# Comprehensive Needs Assessment

## Demographics

### Demographics Summary

#### Demographics Summary

ACFT is a Title I campus that served 586 students in grades EE through fifth grade for the 2024-2025 school year.

#### Students

Our student demographics as of 2024-25 school year were made up of 48.63% (285 Students) Hispanic, 2.22% (13 Students) Asian, 16.21% (95 Students) White, 25.6% (150 Students) African American. 1.54 (9 students) Pacific Islander and 5.8% (34 Students) other races. The percentage of students served by special education was 19.11% (112 Students) and 4.1% (24 Students) were served by gifted and talented services. 77.13% (452 Students) of students were considered At-risk and 75.6% (443 Students) were considered Economically Disadvantaged. The campus served 22.53% (132 Students) of students in the Bilingual Program and 38.05% (223 Students) were identified as EB.

#### Teachers

A total of 49 teachers served ACFT during the 2024-25 school year. The majority of our teachers have more than 5 years of experience.

#### Demographics Strengths

- 22.53% (132 Students) are currently enrolled in bilingual classes, which provide them the opportunity to be bi-literate.
- 75.6% (443 Students) are Economically Disadvantaged which provides free and reduced lunch and federal funding for additional resources and personnel to meet students' needs.

#### Problem Statements Identifying Demographics Needs

**Problem Statement 1 (Prioritized):** During the 2024-2025 school year, the performance of our African American student population was 13 percentage points below their target

performance measure. This gap highlights an urgent need to identify barriers to learning and implement strategies that will support improved outcomes for these students.

**Root Cause:** This population is more transient, with many students having attended multiple schools. The resulting inconsistency of instruction across different campuses has contributed to significant learning gaps, which directly impacted their overall performance.

**Problem Statement 2 (Prioritized):** Our White student population performed 20 percentage points below the targeted performance measurement goal for mathematics during the 2024-2025 school year. This gap indicates a need to examine instructional practices, student engagement, and support systems to ensure all students are meeting expected performance standards in math.

**Root Cause:** The inconsistent implementation of interventions for at-risk students has limited their academic progress.

# Student Learning

## Student Learning Summary

### STAAR

Our campus showed several areas of academic growth during the 2023–2024 school year. Third grade RLA increased in Approaches, Meets, and Masters, while third grade Math saw an increase in Masters. Fourth grade RLA showed growth in Approaches. In fifth grade RLA, both Meets and Masters increased, and fifth grade Science also showed gains in Meets and Masters.

#### 2025 Results Third Grade

*Reading- Approaches 79%, Meets 49% and 17% Masters*

*Math-Approaches 66%, 30% Meets and 14% Masters*

#### 2025 Results Fourth Grade

*Reading- Approaches 75%,Meets 23% and 4% Masters*

*Math- Approaches 53%, Meets 24% and 6% Masters*

#### 2025 Results Fifth Grade

*Reading- Approaches 77%, Meets 59% and 33% Masters*

*Math-Approaches 73%, Meets 50% and 22% Masters*

*Science- Approaches 65%, Meets 33% and 11% Masters*

## Student Learning Strengths

- Third grade math had an increase of 6% in masters.
- Third grade RLA had an increase of 16% in approaches, 21% in meets and 13% in masters.
- Fourth grade RLA had an increase of 2% in approaches.
- Fifth grade reading had an increase of 3% in meets and 1% in masters.
- Fifth grade science had an increase of 2% in meets and 2% in masters.

## **Problem Statements Identifying Student Learning Needs**

**Problem Statement 1 (Prioritized):** During the 2024-2025 school year, fourth grade Math performance decreased across all areas, with an 11-point drop in Approaches, a 12-point drop in Meets, and a 7-point drop in Masters. In addition, fourth grade RLA showed a 22-point decrease in Meets and a 4-point decrease in Masters.

**Root Cause:** This specific grade level experienced a high mobility rate, with many students entering and exiting throughout the year. In addition, overall student efficacy was low, which limited consistency in learning and contributed to the decline in performance.

**Problem Statement 2 (Prioritized):** During the 2023-2024 school year, fifth grade Math performance declined, with a 13-point drop in Approaches, a 9-point drop in Meets, and a 12-point drop in Masters. In addition, fifth grade RLA showed a 17-point decrease in Approaches.

**Root Cause:** Our fifth grade had a high special education population, which impacted overall grade-level performance outcomes.

# School Processes & Programs

## School Processes & Programs Summary

The Academy at C.F. Thomas students are supported through a wide range of programs and processes designed to meet diverse needs. Currently, 76% of students receive free or reduced lunch, 23% participate in our bilingual program, and 38% are identified as EB and served by certified ESL teachers. In addition, 19% of students receive special education services and 4% are identified as gifted and talented.

At ACFT, we implement a Multi-Tiered System of Support (MTSS) to provide individualized plans that address student needs. Students who did not meet grade-level standards on STAAR assessments in reading, writing, or math are provided 15–30 hours of accelerated instruction per subject area. Every nine weeks, teachers and support staff analyze multiple data points to refine instruction across tiers I, II, and III. Extended MTSS meetings are scheduled for students moving to tier III or for those who have not shown adequate progress. During these meetings, additional staff members—such as the counselor, crisis counselor, speech pathologist, or LSSP—are included to ensure a collaborative, student-centered plan.

To strengthen tier I instruction, professional development is embedded throughout the school year. Instructional facilitators, campus leadership, and district coordinators provide training opportunities to help staff refine instructional practices. Teachers also engage in Professional Learning Communities (PLCs) to share strategies and collaborate on best practices to better serve students.

This year, ACFT will continue its campus-wide implementation of Conscious Discipline, a social-emotional behavior and classroom management framework with a strong record of sustainable impact. Alongside this, our counselor will provide regular social-emotional behavior lessons, and teachers will integrate Character Strong into weekly classroom instruction. Both initiatives support the development of the whole child with vertically aligned lessons that promote social, emotional, and character growth.

In addition, we will maintain the use of instructional rounds to deepen our understanding of teaching and learning practices across the campus. This process allows us to reflect, collaborate, and continuously improve both teacher effectiveness and student achievement.

## School Processes & Programs Strengths

- **Bilingual Education:** ACFT provides bilingual classrooms in grades Pre-K through 5th to support students' language development and academic success.
- **Accelerated Instruction:** Students in grades 4–5 who do not meet expectations on STAAR assessments receive a minimum of 15–30 hours of additional instruction. Each student has an individualized AI plan built from testing data.
- **Community Partnerships:** A local business partner has continued to provide generous donations to help meet the needs of our students.
- **Technology Access:** ACFT offers a one-to-one digital learning environment for all students, and teachers in grades 2–5 utilize GoGuardian to monitor and support appropriate internet use.
- **Specialized Programs:** Our AABLE 1, AABLE 2, and ACCESS classes give students with significant needs opportunities to grow in academics, communication, social skills, self-management, vocational training, and functional life skills.
- **Classroom Technology:** Every certified teacher is equipped with a Newline interactive board in their classroom to enhance instruction.

## **Problem Statements Identifying School Processes & Programs Needs**

**Problem Statement 1 (Prioritized):** All Students had a target of 46% for reading 2025 but our preliminary results indicate only 42% met or were above in Spring 2025.

**Root Cause:** Inconsistent instructional support and targeted interventions for our Emergent Bilingual (EB) population limited their reading growth. EB students performed 16 points below their target, which significantly contributed to the overall campus not meeting the 2025 reading target.

**Problem Statement 2 (Prioritized):** All Students had a target of 47% for math 2025 but our preliminary results indicate only 35% met or were above in Spring 2025.

**Root Cause:** A high mobility/transient population in 4th grade contributed to lower performance, making up the bulk of low math scores and preventing the campus from meeting the overall target.

# Perceptions

## Perceptions Summary

- Safety Training: 100% of faculty and students have been trained in the SRP (Standard Response Protocol) to ensure preparedness in case of an emergency.
- Campus Committees:
  - *Leaders of Learners* – support instructional practices and provide leadership on campus initiatives.
  - *CSI Team* – addresses logistical problem-solving and campus operations.
  - *Conscious Discipline Action Team* – supports the implementation of Conscious Discipline across the campus.
  - *Spirit Committee* – organizes recognitions and assemblies for staff and students.
- Survey & Data Results: According to resources utilized (parent, student, staff surveys, and ODS behavior reports), a majority of our students, staff, and parents feel ACFT is a safe place for learning.
  - 91% of students, 100% of teachers, and 100% of parents agree that ACFT provides an emotionally and physically safe environment.
  - ODS discipline data shows a steady decline in students receiving OSS/ISS:
    - 2019–20: 79 students
    - 2023–24: 13 students
    - 2024–25: 10 students (ISS only, no OSS)
- Impact of SEL Program: We believe this improvement is directly tied to our Conscious Discipline program, which integrates social-emotional learning and self-regulation strategies, helping students feel safe and ready to learn.

## Perceptions Strengths

At ACFT, we strive to provide excellent customer service and clear communication with families through monthly calendars, bilingual notices, social media updates, and school performances. We actively involve parents and the community through PTA, Title I information, and campus events. Safety remains a top priority with a secure vestibule, regular SRP drills, and collaboration with our SRO and local PD. Survey results show that 91% of students, 100% of teachers, and 100% of parents feel ACFT provides a safe learning environment. Discipline incidents have significantly decreased over the past two years, with only 10 ISS cases and no OSS in 2024–25, reflecting the positive impact of Conscious Discipline on campus culture.

## Problem Statements Identifying Perceptions Needs

**Problem Statement 1 (Prioritized):** While many families join PTA and attend school events, there is limited parent interest in taking on leadership roles or serving on the PTA

board.

**Root Cause:** Competing family responsibilities and limited time have reduced parent participation in PTA board roles, despite strong attendance at events.

# Priority Problem Statements

**Problem Statement 1:** All Students had a target of 46% for reading 2025 but our preliminary results indicate only 42% met or were above in Spring 2025.

**Root Cause 1:** Inconsistent instructional support and targeted interventions for our Emergent Bilingual (EB) population limited their reading growth. EB students performed 16 points below their target, which significantly contributed to the overall campus not meeting the 2025 reading target.

**Problem Statement 1 Areas:** School Processes & Programs

**Problem Statement 2:** While many families join PTA and attend school events, there is limited parent interest in taking on leadership roles or serving on the PTA board.

**Root Cause 2:** Competing family responsibilities and limited time have reduced parent participation in PTA board roles, despite strong attendance at events.

**Problem Statement 2 Areas:** Perceptions

**Problem Statement 3:** During the 2024-2025 school year, fourth grade Math performance decreased across all areas, with an 11-point drop in Approaches, a 12-point drop in Meets, and a 7-point drop in Masters. In addition, fourth grade RLA showed a 22-point decrease in Meets and a 4-point decrease in Masters.

**Root Cause 3:** This specific grade level experienced a high mobility rate, with many students entering and exiting throughout the year. In addition, overall student efficacy was low, which limited consistency in learning and contributed to the decline in performance.

**Problem Statement 3 Areas:** Student Learning

**Problem Statement 4:** During the 2023-2024 school year, fifth grade Math performance declined, with a 13-point drop in Approaches, a 9-point drop in Meets, and a 12-point drop in Masters. In addition, fifth grade RLA showed a 17-point decrease in Approaches.

**Root Cause 4:** Our fifth grade had a high special education population, which impacted overall grade-level performance outcomes.

**Problem Statement 4 Areas:** Student Learning

**Problem Statement 5:** During the 2024-2025 school year, the performance of our African American student population was 13 percentage points below their target performance measure. This gap highlights an urgent need to identify barriers to learning and implement strategies that will support improved outcomes for these students.

**Root Cause 5:** This population is more transient, with many students having attended multiple schools. The resulting inconsistency of instruction across different campuses has contributed to significant learning gaps, which directly impacted their overall performance.

**Problem Statement 5 Areas:** Demographics

**Problem Statement 6:** Our White student population performed 20 percentage points below the targeted performance measurement goal for mathematics during the 2024-2025 school year. This gap indicates a need to examine instructional practices, student engagement, and support systems to ensure all students are meeting expected performance standards in math.

**Root Cause 6:** The inconsistent implementation of interventions for at-risk students has limited their academic progress.

**Problem Statement 6 Areas:** Demographics

**Problem Statement 7:** All Students had a target of 47% for math 2025 but our preliminary results indicate only 35% met or were above in Spring 2025.

**Root Cause 7:** A high mobility/transient population in 4th grade contributed to lower performance, making up the bulk of low math scores and preventing the campus from meeting the overall target.

**Problem Statement 7 Areas:** School Processes & Programs

# Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

## **Improvement Planning Data**

- District goals
- Campus goals
- Planning and decision making committee(s) meeting data

## **Accountability Data**

- Student Achievement Domain
- Student Progress Domain
- Closing the Gaps Domain
- Accountability Distinction Designations

## **Student Data: Assessments**

- State and federally required assessment information
- STAAR current and longitudinal results, including all versions
- Observation Survey results

## **Student Data: Student Groups**

- Response to Intervention (RtI) student achievement data

## **Student Data: Behavior and Other Indicators**

- Attendance data
- School safety data

## **Employee Data**

- Staff surveys and/or other feedback

## **Parent/Community Data**

- Parent surveys and/or other feedback

# Goals

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 1:** All students will make at least one year's progress in reading and mathematics by the end of school year. a) Meet the progress monitoring targets in Prekindergarten - 3rd for each demographic group as measured by district approved screeners (BOY, MOY and EOY) to achieve the HB3 Board Goals. b) Improve performance in Domain 3 Closing the Gaps by making more than a year's growth in reading and mathematics which would in turn increase the number of students performing at the "meets" and "masters" level as measured by the spring 2026 STAAR and EOC assessments. This will also increase Domain 1 Student Achievement which counts the number of students at the various performance levels for state assessments.

## HB3 Goal

**Evaluation Data Sources:** Elementary: CLI Engage - Circle (prekindergarten), Renaissance - STAR Assessments (math, 1-5, reading 3-5), mClass (Kinder math) and (K-2 reading) and District Common Assessments

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             | Reviews   |     |     |           |

| <b>Strategy 3:</b> Provide training in data analysis, progress monitoring, and data-driven decision-making to inform instruction and responsive teaching.<br><b>Actions:</b> a) Deepen the understanding and implementation of data-driven, responsive instruction through the use of the PLC process.<br>b) Conduct training on using data from multiple assessments (CIRCLE, mClass, Star Renaissance, and DCAs) to inform instruction and document student growth.<br>c) Teachers will monitor student progress using data folder and proficiency measures while providing specific student feedback that supports learning growth.<br>d) Continue to train and require the regular use of continuous improvement processes in the classroom.<br>e) Campus will collect, analyze and use data monitor student progress for the purpose of closing the achievement gaps, achieving HB3 Board goals, and responding to the individual needs of students to ensure all students make expected growth toward the next interim target in the Academic Achievement component of the Closing the Gaps domain, as defined by the Texas Education Agency.<br>f) Facilitate teacher training on the implementation of Tier 1 priorities.<br>g) Support teachers with the use of TEA writing rubrics and response targeted feedback to students.<br><b>Staff Responsible for Monitoring:</b> Campus Administration<br>Instructional Coaches<br>Campus Staff<br><br><b>TEA Priorities:</b><br>Build a foundation of reading and math, Improve low-performing schools<br><b>Problem Statements:</b> Demographics 1, 2<br><b>Funding Sources:</b> Campus Personnel - 211 - Title I |  | Formative |     |     | Summative |

| <p><b>Problem Statement 1:</b> During the 2024-2025 school year, the performance of our African American student population was 13 percentage points below their target performance measure. This gap highlights an urgent need to identify barriers to learning and implement strategies that will support improved outcomes for these students. <b>Root Cause:</b> This population is more transient, with many students having attended multiple schools. The resulting inconsistency of instruction across different campuses has contributed to significant learning gaps, which directly impacted their overall performance.</p> <p><b>Problem Statement 2:</b> Our White student population performed 20 percentage points below the targeted performance measurement goal for mathematics during the 2024-2025 school year. This gap indicates a need to examine instructional practices, student engagement, and support systems to ensure all students are meeting expected performance standards in math. <b>Root Cause:</b> The inconsistent implementation of interventions for at-risk students has limited their academic progress.</p> |

School Processes & Programs

**Problem Statement 2:** All Students had a target of 47% for math 2025 but our preliminary results indicate only 35% met or were above in Spring 2025. **Root Cause:** A high mobility/transient population in 4th grade contributed to lower performance, making up the bulk of low math scores and preventing the campus from meeting the overall target.

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 2:** Close achievement gaps that exist for all under-performing student groups as measured by state and district assessments. Meet all progress monitoring targets for grades prekindergarten - 3rd in reading and mathematics for identified student groups as measured by a district-approved monitoring instrument.

**HB3 Goal**

**Evaluation Data Sources:** Historical performance by student subgroup on state and district assessments

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              | Reviews   |     |     |           |

| <p><b>Problem Statement 1:</b> During the 2024-2025 school year, the performance of our African American student population was 13 percentage points below their target performance measure. This gap highlights an urgent need to identify barriers to learning and implement strategies that will support improved outcomes for these students. <b>Root Cause:</b> This population is more transient, with many students having attended multiple schools. The resulting inconsistency of instruction across different campuses has contributed to significant learning gaps, which directly impacted their overall performance.</p> <p><b>Problem Statement 2:</b> Our White student population performed 20 percentage points below the targeted performance measurement goal for mathematics during the 2024-2025 school year. This gap indicates a need to examine instructional practices, student engagement, and support systems to ensure all students are meeting expected performance standards in math. <b>Root Cause:</b> The inconsistent implementation of interventions for at-risk students has limited their academic progress.</p> |
| Student Learning                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| <p><b>Problem Statement 1:</b> During the 2024-2025 school year, fourth grade Math performance decreased across all areas, with an 11-point drop in Approaches, a 12-point drop in Meets, and a 7-point drop in Masters. In addition, fourth grade RLA showed a 22-point decrease in Meets and a 4-point decrease in Masters. <b>Root Cause:</b> This specific grade level experienced a high mobility rate, with many students entering and exiting throughout the year. In addition, overall student efficacy was low, which limited consistency in learning and contributed to the decline in performance.</p> <p><b>Problem Statement 2:</b> During the 2023-2024 school year, fifth grade Math performance declined, with a 13-point drop in Approaches, a 9-point drop in Meets, and a 12-point drop in Masters. In addition, fifth grade RLA showed a 17-point decrease in Approaches. <b>Root Cause:</b> Our fifth grade had a high special education population, which impacted overall grade-level performance outcomes.</p>                                                                                                                 |
| School Processes & Programs                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| <p><b>Problem Statement 1:</b> All Students had a target of 46% for reading 2025 but our preliminary results indicate only 42% met or were above in Spring 2025. <b>Root Cause:</b> Inconsistent instructional support and targeted interventions for our Emergent Bilingual (EB) population limited their reading growth. EB students performed 16 points below their target, which significantly contributed to the overall campus not meeting the 2025 reading target.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| Perceptions                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| <p><b>Problem Statement 1:</b> While many families join PTA and attend school events, there is limited parent interest in taking on leadership roles or serving on the PTA board. <b>Root Cause:</b> Competing family responsibilities and limited time have reduced parent participation in PTA board roles, despite strong attendance at events.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 3:** Reduce the number of students assigned to behavioral MTSS Tiers 2 and 3.

**Evaluation Data Sources:** Behavioral RtI data records

**Performance Objective 3 Problem Statements:**

| School Processes & Programs                                                                                                                                                                                                                                                                                                                                        |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 2:</b> All Students had a target of 47% for math 2025 but our preliminary results indicate only 35% met or were above in Spring 2025. <b>Root Cause:</b> A high mobility/transient population in 4th grade contributed to lower performance, making up the bulk of low math scores and preventing the campus from meeting the overall target. |

**Goal 2:** The system will utilize efficient and effective operations to support and improve the learning organization.

**Performance Objective 1:** Increase the annual total average daily attendance (ADA) as compared to the prior school year, through improved student retention, recruitment, and days in attendance.

**Evaluation Data Sources:** 2024-2025 Campus Attendance

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       | Reviews   |     |     |           |

| <b>Problem Statement 1:</b> During the 2024-2025 school year, the performance of our African American student population was 13 percentage points below their target performance measure. This gap highlights an urgent need to identify barriers to learning and implement strategies that will support improved outcomes for these students. <b>Root Cause:</b> This population is more transient, with many students having attended multiple schools. The resulting inconsistency of instruction across different campuses has contributed to significant learning gaps, which directly impacted their overall performance. |

**Goal 3:** All students and staff will learn and work in a safe and responsive environment.

**Performance Objective 1:** Increase the percentage of students and staff who report feeling safe at school.

**Evaluation Data Sources:** Staff and Student Survey, Accident Reports

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 | Reviews   |     |     |           |

| <b>Problem Statement 1:</b> While many families join PTA and attend school events, there is limited parent interest in taking on leadership roles or serving on the PTA board. <b>Root Cause:</b> Competing family responsibilities and limited time have reduced parent participation in PTA board roles, despite strong attendance at events. |

**Goal 3:** All students and staff will learn and work in a safe and responsive environment.

**Performance Objective 2:** Reduce the cost of accidents resulting in workers' compensation claims over the previous year.

**Evaluation Data Sources:** Campus WC Report

# Comprehensive Needs Assessment

## Demographics

### Demographics Summary

Alliene Mullendore Elementary, established in 1955, is situated in the southern part of North Richland Hills, Tarrant County. The school serves a diverse student body of approximately 309 students, ranging from pre-kindergarten to fifth grade. Among these students, 35% (107 students) are White, 41% (126 students) are Hispanic, 9% (29 students) are African American, 8% (25 students) are Asian, and 6% (20 students) identify as multi-racial. The Native American and Pacific Islander populations together make up less than 1% (1 student) of the student body. Mullendore is a Title 1 campus, with around 67% (208 students) of its students classified as economically disadvantaged. Additionally, 65% (200 students) are considered "At-Risk," 19% (58 students) are emergent bilinguals, and 25% (78 students) receive academic special education services. Approximately 8% (26 students) are identified as Gifted and Talented and receive GATE services, while 6% (17 students) are identified as dyslexic. All certified staff members meet federal requirements for being highly qualified. The school's attendance rate stands at 95%.

### Demographics Strengths

Student demographics have remained relatively stable over time, with most student population groups fluctuating by only 2 or 3 percentage points from year to year. No significant changes have been observed in these groups. While our overall student population is growing, partly due to students returning from the International Leadership of Texas (ILT), our recent move and relocation to the former Richland Elementary site has led to a decrease in enrollment this year, as some families have chosen schools closer to their homes.

### Problem Statements Identifying Demographics Needs

**Problem Statement 1 (Prioritized):** Our enrollment has decreased from the previous year.

**Root Cause:** The relocation to another campus during the rebuilding of our school has inconvenienced some families who rely on a school within walking distance. Additionally, ILT's "Referral Rewards Program," which offers families \$250 for each new student who enrolls and references them, has also impacted our enrollment.

# Student Learning

## Student Learning Summary

One of our campus academic goals is for 100% of our students to demonstrate growth in reading and math, with 80% achieving at least one year’s growth or more in these subjects. Mullendore staff and administrators closely monitor student progress throughout the year using Progress Monitoring checks, student data folders, and PDSA to analyze success and refine instructional practices.

State, district, and grade-level common assessments are utilized to measure the growth each student achieves.

STAAR Data reported

| Reading                       | Approaches | Meets | Masters |
|-------------------------------|------------|-------|---------|
| 3rd Grade (39 total students) | 23%        | 31%   | 26%     |
| 4th Grade (49 total students) | 44%        | 28%   | 16%     |
| 5th Grade (50 total students) | 25%        | 20%   | 16%     |
|                               |            |       |         |
| Math                          | Approaches | Meets | Masters |
| 3rd Grade (39 total students) | 31%        | 28%   | 21%     |
| 4th Grade (49 total students) | 22%        | 22%   | 22%     |
| 5th Grade (50 total students) | 27%        | 27%   | 16%     |

In Reading, for the 2023-2024 school year, with the exception of 5th grade, approaches, meets, and masters percentages all increased. 80% of 3rd graders passed reading STAAR, and 88% of 4th graders passed reading STAAR.

In Math, our 3rd graders increased their meets percentage by 2.9% and our masters increased by 5.9%.Students in grades 4 and 5 increased in all areas with 4th grade increasing in approaches by 25.3%, meets by 21.8% and masters by 16.4%. Students in grade 5 increased approaches by 16%, meets by 11.9% and masters by 7.3%.

## Student Learning Strengths

When looking at data reported by the 2024-2025 STAAR assessment:

- 3rd grade math students had an increased performance of 2.9% increase in meets, and 5.9% increase in masters as compared to the previous year.
- 4th grade math students had an increased performance of 25.3% in approaches, 21.8% increase in meets, and 16.4% in masters as compared to the previous year.
- 5th grade math students had an increased performance of 16% in approaches, 11.9% increase in meets, and a 7.3% increase in masters as compared to the previous year.
- 3rd grade reading students had an increased performance of 10.6% for meets, and 31.1% in masters compared to the previous year.
- 4th grade reading students had an increase performance of 19.5% for approaches, 18.1% for meets, and 5% in masters compared to the previous years.

## **Problem Statements Identifying Student Learning Needs**

**Problem Statement 1 (Prioritized):** When analyzing student performance gaps, two areas showing significant need due to insufficient growth in math are Hispanic students and those who are Economically Disadvantaged.

**Root Cause:** Staff hired for the 2023-2024 school year at Mullendore, many of whom were new to the profession and held alternative certifications, faced challenges due to limited classroom experience and opportunities for professional development prior to joining BISD, which may have contributed to a decline in student success.

**Problem Statement 2 (Prioritized):** STAAR scores in grades 3-5 were lower than expected. Students did not excel to the level of Mastery that was anticipated during the school year.

**Root Cause:** Teachers did not implementing continuous improvement learning strategies to the depth they need to be. When used with fidelity, the four pivotal instructional components are proven to move students and grow them.

**Problem Statement 3 (Prioritized):** Students receiving special education services are not excelling academically to the level of mastery that is expected.

**Root Cause:** Students are pulled out of general education classes causing them to miss Tier 1 instruction provided by the teacher. While instruction is provided to them when they return, students are missing questions and discussions taking place with their peers.

# School Processes & Programs

## School Processes & Programs Summary

Mullendore houses the Structured Environment to Enhance Communication (SEEC) program for the Richland High School cluster feeder pattern. This early intervention program is designed to support Pre-Kindergarten through 5th grade students who face multiple learning and language acquisition challenges. New to Mullendore this year, we also offer the Preschool Program for Children with Disabilities (ECSE-SEEC), which serves 3- and 4-year-old children in need of early special education intervention, focusing on cognitive, social-emotional, language and communication, and physical skills.

Mullendore also has a Gifted and Talented (GATE) program that serves K-2 students identified as GT. Additionally, the campus offers an "Invest" program aimed at enhancing the skills of second-grade students who were close to meeting the qualifying requirements for GATE. This program enriches their abilities to better prepare them for GATE qualification in third grade.

For students facing academic challenges, Mullendore provides a resource program that offers both "push-in" and "pull-out" services. Students struggling with reading due to dyslexia receive intensive instruction from a full-time reading specialist trained in MTA. Those who struggle with math benefit from small group instruction led by a full-time math interventionist. Additionally, students who need extra reading support but are not classified as dyslexic receive assistance from a certified teacher who serves as a reading support tutor. Similarly, students who need extra math support but are not considered tier 3 receive help from a certified math tutor.

## School Processes & Programs Strengths

Mullendore follows a structured Response to Intervention (RtI) process, where all students are reviewed in collaborative discussions every three weeks. In the first "cycle," intervention and enrichment strategies are discussed, and the student's tier placement is evaluated and adjusted if the RtI committee deems it appropriate. During the second "cycle," each student is individually reviewed to assess the effectiveness of the strategies implemented. These RtI meetings include the Principal, Assistant Principal, teacher of record, math and reading interventionists, and often an instructional coach who provides instructional and curricular recommendations.

To address the diverse social and emotional needs of our students, an alternative Friday schedule has been implemented. This schedule allows for school-wide support and encouragement. During this time, grade levels focus on Character Strong lessons and meet with a "Buddy Class" to discuss Conscious Discipline routines and procedures. Students engage in activities such as reading with their "buddy," sharing data folders, and discussing and reviewing PDSAs.

A Super PLC schedule is being implemented allowing teachers to meet for an extended conference time with the Campus Instructional Facilitator reviewing data and student supports. During this time the counselor is able to meet with students for further Character Strong Counseling lessons and our Librarian is able to support the lessons with children's literature.

## Problem Statements Identifying School Processes & Programs Needs

**Problem Statement 1 (Prioritized):** Our STAAR reading scores in grade 5 decreased from the previous year.

**Root Cause:** Continuous improvement learning strategies were not used to the depth they needed to be. Instruction was teacher led with little student discourse. PLC discussions and recommendations from the IF were not implemented with fidelity.

**Problem Statement 2 (Prioritized):** Student struggling with peers had a difficult time utilizing strategies to assist in self-regulation.

**Root Cause:** Time was not dedicated to the needed focus on Conscious Discipline and Character Strong strategies.

**Problem Statement 3 (Prioritized):** Maintaining a focus on attendance and the importance of students being in school continues to be a concern.

**Root Cause:** Not enough information is shared or communicated to families regarding the importance of students being in school.

**Problem Statement 4 (Prioritized):** Despite training and sharing the importance of safety at school, staff are still struggling with reporting injuries.

**Root Cause:** Not enough attention and focus are given to the celebration of accident free months. More information can be shared with staff on how to stay injury free.

# Perceptions

## Perceptions Summary

Implementing Conscious Discipline as our school-wide discipline strategy has fostered a sense of involvement and success in the emotional growth and well-being of our students and their families. Through social media posts, live Facebook feeds, and monthly newsletters, we actively keep our parents and stakeholders informed and engaged with what's happening on our campus. To encourage socialization and relationship-building, we have planned monthly family activities and PTA programs throughout the year. Our school and PTA will continue to host "restaurant nights," which serve not only as fundraisers but, more importantly, as opportunities to strengthen community and rapport among parents, students, and staff. To reduce crowding in the halls and building, school events are spread out over several nights, and whenever possible, school-wide family events are held outdoors. Each morning, families and students are greeted at the door, and on Fridays, music is played to motivate, welcome, and bring joy as they arrive.

## Perceptions Strengths

By analyzing the data from annual surveys distributed to parents, students, and staff, we have identified several areas showing positive outcomes. Parents have expressed appreciation for the effective communication, the organized arrival and dismissal processes, and the multiple channels through which information is shared. The overwhelming majority of respondents feel safe and secure while at school. Additionally, parents report a sense of pride in their children attending Mullendore Elementary, and they believe that Mullendore effectively meets their children's academic, social, and emotional needs.

## Problem Statements Identifying Perceptions Needs

**Problem Statement 1 (Prioritized):** According to the Mullendore Parent survey that was sent at the end of the school year, 42% of our families feel students don't show respect towards one another to the depth that they could.

**Root Cause:** More time needs to be dedicated to working with students and teaching them what respect looks like, and not just what respect is, especially when it comes to their peers.

# Priority Problem Statements

**Problem Statement 1:** Our STAAR reading scores in grade 5 decreased from the previous year.

**Root Cause 1:** Continuous improvement learning strategies were not used to the depth they needed to be. Instruction was teacher led with little student discourse. PLC discussions and recommendations from the IF were not implemented with fidelity.

**Problem Statement 1 Areas:** School Processes & Programs

**Problem Statement 7:** When analyzing student performance gaps, two areas showing significant need due to insufficient growth in math are Hispanic students and those who are Economically Disadvantaged.

**Root Cause 7:** Staff hired for the 2023-2024 school year at Mullendore, many of whom were new to the profession and held alternative certifications, faced challenges due to limited classroom experience and opportunities for professional development prior to joining BISD, which may have contributed to a decline in student success.

**Problem Statement 7 Areas:** Student Learning

**Problem Statement 8:** STAAR scores in grades 3-5 were lower than expected. Students did not excel to the level of Mastery that was anticipated during the school year.

**Root Cause 8:** Teachers did not implementing continuous improvement learning strategies to the depth they need to be. When used with fidelity, the four pivotal instructional components are proven to move students and grow them.

**Problem Statement 8 Areas:** Student Learning

**Problem Statement 9:** According to the Mullendore Parent survey that was sent at the end of the school year, 42% of our families feel students don't show respect towards one another to the depth that they could.

**Root Cause 9:** More times needs to be dedicated to working with students and teaching them what respect looks like, and not just what respect is, especially when it comes to their peers.

**Problem Statement 9 Areas:** Perceptions

**Problem Statement 10:** Our enrollment has decreased from the previous year.

**Root Cause 10:** The relocation to another campus during the rebuilding of our school has inconvenienced some families who rely on a school within walking distance. Additionally, ILT's "Referral Rewards Program," which offers families \$250 for each new student who enrolls and references them, has also impacted our enrollment.

**Problem Statement 10 Areas:** Demographics

**Problem Statement 11:** Student struggling with peers had a difficult time utilizing strategies to assist in self-regulation.

**Root Cause 11:** Time was not dedicated to the needed focus on Conscious Discipline and Character Strong strategies.

**Problem Statement 11 Areas:** School Processes & Programs

**Problem Statement 12:** Students receiving special education services are not excelling academically to the level of mastery that is expected.

**Root Cause 12:** Students are pulled out of general education classes causing them to miss Tier 1 instruction provided by the teacher. While instruction is provided to them when they return, students are missing questions and discussions taking place with their peers.

**Problem Statement 12 Areas:** Student Learning

**Problem Statement 13:** Maintaining a focus on attendance and the importance of students being in school continues to be a concern.

**Root Cause 13:** Not enough information is shared or communicated to families regarding the importance of students being in school.

**Problem Statement 13 Areas:** School Processes & Programs

**Problem Statement 14:** Despite training and sharing the importance of safety at school, staff are still struggling with reporting injuries.

**Root Cause 14:** Not enough attention and focus are given to the celebration of accident free months. More information can be shared with staff on how to stay injury free.

**Problem Statement 14 Areas:** School Processes & Programs

# Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

## **Improvement Planning Data**

- District goals

## **Accountability Data**

- Texas Academic Performance Report (TAPR) data
- Student Achievement Domain
- Student Progress Domain
- Closing the Gaps Domain
- Accountability Distinction Designations

## **Student Data: Assessments**

- State and federally required assessment information

## **Student Data: Student Groups**

- Dyslexia data
- Response to Intervention (RtI) student achievement data

## **Student Data: Behavior and Other Indicators**

- Attendance data
- Discipline records

## **Employee Data**

- Staff surveys and/or other feedback
- State certified and high quality staff data

## **Parent/Community Data**

- Parent surveys and/or other feedback

# Goals

Revised/Approved: August 29, 2025

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 1:** All students will show growth in reading and mathematics by the end of school year. a) Meet the progress monitoring targets in Prekindergarten - 3rd for each demographic group as measured by district approved screeners (BOY, MOY and EOY) . b) Improve Mathematics performance of students in the sub-population of Hispanic and Economically Disadvantaged in Domain 3 Closing the Gaps as measured by the spring 2025 STAAR and EOC assessments. This will also increase Domain 1 Student Achievement which counts the number of students at the various performance levels for state assessments.

**High Priority**

**HB3 Goal**

**Evaluation Data Sources:** Fountas & Pinnell reading levels, mCLASS assessments, Star Ren Reading and Star Ren Math screeners.

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       | Reviews   |     |     |           |

### Performance Objective 1 Problem Statements:

#### Student Learning

**Problem Statement 1:** When analyzing student performance gaps, two areas showing significant need due to insufficient growth in math are Hispanic students and those who are Economically Disadvantaged. **Root Cause:** Staff hired for the 2023-2024 school year at Mullendore, many of whom were new to the profession and held alternative certifications, faced challenges due to limited classroom experience and opportunities for professional development prior to joining BISD, which may have contributed to a decline in student success.

**Problem Statement 2:** STAAR scores in grades 3-5 were lower than expected. Students did not excel to the level of Mastery that was anticipated during the school year. **Root Cause:** Teachers did not implementing continuous improvement learning strategies to the depth they need to be. When used with fidelity, the four pivotal instructional components are proven to move students and grow them.

**Problem Statement 3:** Students receiving special education services are not excelling academically to the level of mastery that is expected. **Root Cause:** Students are pulled out of general education classes causing them to miss Tier 1 instruction provided by the teacher. While instruction is provided to them when they return, students are missing questions and discussions taking place with their peers.

#### School Processes & Programs

**Problem Statement 1:** Our STAAR reading scores in grade 5 decreased from the previous year. **Root Cause:** Continuous improvement learning strategies were not used to the depth they needed to be. Instruction was teacher led with little student discourse. PLC discussions and recommendations from the IF were not implemented with fidelity.

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 2:** Close achievement gaps that exist for all under-performing student groups as measured by state and district assessments. Meet all progress monitoring targets for grades prekindergarten - 3rd in reading and mathematics for identified student groups as measured by a district-approved monitoring instrument.

**High Priority**  
**HB3 Goal**  
**Evaluation Data Sources:** Historical performance by student groups on STAAR and CBA Assessments

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |  | Reviews   |     |     |           |

| <b>Strategy 4:</b> Use intervention strategies designed to meet the needs of English Language learners.<br><b>Actions:</b> a) Ensure all staff are ELL certified and have the training needed to support English Learners.<br>b) Track and monitor student progress and growth. Be meaningful about student groups and the adjustment that needs to be made in their learning.<br>c) Utilize RTI spreadsheet and information about student demographics in addition to student growth and need.<br>c) Use District Personnel to support and train staff on EB strategies.<br><b>Staff Responsible for Monitoring:</b> Principal, Assistant Principal, Campus Instructional Facilitator<br><br><b>ESF Levers:</b><br>Lever 5: Effective Instruction<br><b>Problem Statements:</b> Student Learning 1, 2 - School Processes & Programs 1 | Formative |     |     | Summative |

### Performance Objective 2 Problem Statements:

| Student Learning                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> When analyzing student performance gaps, two areas showing significant need due to insufficient growth in math are Hispanic students and those who are Economically Disadvantaged. <b>Root Cause:</b> Staff hired for the 2023-2024 school year at Mullendore, many of whom were new to the profession and held alternative certifications, faced challenges due to limited classroom experience and opportunities for professional development prior to joining BISD, which may have contributed to a decline in student success. |
| <b>Problem Statement 2:</b> STAAR scores in grades 3-5 were lower than expected. Students did not excel to the level of Mastery that was anticipated during the school year. <b>Root Cause:</b> Teachers did not implementing continuous improvement learning strategies to the depth they need to be. When used with fidelity, the four pivotal instructional components are proven to move students and grow them.                                                                                                                                           |
| <b>Problem Statement 3:</b> Students receiving special education services are not excelling academically to the level of mastery that is expected. <b>Root Cause:</b> Students are pulled out of general education classes causing them to miss Tier 1 instruction provided by the teacher. While instruction is provided to them when they return, students are missing questions and discussions taking place with their peers.                                                                                                                              |
| School Processes & Programs                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| <b>Problem Statement 1:</b> Our STAAR reading scores in grade 5 decreased from the previous year. <b>Root Cause:</b> Continuous improvement learning strategies were not used to the depth they needed to be. Instruction was teacher led with little student discourse. PLC discussions and recommendations from the IF were not implemented with fidelity.                                                                                                                                                                                                   |
| <b>Problem Statement 2:</b> Student struggling with peers had a difficult time utilizing strategies to assist in self-regulation. <b>Root Cause:</b> Time was not dedicated to the needed focus on Conscious Discipline and Character Strong strategies.                                                                                                                                                                                                                                                                                                       |

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 3:** Students will display dispositions indicative of high levels of social-emotional development as measured by campus-administered student survey.

**Evaluation Data Sources:** Student survey results and office referral data

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             | Reviews   |     |     |           |

**Performance Objective 3 Problem Statements:**

### Demographics

**Problem Statement 1:** Our enrollment has decreased from the previous year. **Root Cause:** The relocation to another campus during the rebuilding of our school has inconvenienced some families who rely on a school within walking distance. Additionally, ILT's "Referral Rewards Program," which offers families \$250 for each new student who enrolls and references them, has also impacted our enrollment.

### School Processes & Programs

**Problem Statement 2:** Student struggling with peers had a difficult time utilizing strategies to assist in self-regulation. **Root Cause:** Time was not dedicated to the needed focus on Conscious Discipline and Character Strong strategies.

**Problem Statement 3:** Maintaining a focus on attendance and the importance of students being in school continues to be a concern. **Root Cause:** Not enough information is shared or communicated to families regarding the importance of students being in school.

### Perceptions

**Problem Statement 1:** According to the Mullendore Parent survey that was sent at the end of the school year, 42% of our families feel students don't show respect towards one another to the depth that they could. **Root Cause:** More times needs to be dedicated to working with students and teaching them what respect looks like, and not just what respect is, especially when it comes to their peers.

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 4:** Reduce the number of students assigned to behavioral RtI Tiers 2 and 3.

