced into instructional coach or administrative roles in recent years, showing a strong culture of professional growth and leadership development on campus.
- **Strong Attendance:** With a student attendance rate of 95.89%, students are consistently engaged in learning and benefit from a stable academic environment.

### **Problem Statements Identifying Demographics Needs**

**Problem Statement 1 (Prioritized):** The campus serves a higher-than-average population of Special Education students (23.79%) while also maintaining a strong Gifted and Talented population (10.97%), creating challenges in meeting the needs of both groups simultaneously.

**Root Cause:** There is a need for additional differentiated instructional strategies to balance a wide range of learner needs. Teacher capacity and resources stretched to serve multiple specialized programs effectively.

# Student Learning

## Student Learning Summary

### 2024-2025 STAAR Scores

#### 3rd Grade

- 3rd grade reading scores had 83.87%(78) of our students score Approaches, 66.3%(61 students) score Meets and 27.71%(28students) score Masters.
- 3rd grade math scores we had 84.78%(78 students) score Approaches, 66%(61 students) scored Meets and 39.13%(36 students) score Masters.

#### 4th Grade

- 4th grade reading had 96.39%(80 students) of our students score Approaches, 67.47%(56 students) score Meets and 27.71%(22 students) score Masters.
- 4th grade math had 84.34%(70 students) of students score Approaches, 63.86%(49 students) scored Meets, and 36.14%(25 students) scored Masters.

#### 5th Grade

- 5th grade Reading had 92.59%(74 students) of students score Approaches, 81.48%(65 students) score Meets and 48.15%(39 students) score Masters.
- 5th grade Math we had 91.46% ( 73 students) of students score Approaches, 71.95%(58 students) score Meets and 41.46%(33 students) score Masters.
- 5th grade Science scores had 92.5%(74 students) of students score Approaches, 62.5%(50 students) score Meets and 28.75%( 23 students) of students score Masters.

## Student Learning Strengths

Third grade scores went up overall in each category in reading.

|                         | Approaches | Meets | Masters |
|-------------------------|------------|-------|---------|
| 2023-2024 Reading STAAR | 82.8       | 62.37 | 30.11   |
| 2024-2025 Reading STAAR | 83.87      | 67.74 | 31.18   |

Third Grade Math scores remained constant except for a significant increase in the percentage of masters students. Third Grade math was in quadrant 1 in state campus comparison groups.

|                                | Approaches | Meets | Masters |
|--------------------------------|------------|-------|---------|
| 2023-2024 3rd Grade Math STAAR | 85.87%     | 66.3% | 30.43%  |
| 2024-2025 3rd Grade Math STAAR | 84.78%     | 66.3% | 39.13%  |

Fourth Grade Math scores did go up in 2 of the 3 categories with a 13% increase in masters scores.

|                                | Approaches | Meets  | Masters |
|--------------------------------|------------|--------|---------|
| 2023-2024 4th Grade Math STAAR | 83.95%     | 64.2%  | 23.46%  |
| 2024-2025 4th Grade Math STAAR | 84.34%     | 63.86% | 36.14%  |

Fifth grade Math showed significant gains. There were gains of 10% in approaches, 7% in meets and 11.5% growth in masters.

|                                | Approaches | Meets  | Masters |
|--------------------------------|------------|--------|---------|
| 2023-2024 5th Grade Math STAAR | 81%        | 64%    | 30%     |
| 2024-2025 5th Grade Math STAAR | 91.46%     | 71.95% | 41.45%  |

Fifth Grade Reading made gains across all categories from 2023-2024.

|                                   | Approaches | Meets | Masters |
|-----------------------------------|------------|-------|---------|
| 2023-2024 5th Grade Reading STAAR | 92.47      | 75.27 | 40.86   |
| 2024-2025 5th Grade Reading STAAR | 92.6       | 81.48 | 48.15   |

Fifth Grade Science scores showed gains across all categories. There was a significant gain in meets scores of 13%.

|                                   | Approaches | Meets  | Masters |
|-----------------------------------|------------|--------|---------|
| 2023-2024 5th Grade Science STAAR | 89.25%     | 49.46% | 24.73%  |
| 2024-2025 5th Grade Science STAAR | 92.5%      | 62.5%  | 28.75%  |

### Problem Statements Identifying Student Learning Needs

**Problem Statement 1 (Prioritized):** Our campus scored a 76 in Domain 2B on the STAAR report card. While the majority of students are meeting grade-level expectations in Approaches and Meets, a significant number of students are not demonstrating masters compared to other campuses that have similar student populations.

**Root Cause:** While many students can demonstrate grade-level proficiency (Approaches), lessons may not consistently demand higher-order thinking, problem-solving, and application skills at all grade levels.

**Problem Statement 2 (Prioritized):** The Asian student population did not meet the state performance measure targets on the STAAR assessment, indicating that this subgroup is performing below state accountability expectations.

**Root Cause:** For some students, English language proficiency or unfamiliarity with certain academic vocabulary may have affected comprehension of test items.

# School Processes & Programs

## School Processes & Programs Summary

### Campus Programs and Support Services

W. A. Porter Elementary provides a wide range of specialized programs to meet the diverse needs of our students. Currently, 16.91% of our students are served through the free/reduced lunch program, 23.79% receive special education services (including students served through the Regional Day School for the Deaf), and 10.97% participate in the Gifted and Talented program.

Our academic Response to Intervention (RtI) program supports students in grades Pre-K through 5th in both Reading and Mathematics. Students are identified for tiered interventions using universal screeners administered three times per year, along with teacher input and other performance measures reviewed through collaborative conference committees. Progress monitoring is consistently utilized to guide grouping decisions and adjust instruction. District-level RtI guidelines, updated annually, ensure consistency in interventions and programmatic alignment. Data indicates that the RtI process has been successful in moving students off interventions and closing academic gaps.

### Social-Emotional and Behavioral Support

This year, Porter Elementary will continue implementation of *Capturing Kids' Hearts*, emphasizing the importance of building strong relationships with students by reaching their hearts before their minds. Teachers and students develop and adhere to classroom and campus-wide social contracts, while students are empowered to take active leadership roles in the program. Weekly team-building activities in PE provide opportunities for students to strengthen collaboration, problem-solving, and interpersonal skills in a fun and challenging environment.

As student behavior needs have increased with shifts in population, a renewed emphasis will be placed on proactive social-emotional learning strategies, student leadership, and problem-solving supports to maintain a positive and productive learning environment.

### Community and Family Engagement

Porter Elementary benefits from an active and supportive community. Families participate in annual events such as the Panther Race, Open House, Data Nights, and numerous PTA-sponsored activities. These events are designed to create meaningful opportunities for parents to engage with their children's learning, strengthening the home-school connection and building a culture of partnership.

### Data-Driven Decision Making

Assessment data is carefully monitored throughout the year to guide instructional decisions. After each testing cycle, teachers participate in data meetings to review student growth, analyze performance trends, and adjust instruction accordingly. Additionally, monthly meetings with our digital learning specialist and academic coach provide teachers with targeted support for integrating technology and strengthening instructional practices.

The Leadership of Learning (LOL) team meets regularly—at least once per month—to ensure teacher voice is represented in campus decisions, monitor progress toward student outcomes, and refine processes that are not yielding intended results.

### Curriculum, Instruction, and Professional Learning

Vertical teaming has been an effective structure for aligning curriculum and developing consistent instructional strategies across grade levels. This year, vertical collaboration will expand to include a focus on writing, using a campus-wide rubric to improve Extended Constructed Response performance. In mathematics, our new Bluebonnet Math curriculum will be supported through vertical team planning and collaboration, ensuring consistency, alignment, and strong implementation.

Professional Learning Communities (PLCs) are held weekly with the Instructional Facilitator, focusing on collaborative planning, data review, and identifying areas of growth. Teachers report that the PLC process has been valuable for tracking progress and making student-centered decisions.

Campus professional development continues to be tailored to staff needs, with input gathered through the LOL team. This ensures that professional learning is relevant, targeted, and directly aligned to areas of need. Staff feedback indicates high levels of satisfaction with the specificity and effectiveness of campus professional learning.

### **Attendance and Student Engagement**

Attendance incentives were implemented consistently last year and were successful in generating student interest, though the overall impact on attendance was limited. Moving forward, the campus will explore additional strategies to positively influence daily attendance and increase student engagement.

### **School Processes & Programs Strengths**

- **Specialized Student Support Programs**

- Wide range of services tailored to student needs, including Special Education, the Regional Day School for the Deaf, Gifted and Talented, and RtI.
- RtI system effectively identifies, monitors, and supports students, with documented success in helping students exit tiered interventions.

- **Data-Driven Instruction**

- Regular data meetings after each assessment cycle allow for responsive instructional decisions.
- Progress monitoring is consistently used to guide grouping and instruction.
- PLCs meet weekly with an Instructional Facilitator to analyze data, track student growth, and make targeted instructional adjustments.

- **Curriculum Alignment and Vertical Collaboration**

- Vertical teaming has strengthened curriculum alignment across grade levels and improved consistency of instructional practices.
- Expanded vertical teaming in writing with a campus-wide rubric supports stronger Extended Constructed Responses.
- Implementation of Bluebonnet Math supported by vertical teams ensures fidelity and alignment in mathematics instruction.

- **Professional Learning and Staff Development**

- Professional development is intentionally designed based on staff input through the LOL team, making training relevant and targeted.
- Teachers report high satisfaction with the specificity of PD opportunities.
- The PLC process is well established and viewed positively by staff.

- **Social-Emotional Learning and Behavior Supports**

- Capturing Kids' Hearts provides a structured approach to building relationships and promoting positive student behavior. Our campus became a Showcase Campus for 2024-2025. This was a great honor that we have worked hard for.
- Student leadership opportunities within CKH empower students and enhance campus culture.
- Weekly team-building activities in PE strengthen collaboration, problem-solving, and life skills.

- **Community and Family Engagement**

- Strong community involvement through events such as the Panther Race, Open House, Data Nights, and PTA activities.
- Events foster meaningful family engagement and strengthen home-school partnerships.

- **Campus Leadership and Communication**

- The Leadership of Learning (LOL) team ensures teacher voice is included in decision-making.
- LOL meetings occur regularly to monitor effectiveness of processes and adjust as needed.

### **Problem Statements Identifying School Processes & Programs Needs**

**Problem Statement 1 (Prioritized):** There were accidents on campus where worker's compensation had to be used for employees.

**Root Cause:** There were minor injuries where more focus and awareness could have possibly prevented an injury.

**Problem Statement 2 (Prioritized):** Fourth Grade Reading Meets and Masters scores dropped from the previous year, and we were in the 4th quadrant in our state comparison groups.

**Root Cause:** Instruction did not consistently provide the rigor and higher level comprehension needed for students to perform at the Meets and Masters level.

**Problem Statement 3 (Prioritized):** Current intervention systems focus mainly on struggling students, while enrichment for higher-achieving students is limited.

**Root Cause:** We need to strengthen our systematic opportunities for students performing at or above grade level to be challenged.

**Problem Statement 4 (Prioritized):** Communication with parents regarding social/emotional initiatives is inconsistent. As a result, many families are not fully aware of the strategies being used to support student well-being or how they can reinforce these practices at home, limiting the overall effectiveness of SEL efforts.

**Root Cause:** Communication about social-emotional programs has primarily focused on internal staff implementation, with limited structures in place to consistently share information, strategies, and outcomes with families in accessible and engaging ways.

# Perceptions

## Perceptions Summary

Porter Elementary is consistently recognized for its strong culture of attendance, ranking at or near the top in the district. With very low absenteeism and few discipline issues, students contribute daily to a climate that values learning and high expectations. Our staff maintains rigorous academic and behavioral standards, and when new programs were introduced, students quickly embraced the positive culture modeled by their peers. Staff members poured into those students, ensuring they felt valued and part of the Porter family.

The inclusive spirit of our school is evident in our Deaf Education program, where both students and staff are embraced by the entire community and made to feel loved and supported. This same sense of belonging extends to parents and community members. Parents are highly involved, volunteering their time and resources to support teachers and programs, while our PTA works tirelessly to provide opportunities and events that enrich the school experience for all students.

Staff culture at Porter is another key strength. With a very low turnover rate, families benefit from stability and consistency year after year. Staff morale is high, with 97% of teachers reporting a positive school culture and feeling included in campus decision-making. Parents echo this positivity, with 96% strongly agreeing that the school is safe and that their children are cared for and loved by teachers. Porter's culture is one of high expectations, safety, care, and inclusivity.

While survey data reflects many areas of strength, one need was identified. Twenty-seven percent of students reported that they do not feel recognized for their good work. This highlights an opportunity for the campus to further enhance student recognition systems so that every child feels celebrated for their achievements and contributions. By building on our existing culture of excellence, we can ensure that all students experience both high expectations and the joy of being acknowledged for their efforts.

Our campus was selected as a National Showcase Campus for Capturing Kids' Hearts where students, staff and families completed surveys that were overwhelming well above average ratings which earns that distinction.

One great thing our surveys showed is that many staff members other than teachers were selected as a student's most trusted adult in school. This is something that our campus excels in when everyone knows that every student is OUR student where each and every one of our staff members believe in the whole child.

## Perceptions Strengths

- **Positive School Climate:** 97% of staff report a positive culture with high morale, and parents consistently describe Porter as a welcoming and supportive environment that feels like a private school.
- **Safe and Caring Environment:** 97% of parents strongly agree that their children are safe at school and feel loved and cared for by their teachers. 90% of our parents feel that their child has a trusting relationship with their child.
- **Strong Attendance Culture:** Porter consistently ranks at or near the top in district attendance, reflecting a culture that values learning and prioritizes being present.

- **High Behavioral Expectations:** The campus has very few discipline issues, and students in discipline programs have been positively influenced by Porter's established culture.
- **Inclusive Community:** Both the general education and Deaf Education programs benefit from a schoolwide culture of belonging, where students and staff feel valued and supported.
- **Staff Stability:** With very low turnover, Porter provides families with consistency and stability, contributing to long-term relationships and trust.
- **Parent and Community Involvement:** Parents and PTA members are highly engaged, offering time, resources, and volunteerism to enrich student experiences and support teachers.
- **Staff Empowerment:** Teachers feel included in decision-making, which fosters buy-in and strengthens the collaborative school culture.

### **Problem Statements Identifying Perceptions Needs**

**Problem Statement 1 (Prioritized):** Although it was not a large percentage(7.1%) parents did not have a knowledge what the Standard Response Protocols were.

**Root Cause:** Communication regarding safety procedures, including Standard Response Protocol, has not been consistently provided to parents in a clear and accessible way.

**Problem Statement 2 (Prioritized):** Although it was not low, surveys did indicate a slight decrease in satisfaction with their job according to end of the year surveys

**Root Cause:** Staff reported a slight decrease in job satisfaction due to factors such as increased workload demands, and the need for more consistent support in balancing professional responsibilities with personal well-being.

# Priority Problem Statements

**Problem Statement 1:** There were accidents on campus where worker's compensation had to be used for employees.

**Root Cause 1:** There were minor injuries where more focus and awareness could have possibly prevented an injury.

**Problem Statement 1 Areas:** School Processes & Programs

**Problem Statement 2:** The campus serves a higher-than-average population of Special Education students (23.79%) while also maintaining a strong Gifted and Talented population (10.97%), creating challenges in meeting the needs of both groups simultaneously.

**Root Cause 2:** There is a need for additional differentiated instructional strategies to balance a wide range of learner needs. Teacher capacity and resources stretched to serve multiple specialized programs effectively.

**Problem Statement 2 Areas:** Demographics

**Problem Statement 3:** Our campus scored a 76 in Domain 2B on the STAAR report card. While the majority of students are meeting grade-level expectations in Approaches and Meets, a significant number of students are not demonstrating masters compared to other campuses that have similar student populations.

**Root Cause 3:** While many students can demonstrate grade-level proficiency (Approaches), lessons may not consistently demand higher-order thinking, problem-solving, and application skills at all grade levels.

**Problem Statement 3 Areas:** Student Learning

**Problem Statement 4:** The Asian student population did not meet the state performance measure targets on the STAAR assessment, indicating that this subgroup is performing below state accountability expectations.

**Root Cause 4:** For some students, English language proficiency or unfamiliarity with certain academic vocabulary may have affected comprehension of test items.

**Problem Statement 4 Areas:** Student Learning

**Problem Statement 5:** Fourth Grade Reading Meets and Masters scores dropped from the previous year, and we were in the 4th quadrant in our state comparison groups.

**Root Cause 5:** Instruction did not consistently provide the rigor and higher level comprehension needed for students to perform at the Meets and Masters level.

**Problem Statement 5 Areas:** School Processes & Programs

**Problem Statement 6:** Current intervention systems focus mainly on struggling students, while enrichment for higher-achieving students is limited.

**Root Cause 6:** We need to strengthen our systematic opportunities for students performing at or above grade level to be challenged.