**Evaluation Data Sources:** Behavioral RtI data records

**Performance Objective 4 Problem Statements:**

| School Processes & Programs                                                                                                                                                                                                                                                                                                                                                                                              |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 2:</b> Student struggling with peers had a difficult time utilizing strategies to assist in self-regulation. <b>Root Cause:</b> Time was not dedicated to the needed focus on Conscious Discipline and Character Strong strategies.                                                                                                                                                                 |
| Perceptions                                                                                                                                                                                                                                                                                                                                                                                                              |
| <b>Problem Statement 1:</b> According to the Mullendore Parent survey that was sent at the end of the school year, 42% of our families feel students don't show respect towards one another to the depth that they could. <b>Root Cause:</b> More times needs to be dedicated to working with students and teaching them what respect looks like, and not just what respect is, especially when it comes to their peers. |

**Goal 2:** The system will utilize efficient and effective operations to support and improve the learning organization.

**Performance Objective 1:** Increase the annual total average daily attendance (ADA) as compared with prior school year.

**Evaluation Data Sources:** Campus ADA percentages compared with previous school year.

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             | Reviews   |     |     |           |

**Performance Objective 1 Problem Statements:**

| Student Learning                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> When analyzing student performance gaps, two areas showing significant need due to insufficient growth in math are Hispanic students and those who are Economically Disadvantaged. <b>Root Cause:</b> Staff hired for the 2023-2024 school year at Mullendore, many of whom were new to the profession and held alternative certifications, faced challenges due to limited classroom experience and opportunities for professional development prior to joining BISD, which may have contributed to a decline in student success. |
| <b>Problem Statement 2:</b> STAAR scores in grades 3-5 were lower than expected. Students did not excel to the level of Mastery that was anticipated during the school year. <b>Root Cause:</b> Teachers did not implementing continuous improvement learning strategies to the depth they need to be. When used with fidelity, the four pivotal instructional components are proven to move students and grow them.                                                                                                                                           |

### Student Learning

**Problem Statement 3:** Students receiving special education services are not excelling academically to the level of mastery that is expected. **Root Cause:** Students are pulled out of general education classes causing them to miss Tier 1 instruction provided by the teacher. While instruction is provided to them when they return, students are missing questions and discussions taking place with their peers.

### School Processes & Programs

**Problem Statement 1:** Our STAAR reading scores in grade 5 decreased from the previous year. **Root Cause:** Continuous improvement learning strategies were not used to the depth they needed to be. Instruction was teacher led with little student discourse. PLC discussions and recommendations from the IF were not implemented with fidelity.

**Problem Statement 2:** Student struggling with peers had a difficult time utilizing strategies to assist in self-regulation. **Root Cause:** Time was not dedicated to the needed focus on Conscious Discipline and Character Strong strategies.

**Problem Statement 3:** Maintaining a focus on attendance and the importance of students being in school continues to be a concern. **Root Cause:** Not enough information is shared or communicated to families regarding the importance of students being in school.

**Goal 2:** The system will utilize efficient and effective operations to support and improve the learning organization.

**Performance Objective 2:** Use continuous improvement strategies and principles to identify and improve operations and student outcomes.

**Evaluation Data Sources:** Evaluation of goal achievement as per campus improvement plan

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             | Reviews   |     |     |           |

| <b>Problem Statement 3:</b> Maintaining a focus on attendance and the importance of students being in school continues to be a concern. <b>Root Cause:</b> Not enough information is shared or communicated to families regarding the importance of students being in school.                                                                                                                                            |
| <b>Problem Statement 4:</b> Despite training and sharing the importance of safety at school, staff are still struggling with reporting injuries. <b>Root Cause:</b> Not enough attention and focus are given to the celebration of accident free months. More information can be shared with staff on how to stay injury free.                                                                                           |
| Perceptions                                                                                                                                                                                                                                                                                                                                                                                                              |
| <b>Problem Statement 1:</b> According to the Mullendore Parent survey that was sent at the end of the school year, 42% of our families feel students don't show respect towards one another to the depth that they could. <b>Root Cause:</b> More times needs to be dedicated to working with students and teaching them what respect looks like, and not just what respect is, especially when it comes to their peers. |

**Goal 3:** All students and staff will learn and work in a safe and responsive environment.

**Performance Objective 1:** Improve the percentage of students and staff who report feeling safe at school.

**Evaluation Data Sources:** Campus-administered survey of students, parents and staff

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  | Reviews   |     |     |           |

**Performance Objective 1 Problem Statements:**

| Demographics                                                                                                                                                                                                                                                                                                                                                                                                                |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> Our enrollment has decreased from the previous year. <b>Root Cause:</b> The relocation to another campus during the rebuilding of our school has inconvenienced some families who rely on a school within walking distance. Additionally, ILT's "Referral Rewards Program," which offers families \$250 for each new student who enrolls and references them, has also impacted our enrollment. |
| School Processes & Programs                                                                                                                                                                                                                                                                                                                                                                                                 |
| <b>Problem Statement 2:</b> Student struggling with peers had a difficult time utilizing strategies to assist in self-regulation. <b>Root Cause:</b> Time was not dedicated to the needed focus on Conscious Discipline and Character Strong strategies.                                                                                                                                                                    |
| <b>Problem Statement 4:</b> Despite training and sharing the importance of safety at school, staff are still struggling with reporting injuries. <b>Root Cause:</b> Not enough attention and focus are given to the celebration of accident free months. More information can be shared with staff on how to stay injury free.                                                                                              |

## Perceptions

**Problem Statement 1:** According to the Mullendore Parent survey that was sent at the end of the school year, 42% of our families feel students don't show respect towards one another to the depth that they could. **Root Cause:** More times needs to be dedicated to working with students and teaching them what respect looks like, and not just what respect is, especially when it comes to their peers.

**Goal 3:** All students and staff will learn and work in a safe and responsive environment.

**Performance Objective 2:** Reduce the cost of accidents resulting in workers' compensation claims by 10% over the previous year and to reduce the number of work days lost due to accidents occurring on the job by 10%.

**Evaluation Data Sources:** Quarterly reports of workers' compensation claims

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         | Reviews   |     |     |           |

# Comprehensive Needs Assessment

## Demographics

### Demographics Summary

The demographics of Birdville Center of Technology and Advanced Learning (BCTAL) mirror those of the school district. Each day, BCTAL serves 2,300 students in 12 programs. Groups of students consist of:

Hispanic 46% (1058)

Asian 5% (115)

African American 10% (230)

White 35% (805)

Two or More Races 4% (92)

Special Education 8% (184)

Economically Disadvantaged 64% (1472)

These numbers make BCTAL the campus with the 2nd largest high school population, with only 30 teachers.

### Demographics Strengths

Students from three comprehensive high schools and one alternative campus and can create bonds across cities and attendance zones. The research on diverse populations shows that students perform better and feel safer and more confident (Queens University, Drexel University). In addition to working together in the classroom setting, students prepare for competition and travel throughout the region and state together, enriching their experience. Providing students with real-world opportunities improves outcomes for low-income students (Kauffman Foundation). BCTAL is positioned to help all students excel.

### Problem Statements Identifying Demographics Needs

**Problem Statement 1 (Prioritized):** Student outcomes on industry certification exams suggest that classroom instruction may not consistently align with the rigor and complexity of the assessments.

**Root Cause:** Inconsistent formative assessments that mirror certification test formats.

# Student Learning

## Student Learning Summary

BCTAL invites students to learn in 12 programs of study, which include Health Science, Hospitality and Tourism, Transportation, Business and Marketing, Law and Public Safety, Agriculture, Human Services, Information Technology, Construction, Audio-Visual technology, and STEM. In 2022-2023, students earned 2,679 Certifications across those fields; in 2023-2024, students earned 4,029 certifications, and in 2024-2025, students earned 2,173 certifications. Previously, the state of Texas considered a student who earned an approved certification ready for post-secondary success, whether in college, career, or the military. However, the state has redefined the success factor and students must complete a program of study (3 or more courses with four or more credits) and earn a certification aligned to that pathway. With this new metric, BCTAL teachers and administrators are working to recruit and retain students who will complete a single program of study as well as earn the certification. This process involves training the teachers on updated programs of study (as of February 2024), educating students and families on the requirements, and attracting students to the correct field early in their high school career.

In the 2025-2026 school year, BCTAL will inaugurate the Health Science PTECH (Pathways in Technology Early College High School). This exciting program is designed for health science students to earn an associate's degree in science (AAS) through Tarrant County College (TCC). Over the next four years, BISD and TCC will offer dual-credit courses for students as they progress through the program. This unique opportunity will open doors for our students, providing them with a head start in their academic and professional journey.

BCTAL has also embarked on a dual-enrollment program through Tarleton University this year. Students in Advanced Animal Science and Education & Training courses will be invited to earn college credit as they complete the high school course requirements. Dual credit and dual enrollment courses will help to meet state College, Career, and Military Readiness Standards.

## Student Learning Strengths

Career and Technology students perform at higher levels consistently throughout their educational careers. This year, BISD BCTAL outperformed the state in all tested subjects, Algebra, English 1 & 2, Biology, and United States History. Students in CTE courses apply concepts and skills to practical and meaningful work, which raises academic engagement, resulting in higher test scores. In the CTE classroom, these students earn college credit and certifications, which are the practical outcomes of the courses and can be utilized at the next stage of their journey, whether they further their education, join the military, or enter the workforce.

## Problem Statements Identifying Student Learning Needs

**Problem Statement 1 (Prioritized):** The BCTAL faculty mindset needs to transition from focusing exclusively on the passing of end-of-course Industry-Based Certification exams and toward assisting their students with becoming a program completor, which includes multiple course completion and earned certification.

**Root Cause:** Recent changes in the state's definition of CCMR Readiness have necessitated this shift in focus to better align with new graduation and readiness standards.

**Problem Statement 2 (Prioritized):** Student outcomes on industry certification exams suggest that classroom instruction may not consistently align with the rigor and complexity of the assessments.

**Root Cause:** \* Inconsistent formative assessments that mirror certification test formats.

# School Processes & Programs

## School Processes & Programs Summary

BCTAL celebrates student success every year. In the 2022-2023 school year, 65 students advanced to state contests, and 12 competed nationally. In 2023-2024, 99 students advanced to state contests, and 14 competed in national competitions in Los Angeles, Atlanta, Houston, and Washington, DC. Teachers prepare students for these real-world scenarios through rigorous coursework, stalwart dedication, and time commitment. While Career and Technology Student Organizations (CTSO) are crucial to building a successful program, BCTAL students also have opportunities to work off-campus in local business and industry. One student recently interned at BNSF Railroad, coordinating a drone program that monitors equipment and inventory. BCTAL students have been honored by the Chamber of Commerce and are acknowledged as Ready-to-Work graduates. These accolades are possible through a coordinated effort to create coherent course sequences that allow students to progress through learning by taking on more responsibility and making deep connections with the material.

On campus, BCTAL teachers participate in a school leadership committee, a safety committee, and a Leader of Learners committee. With only 30 teachers and no counselor or assistant principals, BCTAL teachers better their school community by stepping into leadership roles in addition to classroom expectations.

## School Processes & Programs Strengths

BCTAL excels in its school processes and programs, celebrating notable student achievements with a significant increase in contest participation: from 65 students advancing to state contests and 12 competing nationally in 2022-2023, to 99 students advancing to state and 14 competing nationally in 2023-2024. Teachers deliver rigorous coursework and dedication, preparing students for real-world challenges, including off-campus internships like the recent one at BNSF Railroad. The program's effectiveness is also reflected in students being honored by the Chamber of Commerce and recognized as Ready-to-Work graduates. Additionally, BCTAL teachers contribute to the school community through active roles in leadership, safety, and other committees, despite the school having no dedicated counselor.

## Problem Statements Identifying School Processes & Programs Needs

**Problem Statement 1 (Prioritized):** The school administration is responsible to develop teacher pedagogy and the concept of Continuous Improvement to improve student academic achievement.

**Root Cause:** A significant number of BCTAL teachers transitioned directly from industry roles without formal educational training, resulting in a need for targeted professional development in pedagogy and instructional strategies.

# Perceptions

## Perceptions Summary

In 2025, BCTAL staff participated in a campus-wide climate survey. This survey collected teacher perceptions on various indicators. The staff scored administration very high in visibility and support. Research indicates that this positively impacts student performance (Fairman, 2023). Teachers expressed a sincere appreciation for their workplace environment, especially liking to work side by side with their colleagues in serving students.

The above-mentioned survey will be repeated in 2025/2026 to compare and analyze responses.

## Perceptions Strengths

BCTAL staff demonstrate strong communication and a high level of engagement in campus activities, reflecting positively on student performance. Recent surveys reveal that teachers feel empowered and independently capable in their roles, while also indicating a need for greater cohesion and clarity in the school's overall mission. Despite some challenges related to teacher morale and a sense of collective identity, there has been notable improvement. With strategic plans in place to address these areas, including enhanced role clarity and conflict resolution, there is an upward trend in both teacher morale and student outcomes. Teachers report strong alignment with the school's priorities and a high level of involvement in decision-making processes, underscoring a positive shift towards greater collaboration and shared purpose.

## Problem Statements Identifying Perceptions Needs

**Problem Statement 1 (Prioritized):** Advisory boards are underutilized, leading to missed opportunities for industry input on curriculum, equipment, and workforce alignment.

**Root Cause:** Advisory boards may meet infrequently or operate without clear roles and responsibilities.

# Priority Problem Statements

**Problem Statement 1:** The BCTAL faculty mindset needs to transition from focusing exclusively on the passing of end-of-course Industry-Based Certification exams and toward assisting their students with becoming a program completor, which includes multiple course completion and earned certification.

**Root Cause 1:** Recent changes in the state's definition of CCMR Readiness have necessitated this shift in focus to better align with new graduation and readiness standards.

**Problem Statement 1 Areas:** Student Learning

**Problem Statement 2:** The school administration is responsible to develop teacher pedagogy and the concept of Continuous Improvement to improve student academic achievement.

**Root Cause 2:** A significant number of BCTAL teachers transitioned directly from industry roles without formal educational training, resulting in a need for targeted professional development in pedagogy and instructional strategies.

**Problem Statement 2 Areas:** School Processes & Programs

**Problem Statement 3:** Student outcomes on industry certification exams suggest that classroom instruction may not consistently align with the rigor and complexity of the assessments.

**Root Cause 3:** Inconsistent formative assessments that mirror certification test formats.

**Problem Statement 3 Areas:** Demographics

**Problem Statement 4:** Student outcomes on industry certification exams suggest that classroom instruction may not consistently align with the rigor and complexity of the assessments.

**Root Cause 4:** \* Inconsistent formative assessments that mirror certification test formats.

**Problem Statement 4 Areas:** Student Learning

**Problem Statement 5:** Advisory boards are underutilized, leading to missed opportunities for industry input on curriculum, equipment, and workforce alignment.

**Root Cause 5:** Advisory boards may meet infrequently or operate without clear roles and responsibilities.

**Problem Statement 5 Areas:** Perceptions

# Goals

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 1:** All Birdville Center of Technology and Advanced Learning courses will promote learning by engaging in our Continuous Improvement Strategies and preparing students with real-world, hands-on experiences.

**Evaluation Data Sources:** Data collected from instructional observations, differentiated instructional strategies, Career and Technology Lab experiences, internships, earned industry certification, and practicums related to content.

**Performance Objective 2 Problem Statements:**

| Demographics                                                                                                                                                                                                                                                                               |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> Student outcomes on industry certification exams suggest that classroom instruction may not consistently align with the rigor and complexity of the assessments. <b>Root Cause:</b> Inconsistent formative assessments that mirror certification test formats. |

**Goal 2:** The system will utilize efficient and effective operations to support and improve the learning organization.

**Performance Objective 1:** Through the use of the Workshop and Project-Based Learning Models, BCTAL teachers will enhance their effectiveness as classroom teachers as demonstrated by increasing student achievement.

**Evaluation Data Sources:** Passing rates on student certification exams as students will require to have the expected vocabulary and reasoning skills to pass these exams.

| Strategy 1 Details                                                                                                                                                                                                                                                                                                      | Reviews   |     |     |           |

| <b>Problem Statement 2:</b> Student outcomes on industry certification exams suggest that classroom instruction may not consistently align with the rigor and complexity of the assessments. <b>Root Cause:</b> * Inconsistent formative assessments that mirror certification test formats. |

**Goal 2:** The system will utilize efficient and effective operations to support and improve the learning organization.

**Performance Objective 2:** Recruitment and Marketing: Provide an increased opportunity for elementary and middle school students to experience classes and programs at the BCTAL through 5th grade and 8th-grade tours throughout the school year.

**High Priority**

**Evaluation Data Sources:** Increase in the number of student schedule requests throughout the next scheduling process.

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         | Reviews   |     |     |           |

## Performance Objective 2 Problem Statements:

### Student Learning

**Problem Statement 1:** The BCTAL faculty mindset needs to transition from focusing exclusively on the passing of end-of-course Industry-Based Certification exams and toward assisting their students with becoming a program completor, which includes multiple course completion and earned certification. **Root Cause:** Recent changes in the state's definition of CCMR Readiness have necessitated this shift in focus to better align with new graduation and readiness standards.

### Perceptions

**Problem Statement 1:** Advisory boards are underutilized, leading to missed opportunities for industry input on curriculum, equipment, and workforce alignment. **Root Cause:** Advisory boards may meet infrequently or operate without clear roles and responsibilities.

**Goal 2:** The system will utilize efficient and effective operations to support and improve the learning organization.

**Performance Objective 3:** All students who attend classes at the BCTAL will attain at least one CCMR indicator prior to graduation.

**HB3 Goal**  
**Evaluation Data Sources:** ODS verification file/PEIMS

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      | Reviews   |     |     |           |

**Goal 3:** All students and staff will learn and work in a safe and responsive environment.

**Performance Objective 1:** Create a positive, non-confrontational campus environment that will enhance learning and foster a positive, courteous campus atmosphere as evidenced by teacher/student attendance, student engagement and earned certifications.

**Evaluation Data Sources:** Student and Staff surveys (December and May), staff meetings and earned certifications.

**Performance Objective 1 Problem Statements:**

| School Processes & Programs                                                                                                                                                                                                                                                                                                                                                                                                      |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> The school administration is responsible to develop teacher pedagogy and the concept of Continuous Improvement to improve student academic achievement. <b>Root Cause:</b> A significant number of BCTAL teachers transitioned directly from industry roles without formal educational training, resulting in a need for targeted professional development in pedagogy and instructional strategies. |

**Goal 3:** All students and staff will learn and work in a safe and responsive environment.

**Performance Objective 2:** Reduce the number of accidents resulting in workers' compensation claims by 10% over the previous year and reduce the number of workdays lost each year due to accidents occurring on the job by 10%.

**Evaluation Data Sources:** Safety records report from Risk Management

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                           | Reviews   |     |     |           |

# Comprehensive Needs Assessment

## Demographics

### Demographics Summary

Birdville Elementary School of Fine Arts is located in northeast Tarrant County in Haltom City, Texas. The campus serves approximately 479 students in grades prekindergarten through grade 5.

- 71% (339) Hispanic
- 17% (81) White
- 6% (27) Black/African American
- 3% (14) Asian
- 3% (18) other races.
- 43% (206) Emergent Bilingual
- 79% (378) economically disadvantaged
- 17% (79) of students receive special education services.

Of the 34 teachers on the campus, 86% (30) are female, 14% (5) are male, 70% (24) are White and are 28% (11) Hispanic. In the 2023-2024 school year, 3% (1) were beginning teachers, 19% (7) had 1 to 5 years experience, 11.8% (4) had 6 to 10 years, 44.5% (15) had 11 to 20 years, and 18.9% (7) had more than 20 years of experience. In terms of highest college degree held, 100% of teachers hold a bachelor's degree, and 27% (9) hold a master's degree. Twenty nine percent (11) of the staff at BES are minority

Student attendance rate was 95.15% in 2024-2025

### Demographics Strengths

We have low teacher turnover on the campus.

We have a diverse student and staff population.

We have a high percentage of experienced teachers.

### Problem Statements Identifying Demographics Needs

**Problem Statement 1 (Prioritized):** Students come with limited academic exposure which creates an additional challenge for instruction.

**Root Cause:** Given the fact that we have 79% economically disadvantaged coupled with 70% at risk, there is a high correlation that this is impacting academic exposure. Many families may have fewer opportunities for enrichment activities outside of school (books at home, museums, camps, tutoring, etc.).

# Student Learning

## Student Learning Summary

While STAAR performance declined, TELPAS results show students are making measurable progress in English language proficiency, especially in listening, speaking, and writing.

STAAR score celebrations:

- 3rd grade STAAR math meets/masters increased by 9.1%
- 3rd grade STAAR reading meets/masters increased by 15%
- 4th grade STAAR reading meets/masters increased by nearly 12%
- 5th grade STAAR science meets/masters increased by 16.4%, increase of 5% at approaches
- 5th grade Spanish STAAR science approaches increased by 38.1%
- 5th grade STAAR reading above district average for approaches (D: 77.7%, BES: 81.7%)
- 5th grade Spanish STAAR science above district average for approaches (D: 37.1%, BES: 38.1%)
- 4th grade RLA STAAR above district average for meets (D: 52.5, BES: 53.1%)
- 3rd grade Spanish RLA STAAR slightly above district average for Masters, and inline with district for meets (we're lower by .2%)

TELPAS results show progress in language proficiency across grade levels, though growth varies by cohort.

- **Kindergarten:** The percentage of students at the *Beginning* level decreased from **62% to 50%**, while the percentage of students at *Advanced High* increased from **3% to 13%**. This indicates more students are progressing out of the lowest level, though half of Kinder students still remain at Beginning.
- **First Grade:** Students at the *Beginning* level doubled from **18% to 36%**, while the percentage at *Intermediate* decreased from **57% to 36%**. Growth into *Advanced High* was minimal (**7% to 9%**). This suggests that many students are not advancing past Beginning/Intermediate in first grade.
- **Second Grade:** Strong growth is evident, with *Beginning* decreasing from **17% to 8%**, and *Advanced High* increasing from **20% to 31%**. This cohort shows positive language acquisition and accelerated progress.
- **Third Grade:** Students at *Advanced High* decreased from **56% to 43%**, while *Intermediate* and *Advanced* increased. This indicates that more students are clustered in the middle proficiency levels rather than reaching the highest level.
- **Fourth Grade:** Slight decreases are seen at *Beginning* (**23% to 20%**) and *Advanced* (**35% to 28%**), with growth into *Intermediate* (**13% to 20%**) and *Advanced High* (**29% to 32%**). While some progress is evident, a significant percentage of students remain at lower levels.
- **Fifth Grade:** Students at the *Beginning* level decreased from **11% to 7%**, while those at *Advanced* grew from **36% to 39%**. *Advanced High* decreased slightly from **46% to 43%**, suggesting stable but limited growth at the upper levels.

## Student Learning Strengths

STAAR score celebrations:

- 3rd grade STAAR math meets/masters increased by 9.1%
- 3rd grade STAAR reading meets/masters increased by 15%
- 4th grade STAAR reading meets/masters increased by nearly 12%
- 5th grade STAAR science meets/masters increased by 16.4%, increase of 5% at approaches
- 5th grade Spanish STAAR science approaches increased by 38.1%
- 5th grade STAAR reading above district average for approaches (D: 77.7%, BES: 81.7%)
- 5th grade Spanish STAAR science above district average for approaches (D: 37.1%, BES: 38.1%)
- 4th grade RLA STAAR above district average for meets (D: 52.5, BES: 53.1%)
- 3rd grade Spanish RLA STAAR slightly above district average for Masters, and inline with district for meets (we're lower by .2%)

TELPAS results show progress in language proficiency across grade levels, though growth varies by cohort.

- **Kindergarten:** The percentage of students at the *Beginning* level decreased from **62% to 50%**, while the percentage of students at *Advanced High* increased from **3% to 13%**.
- **First Grade:** Students at the *Beginning* level doubled from **18% to 36%**,
- **Second Grade:** Strong growth is evident, with *Beginning* decreasing from **17% to 8%**, and *Advanced High* increasing from **20% to 31%**.
- **Third Grade:** *Intermediate* and *Advanced* increased. T
- **Fourth Grade:** Slight decreases are seen at *Beginning* (**23% to 20%**) and *Advanced* (**35% to 28%**), with growth into *Intermediate* (**13% to 20%**) and *Advanced High* (**29% to 32%**).
- **Fifth Grade:** Students at the *Advanced* grew from **36% to 39%**.

## Problem Statements Identifying Student Learning Needs

**Problem Statement 1 (Prioritized):** Data indicates that all students, to include targeted improvement students, are struggling with the Extended Constructed Response (ECR) component of the STAAR Reading assessment. Many students are unable to clearly organize ideas, support responses with accurate text evidence, and elaborate effectively to demonstrate comprehension.

**Root Cause:** Many students produced well-written responses, but they did not directly address the questions asked. This indicates a need for instruction that focuses not only on writing quality but also on teaching students how to properly analyze and respond to prompts. Improving both writing skills and task comprehension will lead to better ECR performance.

**Problem Statement 2:** At Birdville Elementary, only 44% of Targeted Improvement students met grade-level proficiency, indicating a significant performance gap that requires focused instructional support and intervention.

**Root Cause:** Although students received targeted interventions and differentiated instruction, a high number of special education students were performing below grade level. In addition, many students struggled with Extended Constructed Response (ECR) items, which contributed to lower overall proficiency rates.

# School Processes & Programs

## School Processes & Programs Summary

Birdville Elementary offers a wide range of programs to meet the unique needs of students. We are a School of Specialization in Fine Arts. Therefore, all of our students are afforded the opportunity to participate daily in a fine arts area: Theater Arts, Music, Dance and Visual Arts. The addition of these classes has helped our students to express themselves and to gain confidence outside of the core academic classrooms.

We follow the Make Your Day discipline program. This program is supportive of both student and staff needs. We had 1 mandatory DAEP assignment in the 2024-2025 school year.

We have a comprehensive Multi-Tiered System of Support (MTSS) program for intervention in grades K-5 to assist our Tier 2 & 3 students in making progress and to be as successful as possible. An MTSS collaborative team has been assembled that meets throughout the year to discuss student progress and to identify ways in which we can best assist our students who are struggling. Additionally, we have various special programs to help in meeting the unique needs of our EB, Special Education, and Gifted students as follows:

- Self-contained Academic and Adaptive Behavior Learning Environment (AABLE) classes for students identified with specific learning disabilities which require more intensive instruction
- Early Childhood Special Education (ECSE) classrooms for 3 and 4 year old students with specific learning disabilities.
- Special Education Resource classes and inclusion support for students identified with learning disabilities in various areas
- Dual Language classes for students who are Emergent Bilingual and whose primary language is Spanish
- Advanced Academic classes for students who are identified as Gifted and Talented
- Dyslexic classes for students identified with dyslexia

## School Processes & Programs Strengths

We have a staff of highly experienced teachers. 66% (22) of the teachers at Birdville Elementary have at least 11 years of teaching experience.

The campus is task oriented and has aligned goals.

Make Your Day sets consistent expectations for students and allows the campus to focus on academic needs.

We have a strong bilingual program.

Birdville Elementary has a student leadership team to support student and campus needs.

Administration provides weekly curriculum planning times for teams with opportunities for collaboration.

Our campus focuses on safety and security.

## Problem Statements Identifying School Processes & Programs Needs

**Problem Statement 1 (Prioritized):** The attendance rate of 95.15% is down from the 95.5% last year. Students with chronic absenteeism miss a significant amount of instruction.

**Root Cause:** With 79% of students identified as economically disadvantaged, families may face barriers such as lack of transportation, unstable housing, or parents working multiple

jobs, making consistent attendance more difficult. In addition, families may not fully understand the impact of chronic absenteeism on student achievement, or may not see occasional absences as a problem.

# Perceptions

## Perceptions Summary

At BES, we have established core beliefs and a mission statement, which we revisit every school year. The Site Based Committee met to discuss topics relating to processes at BES. Topics included:

- Parent perception about their child's progress
- Parent perception regarding communication from the campus
- Parent perception regarding the impact of our Fine Arts program and intervention programs
- Parent perception of safety and our school-wide discipline program
- Parent perception regarding our Parent involvement Activities (Curriculum Nights, SLAM Night, Multicultural Night, Fine Arts Showcase; Fall Carnival, Field Day, Title I Parent Night)

Parents perception of the above were all positive. Parents were split on communication preferences, with some preferring social media while others like email. We will continue to use both. We started using Class Dojo campus wide last year and will continue during the 2025-2026 school year. This is a good compromise between email and social media.

Parents expressed that they have confidence in the security at BES. Identification is required to enter the building. In addition, all classroom and exterior doors are locked at all times. We have a locked door that separates the main hallway from the academic classrooms. We are able to dismiss students from the building, keeping students inside the building until we hand them off to parents.

Students needing serious discipline intervention is well below the district/state averages. There was one mandatory DAEP placement for the 2024-2025 school year. Our Make Your Day program philosophy that students are responsible for their choices and that they must take ownership and accountability has positively contributed to this number. Additionally, the program requires parent involvement and everyone on campus has been trained and facilitates this program across all grade levels to include the cafeteria monitors, rotations teachers, and other staff members beyond the classroom.

## Perceptions Strengths

Birdville Elementary is a safe and orderly campus, as reported by 99% of parents, 100% of staff, and 85% of students.

We provide multiple opportunities for parents to become involved throughout the year not only directly on campus, but also at home in working with their children. Our PTA is growing each year, involving more parents on the board and with the Power Hour. This is a program that encourages all parents to volunteer for just one hour during the year. We also communicate with parents (both in English/Spanish) in a variety of ways to include weekly grade level newsletters, Peachjar, take-home planners, website, Facebook, emails, letters from the principal, monthly calendar of events, Class Dojo messages, and phone calls. Our discipline program continues to be highly effective as is evidenced by discipline referrals being lower than average. Our teachers are able to implement all of our district initiatives in an effective and efficient manner, engaging students in relevant learning. Students also have responded well to the Fine Arts program. We feel this has positively impacted student attendance as our student and staff attendance rates continue to be high.

## Problem Statements Identifying Perceptions Needs

**Problem Statement 1 (Prioritized):** While we offer a variety of opportunities for parents to become involved, we still struggle with getting them to be involved more on a consistent basis.

**Root Cause:** Many of our students come from single parent family homes or homes where both parents work. Parents can also feel intimidated by the educational setting due to their

own prior experiences. In addition, many of our parents do not speak English, making them hesitant to volunteer and become involved.

# Priority Problem Statements

**Problem Statement 1:** Students come with limited academic exposure which creates an additional challenge for instruction.

**Root Cause 1:** Given the fact that we have 79% economically disadvantaged coupled with 70% at risk, there is a high correlation that this is impacting academic exposure. Many families may have fewer opportunities for enrichment activities outside of school (books at home, museums, camps, tutoring, etc.).

**Problem Statement 1 Areas:** Demographics

**Problem Statement 2:** Data indicates that all students, to include targeted improvement students, are struggling with the Extended Constructed Response (ECR) component of the STAAR Reading assessment. Many students are unable to clearly organize ideas, support responses with accurate text evidence, and elaborate effectively to demonstrate comprehension.

**Root Cause 2:** Many students produced well-written responses, but they did not directly address the questions asked. This indicates a need for instruction that focuses not only on writing quality but also on teaching students how to properly analyze and respond to prompts. Improving both writing skills and task comprehension will lead to better ECR performance.

**Problem Statement 2 Areas:** Student Learning

**Problem Statement 3:** While we offer a variety of opportunities for parents to become involved, we still struggle with getting them to be involved more on a consistent basis.

**Root Cause 3:** Many of our students come from single parent family homes or homes where both parents work. Parents can also feel intimidated by the educational setting due to their own prior experiences. In addition, many of our parents do not speak English, making them hesitant to volunteer and become involved.

**Problem Statement 3 Areas:** Perceptions

**Problem Statement 4:** The attendance rate of 95.15% is down from the 95.5% last year. Students with chronic absenteeism miss a significant amount of instruction.

**Root Cause 4:** With 79% of students identified as economically disadvantaged, families may face barriers such as lack of transportation, unstable housing, or parents working multiple jobs, making consistent attendance more difficult. In addition, families may not fully understand the impact of chronic absenteeism on student achievement, or may not see occasional absences as a problem.

**Problem Statement 4 Areas:** School Processes & Programs

# Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

## Improvement Planning Data

- District goals
- Campus goals
- HB3 Reading and math goals for PreK-3
- Campus/District improvement plans (current and prior years)
- Planning and decision making committee(s) meeting data

## Accountability Data

- Texas Academic Performance Report (TAPR) data
- Student Achievement Domain
- Student Progress Domain
- Closing the Gaps Domain
- Accountability Distinction Designations
- Federal Report Card and accountability data
- Local Accountability Systems (LAS) data

## Student Data: Assessments

- State and federally required assessment information
- STAAR current and longitudinal results, including all versions
- STAAR released test questions
- Texas English Language Proficiency Assessment System (TELPAS) and TELPAS Alternate results
- Local diagnostic reading assessment data
- Local benchmark or common assessments data
- Observation Survey results
- Texas approved PreK - 2nd grade assessment data
- Texas approved Prekindergarten and Kindergarten assessment data
- State-developed online interim assessments

## Student Data: Student Groups

- Race and ethnicity data, including number of students, academic achievement, discipline, attendance, and rates of progress between groups
- Economically disadvantaged / Non-economically disadvantaged performance and participation data
- Male / Female performance, progress, and participation data
- Special education/non-special education population including discipline, progress and participation data
- Migrant/non-migrant population including performance, progress, discipline, attendance and mobility data
- At-risk/non-at-risk population including performance, progress, discipline, attendance, and mobility data
- Emergent Bilingual (EB) /non-EB data, including academic achievement, progress, support and accommodation needs, race, ethnicity, gender etc.
- Dyslexia data
- Response to Intervention (RtI) student achievement data

**Student Data: Behavior and Other Indicators**

- Attendance data
- Mobility rate, including longitudinal data
- Discipline records
- Student surveys and/or other feedback
- Class size averages by grade and subject
- School safety data

**Employee Data**

- Professional learning communities (PLC) data
- State certified and high quality staff data
- Professional development needs assessment data

**Parent/Community Data**

- Parent surveys and/or other feedback

# Goals

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social and emotional needs of the student.

**Performance Objective 1:** All students will make at least one year's progress in reading and mathematics by the end of school year. a) Meet the progress monitoring targets in Prekindergarten - 3rd for each demographic group as measured by district approved screeners (BOY, MOY and EOY) to achieve the HB3 Board Goals. b) Improve performance in Domain 3 Closing the Gaps by making more than a year's growth in reading and mathematics which would in turn increase the number of students performing at the "meets" and "masters" level as measured by the spring 2026 STAAR and EOC assessments. This will also increase Domain 1 Student Achievement which counts the number of students at the various performance levels for state assessments

**High Priority**

**HB3 Goal**

**Evaluation Data Sources:** CLI Engage - CIRCLE (prekindergarten reading and math), mClass (kindergarten reading and math), mClass (grades 1-2 reading), and Renaissance STAR Assessments (reading, grades 3-5 and mathematics, grades 1-5)

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    | Reviews   |     |     |           |

| <b>Problem Statement 1:</b> Students come with limited academic exposure which creates an additional challenge for instruction. <b>Root Cause:</b> Given the fact that we have 79% economically disadvantaged coupled with 70% at risk, there is a high correlation that this is impacting academic exposure. Many families may have fewer opportunities for enrichment activities outside of school (books at home, museums, camps, tutoring, etc.).                                                                                                                                                                                                                                                                                                     |
| Student Learning                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| <b>Problem Statement 1:</b> Data indicates that all students, to include targeted improvement students, are struggling with the Extended Constructed Response (ECR) component of the STAAR Reading assessment. Many students are unable to clearly organize ideas, support responses with accurate text evidence, and elaborate effectively to demonstrate comprehension. <b>Root Cause:</b> Many students produced well-written responses, but they did not directly address the questions asked. This indicates a need for instruction that focuses not only on writing quality but also on teaching students how to properly analyze and respond to prompts. Improving both writing skills and task comprehension will lead to better ECR performance. |

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social and emotional needs of the student.

**Performance Objective 2:** Close achievement gaps that exist for all under-performing student groups as measured by state and district assessments. Meet all progress monitoring targets for grades prekindergarten - 3rd in reading and mathematics for identified student groups as measured by a district-approved monitoring instrument.

**HB3 Goal**

**Evaluation Data Sources:** STAAR, and district CBA assessments

DCAs

Historical performance by student subgroup on state and district assessments

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |  | Reviews   |     |     |           |

## Performance Objective 2 Problem Statements:

### Demographics

**Problem Statement 1:** Students come with limited academic exposure which creates an additional challenge for instruction. **Root Cause:** Given the fact that we have 79% economically disadvantaged coupled with 70% at risk, there is a high correlation that this is impacting academic exposure. Many families may have fewer opportunities for enrichment activities outside of school (books at home, museums, camps, tutoring, etc.).

### Student Learning

**Problem Statement 1:** Data indicates that all students, to include targeted improvement students, are struggling with the Extended Constructed Response (ECR) component of the STAAR Reading assessment. Many students are unable to clearly organize ideas, support responses with accurate text evidence, and elaborate effectively to demonstrate comprehension. **Root Cause:** Many students produced well-written responses, but they did not directly address the questions asked. This indicates a need for instruction that focuses not only on writing quality but also on teaching students how to properly analyze and respond to prompts. Improving both writing skills and task comprehension will lead to better ECR performance.

### Perceptions

**Problem Statement 1:** While we offer a variety of opportunities for parents to become involved, we still struggle with getting them to be involved more on a consistent basis. **Root Cause:** Many of our students come from single parent family homes or homes where both parents work. Parents can also feel intimidated by the educational setting due to their own prior experiences. In addition, many of our parents do not speak English, making them hesitant to volunteer and become involved.

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social and emotional needs of the student.

**Performance Objective 3:** Students will display an awareness of social-emotional development as measured by a district-administered student survey.

**Evaluation Data Sources:** Social-Emotional Learning survey

| Demographics                                                                                                                                                                                                                                                                                                                                                                                                                                          |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> Students come with limited academic exposure which creates an additional challenge for instruction. <b>Root Cause:</b> Given the fact that we have 79% economically disadvantaged coupled with 70% at risk, there is a high correlation that this is impacting academic exposure. Many families may have fewer opportunities for enrichment activities outside of school (books at home, museums, camps, tutoring, etc.). |

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social and emotional needs of the student.

**Performance Objective 4:** Reduce the number of students assigned to behavior MTSS tiers 2 and 3.

**Evaluation Data Sources:** Behavioral MTSS data records

**Performance Objective 4 Problem Statements:**

| Perceptions                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> While we offer a variety of opportunities for parents to become involved, we still struggle with getting them to be involved more on a consistent basis.<br><b>Root Cause:</b> Many of our students come from single parent family homes or homes where both parents work. Parents can also feel intimidated by the educational setting due to their own prior experiences. In addition, many of our parents do not speak English, making them hesitant to volunteer and become involved. |

**Goal 2:** The system will utilize efficient and effective operations to support and improve the learning organization.

**Performance Objective 1:** Increase the annual total average daily attendance (ADA) as compared to the prior school year, through improved student retention, recruitment, and days in attendance.

**Evaluation Data Sources:** PEIMS Attendance Reports; Weekly/9 week/semester attendance rates

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  | Reviews   |     |     |           |

**Performance Objective 1 Problem Statements:**

| School Processes & Programs                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> The attendance rate of 95.15% is down from the 95.5% last year. Students with chronic absenteeism miss a significant amount of instruction. <b>Root Cause:</b> With 79% of students identified as economically disadvantaged, families may face barriers such as lack of transportation, unstable housing, or parents working multiple jobs, making consistent attendance more difficult. In addition, families may not fully understand the impact of chronic absenteeism on student achievement, or may not see occasional absences as a problem. |

**Goal 3:** All students and staff will learn and work in a safe and responsive environment.

**Performance Objective 1:** Increase the percentage of students and staff who report feeling safe at school.

**Evaluation Data Sources:** Staff, student, and parent surveys.

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         | Reviews   |     |     |           |

| Perceptions                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p><b>Problem Statement 1:</b> While we offer a variety of opportunities for parents to become involved, we still struggle with getting them to be involved more on a consistent basis.</p> <p><b>Root Cause:</b> Many of our students come from single parent family homes or homes where both parents work. Parents can also feel intimidated by the educational setting due to their own prior experiences. In addition, many of our parents do not speak English, making them hesitant to volunteer and become involved.</p> |

# Comprehensive Needs Assessment

## Demographics

### Demographics Summary

Demographics summary for Birdville High School:

Birdville High School, with a total enrollment of 2,093 students, is home to a diverse student body. The ethnic composition includes 48% White, 33% Hispanic, 11% African American, 3% Asian, 3% Multiracial, 1% Native American, and less than 1% Pacific Islander. The student population is slightly more male (52.1%) than female (47.9%). The school serves a variety of student needs, with 6.2% of students identified as Limited English Proficient (LEP) and 12.75% as Emergent Bilingual. Additionally, 48% of students are considered at risk, and 36% come from economically disadvantaged backgrounds. Birdville High School also supports 8% of its students with dyslexia, 11% in the Gifted and Talented (GT) program, and 9.78% in Special Education (SPED) services.

### Demographics Strengths

Our campus boasts a diverse student body, representing a wide range of cultural, linguistic, and socioeconomic backgrounds. This diversity enriches the learning environment by fostering cross-cultural understanding, promoting inclusivity, and preparing students for success in a global society. The varied perspectives and experiences within our student population enhance classroom discussions, collaborative projects, and community initiatives, creating a vibrant and dynamic school culture.

### Problem Statements Identifying Demographics Needs

**Problem Statement 1 (Prioritized):** Birdville High School's diversity presents challenges in meeting the needs of its students, particularly with 48% at risk, 36% economically disadvantaged, and significant numbers needing language support or special education services. The key challenge is providing equitable resources to ensure all students can succeed.  
**Root Cause:** Limited engagement and support from families who are from economically disadvantaged backgrounds or those facing language barriers.

# Student Learning

## Student Learning Summary

The 2025 TEA Accountability Rating for Birdville High School shows an **overall rating of 86 (B)**, reflecting solid performance with room for growth. The strongest areas are the **Graduation Rate (99.8, scaled to 95)**, which demonstrates that nearly all students are successfully completing high school, and **Closing the Gaps (92, rated A)**, showing that the campus is making strong progress in supporting diverse student groups and ensuring equity. **College, Career, and Military Readiness (73)** is another relative strength, highlighting the school's efforts to prepare students for life beyond high school. However, areas of weakness appear in **STAAR Performance (89, but only a 59 raw score)** and **Academic Growth (62, rated D)**. This suggests that while students are meeting minimum standards at graduation, many are not showing the year-to-year academic progress expected, particularly in tested areas. **Relative Performance (80, rated B)** indicates that, when adjusted for the campus's 40.6% economically disadvantaged population, Birdville High still performs better than many peer schools. In summary, Birdville High School's strengths lie in **graduation success, readiness for postsecondary opportunities, and closing equity gaps**, while the most pressing need is to **accelerate academic growth and improve STAAR outcomes** to move the campus from good to great.

## Student Learning Strengths

The 2025 TEA Accountability Rating for Birdville High School shows an **overall rating of 86 (B)**, reflecting solid performance with room for growth. The strongest areas are the **Graduation Rate (99.8, scaled to 95)**, which demonstrates that nearly all students are successfully completing high school, and **Closing the Gaps (92, rated A)**, showing that the campus is making strong progress in supporting diverse student groups and ensuring equity. **College, Career, and Military Readiness (73)** is another relative strength, highlighting the school's efforts to prepare students for life beyond high school. However, areas of weakness appear in **STAAR Performance (89, but only a 59 raw score)** and **Academic Growth (62, rated D)**. This suggests that while students are meeting minimum standards at graduation, many are not showing the year-to-year academic progress expected, particularly in tested areas. **Relative Performance (80, rated B)** indicates that, when adjusted for the campus's 40.6% economically disadvantaged population, Birdville High still performs better than many peer schools. In summary, Birdville High School's strengths lie in **graduation success, readiness for postsecondary opportunities, and closing equity gaps**, while the most pressing need is to **accelerate academic growth and improve STAAR outcomes** to move the campus from good to great.

## Problem Statements Identifying Student Learning Needs

**Problem Statement 1 (Prioritized):** Birdville High School earned an overall B rating (86) with strong graduation and equity outcomes; however, low Academic Growth (62, D) and STAAR Performance (59) reveal that many students are not making expected yearly progress in core content areas.

**Root Cause:** Academic Growth and STAAR Performance remain low due to inconsistent alignment to state standards, uneven instructional practices across classrooms, and limited use of data-driven interventions and progress monitoring. These gaps prevent timely supports and hinder consistent student growth in core content areas.

# School Processes & Programs

## School Processes & Programs Summary

Our programs and processes are anchored in the Six Systems of No Excuses University—Culture of Universal Achievement, Collaboration, Standards Alignment, Assessment, Data Management, and Interventions—which provide the structure for how we support students, monitor progress, and drive continuous improvement.

## School Processes & Programs Strengths

Birdville High School has established a clear foundation through the **Six Systems of No Excuses University**, which guide how we support students and staff. Strengths include a **strong Culture of Universal Achievement**, reflected in high graduation rates (99.8%), and effective **Collaboration** within PLCs that build collective responsibility for student success. Our **Closing the Gaps (A, 92)** rating demonstrates that campus processes are effectively supporting diverse learners. In addition, **College, Career, and Military Readiness (73)** shows that programs are equipping students for postsecondary opportunities. These strengths confirm that our systems and programs are making a positive impact on student outcomes and equity.

## Problem Statements Identifying School Processes & Programs Needs

### Problem Statement 1 (Prioritized):

Birdville High School's CCMR score of 73 is low because too few students are meeting readiness indicators such as college exams, dual credit/AP, or industry certifications.

**Root Cause:** Students have limited access, awareness, and support to successfully complete college entrance exams, dual credit/AP courses, and industry certifications, resulting in fewer meeting CCMR benchmarks.

# Perceptions

## Perceptions Summary

Birdville High School values ongoing feedback from students, staff, and the community, collected through various surveys conducted throughout the year. This feedback indicates that our campus is perceived as both safe and positive. Students and staff consistently report feeling secure and supported, which contributes to a strong sense of belonging and community within the school. The data suggests that our efforts to foster a welcoming and inclusive environment are having a positive impact on overall school morale and engagement.

## Perceptions Strengths

Another key strength is our proactive approach to addressing and acting on feedback from our school community. By regularly administering surveys and using the insights gathered, we are able to make informed decisions that enhance our campus culture and climate. This responsiveness not only helps maintain a high level of satisfaction among students and staff but also demonstrates our commitment to continuous improvement and creating a supportive, collaborative environment for everyone at Birdville High School.

## Problem Statements Identifying Perceptions Needs

**Problem Statement 1 (Prioritized):** The challenge lies in ensuring that all aspects of campus culture and climate are continually monitored and improved.

**Root Cause:** The insufficient participation from all stakeholders in feedback mechanisms, which limits the comprehensiveness and effectiveness of the insights gathered.

# Priority Problem Statements

**Problem Statement 1:** Birdville High School's diversity presents challenges in meeting the needs of its students, particularly with 48% at risk, 36% economically disadvantaged, and significant numbers needing language support or special education services. The key challenge is providing equitable resources to ensure all students can succeed.

**Root Cause 1:** Limited engagement and support from families who are from economically disadvantaged backgrounds or those facing language barriers.

**Problem Statement 1 Areas:** Demographics

**Problem Statement 2:** Birdville High School earned an overall B rating (86) with strong graduation and equity outcomes; however, low Academic Growth (62, D) and STAAR Performance (59) reveal that many students are not making expected yearly progress in core content areas.

**Root Cause 2:** Academic Growth and STAAR Performance remain low due to inconsistent alignment to state standards, uneven instructional practices across classrooms, and limited use of data-driven interventions and progress monitoring. These gaps prevent timely supports and hinder consistent student growth in core content areas.

**Problem Statement 2 Areas:** Student Learning

**Problem Statement 3:** Birdville High School's CCMR score of 73 is low because too few students are meeting readiness indicators such as college exams, dual credit/AP, or industry certifications.

**Root Cause 3:** Students have limited access, awareness, and support to successfully complete college entrance exams, dual credit/AP courses, and industry certifications, resulting in fewer meeting CCMR benchmarks.

**Problem Statement 3 Areas:** School Processes & Programs

**Problem Statement 4:** The challenge lies in ensuring that all aspects of campus culture and climate are continually monitored and improved.

**Root Cause 4:** The insufficient participation from all stakeholders in feedback mechanisms, which limits the comprehensiveness and effectiveness of the insights gathered.

**Problem Statement 4 Areas:** Perceptions

# Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

## Improvement Planning Data

- District goals
- Campus goals
- Performance Objectives with summative review (prior year)
- Campus/District improvement plans (current and prior years)
- Covid-19 Factors and/or waivers for Assessment, Accountability, ESSA, Missed School Days, Educator Appraisals, etc.
- Planning and decision making committee(s) meeting data
- State and federal planning requirements

## Accountability Data

- Texas Academic Performance Report (TAPR) data
- Student Achievement Domain
- Student Progress Domain
- Closing the Gaps Domain
- Accountability Distinction Designations

## Student Data: Assessments

- State and federally required assessment information
- STAAR current and longitudinal results, including all versions
- STAAR End-of-Course current and longitudinal results, including all versions
- STAAR released test questions
- Texas English Language Proficiency Assessment System (TELPAS) and TELPAS Alternate results
- Postsecondary college, career or military-ready graduates including enlisting in U. S. armed services, earning an industry based certification, earning an associate degree, graduating with completed IEP and workforce readiness
- Advanced Placement (AP) and/or International Baccalaureate (IB) assessment data
- Career and Technical Education (CTE) Programs of Study data including completer, concentrator, explorer, participant, and non-participant information
- SAT and/or ACT assessment data
- PSAT

## Student Data: Student Groups

- Race and ethnicity data, including number of students, academic achievement, discipline, attendance, and rates of progress between groups
- Special programs data, including number of students, academic achievement, discipline, attendance, and rates of progress for each student group
- Economically disadvantaged / Non-economically disadvantaged performance and participation data
- Male / Female performance, progress, and participation data
- Special education/non-special education population including discipline, progress and participation data
- Migrant/non-migrant population including performance, progress, discipline, attendance and mobility data
- At-risk/non-at-risk population including performance, progress, discipline, attendance, and mobility data
- Career and Technical Education (CTE) Programs of Study data including completer, concentrator, explorer, participant, and non-participant achievements by race, ethnicity,

- gender, etc.
- Section 504 data
- Homeless data
- Gifted and talented data
- Dyslexia data
- Dual-credit and/or college prep course completion data

#### **Student Data: Behavior and Other Indicators**

- Completion rates and/or graduation rates data
- Annual dropout rate data
- Attendance data
- Discipline records
- Violence and/or violence prevention records
- Tobacco, alcohol, and other drug-use data
- Student surveys and/or other feedback
- School safety data
- Enrollment trends

#### **Employee Data**

- Professional learning communities (PLC) data
- Staff surveys and/or other feedback
- Campus leadership data
- Campus department and/or faculty meeting discussions and data
- Professional development needs assessment data
- Evaluation(s) of professional development implementation and impact

#### **Parent/Community Data**

- Parent surveys and/or other feedback
- Community surveys and/or other feedback

#### **Support Systems and Other Data**

- Processes and procedures for teaching and learning, including program implementation
- Communications data
- Budgets/entitlements and expenditures data
- Study of best practices

# Goals

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 1:** All students will make at least one year's progress in reading and mathematics by the end of the school year.

a) Improve performance in Domain 3 Closing the Gaps by making more than a year's growth in reading and mathematics which would, in turn, increase the number of students performing at the "meets" and "masters" level as measured by the spring 2025 STAAR and EOC assessments. This will also increase Domain 1 Student Achievement which counts the number of students at the various performance levels for state assessments.

**High Priority**

**Evaluation Data Sources:** Domain 1 performance in 2023

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                | Reviews   |     |     |           |

| <b>Problem Statement 1:</b> Birdville High School's diversity presents challenges in meeting the needs of its students, particularly with 48% at risk, 36% economically disadvantaged, and significant numbers needing language support or special education services. The key challenge is providing equitable resources to ensure all students can succeed. <b>Root Cause</b> : Limited engagement and support from families who are from economically disadvantaged backgrounds or those facing language barriers.                                                                                                               |
| Student Learning                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| <b>Problem Statement 1:</b> Birdville High School earned an overall B rating (86) with strong graduation and equity outcomes; however, low Academic Growth (62, D) and STAAR Performance (59) reveal that many students are not making expected yearly progress in core content areas. <b>Root Cause:</b> Academic Growth and STAAR Performance remain low due to inconsistent alignment to state standards, uneven instructional practices across classrooms, and limited use of data-driven interventions and progress monitoring. These gaps prevent timely supports and hinder consistent student growth in core content areas. |

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 2:** Close achievement gaps among underperforming student groups, as identified through state and district assessments.

**Evaluation Data Sources:** Domain 2 performance in 2023

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |  | Reviews   |     |     |           |

| <b>Problem Statement 1:</b> Birdville High School earned an overall B rating (86) with strong graduation and equity outcomes; however, low Academic Growth (62, D) and STAAR Performance (59) reveal that many students are not making expected yearly progress in core content areas. <b>Root Cause:</b> Academic Growth and STAAR Performance remain low due to inconsistent alignment to state standards, uneven instructional practices across classrooms, and limited use of data-driven interventions and progress monitoring. These gaps prevent timely supports and hinder consistent student growth in core content areas. |
| Perceptions                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| <b>Problem Statement 1:</b> The challenge lies in ensuring that all aspects of campus culture and climate are continually monitored and improved. <b>Root Cause:</b> The insufficient participation from all stakeholders in feedback mechanisms, which limits the comprehensiveness and effectiveness of the insights gathered.                                                                                                                                                                                                                                                                                                    |

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 3:** Decrease the number of students in behavioral MTSS Tiers 2 and 3 who are assigned disciplinary placements.

**Evaluation Data Sources:** Behavioral MTSS data records

**Performance Objective 3 Problem Statements:**

### School Processes & Programs

**Problem Statement 1:** Birdville High School's CCMR score of 73 is low because too few students are meeting readiness indicators such as college exams, dual credit/AP, or industry certifications. **Root Cause:** Students have limited access, awareness, and support to successfully complete college entrance exams, dual credit/AP courses, and industry certifications, resulting in fewer meeting CCMR benchmarks.

### Perceptions

**Problem Statement 1:** The challenge lies in ensuring that all aspects of campus culture and climate are continually monitored and improved. **Root Cause:** The insufficient participation from all stakeholders in feedback mechanisms, which limits the comprehensiveness and effectiveness of the insights gathered.

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 4:** Increase the percentage of students in grades 9-12 meeting College, Career, and Military Readiness (CCMR) requirements by establishing annual progress monitoring targets aligned with the new state standards, thereby positively impacting all domains of high school accountability.

**Evaluation Data Sources:** Number of students meeting TSIA 2, SAT, ACT or AP qualification scores, number of students completing a coherent sequence of CTE courses in a Program of Study and earning a state recognized industry-based certification (IBC) or license, earning an Associate's degree via the Collegiate Academy of Birdville or BCTAL P-Tech Health Science Academy, earning Dual Credit or Dual Enrollment credits through BISD's Higher Educational partners (Tarrant County College, Texas Woman's University, Tarleton State University), number of students enlisting the Armed Forces upon graduation and Special Education students graduating with an Advanced Diploma plan (earning an Endorsement) or a Completed Individualized Education Program with Workforce Readiness.  
Aligns with Strategic Plan, Strategy 4, Objectives 1 and 4.

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     | Reviews   |     |     |           |

**Performance Objective 1 Problem Statements:**

| Perceptions                                                                                                                                                                                                                                                                                                                      |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> The challenge lies in ensuring that all aspects of campus culture and climate are continually monitored and improved. <b>Root Cause:</b> The insufficient participation from all stakeholders in feedback mechanisms, which limits the comprehensiveness and effectiveness of the insights gathered. |

**Goal 2:** Utilize efficient and effective operations to support and improve the learning organization.

**Performance Objective 2:** Use the district continuous improvement model (PDSA) to identify and improve operations and outcomes in every department and campus.

**Evaluation Data Sources:** Evaluation of goal achievement as per department improvement plans.

## Performance Objective 2 Problem Statements:

### Demographics

**Problem Statement 1:** Birdville High School's diversity presents challenges in meeting the needs of its students, particularly with 48% at risk, 36% economically disadvantaged, and significant numbers needing language support or special education services. The key challenge is providing equitable resources to ensure all students can succeed. **Root Cause** : Limited engagement and support from families who are from economically disadvantaged backgrounds or those facing language barriers.

### Perceptions

**Problem Statement 1:** The challenge lies in ensuring that all aspects of campus culture and climate are continually monitored and improved. **Root Cause:** The insufficient participation from all stakeholders in feedback mechanisms, which limits the comprehensiveness and effectiveness of the insights gathered.

**Goal 3:** All students and staff will learn and work in a safe and responsive environment.

**Performance Objective 1:** Increase participation in the annual school safety survey by at least 10% each year by actively engaging students, staff, and parents through targeted outreach and communication strategies.

**Evaluation Data Sources:** Annual Report of Disciplinary Incidents:

| <div>  No Progress  Accomplished  Continue/Modify  Discontinue </div>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |           |     |     |           |

**Performance Objective 1 Problem Statements:**

| Perceptions                                                                                                                                                                                                                                                                                                                      |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> The challenge lies in ensuring that all aspects of campus culture and climate are continually monitored and improved. <b>Root Cause:</b> The insufficient participation from all stakeholders in feedback mechanisms, which limits the comprehensiveness and effectiveness of the insights gathered. |

**Goal 3:** All students and staff will learn and work in a safe and responsive environment.

**Performance Objective 2:** Reduce the cost of accidents resulting in workers' compensation claims by 10% over the previous year and reduce the number of work days lost each year due to accidents occurring on the job by 10%.

**Evaluation Data Sources:** Annual report of worker's compensation claims

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             | Reviews   |     |     |           |

**Performance Objective 2 Problem Statements:**

| Student Learning                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> Birdville High School earned an overall B rating (86) with strong graduation and equity outcomes; however, low Academic Growth (62, D) and STAAR Performance (59) reveal that many students are not making expected yearly progress in core content areas. <b>Root Cause:</b> Academic Growth and STAAR Performance remain low due to inconsistent alignment to state standards, uneven instructional practices across classrooms, and limited use of data-driven interventions and progress monitoring. These gaps prevent timely supports and hinder consistent student growth in core content areas. |

**Goal 3:** All students and staff will learn and work in a safe and responsive environment.

**Performance Objective 3:** The district will meet all compliance requirements for improvement planning.

**Evaluation Data Sources:** Campus safety survey of students, parents and staff

| <b>Strategy 2:</b> Design and provide services that align and support academic achievement and reduce the dropout rate for at-risk students that meet one or more of the fifteen state criteria.<br><br><b>Actions:</b> a) Identify and serve students who are in danger of dropping out or not graduating from high school.<br>b) Implement an Early Warning System for At-Risk Students: Develop a system to monitor key indicators such as attendance, grades, and behavior, identifying students who are at risk of dropping out. This system will allow for timely intervention and support.<br>c) Establish Targeted Tutoring and Academic Support Programs: Offer before- and after-school tutoring, homework help, and academic coaching specifically tailored to meet the needs of at-risk students.<br>d) Create a Comprehensive Mentorship Program: Pair at-risk students with adult mentors, including teachers, staff, or community volunteers, who can provide guidance, encouragement, and academic support.<br>e) Develop Personalized Learning Plans (PLPs): Collaborate with at-risk students, their families, and educators to create PLPs that address each student's unique academic needs, interests, and career goals.<br>f) Increase Access to Counseling and Mental Health Services: Expand on-campus counseling services to provide emotional and social support to at-risk students. Offer regular check-ins, group therapy sessions, and workshops on stress management, coping skills, and resilience building.<br>g) Enhance Family and Community Engagement: Strengthen partnerships with families and community organizations to provide wraparound services, such as family counseling, access to social services, and workshops on topics like financial literacy, parenting, and college/career readiness.<br>h) Offer Credit Recovery and Alternative Education Programs: Provide flexible options for students who have fallen behind in credits.<br>i) Foster a Positive School Climate and Culture: Implement programs and activities that promote a sense of belonging, inclusivity, and positive behavior.<br><br><b>Problem Statements:</b> Demographics 1 |  | Formative |     |     | Summative |

### Performance Objective 3 Problem Statements:

## Demographics

**Problem Statement 1:** Birdville High School's diversity presents challenges in meeting the needs of its students, particularly with 48% at risk, 36% economically disadvantaged, and significant numbers needing language support or special education services. The key challenge is providing equitable resources to ensure all students can succeed. **Root Cause** : Limited engagement and support from families who are from economically disadvantaged backgrounds or those facing language barriers.

# State Compensatory

## Budget for Birdville High School

**Total SCE Funds:**

**Total FTEs Funded by SCE:** 8.5

Demographics Strengths

Demographics Strengths:

Bob E. Griggs High School serves a diverse student body that reflects the broader community. The campus is enriched by cultural and linguistic diversity, with a majority Hispanic-Latino population (57.29%), almost one-third White (32.86%), and African American students (11.43%). Gender is balanced, with 45.71% female and 54.29% male. A large portion of students (73.6%) are in the upper grades, which positions the school to support learners who are close to graduation through targeted interventions and credit recovery. Despite a high percentage of at-risk students (96.43%), the small school size (140 students) provides the strength of close relationships, personalized attention, and a resilient student body committed to completing high school.

Problem Statements Identifying Demographics Needs

**Problem Statement 1 (Prioritized):** 96.43% of our students were at-risk in the previous year.

**Root Cause:** Many students have experienced years of inconsistent academic success combined with long-term, compounding barriers related to economic disadvantage and personal circumstances. These factors contribute to academic gaps that grow over time, leading to disengagement and a diminished sense of confidence in their ability to succeed.

# Student Learning

## Student Learning Summary

In the 2024-25 school year, Bob E. Griggs High School met the Alternative Standard under the TEA accountability system. The overall score was a 78 with the following breakdown:

**Student Achievement: 80** -- STAAR Performance 86, CCMR 76, Graduation Rate, 75

**School Progress: 83** -- Academic Growth 69, Retest Growth (Relative Performance), 83

**Closing the Gaps: 67**

## Student Learning Strengths

Bob E. Griggs High School demonstrated strong performance in Student Achievement (80) and School Progress (83), with particular success in STAAR performance (86) and relative growth (83). These results show the campus's ability to support academic gains and achievement for students who enter with significant challenges.

## Problem Statements Identifying Student Learning Needs

**Problem Statement 1 (Prioritized):** Student growth and performance have declined, reflected in a drop in School Progress from 93 to 83 and in Closing the Gaps from 82 to 67. This indicates that many students are not demonstrating expected growth and that performance across student groups is not meeting state targets.

**Root Cause:** Persistent academic gaps and a history of repeated EOC assessment failures hinder students' ability to demonstrate year-over-year growth. These long-standing barriers, combined with disengagement from past setbacks, contribute to uneven growth across student groups and make it difficult to close achievement gaps.

**Problem Statement 2 (Prioritized):** Griggs High School's 2024 CCMR rate of 25% indicates that the majority of graduates are leaving without meeting state-defined readiness indicators. Too few students are earning qualifying scores on college entrance exams, completing dual credit, or obtaining industry-based certifications. This limits students' postsecondary options.

**Root Cause:** Students often have reduced access to college and career readiness opportunities due to accelerated or credit recovery pathways. Thus, time to prepare for or complete college entrance exams, dual credit coursework, or industry-based certifications is more limited. Additionally, students have not consistently engaged in readiness assessments or certification pathways.

# School Processes & Programs

## School Processes & Programs Summary

Bob E. Griggs High School is committed to supporting students with unique circumstances by providing a safe school environment and access to the resources necessary to address their socio-economic, academic, and social-emotional needs. The campus provides opportunities for both credit recovery and accelerated graduation, allowing students to regain lost credits or move more quickly toward completing their diploma requirements. Instruction is data-driven, with teachers creating student-centered classrooms aligned with district curriculum that give students voice and choice in demonstrating mastery while designing rigorous, relevant, and engaging lessons to build intrinsic motivation. A daily mentoring period addresses students' social and emotional needs, while ongoing coaching and collaboration strengthen instructional practice. In addition, the school emphasizes college, career, and military readiness through exploration of postsecondary options, including careers, colleges, trade schools, and Texas Workforce programs. This year, the campus expanded partnerships by bringing in multiple business and community representatives to share opportunities with students. Incentives and rewards programs have also been used to improve attendance and sustain student engagement.

## School Processes & Programs Strengths

Griggs High School provides personalized pathways and strong support systems that help students overcome challenges and move successfully toward graduation and postsecondary readiness. It is uniquely positioned to support students facing challenging life circumstances, with staff who ensure students stay on track to graduate. The school's focus on credit recovery, acceleration, and postsecondary readiness helps students prepare for college, career, and military pathways. Strong community and business partnerships have expanded opportunities for students, and incentive programs have shown success in improving attendance and engagement.

## Problem Statements Identifying School Processes & Programs Needs

**Problem Statement 1 (Prioritized):** Many students arrive at Bob E. Griggs High School with significant credit deficiencies and inconsistent attendance, making it difficult for them to stay on track academically. Many struggle to believe they can catch up and graduate, which impacts motivation and engagement.

**Root Cause:** Credit deficiencies and inconsistent attendance often stem from a mismatch between the structures of traditional school settings and the unique academic, social, and personal needs of at-risk students. This mismatch contributes to disengagement, course failures, and patterns of absenteeism that accumulate over time.

# Perceptions

## Perceptions Summary

Bob E. Griggs High School is proud to graduate students who, without the interventions and support provided on campus, may have otherwise left school before earning a diploma. The culture of the campus emphasizes encouragement, affirmation, and celebration of every success, no matter how small. Staff members view themselves as a family that demonstrates authentic care, unwavering commitment, and a shared belief in each student's potential. The campus environment blends high expectations with strong relational support, ensuring that students are not only diploma-ready but also prepared with the skills necessary for college, career, and life.

## Perceptions Strengths

Griggs maintains a safe, welcoming, and nurturing climate built on strong relationships between staff and students. With little teacher turnover, smaller class sizes, extended instructional periods, and a dedicated mentoring class, staff are able to provide consistent academic and social-emotional support. These conditions foster a culture of trust and stability where students feel supported, motivated, and capable of success.

## Problem Statements Identifying Perceptions Needs

**Problem Statement 1 (Prioritized):** While Bob E. Griggs High School has established a strong culture of care and support, sustaining consistent student engagement and connectedness remains a challenge. Some students arrive hesitant to accept school as a positive place to connect and engage, which impacts motivation and participation.

**Root Cause:** A long history of academic failure at traditional campuses, combined with students' perceptions that their social, emotional, and academic needs were neglected and unsupported outside of school, has contributed to disengagement and negative views of school as a place to succeed.

# Priority Problem Statements

**Problem Statement 1:** 96.43% of our students were at-risk in the previous year.

**Root Cause 1:** Many students have experienced years of inconsistent academic success combined with long-term, compounding barriers related to economic disadvantage and personal circumstances. These factors contribute to academic gaps that grow over time, leading to disengagement and a diminished sense of confidence in their ability to succeed.

**Problem Statement 1 Areas:** Demographics

**Problem Statement 2:** Student growth and performance have declined, reflected in a drop in School Progress from 93 to 83 and in Closing the Gaps from 82 to 67. This indicates that many students are not demonstrating expected growth and that performance across student groups is not meeting state targets.

**Root Cause 2:** Persistent academic gaps and a history of repeated EOC assessment failures hinder students' ability to demonstrate year-over-year growth. These long-standing barriers, combined with disengagement from past setbacks, contribute to uneven growth across student groups and make it difficult to close achievement gaps.

**Problem Statement 2 Areas:** Student Learning

**Problem Statement 3:** Many students arrive at Bob E. Griggs High School with significant credit deficiencies and inconsistent attendance, making it difficult for them to stay on track academically. Many struggle to believe they can catch up and graduate, which impacts motivation and engagement.

**Root Cause 3:** Credit deficiencies and inconsistent attendance often stem from a mismatch between the structures of traditional school settings and the unique academic, social, and personal needs of at-risk students. This mismatch contributes to disengagement, course failures, and patterns of absenteeism that accumulate over time.

**Problem Statement 3 Areas:** School Processes & Programs

**Problem Statement 4:** While Bob E. Griggs High School has established a strong culture of care and support, sustaining consistent student engagement and connectedness remains a challenge. Some students arrive hesitant to accept school as a positive place to connect and engage, which impacts motivation and participation.

**Root Cause 4:** A long history of academic failure at traditional campuses, combined with students' perceptions that their social, emotional, and academic needs were neglected and unsupported outside of school, has contributed to disengagement and negative views of school as a place to succeed.

**Problem Statement 4 Areas:** Perceptions

**Problem Statement 5:** Griggs High School's 2024 CCMR rate of 25% indicates that the majority of graduates are leaving without meeting state-defined readiness indicators. Too few students are earning qualifying scores on college entrance exams, completing dual credit, or obtaining industry-based certifications. This limits students' postsecondary options.

**Root Cause 5:** Students often have reduced access to college and career readiness opportunities due to accelerated or credit recovery pathways. Thus, time to prepare for or complete college entrance exams, dual credit coursework, or industry-based certifications is more limited. Additionally, students have not consistently engaged in readiness assessments or certification pathways.

**Problem Statement 5 Areas:** Student Learning

# Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

## **Improvement Planning Data**

- District goals

## **Accountability Data**

- Student Achievement Domain
- Student Progress Domain
- Closing the Gaps Domain

## **Student Data: Assessments**

- STAAR current and longitudinal results, including all versions
- STAAR End-of-Course current and longitudinal results, including all versions

## **Student Data: Student Groups**

- Male / Female performance, progress, and participation data
- Special education/non-special education population including discipline, progress and participation data
- Dyslexia data

## **Student Data: Behavior and Other Indicators**

- Annual dropout rate data
- Attendance data

## **Employee Data**

- Teacher/Student Ratio

# Goals

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social and emotional needs of the student.

**Performance Objective 1:** Improve performance in Domain 3 (Closing the Gaps) by increasing Reading and Math results for priority subgroups (All Students, Hispanic, EB/EL, and Economically Disadvantaged) by at least 5 percentage points on STAAR/EOC assessments.

## High Priority

**Evaluation Data Sources:** Teachers' reading/writing rubrics, District ELAR strategy utilized in each classroom, WICOR strategies training/use in classrooms

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   | Reviews   |     |     |           |

| <b>Problem Statement 1:</b> 96.43% of our students were at-risk in the previous year. <b>Root Cause:</b> Many students have experienced years of inconsistent academic success combined with long-term, compounding barriers related to economic disadvantage and personal circumstances. These factors contribute to academic gaps that grow over time, leading to disengagement and a diminished sense of confidence in their ability to succeed.                                                                                                                                                                                                                  |
| Student Learning                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| <b>Problem Statement 1:</b> Student growth and performance have declined, reflected in a drop in School Progress from 93 to 83 and in Closing the Gaps from 82 to 67. This indicates that many students are not demonstrating expected growth and that performance across student groups is not meeting state targets. <b>Root Cause:</b> Persistent academic gaps and a history of repeated EOC assessment failures hinder students' ability to demonstrate year-over-year growth. These long-standing barriers, combined with disengagement from past setbacks, contribute to uneven growth across student groups and make it difficult to close achievement gaps. |
| School Processes & Programs                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| <b>Problem Statement 1:</b> Many students arrive at Bob E. Griggs High School with significant credit deficiencies and inconsistent attendance, making it difficult for them to stay on track academically. Many struggle to believe they can catch up and graduate, which impacts motivation and engagement. <b>Root Cause:</b> Credit deficiencies and inconsistent attendance often stem from a mismatch between the structures of traditional school settings and the unique academic, social, and personal needs of at-risk students. This mismatch contributes to disengagement, course failures, and patterns of absenteeism that accumulate over time.       |
| Perceptions                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| <b>Problem Statement 1:</b> While Bob E. Griggs High School has established a strong culture of care and support, sustaining consistent student engagement and connectedness remains a challenge. Some students arrive hesitant to accept school as a positive place to connect and engage, which impacts motivation and participation. <b>Root Cause:</b> A long history of academic failure at traditional campuses, combined with students' perceptions that their social, emotional, and academic needs were neglected and unsupported outside of school, has contributed to disengagement and negative views of school as a place to succeed.                   |

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social and emotional needs of the student.

**Performance Objective 2:** Improve performance in Domain 1 (Student Achievement) by increasing overall results across all EOC subjects (Algebra I, Biology, English I, English II, and U.S. History) by at least 3 percentage points as measured by STAAR/EOC results.

**Evaluation Data Sources:** STAAR EOC scores, TEA Interim scores

| Demographics                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> 96.43% of our students were at-risk in the previous year. <b>Root Cause:</b> Many students have experienced years of inconsistent academic success combined with long-term, compounding barriers related to economic disadvantage and personal circumstances. These factors contribute to academic gaps that grow over time, leading to disengagement and a diminished sense of confidence in their ability to succeed.                                                                                                                                                                                                                  |
| Student Learning                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| <b>Problem Statement 1:</b> Student growth and performance have declined, reflected in a drop in School Progress from 93 to 83 and in Closing the Gaps from 82 to 67. This indicates that many students are not demonstrating expected growth and that performance across student groups is not meeting state targets. <b>Root Cause:</b> Persistent academic gaps and a history of repeated EOC assessment failures hinder students' ability to demonstrate year-over-year growth. These long-standing barriers, combined with disengagement from past setbacks, contribute to uneven growth across student groups and make it difficult to close achievement gaps. |
| School Processes & Programs                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| <b>Problem Statement 1:</b> Many students arrive at Bob E. Griggs High School with significant credit deficiencies and inconsistent attendance, making it difficult for them to stay on track academically. Many struggle to believe they can catch up and graduate, which impacts motivation and engagement. <b>Root Cause:</b> Credit deficiencies and inconsistent attendance often stem from a mismatch between the structures of traditional school settings and the unique academic, social, and personal needs of at-risk students. This mismatch contributes to disengagement, course failures, and patterns of absenteeism that accumulate over time.       |
| Perceptions                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| <b>Problem Statement 1:</b> While Bob E. Griggs High School has established a strong culture of care and support, sustaining consistent student engagement and connectedness remains a challenge. Some students arrive hesitant to accept school as a positive place to connect and engage, which impacts motivation and participation. <b>Root Cause:</b> A long history of academic failure at traditional campuses, combined with students' perceptions that their social, emotional, and academic needs were neglected and unsupported outside of school, has contributed to disengagement and negative views of school as a place to succeed.                   |

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social and emotional needs of the student.

**Performance Objective 3:** Assess the effectiveness of the use of the behavior RtI interventions by reducing by 3% the number of students assigned to tier 2 and 3.

**Evaluation Data Sources:** Focus Discipline Reports, MTSS data in Focus

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             | Reviews   |     |     |           |

### Performance Objective 3 Problem Statements:

### Demographics

**Problem Statement 1:** 96.43% of our students were at-risk in the previous year. **Root Cause:** Many students have experienced years of inconsistent academic success combined with long-term, compounding barriers related to economic disadvantage and personal circumstances. These factors contribute to academic gaps that grow over time, leading to disengagement and a diminished sense of confidence in their ability to succeed.

### Perceptions

**Problem Statement 1:** While Bob E. Griggs High School has established a strong culture of care and support, sustaining consistent student engagement and connectedness remains a challenge. Some students arrive hesitant to accept school as a positive place to connect and engage, which impacts motivation and participation. **Root Cause:** A long history of academic failure at traditional campuses, combined with students' perceptions that their social, emotional, and academic needs were neglected and unsupported outside of school, has contributed to disengagement and negative views of school as a place to succeed.

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social and emotional needs of the student.

**Performance Objective 4:** At the conclusion of the school year, identified students will receive 30 hours of targeted tutorial support to address learning gaps as required in HB1416

**High Priority**

**Evaluation Data Sources:** AI tutorials through EOC prep classes, before and after school tutorials, and Saturday School tutorials.

| <b>Problem Statement 1:</b> 96.43% of our students were at-risk in the previous year. <b>Root Cause:</b> Many students have experienced years of inconsistent academic success combined with long-term, compounding barriers related to economic disadvantage and personal circumstances. These factors contribute to academic gaps that grow over time, leading to disengagement and a diminished sense of confidence in their ability to succeed.                                                                                                                                                                                                                  |
| Student Learning                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| <b>Problem Statement 1:</b> Student growth and performance have declined, reflected in a drop in School Progress from 93 to 83 and in Closing the Gaps from 82 to 67. This indicates that many students are not demonstrating expected growth and that performance across student groups is not meeting state targets. <b>Root Cause:</b> Persistent academic gaps and a history of repeated EOC assessment failures hinder students' ability to demonstrate year-over-year growth. These long-standing barriers, combined with disengagement from past setbacks, contribute to uneven growth across student groups and make it difficult to close achievement gaps. |

School Processes & Programs

**Problem Statement 1:** Many students arrive at Bob E. Griggs High School with significant credit deficiencies and inconsistent attendance, making it difficult for them to stay on track academically. Many struggle to believe they can catch up and graduate, which impacts motivation and engagement. **Root Cause:** Credit deficiencies and inconsistent attendance often stem from a mismatch between the structures of traditional school settings and the unique academic, social, and personal needs of at-risk students. This mismatch contributes to disengagement, course failures, and patterns of absenteeism that accumulate over time.

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social and emotional needs of the student.

**Performance Objective 5:** Griggs High School teachers will use high-yield instructional strategies weekly to grow students Emergent Bilingual students' proficiency levels.

**Evaluation Data Sources:** TELPAS data, classroom walks

### School Processes & Programs

**Problem Statement 1:** Many students arrive at Bob E. Griggs High School with significant credit deficiencies and inconsistent attendance, making it difficult for them to stay on track academically. Many struggle to believe they can catch up and graduate, which impacts motivation and engagement. **Root Cause:** Credit deficiencies and inconsistent attendance often stem from a mismatch between the structures of traditional school settings and the unique academic, social, and personal needs of at-risk students. This mismatch contributes to disengagement, course failures, and patterns of absenteeism that accumulate over time.

### Perceptions

**Problem Statement 1:** While Bob E. Griggs High School has established a strong culture of care and support, sustaining consistent student engagement and connectedness remains a challenge. Some students arrive hesitant to accept school as a positive place to connect and engage, which impacts motivation and participation. **Root Cause:** A long history of academic failure at traditional campuses, combined with students' perceptions that their social, emotional, and academic needs were neglected and unsupported outside of school, has contributed to disengagement and negative views of school as a place to succeed.

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social and emotional needs of the student.

**Performance Objective 6:** Students required to EOC retest, along with first-time testers, will demonstrate forward progress on STAAR EOC exams by improving scale scores and advancing performance levels, with particular emphasis on moving from Did Not Meet to Approaches and Approaches to Meets/ Masters.

**Evaluation Data Sources:** EOC test scores

**Performance Objective 6 Problem Statements:**

| Demographics                                                                                                                                                                                                                                                                                                                                                                                                                                        |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> 96.43% of our students were at-risk in the previous year. <b>Root Cause:</b> Many students have experienced years of inconsistent academic success combined with long-term, compounding barriers related to economic disadvantage and personal circumstances. These factors contribute to academic gaps that grow over time, leading to disengagement and a diminished sense of confidence in their ability to succeed. |

### Student Learning

**Problem Statement 1:** Student growth and performance have declined, reflected in a drop in School Progress from 93 to 83 and in Closing the Gaps from 82 to 67. This indicates that many students are not demonstrating expected growth and that performance across student groups is not meeting state targets. **Root Cause:** Persistent academic gaps and a history of repeated EOC assessment failures hinder students' ability to demonstrate year-over-year growth. These long-standing barriers, combined with disengagement from past setbacks, contribute to uneven growth across student groups and make it difficult to close achievement gaps.

### School Processes & Programs

**Problem Statement 1:** Many students arrive at Bob E. Griggs High School with significant credit deficiencies and inconsistent attendance, making it difficult for them to stay on track academically. Many struggle to believe they can catch up and graduate, which impacts motivation and engagement. **Root Cause:** Credit deficiencies and inconsistent attendance often stem from a mismatch between the structures of traditional school settings and the unique academic, social, and personal needs of at-risk students. This mismatch contributes to disengagement, course failures, and patterns of absenteeism that accumulate over time.

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social and emotional needs of the student.

**Performance Objective 7:** Increase the percentage of graduates meeting College, Career, and Military Readiness indicators for the 2025 cohort by expanding access to industry-based certifications, college entrance exam opportunities, and the Texas College Bridge Program.

### Performance Objective 7 Problem Statements:

#### Student Learning

**Problem Statement 2:** Griggs High School's 2024 CCMR rate of 25% indicates that the majority of graduates are leaving without meeting state-defined readiness indicators. Too few students are earning qualifying scores on college entrance exams, completing dual credit, or obtaining industry-based certifications. This limits students' postsecondary options.

**Root Cause:** Students often have reduced access to college and career readiness opportunities due to accelerated or credit recovery pathways. Thus, time to prepare for or complete college entrance exams, dual credit coursework, or industry-based certifications is more limited. Additionally, students have not consistently engaged in readiness assessments or certification pathways.

**Goal 2:** The system will utilize efficient and effective operations to support and improve the learning organization.

**Performance Objective 1:** Increase the annual total average daily attendance (ADA) by 2% as compared to the prior school year, through improved student retention, recruitment, and days in attendance.

**High Priority**

**Evaluation Data Sources:** Daily attendance and graduation rate

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |  | Reviews   |     |     |           |

**Performance Objective 1 Problem Statements:**

| Demographics                                                                                                                                                                                                                                                                                                                                                                                                                                        |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> 96.43% of our students were at-risk in the previous year. <b>Root Cause:</b> Many students have experienced years of inconsistent academic success combined with long-term, compounding barriers related to economic disadvantage and personal circumstances. These factors contribute to academic gaps that grow over time, leading to disengagement and a diminished sense of confidence in their ability to succeed. |

### Student Learning

**Problem Statement 1:** Student growth and performance have declined, reflected in a drop in School Progress from 93 to 83 and in Closing the Gaps from 82 to 67. This indicates that many students are not demonstrating expected growth and that performance across student groups is not meeting state targets. **Root Cause:** Persistent academic gaps and a history of repeated EOC assessment failures hinder students' ability to demonstrate year-over-year growth. These long-standing barriers, combined with disengagement from past setbacks, contribute to uneven growth across student groups and make it difficult to close achievement gaps.