**Problem Statement 6 Areas:** School Processes & Programs

**Problem Statement 7:** Although it was not a large percentage(7.1%) parents did not have a knowledge what the Standard Response Protocols were.

**Root Cause 7:** Communication regarding safety procedures, including Standard Response Protocol, has not been consistently provided to parents in a clear and accessible way.

**Problem Statement 7 Areas:** Perceptions

**Problem Statement 8:** Communication with parents regarding social/emotional initiatives is inconsistent. As a result, many families are not fully aware of the strategies being used to support student well-being or how they can reinforce these practices at home, limiting the overall effectiveness of SEL efforts.

**Root Cause 8:** Communication about social-emotional programs has primarily focused on internal staff implementation, with limited structures in place to consistently share information, strategies, and outcomes with families in accessible and engaging ways.

**Problem Statement 8 Areas:** School Processes & Programs

**Problem Statement 9:** Although it was not low, surveys did indicate a slight decrease in satisfaction with their job according to end of the year surveys

**Root Cause 9:** Staff reported a slight decrease in job satisfaction due to factors such as increased workload demands, and the need for more consistent support in balancing professional responsibilities with personal well-being.

**Problem Statement 9 Areas:** Perceptions

# Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

## Improvement Planning Data

- District goals
- Campus goals
- HB3 Reading and math goals for PreK-3
- Performance Objectives with summative review (prior year)
- Planning and decision making committee(s) meeting data

## Accountability Data

- Student Achievement Domain
- Student Progress Domain
- Closing the Gaps Domain
- Accountability Distinction Designations

## Student Data: Assessments

- State and federally required assessment information
- STAAR current and longitudinal results, including all versions
- STAAR released test questions
- Texas English Language Proficiency Assessment System (TELPAS) and TELPAS Alternate results
- Local diagnostic reading assessment data
- Local benchmark or common assessments data
- Running Records results
- Observation Survey results
- Texas approved PreK - 2nd grade assessment data
- Texas approved Prekindergarten and Kindergarten assessment data
- State-developed online interim assessments
- Grades that measure student performance based on the TEKS

## Student Data: Student Groups

- Race and ethnicity data, including number of students, academic achievement, discipline, attendance, and rates of progress between groups
- Special programs data, including number of students, academic achievement, discipline, attendance, and rates of progress for each student group
- Economically disadvantaged / Non-economically disadvantaged performance and participation data
- Male / Female performance, progress, and participation data
- Special education/non-special education population including discipline, progress and participation data
- At-risk/non-at-risk population including performance, progress, discipline, attendance, and mobility data
- Gifted and talented data
- Dyslexia data
- Response to Intervention (RtI) student achievement data

**Student Data: Behavior and Other Indicators**

- Attendance data
- Mobility rate, including longitudinal data
- Discipline records
- Student surveys and/or other feedback
- Class size averages by grade and subject
- School safety data
- Enrollment trends

**Employee Data**

- Staff surveys and/or other feedback
- Teacher/Student Ratio
- Campus leadership data
- T-TESS data
- T-PESS data

**Parent/Community Data**

- Parent surveys and/or other feedback

**Support Systems and Other Data**

- Processes and procedures for teaching and learning, including program implementation
- Communications data
- Study of best practices

# Goals

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social and emotional needs of the student.

**Performance Objective 1:** All students will make at least one year's progress in reading and mathematics by the end of school year. a) Meet the progress monitoring targets in Prekindergarten - 3rd grade for each demographic group as measured by district approved screeners (BOY, MOY and EOY) to achieve the HB3 Board Goals. b) Improve performance in Domain 3 Closing the Gaps by making more than a year's growth in reading and mathematics which would in turn increase the number of students performing at the "meets" and "masters" level as measured by the spring 2026 STAAR and EOC assessments. This will also increase Domain 1 Student Achievement which counts the number of students at the various performance levels for state assessments.

## High Priority

### HB3 Goal

**Evaluation Data Sources:** A. CLI (Center for Improving the Readiness of Children for Learning and Education)Circle(Pre-K reading and math)  
B. Renaissance Math(1-5)  
C. mCLASS(Kinder reading and math), mClass(grades 1-2 reading)  
D. Renaissance Reading (3-5), 1st and 2nd grade reading comprehension measured by Renaissance  
E. District Curriculum Assessments  
F. Teacher created common assessments  
G. I-Ready resources  
H. New digital student data folders  
I. T-Tess SLO(Student Learning Objective) and Professional Learning Goals  
J. STAAR 2025-2026 results  
K. STAAR Released Assessment  
L. Utilize Lead4Ward resources and have Lead4Ward train staff on 2 different dates.

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            | Reviews   |     |     |           |

| <p><b>Strategy 2:</b> Stengthen reading and mathematics instruction by focusing on lesson internalization, the use of best practices and continuous improvement.</p> <p><b>Actions:</b> A. Use data from progress monitoring,Renaissance Reading and Math, DCA(District Curriculum Assessments), STAAR Released Assessments and and MCLASS progress monitoring to help guide instruction.<br/> B. Provide protected structured planning time for teachers to deeply internalize lessons and standards prior to instruction.<br/> C. Implement grade-level or vertical planning sessions focused on unpacking TEKS/standards, essential questions, and misconceptions<br/> D. Students will utilize digital data folders which contain a PDSA(Plan, Do, Study, Act) model to help students plan their learning.<br/> E. Facilitate peer observations or "learning walks" so teachers can see best practices in action across classrooms<br/> F. Set student growth goals in reading and math, track them through data walls or digital data folders, and celebrate progress<br/> G. Teachers will collect data on students, meet in PLCs to analyze the data and plan for interventions.<br/> H. Implement the Bluebonnet Learning curriculum in math classes with fidelity ensuring consistency throughout all grade levels.</p> <p><b>Staff Responsible for Monitoring:</b> Teachers<br/> Administrators<br/> Reading and Math Interventionist<br/> Instructional Facilitators</p> <p><b>TEA Priorities:</b><br/> Recruit, support, retain teachers and principals, Build a foundation of reading and math</p> <p><b>Problem Statements:</b> School Processes &amp; Programs 2</p> | Formative |     |     | Summative |

| <p><b>Strategy 3:</b> Coordinate processes that promote and support personalized learning for students in reading and math to enhance overall achievement and close gaps in core content areas.</p> <p><b>Actions:</b> A. Host and participate in instructional focus walks with other campuses as well as our own to tighten alignment.<br/> B. Use PLCs to analyze student data and design targeted small-group instruction.<br/> C. Use district monitoring guide to monitor instructional delivery<br/> D. Focused campus walk-throughs focusing on Continuous Improvement and Tier 1 priorities.<br/> E. Utilize district resources with tier 1, 2 and 3 students during interventions and small group instruction.<br/> F. Campus admin and our Instructional Facilitator will work in vertical teams to tighten practices used in Pre-K through 5th grade to focus on common language and alignment.<br/> G. Integrate choice boards, station rotations, or project-based learning to allow students multiple pathways to mastery.<br/> H. Utilize District Content Coordinators, Digital Learning Specialist and Instructional Facilitator as an instructional support.<br/> I. Offer professional development on strategies for differentiation, scaffolding, and culturally responsive instruction.<br/> J. Administer District Common Assessments and analyze the resulting data to guide instructional decisions.<br/> K. Utilize tutors to focus on priority needs for individual student groups.<br/> L. Receive training by Lead4Ward for 3rd-5th grade teachers to focus on rigor and relevance.</p> <p><b>Staff Responsible for Monitoring:</b> Administration, Instructional Facilitator and teachers</p> <p><b>TEA Priorities:</b><br/> Build a foundation of reading and math</p> <p><b>Problem Statements:</b> Demographics 1 - Student Learning 1, 2</p> <p><b>Funding Sources:</b> SCE Campus Personnel - 199 - General Funds: SCE</p> | Formative |     |     | Summative |

| <b>Strategy 4:</b> Improve the effectiveness and inclusivity of the special needs programs by providing specialized training for all staff, enhancing resources, and increasing family engagement<br><b>Actions:</b> A. Conduct campus-wide training on disability awareness and inclusive practices to promote a supportive school culture.<br>B. Special education teachers will be a part of all RTI(Response to Intervention) meetings as well as data meetings.<br>C. Provide planning time for general and special education teachers to collaborate on lesson accommodations and modifications.<br>D. Special education teachers will be included on LOL teams and vertical team meetings.<br>E. Special education teachers will be a part of the PLC process to ensure data is evaluated and strategic action put in place to measure growth.<br>F. Use data (IEP goal progress, accommodations usage, student performance) to evaluate program effectiveness.<br>G. Recognize and celebrate successes of students in special programs to build a positive, inclusive school culture.<br>H. Family nights for special needs programs to get families together to provide opportunities to connect.<br><b>Staff Responsible for Monitoring:</b> Principal, Assistant Principal, Academic Coach<br><br><b>TEA Priorities:</b><br>Recruit, support, retain teachers and principals, Build a foundation of reading and math<br><b>Problem Statements:</b> Demographics 1 - School Processes & Programs 3 |  | Formative |     |     | Summative |

### Performance Objective 1 Problem Statements:

| Demographics                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> The campus serves a higher-than-average population of Special Education students (23.79%) while also maintaining a strong Gifted and Talented population (10.97%), creating challenges in meeting the needs of both groups simultaneously. <b>Root Cause:</b> There is a need for additional differentiated instructional strategies to balance a wide range of learner needs. Teacher capacity and resources stretched to serve multiple specialized programs effectively. |

### Student Learning

**Problem Statement 1:** Our campus scored a 76 in Domain 2B on the STAAR report card. While the majority of students are meeting grade-level expectations in Approaches and Meets, a significant number of students are not demonstrating masters compared to other campuses that have similar student populations. **Root Cause:** While many students can demonstrate grade-level proficiency (Approaches), lessons may not consistently demand higher-order thinking, problem-solving, and application skills at all grade levels.

**Problem Statement 2:** The Asian student population did not meet the state performance measure targets on the STAAR assessment, indicating that this subgroup is performing below state accountability expectations. **Root Cause:** For some students, English language proficiency or unfamiliarity with certain academic vocabulary may have affected comprehension of test items.

### School Processes & Programs

**Problem Statement 2:** Fourth Grade Reading Meets and Masters scores dropped from the previous year, and we were in the 4th quadrant in our state comparison groups. **Root Cause:** Instruction did not consistently provide the rigor and higher level comprehension needed for students to perform at the Meets and Masters level.

**Problem Statement 3:** Current intervention systems focus mainly on struggling students, while enrichment for higher-achieving students is limited. **Root Cause:** We need to strengthen our systematic opportunities for students performing at or above grade level to be challenged.

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social and emotional needs of the student.

**Performance Objective 2:** Close achievement gaps among under performing student groups, as identified through state and district assessments. Ensure all identified student groups in grades Pre-K through 3 meet progress monitoring targets in reading and mathematics as measured by a district-approved assessment tool.

**Evaluation Data Sources:** Historical performance by student subgroups on state(STAAR, TELPAS) and district assessments, digital data folders to track progress in all student groups.

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         | Reviews   |     |     |           |

| <p><b>Strategy 1:</b> Evaluate and enhance programs and strategies serving special population groups to ensure quality, compliance, and effectiveness in closing achievement gaps through data-driven planning, targeted implementation, and continuous monitoring.</p> <p><b>Actions:</b> A. Conduct regular data reviews (disaggregated by subgroup: special education, ELs, economically disadvantaged, GT, etc.) to identify gaps in achievement and growth.<br/>B. Use progress monitoring tools to track subgroup performance on formative and summative assessments.<br/>C. Provide differentiated instruction, scaffolds, and interventions tailored to specific subgroup needs<br/>D. Execute the targeted action plan, and keep it as our focus for our PLC and data meetings.<br/>E. Deliver accelerated instruction in alignment with HB 1416 to address learning loss and promote academic progress for students who need additional support.<br/>F. Implement walkthroughs focused on monitoring differentiation, accommodations, and effective instructional practices.</p> <p><b>Staff Responsible for Monitoring:</b> Campus Admin and Instructional Facilitator</p> <p><b>Problem Statements:</b> Demographics 1 - School Processes &amp; Programs 3</p> |           |     |     |           |

| <b>Strategy 2:</b> Strengthen the use of continuous improvement practices across the campus by embedding classroom mission statements, student goal-setting, data tracking, and the PDSA (Plan, Do, Study, Act) cycle to drive reflection, accountability, and ongoing growth.<br><b>Actions:</b> A. Guide teachers and students in developing classroom mission statements aligned to the school's mission and values.<br>B. Train students to set personal academic and behavior goals connected to reading, math, and social-emotional learning.<br>C. Implement student data folders or digital dashboards for tracking progress toward goals.<br>D. Schedule regular student-led conferences where students reflect on progress and next steps.<br>E. Provide professional learning for staff on using the PDSA model to refine instructional practices.<br>F. Hold PLC meetings that include reflection on student data, goal progress, and classroom PDSA cycles.<br><b>Staff Responsible for Monitoring:</b> Campus Admin, Leaders of Learners and instructional staff<br><br><b>Problem Statements:</b> Student Learning 1 - School Processes & Programs 2 |  | Formative |     |     | Summative |

| Demographics                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> The campus serves a higher-than-average population of Special Education students (23.79%) while also maintaining a strong Gifted and Talented population (10.97%), creating challenges in meeting the needs of both groups simultaneously. <b>Root Cause:</b> There is a need for additional differentiated instructional strategies to balance a wide range of learner needs. Teacher capacity and resources stretched to serve multiple specialized programs effectively.                                                                                                                                           |
| Student Learning                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| <b>Problem Statement 1:</b> Our campus scored a 76 in Domain 2B on the STAAR report card. While the majority of students are meeting grade-level expectations in Approaches and Meets, a significant number of students are not demonstrating masters compared to other campuses that have similar student populations. <b>Root Cause:</b> While many students can demonstrate grade-level proficiency (Approaches), lessons may not consistently demand higher-order thinking, problem-solving, and application skills at all grade levels.                                                                                                      |
| School Processes & Programs                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| <b>Problem Statement 2:</b> Fourth Grade Reading Meets and Masters scores dropped from the previous year, and we were in the 4th quadrant in our state comparison groups. <b>Root Cause:</b> Instruction did not consistently provide the rigor and higher level comprehension needed for students to perform at the Meets and Masters level.<br><b>Problem Statement 3:</b> Current intervention systems focus mainly on struggling students, while enrichment for higher-achieving students is limited. <b>Root Cause:</b> We need to strengthen our systematic opportunities for students performing at or above grade level to be challenged. |

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social and emotional needs of the student.

**Performance Objective 3:** Students will display dispositions of high levels of social-emotional development measured by a district administered survey of student perceptions.

**Evaluation Data Sources:** District and school surveys

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           | Reviews   |     |     |           |

| <b>Strategy 1:</b> Implement Character Strong, Peer Helpers Plus and Capturing Kids' Hearts for social-emotional development<br><b>Actions:</b> A. Integrate Character Strong lessons into classroom weekly schedules to explicitly teach empathy, responsibility, and relationship skills.<br>B. Establish and train Peer Helpers Plus student leaders to support peers, model positive behaviors, and provide peer-to-peer encouragement.<br>C. Announcement crew will be using SEL quotes to help support Character Strong and Capturing Kids Hearts.<br>D. Assistant Principal and counselor will oversee the progress of the program.<br>E. Implement Capturing Kids' Hearts strategies (daily greetings, "good things," affirmations) in all classrooms to build connected, safe learning environments.<br>F. Offer refresher sessions throughout the year to ensure consistency and fidelity in implementation.<br><b>Staff Responsible for Monitoring:</b> All staff<br><br><b>Problem Statements:</b> School Processes & Programs 4 | Formative |     |     | Summative |

**Performance Objective 3 Problem Statements:**

| School Processes & Programs                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 4:</b> Communication with parents regarding social/emotional initiatives is inconsistent. As a result, many families are not fully aware of the strategies being used to support student well-being or how they can reinforce these practices at home, limiting the overall effectiveness of SEL efforts. <b>Root Cause:</b> Communication about social-emotional programs has primarily focused on internal staff implementation, with limited structures in place to consistently share information, strategies, and outcomes with families in accessible and engaging ways. |

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social and emotional needs of the student.

**Performance Objective 4:** Teachers will close the achievement gaps of student gaps of student groups in reading and mathematics performance as measured by STAAR in grades 3-5 compared to the 2023-2027 interim goals from Closing the Gaps section of State and Federal Accountability.