### School Processes & Programs

**Problem Statement 1:** Many students arrive at Bob E. Griggs High School with significant credit deficiencies and inconsistent attendance, making it difficult for them to stay on track academically. Many struggle to believe they can catch up and graduate, which impacts motivation and engagement. **Root Cause:** Credit deficiencies and inconsistent attendance often stem from a mismatch between the structures of traditional school settings and the unique academic, social, and personal needs of at-risk students. This mismatch contributes to disengagement, course failures, and patterns of absenteeism that accumulate over time.

### Perceptions

**Problem Statement 1:** While Bob E. Griggs High School has established a strong culture of care and support, sustaining consistent student engagement and connectedness remains a challenge. Some students arrive hesitant to accept school as a positive place to connect and engage, which impacts motivation and participation. **Root Cause:** A long history of academic failure at traditional campuses, combined with students' perceptions that their social, emotional, and academic needs were neglected and unsupported outside of school, has contributed to disengagement and negative views of school as a place to succeed.

**Goal 2:** The system will utilize efficient and effective operations to support and improve the learning organization.

**Performance Objective 2:** Administer a staff and student survey each quarter to gauge the effectiveness of campus operations to support both teachers and students.

**Evaluation Data Sources:** Meeting minutes, session notes and feedback, Use formal and informal staff meetings, (ie., PLC, LOL, PBIS, etc.)

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     | Reviews   |     |     |           |

| <b>Strategy 1:</b> Review perception data from students, staff, and parents to identify strategies to improve campus safety.<br><b>Actions:</b> Collect student, staff, and parent survey results each quarter with specific questions on safety and climate. Disaggregate survey data to identify trends and subgroup perspectives (e.g., grade level, staff role, parent group). Review results with the campus safety committee and leadership team to prioritize concerns. Develop and implement specific safety action items (e.g., hallway monitoring, arrival/dismissal procedures, emergency drill feedback). Communicate findings and planned improvements to staff, students, and parents through newsletters, announcements, and parent meetings. Reassess in the next survey cycle to monitor improvement and adjust safety strategies.<br><b>Staff Responsible for Monitoring:</b> Principal<br><br><b>TEA Priorities:</b><br>Recruit, support, retain teachers and principals, Build a foundation of reading and math, Connect high school to career and college<br><b>- ESF Levers:</b><br>Lever 1: Strong School Leadership and Planning, Lever 3: Positive School Culture<br><b>- Targeted Support Strategy</b><br><b>Problem Statements:</b> Demographics 1 - Perceptions 1 | Formative |     |     | Summative |

| <b>Problem Statement 1:</b> 96.43% of our students were at-risk in the previous year. <b>Root Cause:</b> Many students have experienced years of inconsistent academic success combined with long-term, compounding barriers related to economic disadvantage and personal circumstances. These factors contribute to academic gaps that grow over time, leading to disengagement and a diminished sense of confidence in their ability to succeed. |

## Perceptions

**Problem Statement 1:** While Bob E. Griggs High School has established a strong culture of care and support, sustaining consistent student engagement and connectedness remains a challenge. Some students arrive hesitant to accept school as a positive place to connect and engage, which impacts motivation and participation. **Root Cause:** A long history of academic failure at traditional campuses, combined with students' perceptions that their social, emotional, and academic needs were neglected and unsupported outside of school, has contributed to disengagement and negative views of school as a place to succeed.

**Goal 3:** All students and staff will learn and work in a safe and responsive environment.

**Performance Objective 2:** Staff, students and visitors will follow district protocols including IDs, the use of emergency software for drills, and the daily door audit checks (with 100% exterior proficiency).

**Evaluation Data Sources:** After action reports  
Weekly safety meetings  
Door audit data

| <b>Problem Statement 1:</b> 96.43% of our students were at-risk in the previous year. <b>Root Cause:</b> Many students have experienced years of inconsistent academic success combined with long-term, compounding barriers related to economic disadvantage and personal circumstances. These factors contribute to academic gaps that grow over time, leading to disengagement and a diminished sense of confidence in their ability to succeed.                                                                                                                                                                                                |
| Perceptions                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| <b>Problem Statement 1:</b> While Bob E. Griggs High School has established a strong culture of care and support, sustaining consistent student engagement and connectedness remains a challenge. Some students arrive hesitant to accept school as a positive place to connect and engage, which impacts motivation and participation. <b>Root Cause:</b> A long history of academic failure at traditional campuses, combined with students' perceptions that their social, emotional, and academic needs were neglected and unsupported outside of school, has contributed to disengagement and negative views of school as a place to succeed. |

**Goal 3:** All students and staff will learn and work in a safe and responsive environment.

**Performance Objective 3:** Increase student engagement and sense of belonging by implementing the House System so that 100% of students participate in House activities and earn points for academics, attendance, or positive behavior each quarter.

**Evaluation Data Sources:** House points tracking system  
House competition results  
House calendar of events

| Demographics                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> 96.43% of our students were at-risk in the previous year. <b>Root Cause:</b> Many students have experienced years of inconsistent academic success combined with long-term, compounding barriers related to economic disadvantage and personal circumstances. These factors contribute to academic gaps that grow over time, leading to disengagement and a diminished sense of confidence in their ability to succeed.                                                                                                                                                                                                                  |
| Student Learning                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| <b>Problem Statement 1:</b> Student growth and performance have declined, reflected in a drop in School Progress from 93 to 83 and in Closing the Gaps from 82 to 67. This indicates that many students are not demonstrating expected growth and that performance across student groups is not meeting state targets. <b>Root Cause:</b> Persistent academic gaps and a history of repeated EOC assessment failures hinder students' ability to demonstrate year-over-year growth. These long-standing barriers, combined with disengagement from past setbacks, contribute to uneven growth across student groups and make it difficult to close achievement gaps. |
| School Processes & Programs                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| <b>Problem Statement 1:</b> Many students arrive at Bob E. Griggs High School with significant credit deficiencies and inconsistent attendance, making it difficult for them to stay on track academically. Many struggle to believe they can catch up and graduate, which impacts motivation and engagement. <b>Root Cause:</b> Credit deficiencies and inconsistent attendance often stem from a mismatch between the structures of traditional school settings and the unique academic, social, and personal needs of at-risk students. This mismatch contributes to disengagement, course failures, and patterns of absenteeism that accumulate over time.       |

## Perceptions

**Problem Statement 1:** While Bob E. Griggs High School has established a strong culture of care and support, sustaining consistent student engagement and connectedness remains a challenge. Some students arrive hesitant to accept school as a positive place to connect and engage, which impacts motivation and participation. **Root Cause:** A long history of academic failure at traditional campuses, combined with students' perceptions that their social, emotional, and academic needs were neglected and unsupported outside of school, has contributed to disengagement and negative views of school as a place to succeed.

# Comprehensive Needs Assessment

## Demographics

### Demographics Summary

As of the 2024 - 2025 school year, Cheney Hills Elementary serves 696 students, with slightly more males (53.9%) than females (46.1%). The student population is predominantly Hispanic/Latino (76.6%), followed by White (9.5%), Black/African American (7.9%), Asian (1.6%), Native Hawaiian/Pacific Islander (0.9%), American Indian/Alaskan Native (0.1%), and students identifying as Two-or-More races (3.5%).

Nearly half of the students (49.7%) are identified as Emergent Bilingual (EB), with the majority participating in bilingual programs. Special Education services support 17.2% of students, while smaller groups participate in programs such as Gifted and Talented (3.5%) and Dyslexia services (2.3%).

The campus is a Title I schoolwide program, with a high proportion of students facing economic challenges—83.3% are identified as economically disadvantaged, with most qualifying for free meals (76%). In addition, 81% of students are considered at-risk, and over two-thirds (67.8%) are identified with intervention needs. About 9.3% of students are identified as immigrants, and a small number are military-connected (0.6%).

This diverse student body reflects a broad range of cultural, linguistic, and educational needs, with strong representation of bilingual learners and a significant portion of students requiring targeted academic and intervention support.

### Demographics Strengths

Cheney Hills Elementary, a state-of-the-art facility that began its journey in 2021, is home to nearly 700 students from the vibrant Richland Hills community. The school's diverse demographic, prominently featuring a strong Hispanic/Latino majority, creates a culturally rich and family-oriented atmosphere. This diversity is further enriched by the presence of nearly half of the student body identified as Emergent Bilinguals, which not only enhances the cultural tapestry of the school but also promotes a dynamic learning environment where multiple languages and perspectives are celebrated.

To address the varied needs of our student population, Cheney Hills Elementary offers a range of specialized programs. Our Special Education services are designed to provide tailored support to students with unique learning requirements, ensuring they receive the necessary resources to succeed. The Gifted and Talented program challenges and nurtures students who exhibit exceptional abilities, fostering their intellectual growth and creativity. Additionally, our Dyslexia services are dedicated to supporting students with reading difficulties, helping them overcome challenges and achieve literacy success. The school's Title I designation underscores our commitment to supporting students who face economic challenges, ensuring that all children have access to quality education and opportunities for success.

A significant strength of Cheney Hills Elementary is the increasing involvement of parents and the community. This active participation not only enhances the school's welcoming and supportive environment but also plays a crucial role in the academic and social success of our students. By fostering strong partnerships with families

and community members, we create a collaborative atmosphere where students are encouraged to thrive and reach their full potential.

### **Problem Statements Identifying Demographics Needs**

**Problem Statement 1 (Prioritized):** A large portion of students are identified as at-risk and economically disadvantaged, which creates challenges for ensuring equitable access to learning opportunities and consistent academic growth.

**Root Cause:** Many students enter school with limited early learning experiences and face barriers outside of school that impact readiness and sustained academic progress.

**Problem Statement 2 (Prioritized):** A significant number of students are Emergent Bilinguals, creating the need for ongoing support in both language acquisition and content mastery to ensure success across all subjects.

**Root Cause:** Instructional practices and supports for language development are not yet fully aligned or consistently implemented to meet the diverse needs of bilingual learners.

# Student Learning

## Student Learning Summary

In reviewing the STAAR performance for Spring 2025, we observe that our 3rd-grade students have shown a performance in math where 58.4% of students are at the Approaches level, 27.3% at the Meets level, and 7.8% at the Masters level. This indicates that while a majority of students are approaching grade-level expectations, there is a need to focus on strategies that will elevate more students to meet and master the standards. Similarly, in 3rd-grade reading, 57.1% of students are at the Approaches level, 26.0% at the Meets level, and 9.1% at the Masters level. This suggests a parallel need for targeted interventions to enhance reading comprehension and critical thinking skills.

For our 4th-grade students, the math results show that 48.1% are at the Approaches level, 29.1% at the Meets level, and 8.9% at the Masters level. This data highlights a significant opportunity to improve foundational math skills and problem-solving abilities. In reading, 70.0% of 4th graders are at the Approaches level, 30.0% at the Meets level, and 7.5% at the Masters level. The higher percentage of students approaching expectations in reading compared to math suggests that while reading strategies are somewhat effective, there is still room for growth in advancing students to higher levels of proficiency.

The 5th-grade math results are encouraging, with 61.6% of students at the Approaches level, 35.6% at the Meets level, and 12.3% at the Masters level. This indicates a relatively strong performance, yet there remains a need to push more students towards mastery. In reading, 59.7% of 5th graders are at the Approaches level, 31.9% at the Meets level, and 12.5% at the Masters level, reflecting a similar trend to math and underscoring the importance of continued emphasis on literacy skills. The science results for 5th grade show that 38.9% of students are at the Approaches level, 13.9% at the Meets level, and 8.3% at the Masters level. This data points to a critical need for enhanced science instruction and engagement to ensure students develop a deeper understanding of scientific concepts and inquiry skills.

## STAAR PERFORMANCE Spring 2025

### 3rd grade MATH

Approaches - 58.4%, Meets - 27.3%, Masters - 7.8%

### 3rd grade READING

Approaches - 57.1%, Meets - 26.0%, Masters - 9.1%

### 4th grade MATH

Approaches - 48.1%, Meets - 29.1%, Masters - 8.9%

### 4th grade READING

Approaches - 70.0%, Meets - 30.0%, Masters - 7.5%

### 5th grade MATH

Approaches - 61.6%, Meets - 35.6%, Masters - 12.3%

### **5th grade READING**

Approaches - 59.7%, Meets - 31.9%, Masters - 12.5%

### **5th grade SCIENCE**

Approaches - 38.9%, Meets - 13.9%, Masters - 8.3%

## **Student Learning Strengths**

While Cheney Hills Elementary is still working to reach full proficiency across all grade levels, the Spring 2025 STAAR data reflects several areas of strength. Across 3rd through 5th grades, a majority of students are performing at the Approaches grade-level standard in both math and reading, indicating that foundational skills are being developed effectively. Notably, 5th-grade students demonstrate relatively strong performance, with over 35% meeting grade-level expectations in math and reading and more than 12% achieving mastery in these subjects, showing that advanced learning opportunities are reaching some students successfully.

In reading, 4th-grade students show particularly strong engagement, with 70% performing at the Approaches level, suggesting that reading strategies and literacy instruction are having a positive impact. Across all grades, small percentages of students are already achieving at the Masters level, highlighting pockets of high-performing learners whose success can inform instructional strategies for the broader student population.

## **Problem Statements Identifying Student Learning Needs**

**Problem Statement 1 (Prioritized):** A significant portion of students in grades 3-5 are performing at the Approaches level in math and reading, with relatively few achieving Meets or Masters standards, indicating that many students are not yet demonstrating grade-level proficiency.

**Root Cause:** While foundational skills are developing, instruction is not consistently differentiated or targeted enough to move students from Approaches to higher levels of mastery.

# School Processes & Programs

## School Processes & Programs Summary

Cheney Hills Elementary is committed to providing extensive support systems for both students and staff. As a Title I campus, students benefit from a variety of intervention and enrichment opportunities, including the addition of Collaborative Support Teachers (CSTs) who deliver small group instruction and scaffolded Tier 1 support through both push-in and pull-out models. These supports are complemented by campus and district instructional coaches who guide professional learning and ensure teachers have the tools needed to meet diverse student needs.

Teachers engage in ongoing growth through Professional Learning Communities (PLCs), where they analyze data, share high-yield strategies, study relevant research, and collaborate on lesson planning. Professional learning is further reinforced through coaching cycles, T-TESS walkthroughs, and the support of three instructional facilitators who provide targeted feedback and model best practices. These processes foster a culture of continuous improvement and collaboration among staff.

The Leader in Me initiative, now in its third year, provides a unifying framework for building student leadership, life skills, and a high-trust school culture. Cheney Hills aspires to become a Lighthouse Campus, demonstrating a high level of Leader in Me implementation and serving as a model for other schools. This program, combined with strong instructional supports, reflects the campus's mission to cultivate student success academically, socially, and personally.

## School Processes & Programs Strengths

Cheney Hills Elementary demonstrates strong school processes and programs that directly support student success and staff growth. The addition of Collaborative Support Teachers (CSTs) enhances classroom instruction through small group and scaffolded Tier 1 support, while a robust bilingual program ensures that the needs of Emergent Bilingual students are met effectively. Instructional coaches, administrators, and district content coordinators work collaboratively to design and deliver a yearlong professional development plan, with ongoing learning embedded in Monday faculty meetings, weekly PLCs, and curriculum planning sessions. These structures provide teachers with timely feedback, opportunities for collaboration, and consistent alignment of instructional practices.

Student leadership and school culture are strengthened through Leader in Me, now in its third year, alongside opportunities for students to engage in Student Council and other leadership experiences. A Student Management System that emphasizes teacher responsibility supports positive behavior and accountability across the campus. Together, these systems create a culture of continuous improvement, shared leadership, and student-centered growth, positioning Cheney Hills Elementary for continued success.

## Problem Statements Identifying School Processes & Programs Needs

**Problem Statement 1 (Prioritized):** Problem Statement: The wide range of student needs, including bilingual learners and students requiring intervention, challenges teachers' ability to provide differentiated instruction with consistency.

**Root Cause:** While CSTs, bilingual supports, and professional development structures are strong, teachers are still refining how to integrate these supports into Tier 1 instruction effectively and consistently.

# Perceptions

## Perceptions Summary

As a school, we are committed to providing a safe and nurturing environment for our students, and it is heartening to know that over 88% of parents surveyed feel that their child is safe while at school. This reflects our ongoing efforts to maintain a secure atmosphere where students can focus on learning without concerns for their safety.

Effective communication between parents and teachers is crucial for student success, and it is encouraging to see that over 85% of parents feel they can communicate effectively with their child's teacher. This indicates that our efforts to maintain open lines of communication are successful, allowing for collaborative partnerships that benefit our students' educational experiences.

The fact that 94% of parents report their child likes coming to school is a testament to the positive and engaging atmosphere we strive to create. We believe that when students enjoy their time at school, they are more motivated to learn and participate actively in their education.

Our staff's commitment to being responsive and helpful is reflected in the over 95% of parents who report that their questions have been addressed by our team. This level of support is essential in building trust and ensuring that parents feel confident in the school's ability to meet their needs and those of their children.

## Perceptions Strengths

Cheney Hills Elementary benefits from strong perceptions of safety, communication, and staff responsiveness within its school community. Overwhelmingly, parents report that their children feel safe at school, which reflects the campus's commitment to providing a secure and nurturing learning environment. Families also feel well-connected, with more than 85% indicating that communication with teachers is effective and supportive of student success. Parent survey results highlight that students enjoy coming to school, creating a positive and engaging atmosphere that fosters motivation and participation. In addition, staff responsiveness is a noted strength, as parents consistently affirm that their questions and concerns are addressed in a timely and helpful manner. These positive perceptions underscore Cheney Hills's strong foundation of trust, collaboration, and student-centered culture.

## Problem Statements Identifying Perceptions Needs

**Problem Statement 1 (Prioritized):** Although most families report strong communication and responsiveness, not all parents feel fully connected or engaged in ongoing collaboration with the school.

**Root Cause:** The school's current engagement structures may not fully address the diverse needs and preferences of all families, making it difficult for some parents to feel included in meaningful collaboration.

# Priority Problem Statements

**Problem Statement 1:** Problem Statement: The wide range of student needs, including bilingual learners and students requiring intervention, challenges teachers' ability to provide differentiated instruction with consistency.

**Root Cause 1:** While CSTs, bilingual supports, and professional development structures are strong, teachers are still refining how to integrate these supports into Tier 1 instruction effectively and consistently.

**Problem Statement 1 Areas:** School Processes & Programs

**Problem Statement 2:** Although most families report strong communication and responsiveness, not all parents feel fully connected or engaged in ongoing collaboration with the school.

**Root Cause 2:** The school's current engagement structures may not fully address the diverse needs and preferences of all families, making it difficult for some parents to feel included in meaningful collaboration.

**Problem Statement 2 Areas:** Perceptions

**Problem Statement 3:** A significant portion of students in grades 3-5 are performing at the Approaches level in math and reading, with relatively few achieving Meets or Masters standards, indicating that many students are not yet demonstrating grade-level proficiency.

**Root Cause 3:** While foundational skills are developing, instruction is not consistently differentiated or targeted enough to move students from Approaches to higher levels of mastery.

**Problem Statement 3 Areas:** Student Learning

**Problem Statement 4:** A large portion of students are identified as at-risk and economically disadvantaged, which creates challenges for ensuring equitable access to learning opportunities and consistent academic growth.

**Root Cause 4:** Many students enter school with limited early learning experiences and face barriers outside of school that impact readiness and sustained academic progress.

**Problem Statement 4 Areas:** Demographics

**Problem Statement 5:** A significant number of students are Emergent Bilinguals, creating the need for ongoing support in both language acquisition and content mastery to ensure success across all subjects.

**Root Cause 5:** Instructional practices and supports for language development are not yet fully aligned or consistently implemented to meet the diverse needs of bilingual learners.

**Problem Statement 5 Areas:** Demographics

# Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

## **Improvement Planning Data**

- District goals
- Campus goals
- HB3 Reading and math goals for PreK-3
- HB3 CCMR goals
- Performance Objectives with summative review (prior year)
- Campus/District improvement plans (current and prior years)
- Planning and decision making committee(s) meeting data
- State and federal planning requirements

## **Accountability Data**

- Texas Academic Performance Report (TAPR) data
- Comprehensive, Targeted, and/or Additional Targeted Support Identification data

## **Student Data: Assessments**

- STAAR current and longitudinal results, including all versions
- Texas English Language Proficiency Assessment System (TELPAS) and TELPAS Alternate results
- Student failure and/or retention rates
- Local diagnostic reading assessment data
- Local benchmark or common assessments data
- Texas approved PreK - 2nd grade assessment data
- State-developed online interim assessments
- Grades that measure student performance based on the TEKS

## **Student Data: Student Groups**

- Race and ethnicity data, including number of students, academic achievement, discipline, attendance, and rates of progress between groups
- Male / Female performance, progress, and participation data
- Special education/non-special education population including discipline, progress and participation data
- At-risk/non-at-risk population including performance, progress, discipline, attendance, and mobility data
- Section 504 data
- Homeless data
- Gifted and talented data
- Dyslexia data
- Response to Intervention (RtI) student achievement data

## **Student Data: Behavior and Other Indicators**

- Attendance data
- Mobility rate, including longitudinal data

- Discipline records
- Student surveys and/or other feedback
- School safety data

**Employee Data**

- Staff surveys and/or other feedback
- Teacher/Student Ratio
- Professional development needs assessment data

**Parent/Community Data**

- Parent surveys and/or other feedback

# Goals

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 1:** All students will make at least one year's progress in reading and mathematics by the end of school year. a) Meet the progress monitoring targets in Prekindergarten - 3rd for each demographic group as measured by district approved screeners (BOY, MOY and EOY) to achieve the HB3 Board Goals. b) Improve performance in Domain 3 Closing the Gaps by making more than a year's growth in reading and mathematics which would in turn increase the number of students performing at the "meets" and "masters" level as measured by the spring 2026 STAAR and EOC assessments. This will also increase Domain 1 Student Achievement which counts the number of students at the various performance levels for state assessments

**High Priority**

**HB3 Goal**

**Evaluation Data Sources:** CLI Engage - CIRCLE (prekindergarten reading and math), mCLASS (kindergarten reading and math), mCLASS (grades 1-2 reading), and Renaissance STAR Assessments (reading, grades 3-5 and mathematics, grades 1-5)

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             | Reviews   |     |     |           |

## Performance Objective 1 Problem Statements:

| Demographics                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> A large portion of students are identified as at-risk and economically disadvantaged, which creates challenges for ensuring equitable access to learning opportunities and consistent academic growth. <b>Root Cause:</b> Many students enter school with limited early learning experiences and face barriers outside of school that impact readiness and sustained academic progress.                                                             |
| <b>Problem Statement 2:</b> A significant number of students are Emergent Bilinguals, creating the need for ongoing support in both language acquisition and content mastery to ensure success across all subjects. <b>Root Cause:</b> Instructional practices and supports for language development are not yet fully aligned or consistently implemented to meet the diverse needs of bilingual learners.                                                                     |
| Student Learning                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| <b>Problem Statement 1:</b> A significant portion of students in grades 3-5 are performing at the Approaches level in math and reading, with relatively few achieving Meets or Masters standards, indicating that many students are not yet demonstrating grade-level proficiency. <b>Root Cause:</b> While foundational skills are developing, instruction is not consistently differentiated or targeted enough to move students from Approaches to higher levels of mastery. |
| School Processes & Programs                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| <b>Problem Statement 1:</b> Problem Statement: The wide range of student needs, including bilingual learners and students requiring intervention, challenges teachers' ability to provide differentiated instruction with consistency. <b>Root Cause:</b> While CSTs, bilingual supports, and professional development structures are strong, teachers are still refining how to integrate these supports into Tier 1 instruction effectively and consistently.                 |
| Perceptions                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| <b>Problem Statement 1:</b> Although most families report strong communication and responsiveness, not all parents feel fully connected or engaged in ongoing collaboration with the school. <b>Root Cause:</b> The school's current engagement structures may not fully address the diverse needs and preferences of all families, making it difficult for some parents to feel included in meaningful collaboration.                                                          |

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 2:** Close achievement gaps that exist for all under-performing student groups as measured by state and district assessments. Meet all progress monitoring targets for grades prekindergarten - 3rd in reading and mathematics for identified student groups as measured by a district-approved monitoring instrument.

- A) Hispanic, White, Eco Dis, and Continuously Enrolled subgroups will meet the 2026 Performance Measure goal for Student Achievement and Academic Growth.
- B) English Learners will meet the Composite "Advanced High" target of 42% by the end of the 2025 - 2026 school year.

**High Priority**

**HB3 Goal**

**Evaluation Data Sources:** STAAR, STAR

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  | Reviews   |     |     |           |

### Performance Objective 2 Problem Statements:

| Demographics                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> A large portion of students are identified as at-risk and economically disadvantaged, which creates challenges for ensuring equitable access to learning opportunities and consistent academic growth. <b>Root Cause:</b> Many students enter school with limited early learning experiences and face barriers outside of school that impact readiness and sustained academic progress.                                                             |
| <b>Problem Statement 2:</b> A significant number of students are Emergent Bilinguals, creating the need for ongoing support in both language acquisition and content mastery to ensure success across all subjects. <b>Root Cause:</b> Instructional practices and supports for language development are not yet fully aligned or consistently implemented to meet the diverse needs of bilingual learners.                                                                     |
| Student Learning                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| <b>Problem Statement 1:</b> A significant portion of students in grades 3-5 are performing at the Approaches level in math and reading, with relatively few achieving Meets or Masters standards, indicating that many students are not yet demonstrating grade-level proficiency. <b>Root Cause:</b> While foundational skills are developing, instruction is not consistently differentiated or targeted enough to move students from Approaches to higher levels of mastery. |

**School Processes & Programs**

**Problem Statement 1:** Problem Statement: The wide range of student needs, including bilingual learners and students requiring intervention, challenges teachers' ability to provide differentiated instruction with consistency. **Root Cause:** While CSTs, bilingual supports, and professional development structures are strong, teachers are still refining how to integrate these supports into Tier 1 instruction effectively and consistently.

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 3:** All students in grades pre kindergarten - third grade will meet the progress monitoring targets for each demographic group in order to achieve the HB3 Board Goals in reading and math.

- A) Hispanic, White, Eco Dis, and Continuously Enrolled subgroups will meet the 2026 Performance Measure goal for Student Achievement and Academic Growth.
- B) English Learners will meet the Composite "Advanced High" target of 42% by the end of the 2025 - 2026 school year.

**High Priority**

**HB3 Goal**

**Evaluation Data Sources:** STAAR, CLI, TELPAS

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  | Reviews   |     |     |           |

**Performance Objective 3 Problem Statements:**

### Demographics

**Problem Statement 1:** A large portion of students are identified as at-risk and economically disadvantaged, which creates challenges for ensuring equitable access to learning opportunities and consistent academic growth. **Root Cause:** Many students enter school with limited early learning experiences and face barriers outside of school that impact readiness and sustained academic progress.

**Problem Statement 2:** A significant number of students are Emergent Bilinguals, creating the need for ongoing support in both language acquisition and content mastery to ensure success across all subjects. **Root Cause:** Instructional practices and supports for language development are not yet fully aligned or consistently implemented to meet the diverse needs of bilingual learners.

### Student Learning

**Problem Statement 1:** A significant portion of students in grades 3-5 are performing at the Approaches level in math and reading, with relatively few achieving Meets or Masters standards, indicating that many students are not yet demonstrating grade-level proficiency. **Root Cause:** While foundational skills are developing, instruction is not consistently differentiated or targeted enough to move students from Approaches to higher levels of mastery.

### School Processes & Programs

**Problem Statement 1:** Problem Statement: The wide range of student needs, including bilingual learners and students requiring intervention, challenges teachers' ability to provide differentiated instruction with consistency. **Root Cause:** While CSTs, bilingual supports, and professional development structures are strong, teachers are still refining how to integrate these supports into Tier 1 instruction effectively and consistently.

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 4:** By May 2026 (Wave 3-EOY), 90% of PK students will reach On Target on CLI Engage/CIRCLE in the areas of Phonological Awareness, Letter-Sound Correspondence, and Early Writing.

**High Priority**  
**HB3 Goal**  
**Evaluation Data Sources:** CLI Engage

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        | Reviews   |     |     |           |

| Demographics                                                                                                                                                                                                                                                                                                                                                                                                        |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> A large portion of students are identified as at-risk and economically disadvantaged, which creates challenges for ensuring equitable access to learning opportunities and consistent academic growth. <b>Root Cause:</b> Many students enter school with limited early learning experiences and face barriers outside of school that impact readiness and sustained academic progress. |
| <b>Problem Statement 2:</b> A significant number of students are Emergent Bilinguals, creating the need for ongoing support in both language acquisition and content mastery to ensure success across all subjects. <b>Root Cause:</b> Instructional practices and supports for language development are not yet fully aligned or consistently implemented to meet the diverse needs of bilingual learners.         |

School Processes & Programs

**Problem Statement 1:** Problem Statement: The wide range of student needs, including bilingual learners and students requiring intervention, challenges teachers' ability to provide differentiated instruction with consistency. **Root Cause:** While CSTs, bilingual supports, and professional development structures are strong, teachers are still refining how to integrate these supports into Tier 1 instruction effectively and consistently.

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 5:** By May 2026 (EOY), 80% of KG-2nd grade students will be "on grade level" as measured by mCLASS.

**High Priority**  
**HB3 Goal**  
**Evaluation Data Sources:** mCLASS

| <b>Problem Statement 1:</b> A large portion of students are identified as at-risk and economically disadvantaged, which creates challenges for ensuring equitable access to learning opportunities and consistent academic growth. <b>Root Cause:</b> Many students enter school with limited early learning experiences and face barriers outside of school that impact readiness and sustained academic progress. |
| <b>Problem Statement 2:</b> A significant number of students are Emergent Bilinguals, creating the need for ongoing support in both language acquisition and content mastery to ensure success across all subjects. <b>Root Cause:</b> Instructional practices and supports for language development are not yet fully aligned or consistently implemented to meet the diverse needs of bilingual learners.         |

### Student Learning

**Problem Statement 1:** A significant portion of students in grades 3-5 are performing at the Approaches level in math and reading, with relatively few achieving Meets or Masters standards, indicating that many students are not yet demonstrating grade-level proficiency. **Root Cause:** While foundational skills are developing, instruction is not consistently differentiated or targeted enough to move students from Approaches to higher levels of mastery.

### School Processes & Programs

**Problem Statement 1:** Problem Statement: The wide range of student needs, including bilingual learners and students requiring intervention, challenges teachers' ability to provide differentiated instruction with consistency. **Root Cause:** While CSTs, bilingual supports, and professional development structures are strong, teachers are still refining how to integrate these supports into Tier 1 instruction effectively and consistently.

**Goal 2:** The system will utilize efficient and effective operations to support and improve the learning organization.

**Performance Objective 1:** By May 2026, the campus attendance rate will average 96% or higher.

**High Priority**

**Evaluation Data Sources:** PEIMS Attendance records

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |  | Reviews   |     |     |           |

**Performance Objective 1 Problem Statements:**

| Demographics                                                                                                                                                                                                                                                                                                                                                                                                        |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> A large portion of students are identified as at-risk and economically disadvantaged, which creates challenges for ensuring equitable access to learning opportunities and consistent academic growth. <b>Root Cause:</b> Many students enter school with limited early learning experiences and face barriers outside of school that impact readiness and sustained academic progress. |
| <b>Problem Statement 2:</b> A significant number of students are Emergent Bilinguals, creating the need for ongoing support in both language acquisition and content mastery to ensure success across all subjects. <b>Root Cause:</b> Instructional practices and supports for language development are not yet fully aligned or consistently implemented to meet the diverse needs of bilingual learners.         |

### Student Learning

**Problem Statement 1:** A significant portion of students in grades 3-5 are performing at the Approaches level in math and reading, with relatively few achieving Meets or Masters standards, indicating that many students are not yet demonstrating grade-level proficiency. **Root Cause:** While foundational skills are developing, instruction is not consistently differentiated or targeted enough to move students from Approaches to higher levels of mastery.

### School Processes & Programs

**Problem Statement 1:** Problem Statement: The wide range of student needs, including bilingual learners and students requiring intervention, challenges teachers' ability to provide differentiated instruction with consistency. **Root Cause:** While CSTs, bilingual supports, and professional development structures are strong, teachers are still refining how to integrate these supports into Tier 1 instruction effectively and consistently.

### Perceptions

**Problem Statement 1:** Although most families report strong communication and responsiveness, not all parents feel fully connected or engaged in ongoing collaboration with the school. **Root Cause:** The school's current engagement structures may not fully address the diverse needs and preferences of all families, making it difficult for some parents to feel included in meaningful collaboration.

**Goal 2:** The system will utilize efficient and effective operations to support and improve the learning organization.

**Performance Objective 2:** During the 2025-2026 school year, the campus will hold a minimum of four family engagement nights.

**Evaluation Data Sources:** Schedule  
Agenda

**Performance Objective 3 Problem Statements:**

| School Processes & Programs                                                                                                                                                                                                                                                                                                                                                                                                                                     |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> Problem Statement: The wide range of student needs, including bilingual learners and students requiring intervention, challenges teachers' ability to provide differentiated instruction with consistency. <b>Root Cause:</b> While CSTs, bilingual supports, and professional development structures are strong, teachers are still refining how to integrate these supports into Tier 1 instruction effectively and consistently. |
| Perceptions                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| <b>Problem Statement 1:</b> Although most families report strong communication and responsiveness, not all parents feel fully connected or engaged in ongoing collaboration with the school. <b>Root Cause:</b> The school's current engagement structures may not fully address the diverse needs and preferences of all families, making it difficult for some parents to feel included in meaningful collaboration.                                          |

**Goal 2:** The system will utilize efficient and effective operations to support and improve the learning organization.

**Performance Objective 4:** During the 2025 - 2026 school year, Cheney Hills will continue implementing Leader in Me.

| American Indian/ Alaskan Native | 1          |

### Demographics Strengths

By using a weighted lottery process, the CAB is able to select students whose demographics match that of the district and meet the requirements for our Early College High School Distinguished status.

100 percent of our teachers returned for the 2025-2026 school year.

100 percent of seniors graduated from high school in 2025. 38 students also earned their Associate's Degree.

## **Problem Statements Identifying Demographics Needs**

**Problem Statement 1 (Prioritized):** Applications decreased this year, and we did not start with 60 freshmen.

**Root Cause:** Many students do not want to give up the Fine Arts and Athletics at the comprehensive high schools.

# Student Learning

## Student Learning Summary

The Collegiate Academy is rated using Outcomes-Based Measures (OBMs), which include attainment and achievement metrics.

Attainment OBMs assess whether students are meeting benchmarks to earn their Associate Degree within four years. This includes having 91 percent of sophomores earn nine college credit hours by the end of the year (with a target for distinction at 50 percent), 98 percent of graduates achieving at least 15 college credit hours (with a target for distinction at 80 percent), and 75 percent of students obtaining a postsecondary degree by high school graduation (with a target for distinction at 50 percent). Additionally, CAB had 100 percent of seniors graduate from high school in four years, and 100 percent of graduates were accepted into a four-year institution.

Achievement OBMs evaluate whether students are prepared for college, career, or military service. Our students also met distinction status on all Achievement OBMs.

In addition to the OBM achievements from last year, our seniors were offered over \$2.5 million in scholarships.

2025 STAAR Results. An additional 26 students passed Algebra EOC in middle school, bring the total passing rate to 85%.

|            | Did Not Meet | Approaches | Meets | Masters |
|------------|--------------|------------|-------|---------|
| Algebra 1  | 26%          | 74%        | 16%   | 8%      |
| Biology    | 5%           | 95%        | 81%   | 30%     |
| English I  | 14%          | 86%        | 75%   | 14%     |
| English II | 3%           | 97%        | 87%   | 7%      |
| US History | 5%           | 95%        | 91%   | 61%     |

## Student Learning Strengths

The CAB had 91 percent of sophomores earning nine college hours by the end of the year (the target for distinction is 50 percent)  
98 percent of graduates earning at least 15 college hours (target for distinction is 80 percent)  
75 percent of students earned a postsecondary degree by high school graduation (the target for distinction is 50 percent).  
CAB also had 100 percent of seniors graduating high school in four years and 100 percent of graduates have been accepted into a four-year institution.  
CAB had 93 percent of graduates who passed both Math and Reading TSI, earning CCMR points for each of these students.  
CAB Students scored above district and state average on all EOC exams.

### **Problem Statements Identifying Student Learning Needs**

**Problem Statement 1 (Prioritized):** Some students arrive at CAB with deficits in basic math understanding.

**Root Cause:** Deficits could be gaps in foundational instruction, inconsistent curricula, variability in teaching quality, limited access to resources, or socioeconomic challenges.

**Problem Statement 2 (Prioritized):** Some students arrive at CAB with deficits in writing ability and reading comprehension skills.

**Root Cause:** Deficits in writing ability and reading comprehension could be insufficient or inconsistent instruction in these areas at their previous schools. This might be due to varying curricula, differences in teacher effectiveness, or limited access to literacy resources and support.

# School Processes & Programs

## School Processes & Programs Summary

CAB is an Early College High School (ECHS) located on the Tarrant County College Northeast Campus. Our goal is to have all our graduates complete an Associate Degree at TCC while completing their high school graduation requirements.

An ECHS is rated using Outcomes Based Measures (OBMs). Our program is in its seventh year and is a Designated ECHS. There are three categories for OBMs: Access Measures, Attainment Measures, and Achievement Measures.

Students in the CAB are scheduled into blocked classes.

Students take AVID for all four years of high school.

Students are provided accelerated instruction and remediation in both classes and to prepare for assessments, such as TSI.

## School Processes & Programs Strengths

CAB has consistently met the goals for Access each year by implementing a weighted lottery. We have exceeded our yearly target for at-risk, economically disadvantaged, emergent bilingual students, and students with disabilities.

Attainment OBMs measure whether students are hitting benchmarks to lead them to reach their Associate Degree in four years. To earn distinction, 85 percent of students who enter the program must remain enrolled. Highlights include 90 percent of sophomores earning nine college hours by the end of the year, 98 percent of graduates earning at least 15 college hours (target for distinction is 80 percent), and 75 percent of students earn a postsecondary degree by high school graduation (target for distinction is 50 percent).

Achievement OBMs measure whether students are emerging from the program ready for college, career, or military. To earn the distinction, 80 percent of students must pass the Texas Success Initiative Assessment 2.0 (TSIA2) Reading and Writing, and 75 percent must pass the TSIA2 in Math. The CAB had 93 percent of graduates who passed both, earning CCMR points for each of these students.

## Problem Statements Identifying School Processes & Programs Needs

**Problem Statement 1 (Prioritized):** Our building is a shared space with TCC which alters safety protocols.

**Root Cause:** We do not have the ability to lock all exterior doors or keep non-CAB students out of the building.

# Perceptions

## Perceptions Summary

CAB is dedicated to academic excellence, offering a rigorous and challenging curriculum designed to prepare all students for future success. Our strong collaboration with Tarrant County College (TCC) enhances this commitment by providing students with diverse pathways to earn their Associate's Degree through well-established crosswalk programs. This partnership not only broadens educational opportunities but also ensures that students are well-prepared for higher education.

## Perceptions Strengths

The culture at CAB is firmly centered on academic achievement, a focus that is reflected in the impressive number of students earning college credits. This commitment to academics is further supported by a low rate of disciplinary referrals and high student attendance, indicating a positive and productive learning environment. Additionally, CAB boasts an exceptional retention rate among its faculty, with 100% of teachers choosing to return for another year. This continuity in staff underscores the school's dedication to maintaining a stable and effective educational atmosphere.

## Problem Statements Identifying Perceptions Needs

**Problem Statement 1 (Prioritized):** Students lack opportunities to build connections with one another outside of classes.

**Root Cause:** Students do not participate in extracurricular activities.

# Priority Problem Statements

**Problem Statement 1:** Some students arrive at CAB with deficits in writing ability and reading comprehension skills.

**Root Cause 1:** Deficits in writing ability and reading comprehension could be insufficient or inconsistent instruction in these areas at their previous schools. This might be due to varying curricula, differences in teacher effectiveness, or limited access to literacy resources and support.

**Problem Statement 1 Areas:** Student Learning

**Problem Statement 2:** Some students arrive at CAB with deficits in basic math understanding.

**Root Cause 2:** Deficits could be gaps in foundational instruction, inconsistent curricula, variability in teaching quality, limited access to resources, or socioeconomic challenges.

**Problem Statement 2 Areas:** Student Learning

**Problem Statement 3:** Applications decreased this year, and we did not start with 60 freshmen.

**Root Cause 3:** Many students do not want to give up the Fine Arts and Athletics at the comprehensive high schools.

**Problem Statement 3 Areas:** Demographics

**Problem Statement 4:** Students lack opportunities to build connections with one another outside of classes.

**Root Cause 4:** Students do not participate in extracurricular activities.

**Problem Statement 4 Areas:** Perceptions

**Problem Statement 5:** Our building is a shared space with TCC which alters safety protocols.

**Root Cause 5:** We do not have the ability to lock all exterior doors or keep non-CAB students out of the building.

**Problem Statement 5 Areas:** School Processes & Programs

# Goals

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 1:** All students will make at least one year's progress in reading and mathematics by the end of the school year. Improve performance in Domain 3 Closing the Gaps by making more than a year's growth in reading and mathematics which would, in turn, increase the number of students performing at the "meets" and "masters" level as measured by the spring 2026 STAAR and EOC assessments. This will also increase Domain 1 Student Achievement which counts the number of students at the various performance levels for state assessments.

**Evaluation Data Sources:** STAAR EOC testing data  
Individual student data monitoring forms

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                | Reviews   |     |     |           |

### Performance Objective 1 Problem Statements:

### Demographics

**Problem Statement 1:** Applications decreased this year, and we did not start with 60 freshmen. **Root Cause:** Many students do not want to give up the Fine Arts and Athletics at the comprehensive high schools.

### Student Learning

**Problem Statement 1:** Some students arrive at CAB with deficits in basic math understanding. **Root Cause:** Deficits could be gaps in foundational instruction, inconsistent curricula, variability in teaching quality, limited access to resources, or socioeconomic challenges.

**Problem Statement 2:** Some students arrive at CAB with deficits in writing ability and reading comprehension skills. **Root Cause:** Deficits in writing ability and reading comprehension could be insufficient or inconsistent instruction in these areas at their previous schools. This might be due to varying curricula, differences in teacher effectiveness, or limited access to literacy resources and support.

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 2:** Students will display an awareness of social-emotional development as measured by a district-administered student survey.

**Performance Objective 2 Problem Statements:**

| Perceptions                                                                                                                                                                                     |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> Students lack opportunities to build connections with one another outside of classes. <b>Root Cause:</b> Students do not participate in extracurricular activities. |

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 3:** Reduce the number of students assigned to behavioral MTSS Tiers 2 and 3 who end up in a disciplinary placement.

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      | Reviews   |     |     |           |

**Performance Objective 3 Problem Statements:**

| Perceptions                                                                                                                                                                                     |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> Students lack opportunities to build connections with one another outside of classes. <b>Root Cause:</b> Students do not participate in extracurricular activities. |

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 4:** Increase the number of students meeting college, career, and military readiness (CCMR) requirements in grades 9-12 through establishing yearly progress monitoring targets in alignment with the new state standards. This will, in turn, increase the percent of students meeting CCMR requirements which will impact all domains for high school accountability.

a) All freshmen will pass the Texas Success Initiative Assessment 2 (TSIA2) Reading and Writing exam by the end of freshman year.

b) All juniors will pass the TSIA2 Math exam by the end of their junior year, and 60% of sophomores will pass by the end of their sophomore year.

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         | Reviews   |     |     |           |

#### Performance Objective 4 Problem Statements:

| Student Learning                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p><b>Problem Statement 1:</b> Some students arrive at CAB with deficits in basic math understanding. <b>Root Cause:</b> Deficits could be gaps in foundational instruction, inconsistent curricula, variability in teaching quality, limited access to resources, or socioeconomic challenges.</p> <p><b>Problem Statement 2:</b> Some students arrive at CAB with deficits in writing ability and reading comprehension skills. <b>Root Cause:</b> Deficits in writing ability and reading comprehension could be insufficient or inconsistent instruction in these areas at their previous schools. This might be due to varying curricula, differences in teacher effectiveness, or limited access to literacy resources and support.</p> |

**Goal 2:** Utilize efficient and effective operations to support and improve the learning organization.

**Performance Objective 1:** Increase the annual total average daily attendance (ADA) by 1% as compared to the prior school year, through improved monitoring and counseling for issues of student retention, recruitment, and days in attendance.

**High Priority**  
**Evaluation Data Sources:** daily/weekly/six week attendance; TCC attendance report

**Performance Objective 1 Problem Statements:**

| Demographics                                                                                                                                                                                                                |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> Applications decreased this year, and we did not start with 60 freshmen. <b>Root Cause:</b> Many students do not want to give up the Fine Arts and Athletics at the comprehensive high schools. |

**Goal 2:** Utilize efficient and effective operations to support and improve the learning organization.

**Performance Objective 2:** Collaborate with TCC and BISD leadership to implement all elements required by the ECHS Blueprint.

**Evaluation Data Sources:** Meeting notes

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       | Reviews   |     |     |           |

**Performance Objective 2 Problem Statements:**

| Demographics                                                                                                                                                                                                                |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> Applications decreased this year, and we did not start with 60 freshmen. <b>Root Cause:</b> Many students do not want to give up the Fine Arts and Athletics at the comprehensive high schools. |

**Goal 3:** All students and staff will learn and work in a safe and responsive environment.

**Performance Objective 1:** Attain a 10% annual increase in participation on a school safety survey that is administered to students, staff, and parents.

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     | Reviews   |     |     |           |

# **Birdville Independent School District**

## **DAEP**

### **2025-2026 Department Plan**

# Mission Statement

*The District Alternative Education Program (DAEP) seeks to meet the needs of students from all campuses of the Birdville Independent School District. Our mission therefore reflects the Birdville Independent School District's mission, which is to ensure that all students position themselves to excel with integrity in an ever-changing global society through innovative and responsive learning environments.*

## Vision

*Our vision at DAEP is to provide an alternative setting that utilizes best practices to reduce recidivism, holding students behaviorally and academically accountable, while encouraging personal growth and improved social skills through Character Education.*

## Value Statement

*As members of the DAEP campus,*

- 1. We will not give up on any student*
- 2. We will treat all people with dignity and respect*
- 3. We will model and expect personal responsibility*
- 4. We will make decisions in the best interest of students*
- 5. We will practice responsible stewardship of our resources*
- 6. We will not compromise our commitment to excellence*

# Comprehensive Needs Assessment

Revised/Approved: July 10, 2025

## Demographics

### Demographics Summary

The DAEP campus does not offer a graduation. 90% of students meet their review and are returned to their home campus after serving at least 50% of their assignment. Demographic Breakdown: 39% Hispanic, 25% White, 17% Black/African American, 2% Asian, 16% LEP, 11% 504, 10% SPED, 1% GT. Elementary teacher to student average is 1:3, secondary teacher/student ratio meets states requirement of 1:15 but DAEP average a ratio of 1:10. Five of the eight certified teachers have served on the campus for five or more years. New hires in the past two years have multiple years experience in Texas public education settings. One Educational aide has significant college credit hours, and is working on completing a teacher certification program.

### Demographics Strengths

During the hiring process it is imperative to the campus that we hire certified teachers, and the campus currently have at least one certified teacher for each core subject.

Six members of the faculty and staff are bilingual.

Five of the faculty and staff have been with the DAEP campus for three or more years, with three of them having served five or more years at DAEP

### Problem Statements Identifying Demographics Needs

**Problem Statement 1:** While the DAEP demographics mirror the district's in a number of categories, the distinction in rates for African American students, 504 and SPED students is a concern.

**Root Cause:** The root cause for the number of 504 and SPED students placed at DAEP may be a result of a lack of training and understanding the manifestation of a students disability. Racial biases may play a role in the number of AA students placed at DAEP, however it cannot serve as the predominate or soul cause. There are other mitigating factors that affect placement.

**Problem Statement 2 (Prioritized):** Educational Aides are called upon to work with SPED students and some students that have the propensity for aggression. Educational Aides are essential members to the DAEP campus and are difficult to recruit and retain.

**Root Cause:** The DAEP Educational Aides are not paid at the highest EA rate.

# Student Learning

## Student Learning Summary

DAEP is not rated by TEA. All state/local assessments that may be given while a student is enrolled at DAEP are combined with the home campus data.

## Student Learning Strengths

Academic Binders are improving students organizational skills

Students are taking ownership of their academics as learning improves

## Problem Statements Identifying Student Learning Needs

**Problem Statement 1 (Prioritized):** The DAEP campus utilizes the Edgenuity Curriculum when home campus teachers elect to utilize it rather than Canvas. Edgenuity curriculum does not reflect the specialized instruction classroom teachers provide students, and must be customized to reflect the instruction that is given in the home campus classrooms. Students struggle academically with this program.

**Root Cause:** Teachers are not familiar enough with the Edgenuity program to make the needed customizations. The program does not offer accommodations for SPED students that are needed for some of the core subjects

**Problem Statement 2 (Prioritized):** Ensuring the sustainability of academic and behavioral standards presents a challenge as students transition back to their home campus after a period of alternative education placement. This transition period often reveals gaps in maintaining consistent educational progress and behavioral expectations, which can impact the student's ability to reintegrate successfully and meet established standard

**Root Cause:** While students learn the needed skills, without the DAEP structure students struggle to maintain their improved behavior and academic expectations once back at their home campus

**Problem Statement 3 (Prioritized):** In addition to well qualified teachers, it is imperative, when possible, to maintain a diversified (gender/racially) faculty and staff to reflect the cultural and diverse student body

**Root Cause:** "Teacher recruitment and retention is an ongoing issue, and unfortunately there is a misconception of the DAEP campus environment and the population we serve.

**Problem Statement 4 (Prioritized):** Educational Aides are called upon to work with SPED students and some students that have the propensity for aggression. Educational Aides are essential members to the DAEP campus and are difficult to recruit and retain.

**Root Cause:** The DAEP Educational Aides are not paid at the highest EA rate.

# School Processes & Programs

## School Processes & Programs Summary

The DAEP faculty maintains the districts scope and sequence. In an effort to aide students with a successful transition to and from their home campus, communication with home campus teachers is a focus of the DAEP campus. Home campus teachers receive communication from DAEP teachers upon placement, providing the home campus teacher with the opportunity to elect to have students work in Edgenuity or Canvas.

The DAEP administrator completes an intake process with each student and a parent prior to starting on our campus. The campus structures, procedures, and expectations are clearly communicated during the intake meeting. Upon entry into the classroom, all students receive additional explanations of structures and procedures.

The DAEP faculty and staff rotate, while students remain stationary in one classroom throughout the day. This provide for students to receive instructional support from core teachers when accessing their core subject assignments. This also aides in maintaining a safe and secure environment.

Daily Character Education classes are taught, under the guidance of the campus SE Counselor. Two days of the week the focus is on the district's initiative Character Strong. One day a week, students participate in a ROPES course that teaches team building traits and communication skills.

The campus utilizes a points system that affects dismissal from the campus. The Behavior Management System is computerized providing immediate access for all faculty and staff, home campus designees and DAEP students. The BMS is used to record students behaviors throughout the day. Negative behaviors result in students losing points, and losing points add up to additional days at DAEP. The BMS provide students the opportunity to monitor their behaviors and make adjustments where needed. The administrator is able to see when immediate interventions are needed.

DAEP students are required to maintain an Academic Binder. The binders consist of grade data form, notes for each core subject, assignment submission page for each course, Character Ed reflection page, and a grade tracker page for each course (Canvas/Edgenuity)

Drug/Alcohol focused sessions with Recovery Resource and Narcotics Anonymous. With parent permission, middle school students participate in weekly discussions with drug/alcohol trained counselors through Recovery Resource. High school students, with parent permission, participate in a biweekly sessions with clients from Narcotics Anonymous. The programs are under the guidance of the campus SE Counselor.

## School Processes & Programs Strengths

Students academics improve while at DAEP

Processes hold students accountable academically and behaviorally

Students receive strategies for solving conflicts and decision making, team building and communication skills through Character Education/ROPES course.

Communication between home campuses and DAEP are improved.

## Problem Statements Identifying School Processes & Programs Needs

**Problem Statement 1 (Prioritized):** Educational Aides are called upon to work with SPED students and some students that have the propensity for aggression. Educational Aides are essential members to the DAEP campus and are difficult to recruit and retain.

**Root Cause:** The DAEP Educational Aides are not paid at the highest EA rate.

**Problem Statement 2:** There is an increasing need to support the emotional well being and mental health of all students. The campus does a good job through the use of one SE counselor, but a plan must be developed that encompasses parental support and training, and one that transitions back to home campuses.

**Root Cause:** Some students come to school with learned behaviors and other triggers and often there is a lack/delay in identifying high need students.

**Problem Statement 3 (Prioritized):** The DAEP campus utilizes the Edgenuity Curriculum when home campus teachers elect to utilize it rather than Canvas. Edgenuity curriculum does not reflect the specialized instruction classroom teachers provide students, and must be customized to reflect the instruction that is given in the home campus classrooms. Students struggle academically with this program.

**Root Cause:** Teachers are not familiar enough with the Edgenuity program to make the needed customizations. The program does not offer accommodations for SPED students that are needed for some of the core subjects

**Problem Statement 4:** There is a need for training for parents seeking solutions for improving the overall emotional and mental health of their children and to reduce their use / dependency on drugs. The age/grade level at which students are placed at DAEP for drug related infractions are increasing at the elementary level.

**Root Cause:** The lack of involvement from parents creates a lack of student engagement in all areas at campuses, and lends to students making poor choices. Preventive measures regarding drug/alcohol use on home campuses are limited and/or nonexistence. A program that require parental involvement offering support for both students and parents is recommended as students transition back to their home campus.

**Problem Statement 5 (Prioritized):** To assist in maintaining a safe learning environment additional support for the emotional well being and mental health of students must be provided at the DAEP campus, with a successful transition plan implemented as students return to their home campus. Throughout the district de-escalation strategies and improved threat assessment skills need to be developed.

**Root Cause:** Some students come to school with learned behaviors and other triggers. Training in identifying high need students do not exist for all faculty and staff.

# Perceptions

## Perceptions Summary

Structured planning has resulted in a safe learning environment, with 0% altercations between students since the 2020-2021 school year.

Results from the 2021-2022 and the 2022-2023 DAEP Student Exit Surveys indicate Character Education coursework has been effective.. 66%/70% feel they have better control of their emotions, 81%/85% report they are better equipped to set and achieve goals.

Communication between home campus teachers and the DAEP faculty and staff have improved.

## Perceptions Strengths

The creation of an Instructional Coach for DAEP has resulted in training for home campus teachers as well as DAEP instructors that specifically addresses scope and sequence when utilizing Edgenuity as well as communicating assignment needs for DAEP students.

Rotating teachers ensures core subject teachers are present when students are working on core subject assignments from their home campus.

Preventive planning has provided for a safe and secure environment for faculty, staff and students.

## Problem Statements Identifying Perceptions Needs

**Problem Statement 1:** While the DAEP demographics mirror the district's in a number of categories, the distinction in rates for African American students, 504 and SPED students is a concern.

**Root Cause:** The root cause for the number of 504 and SPED students placed at DAEP may be a result of a lack of training and understanding the manifestation of a students disability. Racial biases may play a role in the number of AA students placed at DAEP, however it cannot serve as the predominate or soul cause. There are other mitigating factors that affect placement.

**Problem Statement 2 (Prioritized):** In addition to well qualified teachers, it is imperative, when possible, to maintain a diversified (gender/racially) faculty and staff to reflect the cultural and diverse student body

**Root Cause:** "Teacher recruitment and retention is an ongoing issue, and unfortunately there is a misconception of the DAEP campus environment and the population we serve.

**Problem Statement 3:** There is an increasing need to support the emotional well being and mental health of all students. The campus does a good job through the use of one SE counselor, but a plan must be developed that encompasses parental support and training, and one that transitions back to home campuses.

**Root Cause:** Some students come to school with learned behaviors and other triggers and often there is a lack/delay in identifying high need students.

**Problem Statement 4:** There is a need for training for parents seeking solutions for improving the overall emotional and mental health of their children and to reduce their use / dependency on drugs. The age/grade level at which students are placed at DAEP for drug related infractions are increasing at the elementary level.

**Root Cause:** The lack of involvement from parents creates a lack of student engagement in all areas at campuses, and lends to students making poor choices. Preventive measures regarding drug/alcohol use on home campuses are limited and/or nonexistence. A program that require parental involvement offering support for both students and parents is recommended as students transition back to their home campus.

**Problem Statement 5 (Prioritized):** To assist in maintaining a safe learning environment additional support for the emotional well being and mental health of students must be provided at the DAEP campus, with a successful transition plan implemented as students return to their home campus. Throughout the district de-escalation strategies and improved threat assessment skills need to be developed.

**Root Cause:** Some students come to school with learned behaviors and other triggers. Training in identifying high need students do not exist for all faculty and staff.

# Priority Problem Statements

**Problem Statement 1:** To assist in maintaining a safe learning environment additional support for the emotional well being and mental health of students must be provided at the DAEP campus, with a successful transition plan implemented as students return to their home campus. Throughout the district de-escalation strategies and improved threat assessment skills need to be developed.

**Root Cause 1:** Some students come to school with learned behaviors and other triggers. Training in identifying high need students do not exist for all faculty and staff.

**Problem Statement 1 Areas:** School Processes & Programs - Perceptions

**Problem Statement 2:** In addition to well qualified teachers, it is imperative, when possible, to maintain a diversified (gender/racially) faculty and staff to reflect the cultural and diverse student body

**Root Cause 2:** "Teacher recruitment and retention is an ongoing issue, and unfortunately there is a misconception of the DAEP campus environment and the population we serve.

**Problem Statement 2 Areas:** Student Learning - Perceptions

**Problem Statement 3:** The DAEP campus utilizes the Edgenuity Curriculum when home campus teachers elect to utilize it rather than Canvas. Edgenuity curriculum does not reflect the specialized instruction classroom teachers provide students, and must be customized to reflect the instruction that is given in the home campus classrooms. Students struggle academically with this program.

**Root Cause 3:** Teachers are not familiar enough with the Edgenuity program to make the needed customizations. The program does not offer accommodations for SPED students that are needed for some of the core subjects

**Problem Statement 3 Areas:** Student Learning - School Processes & Programs

**Problem Statement 4:** Educational Aides are called upon to work with SPED students and some students that have the propensity for aggression. Educational Aides are essential members to the DAEP campus and are difficult to recruit and retain.

**Root Cause 4:** The DAEP Educational Aides are not paid at the highest EA rate.

**Problem Statement 4 Areas:** Demographics - Student Learning - School Processes & Programs

**Problem Statement 5:** Ensuring the sustainability of academic and behavioral standards presents a challenge as students transition back to their home campus after a period of alternative education placement. This transition period often reveals gaps in maintaining consistent educational progress and behavioral expectations, which can impact the student's ability to reintegrate successfully and meet established standard

**Root Cause 5:** While students learn the needed skills, without the DAEP structure students struggle to maintain their improved behavior and academic expectations once back at their home campus

**Problem Statement 5 Areas:** Student Learning

# Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

## **Improvement Planning Data**

- District goals
- Campus goals
- Performance Objectives with summative review (prior year)
- Campus/District improvement plans (current and prior years)
- Planning and decision making committee(s) meeting data

## **Student Data: Student Groups**

- Race and ethnicity data, including number of students, academic achievement, discipline, attendance, and rates of progress between groups
- Special programs data, including number of students, academic achievement, discipline, attendance, and rates of progress for each student group
- Special education/non-special education population including discipline, progress and participation data
- Emergent Bilingual (EB) /non-EB data, including academic achievement, progress, support and accommodation needs, race, ethnicity, gender etc.
- Section 504 data
- Gifted and talented data

## **Student Data: Behavior and Other Indicators**

- Discipline records
- Violence and/or violence prevention records
- Tobacco, alcohol, and other drug-use data
- Student surveys and/or other feedback

## **Employee Data**

- Professional learning communities (PLC) data
- Staff surveys and/or other feedback
- Campus department and/or faculty meeting discussions and data
- Evaluation(s) of professional development implementation and impact

## **Support Systems and Other Data**

- Processes and procedures for teaching and learning, including program implementation
- Communications data
- Budgets/entitlements and expenditures data
- Study of best practices

# Goals

**Goal 1:** Students will achieve their full potential through a system that is responsive to the behavioral, academic, social, and emotional needs of the student.

**Performance Objective 1:** Student is exited from DAEP after a successful review.

**High Priority**

**Evaluation Data Sources:** Data notebooks, Behavior Management System (point system), teacher feedback, Transition plans

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     | Reviews   |     |     |           |

| <b>Strategy 1:</b> Utilizing the online Behavior Management System, students are immediately made aware of any needed behavioral adjustments. Teachers consistently report behavior issues during class, providing immediate notification to students and the entire DAEP campus. Home campus administrators and counselors are also able to view their students behaviors while at DAEP.<br><b>Actions:</b> Upon viewing their BMS report, students recognize the need for adjustments and choose a positive path before losing entire DAEP day due to behavioral issues. DAEP Teachers are informed of behaviors that may be repeated, and home campus can view both negative and positive growth in their students behavior while at DAEP.<br><b>Staff Responsible for Monitoring:</b> Teachers, administrator, EAs, home campus administrators and counselors<br><br><b>Problem Statements:</b> Student Learning 2 | Formative |     |     | Summative |
|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        | Nov       | Jan | Mar | June      |

**Goal 1:** Students will achieve their full potential through a system that is responsive to the behavioral, academic, social, and emotional needs of the student.

**Performance Objective 2:** Academic alignment is achieved for each student utilizing Canvas and Edgenuity

**High Priority**

**Evaluation Data Sources:** Academic binders monitored daily for student academic logs, maintaining communication with home campus teachers (emails), Edgenuity training for teachers/EAs with district administrator

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 | Reviews   |     |     |           |

| <b>Problem Statement 1:</b> The DAEP campus utilizes the Edgenuity Curriculum when home campus teachers elect to utilize it rather than Canvas. Edgenuity curriculum does not reflect the specialized instruction classroom teachers provide students, and must be customized to reflect the instruction that is given in the home campus classrooms. Students struggle academically with this program. <b>Root Cause:</b> Teachers are not familiar enough with the Edgenuity program to make the needed customizations. The program does not offer accommodations for SPED students that are needed for some of the core subjects |
| School Processes & Programs                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| <b>Problem Statement 3:</b> The DAEP campus utilizes the Edgenuity Curriculum when home campus teachers elect to utilize it rather than Canvas. Edgenuity curriculum does not reflect the specialized instruction classroom teachers provide students, and must be customized to reflect the instruction that is given in the home campus classrooms. Students struggle academically with this program. <b>Root Cause:</b> Teachers are not familiar enough with the Edgenuity program to make the needed customizations. The program does not offer accommodations for SPED students that are needed for some of the core subjects |

**Goal 1:** Students will achieve their full potential through a system that is responsive to the behavioral, academic, social, and emotional needs of the student.

**Performance Objective 3:** To provide faculty and staff with professional development centered on best practices in the DAEP classroom, and to ensure the implementation of these strategies is evident during classroom observations.

**High Priority**  
**Evaluation Data Sources:** teacher observations, professional development

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  | Reviews   |     |     |           |

**Performance Objective 3 Problem Statements:**

### Student Learning

**Problem Statement 1:** The DAEP campus utilizes the Edgenuity Curriculum when home campus teachers elect to utilize it rather than Canvas. Edgenuity curriculum does not reflect the specialized instruction classroom teachers provide students, and must be customized to reflect the instruction that is given in the home campus classrooms. Students struggle academically with this program. **Root Cause:** Teachers are not familiar enough with the Edgenuity program to make the needed customizations. The program does not offer accommodations for SPED students that are needed for some of the core subjects

**Problem Statement 2:** Ensuring the sustainability of academic and behavioral standards presents a challenge as students transition back to their home campus after a period of alternative education placement. This transition period often reveals gaps in maintaining consistent educational progress and behavioral expectations, which can impact the student's ability to reintegrate successfully and meet established standard **Root Cause:** While students learn the needed skills, without the DAEP structure students struggle to maintain their improved behavior and academic expectations once back at their home campus

### School Processes & Programs

**Problem Statement 3:** The DAEP campus utilizes the Edgenuity Curriculum when home campus teachers elect to utilize it rather than Canvas. Edgenuity curriculum does not reflect the specialized instruction classroom teachers provide students, and must be customized to reflect the instruction that is given in the home campus classrooms. Students struggle academically with this program. **Root Cause:** Teachers are not familiar enough with the Edgenuity program to make the needed customizations. The program does not offer accommodations for SPED students that are needed for some of the core subjects

**Problem Statement 5:** To assist in maintaining a safe learning environment additional support for the emotional well being and mental health of students must be provided at the DAEP campus, with a successful transition plan implemented as students return to their home campus. Throughout the district de-escalation strategies and improved threat assessment skills need to be developed. **Root Cause:** Some students come to school with learned behaviors and other triggers. Training in identifying high need students do not exist for all faculty and staff.

### Perceptions

**Problem Statement 5:** To assist in maintaining a safe learning environment additional support for the emotional well being and mental health of students must be provided at the DAEP campus, with a successful transition plan implemented as students return to their home campus. Throughout the district de-escalation strategies and improved threat assessment skills need to be developed. **Root Cause:** Some students come to school with learned behaviors and other triggers. Training in identifying high need students do not exist for all faculty and staff.

**Goal 1:** Students will achieve their full potential through a system that is responsive to the behavioral, academic, social, and emotional needs of the student.

**Performance Objective 4:** Upon entry into the DAEP program, ensure that all students are assessed by the campus SE Counselor and participate daily in the Character Strong/'Character Education' course.

**Evaluation Data Sources:** MAY-SI mental health evaluation data, Character Strong curriculum, SE counselor, student survey results.

#### Performance Objective 4 Problem Statements:

| Student Learning                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 2:</b> Ensuring the sustainability of academic and behavioral standards presents a challenge as students transition back to their home campus after a period of alternative education placement. This transition period often reveals gaps in maintaining consistent educational progress and behavioral expectations, which can impact the student's ability to reintegrate successfully and meet established standard <b>Root Cause:</b> While students learn the needed skills, without the DAEP structure students struggle to maintain their improved behavior and academic expectations once back at their home campus |
| School Processes & Programs                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| <b>Problem Statement 5:</b> To assist in maintaining a safe learning environment additional support for the emotional well being and mental health of students must be provided at the DAEP campus, with a successful transition plan implemented as students return to their home campus. Throughout the district de-escalation strategies and improved threat assessment skills need to be developed. <b>Root Cause:</b> Some students come to school with learned behaviors and other triggers. Training in identifying high need students do not exist for all faculty and staff.                                                             |
| Perceptions                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

**Goal 2:** Ensure students are utilizing efficient and effective organizational skills to support and improve their learning,.

**Performance Objective 1:** All faculty and staff will utilize the Behavior Management System (BMS) with fidelity.

**High Priority**

**Evaluation Data Sources:** Student profiles in the BMS platform.

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |  | Reviews   |     |     |           |

| <b>Strategy 1:</b> Administrator tracks use of the BMS for consistency among faculty and staff. All rooms will have posted BMS checking for student reminders/encouragement. End of the day open forum talks with faculty and staff to review student behaviors and actions taken/not taken.<br><b>Actions:</b> Initial concern with student behavior is required to be placed in the BMS. During end of the day transitioning time, teachers will require students to check their BMS.<br><b>Staff Responsible for Monitoring:</b> Administrator, teachers, students<br><br><b>Problem Statements:</b> Demographics 2 - Student Learning 4 - School Processes & Programs 1, 5 - Perceptions 5 |  | Formative |     |     | Summative |

## Perceptions

**Problem Statement 5:** To assist in maintaining a safe learning environment additional support for the emotional well being and mental health of students must be provided at the DAEP campus, with a successful transition plan implemented as students return to their home campus. Throughout the district de-escalation strategies and improved threat assessment skills need to be developed. **Root Cause:** Some students come to school with learned behaviors and other triggers. Training in identifying high need students do not exist for all faculty and staff.

**Goal 2:** Ensure students are utilizing efficient and effective organizational skills to support and improve their learning,.

**Performance Objective 2:** During weekly staff meetings, engage in discussions about the evolving student population and address any concerns or areas for growth within our systems to ensure continuous improvement and responsiveness to student needs.

**High Priority**

**Evaluation Data Sources:** Review data on successful reviews , BMS, student binders

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          | Reviews   |     |     |           |

| Student Learning                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| <b>Problem Statement 1:</b> The DAEP campus utilizes the Edgenuity Curriculum when home campus teachers elect to utilize it rather than Canvas. Edgenuity curriculum does not reflect the specialized instruction classroom teachers provide students, and must be customized to reflect the instruction that is given in the home campus classrooms. Students struggle academically with this program. <b>Root Cause:</b> Teachers are not familiar enough with the Edgenuity program to make the needed customizations. The program does not offer accommodations for SPED students that are needed for some of the core subjects               |
| <b>Problem Statement 2:</b> Ensuring the sustainability of academic and behavioral standards presents a challenge as students transition back to their home campus after a period of alternative education placement. This transition period often reveals gaps in maintaining consistent educational progress and behavioral expectations, which can impact the student's ability to reintegrate successfully and meet established standard <b>Root Cause:</b> While students learn the needed skills, without the DAEP structure students struggle to maintain their improved behavior and academic expectations once back at their home campus |

### Student Learning

**Problem Statement 3:** In addition to well qualified teachers, it is imperative, when possible, to maintain a diversified (gender/racially) faculty and staff to reflect the cultural and diverse student body **Root Cause:** "Teacher recruitment and retention is an ongoing issue, and unfortunately there is a misconception of the DAEP campus environment and the population we serve.

**Problem Statement 4:** Educational Aides are called upon to work with SPED students and some students that have the propensity for aggression. Educational Aides are essential members to the DAEP campus and are difficult to recruit and retain. **Root Cause:** The DAEP Educational Aides are not paid at the highest EA rate.

### School Processes & Programs

**Problem Statement 1:** Educational Aides are called upon to work with SPED students and some students that have the propensity for aggression. Educational Aides are essential members to the DAEP campus and are difficult to recruit and retain. **Root Cause:** The DAEP Educational Aides are not paid at the highest EA rate.

**Problem Statement 3:** The DAEP campus utilizes the Edgenuity Curriculum when home campus teachers elect to utilize it rather than Canvas. Edgenuity curriculum does not reflect the specialized instruction classroom teachers provide students, and must be customized to reflect the instruction that is given in the home campus classrooms. Students struggle academically with this program. **Root Cause:** Teachers are not familiar enough with the Edgenuity program to make the needed customizations. The program does not offer accommodations for SPED students that are needed for some of the core subjects

**Problem Statement 5:** To assist in maintaining a safe learning environment additional support for the emotional well being and mental health of students must be provided at the DAEP campus, with a successful transition plan implemented as students return to their home campus. Throughout the district de-escalation strategies and improved threat assessment skills need to be developed. **Root Cause:** Some students come to school with learned behaviors and other triggers. Training in identifying high need students do not exist for all faculty and staff.

### Perceptions

**Problem Statement 2:** In addition to well qualified teachers, it is imperative, when possible, to maintain a diversified (gender/racially) faculty and staff to reflect the cultural and diverse student body **Root Cause:** "Teacher recruitment and retention is an ongoing issue, and unfortunately there is a misconception of the DAEP campus environment and the population we serve.

**Problem Statement 5:** To assist in maintaining a safe learning environment additional support for the emotional well being and mental health of students must be provided at the DAEP campus, with a successful transition plan implemented as students return to their home campus. Throughout the district de-escalation strategies and improved threat assessment skills need to be developed. **Root Cause:** Some students come to school with learned behaviors and other triggers. Training in identifying high need students do not exist for all faculty and staff.

**Goal 3:** All students and staff will learn and work in a safe and responsive environment.

**Performance Objective 1:** To implement a safety plan at the DAEP campus that includes comprehensive training and participation in all drills for staff and students, ensuring a safe environment and effective preparedness for emergencies.

**High Priority**

**Evaluation Data Sources:** Audits, training agendas and sign-ins, post drills reflections

**Goal 3:** All students and staff will learn and work in a safe and responsive environment.

**Performance Objective 2:** All faculty and staff will receive professional development for CPI-Nonviolent Crisis Intervention training and utilize learned strategies should it become necessary. Also, ROPES training, which focuses on team building and communication skills is offered every two years to the DAEP faculty and staff.

**High Priority**

**Evaluation Data Sources:** CPI training,

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            | Nov       | Jan | Mar | June      |
| <b>Strategy 1:</b> Revisit training midyear. Provide training for late hires. BISD requires that all faculty and staff of the DAEP campus receives training in restraining procedures. The training is offered at the start of the school year. Late hires are trained as the course becomes available. During the start of the year as a campus professional development day, teachers participate in a hands on training for the ROPES course. This training provides lessons in teamwork, problem solving and communication. Late hires do not receive the training, as it is only offered once a year every two to three years.<br><b>Actions:</b> Call upon district administration for additional training when new EAs are hired. Request review training midyear from district trainers. Additional funds needed for ROPES training and/or staff member trained as a trainer.<br><b>Staff Responsible for Monitoring:</b> Administrator, district administrator, teachers<br><br><b>Problem Statements:</b> Demographics 2 - Student Learning 3, 4 - School Processes & Programs 1 - Perceptions 2 |           |     |     |           |

### School Processes & Programs

**Problem Statement 1:** Educational Aides are called upon to work with SPED students and some students that have the propensity for aggression. Educational Aides are essential members to the DAEP campus and are difficult to recruit and retain. **Root Cause:** The DAEP Educational Aides are not paid at the highest EA rate.

### Perceptions

**Problem Statement 2:** In addition to well qualified teachers, it is imperative, when possible, to maintain a diversified (gender/racially) faculty and staff to reflect the cultural and diverse student body **Root Cause:** "Teacher recruitment and retention is an ongoing issue, and unfortunately there is a misconception of the DAEP campus environment and the population we serve.

**Goal 3:** All students and staff will learn and work in a safe and responsive environment.

**Performance Objective 3:** Students in DAEP will not participate in physical altercations, learning alternate means for conflict resolution and team building skills through Character Education classes.

**High Priority**

**Evaluation Data Sources:** Discipline records. Behavior Management System BMS, Student surveys, Character Strong/Education curriculum, ROPES, recidivism data, Character Ed. student reflections

| <b>Strategy 1:</b> Students enrolled at DAEP will participate in Ropes Course, Character Education classes, and Drug Intervention forums. Participation results in students being exposed to alternate solutions for conflicts, demonstrates and improve their communication and decision making skills.<br><br><b>Actions:</b> Ropes Course, which is held once a week, introduce students to teamwork, communication skills and problem solving strategies. Daily Character Education classes provide students with positive means for solving conflicts. Participation in the Drug Interventions offered at DAEP bi-weekly, assist students in understanding the effects drug/alcohol use has on their behavior and demonstrates to them real life consequences of continued use.<br><b>Staff Responsible for Monitoring:</b> Administrator, SE Counselor, teachers, Educational Aides<br><br><b>Problem Statements:</b> Demographics 2 - Student Learning 1, 4 - School Processes & Programs 1, 3, 5 - Perceptions 5                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     | Formative |     |     | Summative |

| Strategy 2 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           | Reviews   |     |     |           |
| <b>Strategy 2:</b> DAEP utilize a number of daily operational procedures that will reduce the opportunity for altercations.<br><br><b>Actions:</b> DAEP will have a secured check-in held daily, in which all students walk through a metal detector and are searched manually, which lessen the chance for a weapon on campus. Upon placement notification, the DAEP coordinator and administrator, communicate with assigning campus to ensure separation of students involved in conflicts, as well as ensure a separation for those involved in incidents such as group drug use and/or lewd behavior. To make classroom assignments more efficient, the hallway is structured so that one group of rooms would not encounter the opposite group of rooms throughout the day. All bathroom breaks are escorted one classroom at a time. Overall student movement is limited. Students remain in one room most of the day, while teachers rotate. When being escorted to lunch and during bathroom breaks, students are required to walk on center hallway line with hands in pockets or behind their back. Communication between students is limited to Character Education classes. Open discussions during regular classes is prohibited and will result in a loss of points, and losing points could result in additional days. Dismissal is staggered by rooms. All expectations are provided to students and parents at the required intake meeting.<br><br><b>Problem Statements:</b> Demographics 2 - Student Learning 3, 4 - School Processes & Programs 1, 5 - Perceptions 2, 5 | Formative |     |     | Summative |

**Performance Objective 3 Problem Statements:****Demographics**

**Problem Statement 2:** Educational Aides are called upon to work with SPED students and some students that have the propensity for aggression. Educational Aides are essential members to the DAEP campus and are difficult to recruit and retain. **Root Cause:** The DAEP Educational Aides are not paid at the highest EA rate.

**Student Learning**

**Problem Statement 1:** The DAEP campus utilizes the Edgenuity Curriculum when home campus teachers elect to utilize it rather than Canvas. Edgenuity curriculum does not reflect the specialized instruction classroom teachers provide students, and must be customized to reflect the instruction that is given in the home campus classrooms. Students struggle academically with this program. **Root Cause:** Teachers are not familiar enough with the Edgenuity program to make the needed customizations. The program does not offer accommodations for SPED students that are needed for some of the core subjects

**Problem Statement 3:** In addition to well qualified teachers, it is imperative, when possible, to maintain a diversified (gender/racially) faculty and staff to reflect the cultural and diverse student body **Root Cause:** "Teacher recruitment and retention is an ongoing issue, and unfortunately there is a misconception of the DAEP campus environment and the population we serve.

**Problem Statement 4:** Educational Aides are called upon to work with SPED students and some students that have the propensity for aggression. Educational Aides are essential members to the DAEP campus and are difficult to recruit and retain. **Root Cause:** The DAEP Educational Aides are not paid at the highest EA rate.

**School Processes & Programs**

**Problem Statement 1:** Educational Aides are called upon to work with SPED students and some students that have the propensity for aggression. Educational Aides are essential members to the DAEP campus and are difficult to recruit and retain. **Root Cause:** The DAEP Educational Aides are not paid at the highest EA rate.

**Problem Statement 3:** The DAEP campus utilizes the Edgenuity Curriculum when home campus teachers elect to utilize it rather than Canvas. Edgenuity curriculum does not reflect the specialized instruction classroom teachers provide students, and must be customized to reflect the instruction that is given in the home campus classrooms. Students struggle academically with this program. **Root Cause:** Teachers are not familiar enough with the Edgenuity program to make the needed customizations. The program does not offer accommodations for SPED students that are needed for some of the core subjects

**Problem Statement 5:** To assist in maintaining a safe learning environment additional support for the emotional well being and mental health of students must be provided at the DAEP campus, with a successful transition plan implemented as students return to their home campus. Throughout the district de-escalation strategies and improved threat assessment skills need to be developed. **Root Cause:** Some students come to school with learned behaviors and other triggers. Training in identifying high need students do not exist for all faculty and staff.

**Perceptions**

**Problem Statement 2:** In addition to well qualified teachers, it is imperative, when possible, to maintain a diversified (gender/racially) faculty and staff to reflect the cultural and diverse student body **Root Cause:** "Teacher recruitment and retention is an ongoing issue, and unfortunately there is a misconception of the DAEP campus environment and the population we serve.

### Perceptions

**Problem Statement 5:** To assist in maintaining a safe learning environment additional support for the emotional well being and mental health of students must be provided at the DAEP campus, with a successful transition plan implemented as students return to their home campus. Throughout the district de-escalation strategies and improved threat assessment skills need to be developed. **Root Cause:** Some students come to school with learned behaviors and other triggers. Training in identifying high need students do not exist for all faculty and staff.

# Mission Statement

*The David E Smith family is committed to serving our community by fostering growth in a safe environment, empowering students to succeed in a global world.*

# Vision

*We are here to prepare, nurture, support, and empower students to be life-long learners and leaders. We will work collaboratively to equip and encourage student growth academically, socially, and emotionally.*

# Value Statement

## *Lion Promise*

I promise to be a Lifelong learner who practices Integrity by Overcoming obstacles and Nurturing a Safe, Successful School family.

# Comprehensive Needs Assessment

## Demographics

### Demographics Summary

David E. Smith Elementary is in Haltom City, Texas in the Birdville Independent School District. In 1954, David E Smith Elementary opened its doors to the community and quickly outgrew the building which created a need for a new campus. In 1959, WT Francisco Elementary opened its doors, establishing two incredible campuses supported by one community. In August of 2023, the two campuses come back together under one roof to be the David E Smith Lions. In August of 2025, David E Smith Elementary will open the doors to their brand new campus.

### Demographics Summary

David E Smith Elementary is a Title I campus that currently serves **640** students in grades pre-k through fifth grade for the 2024-2025 school year.

### Students

David E Smith Elementary student demographics as of 2023-2024 school year were made up of **79%** Hispanic, **4%** Asian, **13%** White, and **2%** African American. The percentage of students served by special education was **13%** and **4%** were served by gifted and talented services. The percent of students who were considered At-risk was **81%** and **83%** were considered Economically Disadvantaged. The campus served **35%** of students in the Bilingual Program and **54%** of students were identified as Emergent Bilingual.

### Teachers

According to the most recent Texas Academic Performance Report (**2023-2024**), David E. Smith had **68** staff members an average of **13.1** years of teaching experience.