- High Priority**
- HB3 Goal**
- Evaluation Data Sources:** A. STAAR Ren for Reading and Math  
B. Data Folders with targets and goals  
C. STAAR Data for 2025-2026 school year

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     | Reviews   |     |     |           |

| <b>Strategy 1:</b> Closely monitor achievement gaps in 3rd- 5th grade student groups to make sure targets are hit for identified sub groups looking at the 2023-2027 interim goals<br><b>Actions:</b> A. Evaluate student progress during our monthly data meetings where targets will be evaluated by sub group<br>B. Use new admin digital data folders that track progress of all groups as measured by STAAR Closing the Gaps Domain.<br>C. Provide professional development for all teachers in the use of Aware to build assessments and analyze data to inform instruction<br>D. Ensure that instructional facilitator is working with teachers to utilize progress monitoring data and designing instructional practices.<br>E. Evaluate new spreadsheet that tracks how students performed on the STAAR to how they are performing on STAR Ren and have student data meetings to discuss progress.<br><b>Staff Responsible for Monitoring:</b> Teachers, principal, assistant principal and instructional facilitator<br><br><b>Problem Statements:</b> Student Learning 1, 2 | Formative |     |     | Summative |
|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        | Nov       | Jan | Mar | June      |
|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |           |     |     |           |

| <b>Strategy 2:</b> Implement plans for third and fourth grade students who did not score approaches on the 2024 STAAR test.<br><b>Actions:</b> A. Implement accelerated instruction according to HB1416<br>B. Adjust instruction based on data meetings and reviewing progress.<br>C. Monitor hours needed by using the Instructional Facilitator and Assistant Principal as case managers.<br>D. Establish classroom intervention groups to develop specific skills that students were missing.<br>E. Monitoring progress monitoring in the classroom to ensure focus on growth.<br>F. Use Instructional Facilitator to evaluate data and form focus lessons<br>G. Utilize ST Math in station work to help support math instruction.<br><b>Staff Responsible for Monitoring:</b> Principal and Assistant Principal<br>Academic Coaches<br>Instructional Facilitator<br><br><b>Problem Statements:</b> Demographics 1                                                                                                                                                                                                                                                                                                                                                                                   |  | Formative |     |     | Summative |

| <b>Strategy 3:</b> Continue implementation of the district continuous improvement process and requirements for mission statements, development of smart goals, use of the PDSA process and progress monitoring using electronic or paper data folders in the classroom.<br><b>Actions:</b> A. Continue to support and monitor the implementation of the PDSA process and provide appropriate, tiered professional learning support.<br>B. Monitor the PDSA development process through PLCs to ensure alignment to district expectation.<br>C. Collect examples during campus walk-throughs.<br>D. We will have a data night for students to share data with their parents.<br>E. Campus walks at Porter as well as off campus at hosting sites to view best practices in the classroom.<br>F. Provide teacher and instructional facilitator led PDSA trainings as well as celebrating teachers who are doing great things with Continuous Improvement so they can share out.<br>G. Celebrate students on morning announcements and award assemblies that are making performance gains.<br><b>Staff Responsible for Monitoring:</b> Principal and Assistant Principal<br>Teachers<br>Instructional Facilitators<br><br><b>Problem Statements:</b> Student Learning 1 - School Processes & Programs 2, 3 |  | Formative |     |     | Summative |

| <b>Problem Statement 1:</b> The campus serves a higher-than-average population of Special Education students (23.79%) while also maintaining a strong Gifted and Talented population (10.97%), creating challenges in meeting the needs of both groups simultaneously. <b>Root Cause:</b> There is a need for additional differentiated instructional strategies to balance a wide range of learner needs. Teacher capacity and resources stretched to serve multiple specialized programs effectively.                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| Student Learning                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| <b>Problem Statement 1:</b> Our campus scored a 76 in Domain 2B on the STAAR report card. While the majority of students are meeting grade-level expectations in Approaches and Meets, a significant number of students are not demonstrating masters compared to other campuses that have similar student populations. <b>Root Cause:</b> While many students can demonstrate grade-level proficiency (Approaches), lessons may not consistently demand higher-order thinking, problem-solving, and application skills at all grade levels.<br><b>Problem Statement 2:</b> The Asian student population did not meet the state performance measure targets on the STAAR assessment, indicating that this subgroup is performing below state accountability expectations. <b>Root Cause:</b> For some students, English language proficiency or unfamiliarity with certain academic vocabulary may have affected comprehension of test items. |
| School Processes & Programs                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| <b>Problem Statement 2:</b> Fourth Grade Reading Meets and Masters scores dropped from the previous year, and we were in the 4th quadrant in our state comparison groups. <b>Root Cause:</b> Instruction did not consistently provide the rigor and higher level comprehension needed for students to perform at the Meets and Masters level.<br><b>Problem Statement 3:</b> Current intervention systems focus mainly on struggling students, while enrichment for higher-achieving students is limited. <b>Root Cause:</b> We need to strengthen our systematic opportunities for students performing at or above grade level to be challenged.                                                                                                                                                                                                                                                                                             |

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social and emotional needs of the student.

**Performance Objective 5:** Decrease the number of students in behavioral MTSS Tiers 2 and 3 who are assigned disciplinary placements.

**Evaluation Data Sources:** Collaborative meetings and data notes.

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             | Reviews   |     |     |           |

| <b>Problem Statement 4:</b> Communication with parents regarding social/emotional initiatives is inconsistent. As a result, many families are not fully aware of the strategies being used to support student well-being or how they can reinforce these practices at home, limiting the overall effectiveness of SEL efforts. <b>Root Cause:</b> Communication about social-emotional programs has primarily focused on internal staff implementation, with limited structures in place to consistently share information, strategies, and outcomes with families in accessible and engaging ways. |

**Goal 2:** The system will utilize efficient and effective operations to support and improve the learning organization.

**Performance Objective 1:** Increase the annual total average daily attendance(ADA) as compared to the prior school year, through improved student retention, recruitment, and days in attendance.

**High Priority**  
**Evaluation Data Sources:** Pulse

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 | Reviews   |     |     |           |

### Performance Objective 1 Problem Statements:

| School Processes & Programs                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 4:</b> Communication with parents regarding social/emotional initiatives is inconsistent. As a result, many families are not fully aware of the strategies being used to support student well-being or how they can reinforce these practices at home, limiting the overall effectiveness of SEL efforts. <b>Root Cause:</b> Communication about social-emotional programs has primarily focused on internal staff implementation, with limited structures in place to consistently share information, strategies, and outcomes with families in accessible and engaging ways. |
| Perceptions                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| <b>Problem Statement 2:</b> Although it was not low, surveys did indicate a slight decrease in satisfaction with their job according to end of the year surveys <b>Root Cause:</b> Staff reported a slight decrease in job satisfaction due to factors such as increased workload demands, and the need for more consistent support in balancing professional responsibilities with personal well-being.                                                                                                                                                                                            |

**Goal 3:** All students and staff will learn and work in a safe and responsive environment.

**Performance Objective 1:** Increase the percentage of students and staff that feel safe at school.

**High Priority**

**Evaluation Data Sources:** Staff and student surveys

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   | Reviews   |     |     |           |

| <b>Strategy 1:</b> Strengthen campus safety, security, and student well-being by implementing proactive supervision measures, fostering strong community partnerships, and integrating social-emotional learning programs to ensure students and staff feel physically and emotionally safe at school.<br><br><b>Actions:</b> A. Local PTA has partnered with Porter to provide off duty officers to attend events where large numbers of people would be coming in and out of our building.<br>B. WATCH Dogs put in place to help monitor the building inside and out to provide an extra set of eyes for security.<br>C. Set multiple daily walks by administrators and head custodian to check doors and walk the perimeter.<br>D. Partner with local churches to provide mentoring programs to students who need extra support.<br>E. CKH program in place to help students feel welcome and have a voice at school<br>F. Implement Character Strong as SEL program with weekly lessons.<br>G. Partner with PTA to provide 2 evenings to have speakers come in to present relevant topics that are current with student concerns.<br>H. Implement de-escalation strategies learned during PD(professional development) from the Sped department.<br><b>Staff Responsible for Monitoring:</b> Administration, counselor and staff<br><br><b>Problem Statements:</b> Perceptions 1 | Formative |     |     | Summative |

**Performance Objective 1 Problem Statements:**

| Perceptions                                                                                                                                                                                                                                                                                                                           |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> Although it was not a large percentage(7.1%) parents did not have a knowledge what the Standard Response Protocols were. <b>Root Cause:</b> Communication regarding safety procedures, including Standard Response Protocol, has not been consistently provided to parents in a clear and accessible way. |

**Goal 3:** All students and staff will learn and work in a safe and responsive environment.

**Performance Objective 2:** Reduce the cost of accidents resulting in workers' compensation claims by 20% over the previous year and reduce the number of work days lost each year due to accidents occurring on the job by 20%.

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    | Reviews   |     |     |           |

**Performance Objective 3 Problem Statements:**

| Student Learning                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> Our campus scored a 76 in Domain 2B on the STAAR report card. While the majority of students are meeting grade-level expectations in Approaches and Meets, a significant number of students are not demonstrating masters compared to other campuses that have similar student populations. <b>Root Cause:</b> While many students can demonstrate grade-level proficiency (Approaches), lessons may not consistently demand higher-order thinking, problem-solving, and application skills at all grade levels. |
| Perceptions                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| <b>Problem Statement 2:</b> Although it was not low, surveys did indicate a slight decrease in satisfaction with their job according to end of the year surveys <b>Root Cause:</b> Staff reported a slight decrease in job satisfaction due to factors such as increased workload demands, and the need for more consistent support in balancing professional responsibilities with personal well-being.                                                                                                                                     |

**Goal 3:** All students and staff will learn and work in a safe and responsive environment.

**Performance Objective 4:** The campus will implement the Standard Response Protocol to maximize safety for all students and staff.

**High Priority**

| Cultural Inclusion | Opportunities for multicultural education and culturally responsive practices  |
| Social Environment | Balanced and inclusive foundation for peer interaction and equity              |

### Problem Statements Identifying Demographics Needs

**Problem Statement 1 (Prioritized):** A rapidly increasing percentage of students at the campus are classified as At-Risk (45%), indicating challenges that impact their academic progress.

**Root Cause:** The high percentage of At-Risk students is primarily due to learning gaps and socioeconomic factors that could affect their educational opportunities and support.

**Problem Statement 2 (Prioritized):** The special education population continues to increase by multiple percentage points per year and now sits at 14% of the campus.

**Root Cause:** General education instruction and intervention systems may not be adequately meeting the needs of specific learners, leading to increased gaps for special education students especially with transient special education students who are new to the campus or withdraw and enroll frequently.

# Student Learning

## Student Learning Summary

### State Accountability Ratings:

The Campus Domain I Score for **Student Achievement** reflects a commendable achievement with a score of 90, indicating that our campus has met or exceeded the necessary benchmarks. This score is particularly noteworthy given the stipulation that if any Domain II score is below 60, or if any Domain I score is below 70, or any Alternative Education Accountability (AEA) Domain I score is below 50, the score would have been capped at 89. Our ability to surpass these thresholds demonstrates the effectiveness of our instructional strategies and the dedication of our staff and students.

In Domain II-A for **Academic Growth**, our campus achieved a score of 87, which signifies strong performance in this area. This score is indicative of our commitment to maintaining high standards in academic growth and progress. It reflects the hard work of our educators in fostering an environment where students can thrive and improve consistently over time.

In Domain II-B **Relative Performance**, our Score of 77 suggests there is room for improvement in this area. While this score is respectable, it highlights the need for targeted interventions and strategies to enhance student outcomes further. We are committed to analyzing the underlying factors contributing to this score and implementing measures to support our students' continued growth and success.

Our Campus Domain III **Closing the Gaps** score stands at 78, which, while solid, is capped at 89 if any campus Domain III score is below 70 or any AEA Domain III score is below 60. This score indicates that while we are meeting certain expectations, there is potential for growth. We will focus on identifying areas where we can enhance our performance and ensure that all students have the opportunity to achieve their full potential.

## Student Learning Strengths

Our school has set a reading performance measure goal for 2025, aiming for 73% of all students to earn a score that meets grade level or above. I am proud to report that we have already surpassed this target, achieving a score of 75%. This accomplishment reflects the dedication of our educators and the hard work of our students. It is a testament to the effectiveness of our reading programs and the supportive learning environment we have cultivated. We will continue to build on this success, ensuring that our students not only meet but exceed academic expectations.

## Problem Statements Identifying Student Learning Needs

**Problem Statement 1 (Prioritized):** Walker Creek Elementary needs to improve 4th grade STAAR Mathematics performance. Although 59% of all students met or mastered the 2025 STAAR assessment, our goal was 65% and we fell short due to 4th grade Math.

**Root Cause:** Gaps in Foundational Math Skills of new students, Instructional Misalignment to STAAR Rigor, Limited or misdirected Math Intervention or Tier 2/Tier 3 Supports

# School Processes & Programs

## School Processes & Programs Summary

In our commitment to enhancing curriculum and instruction, we prioritize Tier 1 instructional strategies to ensure that all students receive high-quality education from the outset. Our collaboration with the instructional facilitator is pivotal in aligning our teaching methods with the BISD curriculum, which is consistently implemented across all classrooms. Each year, we offer professional development opportunities that are intricately linked to the T-TESS Professional Goals and Student Learning Objectives, ensuring that our educators are equipped with the latest pedagogical skills and knowledge.

Our professional development initiatives are designed to foster continuous improvement among our staff. Programs such as Capturing Kids' Hearts and the BISD curriculum are integral to our training sessions, which are aligned with the T-TESS framework. This alignment ensures that our educators are not only meeting their professional goals but are also enhancing student learning outcomes.

Effective communication is a cornerstone of our school community. We maintain open lines of communication through regular parent and staff newsletters, and we hold parent conferences each semester, as well as on an as-needed basis. Parent information events and the Focus family portal provide additional platforms for engagement, while our presence on social media ensures that our community is informed and connected.

Our leadership and decision-making processes are collaborative and inclusive. Leadership teams, along with Site-Based and Campus Operations Committees, work together to ensure that decisions are made with input from all stakeholders. Collaboration between grade-level teams and administrators is facilitated through monthly PLC meetings, fostering a cohesive and unified approach to school management.

In terms of scheduling, we have implemented systematic small group interventions to address the diverse needs of our students. Our academic master schedules are carefully crafted to maximize instructional time and support student learning effectively.

Support services are an essential component of our educational framework. We offer comprehensive counseling services and a Social Emotional curriculum to support the well-being of our students. Our MTSS services are closely monitored through grade-level collaborative meetings, ensuring that interventions are timely and effective. Additionally, our staff has access to an instructional facilitator and BISD curriculum coordinators, providing them with the resources and support necessary to deliver exceptional education.

## School Processes & Programs Strengths

At our school, we prioritize professional development and program updates annually to ensure that our campus remains at the forefront of educational excellence. Our top priorities include Continuous Improvement, which focuses on refining our teaching practices and school operations to enhance student outcomes. Capturing Kids Hearts is another key initiative, aimed at fostering positive relationships and creating a supportive school environment. We also emphasize the importance of a Social Emotional Curriculum, which equips students with essential life skills and emotional intelligence. Additionally, we adhere to the BISD Tier 1 Priorities 2.0, ensuring that our instructional strategies are aligned with district goals. The T-TESS framework is implemented with fidelity, providing a structured approach to teacher evaluation and professional growth.

We believe in the power of collaboration and have established ongoing partnerships between teachers, instructional experts, and administrators through professional learning communities. These collaborative efforts allow us to share best practices, address challenges, and innovate our teaching methods. By working together, we ensure that our staff is aligned with our campus priorities, leading to consistent and effective implementation across all classrooms. This alignment not only enhances the educational experience for our students but also fosters a cohesive and supportive professional environment for our educators.

## Problem Statements Identifying School Processes & Programs Needs

**Problem Statement 1 (Prioritized):** There is a need to address academic gaps, particularly for students with learning disabilities, who are struggling to meet grade-level expectations.

**Root Cause:** The Special Education population has increased significantly, growing from 56 students (12.61% of all students) in 2023-24 to 65 students which is over 14% of our current school population, contributing to the challenges in closing academic gaps.

# Perceptions

## Perceptions Summary

At our school, we prioritize the consistent implementation and communication of our Positive Behavior Intervention System - Capturing Kid's Hearts. This program is integral to fostering a supportive and nurturing environment for our students, and we ensure that all staff members are well-versed in its principles and practices. By maintaining a unified approach, we are able to effectively promote positive behavior and create a cohesive school culture.

We are fortunate to have a large number of dedicated parent volunteers and a strong Parent-Teacher Association (PTA). The PTA plays a crucial role in our school community, organizing monthly board meetings and community meetings that are aligned with grade-level student performance nights. This collaboration not only enhances student learning experiences but also strengthens the bond between the school and families.

Communication is a cornerstone of our school's success, and we strive to maintain positive and open lines of communication with parents and staff. Through various channels such as committees, staff meetings, grade-level newsletters, Blackboard, Focus, Facebook, and teacher/family events, we ensure that everyone is informed and engaged. This multi-faceted approach allows us to build a strong community and foster a sense of belonging among all stakeholders.

Each year, we conduct a safety survey for students, parents, and employees to gather valuable feedback on our school environment. The results of this survey are carefully reviewed and addressed at the beginning of each new school year, allowing us to make informed decisions and improvements to ensure the safety and well-being of our school community.

Accessibility to administrators is a priority at our school, and we are committed to providing staff and community members with easy and consistent access. This open-door policy encourages transparency and collaboration, enabling us to address concerns promptly and work together towards the common goal of enhancing our educational environment.

## Perceptions Strengths

Our entire staff is fully aware and actively engaged in implementing our campus's positive behavior intervention program, "Capturing Kids' Hearts." This program is integral to our school culture, focusing on building meaningful relationships and fostering a supportive environment for our students. By consistently applying the principles of this program, we ensure that every student feels valued and understood, which is crucial for their personal and academic growth.

The emphasis on respect is a cornerstone of our school community, as evidenced by the survey results showing that over 95% of our staff believe it is a priority throughout the campus. This commitment to respect is reflected in our daily interactions and the way we address challenges, creating a nurturing atmosphere where students and staff alike can thrive. By promoting respect, we lay the foundation for a positive and inclusive school environment.

Safety and order are paramount in our school, and it is reassuring to know that almost 100% of those surveyed perceive our campus as safe and orderly. This perception is a testament to the diligent efforts of our staff and administration in maintaining a secure environment where students can focus on learning without distractions. Our commitment to safety is unwavering, and we continuously strive to uphold the highest standards to ensure the well-being of everyone on campus.

## Problem Statements Identifying Perceptions Needs

**Problem Statement 1 (Prioritized):** In our most recent feedback from stakeholders, there is a desire for more support from male parents and guardians in regard to showing a safety presence on our campus.

**Root Cause:** Lack of Clear Communication or Invitation, Unclear Role Expectations, Many males work during the school day

# Priority Problem Statements

**Problem Statement 1:** Walker Creek Elementary needs to improve 4th grade STAAR Mathematics performance. Although 59% of all students met or mastered the 2025 STAAR assessment, our goal was 65% and we fell short due to 4th grade Math.

**Root Cause 1:** Gaps in Foundational Math Skills of new students, Instructional Misalignment to STAAR Rigor, Limited or misdirected Math Intervention or Tier 2/Tier 3 Supports

**Problem Statement 1 Areas:** Student Learning

**Problem Statement 2:** A rapidly increasing percentage of students at the campus are classified as At-Risk (45%), indicating challenges that impact their academic progress.

**Root Cause 2:** The high percentage of At-Risk students is primarily due to learning gaps and socioeconomic factors that could affect their educational opportunities and support.

**Problem Statement 2 Areas:** Demographics

**Problem Statement 3:** There is a need to address academic gaps, particularly for students with learning disabilities, who are struggling to meet grade-level expectations.

**Root Cause 3:** The Special Education population has increased significantly, growing from 56 students (12.61% of all students) in 2023-24 to 65 students which is over 14% of our current school population, contributing to the challenges in closing academic gaps.

**Problem Statement 3 Areas:** School Processes & Programs

**Problem Statement 4:** In our most recent feedback from stakeholders, there is a desire for more support from male parents and guardians in regard to showing a safety presence on our campus.

**Root Cause 4:** Lack of Clear Communication or Invitation, Unclear Role Expectations, Many males work during the school day

**Problem Statement 4 Areas:** Perceptions

**Problem Statement 5:** The special education population continues to increase by multiple percentage points per year and now sits at 14% of the campus.

**Root Cause 5:** General education instruction and intervention systems may not be adequately meeting the needs of specific learners, leading to increased gaps for special education students especially with transient special education students who are new to the campus or withdraw and enroll frequently.

**Problem Statement 5 Areas:** Demographics

# Goals

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 1:** All students will make at least one year's progress in reading and mathematics by the end of school year. a) Meet the progress monitoring targets in Prekindergarten - 3rd for each demographic group as measured by district approved screeners (BOY, MOY and EOY) to achieve the HB3 Board Goals. b) Improve performance in Domain 3 Closing the Gaps by making more than a year's growth in reading and mathematics which would in turn increase the number of students performing at the "meets" and "masters" level as measured by the spring 2025 STAAR and EOC assessments. This will also increase Domain 1 Student Achievement which counts the number of students at the various performance levels for state assessments.

**High Priority**

**HB3 Goal**

**Evaluation Data Sources:** Elementary: CLI Engage - CIRCLE (prekindergarten reading and math), mClass (kindergarten reading and math), mClass (grades 1-2 reading), and Renaissance STAR Assessments (reading, grades 3-5 and mathematics, grades 1-5)

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             | Reviews   |     |     |           |

### Performance Objective 1 Problem Statements:

| Demographics                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> A rapidly increasing percentage of students at the campus are classified as At-Risk (45%), indicating challenges that impact their academic progress. <b>Root Cause:</b> The high percentage of At-Risk students is primarily due to learning gaps and socioeconomic factors that could affect their educational opportunities and support.                                                                                                         |
| <b>Problem Statement 2:</b> The special education population continues to increase by multiple percentage points per year and now sits at 14% of the campus. <b>Root Cause:</b> General education instruction and intervention systems may not be adequately meeting the needs of specific learners, leading to increased gaps for special education students especially with transient special education students who are new to the campus or withdraw and enroll frequently. |

### Student Learning

**Problem Statement 1:** Walker Creek Elementary needs to improve 4th grade STAAR Mathematics performance. Although 59% of all students met or mastered the 2025 STAAR assessment, our goal was 65% and we fell short due to 4th grade Math. **Root Cause:** Gaps in Foundational Math Skills of new students, Instructional Misalignment to STAAR Rigor, Limited or misdirected Math Intervention or Tier 2/Tier 3 Supports

### School Processes & Programs

**Problem Statement 1:** There is a need to address academic gaps, particularly for students with learning disabilities, who are struggling to meet grade-level expectations. **Root Cause:** The Special Education population has increased significantly, growing from 56 students (12.61% of all students) in 2023-24 to 65 students which is over 14% of our current school population, contributing to the challenges in closing academic gaps.

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 2:** Students will display dispositions indicative of high levels of social-emotional development as measured by a district-administered student survey.

**High Priority**  
**Evaluation Data Sources:** Community survey, and discipline data in Focus

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             | Reviews   |     |     |           |

**Performance Objective 2 Problem Statements:**

| Demographics                                                                                                                                                                                                                                                                                                                                                                                                                                               |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> A rapidly increasing percentage of students at the campus are classified as At-Risk (45%), indicating challenges that impact their academic progress. <b>Root Cause:</b> The high percentage of At-Risk students is primarily due to learning gaps and socioeconomic factors that could affect their educational opportunities and support.                                                                                    |
| School Processes & Programs                                                                                                                                                                                                                                                                                                                                                                                                                                |
| <b>Problem Statement 1:</b> There is a need to address academic gaps, particularly for students with learning disabilities, who are struggling to meet grade-level expectations. <b>Root Cause:</b> The Special Education population has increased significantly, growing from 56 students (12.61% of all students) in 2023-24 to 65 students which is over 14% of our current school population, contributing to the challenges in closing academic gaps. |

**Goal 3:** All students and staff will learn and work in a safe and responsive environment.

**Performance Objective 1:** Respond to results of the campus safety survey that is administered annually to students, staff, and parents.

**Evaluation Data Sources:** 1) District provided campus safety survey from all stakeholders  
2) Campus Safety Committee Meeting Data

# Comprehensive Needs Assessment

## Demographics

### Demographics Summary

Our campus serves approximately 700 students in grades Pre-Kindergarten through Fifth grade. Grade levels range from five to six sections with all grade levels having two bilingual classrooms. Student ethnicity is 72% (502) Hispanic, 18% (127) White, and 5% (32) African American. We have 49% (344) of our students as Emergent Bilinguals. Students identified as economically disadvantaged make up 83% (579) of our students population. Our students labeled At Risk make up 79% (556) of our population. 49% (344) of Watauga students are enrolled in the bilingual or ESL program.

Other Demographics to consider: 4% (27) of our students are identified as Dyslexic, 17% (119) of students are identified under special education, 4% (25) are served under Gifted and Talented and 4% (28) of our population is served under 504. Our mobility rate is 13%.

### Demographics Strengths

Our campus is very large and still maintains a strong family bond. The staff works incredibly well together and is very supportive. They work diligently to meet the needs of others and their students.

All campus staff have been trained on Conscious Discipline training and are implementing the tools in their classrooms.

Monolingual and Bilingual teachers plan together and stay aligned within the curriculum.

Classes interact with one another developing an appreciation of differing cultures.

We have a local SERTOMA chapter that supports our school and is very involved in supporting public education in the city of Watauga.

Northwood Church has adopted our campus and sponsors a fall carnival, Christmas gifts and over 100 mentors who come out once a month with Academy 4. We have also implemented two programs called Leaders 5, a mentoring program for 5th graders, and a 4 Families project which provides family and parenting education classes through mentorship.

### Problem Statements Identifying Demographics Needs

**Problem Statement 1 (Prioritized):** Overall campus attendance rates are 94.7%. This is an increase from the past few years but still below our desired rate of 96%.

**Root Cause:** A root cause of this issue is inconsistent communication between the campus and families regarding the importance of daily attendance and its impact on student success.

# Student Learning

## Student Learning Summary

According to the 2025 STAAR results, there was an increase in all of the fourteen tests in at least one area. Nine of the tests showed growth in the percent of students reaching Approaches, Meets and Masters.

Based on the End of Year 2025 MTTS tiers, 60% of Kinder students were reading on grade level in English, 50% in Spanish, and 74% were on level for Math. 66% of 1st graders were reading on level in English, 42% in Spanish, and 68% were on level for Math. 61% of 2nd graders were reading on level in English, 59% in Spanish and 63% were on level in Math. 56% of 3rd graders were reading on level in English, 79% in Spanish and 59% were on level in Math. 62% of 4th graders were reading on level in English, 42% in Spanish and 43% were on level in Math.

## Student Learning Strengths

The percent of Watauga 3rd graders who scored at the Masters level for English Math increased by 11%.

The campus improved the district ranking in all fifth grade assessments.

The campus increased by sixteen percent for 4th grade Math in Approaches.

One hundred percent of students who tested in Spanish (twenty five students) for 3rd grade Math reached Approaches and seventy-six% reached Meets. Of these same students, eighty percent scored Approaches in Spanish Reading.

All Spanish tests for grades three through five showed an increase in the passing rates for Approaches and Meets.

The campus scored the highest or the second highest in the district on five of the seven Spanish STAAR assessments.

Twenty-five fourth graders improved their performance level category for STAAR Math and twenty-seven improved their STAAR Reading.

Eighteen fifth graders improved their performance level category for STAAR Math and thirty-one improved their STAAR Reading.

There were nine 4th grade students who passed Reading STAAR for the first time last year and 17 students increased on their STAAR performance level indicator.

There were nine 5th grade students who passed Math STAAR who had failed the 4th grade Math STAAR.

There were 26 5th grade students who increased on their Math STAAR performance level indicator.

There were 18 5th grade students who increased on their Reading STAAR performance level indicator.

### **Problem Statements Identifying Student Learning Needs**

**Problem Statement 1 (Prioritized):** The African American subgroup has a target of 33% for math for 2023-27. Campus results indicate 8% met grade level or above in Spring 2025. This subgroup has a target of 34% for reading for 2023-2027. Campus results indicate 15% met grade level or above in Spring 2025.

**Root Cause:** Staff is working diligently to fill learning gaps of students and more emphasis needs to be placed on students reaching Meets and Masters.

**Problem Statement 2 (Prioritized):** The White subgroup has a target of 60% for math for 2023-27. Campus results indicate 42% met grade level or above in Spring 2025. This subgroups has a target of 59% for reading for 2023-27. Campus results indicate 50% met grade level or above in Spring 2025.

**Root Cause:** Staff is working diligently to fill learning gaps of students and more emphasis needs to be placed on students reaching Meets and Masters.

# School Processes & Programs

## School Processes & Programs Summary

A number of specialized programs related to student need serves students at Watauga Elementary. The free and reduced lunch program serves eighty-three percent of our students. Forty-nine percent of the campus is served through a bilingual or ESL program in some capacity. Seventeen percent of our students are served in special education. Approximately four percent of our students are served through 504, as well. Approximately four percent of our students are served through our Gifted and Talented program.

In addition, we have a strategic and successful MTSS program that identifies students with needs in math and reading in Kindergarten - 5th grade. These students are placed on tiers, given strong research-based instruction in small group settings, and their progress is monitored and assessed frequently. Teachers are provided with trainings, resources, and staff support to meet the needs of these struggling students. Title I tutors have been hired to help meet the differentiated academic needs of students. We have three Resource teachers and three dyslexia teachers who serve students daily.

Watauga is committed to guaranteeing growth for all students- academically, emotionally and physically. Our students are involved in setting individual, class and grade level goals and monitoring their progress along the way in meeting these goals. Students celebrate their growth and success. The staff also sets professional goals and the campus calendar and schedule provide opportunities for the staff to visit other teachers' classrooms and learn from one another. We strive to foster a culture of literacy in all content areas. Our desire is to promote innovation with the use of technology resources that assist in increased engagement, collaboration and formative assessment. All students participate in monthly Counselor lessons, weekly social-emotional lessons from Character Strong and a common school-wide focus on our social skills program, Conscious Discipline. There are two full time Counselors and a part time crisis counselor who help meet the needs of students. WE has support of local churches to provide weekend food backpacks for several families. The campus offers a variety of extracurricular activities, including choir, running club, garden club, leadership team, and battle of the books, to meet the many needs of our students and families. We have partnered with a local church and Academy 4 so that every 4th grader will have a mentor this year and will go through a monthly leadership curriculum. In addition, we have a parent liaison who works closely with families in building literacy projects and supports in the home. To help foster a great relationship between school and home, we offer a series of parenting classes through a program called 4Families.

Our campus follows district expectations for instructional and curricular practices. We include personnel recruitment, support, and retention plans through our Title One supplemental plans.

Campus professional learning is developed from the district initiatives. Rubrics provided by the district, teacher surveys, instructional walks, classroom observations and student data guide our campus analysis. From these data sources, the campus leadership team identifies areas of needs. These needs are then addressed through professional learning throughout the year. This year our campus focus is on lesson internalization.

## School Processes & Programs Strengths

The master schedule for the campus has been strategically planned and developed to maximize the time for all students and to ensure that students do not miss core Tier 1 instruction. The campus MTSS team has created a systematic and comprehensive approach of reviewing multiple points of data for all students several times a year. This system allows for easy identification of students and data progress monitoring from a variety of sources in both reading and math. There is a strong focus on social and emotional learning for both students and staff.

We have implemented Conscious Discipline and have completed a book study and video series to help us gradually learn and implement structures that will help student self regulation.

To build engagement with parents, we are utilizing the Latino Family Literacy Project this year.

## **Problem Statements Identifying School Processes & Programs Needs**

**Problem Statement 1 (Prioritized):** The number and amount of skills that a teacher needs to effectively meet the demands in a classroom is growing. It takes time, consistency and numerous hours of effective professional learning and coaching.

**Root Cause:** Students are coming to school having greater social and behavior, academic and language needs.

# Perceptions

## Perceptions Summary

### Faculty developed mission:

#### Mission

We are a school who works together to value each part of our community, empower learners, and establish an environment where positive futures are created.

### Focused – Empowering – Caring

### Student friendly motto, recited daily:

#### Wildcat Motto

I have the right to learn in a safe, fun, supportive environment.

### Clear expectations with visuals are aligned across the campus

### Aligned rules in each classroom:

#### Classroom Rules

#### Conduct

1. Follow directions
2. Be polite, respectful, and helpful to others.
3. Respect Watauga Elementary property.

#### Work Habits:

1. Be prepared
2. Use time wisely.
3. Produce quality work.

-

## Perceptions Strengths

The staff participated in a survey in the spring of 2025 and results were overwhelmingly positive. The staff reported the campus has a family feel, that everyone is dedicated, supportive, collaborative and professional.

### **Problem Statements Identifying Perceptions Needs**

**Problem Statement 1 (Prioritized):** With 83% of our families considered economically disadvantaged and now all students having faced trauma some kind of trauma, the social emotional needs of students are vast. Healing takes time, resources and well trained staff.

**Root Cause:** There is a lack of comprehensive professional development focused on trauma-informed practices for our educators.

# Priority Problem Statements

**Problem Statement 1:** The number and amount of skills that a teacher needs to effectively meet the demands in a classroom is growing. It takes time, consistency and numerous hours of effective professional learning and coaching.

**Root Cause 1:** Students are coming to school having greater social and behavior, academic and language needs.

**Problem Statement 1 Areas:** School Processes & Programs

**Problem Statement 2:** The White subgroup has a target of 60% for math for 2023-27. Campus results indicate 42% met grade level or above in Spring 2025. This subgroups has a target of 59% for reading for 2023-27. Campus results indicate 50% met grade level or above in Spring 2025.

**Root Cause 2:** Staff is working diligently to fill learning gaps of students and more emphasis needs to be placed on students reaching Meets and Masters.