### Demographics Strengths

Over the past decade, the campus' attendance rates have generally remained stable, with some fluctuations and a noticeable impact from the COVID-19 pandemic. From 2013-2019, attendance rates averaged 96.1%, reflecting consistent student attendance. The COVID-19 pandemic brought significant challenges, particularly evident in the 2021-2022 school year, where attendance dropped to 94.17%. Since then, there has been a gradual recovery, with attendance improving to 94.52% in 2022-2023 and reaching 95.05% in 2024-2025.

With 35% of our students enrolled in bilingual classes, they have the opportunity to become bi-literate in English and Spanish. Eighty-three percent of our students are Economically Disadvantaged which provides free or reduced lunch costs and federal funding for additional personnel to meet students' needs.

Academically, we met all four areas for the federal accountability standard in Reading Language Arts and we grew in all four areas for Mathematics. Also in federal accountability with regard to Student Growth, in Reading Language Arts 81% of our students grew and in Mathematics, 55% of our students grew.

### **Problem Statements Identifying Demographics Needs**

**Problem Statement 1 (Prioritized):** Despite targeted efforts to support student learning, our campus continues to experience a concerning decline in Science performance among our student population. Over the past three years, the percentage of students reaching the "Meets" grade level standard on the Science STAAR assessment has steadily decreased--from 31% in 2023 to 22% in 2024, and most recently 17% in 2025.

**Root Cause:** The ongoing decline in Science achievement is primarily attributed to a lack of dedicated time for teachers to plan, collaborate, and align instruction. Without sufficient opportunities for structured collaboration, vertical alignment, and data-driven planning, teachers face challenges in delivering consistent, rigorous, and engaging science instruction that meets grade-level expectations.

| Progressed 2 or More Levels | 1  | 0.4  |
| Totals                      | 64 | 28.8 |

Student Learning Strengths

In 2025, **3rd grade Reading performance rebounded significantly**, with 92% of students reaching the Approaches level and 69% achieving Meets—a **34-point increase from 2024 Meets level (35%)**, indicating effective early literacy instruction and intervention strategies. Third grade Math scores in 2025 showed remarkable improvement, with **Approaches increasing to 91% and Meets to 73%**, up from 28% Meets in 2024. This reflects a strong instructional shift in early numeracy development and reteaching strategies. Over the past four years, **5th grade Reading has remained a consistent strength**, maintaining high Approaches percentages (ranging from 84% to 90%) and steady Meets performance, including a recent rise to 62% in 2025. Despite a slight dip in 2025, **4th grade Reading has consistently maintained Meets percentages above 40% for four consecutive years**, suggesting that students are continuing to build on foundational literacy skills in the upper elementary grades.

Problem Statements Identifying Student Learning Needs

**Problem Statement 1 (Prioritized):** While there are areas of improvement in student achievement, such as the significant gains in 3rd grade Reading and Math in 2025, student performance across grade levels remains inconsistent, with notable declines in Science and upper-grade Math and Reading. Specifically, 5th grade Science Meets dropped from 32%

in 2022 to just 17% in 2025, and 4th grade Reading and Math show a downward trend.

**Root Cause:** There has been limited protected time for teacher collaboration within vertical alignment across grade levels. Without consistent opportunities to analyze student data, align curriculum, and plan instruction collectively, teachers face challenges in scaffolding learning effectively from one grade level to the next--especially in Science and Math, where conceptual understanding builds over time.

# School Processes & Programs

## School Processes & Programs Summary

David E Smith offers a wide variety of processes and programs to meet the diverse needs of the student population. Currently, 83% of students receive free or reduced lunches. Twelve percent of students are served through the ESL program and 35% of our students are served in our Bilingual program in grades Pre-Kindergarten through Fifth grade. Thirteen percent of students are served through Special Education. Three percent are served through dyslexia programs, and 4% of students are served through Gifted and Talented.

In addition, we have a strategic and successful Multi-Tiered Student Support (MTSS) program that identifies students with needs in math and reading in Kindergarten - 5th grade. Currently, 63% of our students are served through MTSS. These students are given strong research-based instruction in small group settings, and their progress is monitored and assessed frequently. Teachers are provided with training, resources, and staff support to meet the needs of these struggling students.

David E. Smith is committed to guaranteeing growth for all students- academically, emotionally, and physically. Our students are involved in setting individual, class, and grade-level goals and monitoring their progress along the way in meeting these goals. Students celebrate their growth and success with nine-week Awards Assemblies and other celebrations. The staff also sets professional goals and the campus calendar and schedule provide opportunities for the staff to visit other teachers' classrooms and learn from one another. We strive to foster a culture of literacy in all content areas. Our desire is to promote innovation with the use of Chromebooks and other technology resources that assist in increased engagement, collaboration and formative assessment. All students participate in monthly Counselor lessons, weekly social-emotional lessons, and a common school-wide focus on our social and emotional program, Conscious Discipline. Our campus has the support of a local church to provide weekend food backpacks for about 30 families. The local church also brings in mentors for our students. The mentors serve as reading buddies or lunch buddies. The campus offers a variety of extracurricular activities to meet the many needs of our students and families. DES has a Dads on Duty program where any male figure who is associated with our school or community can come to volunteer on our campus during the day.

## School Processes & Programs Strengths

- The master schedule for the campus has been strategically planned and developed to maximize the time spent in the classroom, while ensuring students served for interventions do not miss critical tier 1 instruction.
- The campus MTSS team, including our Instructional Facilitators, interventionists and administration, have created a systematic and comprehensive approach of reviewing multiple points of data for all students several times a year. This system allows for easy identification of students and data progress monitoring from a variety of sources in both reading and math.
- There is a strong focus on social and emotional learning for both students and staff. The school focus is utilizing the program Conscious Discipline. This is a campus wide approach to teaching our students skills and powers to help regulate their emotions so they maintain their executive brain state so they are ready to learn.

## Problem Statements Identifying School Processes & Programs Needs

**Problem Statement 1 (Prioritized):** Our campus has implemented the Plan, Do, Study, Act (PDSA) model as a structure for continuous improvement during teacher collaboration times. However, there is inconsistent implementation across classrooms. Classrooms that fully engage in the PDSA process are showing clear evidence of student growth, while others that are not consistently applying the model demonstrate slower progress.

**Root Cause:** The inconsistent impact of the PDSA model across classrooms is primarily due to a lack of ongoing support, monitoring, and clarity around expectations for implementation. While teachers are introduced to the PDSA cycle during collaboration, not all staff have the same level of understanding, coaching, or follow-up to ensure meaningful application.

# Perceptions

## Perceptions Summary

One hundred percent of the faculty and students have been trained in our Standard Response Protocol (SRP) in case of an emergency.

Our District safety audit was held last year and had performance of excellence.

Students participate in attendance incentive programs. Classes track their data weekly and along with grade levels are celebrated each nine weeks.

Our campus has four committees to help serve our campus and address needs. These include our Leaders of Learners who support instructional practices and leadership on campus and district initiatives. The logistics and safety committee problem solve campus logistical concerns and work to keep our campus safe. The social committee organize recognitions and assemblies for staff and students. The Conscious Discipline Action Team serves to provide parent training and help identify social emotional needs for our students.

A family and student survey was conducted in the Spring, with over 200 responses received. The survey asked families about safety, communication, connection to the school, only to name a few. Over 99% of the surveys returned had only positive statements and comments about the campus.

A staff survey was also conducted in the Spring and the results were very positive. 98% of the responses showed that the school had clear priorities, where most everyone can be trusted, that people are cared for, and that school expectations/priorities and goals are well known.

## Perceptions Strengths

At David E Smith we believe that all of our stakeholders should experience excellent customer service.

We do this by...

- Keeping the community informed of school wide events and information.
- Sending home quarterly calendars with events.
- Offering various forms of communication in English and Spanish. ex. paper flyers, email, social media
- Partnering with our active PTA.
- Hosting quarterly Award Assemblies.
- Conducting SRP drills monthly.
- Partnering with Bethesda school and have student mentors and reading buddies weekly.
- Partnering with Recovery Resource Council to provide small group support.

## **Problem Statements Identifying Perceptions Needs**

**Problem Statement 1 (Prioritized):** On our Spring survey, Students, staff, and parents report limited opportunities for voice and involvement. Only 59% of students feel their opinions are valued, 12% of staff do not feel engaged in leadership, and 15% of parents feel they lack opportunities to be involved.

**Root Cause:** There are limited campus-wide systems in place to consistently promote student voice, shared staff leadership, and meaningful parent involvement. As a result, engagement opportunities are inconsistent across the school community.

# Priority Problem Statements

**Problem Statement 1:** While there are areas of improvement in student achievement, such as the significant gains in 3rd grade Reading and Math in 2025, student performance across grade levels remains inconsistent, with notable declines in Science and upper-grade Math and Reading. Specifically, 5th grade Science Meets dropped from 32% in 2022 to just 17% in 2025, and 4th grade Reading and Math show a downward trend.

**Root Cause 1:** There has been limited protected time for teacher collaboration within vertical alignment across grade levels. Without consistent opportunities to analyze student data, align curriculum, and plan instruction collectively, teachers face challenges in scaffolding learning effectively from one grade level to the next--especially in Science and Math, where conceptual understanding builds over time.

**Problem Statement 1 Areas:** Student Learning

**Problem Statement 2:** Our campus has implemented the Plan, Do, Study, Act (PDSA) model as a structure for continuous improvement during teacher collaboration times. However, there is inconsistent implementation across classrooms. Classrooms that fully engage in the PDSA process are showing clear evidence of student growth, while others that are not consistently applying the model demonstrate slower progress.

**Root Cause 2:** The inconsistent impact of the PDSA model across classrooms is primarily due to a lack of ongoing support, monitoring, and clarity around expectations for implementation. While teachers are introduced to the PDSA cycle during collaboration, not all staff have the same level of understanding, coaching, or follow-up to ensure meaningful application.

**Problem Statement 2 Areas:** School Processes & Programs

**Problem Statement 3:** On our Spring survey, Students, staff, and parents report limited opportunities for voice and involvement. Only 59% of students feel their opinions are valued, 12% of staff do not feel engaged in leadership, and 15% of parents feel they lack opportunities to be involved.

**Root Cause 3:** There are limited campus-wide systems in place to consistently promote student voice, shared staff leadership, and meaningful parent involvement. As a result, engagement opportunities are inconsistent across the school community.

**Problem Statement 3 Areas:** Perceptions

**Problem Statement 4:** Despite targeted efforts to support student learning, our campus continues to experience a concerning decline in Science performance among our student population. Over the past three years, the percentage of students reaching the "Meets" grade level standard on the Science STAAR assessment has steadily decreased--from 31% in 2023 to 22% in 2024, and most recently 17% in 2025.

**Root Cause 4:** The ongoing decline in Science achievement is primarily attributed to a lack of dedicated time for teachers to plan, collaborate, and align instruction. Without sufficient opportunities for structured collaboration, vertical alignment, and data-driven planning, teachers face challenges in delivering consistent, rigorous, and engaging science instruction that meets grade-level expectations.

**Problem Statement 4 Areas:** Demographics

# Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

## Improvement Planning Data

- District goals
- Campus goals
- Performance Objectives with summative review (prior year)
- Campus/District improvement plans (current and prior years)
- Planning and decision making committee(s) meeting data

## Accountability Data

- Texas Academic Performance Report (TAPR) data
- Student Achievement Domain
- Student Progress Domain
- Closing the Gaps Domain
- Accountability Distinction Designations
- Local Accountability Systems (LAS) data

## Student Data: Assessments

- STAAR current and longitudinal results, including all versions
- STAAR Emergent Bilingual (EB) progress measure data
- Texas English Language Proficiency Assessment System (TELPAS) and TELPAS Alternate results
- Texas Primary Reading Inventory (TPRI), Tejas LEE, or other alternate early reading assessment results
- Istation Indicators of Progress (ISIP) accelerated reading assessment data for Grades 3-5 (TEA approved statewide license)
- Student failure and/or retention rates
- Local diagnostic reading assessment data
- Local benchmark or common assessments data
- Running Records results
- Prekindergarten Self-Assessment Tool
- Texas approved PreK - 2nd grade assessment data
- Texas approved Prekindergarten and Kindergarten assessment data
- State-developed online interim assessments

## Student Data: Student Groups

- Race and ethnicity data, including number of students, academic achievement, discipline, attendance, and rates of progress between groups
- Special programs data, including number of students, academic achievement, discipline, attendance, and rates of progress for each student group
- Special education/non-special education population including discipline, progress and participation data
- Emergent Bilingual (EB) /non-EB data, including academic achievement, progress, support and accommodation needs, race, ethnicity, gender etc.
- Section 504 data
- Gifted and talented data
- Dyslexia data

- Response to Intervention (RtI) student achievement data

#### **Student Data: Behavior and Other Indicators**

- Attendance data
- Mobility rate, including longitudinal data
- Discipline records
- Student surveys and/or other feedback
- Class size averages by grade and subject
- School safety data
- Enrollment trends

#### **Employee Data**

- Professional learning communities (PLC) data
- Staff surveys and/or other feedback
- Teacher/Student Ratio
- State certified and high quality staff data
- Campus leadership data
- Campus department and/or faculty meeting discussions and data
- Professional development needs assessment data
- Evaluation(s) of professional development implementation and impact

#### **Parent/Community Data**

- Parent surveys and/or other feedback
- Parent engagement rate

# Goals

Revised/Approved: September 12, 2025

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 1:** All students will make at least one year's progress in reading and mathematics by the end of school year.

a) Meet the progress monitoring targets in Prekindergarten - 3rd for each demographic group as measured by district approved screeners (BOY, MOY and EOY) to achieve the HB3 Board Goals.

b) Improve performance in Domain 3 Closing the Gaps by making more than a year's growth in reading and mathematics which would in turn increase the number of students performing at the "meets" and "masters" level as measured by the spring 2025 STAAR and EOC assessments. This will also increase Domain 1 Student Achievement which counts the number of students at the various performance levels for state assessments

## HB3 Goal

**Evaluation Data Sources:** Elementary: Fountas & Pinnell reading levels, CLI Engage - Circle (prekindergarten), mClass assessments (math, K and reading, grades K-2) Renaissance - Star Assessments (math, 1-5 and reading, grades 3-5), grades 3-5 reading and math TEA Interims

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 | Reviews   |     |     |           |

### Performance Objective 1 Problem Statements:

| Demographics                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> Despite targeted efforts to support student learning, our campus continues to experience a concerning decline in Science performance among our student population. Over the past three years, the percentage of students reaching the "Meets" grade level standard on the Science STAAR assessment has steadily decreased--from 31% in 2023 to 22% in 2024, and most recently 17% in 2025. <b>Root Cause:</b> The ongoing decline in Science achievement is primarily attributed to a lack of dedicated time for teachers to plan, collaborate, and align instruction. Without sufficient opportunities for structured collaboration, vertical alignment, and data-driven planning, teachers face challenges in delivering consistent, rigorous, and engaging science instruction that meets grade-level expectations. |

### Student Learning

**Problem Statement 1:** While there are areas of improvement in student achievement, such as the significant gains in 3rd grade Reading and Math in 2025, student performance across grade levels remains inconsistent, with notable declines in Science and upper-grade Math and Reading. Specifically, 5th grade Science Meets dropped from 32% in 2022 to just 17% in 2025, and 4th grade Reading and Math show a downward trend. **Root Cause:** There has been limited protected time for teacher collaboration within vertical alignment across grade levels. Without consistent opportunities to analyze student data, align curriculum, and plan instruction collectively, teachers face challenges in scaffolding learning effectively from one grade level to the next--especially in Science and Math, where conceptual understanding builds over time.

### School Processes & Programs

**Problem Statement 1:** Our campus has implemented the Plan, Do, Study, Act (PDSA) model as a structure for continuous improvement during teacher collaboration times. However, there is inconsistent implementation across classrooms. Classrooms that fully engage in the PDSA process are showing clear evidence of student growth, while others that are not consistently applying the model demonstrate slower progress. **Root Cause:** The inconsistent impact of the PDSA model across classrooms is primarily due to a lack of ongoing support, monitoring, and clarity around expectations for implementation. While teachers are introduced to the PDSA cycle during collaboration, not all staff have the same level of understanding, coaching, or follow-up to ensure meaningful application.

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 2:** Close achievement gaps that exist for all under-performing student groups as measured by state and district assessments.

- a) Meet all progress monitoring targets for grades prekindergarten - 3rd in reading and mathematics for identified student groups as measured by a district approved monitoring instrument.
- b) Develop a local targeted improvement plan and engage in quarterly data-driven progress monitoring meetings with the District.

**HB3 Goal**

**Evaluation Data Sources:** Historical performance by student subgroup on state and district assessments.

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  | Reviews   |     |     |           |

| Strategy 5 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 | Reviews   |     |     |           |
| <b>Strategy 5:</b> Implement the Multi-Tiered Systems of Support (MTSS) framework to facilitate differentiated support and interventions for identified students.<br><b>Actions:</b> a) Hold campus MTSS meetings throughout the year.<br>b) Regularly meet with PLC teams to discuss progress, needs, curriculum and resources. This will allow our teachers to support the intervention plan to meet our students needs. The teachers will analyze data, utilize best practices for intervention and create intervention groups.<br>c) Implement SEL curriculum Conscious Discipline (CD) and district provided resources.<br>d) Continue to provide professional learning for CD and tiered behavior interventions.<br>e) Utilize SCE funded crisis counselor to provide support to students in areas of social-emotional learning.<br>f) Create and Implement an Accelerated Intervention Plan to address HB4545.<br><b>Staff Responsible for Monitoring:</b> Campus Administration, Classroom teachers and Instructional Facilitators<br><br><b>Title I:</b><br>2.53, 2.533<br>- <b>TEA Priorities:</b><br>Build a foundation of reading and math, Improve low-performing schools<br><b>Problem Statements:</b> School Processes & Programs 1 | Formative |     |     | Summative |

## Performance Objective 2 Problem Statements:

### Student Learning

**Problem Statement 1:** While there are areas of improvement in student achievement, such as the significant gains in 3rd grade Reading and Math in 2025, student performance across grade levels remains inconsistent, with notable declines in Science and upper-grade Math and Reading. Specifically, 5th grade Science Meets dropped from 32% in 2022 to just 17% in 2025, and 4th grade Reading and Math show a downward trend. **Root Cause:** There has been limited protected time for teacher collaboration within vertical alignment across grade levels. Without consistent opportunities to analyze student data, align curriculum, and plan instruction collectively, teachers face challenges in scaffolding learning effectively from one grade level to the next--especially in Science and Math, where conceptual understanding builds over time.

### School Processes & Programs

**Problem Statement 1:** Our campus has implemented the Plan, Do, Study, Act (PDSA) model as a structure for continuous improvement during teacher collaboration times. However, there is inconsistent implementation across classrooms. Classrooms that fully engage in the PDSA process are showing clear evidence of student growth, while others that are not consistently applying the model demonstrate slower progress. **Root Cause:** The inconsistent impact of the PDSA model across classrooms is primarily due to a lack of ongoing support, monitoring, and clarity around expectations for implementation. While teachers are introduced to the PDSA cycle during collaboration, not all staff have the same level of understanding, coaching, or follow-up to ensure meaningful application.

### Perceptions

**Problem Statement 1:** On our Spring survey, Students, staff, and parents report limited opportunities for voice and involvement. Only 59% of students feel their opinions are valued, 12% of staff do not feel engaged in leadership, and 15% of parents feel they lack opportunities to be involved. **Root Cause:** There are limited campus-wide systems in place to consistently promote student voice, shared staff leadership, and meaningful parent involvement. As a result, engagement opportunities are inconsistent across the school community.

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 3:** Students will display an awareness of social-emotional development as measured by the district administered student survey and campus expectations.

**Evaluation Data Sources:** DES Citizenship plan, Conduct Grades, District survey

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                | Reviews   |     |     |           |

**Performance Objective 3 Problem Statements:**

| Student Learning                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> While there are areas of improvement in student achievement, such as the significant gains in 3rd grade Reading and Math in 2025, student performance across grade levels remains inconsistent, with notable declines in Science and upper-grade Math and Reading. Specifically, 5th grade Science Meets dropped from 32% in 2022 to just 17% in 2025, and 4th grade Reading and Math show a downward trend. <b>Root Cause:</b> There has been limited protected time for teacher collaboration within vertical alignment across grade levels. Without consistent opportunities to analyze student data, align curriculum, and plan instruction collectively, teachers face challenges in scaffolding learning effectively from one grade level to the next--especially in Science and Math, where conceptual understanding builds over time. |

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 4:** Identify students who are in need of MTSS behavioral Tiers 2 and 3.

**Evaluation Data Sources:** Behavioral MTSS data records

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          | Reviews   |     |     |           |

**Performance Objective 4 Problem Statements:**

| Student Learning                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> While there are areas of improvement in student achievement, such as the significant gains in 3rd grade Reading and Math in 2025, student performance across grade levels remains inconsistent, with notable declines in Science and upper-grade Math and Reading. Specifically, 5th grade Science Meets dropped from 32% in 2022 to just 17% in 2025, and 4th grade Reading and Math show a downward trend. <b>Root Cause:</b> There has been limited protected time for teacher collaboration within vertical alignment across grade levels. Without consistent opportunities to analyze student data, align curriculum, and plan instruction collectively, teachers face challenges in scaffolding learning effectively from one grade level to the next--especially in Science and Math, where conceptual understanding builds over time. |

**Goal 2:** The system will utilize efficient and effective operations to support and improve the learning organization.

**Performance Objective 1:** Increase the annual total average daily attendance (ADA) as compared to the prior school year, through improved student retention, recruitment, and days in attendance.

**Evaluation Data Sources:** 2024-2025 Campus Attendance

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   | Reviews   |     |     |           |

| <p><b>Problem Statement 1:</b> On our Spring survey, Students, staff, and parents report limited opportunities for voice and involvement. Only 59% of students feel their opinions are valued, 12% of staff do not feel engaged in leadership, and 15% of parents feel they lack opportunities to be involved. <b>Root Cause:</b> There are limited campus-wide systems in place to consistently promote student voice, shared staff leadership, and meaningful parent involvement. As a result, engagement opportunities are inconsistent across the school community.</p> |

**Goal 2:** The system will utilize efficient and effective operations to support and improve the learning organization.

**Performance Objective 2:** Use continuous improvement to identify and improve operations and outcomes throughout the campus.

**Evaluation Data Sources:** Evaluation of goal achievement as per department improvement plans.

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          | Reviews   |     |     |           |

**Performance Objective 2 Problem Statements:**

| School Processes & Programs                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> Our campus has implemented the Plan, Do, Study, Act (PDSA) model as a structure for continuous improvement during teacher collaboration times. However, there is inconsistent implementation across classrooms. Classrooms that fully engage in the PDSA process are showing clear evidence of student growth, while others that are not consistently applying the model demonstrate slower progress. <b>Root Cause:</b> The inconsistent impact of the PDSA model across classrooms is primarily due to a lack of ongoing support, monitoring, and clarity around expectations for implementation. While teachers are introduced to the PDSA cycle during collaboration, not all staff have the same level of understanding, coaching, or follow-up to ensure meaningful application. |

**Goal 3:** All students and staff will learn and work in a safe and responsive environment.

**Performance Objective 1:** Increase the percentage of students and staff who report feeling safe at school.

**Evaluation Data Sources:** Staff and student surveys and accident reports

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                | Reviews   |     |     |           |

**Performance Objective 1 Problem Statements:**

| Perceptions                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> On our Spring survey, Students, staff, and parents report limited opportunities for voice and involvement. Only 59% of students feel their opinions are valued, 12% of staff do not feel engaged in leadership, and 15% of parents feel they lack opportunities to be involved. <b>Root Cause:</b> There are limited campus-wide systems in place to consistently promote student voice, shared staff leadership, and meaningful parent involvement. As a result, engagement opportunities are inconsistent across the school community. |

**Goal 3:** All students and staff will learn and work in a safe and responsive environment.

**Performance Objective 2:** Reduce the cost of accidents resulting in workers' compensation claims by 10% over the previous year and reduce the number of work days lost each year due to accidents occurring on the job by 10%.

**Evaluation Data Sources:** Annual report of worker's compensation claims

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        | Reviews   |     |     |           |

**Performance Objective 2 Problem Statements:**

| School Processes & Programs                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> Our campus has implemented the Plan, Do, Study, Act (PDSA) model as a structure for continuous improvement during teacher collaboration times. However, there is inconsistent implementation across classrooms. Classrooms that fully engage in the PDSA process are showing clear evidence of student growth, while others that are not consistently applying the model demonstrate slower progress. <b>Root Cause:</b> The inconsistent impact of the PDSA model across classrooms is primarily due to a lack of ongoing support, monitoring, and clarity around expectations for implementation. While teachers are introduced to the PDSA cycle during collaboration, not all staff have the same level of understanding, coaching, or follow-up to ensure meaningful application. |

**Goal 3:** All students and staff will learn and work in a safe and responsive environment.

**Performance Objective 3:** The campus will meet all compliance requirements for improvement planning.

**Evaluation Data Sources:** Campus Site Base Team Meetings

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            | Reviews   |     |     |           |

# Comprehensive Needs Assessment

Revised/Approved: March 26, 2026

## Demographics

### Demographics Summary

Foster Village Elementary serves a diverse student population of 430 students. The campus is primarily composed of White (39%) and Hispanic (33%) students, with smaller populations of Black students (14%), Asian students (6%), and those identifying as Two or More Races (6%). The school supports a range of student needs, including 22% in Special Education, 17% Emergent Bilingual, 6% with Dyslexia, 6% in the GATE program, and 4% receiving 504 services. Additionally, 61% of students are Economically Disadvantaged, and 59% are identified as At Risk, reflecting the challenges and opportunities within the school community. The average attendance for 2024-2025 was 95.2%.

### Demographics Strengths

Foster Village Elementary's diverse student population is a key strength, with a mix of White, Hispanic, Black, and Asian students contributing to a culturally rich environment. The school is well-equipped to support a variety of student needs, including those in Special Education, Emergent Bilingual programs, and Dyslexia services. Additionally, the school's commitment to advanced learners is evident through its GATE program. The diversity and comprehensive support services create an inclusive and supportive learning environment, ensuring that all students have the opportunity to succeed.

### Problem Statements Identifying Demographics Needs

**Problem Statement 1 (Prioritized):** Foster Village Elementary has experienced a notable increase in the percentage of Emergent Bilingual students, rising from 14.51% in 2020/21 to 16.74% in 2024/25. This growing population presents a challenge as the school must effectively address the evolving needs of these students. Despite a rise in percentage, academic outcomes for Emergent Bilingual students show room for improvement.

**Root Cause:** The increasing proportion of Emergent Bilingual students underscores the need for enhanced support and resources to ensure that these students achieve academic success and fully integrate into the learning environment. Addressing this trend is critical for closing achievement gaps and supporting the diverse linguistic needs of the student body.

**Problem Statement 2 (Prioritized):** Special Education students at Foster Village Elementary are not making adequate progress in closing the gaps, with only 26% meeting grade-level standards in Reading/Language Arts and 29% in Mathematics, compared to higher overall student averages. Their academic growth scores also lag behind, indicating significant gaps in achievement and progress.

**Root Cause:** The lower academic performance and growth of Special Education students may be related to the need for more individualized instructional strategies and support services. This indicates an opportunity to refine interventions and provide additional professional development for educators to better meet the diverse needs of these students.

**Problem Statement 3 (Prioritized):** Campus attendance average is 1.5% below attendance target.

**Root Cause:** Insufficient communication of the importance of regular attendance and its impact on student success may contribute to the lower attendance rate, leading to a lack of awareness and urgency among students and staff.

# Student Learning

## Student Learning Summary

### Academic Achievement:

#### *Reading/Language Arts (RLA):*

- **2025 Performance:** 58% of all students met the Grade Level (GL) standard, with the strongest performance in the white group (63%) and lower performance in Asian (40%) and High Focus (49%) groups.

#### *Mathematics:*

- **2025 Performance:** 50% of all students met the GL standard, with the Asian group again performing strongly at 60%, while African American (43%) and High Focus (44%) groups need additional support.

### Academic Growth:

#### *Reading/Language Arts (RLA):*

- **2025 Growth:** 64% overall growth, with the Asian group achieving 80%, but African American growth at 45% highlights the need for focused interventions.

#### *Mathematics:*

- **2025 Growth:** 69% overall growth, with exceptional gains in the Asian group (88%), though African American growth at 61% shows room for improvement.

## Student Learning Strengths

Foster Village Elementary showcases several key strengths in student learning. In Reading/Language Arts (RLA), 58% of all students met the Grade Level (GL) standard, with the White student group excelling at 63%, reflecting a strong foundation in literacy. Academic growth in RLA was also notable, with an overall growth rate of 64% and an impressive 80% growth in the Asian group, indicating the success of targeted instructional strategies. In Mathematics, 50% of students met the GL standard, with the Asian group again demonstrating strong performance at 60%. The school also achieved robust growth in Mathematics, with a 69% overall growth rate and an exceptional 88% growth in the Asian group, highlighting significant gains in mathematical proficiency. These strengths illustrate the effectiveness of the school's focus on academic growth and its ability to support high levels of achievement, particularly among the Asian student group.

## Problem Statements Identifying Student Learning Needs

**Problem Statement 1 (Prioritized):** We do not have at least 80% of students ending the year on tier 1 in grades Kindergarten through second grade. This is causing significant reading gaps in grades third through fifth.

**Root Cause:** District curriculum, tier 1 priorities, and the district literacy initiative is not being implemented with fidelity.

**Problem Statement 2 (Prioritized):** Foster Village Elementary's African American and High Focus student groups lag in academic performance compared to their peers. Only 34%

of African American students met the Reading/Language Arts (RLA) Grade Level standard, and 33% met the Mathematics standard, highlighting significant achievement gaps.

**Root Cause:** The achievement gaps stem from inconsistent implementation of effective instructional strategies across different student groups. While targeted approaches have benefited the Asian student group, similar supports are lacking or not adequately adapted for African American and High Focus students, necessitating more tailored interventions.

# School Processes & Programs

## School Processes & Programs Summary

**Professional Learning Communities (PLCs):** Grade-level teachers at Foster Village Elementary convene weekly, while vertical teams meet every three weeks to collaborate on strategies for enhancing student achievement. These meetings involve lesson planning, discussing instructional strategies, and analyzing data from screeners and common assessments. The focus is on developing comprehensive strategies to support all students. Continuous improvement strategies will be implemented within PLCs at FVE to regularly evaluate and adjust instructional practices based on student progress.

**Collaborative Instructional Review (CIR):** At Foster Village Elementary School, the CIR, supported by a comprehensive eTool, involves coaches and instructional leaders in a four-step collaborative model. This model focuses on calibrating observations based on criteria such as rigor, relevance, student engagement, and relationships. The resulting observation practices and rubrics aim to foster continuous improvement in teaching and learning at Foster Village Elementary, ultimately enhancing student achievement.

**Response to Intervention (RTI):** Academic screeners are used to evaluate student learning in reading and math at Foster Village Elementary. Collaborative groups analyze this data to tailor instruction for students needing additional support. Differentiated instruction is employed at Foster Village Elementary to address gaps in learning and meet the needs of all students.

**Continuous Improvement (CI):** At Foster Village Elementary School, the Continuous Improvement process emphasizes the ongoing enhancement of all campus operations. Student growth is monitored throughout the year, with regular meetings to assess progress. The PDSA (Plan-Do-Study-Act) cycle is applied in every classroom at FVE to develop and implement improvement strategies continuously.

**Make Your Day:** At Foster Village Elementary School, this self-regulation program focuses on social-emotional learning, reflection, discipline, and self-regulation. It aims to equip parents and schools with strategies to effectively reach and teach every child. The skills developed through Make Your Day at FVE are designed to have a lasting positive impact on students' lives and future generations.

## School Processes & Programs Strengths

Our campus excels in fostering a collaborative and data-driven approach to student achievement through its Professional Learning Communities (PLCs), Collaborative Instructional Review (CIR), and Response to Intervention (RTI) processes. By engaging teachers in regular, structured meetings and employing comprehensive tools for instructional review, we ensure a continuous focus on effective teaching strategies and student progress. The integration of Continuous Improvement (CI) practices and Make Your Day further enhances our ability to adapt and refine our methods, ensuring that we address student needs comprehensively and support their long-term success.

## Problem Statements Identifying School Processes & Programs Needs

**Problem Statement 1 (Prioritized):** Our campus has random variation in instructional delivery and student expectations.

**Root Cause:** Teachers do not have the opportunity to plan vertically in order to ensure that instruction is consistent and builds off learning strengths.

# Perceptions

## Perceptions Summary

At this time we have a very positive school climate. Staff treats one another as family and supports those in need. Parents and visitors to the campus comment on the positive school climate. This year our families are excited to get back on campus and participate in campus activities. The Parent Teacher Association is planning several events. The campus leadership team is working with a local church and business to develop a partnership to support students and staff. Last year, our school had a 12% teacher turnover rate. Teachers who left went to another BISD school, or another district, or decided to stay at home with kids. Over the past three years, Foster Village Elementary has maintained strong student attendance rates. The attendance rates were 93.94% for 2021-2022, 93.86% for 2022-2023, and improved to 94.58% for 2023-2024. This consistent performance demonstrates the school's dedication to fostering a supportive and engaging environment that encourages regular student attendance.

At our core, we believe we must prepare young minds to become productive members of society while providing a safe environment for growth and success today. We believe if we provide opportunities for students to grow and the individualized supports that are needed, every child will be successful.

## Perceptions Strengths

We have a positive campus culture. Staff members look out for one another and support each other. A survey is sent out three times a year to collect data, reflect, and make an action plan to better support our culture. The safety surveys indicates that students feel secure at school, have a trusting relationship with at least one adult, and perceive the school environment as safe and respectful.

## Problem Statements Identifying Perceptions Needs

**Problem Statement 1 (Prioritized):** We have a large percentage of our high-performing students that utilize Open Enrollment to attend other BISD schools.

**Root Cause:** This perception may stem from limited communication about the successes, resources, and individualized support available at the current campus.

# Priority Problem Statements

**Problem Statement 1:** We do not have at least 80% of students ending the year on tier 1 in grades Kindergarten through second grade. This is causing significant reading gaps in grades third through fifth.

**Root Cause 1:** District curriculum, tier 1 priorities, and the district literacy initiative is not being implemented with fidelity.

**Problem Statement 1 Areas:** Student Learning

**Problem Statement 2:** Our campus has random variation in instructional delivery and student expectations.

**Root Cause 2:** Teachers do not have the opportunity to plan vertically in order to ensure that instruction is consistent and builds off learning strengths.

**Problem Statement 2 Areas:** School Processes & Programs

**Problem Statement 3:** We have a large percentage of our high-performing students that utilize Open Enrollment to attend other BISD schools.

**Root Cause 3:** This perception may stem from limited communication about the successes, resources, and individualized support available at the current campus.

**Problem Statement 3 Areas:** Perceptions

**Problem Statement 4:** Foster Village Elementary's African American and High Focus student groups lag in academic performance compared to their peers. Only 34% of African American students met the Reading/Language Arts (RLA) Grade Level standard, and 33% met the Mathematics standard, highlighting significant achievement gaps.

**Root Cause 4:** The achievement gaps stem from inconsistent implementation of effective instructional strategies across different student groups. While targeted approaches have benefited the Asian student group, similar supports are lacking or not adequately adapted for African American and High Focus students, necessitating more tailored interventions.

**Problem Statement 4 Areas:** Student Learning

**Problem Statement 5:** Foster Village Elementary has experienced a notable increase in the percentage of Emergent Bilingual students, rising from 14.51% in 2020/21 to 16.74% in 2024/25. This growing population presents a challenge as the school must effectively address the evolving needs of these students. Despite a rise in percentage, academic outcomes for Emergent Bilingual students show room for improvement.

**Root Cause 5:** The increasing proportion of Emergent Bilingual students underscores the need for enhanced support and resources to ensure that these students achieve academic success and fully integrate into the learning environment. Addressing this trend is critical for closing achievement gaps and supporting the diverse linguistic needs of the student body.

**Problem Statement 5 Areas:** Demographics

**Problem Statement 6:** Special Education students at Foster Village Elementary are not making adequate progress in closing the gaps, with only 26% meeting grade-level standards in Reading/Language Arts and 29% in Mathematics, compared to higher overall student averages. Their academic growth scores also lag behind, indicating significant gaps in achievement and progress.

**Root Cause 6:** The lower academic performance and growth of Special Education students may be related to the need for more individualized instructional strategies and support services. This indicates an opportunity to refine interventions and provide additional professional development for educators to better meet the diverse needs of these students.

**Problem Statement 6 Areas:** Demographics

**Problem Statement 7:** Campus attendance average is 1.5% below attendance target.

**Root Cause 7:** Insufficient communication of the importance of regular attendance and its impact on student success may contribute to the lower attendance rate, leading to a lack of awareness and urgency among students and staff.

**Problem Statement 7 Areas:** Demographics

# Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

## Improvement Planning Data

- District goals
- Campus goals
- HB3 Reading and math goals for PreK-3
- HB3 CCMR goals
- Performance Objectives with summative review (prior year)
- Campus/District improvement plans (current and prior years)
- State and federal planning requirements

## Accountability Data

- Texas Academic Performance Report (TAPR) data
- Student Achievement Domain
- Student Progress Domain
- Closing the Gaps Domain
- Effective Schools Framework data
- Comprehensive, Targeted, and/or Additional Targeted Support Identification data
- Accountability Distinction Designations
- RDA data

## Student Data: Assessments

- State and federally required assessment information
- STAAR current and longitudinal results, including all versions
- STAAR released test questions
- STAAR Emergent Bilingual (EB) progress measure data
- Texas English Language Proficiency Assessment System (TELPAS) and TELPAS Alternate results
- Texas Primary Reading Inventory (TPRI), Tejas LEE, or other alternate early reading assessment results
- Running Records results
- Observation Survey results
- Istation Indicators of Progress (ISIP) reading assessment data for Grades PK-2
- Prekindergarten Self-Assessment Tool
- Texas approved PreK - 2nd grade assessment data
- State-developed online interim assessments
- Grades that measure student performance based on the TEKS

## Student Data: Student Groups

- Dyslexia data
- Response to Intervention (RtI) student achievement data

**Student Data: Behavior and Other Indicators**

- Attendance data
- Mobility rate, including longitudinal data
- Discipline records
- Student surveys and/or other feedback
- School safety data
- Enrollment trends

**Employee Data**

- Professional learning communities (PLC) data
- Staff surveys and/or other feedback
- State certified and high quality staff data
- Campus leadership data
- Campus department and/or faculty meeting discussions and data
- Professional development needs assessment data
- Evaluation(s) of professional development implementation and impact

**Parent/Community Data**

- Parent surveys and/or other feedback
- Parent engagement rate
- Community surveys and/or other feedback

# Goals

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 1:** All students will make at least one year's progress in reading and mathematics by the end of school year. a) Meet the progress monitoring targets in Prekindergarten - 3rd for each demographic group as measured by district approved screeners (BOY, MOY and EOY) to achieve the HB3 Board Goals. b) Improve performance in Domain 3 Closing the Gaps by making more than a year's growth in reading and mathematics which would in turn increase the number of students performing at the "meets" and "masters" level as measured by the spring 2026 STAAR and EOC assessments. This will also increase Domain 1 Student Achievement which counts the number of students at the various performance levels for state assessments.

## HB3 Goal

**Evaluation Data Sources:** Elementary: Fountas & Pinnell reading levels, CLI Engage - CIRCLE (prekindergarten reading and math), mClass (kindergarten reading and math), mClass (1-2 reading), Renaissance STAR Assessments(mathematics, 1-5), TEA Interim's (grades 3-5 reading and mathematics)

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     | Reviews   |     |     |           |

Performance Objective 1 Problem Statements:

| Demographics                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> Foster Village Elementary has experienced a notable increase in the percentage of Emergent Bilingual students, rising from 14.51% in 2020/21 to 16.74% in 2024/25. This growing population presents a challenge as the school must effectively address the evolving needs of these students. Despite a rise in percentage, academic outcomes for Emergent Bilingual students show room for improvement. <b>Root Cause:</b> The increasing proportion of Emergent Bilingual students underscores the need for enhanced support and resources to ensure that these students achieve academic success and fully integrate into the learning environment. Addressing this trend is critical for closing achievement gaps and supporting the diverse linguistic needs of the student body. |
| <b>Problem Statement 2:</b> Special Education students at Foster Village Elementary are not making adequate progress in closing the gaps, with only 26% meeting grade-level standards in Reading/Language Arts and 29% in Mathematics, compared to higher overall student averages. Their academic growth scores also lag behind, indicating significant gaps in achievement and progress. <b>Root Cause:</b> The lower academic performance and growth of Special Education students may be related to the need for more individualized instructional strategies and support services. This indicates an opportunity to refine interventions and provide additional professional development for educators to better meet the diverse needs of these students.                                                   |
| <b>Problem Statement 3:</b> Campus attendance average is 1.5% below attendance target. <b>Root Cause:</b> Insufficient communication of the importance of regular attendance and its impact on student success may contribute to the lower attendance rate, leading to a lack of awareness and urgency among students and staff.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| Student Learning                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| <b>Problem Statement 1:</b> We do not have at least 80% of students ending the year on tier 1 in grades Kindergarten through second grade. This is causing significant reading gaps in grades third through fifth. <b>Root Cause:</b> District curriculum, tier 1 priorities, and the district literacy initiative is not being implemented with fidelity.                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| <b>Problem Statement 2:</b> Foster Village Elementary's African American and High Focus student groups lag in academic performance compared to their peers. Only 34% of African American students met the Reading/Language Arts (RLA) Grade Level standard, and 33% met the Mathematics standard, highlighting significant achievement gaps. <b>Root Cause:</b> The achievement gaps stem from inconsistent implementation of effective instructional strategies across different student groups. While targeted approaches have benefited the Asian student group, similar supports are lacking or not adequately adapted for African American and High Focus students, necessitating more tailored interventions.                                                                                               |

| School Processes & Programs                                                                                     |                                                                                                                                                                 |
|-----------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> Our campus has random variation in instructional delivery and student expectations. | <b>Root Cause:</b> Teachers do not have the opportunity to plan vertically in order to ensure that instruction is consistent and builds off learning strengths. |

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 2:** Close achievement gaps that exist for all under-performing student groups as measured by state and district assessments. Meet all progress monitoring targets for grades prekindergarten - 3rd in reading and mathematics for identified student groups as measured by a district-approved monitoring instrument.

**HB3 Goal**

**Evaluation Data Sources:** Historical performance by student subgroup on state and district assessments

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                | Reviews   |     |     |           |

### Performance Objective 2 Problem Statements:

## Demographics

**Problem Statement 1:** Foster Village Elementary has experienced a notable increase in the percentage of Emergent Bilingual students, rising from 14.51% in 2020/21 to 16.74% in 2024/25. This growing population presents a challenge as the school must effectively address the evolving needs of these students. Despite a rise in percentage, academic outcomes for Emergent Bilingual students show room for improvement. **Root Cause:** The increasing proportion of Emergent Bilingual students underscores the need for enhanced support and resources to ensure that these students achieve academic success and fully integrate into the learning environment. Addressing this trend is critical for closing achievement gaps and supporting the diverse linguistic needs of the student body.

**Problem Statement 2:** Special Education students at Foster Village Elementary are not making adequate progress in closing the gaps, with only 26% meeting grade-level standards in Reading/Language Arts and 29% in Mathematics, compared to higher overall student averages. Their academic growth scores also lag behind, indicating significant gaps in achievement and progress. **Root Cause:** The lower academic performance and growth of Special Education students may be related to the need for more individualized instructional strategies and support services. This indicates an opportunity to refine interventions and provide additional professional development for educators to better meet the diverse needs of these students.

**Problem Statement 3:** Campus attendance average is 1.5% below attendance target. **Root Cause:** Insufficient communication of the importance of regular attendance and its impact on student success may contribute to the lower attendance rate, leading to a lack of awareness and urgency among students and staff.

## Student Learning

**Problem Statement 1:** We do not have at least 80% of students ending the year on tier 1 in grades Kindergarten through second grade. This is causing significant reading gaps in grades third through fifth. **Root Cause:** District curriculum, tier 1 priorities, and the district literacy initiative is not being implemented with fidelity.

**Problem Statement 2:** Foster Village Elementary's African American and High Focus student groups lag in academic performance compared to their peers. Only 34% of African American students met the Reading/Language Arts (RLA) Grade Level standard, and 33% met the Mathematics standard, highlighting significant achievement gaps. **Root Cause:** The achievement gaps stem from inconsistent implementation of effective instructional strategies across different student groups. While targeted approaches have benefited the Asian student group, similar supports are lacking or not adequately adapted for African American and High Focus students, necessitating more tailored interventions.

## School Processes & Programs

**Problem Statement 1:** Our campus has random variation in instructional delivery and student expectations. **Root Cause:** Teachers do not have the opportunity to plan vertically in order to ensure that instruction is consistent and builds off learning strengths.

## Perceptions

**Problem Statement 1:** We have a large percentage of our high-performing students that utilize Open Enrollment to attend other BISD schools. **Root Cause:** This perception may stem from limited communication about the successes, resources, and individualized support available at the current campus.

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 3:** Students will display an awareness of social-emotional development as measured by a district-administered student survey.

| <b>Problem Statement 3:</b> Campus attendance average is 1.5% below attendance target. <b>Root Cause:</b> Insufficient communication of the importance of regular attendance and its impact on student success may contribute to the lower attendance rate, leading to a lack of awareness and urgency among students and staff.                                                                                                                                                                                                                                                                                                                                                                                    |
| Student Learning                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| <b>Problem Statement 1:</b> We do not have at least 80% of students ending the year on tier 1 in grades Kindergarten through second grade. This is causing significant reading gaps in grades third through fifth. <b>Root Cause:</b> District curriculum, tier 1 priorities, and the district literacy initiative is not being implemented with fidelity.                                                                                                                                                                                                                                                                                                                                                          |
| <b>Problem Statement 2:</b> Foster Village Elementary's African American and High Focus student groups lag in academic performance compared to their peers. Only 34% of African American students met the Reading/Language Arts (RLA) Grade Level standard, and 33% met the Mathematics standard, highlighting significant achievement gaps. <b>Root Cause:</b> The achievement gaps stem from inconsistent implementation of effective instructional strategies across different student groups. While targeted approaches have benefited the Asian student group, similar supports are lacking or not adequately adapted for African American and High Focus students, necessitating more tailored interventions. |
| School Processes & Programs                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| <b>Problem Statement 1:</b> Our campus has random variation in instructional delivery and student expectations. <b>Root Cause:</b> Teachers do not have the opportunity to plan vertically in order to ensure that instruction is consistent and builds off learning strengths.                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| Perceptions                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| <b>Problem Statement 1:</b> We have a large percentage of our high-performing students that utilize Open Enrollment to attend other BISD schools. <b>Root Cause:</b> This perception may stem from limited communication about the successes, resources, and individualized support available at the current campus.                                                                                                                                                                                                                                                                                                                                                                                                |

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 4:** Reduce the number of students assigned to behavior RtI tiers 2 and 3.

**Evaluation Data Sources:** RtI and ABC Meeting minutes and individual student paperwork.

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      | Reviews   |     |     |           |

**Performance Objective 4 Problem Statements:**

| Demographics                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> Foster Village Elementary has experienced a notable increase in the percentage of Emergent Bilingual students, rising from 14.51% in 2020/21 to 16.74% in 2024/25. This growing population presents a challenge as the school must effectively address the evolving needs of these students. Despite a rise in percentage, academic outcomes for Emergent Bilingual students show room for improvement. <b>Root Cause:</b> The increasing proportion of Emergent Bilingual students underscores the need for enhanced support and resources to ensure that these students achieve academic success and fully integrate into the learning environment. Addressing this trend is critical for closing achievement gaps and supporting the diverse linguistic needs of the student body. |
| <b>Problem Statement 2:</b> Special Education students at Foster Village Elementary are not making adequate progress in closing the gaps, with only 26% meeting grade-level standards in Reading/Language Arts and 29% in Mathematics, compared to higher overall student averages. Their academic growth scores also lag behind, indicating significant gaps in achievement and progress. <b>Root Cause:</b> The lower academic performance and growth of Special Education students may be related to the need for more individualized instructional strategies and support services. This indicates an opportunity to refine interventions and provide additional professional development for educators to better meet the diverse needs of these students.                                                   |

### Student Learning

**Problem Statement 1:** We do not have at least 80% of students ending the year on tier 1 in grades Kindergarten through second grade. This is causing significant reading gaps in grades third through fifth. **Root Cause:** District curriculum, tier 1 priorities, and the district literacy initiative is not being implemented with fidelity.

**Problem Statement 2:** Foster Village Elementary's African American and High Focus student groups lag in academic performance compared to their peers. Only 34% of African American students met the Reading/Language Arts (RLA) Grade Level standard, and 33% met the Mathematics standard, highlighting significant achievement gaps. **Root Cause:** The achievement gaps stem from inconsistent implementation of effective instructional strategies across different student groups. While targeted approaches have benefited the Asian student group, similar supports are lacking or not adequately adapted for African American and High Focus students, necessitating more tailored interventions.

### School Processes & Programs

**Problem Statement 1:** Our campus has random variation in instructional delivery and student expectations. **Root Cause:** Teachers do not have the opportunity to plan vertically in order to ensure that instruction is consistent and builds off learning strengths.

**Goal 2:** The system will utilize efficient and effective operations to support and improve the learning organization.

**Performance Objective 1:** Increase the annual total average daily attendance (ADA) as compared to the prior school year, through improved student retention, recruitment, and days in attendance.

**Evaluation Data Sources:** Focus and ODS

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              | Reviews   |     |     |           |

| <b>Problem Statement 2:</b> Special Education students at Foster Village Elementary are not making adequate progress in closing the gaps, with only 26% meeting grade-level standards in Reading/Language Arts and 29% in Mathematics, compared to higher overall student averages. Their academic growth scores also lag behind, indicating significant gaps in achievement and progress. <b>Root Cause:</b> The lower academic performance and growth of Special Education students may be related to the need for more individualized instructional strategies and support services. This indicates an opportunity to refine interventions and provide additional professional development for educators to better meet the diverse needs of these students. |
| <b>Problem Statement 3:</b> Campus attendance average is 1.5% below attendance target. <b>Root Cause:</b> Insufficient communication of the importance of regular attendance and its impact on student success may contribute to the lower attendance rate, leading to a lack of awareness and urgency among students and staff.                                                                                                                                                                                                                                                                                                                                                                                                                                |

### Student Learning

**Problem Statement 2:** Foster Village Elementary's African American and High Focus student groups lag in academic performance compared to their peers. Only 34% of African American students met the Reading/Language Arts (RLA) Grade Level standard, and 33% met the Mathematics standard, highlighting significant achievement gaps. **Root Cause:** The achievement gaps stem from inconsistent implementation of effective instructional strategies across different student groups. While targeted approaches have benefited the Asian student group, similar supports are lacking or not adequately adapted for African American and High Focus students, necessitating more tailored interventions.

### School Processes & Programs

**Problem Statement 1:** Our campus has random variation in instructional delivery and student expectations. **Root Cause:** Teachers do not have the opportunity to plan vertically in order to ensure that instruction is consistent and builds off learning strengths.

**Goal 2:** The system will utilize efficient and effective operations to support and improve the learning organization.

**Performance Objective 2:** Use continuous improvement to identify and improve operations and outcomes in all areas.

**Evaluation Data Sources:** Use continuous improvement to identify and improve operations and outcomes in every aspect of campus.

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    | Reviews   |     |     |           |

**Performance Objective 2 Problem Statements:**

| Demographics                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p><b>Problem Statement 1:</b> Foster Village Elementary has experienced a notable increase in the percentage of Emergent Bilingual students, rising from 14.51% in 2020/21 to 16.74% in 2024/25. This growing population presents a challenge as the school must effectively address the evolving needs of these students. Despite a rise in percentage, academic outcomes for Emergent Bilingual students show room for improvement. <b>Root Cause:</b> The increasing proportion of Emergent Bilingual students underscores the need for enhanced support and resources to ensure that these students achieve academic success and fully integrate into the learning environment. Addressing this trend is critical for closing achievement gaps and supporting the diverse linguistic needs of the student body.</p> <p><b>Problem Statement 2:</b> Special Education students at Foster Village Elementary are not making adequate progress in closing the gaps, with only 26% meeting grade-level standards in Reading/Language Arts and 29% in Mathematics, compared to higher overall student averages. Their academic growth scores also lag behind, indicating significant gaps in achievement and progress. <b>Root Cause:</b> The lower academic performance and growth of Special Education students may be related to the need for more individualized instructional strategies and support services. This indicates an opportunity to refine interventions and provide additional professional development for educators to better meet the diverse needs of these students.</p> |

| Demographics                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |

| <b>Problem Statement 3:</b> Campus attendance average is 1.5% below attendance target. <b>Root Cause:</b> Insufficient communication of the importance of regular attendance and its impact on student success may contribute to the lower attendance rate, leading to a lack of awareness and urgency among students and staff.                                                                                                                                                                                                                                                                                                                                                                                    |
| Student Learning                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| <b>Problem Statement 1:</b> We do not have at least 80% of students ending the year on tier 1 in grades Kindergarten through second grade. This is causing significant reading gaps in grades third through fifth. <b>Root Cause:</b> District curriculum, tier 1 priorities, and the district literacy initiative is not being implemented with fidelity.                                                                                                                                                                                                                                                                                                                                                          |
| <b>Problem Statement 2:</b> Foster Village Elementary's African American and High Focus student groups lag in academic performance compared to their peers. Only 34% of African American students met the Reading/Language Arts (RLA) Grade Level standard, and 33% met the Mathematics standard, highlighting significant achievement gaps. <b>Root Cause:</b> The achievement gaps stem from inconsistent implementation of effective instructional strategies across different student groups. While targeted approaches have benefited the Asian student group, similar supports are lacking or not adequately adapted for African American and High Focus students, necessitating more tailored interventions. |
| School Processes & Programs                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| <b>Problem Statement 1:</b> Our campus has random variation in instructional delivery and student expectations. <b>Root Cause:</b> Teachers do not have the opportunity to plan vertically in order to ensure that instruction is consistent and builds off learning strengths.                                                                                                                                                                                                                                                                                                                                                                                                                                     |

**Goal 3:** All students and staff will learn and work in a safe and responsive environment.

**Performance Objective 1:** Increase the percentage of students and staff who report feeling safe at school.

**Evaluation Data Sources:** District and Campus Surveys

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 | Reviews   |     |     |           |

| Demographics                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p><b>Problem Statement 1:</b> Foster Village Elementary has experienced a notable increase in the percentage of Emergent Bilingual students, rising from 14.51% in 2020/21 to 16.74% in 2024/25. This growing population presents a challenge as the school must effectively address the evolving needs of these students. Despite a rise in percentage, academic outcomes for Emergent Bilingual students show room for improvement. <b>Root Cause:</b> The increasing proportion of Emergent Bilingual students underscores the need for enhanced support and resources to ensure that these students achieve academic success and fully integrate into the learning environment. Addressing this trend is critical for closing achievement gaps and supporting the diverse linguistic needs of the student body.</p> <p><b>Problem Statement 2:</b> Special Education students at Foster Village Elementary are not making adequate progress in closing the gaps, with only 26% meeting grade-level standards in Reading/Language Arts and 29% in Mathematics, compared to higher overall student averages. Their academic growth scores also lag behind, indicating significant gaps in achievement and progress. <b>Root Cause:</b> The lower academic performance and growth of Special Education students may be related to the need for more individualized instructional strategies and support services. This indicates an opportunity to refine interventions and provide additional professional development for educators to better meet the diverse needs of these students.</p> <p><b>Problem Statement 3:</b> Campus attendance average is 1.5% below attendance target. <b>Root Cause:</b> Insufficient communication of the importance of regular attendance and its impact on student success may contribute to the lower attendance rate, leading to a lack of awareness and urgency among students and staff.</p> |
| Student Learning                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| <p><b>Problem Statement 1:</b> We do not have at least 80% of students ending the year on tier 1 in grades Kindergarten through second grade. This is causing significant reading gaps in grades third through fifth. <b>Root Cause:</b> District curriculum, tier 1 priorities, and the district literacy initiative is not being implemented with fidelity.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

Student Learning

**Problem Statement 2:** Foster Village Elementary's African American and High Focus student groups lag in academic performance compared to their peers. Only 34% of African American students met the Reading/Language Arts (RLA) Grade Level standard, and 33% met the Mathematics standard, highlighting significant achievement gaps. **Root Cause:** The achievement gaps stem from inconsistent implementation of effective instructional strategies across different student groups. While targeted approaches have benefited the Asian student group, similar supports are lacking or not adequately adapted for African American and High Focus students, necessitating more tailored interventions.

**Goal 3:** All students and staff will learn and work in a safe and responsive environment.

**Performance Objective 2:** Reduce the cost of accidents resulting in workers' compensation claims by 10% over the previous year and reduce the number of work days lost each year due to accidents occurring on the job by 10%.

**Evaluation Data Sources:** Annual report of worker's compensation claims

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     | Reviews   |     |     |           |

**Performance Objective 2 Problem Statements:**

| Demographics                                                                                                                                                                                                                                                                                                                                               |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 3:</b> Campus attendance average is 1.5% below attendance target. <b>Root Cause:</b> Insufficient communication of the importance of regular attendance and its impact on student success may contribute to the lower attendance rate, leading to a lack of awareness and urgency among students and staff.                           |
| Student Learning                                                                                                                                                                                                                                                                                                                                           |
| <b>Problem Statement 1:</b> We do not have at least 80% of students ending the year on tier 1 in grades Kindergarten through second grade. This is causing significant reading gaps in grades third through fifth. <b>Root Cause:</b> District curriculum, tier 1 priorities, and the district literacy initiative is not being implemented with fidelity. |

School Processes & Programs

**Problem Statement 1:** Our campus has random variation in instructional delivery and student expectations. **Root Cause:** Teachers do not have the opportunity to plan vertically in order to ensure that instruction is consistent and builds off learning strengths.

**Goal 3:** All students and staff will learn and work in a safe and responsive environment.

**Performance Objective 3:** This campus will meet all compliance requirements for state and federal health programs.

**Evaluation Data Sources:** All state and federal health deadlines are met within the time frame set by the district.

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             | Reviews   |     |     |           |

**Performance Objective 3 Problem Statements:**

### Demographics

**Problem Statement 1:** Foster Village Elementary has experienced a notable increase in the percentage of Emergent Bilingual students, rising from 14.51% in 2020/21 to 16.74% in 2024/25. This growing population presents a challenge as the school must effectively address the evolving needs of these students. Despite a rise in percentage, academic outcomes for Emergent Bilingual students show room for improvement. **Root Cause:** The increasing proportion of Emergent Bilingual students underscores the need for enhanced support and resources to ensure that these students achieve academic success and fully integrate into the learning environment. Addressing this trend is critical for closing achievement gaps and supporting the diverse linguistic needs of the student body.

**Problem Statement 3:** Campus attendance average is 1.5% below attendance target. **Root Cause:** Insufficient communication of the importance of regular attendance and its impact on student success may contribute to the lower attendance rate, leading to a lack of awareness and urgency among students and staff.

### Student Learning

**Problem Statement 1:** We do not have at least 80% of students ending the year on tier 1 in grades Kindergarten through second grade. This is causing significant reading gaps in grades third through fifth. **Root Cause:** District curriculum, tier 1 priorities, and the district literacy initiative is not being implemented with fidelity.

### School Processes & Programs

**Problem Statement 1:** Our campus has random variation in instructional delivery and student expectations. **Root Cause:** Teachers do not have the opportunity to plan vertically in order to ensure that instruction is consistent and builds off learning strengths.

# Comprehensive Needs Assessment

## Demographics

### Demographics Summary

Hardeman Elementary is a Title I school that served 600 students, Pre-k-5th grade, during the 2024-2025 school year. Our campus demographics are detailed below.

### Student Demographics – Grace E. Hardeman Elementary

- **Gender:** Female – 49.83% (299); Male – 50.17% (301)
- PK-5th/ACCESS/AABLE 1 and 2
- **Ethnicity/Race:**
  - Hispanic/Latino – 37% (222)
  - White – 35.83% (215)
  - Black/African American – 10.5% (63)
  - Asian – 8.17% (49)
  - Two-or-More – 7.17% (43)
  - Native Hawaiian/Pacific Islander – 1% (6)
  - American Indian/Alaskan Native – 0.33% (2)
- **Student Programs:**
  - Special Education – 25.67% (154)
  - Dyslexia – 6.17% (37)
  - Section 504 – 3.83% (23)
  - Gifted & Talented – 5.67% (34)
- **Bilingual/ESL:**
  - Emergent Bilingual – 16.5% (99)
  - ESL – 14% (84)

- Bilingual Program – 0%
- **Title I:**
  - Schoolwide Program – 100% (600 students)
- **Student Indicators:**
  - At-Risk – 64% (384)
  - Intervention Indicator – 59% (354)
  - Immigrant – 1.33% (8)
  - Military Connected – 1% (6)
  - Transfer-In Students – 3.83% (23)
- **Economic Disadvantage:**
  - Total – 65% (390)
  - Free Meals – 53% (318)
  - Reduced-Price Meals – 12% (72)
- Homeless/Foster Care/Unschooler Refugee: 0%

Grace E. Hardeman Elementary School currently employs 85 individuals. We place a high priority on recruiting and hiring teachers with a passion for working with students. All new teachers to the profession participate in the district's new teacher mentor program and are assigned a campus mentor. One hundred percent of the certified teachers on staff are English as a Second Language certified. Teachers in Kindergarten through third grade and some support staff have been trained or are currently participating in the Texas Reading Academy. Grace E. Hardeman uses a Professional Learning Community (PLC +) model to provide collaborative opportunities for successful communication of the campus routines, procedures, and philosophy for all staff members. Grade level team outlooks are positive and productive. GEH is developing a strong Parent Teacher Association (PTA). The Executive Board of the PTA is made up of parents and staff members who work collaboratively to encourage family engagement and community involvement to enhance the goals of the campus.

## Demographics Strengths

- Balanced Gender Distribution – Male (50.17%) and Female (49.83%) are nearly equal, ensuring balanced representation across programs and activities.
- Diversity of Student Population – Strong ethnic/racial diversity (37% Hispanic, 10.5% Black, 8.17% Asian, 7.17% Two-or-More), which enriches cultural perspectives and opportunities for inclusive learning.

- High Participation in Title I Schoolwide Program (100%) – Provides access to additional resources and funding to support student achievement and interventions.
- Strong Identification of Student Needs – A High percentage of identified Special Education (25.67%), Dyslexia (6.17%), and Section 504 (3.83%) indicates proactive screening and support structures.
- Commitment to Intervention – 59% identified for intervention, showing early recognition and response to learning needs.
- Strong focus on intervention and at-risk support, ensuring students’ academic and social-emotional needs are addressed.
- Teacher retention for the campus is high.
- The campus PTA has grown, and the board is made up of involved parents.

### **Problem Statements Identifying Demographics Needs**

**Problem Statement 1 (Prioritized):** A high percentage of students (64%) are identified as at-risk, and 59% require intervention, while 65% are economically disadvantaged. These factors contribute to persistent achievement gaps and highlight the need for consistent, high-quality Tier I instruction and targeted interventions to ensure equitable student outcomes.

**Root Cause:** Persistent achievement gaps among at-risk and economically disadvantaged students stem from inconsistent Tier I instructional practices, limited differentiation to meet diverse learning needs, and varying levels of fidelity in intervention and language support programs.

## Student Learning

### Student Learning Summary

## STAAR Performance 2025

| Subject/Grade   | Total Students | Percent Score | Approaches (%) | Meets (%) | Masters (%) |
|-----------------|----------------|---------------|----------------|-----------|-------------|
| RLA Grade 3     | 90             | 50.36         | 75.56          | 44.44     | 18.89       |
| RLA Grade 4     | 81             | 56.15         | 86.42          | 56.79     | 24.69       |
| RLA Grade 5     | 86             | 62.3          | 80.23          | 62.79     | 40.7        |
| Math Grade 3    | 91             | 59.28         | 79.12          | 54.95     | 21.98       |
| Math Grade 4    | 79             | 55.19         | 65.82          | 45.57     | 21.52       |
| Math Grade 5    | 88             | 63.77         | 82.95          | 62.5      | 28.41       |
| Science Grade 5 | 86             | 60.64         | 76.74          | 44.19     | 22.09       |

Overall, student performance shows steady improvement from Grade 3 to Grade 5 across subjects. In **Reading Language Arts**, Grade 3 begins with 75.56% Approaches, 44.44% Meets, and 18.89% Masters, while by Grade 5, results climb to 80.23% Approaches, 62.79% Meets, and 40.70% Masters, indicating strong growth in literacy achievement over time. In **Mathematics**, Grade 3 results are solid, with 79.12% Approaches and 54.95% Meets. However, Grade 4 performance dips before rebounding in Grade 5, where 82.95% Approaches and 62.50% Meets are achieved. **Science in Grade 5** shows 76.74% Approaches, 44.19% Meets, and 22.09% Masters, which, while strong in Approaches, trails behind Math and RLA in higher levels of mastery.

This data highlights overall academic growth by the end of elementary school, with the strongest outcomes evident in Grade 5 across both Reading and Math, while Science remains an area for further development.

## Student Learning Strengths

### Strengths

- **RLA Growth:** Student mastery increases steadily from Grade 3 (18.89%) to Grade 5 (40.70%), showing strong literacy development over time.
- **High Approaches Rates:** Across subjects, the majority of students are reaching Approaches (75–86%), indicating a strong foundation of grade-level readiness.
- **Math Strength in Grade 5:** Students demonstrate notable achievement with 62.50% Meets and 28.41% Masters, the strongest math results campus-wide.
- **Fourth Grade:** Made growth in both RLA and Math STAAR from the previous year.

### Problem Statements Identifying Student Learning Needs

**Problem Statement 1 (Prioritized):** A high percentage of students (64%) are identified as at-risk, and 59% require intervention, while 65% are economically disadvantaged. These factors contribute to persistent achievement gaps and highlight the need for consistent, high-quality Tier I instruction and targeted interventions to ensure equitable student outcomes.  
**Root Cause:** Persistent achievement gaps among at-risk and economically disadvantaged students stem from inconsistent Tier I instructional practices, limited differentiation to meet diverse learning needs, and varying levels of fidelity in intervention and language support programs.

**Problem Statement 2:** Inconsistent use and understanding of a schoolwide Positive Behavior Intervention System has led to a lack of clarity and consistency in behavior expectations, which impacts student behavior and learning.  
**Root Cause:** Frequent changes in campus leadership have prevented the development and sustainability of a consistent PBIS program.

**Problem Statement 3:** While the majority of students are achieving at the Approaches level across subjects, significant gaps remain in students reaching Meets and Masters, particularly in early grade RLA (Grade 3: 44% Meets, 19% Masters) and Grade 4 Mathematics (46% Meets, 22% Masters). Additionally, Grade 5 Science lags behind other content areas, with only 44% Meets and 22% Masters.  
**Root Cause:** Early grade instruction is not consistently providing the rigor needed for students to build a strong foundation, resulting in fewer students meeting or mastering standards in Grade 3 RLA and Grade 4 Math.

# School Processes & Programs

## School Processes & Programs Summary

At Hardeman Elementary, we are proud to provide a variety of programs and services that ensure every student has the opportunity to thrive.

- **Full-Day Pre-Kindergarten:** Our Pre-K program offers young learners a comprehensive and nurturing environment where they develop critical foundational skills. Children engage in hands-on learning experiences that promote cognitive, social, and emotional growth, setting the stage for future academic success.
- **Dyslexia Services:** We are committed to supporting students with dyslexia through specialized, evidence-based programs tailored to their unique learning needs. Our dedicated staff works with students to strengthen reading and writing skills, equipping them with tools for long-term success.
- **Special Education:** Special education services are an integral part of our campus. Our team of skilled professionals collaborates with families to design and implement individualized education plans that foster both academic and personal growth.
- **English as a Second Language (ESL):** Students whose first language is not English benefit from ESL services that help them build language proficiency while accessing the full curriculum.
- **Intervention Programs:** Targeted intervention supports are in place to assist students who need additional help. These programs are designed to close learning gaps, promote grade-level proficiency, and build student confidence.
- **Teacher and Instructional Support:** Our instructional facilitator provides coaching cycles and leads PLC+ work, supporting teachers with professional growth and effective instructional practices.
- **After-School Programs:** We offer a variety of enrichment opportunities beyond the school day, including choir, honors choir, cheerleading, and Beach Club. These programs give students opportunities to explore interests, showcase talents, and build community.
- **Curriculum and Instruction:** Instruction is guided by the Texas Essential Knowledge and Skills (TEKS) and aligned with Birdville ISD's scope and sequences, unit plans, and curriculum previews. Key elements include common and campus-based assessments, explicit and systematic reading programs aligned with the Science of Teaching Reading and Bluebonnet Math
- **Assessment Practices:** Pre-K through 5th grade utilizes multiple screeners such as Circle Progress Monitoring, mClass, and Star Renaissance Reading/Math. Grades 3–5 also use district assessments and STAAR, while TELPAS measures growth for Emergent Bilinguals.
- **Professional Learning Communities (PLC+):** Grade-level PLCs meet weekly with the instructional coach to plan collaboratively, design assessments, and analyze student data through the PDSA (Plan-Do-Study-Act) cycle.
- **Technology Integration:** All classrooms are equipped with Chromebooks, computers, and Smart Boards. Students use educational platforms like Bluebonnet, Canvas, SeeSaw, Class Dojo, Progress Learning, and ST Math. Teachers monitor student use with GoGuardian and use AWARE to create assessments and analyze data. A digital learning specialist provides ongoing support and training.
- **Social and Emotional Learning (SEL):** Hardeman emphasizes SEL through campus-wide use of Love and Logic/CD (transition year) CHAMPS for consistent behavior expectations, as well as Character Strong and Thrive, a curriculum designed to build student character and foster whole-child development

## School Processes & Programs Strengths

Grace E. Hardeman has identified the following strengths

- Weekly PLC+ and extended ART PLC (once a month) with the instructional facilitator and Principal to create common assessments, analyze data, and internalize Bluebonnet curriculum.
- Weekly team planning to identify effective instructional strategies and individual student needs.
- MTSS meetings to identify students in need of additional interventions and provide early intervention strategies for those students.
- A comprehensive curriculum provided by Birdville Independent School District that addresses the TEKs
- One-to-one technology devices are provided to students
- Teachers provide students with instruction geared to their individual needs
- Steam lab and computer lab are part of the Specials rotations
- Wireless access points throughout the building
- Digital learning specialist available for campus needs

## Problem Statements Identifying School Processes & Programs Needs

**Problem Statement 1:** Inconsistent use and understanding of a schoolwide Positive Behavior Intervention System has led to a lack of clarity and consistency in behavior expectations, which impacts student behavior and learning.

**Root Cause:** Frequent changes in campus leadership have prevented the development and sustainability of a consistent PBIS program.

# Perceptions

## Perceptions Summary

### Student Perceptions

- **93%** of students feel safe and welcome.
  - **93%** of students believe peers respect each other and teachers value their thoughts and opinions.
  - **Only 9%** of parents participated in the student climate survey.
- 

### Staff Perceptions

- **97%** of staff report a positive school climate (scores 3–5).
  - **93%** feel respected and supported on campus.
  - **92%** agree or strongly agree that the campus is safe.
  - **100%** agree the school offers opportunities to connect family and community members.
- 

### Parent Perceptions

- **95%** feel welcomed at the school.
- **100%** believe the school climate is caring and supportive.
- **99%** feel the school is a safe place.
- **54%** feel their child is making adequate academic growth.
- **94%** agree or strongly agree that the campus is safe.
- **95%** agree or strongly agree there are opportunities for involvement at school.
- **96%** feel administrators take their feedback into account when making decisions.

### Perceptions Strengths

### Positive Climate Across Groups:

- 93% of students feel safe, welcome, and respected.
- 97% of staff report a positive climate, and 93% feel respected and supported.
- 100% of parents believe the school climate is caring and supportive.
- **Safety:**
  - 92% of staff and 94–99% of parents feel the campus is safe.
  - 93% of students report feeling safe.
- **Relationships & Belonging:**
  - Students feel teachers care about their opinions.
  - Parents (95%) feel welcomed and involved.
  - Staff (100%) and parents (95%) affirm the school offers opportunities for family and community connections.
  - 96% of parents feel administrators consider their feedback.

### Problem Statements Identifying Perceptions Needs

**Problem Statement 1:** Inconsistent use and understanding of a schoolwide Positive Behavior Intervention System has led to a lack of clarity and consistency in behavior expectations, which impacts student behavior and learning.

**Root Cause:** Frequent changes in campus leadership have prevented the development and sustainability of a consistent PBIS program.

**Problem Statement 2 (Prioritized):** While all stakeholders report strong perceptions of safety and a positive school environment, nearly half of parents believe their child is not making adequate academic progress, highlighting a gap between school climate and academic achievement outcomes.

**Root Cause:** Inconsistent rigor in Tier I instruction, limited alignment of interventions to address specific learning gaps, and insufficient communication of student progress to families have contributed to lower parent confidence in academic growth.

**Problem Statement 3 (Prioritized):** Only 9% of parents completed the safety and climate survey, limiting the school's ability to gather representative feedback and accurately identify parent perspectives on school safety, climate, and academic growth.

**Root Cause:** Limited communication methods, lack of parent awareness, and minimal follow-up reminders reduced participation in the safety and climate survey, resulting in low parent response rates and less representative feedback.

# Priority Problem Statements

**Problem Statement 1:** A high percentage of students (64%) are identified as at-risk, and 59% require intervention, while 65% are economically disadvantaged. These factors contribute to persistent achievement gaps and highlight the need for consistent, high-quality Tier I instruction and targeted interventions to ensure equitable student outcomes.

**Root Cause 1:** Persistent achievement gaps among at-risk and economically disadvantaged students stem from inconsistent Tier I instructional practices, limited differentiation to meet diverse learning needs, and varying levels of fidelity in intervention and language support programs.

**Problem Statement 1 Areas:** Demographics - Student Learning

**Problem Statement 2:** While all stakeholders report strong perceptions of safety and a positive school environment, nearly half of parents believe their child is not making adequate academic progress, highlighting a gap between school climate and academic achievement outcomes.

**Root Cause 2:** Inconsistent rigor in Tier I instruction, limited alignment of interventions to address specific learning gaps, and insufficient communication of student progress to families have contributed to lower parent confidence in academic growth.

**Problem Statement 2 Areas:** Perceptions

**Problem Statement 3:** Only 9% of parents completed the safety and climate survey, limiting the school's ability to gather representative feedback and accurately identify parent perspectives on school safety, climate, and academic growth.

**Root Cause 3:** Limited communication methods, lack of parent awareness, and minimal follow-up reminders reduced participation in the safety and climate survey, resulting in low parent response rates and less representative feedback.

**Problem Statement 3 Areas:** Perceptions

# Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

## Improvement Planning Data

- District goals
- Campus goals
- HB3 Reading and math goals for PreK-3
- Performance Objectives with summative review (prior year)
- Campus/District improvement plans (current and prior years)
- Planning and decision making committee(s) meeting data
- State and federal planning requirements

## Accountability Data

- Texas Academic Performance Report (TAPR) data
- Student Achievement Domain
- Student Progress Domain
- Accountability Distinction Designations
- Federal Report Card and accountability data

## Student Data: Assessments

- STAAR current and longitudinal results, including all versions
- Observation Survey results
- Other PreK - 2nd grade assessment data

## Student Data: Student Groups

- Race and ethnicity data, including number of students, academic achievement, discipline, attendance, and rates of progress between groups
- Special programs data, including number of students, academic achievement, discipline, attendance, and rates of progress for each student group
- Economically disadvantaged / Non-economically disadvantaged performance and participation data
- Male / Female performance, progress, and participation data
- Special education/non-special education population including discipline, progress and participation data
- At-risk/non-at-risk population including performance, progress, discipline, attendance, and mobility data
- Emergent Bilingual (EB) /non-EB data, including academic achievement, progress, support and accommodation needs, race, ethnicity, gender etc.
- Gifted and talented data

## Student Data: Behavior and Other Indicators

- Discipline records
- School safety data

## Employee Data

- Professional learning communities (PLC) data
- Staff surveys and/or other feedback

**Parent/Community Data**

- Parent surveys and/or other feedback
- Parent engagement rate

# Goals

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic and social and emotional needs of the student.

**Performance Objective 1:** All students will make at least one year's progress in reading and mathematics by the end of school year. a) Meet the progress monitoring targets in Prekindergarten - 3rd for each demographic group as measured by district approved screeners (BOY, MOY and EOY) to achieve the HB3 Board Goals. b) Improve performance in Domain 3 Closing the Gaps by making more than a year's growth in reading and mathematics which would in turn increase the number of students performing at the "meets" and "masters" level as measured by the spring 2026 STAAR and EOC assessments. This will also increase Domain 1 Student Achievement which counts the number of students at the various performance levels for state assessments.

## **HB3 Goal**

**Evaluation Data Sources:** CLI Engage - CIRCLE (prekindergarten reading and math), mCLASS (kindergarten reading and math), mCLASS (grades 1-2 reading), and Renaissance STAR Assessments (reading, grades 3-5 and mathematics, grades 1-5), DCA's

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           | Reviews   |     |     |           |

### Performance Objective 1 Problem Statements:

### Demographics

**Problem Statement 1:** A high percentage of students (64%) are identified as at-risk, and 59% require intervention, while 65% are economically disadvantaged. These factors contribute to persistent achievement gaps and highlight the need for consistent, high-quality Tier I instruction and targeted interventions to ensure equitable student outcomes. **Root Cause:** Persistent achievement gaps among at-risk and economically disadvantaged students stem from inconsistent Tier I instructional practices, limited differentiation to meet diverse learning needs, and varying levels of fidelity in intervention and language support programs.

### Student Learning

**Problem Statement 1:** A high percentage of students (64%) are identified as at-risk, and 59% require intervention, while 65% are economically disadvantaged. These factors contribute to persistent achievement gaps and highlight the need for consistent, high-quality Tier I instruction and targeted interventions to ensure equitable student outcomes. **Root Cause:** Persistent achievement gaps among at-risk and economically disadvantaged students stem from inconsistent Tier I instructional practices, limited differentiation to meet diverse learning needs, and varying levels of fidelity in intervention and language support programs.

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic and social and emotional needs of the student.

**Performance Objective 2:** Close achievement gaps that exist for all under-performing student groups as measured by state and district assessments. Meet all progress monitoring targets for grades prekindergarten - 3rd in reading and mathematics for identified student groups as measured by a district-approved monitoring instrument.

**HB3 Goal**

**Evaluation Data Sources:** STAAR data, interim data, screener data (mclass, renaissance) and campus assessment data

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    | Reviews   |     |     |           |

| <b>Problem Statement 1:</b> A high percentage of students (64%) are identified as at-risk, and 59% require intervention, while 65% are economically disadvantaged. These factors contribute to persistent achievement gaps and highlight the need for consistent, high-quality Tier I instruction and targeted interventions to ensure equitable student outcomes. <b>Root Cause:</b> Persistent achievement gaps among at-risk and economically disadvantaged students stem from inconsistent Tier I instructional practices, limited differentiation to meet diverse learning needs, and varying levels of fidelity in intervention and language support programs. |

Student Learning

**Problem Statement 1:** A high percentage of students (64%) are identified as at-risk, and 59% require intervention, while 65% are economically disadvantaged. These factors contribute to persistent achievement gaps and highlight the need for consistent, high-quality Tier I instruction and targeted interventions to ensure equitable student outcomes. **Root Cause:** Persistent achievement gaps among at-risk and economically disadvantaged students stem from inconsistent Tier I instructional practices, limited differentiation to meet diverse learning needs, and varying levels of fidelity in intervention and language support programs.

**Goal 2:** The system will utilize efficient and effective operations to support and improve the learning organization.

**Performance Objective 1:** Increase the average daily attendance (ADA) for all students and staff by at least 1% as compared to prior year's attendance data.

**Evaluation Data Sources:** Weekly/monthly attendance reports

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |  | Reviews   |     |     |           |

| <b>Problem Statement 1:</b> A high percentage of students (64%) are identified as at-risk, and 59% require intervention, while 65% are economically disadvantaged. These factors contribute to persistent achievement gaps and highlight the need for consistent, high-quality Tier I instruction and targeted interventions to ensure equitable student outcomes. <b>Root Cause:</b> Persistent achievement gaps among at-risk and economically disadvantaged students stem from inconsistent Tier I instructional practices, limited differentiation to meet diverse learning needs, and varying levels of fidelity in intervention and language support programs. |

### Student Learning

**Problem Statement 1:** A high percentage of students (64%) are identified as at-risk, and 59% require intervention, while 65% are economically disadvantaged. These factors contribute to persistent achievement gaps and highlight the need for consistent, high-quality Tier I instruction and targeted interventions to ensure equitable student outcomes. **Root Cause:** Persistent achievement gaps among at-risk and economically disadvantaged students stem from inconsistent Tier I instructional practices, limited differentiation to meet diverse learning needs, and varying levels of fidelity in intervention and language support programs.

**Goal 2:** The system will utilize efficient and effective operations to support and improve the learning organization.

**Performance Objective 2:** Use continuous improvement to identify and improve campus operations.

**Evaluation Data Sources:** None

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     | Reviews   |     |     |           |

These factors contribute to persistent achievement gaps and highlight the need for consistent, high-quality Tier I instruction and targeted interventions to ensure equitable student outcomes. <b>Root Cause:</b> Persistent achievement gaps among at-risk and economically disadvantaged students stem from inconsistent Tier I instructional practices, limited differentiation to meet diverse learning needs, and varying levels of fidelity in intervention and language support programs. |

| <b>Problem Statement 1:</b> A high percentage of students (64%) are identified as at-risk, and 59% require intervention, while 65% are economically disadvantaged. These factors contribute to persistent achievement gaps and highlight the need for consistent, high-quality Tier I instruction and targeted interventions to ensure equitable student outcomes. <b>Root Cause:</b> Persistent achievement gaps among at-risk and economically disadvantaged students stem from inconsistent Tier I instructional practices, limited differentiation to meet diverse learning needs, and varying levels of fidelity in intervention and language support programs. |

## Perceptions

**Problem Statement 2:** While all stakeholders report strong perceptions of safety and a positive school environment, nearly half of parents believe their child is not making adequate academic progress, highlighting a gap between school climate and academic achievement outcomes. **Root Cause:** Inconsistent rigor in Tier I instruction, limited alignment of interventions to address specific learning gaps, and insufficient communication of student progress to families have contributed to lower parent confidence in academic growth.