**Problem Statement 2 Areas:** Student Learning

**Problem Statement 3:** Overall campus attendance rates are 94.7%. This is an increase from the past few years but still below our desired rate of 96%.

**Root Cause 3:** A root cause of this issue is inconsistent communication between the campus and families regarding the importance of daily attendance and its impact on student success.

**Problem Statement 3 Areas:** Demographics

**Problem Statement 4:** With 83% of our families considered economically disadvantaged and now all students having faced trauma some kind of trauma, the social emotional needs of students are vast. Healing takes time, resources and well trained staff.

**Root Cause 4:** There is a lack of comprehensive professional development focused on trauma-informed practices for our educators.

**Problem Statement 4 Areas:** Perceptions

**Problem Statement 5:** The African American subgroup has a target of 33% for math for 2023-27. Campus results indicate 8% met grade level or above in Spring 2025. This subgroup has a target of 34% for reading for 2023-2027. Campus results indicate 15% met grade level or above in Spring 2025.

**Root Cause 5:** Staff is working diligently to fill learning gaps of students and more emphasis needs to be placed on students reaching Meets and Masters.

**Problem Statement 5 Areas:** Student Learning

# Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

## Improvement Planning Data

- District goals
- Campus goals
- Performance Objectives with summative review (prior year)
- Campus/District improvement plans (current and prior years)
- Covid-19 Factors and/or waivers for Assessment, Accountability, ESSA, Missed School Days, Educator Appraisals, etc.
- Planning and decision making committee(s) meeting data
- State and federal planning requirements

## Accountability Data

- Texas Academic Performance Report (TAPR) data
- Student Achievement Domain
- Student Progress Domain
- Closing the Gaps Domain
- Effective Schools Framework data
- Comprehensive, Targeted, and/or Additional Targeted Support Identification data
- Accountability Distinction Designations
- Federal Report Card and accountability data
- Local Accountability Systems (LAS) data

## Student Data: Assessments

- State and federally required assessment information
- STAAR current and longitudinal results, including all versions
- STAAR released test questions
- STAAR Emergent Bilingual (EB) progress measure data
- Texas English Language Proficiency Assessment System (TELPAS) and TELPAS Alternate results
- Texas Primary Reading Inventory (TPRI), Tejas LEE, or other alternate early reading assessment results
- Student failure and/or retention rates
- Local diagnostic reading assessment data
- Local benchmark or common assessments data
- Running Records results
- Observation Survey results
- Texas approved PreK - 2nd grade assessment data
- Texas approved Prekindergarten and Kindergarten assessment data
- Other PreK - 2nd grade assessment data
- State-developed online interim assessments
- Grades that measure student performance based on the TEKS

## Student Data: Student Groups

- Race and ethnicity data, including number of students, academic achievement, discipline, attendance, and rates of progress between groups
- Special programs data, including number of students, academic achievement, discipline, attendance, and rates of progress for each student group
- Economically disadvantaged / Non-economically disadvantaged performance and participation data
- Special education/non-special education population including discipline, progress and participation data
- At-risk/non-at-risk population including performance, progress, discipline, attendance, and mobility data
- Emergent Bilingual (EB) /non-EB data, including academic achievement, progress, support and accommodation needs, race, ethnicity, gender etc.
- Section 504 data
- Homeless data
- Gifted and talented data
- Dyslexia data
- Response to Intervention (RtI) student achievement data

#### **Student Data: Behavior and Other Indicators**

- Attendance data
- Mobility rate, including longitudinal data
- Discipline records
- Student surveys and/or other feedback
- School safety data
- Enrollment trends

#### **Employee Data**

- Professional learning communities (PLC) data
- Staff surveys and/or other feedback
- State certified and high quality staff data
- Campus leadership data
- Campus department and/or faculty meeting discussions and data
- Professional development needs assessment data
- T-TESS data

#### **Parent/Community Data**

- Parent surveys and/or other feedback
- Community surveys and/or other feedback

#### **Support Systems and Other Data**

- Processes and procedures for teaching and learning, including program implementation
- Communications data
- Capacity and resources data
- Budgets/entitlements and expenditures data
- Study of best practices

# Goals

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 1:** All students will make at least one year's progress in reading and mathematics by the end of the school year.

- a) Meet the progress monitoring targets in Prekindergarten - 3rd for each demographic group as measured by district approved screeners (BOY, MOY and EOY) to achieve the HB3 Board Goals.
- b) Improve performance in Domain 3 Closing the Gaps by making more than a year's growth in reading and mathematics which would, in turn, increase the number of students performing at the "Meets" and "Masters" level as measured by the spring 2026 STAAR and EOC assessments. This will also increase Domain 1 Student Achievement which counts the number of students at the various performance levels for state assessments.

**High Priority**

**HB3 Goal**

**Evaluation Data Sources:** CLI Engage - CIRCLE (prekindergarten reading and math), mClass (kindergarten reading and math), mClass (1-2 reading), Renaissance STAR Assessments (reading, grades 3-5 and mathematics, 1-5), District Common Formative Assessments

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          | Reviews   |     |     |           |

| <b>Problem Statement 1:</b> The African American subgroup has a target of 33% for math for 2023-27. Campus results indicate 8% met grade level or above in Spring 2025. This subgroup has a target of 34% for reading for 2023-2027. Campus results indicate 15% met grade level or above in Spring 2025. <b>Root Cause:</b> Staff is working diligently to fill learning gaps of students and more emphasis needs to be placed on students reaching Meets and Masters. |
| <b>Problem Statement 2:</b> The White subgroup has a target of 60% for math for 2023-27. Campus results indicate 42% met grade level or above in Spring 2025. This subgroups has a target of 59% for reading for 2023-27. Campus results indicate 50% met grade level or above in Spring 2025. <b>Root Cause:</b> Staff is working diligently to fill learning gaps of students and more emphasis needs to be placed on students reaching Meets and Masters.            |
| School Processes & Programs                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| <b>Problem Statement 1:</b> The number and amount of skills that a teacher needs to effectively meet the demands in a classroom is growing. It takes time, consistency and numerous hours of effective professional learning and coaching. <b>Root Cause:</b> Students are coming to school having greater social and behavior, academic and language needs.                                                                                                            |

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 2:** Close achievement gaps among underperforming student groups, as identified through state and district assessments. Ensure all identified student groups in grades PreK-3 meet progress monitoring targets in reading and mathematics, as measured by a district-approved assessment tool.

**HB3 Goal**

**Evaluation Data Sources:** Historical performance by student subgroup on state (STAAR, TELPAS) and district and campus assessments

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       | Reviews   |     |     |           |

## Performance Objective 2 Problem Statements:

| Student Learning                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> The African American subgroup has a target of 33% for math for 2023-27. Campus results indicate 8% met grade level or above in Spring 2025. This subgroup has a target of 34% for reading for 2023-2027. Campus results indicate 15% met grade level or above in Spring 2025. <b>Root Cause:</b> Staff is working diligently to fill learning gaps of students and more emphasis needs to be placed on students reaching Meets and Masters. |

### Student Learning

**Problem Statement 2:** The White subgroup has a target of 60% for math for 2023-27. Campus results indicate 42% met grade level or above in Spring 2025. This subgroups has a target of 59% for reading for 2023-27. Campus results indicate 50% met grade level or above in Spring 2025. **Root Cause:** Staff is working diligently to fill learning gaps of students and more emphasis needs to be placed on students reaching Meets and Masters.

### School Processes & Programs

**Problem Statement 1:** The number and amount of skills that a teacher needs to effectively meet the demands in a classroom is growing. It takes time, consistency and numerous hours of effective professional learning and coaching. **Root Cause:** Students are coming to school having greater social and behavior, academic and language needs.

### Perceptions

**Problem Statement 1:** With 83% of our families considered economically disadvantaged and now all students having faced trauma some kind of trauma, the social emotional needs of students are vast. Healing takes time, resources and well trained staff. **Root Cause:** There is a lack of comprehensive professional development focused on trauma-informed practices for our educators.

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 3:** Reduce the number of students assigned to behavioral MTSS Tiers 2 and 3 who are assigned disciplinary placements.

**Evaluation Data Sources:** Behavioral MTSS records.

| <b>Problem Statement 1:</b> With 83% of our families considered economically disadvantaged and now all students having faced trauma some kind of trauma, the social emotional needs of students are vast. Healing takes time, resources and well trained staff. <b>Root Cause:</b> There is a lack of comprehensive professional development focused on trauma-informed practices for our educators. |

**Goal 2:** The system will utilize efficient and effective operations to support and improve the learning organization.

**Performance Objective 1:** Increase the annual total average daily attendance (ADA) as compared to the prior school year, through improved student retention, recruitment, and days in attendance.

**Evaluation Data Sources:** 25-26 Campus Attendance

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     | Reviews   |     |     |           |

**Performance Objective 1 Problem Statements:**

| Demographics                                                                                                                                                                                                                                                                                                                                            |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> Overall campus attendance rates are 94.7%. This is an increase from the past few years but still below our desired rate of 96%. <b>Root Cause:</b> A root cause of this issue is inconsistent communication between the campus and families regarding the importance of daily attendance and its impact on student success. |

**Goal 3:** All students and staff will learn and work in a safe and responsive environment.

**Performance Objective 1:** Increase the percentage of students and staff who feel safe at school.

**Evaluation Data Sources:** District safety survey of students, parents and staff

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     | Reviews   |     |     |           |

| <b>Problem Statement 1:</b> With 83% of our families considered economically disadvantaged and now all students having faced trauma some kind of trauma, the social emotional needs of students are vast. Healing takes time, resources and well trained staff. <b>Root Cause:</b> There is a lack of comprehensive professional development focused on trauma-informed practices for our educators. |

**Goal 3:** All students and staff will learn and work in a safe and responsive environment.

**Performance Objective 2:** Reduce the cost of accidents resulting in workers' compensation claims by 10% over the previous year and reduce the number of work days lost each year due to accidents occurring on the job by 10%.

**Evaluation Data Sources:** Annual report of worker's compensation claims

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  | Reviews   |     |     |           |

| At Watauga Middle School, our 6th-grade students demonstrated commendable performance in the 2025 STAAR Math assessment, with 69% of students reaching the Approaches level, 30% achieving the Meets standard, and 8% excelling at the Masters level. This indicates a solid foundation in mathematical concepts, though there is room for growth in advancing more students to the Meets and Masters levels. Our 7th-grade math results show a similar pattern, with 63% Approaches, 33% Meets, and 7% Masters, suggesting a need for targeted interventions to enhance mastery. The 8th-grade math scores reflect significant progress, with 78% Approaches, 54% Meets, and 18% Masters, highlighting the effectiveness of our instructional strategies at this level. Notably, our Algebra EOC results are outstanding, with all students achieving the Approaches level, 92% meeting the standard, and 75% mastering the content, showcasing the strength of our algebra curriculum and instruction. .... | 7  |
| In reading, our 6th-grade students achieved 73% Approaches, 48% Meets, and 23% Masters, indicating a strong start in literacy skills. The 7th-grade reading scores are impressive, with 76% Approaches, 58% Meets, and 28% Masters, reflecting effective reading instruction and student engagement. Our 8th-grade students maintained this positive trend, with 77% Approaches, 54% Meets, and 27% Masters, demonstrating consistent literacy development across grade levels. ....                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          | 7  |
| The 8th-grade social studies results show that 61% of students reached the Approaches level, 27% met the standard, and 10% achieved mastery. These results suggest a need for enhanced focus on critical thinking and analytical skills to improve student performance in social studies. ....                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                | 7  |
| In science, our 8th-grade students achieved 75% Approaches, 49% Meets, and 12% Masters, indicating a solid understanding of scientific concepts. However, there is an opportunity to further develop inquiry-based learning and hands-on experiences to increase the number of students reaching the Masters level. Overall, these results provide valuable insights into our students' academic strengths and areas for growth, guiding our efforts to support and challenge all learners. ....                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              | 7  |

## Needs Assessment Overview

### Needs Assessment Overview Summary

[CNA 2024](#)

# Demographics

## Demographics Summary

- Watauga is a suburb of Fort Worth located in Tarrant County.
- Watauga Middle School (WMS) serves approximately 582 students.
- Student ethnicity is comprised of:
  - 51.37% Hispanic
  - 30.76% White
  - 7.90% African American
  - 7.39% Asian
  - 1.55% American Indian - Native Alaskan
  - .86% Native Hawaiian - Pacific Islander
- Approximately 72.51% of students are Economically Disadvantaged (ED).
- Approximately 33.68% of students are English Language Learners (ELLs)
- Approximately 19.07% of students are served in Special Education (SpEd).
- Approximately 66.49% of students are At-Risk.
- Approximately 12.89% of students have a 504 plan.
- Approximately 14.09% of students have Dyslexia.
- Approximately 8.08% of students are served through the Gifted and Talented program (GT). (Which is an Honors+ program in which extension activities are written into the Honors Curriculum in addition to a separate curriculum.)
- Approximately 53.5% of students take one or more Career and Technology Education (CTE) courses
- Twelve students were served in District Alternative Education Program (DAEP) placements in 2024-2025. (Students were sent to DAEP due to the implementation of HB 114. All students who were sent to DAEP have been in possession of a vape with the exception of three students. Two students served two times. One student served three times.)
- All staff is highly qualified.
- Professional Development (PD) is often offered through the Professional Learning Communities (PLCs), as well as through offerings on campus and district professional development days. That allows for frequent follow-up and discussions about new processes or methods.
- PLC form changes have encouraged greater collaboration and reflection around common assessment data.
- Additional protocols are regularly implemented during PLC periods for all contents (Lesson Refinement Protocol, Test Refining Protocol).
- Walk-throughs aid in verifying the implementation of district and campus priorities.
- Curriculum Based Assessments (CBAs) and State of Texas Assessments of Academic Readiness (STAAR) data help to evaluate the impact that professional development has on student achievement.
- Teachers are evaluated with the Texas Teacher Evaluation and Support System (T-TESS). Administrators are evaluated with the Texas Principal Evaluation and Support System (T-PESS).

## Demographics Strengths

- Approximately 8.08% of students are served through the Gifted and Talented program.
- Approximately 53.5% of students take one or more Career and Technology courses.
- All staff is highly qualified.
- WMS staff is diverse. 35% of teachers are male. 65% of teachers are female. Various ethnicities are represented and several languages are spoken by staff members.
- Professional development is often offered through the PLCs, as well as through offerings on campus and district professional development days. That allows for frequent follow-up and discussions about new processes or methods.

- Walk-throughs aid in verifying the implementation of district and campus priorities.
- Blended training and technology competent teachers allow for effective collaboration in the Canvas Learning Management System (LMS).

### **Problem Statements Identifying Demographics Needs**

**Problem Statement 1 (Prioritized):** Based on student achievement data, our 8th grade RLA students are under performing.

**Root Cause:** There are opportunities to enhance the personalization of learning and the use of data to evaluate instructional effectiveness.

**Problem Statement 2 (Prioritized):** The Parent-Teacher Association (PTA) is experiencing low membership rates, impacting the level of parental involvement and support for school initiatives.

**Root Cause:** Families face barriers to PTA participation due to financial constraints and limited availability, which hinder their ability to engage fully with the organization.

**Problem Statement 3 (Prioritized):** White student math scores have plateaued, indicating a need for targeted instruction to accelerate growth and maximize their academic potential.

**Root Cause:** A lack of differentiated instruction and rigorous, engaging tasks may be limiting growth for our White students who are performing at or near grade level.

# Student Learning

## Student Learning Summary

- At Watauga Middle School, our 6th-grade students demonstrated commendable performance in the 2025 STAAR Math assessment, with 69% of students reaching the Approaches level, 30% achieving the Meets standard, and 8% excelling at the Masters level. This indicates a solid foundation in mathematical concepts, though there is room for growth in advancing more students to the Meets and Masters levels. Our 7th-grade math results show a similar pattern, with 63% Approaches, 33% Meets, and 7% Masters, suggesting a need for targeted interventions to enhance mastery. The 8th-grade math scores reflect significant progress, with 78% Approaches, 54% Meets, and 18% Masters, highlighting the effectiveness of our instructional strategies at this level. Notably, our Algebra EOC results are outstanding, with all students achieving the Approaches level, 92% meeting the standard, and 75% mastering the content, showcasing the strength of our algebra curriculum and instruction.
- In reading, our 6th-grade students achieved 73% Approaches, 48% Meets, and 23% Masters, indicating a strong start in literacy skills. The 7th-grade reading scores are impressive, with 76% Approaches, 58% Meets, and 28% Masters, reflecting effective reading instruction and student engagement. Our 8th-grade students maintained this positive trend, with 77% Approaches, 54% Meets, and 27% Masters, demonstrating consistent literacy development across grade levels.
- The 8th-grade social studies results show that 61% of students reached the Approaches level, 27% met the standard, and 10% achieved mastery. These results suggest a need for enhanced focus on critical thinking and analytical skills to improve student performance in social studies.
- In science, our 8th-grade students achieved 75% Approaches, 49% Meets, and 12% Masters, indicating a solid understanding of scientific concepts. However, there is an opportunity to further develop inquiry-based learning and hands-on experiences to increase the number of students reaching the Masters level. Overall, these results provide valuable insights into our students' academic strengths and areas for growth, guiding our efforts to support and challenge all learners.
- The scores of students in Special Education continue to perform below their peers based on 2025 data.
- We had 17 students take the Advanced Placement (AP) Spanish Language and Culture Exam in 2025. 88% of the students scored a three or higher. This was a 15% increase from 2024.
- Three of seven Distinctions Earned in 2025. Academic Achievement in Mathematics, Postsecondary Readiness, and Top 25%: Comparative Closing the Gaps

## Student Learning Strengths

- Watauga Middle received an 87 campus rating in Spring 2025. This is considered “Recognized” by the TEA.
- Algebra EOC: 100% Approaches, 92% Meets, 75% Masters
- We had 17 students take the Advanced Placement (AP) Spanish Language and Culture Exam in 2025. 88% of the students scored a three or higher.

## Problem Statements Identifying Student Learning Needs

**Problem Statement 1 (Prioritized):** While Approaches Grade Level achievement remains relatively steady, Meets Grade Level achievement continues to lag.

**Root Cause:** Lesson planning could benefit from a more intentional emphasis on high rigor and open-ended questioning. Additionally, higher-level questioning should be more purposefully integrated, and there is a need to better address the needs of Tier 2 students.

**Problem Statement 2 (Prioritized):** Honors courses are not reaching appropriate level of rigor to promote increase in Masters Grade Level on STAAR Testing.

**Root Cause:** There is a need for increased expectations for learners and for more comprehensive training for teachers to effectively support Honors-level instruction.

# School Processes & Programs

## School Processes & Programs Summary

- Our daily schedule consists of eight 47 minute class periods.
- State law helps to determine the amount of time assigned to each content area.
- A Dyslexia Program is used to aid students who are dyslexic.
- Each teacher offers several tutorial times each week, with at least one after-school tutorial session and one before-school tutorial session.
- Gifted and Talented (GT) services are through participation in Honors+ courses.
- Our campus strictly adheres to the state standards and the district curriculum.
- During Professional Learning Communities (PLC), our teachers align their classroom teaching to the rigor of the Common Based Assessments (CBAs) and State of Texas Assessments of Academic Readiness (STAAR), with a focus on district Tier 1 instruction priorities. This is evidenced by the lessons and common assessments used to determine student retention of material.
- CBAs are used to measure the effectiveness of the district curriculum and the pacing of the teaching. These scores may be used to figure into the students' averages as daily grades. Data discussions, guided by the district CBA protocol, focus on instructional implications of data and student remediation needs.
- Tier 1 coherency documents outline expectations for implementation in all core content areas.
- Team specific, measurable, attainable, relevant and time-bound (SMART) goals encourage goal-setting and behaviors that will help to reach those goals, as individuals and PLC teams.
- Response to Intervention (RtI) is implemented through pull-out intervention programs based upon STAAR scores, CBA scores, Universal Screener results, and classroom teacher observations.
- Teacher growth in Continuous Improvement will be supported by classroom walk-throughs and subsequent coaching conversations.
- All staff is highly qualified.
- Staff is recruited through Enterprise through Region XI and staff recommendations.
- Professional development is often offered through the PLCs, as well as through offerings on campus and district professional development days. This allows for frequent follow-up and discussions about new processes or methods.
- Walk-throughs aid in verifying the implementation of new initiatives and protocols, including departmental coherency documents.
- CBAs and STAAR help to evaluate the impact our professional development has on student achievement.
- Teachers have been trained on the T-TESS evaluation system and have begun collecting data related to Student Learning Objectives.
- Our campus has a vast number of resources available. Each classroom operates with a minimum of one teacher computer, a projector, and a Newline Interactive Panel. Classrooms also have a document camera to use. CTE has 33 laptops and 20 desktops. Reading Improvement has 3 desktops and thirty-five (35) laptops. Our library has nine (9) student computers, and two (2) teacher computers available.
- Birdville Independent School District (BISD) and WMS technology resources are used only for learning, teaching, and administrative purposes consistent with the district and campus mission and goals.
- BISD has implemented a 1:1 system.
- Watauga Middle School is a blended learning campus. This is to focus on teacher use of structures such as station rotation and play-lists that foster student initiative and ownership of learning. This program is well-aligned to Continuous Improvement tools such as Plan-Do-Study-Act (PDSA) and student data folders.

## School Processes & Programs Strengths

- A pull-out intervention program has been designed to aid those students needing more instructional time in Reading.
- Each teacher offers several tutorial times each week, with at least one after-school tutorial session and one before-school tutorial session.
- Our campus strictly adheres to the state standards and the district curriculum.
- Our campus principal is ultimately responsible for new programs or changes to current programs. However, she is inclusive of key members of staff in the decision making

process, including Leaders of Learners and other teacher leaders.

- During PLC, our teachers align their classroom teaching to the rigor of the CBAs and STAAR, with a focus on district Tier 1 instruction priorities. This is evidenced by the lessons and common assessments used to determine student retention of material.
- CBAs are used to measure the effectiveness of the district curriculum and the pacing of the teaching. These scores may be used to figure into the students' averages as daily grades. Data discussions, guided by the district CBA protocol, focus on instructional implications of data and student remediation needs.
- Tier 1 coherency documents outline expectations for implementation in all core content areas.
- Team SMART (specific, measurable, attainable, relevant and time-bound) goals encourage goal-setting and behaviors that will help to reach those goals, as individuals and PLC teams.
- Teacher growth in Continuous Improvement will be supported by classroom walk-throughs and subsequent coaching conversations.
- All staff is highly qualified.
- Professional development is often offered through the PLCs, as well as through offerings on campus and district professional development days. That allows for frequent follow-up and discussions about new processes or methods.
- All first year teachers attend new teacher program initiatives and are provided a mentor on campus.
- Our campus has a vast number of resources available.
- Students clearly understand the expectations regarding their behavioral and academic performance through the campus C.H.A.M.P.s (Communication, Help, Activity, Material, Participation) program. This initiative defines the organization and activities of the classroom, setting the tone for classroom management by our teachers.
- BISD and WMS technology resources are used only for learning, teaching, and administrative purposes consistent with district's and campus mission and goals.
- Watauga Middle School is a blended learning campus. This is to focus on teacher use of structures such as station rotation and play-lists that foster student initiative and ownership of learning. This program is well-aligned to Continuous Improvement tools such as PDSA and student data folders.
- In order to best serve our SPED population, WMS has the AABLE program and SEEC program:

The Academic and Adaptive Behavior Learning Environment (AABLE) program includes students with significant deficits in cognitive and adaptive behaviors who demonstrate needs in functional and developmental areas. Instruction emphasizes academics, communication, socialization, personal management, vocational, and functional skills. The Secondary Structured Environment to Enhance Communication (SEEC) program includes students with significant deficits in cognitive and adaptive behaviors who demonstrate needs in functional and developmental areas who are non-verbal. Instruction emphasizes academics, communication, socialization, personal management, vocational, and functional skills.

- WMS offers Resource Math and Reading classes; as well as Learning Lab support in all core subjects.

## **Problem Statements Identifying School Processes & Programs Needs**

**Problem Statement 1 (Prioritized):** The need for professional development aligned to district and campus initiatives is significant.

**Root Cause:** A lack of coordinated, ongoing professional development has resulted in inconsistent implementation of district and campus initiatives across classrooms.

# Perceptions

## Perceptions Summary

- Ethnically diverse parent representatives do participate in our site-based meetings on a voluntary basis and have a voice in campus decisions.
- There is a parent liaison on the Language (LPAC) committee.
- Survey data reveals that teachers and students feel that they are safe while in school at WMS.
- Students have a wide variety of academic and extracurricular activities available at Watauga Middle School. This provides a variety of activities that pique the students' interests and build on their academic and social growth.
- We offer campus communications in several languages to accommodate our families that do not speak English as their first language.
- Bullying is an issue we take very seriously at Watauga Middle School, as we document each and every case where a student feels threatened or bullied. The administration team continually works to educate students and parents alike on the parameters of bullying and follows House Bill (HB) 1942 set forth by the state of Texas addressing cyber-bullying, bullying, and harassment in schools.
- Campus administrators meet with victims of bullying and their perpetrators to resolve student issues and foster a culture of Social Emotional Learning (SEL) Character Traits. Students, parents and staff have access to Anonymous Alerts, as well as other tools for prevention and reporting.
- Discipline data reveals a small percentage of students making up most of the office referrals. These offenses typically are classroom disruptions that negatively affect the learning environment and these students are issued the appropriate consequence for their misbehavior.
- In the 2023-2024 school year, twelve students were served in District Alternative Education Program (DAEP) placements in 2023-2024. (Students were sent to DAEP due to the implementation of HB 114. All students who were sent to DAEP have been in possession of a vape with the exception of three students. Two students served two times. One student served three times.)

## Perceptions Strengths

- Parents attend Choir and Band Concerts.
- Fall and Spring Open House are well-attended.
- Advancement Via Individual Determination (AVID) Family Nights and student events are well-attended.
- School Theater plays draw faculty, staff, parents, and other community members.
- Math and Science Nights are extremely interactive, with both students and parents providing positive feedback.
- Choir does "carolling" tours to the elementaries and to nursing homes.
- Teachers and students feel that they are safe while in school at WMS.
- Students clearly understand the expectations regarding their behavioral and academic performance through the campus Communication–Help–Activity–Material–Participation (C.H.A.M.P.'s) program. This initiative defines the organization and activities of the classroom, setting the tone for classroom management by our teachers.

## Problem Statements Identifying Perceptions Needs

**Problem Statement 1 (Prioritized):** Increasing community involvement through consistent, two-way communication will strengthen partnerships that support student learning and success.

**Root Cause:** Limited opportunities for meaningful, two-way communication have hindered strong community involvement and partnership in supporting student achievement.

# Priority Problem Statements

**Problem Statement 1:** Based on student achievement data, our 8th grade RLA students are under performing.

**Root Cause 1:** There are opportunities to enhance the personalization of learning and the use of data to evaluate instructional effectiveness.

**Problem Statement 1 Areas:** Demographics

**Problem Statement 2:** Honors courses are not reaching appropriate level of rigor to promote increase in Masters Grade Level on STAAR Testing.

**Root Cause 2:** There is a need for increased expectations for learners and for more comprehensive training for teachers to effectively support Honors-level instruction.

**Problem Statement 2 Areas:** Student Learning

**Problem Statement 3:** While Approaches Grade Level achievement remains relatively steady, Meets Grade Level achievement continues to lag.

**Root Cause 3:** Lesson planning could benefit from a more intentional emphasis on high rigor and open-ended questioning. Additionally, higher-level questioning should be more purposefully integrated, and there is a need to better address the needs of Tier 2 students.

**Problem Statement 3 Areas:** Student Learning

**Problem Statement 4:** The need for professional development aligned to district and campus initiatives is significant.

**Root Cause 4:** A lack of coordinated, ongoing professional development has resulted in inconsistent implementation of district and campus initiatives across classrooms.

**Problem Statement 4 Areas:** School Processes & Programs

**Problem Statement 5:** Increasing community involvement through consistent, two-way communication will strengthen partnerships that support student learning and success.

**Root Cause 5:** Limited opportunities for meaningful, two-way communication have hindered strong community involvement and partnership in supporting student achievement.

**Problem Statement 5 Areas:** Perceptions

**Problem Statement 6:** White student math scores have plateaued, indicating a need for targeted instruction to accelerate growth and maximize their academic potential.

**Root Cause 6:** A lack of differentiated instruction and rigorous, engaging tasks may be limiting growth for our White students who are performing at or near grade level.

**Problem Statement 6 Areas:** Demographics

**Problem Statement 7:** The Parent-Teacher Association (PTA) is experiencing low membership rates, impacting the level of parental involvement and support for school initiatives.

**Root Cause 7:** Families face barriers to PTA participation due to financial constraints and limited availability, which hinder their ability to engage fully with the organization.

**Problem Statement 7 Areas:** Demographics

# Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

## Improvement Planning Data

- District goals
- Campus goals
- Performance Objectives with summative review (prior year)
- Campus/District improvement plans (current and prior years)
- Planning and decision making committee(s) meeting data
- State and federal planning requirements

## Accountability Data

- Texas Academic Performance Report (TAPR) data
- Student Achievement Domain
- Student Progress Domain
- Closing the Gaps Domain
- Effective Schools Framework data
- Comprehensive, Targeted, and/or Additional Targeted Support Identification data
- Accountability Distinction Designations

## Student Data: Assessments

- State and federally required assessment information
- STAAR End-of-Course current and longitudinal results, including all versions
- STAAR released test questions
- STAAR Emergent Bilingual (EB) progress measure data
- Texas English Language Proficiency Assessment System (TELPAS) and TELPAS Alternate results
- Advanced Placement (AP) and/or International Baccalaureate (IB) assessment data
- Career and Technical Education (CTE) Programs of Study data including completer, concentrator, explorer, participant, and non-participant information
- Student failure and/or retention rates
- Grades that measure student performance based on the TEKS

## Student Data: Student Groups

- Race and ethnicity data, including number of students, academic achievement, discipline, attendance, and rates of progress between groups
- Special programs data, including number of students, academic achievement, discipline, attendance, and rates of progress for each student group
- Economically disadvantaged / Non-economically disadvantaged performance and participation data
- Male / Female performance, progress, and participation data
- Special education/non-special education population including discipline, progress and participation data
- Migrant/non-migrant population including performance, progress, discipline, attendance and mobility data
- At-risk/non-at-risk population including performance, progress, discipline, attendance, and mobility data
- Emergent Bilingual (EB) /non-EB data, including academic achievement, progress, support and accommodation needs, race, ethnicity, gender etc.
- Career and Technical Education (CTE) Programs of Study data including completer, concentrator, explorer, participant, and non-participant achievements by race, ethnicity,

- gender, etc.
- Section 504 data
- Homeless data
- Gifted and talented data
- Dyslexia data
- Response to Intervention (RtI) student achievement data

#### **Student Data: Behavior and Other Indicators**

- Attendance data
- Mobility rate, including longitudinal data
- Discipline records
- Violence and/or violence prevention records
- Tobacco, alcohol, and other drug-use data
- Student surveys and/or other feedback
- Class size averages by grade and subject
- School safety data

#### **Employee Data**

- Professional learning communities (PLC) data
- Staff surveys and/or other feedback
- Teacher/Student Ratio
- State certified and high quality staff data
- Campus leadership data
- Campus department and/or faculty meeting discussions and data
- Professional development needs assessment data
- Evaluation(s) of professional development implementation and impact
- Equity data
- T-TESS data
- T-PESS data

#### **Parent/Community Data**

- Parent surveys and/or other feedback

#### **Support Systems and Other Data**

- Communications data
- Budgets/entitlements and expenditures data

# Goals

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social and emotional needs of the student.

**Performance Objective 1:** Improve performance in Domain 3 Closing the Gaps by making more than a year's growth in reading and mathematics which would in turn increase the number of students performing at the "meets" and "masters" level as measured by the spring 2025 STAAR and EOC assessments. This will also increase Domain 1 Student Achievement which counts the number of students at the various performance levels for state assessments

## High Priority

**Evaluation Data Sources:** Renaissance STAR Assessments (grades 6-8, Reading and Mathematics), STAAR Interims for Reading Language Arts and Mathematics (grades 6-8 and Algebra), common assessments, and STAAR Tests

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |  | Reviews   |     |     |           |

| <b>Strategy 7:</b> Improve internalization of math instruction to align with Tier I priorities, curricular standards, and state and local assessments.<br><b>Actions:</b> a) Provide targeted professional development on Tier 1 math instructional strategies that promote deep understanding and student engagement.<br>b) Implement regular lesson planning and collaborative PLC sessions focused on aligning math instruction with curricular standards and assessment expectations.<br>c) Conduct classroom walkthroughs and observations to monitor the use of best practices that support internalization of math concepts.<br>d) Use student assessment data to inform instruction and identify areas where deeper conceptual understanding is needed.<br>e) Facilitate peer coaching and modeling of effective math instructional practices to build teacher capacity.<br>f) Integrate formative assessments and reflective practices to help students internalize and apply math skills consistently.<br><b>Staff Responsible for Monitoring:</b> Principal, Assistant Principals, Instructional Facilitator, Social Studies Department Chair, District Coordinator<br><br><b>ESF Levers:</b><br>Lever 2: Strategic Staffing, Lever 4: High-Quality Instructional Materials and Assessments, Lever 5: Effective Instruction<br><b>Problem Statements:</b> Student Learning 1, 2 - School Processes & Programs 1 | Formative |     |     | Summative |

| <b>Problem Statement 1:</b> Based on student achievement data, our 8th grade RLA students are under performing. <b>Root Cause:</b> There are opportunities to enhance the personalization of learning and the use of data to evaluate instructional effectiveness.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| Student Learning                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| <b>Problem Statement 1:</b> While Approaches Grade Level achievement remains relatively steady, Meets Grade Level achievement continues to lag. <b>Root Cause:</b> Lesson planning could benefit from a more intentional emphasis on high rigor and open-ended questioning. Additionally, higher-level questioning should be more purposefully integrated, and there is a need to better address the needs of Tier 2 students.<br><br><b>Problem Statement 2:</b> Honors courses are not reaching appropriate level of rigor to promote increase in Masters Grade Level on STAAR Testing. <b>Root Cause:</b> There is a need for increased expectations for learners and for more comprehensive training for teachers to effectively support Honors-level instruction. |
| School Processes & Programs                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| <b>Problem Statement 1:</b> The need for professional development aligned to district and campus initiatives is significant. <b>Root Cause:</b> A lack of coordinated, ongoing professional development has resulted in inconsistent implementation of district and campus initiatives across classrooms.                                                                                                                                                                                                                                                                                                                                                                                                                                                              |

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social and emotional needs of the student.

**Performance Objective 2:** Close the achievement gaps for all underperforming and designated subgroups, as measured by state and district assessments.

**High Priority**

**Evaluation Data Sources:** Historical performance by student subgroup on state and district assessments

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          | Reviews   |     |     |           |

| <b>Problem Statement 1:</b> Based on student achievement data, our 8th grade RLA students are under performing. <b>Root Cause:</b> There are opportunities to enhance the personalization of learning and the use of data to evaluate instructional effectiveness.                                                                                                                                                             |
| Student Learning                                                                                                                                                                                                                                                                                                                                                                                                               |
| <b>Problem Statement 1:</b> While Approaches Grade Level achievement remains relatively steady, Meets Grade Level achievement continues to lag. <b>Root Cause:</b> Lesson planning could benefit from a more intentional emphasis on high rigor and open-ended questioning. Additionally, higher-level questioning should be more purposefully integrated, and there is a need to better address the needs of Tier 2 students. |
| School Processes & Programs                                                                                                                                                                                                                                                                                                                                                                                                    |
| <b>Problem Statement 1:</b> The need for professional development aligned to district and campus initiatives is significant. <b>Root Cause:</b> A lack of coordinated, ongoing professional development has resulted in inconsistent implementation of district and campus initiatives across classrooms.                                                                                                                      |
| Perceptions                                                                                                                                                                                                                                                                                                                                                                                                                    |
| <b>Problem Statement 1:</b> Increasing community involvement through consistent, two-way communication will strengthen partnerships that support student learning and success. <b>Root Cause:</b> Limited opportunities for meaningful, two-way communication have hindered strong community involvement and partnership in supporting student achievement.                                                                    |

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social and emotional needs of the student.

**Performance Objective 3:** Reduce the number of students assigned to behavior Response to Intervention (RtI) tiers 2 and 3.

**Evaluation Data Sources:** Focus Data, Public Education Information Management System (PEIMS), Data

**Performance Objective 1 Problem Statements:**

| Demographics                                                                                                                                                                                                                                                                                                                                                                      |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 2:</b> The Parent-Teacher Association (PTA) is experiencing low membership rates, impacting the level of parental involvement and support for school initiatives.<br><b>Root Cause:</b> Families face barriers to PTA participation due to financial constraints and limited availability, which hinder their ability to engage fully with the organization. |
| School Processes & Programs                                                                                                                                                                                                                                                                                                                                                       |
| <b>Problem Statement 1:</b> The need for professional development aligned to district and campus initiatives is significant. <b>Root Cause:</b> A lack of coordinated, ongoing professional development has resulted in inconsistent implementation of district and campus initiatives across classrooms.                                                                         |

**Goal 3:** All students and staff will learn and work in a safe and responsive environment.

**Performance Objective 1:** Increase the percentage of students and staff who report feeling safe at school.

**Evaluation Data Sources:** District safety survey of students, parents and staff

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |  | Reviews   |     |     |           |

# Comprehensive Needs Assessment

## Demographics

### Demographics Summary

West Birdville is a suburban campus located in Haltom City, Texas, serving approximately 665 students. As a Title I school, it is noteworthy that 86% of our student body is economically disadvantaged, which underscores the importance of providing targeted support and resources to ensure that all students have the opportunity to succeed academically. The demographic composition of our school is predominantly Hispanic at 91.73%, with smaller percentages of White, Asian, Two-or-More races, and Black students, reflecting a diverse and vibrant community.

A significant portion of our student population, 68.72%, are Emergent Bilingual students, which highlights the critical need for effective bilingual education programs to support language development and academic achievement. Additionally, 12.18% of our students receive Special Education services, 1.80% are served in Dyslexia programs, and 4.51% are identified as Gifted and Talented, indicating a wide range of educational needs that our staff is dedicated to addressing. With 86.62% of our students identified as At-Risk, it is imperative that we continue to implement strategies and interventions that support their academic and social-emotional growth.

The immigrant population at West Birdville has seen an increase from 6.98% in 2024 to 8.12% in 2025, reflecting broader demographic trends and the need for culturally responsive teaching practices. For the 2024-2025 academic year, we have employed 49 teachers and 21 educational aides, ensuring a strong staffing structure to meet the diverse needs of our students. As the largest bilingual program in Birdville ISD and serving the district's highest percentage of economically disadvantaged students, West Birdville is uniquely positioned to address both the challenges and opportunities in fostering equitable academic growth and achievement for all learners. Our commitment to excellence and equity remains steadfast as we strive to create a supportive learning environment for every student.

### Demographics Strengths

West Birdville's diverse demographics foster a rich learning environment supported by intentional leadership. The addition of a completely bilingual administrative team has strengthened parent communication and engagement, creating stronger connections between home and school. With 68.7% of students identified as Emergent Bilingual, this leadership structure ensures families feel welcomed, informed, and supported in their child's education. As the largest bilingual campus in Birdville ISD and with a high percentage of economically disadvantaged students, West Birdville's ability to bridge language and cultural barriers is a significant strength that promotes community involvement and student success.

### Problem Statements Identifying Demographics Needs

**Problem Statement 1 (Prioritized):** A significant portion of West Birdville's students are Emergent Bilinguals (68.7%) and economically disadvantaged (86%), which can contribute to gaps in academic achievement and access to grade-level content.

**Root Cause:** Limited language proficiency, combined with socio-economic challenges, impacts students' ability to fully engage with instruction and access academic support, leading to disparities in achievement across core subjects.

**Problem Statement 2 (Prioritized):** The percentage of students identified and served in the Gifted and Talented program at West Birdville remains low at 4.51%. Students in bilingual classrooms are underrepresented compared to their peers in monolingual classrooms.

**Root Cause:** The Gifted and Talented assessment has historically been administered in English only, creating barriers for Emergent Bilingual students and limiting equitable

identification.

# Student Learning

## Student Learning Summary

The Spring 2025 STAAR results provide a clear picture of student performance across grades 3–5 in reading, math, and science. In 3rd grade, English and Spanish students demonstrated consistent achievement in reading, with nearly identical results at the Approaches, Meets, and Masters levels. Math performance at this grade level showed Spanish students slightly ahead at the Approaches and Meets levels, though mastery remained low for both groups.

In 4th grade, reading outcomes reflected stronger performance among English students, while Spanish students scored significantly lower across all performance levels. Math results revealed challenges for both groups, with Spanish students showing particularly low performance and no representation at the Masters level.

By 5th grade, reading outcomes were stronger, with higher percentages of students meeting and mastering the standards compared to earlier grades. Spanish students surpassed their peers at the Approaches level, while both groups demonstrated progress at Meets and Masters. In math, Spanish students outperformed at the Meets level, though English students had stronger results at Approaches and Masters. Science outcomes were consistent between English and Spanish students at Approaches, but very few students in either group achieved Meets or Masters.

Overall, the data indicates steady development of foundational skills in reading, with encouraging gains in 5th grade. Math and science results highlight the need for continued instructional focus, particularly on moving more students beyond the Approaches level and increasing mastery rates.

### ***STAAR Results Spring 2025:***

#### **3<sup>rd</sup> Grade Reading**

English: Approaches 70%, Meets 34%, Masters 9%

Spanish: Approaches 69%, Meets 34%, Masters 9%

#### **3<sup>rd</sup> Grade Math**

English: Approaches 58%, Meets 21%, Masters 6%

Spanish: Approaches 61%, Meets 28%, Masters 6%

#### **4<sup>th</sup> Grade Reading**

English: Approaches 70%, Meets 33%, Masters 11%

Spanish: Approaches 42%, Meets 15%, Masters 8%

#### **4<sup>th</sup> Grade Math**

English: Approaches 46%, Meets 16%, Masters 6%

Spanish: Approaches 22%, Meets 17%, Masters 0%

#### **5<sup>th</sup> Grade Reading**

English: Approaches 63%, Meets 36%, Masters 15%

Spanish: Approaches 76%, Meets 29%, Masters 14%

### **5<sup>th</sup> Grade Math**

English: Approaches 64%, Meets 25%, Masters 9%

Spanish: Approaches 42%, Meets 32%, Masters 5%

### **5<sup>th</sup> Grade Science**

English: Approaches 52%, Meets 12%, Masters 2%

Spanish: Approaches 53%, Meets 11%, Masters 0%

## **Student Learning Strengths**

The Spring 2025 STAAR results highlight important areas of student learning strength in reading and math across grades 3–5. In 3rd grade, English and Spanish students performed nearly identically in reading, reflecting consistent literacy development across both language groups. In math, Spanish students outperformed their peers at the Approaches and Meets levels, indicating growth in early numeracy skills.

By 5th grade, students demonstrated encouraging progress in reading, with higher percentages reaching Meets and Masters compared to earlier grades. Spanish-speaking students performed especially well at the Approaches level in reading, while both language groups showed similar results at the Masters level. In math, Spanish students demonstrated strength at the Meets level, while English students showed stronger performance at the Approaches and Masters levels.

Overall, the results point to consistent reading achievement across languages in 3rd grade and encouraging gains in both reading and math by 5th grade. These areas of strength provide a solid foundation to build upon as we continue to increase the number of students achieving at higher levels of proficiency.

## **Problem Statements Identifying Student Learning Needs**

**Problem Statement 1 (Prioritized):** While students in grades 3-5 demonstrate consistent achievement at the Approaches level in reading, too few are advancing to the Meets and Masters performance levels.

**Root Cause:** Instructional practices are not consistently providing the level of rigor needed to develop the higher-level comprehension and analytical skills required for Meets and Masters.

**Problem Statement 2 (Prioritized):** Spanish-speaking students in grades 4-5 are performing below their English-speaking peers in both reading and math at the Meets and Masters levels.

**Root Cause:** Spanish-speaking students have not consistently received targeted instructional support and scaffolding to address language-specific barriers that impact higher-level academic performance.

# School Processes & Programs

## School Processes & Programs Summary

West Birdville Elementary has established multiple systems and programs designed to foster strong family and community engagement. The campus implements ongoing culturally responsive communication and outreach to ensure families are informed and supported in their child's learning. Family surveys and feedback mechanisms are used to gather input and guide campus initiatives, while student surveys provide additional perspectives on programs, safety, and school climate.

To support families of Emergent Bilinguals and other at-risk students, West Birdville provides bilingual communication, translation services, and targeted outreach to connect families with both campus and community resources. Partnerships with local churches and organizations, such as the Academy 4 mentorship program, offer supplemental support including weekend food programs, mentoring opportunities, and academic enrichment aligned to student needs.

Additionally, the campus hosts events and workshops aimed at increasing family involvement and awareness of school programs. Title I and other funding sources support initiatives that help families navigate academic, social, and emotional supports available to their children. These processes and programs are structured to maximize accessibility and engagement; however, variations in language proficiency, access, and understanding of resources remain challenges that the campus continues to address through targeted outreach and culturally responsive practices.

## School Processes & Programs Strengths

West Birdville Elementary leverages strong family and community engagement through culturally responsive practices and bilingual administration, which allows for meaningful communication and relationship-building with families of Emergent Bilingual students. Partnerships with local organizations, including churches and Academy 4, provide mentoring, academic enrichment, and additional support services. Bilingual communication, translation services, and targeted outreach ensure families have access to the resources needed to support student learning. Family and student surveys guide campus initiatives, helping West Birdville foster an environment where families are active partners in academic and social-emotional growth.

In addition, the campus continues the implementation of the PLC+ model, providing extended collaborative planning time for teachers both within and across grade levels. This structure supports aligned instruction, data-driven decision-making, and the development of high-quality Tier I instruction that meets the needs of all students.

## Problem Statements Identifying School Processes & Programs Needs

**Problem Statement 1 (Prioritized):** West Birdville's growing immigrant population and high percentage of At-Risk students (86.6%) can result in inconsistent family engagement and barriers to leveraging community resources to support learning.

**Root Cause:** Despite ongoing culturally responsive communication and family outreach, variations in access, language proficiency, and understanding of available resources limit some families' ability to fully engage in supporting their child's learning and participating in school activities.

**Problem Statement 2 (Prioritized):** Campus PLCs have not consistently translated data analysis and planning into high-quality Tier I instruction in the classroom.

**Root Cause:** PLC+ has not been fully implemented as designed, limiting teachers' ability to collaboratively analyze data, plan Tier I instruction, and ensure consistent, rigorous classroom practices across grade levels.

# Perceptions

## Perceptions Summary

West Birdville Elementary demonstrates a positive and supportive campus culture, as reflected in staff and community feedback. Staff participate in both district and campus surveys, as well as broader climate assessments, providing input on school culture, professional learning, and overall campus operations. Staff consistently report feeling safe and supported, with access to resources and services, including counseling, guidance programs, and opportunities to provide input on instructional and campus priorities.

Communication and collaboration are strong components of the campus culture. Staff are encouraged to contribute agenda items for administrative meetings, with timely feedback provided. These practices support staff engagement, responsiveness, and a sense of shared ownership in campus decision-making.

The campus also emphasizes family and community engagement, hosting a variety of events such as data nights, literacy programs, cultural celebrations, and student performances to strengthen connections between the school and its families. Even with teacher transitions and changes in staff, West Birdville continues to maintain a positive and collaborative environment that promotes both staff and student success.

## Perceptions Strengths

West Birdville Elementary maintains a positive and collaborative campus culture that supports both staff and student success. Staff consistently report feeling safe, supported, and empowered to provide input on instructional practices and campus initiatives. Strong communication and collaborative structures, including regular administrative meetings and survey opportunities, allow staff to share feedback and influence decision-making.

Family and community engagement is also a notable strength. The campus hosts a variety of events, such as data nights, literacy programs, cultural celebrations, and student performances, which foster meaningful connections between families and the school. Even amid staff transitions, West Birdville continues to cultivate a welcoming, supportive, and engaged environment for all members of the campus community.

## Problem Statements Identifying Perceptions Needs

**Problem Statement 1 (Prioritized):** While staff and families generally report positive perceptions of campus culture and engagement, there are inconsistencies in communication and access to resources that can limit some families' and staff members' full participation in school initiatives.

**Root Cause:** Variations in language proficiency, familiarity with school systems, and access to information prevent some families and staff from fully engaging, despite existing communication structures and outreach efforts.

# Priority Problem Statements

**Problem Statement 1:** While students in grades 3-5 demonstrate consistent achievement at the Approaches level in reading, too few are advancing to the Meets and Masters performance levels.

**Root Cause 1:** Instructional practices are not consistently providing the level of rigor needed to develop the higher-level comprehension and analytical skills required for Meets and Masters.

**Problem Statement 1 Areas:** Student Learning

**Problem Statement 2:** Spanish-speaking students in grades 4-5 are performing below their English-speaking peers in both reading and math at the Meets and Masters levels.

**Root Cause 2:** Spanish-speaking students have not consistently received targeted instructional support and scaffolding to address language-specific barriers that impact higher-level academic performance.

**Problem Statement 2 Areas:** Student Learning

**Problem Statement 3:** West Birdville's growing immigrant population and high percentage of At-Risk students (86.6%) can result in inconsistent family engagement and barriers to leveraging community resources to support learning.

**Root Cause 3:** Despite ongoing culturally responsive communication and family outreach, variations in access, language proficiency, and understanding of available resources limit some families' ability to fully engage in supporting their child's learning and participating in school activities.

**Problem Statement 3 Areas:** School Processes & Programs

**Problem Statement 4:** A significant portion of West Birdville's students are Emergent Bilinguals (68.7%) and economically disadvantaged (86%), which can contribute to gaps in academic achievement and access to grade-level content.

**Root Cause 4:** Limited language proficiency, combined with socio-economic challenges, impacts students' ability to fully engage with instruction and access academic support, leading to disparities in achievement across core subjects.

**Problem Statement 4 Areas:** Demographics

**Problem Statement 5:** The percentage of students identified and served in the Gifted and Talented program at West Birdville remains low at 4.51%. Students in bilingual classrooms are underrepresented compared to their peers in monolingual classrooms.

**Root Cause 5:** The Gifted and Talented assessment has historically been administered in English only, creating barriers for Emergent Bilingual students and limiting equitable identification.

**Problem Statement 5 Areas:** Demographics

**Problem Statement 6:** Campus PLCs have not consistently translated data analysis and planning into high-quality Tier I instruction in the classroom.

**Root Cause 6:** PLC+ has not been fully implemented as designed, limiting teachers' ability to collaboratively analyze data, plan Tier I instruction, and ensure consistent, rigorous classroom practices across grade levels.

**Problem Statement 6 Areas:** School Processes & Programs

**Problem Statement 7:** While staff and families generally report positive perceptions of campus culture and engagement, there are inconsistencies in communication and access to resources that can limit some families' and staff members' full participation in school initiatives.

**Root Cause 7:** Variations in language proficiency, familiarity with school systems, and access to information prevent some families and staff from fully engaging, despite existing communication structures and outreach efforts.

**Problem Statement 7 Areas:** Perceptions

# Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

## Improvement Planning Data

- Campus goals
- Performance Objectives with summative review (prior year)
- Campus/District improvement plans (current and prior years)
- Planning and decision making committee(s) meeting data
- State and federal planning requirements

## Accountability Data

- Texas Academic Performance Report (TAPR) data
- Student Achievement Domain
- Student Progress Domain
- Closing the Gaps Domain
- Effective Schools Framework data
- Comprehensive, Targeted, and/or Additional Targeted Support Identification data
- Accountability Distinction Designations
- Federal Report Card and accountability data

## Student Data: Assessments

- State and federally required assessment information
- STAAR current and longitudinal results, including all versions
- STAAR Emergent Bilingual (EB) progress measure data
- Texas English Language Proficiency Assessment System (TELPAS) and TELPAS Alternate results
- Local diagnostic reading assessment data
- Local benchmark or common assessments data
- Istation Indicators of Progress (ISIP) reading assessment data for Grades PK-2
- Texas approved PreK - 2nd grade assessment data
- Texas approved Prekindergarten and Kindergarten assessment data
- Other PreK - 2nd grade assessment data
- State-developed online interim assessments
- Grades that measure student performance based on the TEKS

## Student Data: Student Groups

- Race and ethnicity data, including number of students, academic achievement, discipline, attendance, and rates of progress between groups
- Special programs data, including number of students, academic achievement, discipline, attendance, and rates of progress for each student group
- Economically disadvantaged / Non-economically disadvantaged performance and participation data
- Male / Female performance, progress, and participation data
- Special education/non-special education population including discipline, progress and participation data
- Migrant/non-migrant population including performance, progress, discipline, attendance and mobility data

- At-risk/non-at-risk population including performance, progress, discipline, attendance, and mobility data
- Emergent Bilingual (EB) /non-EB data, including academic achievement, progress, support and accommodation needs, race, ethnicity, gender etc.
- Gifted and talented data
- Dyslexia data
- Response to Intervention (RtI) student achievement data

#### **Student Data: Behavior and Other Indicators**

- Attendance data
- School safety data

#### **Employee Data**

- Professional learning communities (PLC) data
- Staff surveys and/or other feedback
- Teacher/Student Ratio
- Campus leadership data
- Campus department and/or faculty meeting discussions and data
- Professional development needs assessment data

#### **Parent/Community Data**

- Parent surveys and/or other feedback
- Parent engagement rate

#### **Support Systems and Other Data**

- Organizational structure data
- Processes and procedures for teaching and learning, including program implementation
- Budgets/entitlements and expenditures data
- Study of best practices

# Goals

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 1:** All students will make at least one year's progress in reading and mathematics by the end of school year. a) Meet the progress monitoring targets in Prekindergarten - 5th for each demographic group as measured by district approved screeners (BOY, MOY and EOY) to achieve the HB3 Board Goals. b) Improve performance in Domain 3 Closing the Gaps by making more than a year's growth in reading and mathematics which would in turn increase the number of students performing at the "meets" and "masters" level as measured by the spring 2025 STAAR and EOC assessments. This will also increase Domain 1 Student Achievement which counts the number of students at the various performance levels for state assessments.

## High Priority

### HB3 Goal

**Evaluation Data Sources:** CLI Engage - CIRCLE (prekindergarten reading and math), mClass (kindergarten reading and math), mClass (1-2 reading), Renaissance STAR Assessments (reading, grades 3-5 and mathematics, grades 1-5), TEA Interims (grades 3-5 reading and mathematics) District Common Assessments

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  | Reviews   |     |     |           |

| <b>Strategy 3:</b> Redesign and implement teacher proficiency levels in data informed instruction and responsive teaching.<br><b>Actions:</b> a) Administration and campus instructional facilitators deepen teacher understanding of data-driven, responsive instruction through the use of the campus PLC process.<br>b) Conduct regular campus walks that are specific to areas of focus for the purpose of continuous improvement.<br>c) Provide additional training on district screeners and progress monitoring (CIRCLE, mClass, Star Ren, and District Based Assessments)<br>d) Support teachers on rigorous tier 1 instruction and calibrating mastery across the content areas<br>e) Collect, analyze, and use of data for progress monitoring in all classrooms.<br>f) Decrease in random variance among classrooms with the use of district aligned resources and feedback model.<br>g) Increase support in creation of rigorous student tasks aligning to state standards<br><b>Staff Responsible for Monitoring:</b> Administration<br>Instructional Facilitators<br>Classroom teachers<br><br><b>Title I:</b><br>2.51, 2.52, 2.534<br>- <b>TEA Priorities:</b><br>Build a foundation of reading and math, Improve low-performing schools<br>- <b>Targeted Support Strategy</b><br><b>Problem Statements:</b> Student Learning 2 - School Processes & Programs 2   | Formative |     |     | Summative |
|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  | Nov       | Jan | Mar | June      |

### Performance Objective 1 Problem Statements:

#### Student Learning

**Problem Statement 1:** While students in grades 3-5 demonstrate consistent achievement at the Approaches level in reading, too few are advancing to the Meets and Masters performance levels. **Root Cause:** Instructional practices are not consistently providing the level of rigor needed to develop the higher-level comprehension and analytical skills required for Meets and Masters.

**Problem Statement 2:** Spanish-speaking students in grades 4-5 are performing below their English-speaking peers in both reading and math at the Meets and Masters levels. **Root Cause:** Spanish-speaking students have not consistently received targeted instructional support and scaffolding to address language-specific barriers that impact higher-level academic performance.

#### School Processes & Programs

**Problem Statement 1:** West Birdville's growing immigrant population and high percentage of At-Risk students (86.6%) can result in inconsistent family engagement and barriers to leveraging community resources to support learning. **Root Cause:** Despite ongoing culturally responsive communication and family outreach, variations in access, language proficiency, and understanding of available resources limit some families' ability to fully engage in supporting their child's learning and participating in school activities.

**Problem Statement 2:** Campus PLCs have not consistently translated data analysis and planning into high-quality Tier I instruction in the classroom. **Root Cause:** PLC+ has not been fully implemented as designed, limiting teachers' ability to collaboratively analyze data, plan Tier I instruction, and ensure consistent, rigorous classroom practices across grade levels.

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 2:** Close achievement gaps that exist for all underperforming student groups (Hispanic, Emergent Bilingual, and high focus) as measured by state and district assessments.

Meet all progress monitoring targets for grades pre kindergarten - 2nd in reading and mathematics for identified student groups as measured by a district-approved monitoring instrument.

Engage in quarterly reviews with district personnel to review progress monitoring targets, closing the gaps growth, and student achievement (meets and masters)

**High Priority**

**HB3 Goal**

**Evaluation Data Sources:** Historical performance by student subgroup on state and district assessments  
Progress monitoring data (mClass, Star Ren, District Common Assessments)

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              | Reviews   |     |     |           |

**Performance Objective 2 Problem Statements:****Demographics**

**Problem Statement 1:** A significant portion of West Birdville's students are Emergent Bilinguals (68.7%) and economically disadvantaged (86%), which can contribute to gaps in academic achievement and access to grade-level content. **Root Cause:** Limited language proficiency, combined with socio-economic challenges, impacts students' ability to fully engage with instruction and access academic support, leading to disparities in achievement across core subjects.

**School Processes & Programs**

**Problem Statement 1:** West Birdville's growing immigrant population and high percentage of At-Risk students (86.6%) can result in inconsistent family engagement and barriers to leveraging community resources to support learning. **Root Cause:** Despite ongoing culturally responsive communication and family outreach, variations in access, language proficiency, and understanding of available resources limit some families' ability to fully engage in supporting their child's learning and participating in school activities.

**Problem Statement 2:** Campus PLCs have not consistently translated data analysis and planning into high-quality Tier I instruction in the classroom. **Root Cause:** PLC+ has not been fully implemented as designed, limiting teachers' ability to collaboratively analyze data, plan Tier I instruction, and ensure consistent, rigorous classroom practices across grade levels.

**Perceptions**

**Problem Statement 1:** While staff and families generally report positive perceptions of campus culture and engagement, there are inconsistencies in communication and access to resources that can limit some families' and staff members' full participation in school initiatives. **Root Cause:** Variations in language proficiency, familiarity with school systems, and access to information prevent some families and staff from fully engaging, despite existing communication structures and outreach efforts.

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 3:** Students will display dispositions indicative of high levels of social-emotional development as measured by a district-administered survey of student perceptions.

**Evaluation Data Sources:** Observation Data, Guidance lessons, campus student check-in document, observational data from weekly Character Strong classroom lessons

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 | Reviews   |     |     |           |

|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> A significant portion of West Birdville's students are Emergent Bilinguals (68.7%) and economically disadvantaged (86%), which can contribute to gaps in academic achievement and access to grade-level content. <b>Root Cause:</b> Limited language proficiency, combined with socio-economic challenges, impacts students' ability to fully engage with instruction and access academic support, leading to disparities in achievement across core subjects. |
| <b>Problem Statement 2:</b> The percentage of students identified and served in the Gifted and Talented program at West Birdville remains low at 4.51%. Students in bilingual classrooms are underrepresented compared to their peers in monolingual classrooms. <b>Root Cause:</b> The Gifted and Talented assessment has historically been administered in English only, creating barriers for Emergent Bilingual students and limiting equitable identification.                        |

### School Processes & Programs

**Problem Statement 1:** West Birdville's growing immigrant population and high percentage of At-Risk students (86.6%) can result in inconsistent family engagement and barriers to leveraging community resources to support learning. **Root Cause:** Despite ongoing culturally responsive communication and family outreach, variations in access, language proficiency, and understanding of available resources limit some families' ability to fully engage in supporting their child's learning and participating in school activities.

### Perceptions

**Problem Statement 1:** While staff and families generally report positive perceptions of campus culture and engagement, there are inconsistencies in communication and access to resources that can limit some families' and staff members' full participation in school initiatives. **Root Cause:** Variations in language proficiency, familiarity with school systems, and access to information prevent some families and staff from fully engaging, despite existing communication structures and outreach efforts.

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 4:** Reduce the number of students assigned to behavioral MTSS tiers 2 and 3

**Evaluation Data Sources:** Behavioral RtI data records

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               | Reviews   |     |     |           |

| <b>Problem Statement 1:</b> West Birdville's growing immigrant population and high percentage of At-Risk students (86.6%) can result in inconsistent family engagement and barriers to leveraging community resources to support learning. <b>Root Cause:</b> Despite ongoing culturally responsive communication and family outreach, variations in access, language proficiency, and understanding of available resources limit some families' ability to fully engage in supporting their child's learning and participating in school activities.<br><b>Problem Statement 2:</b> Campus PLCs have not consistently translated data analysis and planning into high-quality Tier I instruction in the classroom. <b>Root Cause:</b> PLC+ has not been fully implemented as designed, limiting teachers' ability to collaboratively analyze data, plan Tier I instruction, and ensure consistent, rigorous classroom practices across grade levels. |

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 5:** Increase the number of students achieving meets or masters on STAAR Reading and Math directly affecting the Student Achievement Domain increasing the overall campus accountability rating.

**High Priority**

**Evaluation Data Sources:** Campus pre/post assessments, BAS progress monitoring, MClass, STAR Renaissance, CIRCLE and district interims.

**Performance Objective 5 Problem Statements:**

| Demographics                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> A significant portion of West Birdville's students are Emergent Bilinguals (68.7%) and economically disadvantaged (86%), which can contribute to gaps in academic achievement and access to grade-level content. <b>Root Cause:</b> Limited language proficiency, combined with socio-economic challenges, impacts students' ability to fully engage with instruction and access academic support, leading to disparities in achievement across core subjects. |

### Demographics

**Problem Statement 2:** The percentage of students identified and served in the Gifted and Talented program at West Birdville remains low at 4.51%. Students in bilingual classrooms are underrepresented compared to their peers in monolingual classrooms. **Root Cause:** The Gifted and Talented assessment has historically been administered in English only, creating barriers for Emergent Bilingual students and limiting equitable identification.

### Student Learning

**Problem Statement 1:** While students in grades 3-5 demonstrate consistent achievement at the Approaches level in reading, too few are advancing to the Meets and Masters performance levels. **Root Cause:** Instructional practices are not consistently providing the level of rigor needed to develop the higher-level comprehension and analytical skills required for Meets and Masters.

**Problem Statement 2:** Spanish-speaking students in grades 4-5 are performing below their English-speaking peers in both reading and math at the Meets and Masters levels. **Root Cause:** Spanish-speaking students have not consistently received targeted instructional support and scaffolding to address language-specific barriers that impact higher-level academic performance.

**Goal 2:** The system will utilize efficient and effective operations to support and improve the learning organization.

**Performance Objective 1:** Decrease the percent of students exhibiting chronic absenteeism and increase overall student attendance to the district expectation of 96%.

| <b>Problem Statement 1:</b> A significant portion of West Birdville's students are Emergent Bilinguals (68.7%) and economically disadvantaged (86%), which can contribute to gaps in academic achievement and access to grade-level content. <b>Root Cause:</b> Limited language proficiency, combined with socio-economic challenges, impacts students' ability to fully engage with instruction and access academic support, leading to disparities in achievement across core subjects. |

**School Processes & Programs**

**Problem Statement 1:** West Birdville's growing immigrant population and high percentage of At-Risk students (86.6%) can result in inconsistent family engagement and barriers to leveraging community resources to support learning. **Root Cause:** Despite ongoing culturally responsive communication and family outreach, variations in access, language proficiency, and understanding of available resources limit some families' ability to fully engage in supporting their child's learning and participating in school activities.

**Goal 2:** The system will utilize efficient and effective operations to support and improve the learning organization.

**Performance Objective 2:** Use continuous improvement to identify and improve operations and outcomes in every classroom and department (dyslexia services, resource, rotations, office).

**High Priority**

**Evaluation Data Sources:** Evaluation of goal achievement as per campus, grade level, and individual classroom improvement plans.

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   | Reviews   |     |     |           |

| <b>Problem Statement 2:</b> The percentage of students identified and served in the Gifted and Talented program at West Birdville remains low at 4.51%. Students in bilingual classrooms are underrepresented compared to their peers in monolingual classrooms. <b>Root Cause:</b> The Gifted and Talented assessment has historically been administered in English only, creating barriers for Emergent Bilingual students and limiting equitable identification. |

## Student Learning

**Problem Statement 2:** Spanish-speaking students in grades 4-5 are performing below their English-speaking peers in both reading and math at the Meets and Masters levels. **Root Cause:** Spanish-speaking students have not consistently received targeted instructional support and scaffolding to address language-specific barriers that impact higher-level academic performance.

**Goal 3:** All students and staff will learn and work in a safe and responsive environment.

**Performance Objective 1:** Attain a 5% annual increase in results on a school safety survey that is administered to students, staff, and parents.

**Evaluation Data Sources:** District and campus administered safety surveys.

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             | Reviews   |     |     |           |

|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> West Birdville's growing immigrant population and high percentage of At-Risk students (86.6%) can result in inconsistent family engagement and barriers to leveraging community resources to support learning. <b>Root Cause:</b> Despite ongoing culturally responsive communication and family outreach, variations in access, language proficiency, and understanding of available resources limit some families' ability to fully engage in supporting their child's learning and participating in school activities. |

## Perceptions

**Problem Statement 1:** While staff and families generally report positive perceptions of campus culture and engagement, there are inconsistencies in communication and access to resources that can limit some families' and staff members' full participation in school initiatives. **Root Cause:** Variations in language proficiency, familiarity with school systems, and access to information prevent some families and staff from fully engaging, despite existing communication structures and outreach efforts.

**Goal 3:** All students and staff will learn and work in a safe and responsive environment.

**Performance Objective 2:** Reduce the cost of accidents resulting in workers' compensation claims over the previous year.

**Evaluation Data Sources:** Campus WC report.