**Goal 3:** All students and staff will learn and work in a safe and responsive environment.

**Performance Objective 1:** Increase participation in the annual school safety survey by at least 10% each year through targeted outreach and intentional communication strategies that actively engage students, staff, and parents.

**Evaluation Data Sources:** district survey reports

| <b>Problem Statement 2:</b> While all stakeholders report strong perceptions of safety and a positive school environment, nearly half of parents believe their child is not making adequate academic progress, highlighting a gap between school climate and academic achievement outcomes. <b>Root Cause:</b> Inconsistent rigor in Tier I instruction, limited alignment of interventions to address specific learning gaps, and insufficient communication of student progress to families have contributed to lower parent confidence in academic growth. |
| <b>Problem Statement 3:</b> Only 9% of parents completed the safety and climate survey, limiting the school's ability to gather representative feedback and accurately identify parent perspectives on school safety, climate, and academic growth. <b>Root Cause:</b> Limited communication methods, lack of parent awareness, and minimal follow-up reminders reduced participation in the safety and climate survey, resulting in low parent response rates and less representative feedback.                                                              |

**Goal 3:** All students and staff will learn and work in a safe and responsive environment.

**Performance Objective 2:** Reduce the cost of accidents resulting in worker's compensation claims compared to the previous year.

**Performance Objective 2 Problem Statements:**

| Perceptions                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 2:</b> While all stakeholders report strong perceptions of safety and a positive school environment, nearly half of parents believe their child is not making adequate academic progress, highlighting a gap between school climate and academic achievement outcomes. <b>Root Cause:</b> Inconsistent rigor in Tier I instruction, limited alignment of interventions to address specific learning gaps, and insufficient communication of student progress to families have contributed to lower parent confidence in academic growth. |
| <b>Problem Statement 3:</b> Only 9% of parents completed the safety and climate survey, limiting the school's ability to gather representative feedback and accurately identify parent perspectives on school safety, climate, and academic growth. <b>Root Cause:</b> Limited communication methods, lack of parent awareness, and minimal follow-up reminders reduced participation in the safety and climate survey, resulting in low parent response rates and less representative feedback.                                                              |

# Comprehensive Needs Assessment

## Demographics

### Demographics Summary

Green Valley is located in North Richland Hills in Tarrant County and is part of Birdville Independent School District. It is a small neighborhood school that serves the immediate community as well as a large number of open enrollment students from surrounding areas.

### Demographics Breakdown:

406 total students

Male: 52.2%

Female: 47.8%

White: 58.4%

Hispanic/Latino: 21.7%

Black/African American: 6.2%

Asian: 6.9%

American Indian/Alaska Native: .7%

Two or More: 2.6%

### Special Programs:

Economically Disadvantaged: 26.8%

Limited English Proficient: 5%

Dyslexic: 5%

504 Students: 5.9%

Gifted and Talented: 13.7%

Special Education: 17.2%

Average Daily Attendance: 96.3%

**Demographics change of note:**

In the past five years, the total number of students has decreased, and the percentage of economically disadvantaged students and special education students has increased.

**Demographics Strengths**

Our school benefits from a stable student enrollment in the low 400s over the past four years, with a significant portion of experienced teachers (68% with 6 or more years of experience) and a relatively lower rate of economically disadvantaged students. Green Valley is characterized by a strong and supportive learning environment, bolstered by a low student mobility rate and a favorable 20:1 student-to-teacher ratio, allowing for more personalized instruction and meaningful interactions. A high teacher retention rate reflects a stable and committed staff, contributing to consistent academic support and a sense of continuity for students. The school also places a strong emphasis on building connected relationships with parents and the wider community, fostering collaboration and shared investment in student success. Together, these elements create a warm, family-like culture where students feel valued, supported, and empowered to thrive.

**Problem Statements Identifying Demographics Needs**

**Problem Statement 1 (Prioritized):** Our special education percentage is high and has increased over the last several years resulting in a need to focus on that sub-group.

**Root Cause:** We added two specialized programs to our campus, and dyslexia students have transitioned from 504 to sped.

## Student Learning

### Student Learning Summary

Historical STAAR Data by subject and Grade Level:

#### 3rd Math:

| Year        | Approaches | Meet      | Mast      |
|-------------|------------|-----------|-----------|
| 2019        | 95         | 77        | 48        |
| 2021        | 88         | 60        | 37        |
| 2022        | 82         | 62        | 38        |
| 2023        | 91         | 69        | 31        |

Green Valley holds high academic standards for all students to reach their fullest potential, with high expectations in every content area and grade level. Based on student performance on STAAR, our students have consistently outperformed or grown more than the State in multiple subjects at all performance levels during the last three years.

#### Student Learning Strengths

STAAR scores have historically been higher than state, region, and district levels.

Green Valley has demonstrated exceptional academic performance across various subjects and grade levels, consistently surpassing state and regional benchmarks. In Reading/ Language Arts (RLA), students in the 3rd, 4th, and 5th grades have scored at or above state and regional levels, showcasing strong literacy skills. Similarly, our 3rd, 4th, and 5th grade students have consistently excelled in Math, surpassing state performance for three consecutive years, reflecting our commitment to maintaining high academic standards in numeracy.

#### Problem Statements Identifying Student Learning Needs

**Problem Statement 1 (Prioritized):** Green Valley STAAR math performance has decreased slightly over the last several years.

**Root Cause:** Lack of vertical alignment and professional learning support for teachers as focus has been on RLA.

# School Processes & Programs

## School Processes & Programs Summary

Green Valley Elementary adheres to state and district expectations regarding curriculum and instructional practices. This includes the implementation of the BISD Tier one priorities listed below.

- Engage students with content vocabulary using best practices
- Elicit student thinking through discussions of higher-level questions and open ended tasks and writing activities
- Utilize workshop model to actively engage students in meaningful work such as word work, grammar, writing, "5E model", and daily social studies activities integrated within Reading Language Arts
- Implement responsive teaching by utilizing data from formative assessments to inform instructional decisions that maximize student success
- implement guided reading focused on targeted skills identified through data analysis
- Use UPS Check for problem solving
- Follow TEA guidelines for percentage of daily hands-on instruction for science
- Analyze written and visual primary and secondary resources including maps, graphs, and timelines

Green Valley has extensive curricular programs for all students. Beginning in Pre-Kindergarten, students are assessed in reading and math using universal screening methods that allow teachers and campuses to best meet the needs of all students. In addition, BISD departments including Counseling Services, Advanced Academics, Career and Technical Education (CTE), and Multilingual provide various resources to allow students to individualize their learning experiences. While most students participate in the general curriculum, Green Valley has support systems in place for students behind their peers. A wide range of support systems are provided to students, which may include:

Full Day Pre-K

Dyslexia support

EB support (Bilingual classrooms PK-5th, ESL support PK - 12)

Special Education services

Accelerated Instruction

## School Processes & Programs Strengths

Our campus takes on new initiatives and implements them with fidelity such as ST math, Aware testing, having a plan to implement technology and what that looks like each year. Problem solving conversations and vertical teams working together. Having data folders and building them together and everyone being on board to use them. We all as teams work together to do the best for the scholars.

## Problem Statements Identifying School Processes & Programs Needs

**Problem Statement 1 (Prioritized):** Need to strengthen continuous improvement processes within Professional Learning Communities to strengthen process for analyzing student data and respond to student needs, and apply continuous improvement to all school processes to ensure processes are efficient and effective.

**Root Cause:** We began building capacity in this area last year but are still working to fine tune processes that provided needed time for teachers without losing instruction time.

# Perceptions

## Perceptions Summary

Data based on district safety survey in Spring of 2025:

Student survey shows 92% of students have a trusted adult on campus. That is an increase of 13% from the year prior.

96 percent of students reported feeling safe on campus, which is an increase of 16% from the prior year, and 96% report having a friend they trust which is a 5% increase.

Parent safety survey revealed 97% of parents feel school is safe and orderly and 90% report their student has a trusted adult at school, 92% report respect for all is emphasized.

Staff survey revealed 96% of staff feel this campus is a safe and orderly, and 92% report respect for all is emphasized.

## Perceptions Strengths

Birdville ISD has a well-developed safety plan that teachers and students understand. The district continues to strengthen our plan by having scheduled trainings and drills throughout the year that involve local governmental organizations. Green Valley follows all district safety procedures and protocols throughout the year and has been recognized for our efforts by the student services department multiple times.

The district safety survey shows that our parents and teachers maintain positive perceptions regarding our campus.

Our school is guided by passionate, nurturing educators who are trained in early childhood development and committed to helping every child thrive. Students feel safe both physically and emotionally while engaging in a well-rounded curriculum that includes reading, writing, math, science, social studies, the arts, and physical education. We intentionally teach skills like empathy, resilience, cooperation, and emotional regulation, while strong family partnerships and meaningful community connections further enrich learning at home, at school, and beyond.

## Problem Statements Identifying Perceptions Needs

**Problem Statement 1 (Prioritized):** Although the Student Safety survey shows we increased from 79% of students feel they can talk to a trusted adult on campus to 92%, our goal is for all scholars to have trusting connections with adults on campus.

**Root Cause:** Teachers need to focus on building trusting connections with all scholars.

# Priority Problem Statements

**Problem Statement 1:** Green Valley STAAR math performance has decreased slightly over the last several years.

**Root Cause 1:** Lack of vertical alignment and professional learning support for teachers as focus has been on RLA.

**Problem Statement 1 Areas:** Student Learning

**Problem Statement 2:** Although the Student Safety survey shows we increased from 79% of students feel they can talk to a trusted adult on campus to 92%, our goal is for all scholars to have trusting connections with adults on campus.

**Root Cause 2:** Teachers need to focus on building trusting connections with all scholars.

**Problem Statement 2 Areas:** Perceptions

**Problem Statement 3:** Need to strengthen continuous improvement processes within Professional Learning Communities to strengthen process for analyzing student data and respond to student needs, and apply continuous improvement to all school processes to ensure processes are efficient and effective.

**Root Cause 3:** We began building capacity in this area last year but are still working to fine tune processes that provided needed time for teachers without losing instruction time.

**Problem Statement 3 Areas:** School Processes & Programs

**Problem Statement 4:** Our special education percentage is high and has increased over the last several years resulting in a need to focus on that sub-group.

**Root Cause 4:** We added two specialized programs to our campus, and dyslexia students have transitioned from 504 to sped.

**Problem Statement 4 Areas:** Demographics

# Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

## Improvement Planning Data

- District goals
- Campus goals
- Performance Objectives with summative review (prior year)
- Campus/District improvement plans (current and prior years)
- Planning and decision making committee(s) meeting data

## Accountability Data

- Texas Academic Performance Report (TAPR) data
- Student Achievement Domain
- Student Progress Domain
- Closing the Gaps Domain
- Accountability Distinction Designations
- Federal Report Card and accountability data

## Student Data: Assessments

- STAAR current and longitudinal results, including all versions
- STAAR released test questions
- Texas English Language Proficiency Assessment System (TELPAS) and TELPAS Alternate results
- Student failure and/or retention rates
- Local diagnostic reading assessment data
- Local benchmark or common assessments data
- Texas approved PreK - 2nd grade assessment data
- Other PreK - 2nd grade assessment data
- State-developed online interim assessments
- Grades that measure student performance based on the TEKS

## Student Data: Student Groups

- Race and ethnicity data, including number of students, academic achievement, discipline, attendance, and rates of progress between groups
- Special programs data, including number of students, academic achievement, discipline, attendance, and rates of progress for each student group
- Economically disadvantaged / Non-economically disadvantaged performance and participation data
- Male / Female performance, progress, and participation data
- Special education/non-special education population including discipline, progress and participation data
- At-risk/non-at-risk population including performance, progress, discipline, attendance, and mobility data
- Section 504 data
- Gifted and talented data
- Dyslexia data
- Response to Intervention (RtI) student achievement data

**Student Data: Behavior and Other Indicators**

- Attendance data
- Mobility rate, including longitudinal data
- Discipline records
- Student surveys and/or other feedback
- Class size averages by grade and subject
- School safety data
- Enrollment trends

**Employee Data**

- Professional learning communities (PLC) data
- Staff surveys and/or other feedback
- Teacher/Student Ratio
- Campus department and/or faculty meeting discussions and data
- Professional development needs assessment data

**Parent/Community Data**

- Parent surveys and/or other feedback
- Community surveys and/or other feedback

**Support Systems and Other Data**

- Processes and procedures for teaching and learning, including program implementation
- Communications data
- Study of best practices
- Other additional data

# Goals

**Goal 1:** PK-5 Scholars will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the scholar.

**Performance Objective 1:** All students will make at least one year's progress in reading and mathematics by the end of school year. a) Meet the progress monitoring targets in Prekindergarten - 5th grade for each demographic group as measured by district approved screeners (BOY, MOY and EOY) to achieve the HB3 Board Goals. b) Improve performance in Domain 3 Closing the Gaps by making more than a year's growth in reading and mathematics which would in turn increase the number of students performing at the "meets" and "masters" level as measured by the spring 2025 STAAR and EOC assessments. This will also increase Domain 1 Student Achievement which counts the number of students at the various performance levels for state assessments.

## HB3 Goal

**Evaluation Data Sources:** CLI Engage - CIRCLE (prekindergarten reading and math), mClass (kindergarten reading and math), mClass (grades 1-2 reading), and Renaissance STAR Assessments (reading, grades 3-5 and mathematics, grades 1-5), State interim and STAAR data for grades 3-5

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             | Reviews   |     |     |           |

| <b>Problem Statement 1:</b> Our special education percentage is high and has increased over the last several years resulting in a need to focus on that sub-group. <b>Root Cause:</b> We added two specialized programs to our campus, and dyslexia students have transitioned from 504 to sped.                                                                                                                                                                                                            |
| Student Learning                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| <b>Problem Statement 1:</b> Green Valley STAAR math performance has decreased slightly over the last several years. <b>Root Cause:</b> Lack of vertical alignment and professional learning support for teachers as focus has been on RLA.                                                                                                                                                                                                                                                                  |
| School Processes & Programs                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| <b>Problem Statement 1:</b> Need to strengthen continuous improvement processes within Professional Learning Communities to strengthen process for analyzing student data and respond to student needs, and apply continuous improvement to all school processes to ensure processes are efficient and effective. <b>Root Cause:</b> We began building capacity in this area last year but are still working to fine tune processes that provided needed time for teachers without losing instruction time. |

**Goal 1:** PK-5 Scholars will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the scholar.

**Performance Objective 2:** Close achievement gaps that exist for all under-performing student groups as measured by state and district assessments. Meet all progress monitoring targets for grades prekindergarten - 5th grade in reading and mathematics for identified student groups as measured by a district-approved monitoring instrument.

**HB3 Goal**

**Evaluation Data Sources:** STAAR Data indicating overall Reading/Language Arts, Math, and Science improvement. MTSS (Multi-tiered System of Supports) data sheets and collaboratives

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   | Reviews   |     |     |           |

| <b>Problem Statement 1:</b> Our special education percentage is high and has increased over the last several years resulting in a need to focus on that sub-group. <b>Root Cause:</b> We added two specialized programs to our campus, and dyslexia students have transitioned from 504 to sped.                                                                                                                                                                                                            |
| Student Learning                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| <b>Problem Statement 1:</b> Green Valley STAAR math performance has decreased slightly over the last several years. <b>Root Cause:</b> Lack of vertical alignment and professional learning support for teachers as focus has been on RLA.                                                                                                                                                                                                                                                                  |
| School Processes & Programs                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| <b>Problem Statement 1:</b> Need to strengthen continuous improvement processes within Professional Learning Communities to strengthen process for analyzing student data and respond to student needs, and apply continuous improvement to all school processes to ensure processes are efficient and effective. <b>Root Cause:</b> We began building capacity in this area last year but are still working to fine tune processes that provided needed time for teachers without losing instruction time. |

**Goal 1:** PK-5 Scholars will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the scholar.

**Performance Objective 3:** Scholars will display dispositions indicative of high levels of social-emotional development as measured by district administered student survey.

**Evaluation Data Sources:** survey data, walk-through data, parent and teacher feedback

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                | Reviews   |     |     |           |

| <b>Problem Statement 1:</b> Our special education percentage is high and has increased over the last several years resulting in a need to focus on that sub-group. <b>Root Cause:</b> We added two specialized programs to our campus, and dyslexia students have transitioned from 504 to sped.                                                                                                                                                                                                            |
| School Processes & Programs                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| <b>Problem Statement 1:</b> Need to strengthen continuous improvement processes within Professional Learning Communities to strengthen process for analyzing student data and respond to student needs, and apply continuous improvement to all school processes to ensure processes are efficient and effective. <b>Root Cause:</b> We began building capacity in this area last year but are still working to fine tune processes that provided needed time for teachers without losing instruction time. |
| Perceptions                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| <b>Problem Statement 1:</b> Although the Student Safety survey shows we increased from 79% of students feel they can talk to a trusted adult on campus to 92%, our goal is for all scholars to have trusting connections with adults on campus. <b>Root Cause:</b> Teachers need to focus on building trusting connections with all scholars.                                                                                                                                                               |

**Goal 2:** Our campus system will utilize efficient and effective operations to support and improve learning for scholars and staff in order to expand their impact across the campus and throughout the community.

**Performance Objective 2:** Partner with PTA and community organizations to provide community service and giving opportunities for scholars.

**Evaluation Data Sources:** Scheduled service projects, clothing/food drives with timeline for completion.

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                | Reviews   |     |     |           |

**Performance Objective 2 Problem Statements:**

| Perceptions                                                                                                                                                                                                                                                                                                                                   |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> Although the Student Safety survey shows we increased from 79% of students feel they can talk to a trusted adult on campus to 92%, our goal is for all scholars to have trusting connections with adults on campus. <b>Root Cause:</b> Teachers need to focus on building trusting connections with all scholars. |

**Goal 3:** All scholars and staff will learn and work in a safe and responsive environment.

**Performance Objective 1:** Increase the percentage of scholars and staff who report feeling safe at school.

**Evaluation Data Sources:** District safety survey

**Performance Objective 2 Problem Statements:**

| Perceptions                                                                                                                                                                                                                                                                                                                                   |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> Although the Student Safety survey shows we increased from 79% of students feel they can talk to a trusted adult on campus to 92%, our goal is for all scholars to have trusting connections with adults on campus. <b>Root Cause:</b> Teachers need to focus on building trusting connections with all scholars. |

**Goal 3:** All scholars and staff will learn and work in a safe and responsive environment.

**Performance Objective 3:** Campus will utilize continuous improvement to strengthen systems and fully comply with district safety procedures.

**Evaluation Data Sources:** Navigate 360 reports  
Safety Committee Meeting notes

# Comprehensive Needs Assessment

## Demographics

### Demographics Summary

At Haltom High School, we have observed a continuous increase in our student population, particularly among English Bilingual (EB) students, Hispanic students, and those who are economically disadvantaged. This demographic shift presents both challenges and opportunities for our educational community, as we strive to meet the diverse needs of our students and provide equitable access to resources and support.

Our current enrollment stands at 2,524 students, with a significant majority of 66.5% identifying as Hispanic. The remainder of our student body is composed of 15.9% White, 8.5% African American, 6.1% Asian, and 2.3% identifying as two or more races. Additionally, we have less than 1% of our population identifying as Asian Pacific Islander and American Indian.

Within our special programs, over 900 students are classified as EB, over 300 students are 504, 250 students are SPED, with a little over 100 students are Gifted and Talented (GT).

Over half, at 68.9% of our students are economically disadvantaged.

Our graduation rate for the class of 2023 is 90.9% and our attendance rate was 92.3%.

### Demographics Strengths

Graduation rate exceeds the state average.

Attendance rates have increased by 3%.

We have multiple opportunities for our at-risk students, which include: TSAI Testing, over 25 dual-credit opportunities, over 25 AP course opportunities, PSAT and SAT Test day, and PSAT and SAT Test prep.

We continue to exceed the state passing rate on EOCs in Algebra I and Biology.

### Problem Statements Identifying Demographics Needs

**Problem Statement 1 (Prioritized):** Special Education (SPED), Emergent Bilingual (EB), and Economically Disadvantaged students continue to have disparities in their EOC scores, and our EOC scores have decreased in most areas over the last three years.

**Root Cause:** Haltom HS has a growing population of Special Education (SPED), Emergent Bilingual (EB), and Economically Disadvantaged students who need increased opportunities and support for academic growth.

# Student Learning

## Student Learning Summary

Haltom HS continues to pay close attention to its end-of-course (EOC) exams. While we trended down in most EOC areas, we significantly increased "Masters" for Algebra I, with a growth of over 5%.

Also, six of our AP courses had the highest scores in the last 5 years.

EOC Test Data is below:

### Student Learning Strengths

Haltom HS hosted an AVID Showcase, exemplifying research-based strategies with a focus on engagement and collaboration. Our AVID program has grown with more student enrollment. 2024-2025 Earned the distinction of best high schools in US News and World Report. We have a large percentage of veteran teachers with a culture of teacher involvement and high-quality relationships and instruction.

After school, tutorials are provided for all EOC subjects, with transportation provided.

PD alignment based on research-based strategies and teacher and student needs on campus.

### Problem Statements Identifying Student Learning Needs

**Problem Statement 1 (Prioritized):** We are not showing significant growth in all areas of our EOC assessments, nor are we showing growth in students earning their CCMR point with only 54% earning their point in 2024.

**Root Cause:** Our data indicates we need more targeted and intentional instruction based on student data and a focus on research-based practices and our Tier 1, 2.0 priorities. Our students also have awareness and campus support in completing college entrance exams, dual credit, AP courses, and industry-based certifications.

# School Processes & Programs

## School Processes & Programs Summary

School processes and programs are a top priority for Haltom High School, with student safety being at the forefront of all processes. Student survey results (April 2025) indicate that over 90% of our students feel safe at our school at all times and over 82% feel they have a trusting relationship with at least one adult on campus. This matches our parent survey results (April 2025), where over 85% feel their child is safe at school and over 80% feel their child is in a positive learning environment.

All students and staff wear IDs in school and are checked and monitored as they enter the building, and all doors are locked and secured at all times with frequent safety checks by security. There is a strong administration and staff presence in the hallways throughout the school day.

All staff attend campus professional development where campus instructional expectations are communicated and training is provided over instructional focuses and research-based strategies through AVID.

## School Processes & Programs Strengths

Haltom High School has strong visible leadership and multiple levels of teacher leadership such as department chairs, our Leaders of Learners Committee, and our AVID site team.

We also have PBIS initiatives, such as student celebrations and prizes given throughout the school year for attendance and grades.

Furthermore, we have a strong after-school tutorial program for our EOC subjects as well as strong PLC processes in place for data analysis, collaboration, and student achievement. We also have extension systems in place for Accelerated Instruction (AI), Credit Recovery, IGC, and PSAT/SAT Prep.

PTSA has also grown on our campus, with over a 200% increase in membership and over 84 seniors earning a PTSA cord.

## Problem Statements Identifying School Processes & Programs Needs

**Problem Statement 1 (Prioritized):** Data indicates that there is a need for more uniformity in processes even though there is much success in certain programs, others programs may not be receiving the resources needed.

**Root Cause:** The root cause is related to maintaining a clear evaluation process to see the impact of our programs and processes in place.

# Perceptions

## Perceptions Summary

Haltom High School conducted staff, student, and parent surveys in the spring of 2025. The results indicated over 90% of our students feel safe at school and over 95% felt their teachers had rigorous instruction and set high expectations for their students. Parents felt the same way, in that over 85% felt their child was in a positive learning environment.

Among the staff, they feel we are all committed to high-quality work, expectations are clear, and the resources needed are available to them. Staff also reported having the opportunities to excel in their roles, grow their capacity, and that they are of value and that their contributions matter. However, we still need to work on relevancy and authenticity in the classroom as well as work more with our outside stakeholders. Staff need to be recognized for their efforts throughout the school year.

We plan on continuing these efforts moving forward and creating more opportunities for staff involvement and feedback. These findings highlight a positive and supportive educational environment at Haltom High School, characterized by student safety, academic rigor, and a strong, engaged staff community. Additionally, the campus was ranked as a US News & World Report Best High School in 2024-2025 and is an AVID National Demonstration School campus, further affirming its commitment to excellence.

## Perceptions Strengths

On our campus students and staff feel safe, there are high expectations and students and staff are treated with respect, and all are committed to high quality work. More so, parents feel welcomed on campus and that Haltom High School is a good school giving their child the education they need to be successful.

Also, social media is used to show celebrations of staff and students on campus.

## Problem Statements Identifying Perceptions Needs

**Problem Statement 1 (Prioritized):** Stakeholder engagement is a critical component of student success. Engaging our families, teachers, and students through positivity presents a key opportunity for the 2025-2026 school year.

**Root Cause:** There may be an absence of a deliberate and structured approach to communication and recognition has led to missed opportunities in effectively engaging Spanish-speaking families and celebrating individual and campus achievements.

# Priority Problem Statements

**Problem Statement 1:** We are not showing significant growth in all areas of our EOC assessments, nor are we showing growth in students earning their CCMR point with only 54% earning their point in 2024.

**Root Cause 1:** Our data indicates we need more targeted and intentional instruction based on student data and a focus on research-based practices and our Tier 1, 2.0 priorities. Our students also have awareness and campus support in completing college entrance exams, dual credit, AP courses, and industry-based certifications.

**Problem Statement 1 Areas:** Student Learning

**Problem Statement 2:** Special Education (SPED), Emergent Bilingual (EB), and Economically Disadvantaged students continue to have disparities in their EOC scores, and our EOC scores have decreased in most areas over the last three years.

**Root Cause 2:** Haltom HS has a growing population of Special Education (SPED), Emergent Bilingual (EB), and Economically Disadvantaged students who need increased opportunities and support for academic growth.

**Problem Statement 2 Areas:** Demographics

**Problem Statement 3:** Data indicates that there is a need for more uniformity in processes even though there is much success in certain programs, others programs may not be receiving the resources needed.

**Root Cause 3:** The root cause is related to maintaining a clear evaluation process to see the impact of our programs and processes in place.

**Problem Statement 3 Areas:** School Processes & Programs

**Problem Statement 4:** Stakeholder engagement is a critical component of student success. Engaging our families, teachers, and students through positivity presents a key opportunity for the 2025-2026 school year.

**Root Cause 4:** There may be an absence of a deliberate and structured approach to communication and recognition has led to missed opportunities in effectively engaging Spanish-speaking families and celebrating individual and campus achievements.

**Problem Statement 4 Areas:** Perceptions

# Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

## **Improvement Planning Data**

- District goals
- Campus goals
- HB3 CCMR goals
- Performance Objectives with summative review (prior year)
- Campus/District improvement plans (current and prior years)
- Covid-19 Factors and/or waivers for Assessment, Accountability, ESSA, Missed School Days, Educator Appraisals, etc.
- Planning and decision making committee(s) meeting data

## **Accountability Data**

- Texas Academic Performance Report (TAPR) data
- Student Progress Domain
- Closing the Gaps Domain
- Accountability Distinction Designations

## **Student Data: Assessments**

- State and federally required assessment information
- STAAR current and longitudinal results, including all versions
- STAAR End-of-Course current and longitudinal results, including all versions
- STAAR Emergent Bilingual (EB) progress measure data
- Advanced Placement (AP) and/or International Baccalaureate (IB) assessment data
- SAT and/or ACT assessment data
- PSAT
- ASPIRE

## **Student Data: Student Groups**

- Economically disadvantaged / Non-economically disadvantaged performance and participation data
- Special education/non-special education population including discipline, progress and participation data
- At-risk/non-at-risk population including performance, progress, discipline, attendance, and mobility data
- Emergent Bilingual (EB) /non-EB data, including academic achievement, progress, support and accommodation needs, race, ethnicity, gender etc.

## **Student Data: Behavior and Other Indicators**

- Completion rates and/or graduation rates data
- Attendance data
- Student surveys and/or other feedback

## **Employee Data**

- Staff surveys and/or other feedback

- State certified and high quality staff data

**Parent/Community Data**

- Parent surveys and/or other feedback
- Parent engagement rate

**Support Systems and Other Data**

- Communications data

# Goals

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 1:** Improve performance in Domain 3 Closing the Gaps by making more than a year's growth in reading and mathematics which would in turn increase the number of students performing at the "meets" and "masters" level as measured by the spring 2025 STAAR and EOC assessments. This will also increase Domain 1 Student Achievement which counts the number of students at the various performance levels for state assessments

**Evaluation Data Sources:** Campus and District summative assessment data

Final STAAR EOC testing data

PLC meeting notes

Individual student monitoring

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |  | Reviews   |     |     |           |

Performance Objective 1 Problem Statements:

| Student Learning                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> We are not showing significant growth in all areas of our EOC assessments, nor are we showing growth in students earning their CCMR point with only 54% earning their point in 2024. <b>Root Cause:</b> Our data indicates we need more targeted and intentional instruction based on student data and a focus on research-based practices and our Tier 1, 2.0 priorities. Our students also have awareness and campus support in completing college entrance exams, dual credit, AP courses, and industry-based certifications. |
| School Processes & Programs                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| <b>Problem Statement 1:</b> Data indicates that there is a need for more uniformity in processes even though there is much success in certain programs, others programs may not be receiving the resources needed. <b>Root Cause:</b> The root cause is related to maintaining a clear evaluation process to see the impact of our programs and processes in place.                                                                                                                                                                                          |

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 2:** We will provide increased College Career & Military Readiness (CCMR) opportunities for all students and closely monitor graduation potential of current seniors (providing early interventions as necessary) as evidenced by 90% of the senior class meeting 1 or more performance objectives.

**HB3 Goal**

## Performance Objective 2 Problem Statements:

### Student Learning

**Problem Statement 1:** We are not showing significant growth in all areas of our EOC assessments, nor are we showing growth in students earning their CCMR point with only 54% earning their point in 2024. **Root Cause:** Our data indicates we need more targeted and intentional instruction based on student data and a focus on research-based practices and our Tier 1, 2.0 priorities. Our students also have awareness and campus support in completing college entrance exams, dual credit, AP courses, and industry-based certifications.

### School Processes & Programs

**Problem Statement 1:** Data indicates that there is a need for more uniformity in processes even though there is much success in certain programs, others programs may not be receiving the resources needed. **Root Cause:** The root cause is related to maintaining a clear evaluation process to see the impact of our programs and processes in place.

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 3:** We will focus on increasing our student attendance rate for all students.

**Evaluation Data Sources:** Focus on attendance data

### Performance Objective 3 Problem Statements:

#### School Processes & Programs

**Problem Statement 1:** Data indicates that there is a need for more uniformity in processes even though there is much success in certain programs, others programs may not be receiving the resources needed. **Root Cause:** The root cause is related to maintaining a clear evaluation process to see the impact of our programs and processes in place.

#### Perceptions

**Problem Statement 1:** Stakeholder engagement is a critical component of student success. Engaging our families, teachers, and students through positivity presents a key opportunity for the 2025-2026 school year. **Root Cause:** There may be an absence of a deliberate and structured approach to communication and recognition has led to missed opportunities in effectively engaging Spanish-speaking families and celebrating individual and campus achievements.

**Goal 2:** The system will utilize efficient and effective operations to support and improve the learning organization.

**Performance Objective 1:** We will monitor staff using engagement and collaborative strategies that benefit all students through walkthroughs and AVID instructional walks.

- Evaluation Data Sources:** Student work samples and artifacts
- Professional learning agendas
- Classroom observations/walkthrough data

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       | Reviews   |     |     |           |

### Performance Objective 1 Problem Statements:

### Student Learning

**Problem Statement 1:** We are not showing significant growth in all areas of our EOC assessments, nor are we showing growth in students earning their CCMR point with only 54% earning their point in 2024. **Root Cause:** Our data indicates we need more targeted and intentional instruction based on student data and a focus on research-based practices and our Tier 1, 2.0 priorities. Our students also have awareness and campus support in completing college entrance exams, dual credit, AP courses, and industry-based certifications.

### School Processes & Programs

**Problem Statement 1:** Data indicates that there is a need for more uniformity in processes even though there is much success in certain programs, others programs may not be receiving the resources needed. **Root Cause:** The root cause is related to maintaining a clear evaluation process to see the impact of our programs and processes in place.

**Goal 2:** The system will utilize efficient and effective operations to support and improve the learning organization.

**Performance Objective 2:** All teachers will participate in the ongoing professional learning of strategies and best practices to support and grow literacy in Emergent Bilinguals (EB).

- Evaluation Data Sources:** Professional Learning agendas with a Sheltered Instruction focus
- Ongoing collaboration opportunities with district Multilingual Services Department (push-in lessons and planning with teachers)
- Classroom observations and walk-throughs in Eduphoria in coordination with multilingual and content coordinators

| <b>Problem Statement 1:</b> Special Education (SPED), Emergent Bilingual (EB), and Economically Disadvantaged students continue to have disparities in their EOC scores, and our EOC scores have decreased in most areas over the last three years. <b>Root Cause:</b> Haltom HS has a growing population of Special Education (SPED), Emergent Bilingual (EB), and Economically Disadvantaged students who need increased opportunities and support for academic growth. |
| School Processes & Programs                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| <b>Problem Statement 1:</b> Data indicates that there is a need for more uniformity in processes even though there is much success in certain programs, others programs may not be receiving the resources needed. <b>Root Cause:</b> The root cause is related to maintaining a clear evaluation process to see the impact of our programs and processes in place.                                                                                                       |

**Goal 2:** The system will utilize efficient and effective operations to support and improve the learning organization.

**Performance Objective 3:** We will promote and increase after school tutorials to cover more content areas for all all students using multiple platforms in an effort to provide additional academic enrichment opportunities outside of the school day as evidenced by enrollment numbers throughout the year.

- Evaluation Data Sources:** Artifacts of communication (flyers, emails, social media posts, etc.)
- After school tutoring student participation counts BOY/MOY/EOY
- After school tutoring students academic performance

| <b>Problem Statement 1:</b> Special Education (SPED), Emergent Bilingual (EB), and Economically Disadvantaged students continue to have disparities in their EOC scores, and our EOC scores have decreased in most areas over the last three years. <b>Root Cause:</b> Haltom HS has a growing population of Special Education (SPED), Emergent Bilingual (EB), and Economically Disadvantaged students who need increased opportunities and support for academic growth.                                                                                    |
| Student Learning                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| <b>Problem Statement 1:</b> We are not showing significant growth in all areas of our EOC assessments, nor are we showing growth in students earning their CCMR point with only 54% earning their point in 2024. <b>Root Cause:</b> Our data indicates we need more targeted and intentional instruction based on student data and a focus on research-based practices and our Tier 1, 2.0 priorities. Our students also have awareness and campus support in completing college entrance exams, dual credit, AP courses, and industry-based certifications. |
| School Processes & Programs                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |

**Performance Objective 1 Problem Statements:**

| School Processes & Programs                                                                                                                                                                                                                                                                                                                                         |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> Data indicates that there is a need for more uniformity in processes even though there is much success in certain programs, others programs may not be receiving the resources needed. <b>Root Cause:</b> The root cause is related to maintaining a clear evaluation process to see the impact of our programs and processes in place. |

## Perceptions

**Problem Statement 1:** Stakeholder engagement is a critical component of student success. Engaging our families, teachers, and students through positivity presents a key opportunity for the 2025-2026 school year. **Root Cause:** There may be an absence of a deliberate and structured approach to communication and recognition has led to missed opportunities in effectively engaging Spanish-speaking families and celebrating individual and campus achievements.

**Goal 3:** All students and staff will learn and work in a safe and responsive environment.

**Performance Objective 2:** We will improve and maintain ongoing communication with parents in a thorough and timely manner through social media and Blackboard use for all campus events as evidenced by a 10% increase in parent participation in community events.

- Evaluation Data Sources:** Parent contact documentation via attendance contact program, teacher contact logs.
- Social media documentation provided to district consistently.
- Automated call/text/email blast documentation

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     | Reviews   |     |     |           |

| <b>Problem Statement 1:</b> Stakeholder engagement is a critical component of student success. Engaging our families, teachers, and students through positivity presents a key opportunity for the 2025-2026 school year. <b>Root Cause:</b> There may be an absence of a deliberate and structured approach to communication and recognition has led to missed opportunities in effectively engaging Spanish-speaking families and celebrating individual and campus achievements. |

**Goal 3:** All students and staff will learn and work in a safe and responsive environment.

**Performance Objective 3:** We will monitor and reinforce attendance goals and respond to students in need of support.

- Evaluation Data Sources:** District attendance software.
- Focus reports documenting attendance rates.
- Attendance calls, letters, and contracts.

Performance Objective 3 Problem Statements:

| School Processes & Programs                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> Data indicates that there is a need for more uniformity in processes even though there is much success in certain programs, others programs may not be receiving the resources needed. <b>Root Cause:</b> The root cause is related to maintaining a clear evaluation process to see the impact of our programs and processes in place.                                                                                                                 |
| Perceptions                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| <b>Problem Statement 1:</b> Stakeholder engagement is a critical component of student success. Engaging our families, teachers, and students through positivity presents a key opportunity for the 2025-2026 school year. <b>Root Cause:</b> There may be an absence of a deliberate and structured approach to communication and recognition has led to missed opportunities in effectively engaging Spanish-speaking families and celebrating individual and campus achievements. |

**Goal 3:** All students and staff will learn and work in a safe and responsive environment.

**Performance Objective 4:** Continue to build and maintain a positive campus culture by increasing recognition and celebration of both students and staff achievements throughout the year.

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   | Reviews   |     |     |           |

|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> Data indicates that there is a need for more uniformity in processes even though there is much success in certain programs, others programs may not be receiving the resources needed. <b>Root Cause:</b> The root cause is related to maintaining a clear evaluation process to see the impact of our programs and processes in place.                                                                                                                 |
| Perceptions                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| <b>Problem Statement 1:</b> Stakeholder engagement is a critical component of student success. Engaging our families, teachers, and students through positivity presents a key opportunity for the 2025-2026 school year. <b>Root Cause:</b> There may be an absence of a deliberate and structured approach to communication and recognition has led to missed opportunities in effectively engaging Spanish-speaking families and celebrating individual and campus achievements. |

# Title I

## 1. Comprehensive Needs Assessment (CNA) ESSA Section 1114(b)(6)

### 1.1: Description of CNA Process

*The Comprehensive Needs Assessment was completed in May 2025 based on spring survey feedback, STAAR achievement, TELPAS and universal screener results, attendance, and behavior data compiled in April and May of 2025.*

### 1.2: Location for Evidence of Multiple Meetings Held

Please see Title1Crate for the following documentation.

## 2. Schoolwide Program Plan/Campus Improvement Plan (CIP) ESSA Section 1114(b)

### 2.1: Timeline for Schoolwide Program/CIP Development 1114(b)(1)(A)

Please see Title1Crate for the following documentation.

### 2.2: Stakeholders 1114(b)(2)

The Campus Improvement Plan was developed through the input and involvement of the Haltom High School Site-Based Committee, LOL Committee, and Department Chairs.

### 2.3: Description of Plan Availability, Format, and Language 1114(b)(4)

The Campus Improvement Plan is made available to parents and the public through the campus website in English, and other languages as practicable. The plan is also available through the district website in English, and a printed copy may be requested in the Haltom HS front office.

### 2.4: Description of Plan Coordination (if Applicable) 1114(b)(5)

Throughout the Campus Needs Assessment, 61.5% of students were identified as at-risk based on one or more of the following criteria:

1. low performance on a readiness test or assessment
2. semester failure of two or more academic subjects
3. grade retention

4. lack of satisfactory performance on state-mandated testing
5. pregnancy or parenthood
6. placement in an alternative education program
7. expulsion
8. parole, probation, deferred prosecution, or conditional release
9. drop out status
10. limited English proficiency
11. custody or care of the Department of Protective and Regulatory Services
12. homelessness
13. residing in detention, substance abuse treatment, emergency shelter, psychiatric, halfway house, or foster group home

Additional assistance will be provided to these students through specialized instructional support, mentoring, social-emotional learning programs, tiered interventions, and professional development for teachers to improve their effectiveness.

## **2.5: Statutorily Required Descriptions 1114(b)(7)(A)**

Student learning will be supported through research-based instructional strategies such as:

- AVID
- Workshop Model
- Sheltered Instruction
- Engagement
- Collaboration
- Vocabulary/Word Walls
- Learning Objectives
- PDSA
- Team and relationship building
- CHAMPS
- Intentional Lesson Planning

Increased learning time is also available and provided through pullout intervention programs, targeted tutorials, and after-school Homework Help.

## **3. Evaluation of Program Effectiveness ESSA Section 114(b)(3)**

### **3.1: Location and Confirmation for Evaluation of Program Effectiveness Documentation**

The Campus Needs Assessment (CNA) is completed each spring through a multi-stakeholder collaborative process using multiple sources of data to evaluate the effectiveness of the programs and processes.

The CNA addresses:

1. Demographics
2. Perceptions
3. Student Learning
4. Processes and Programs

The findings of the CNA are used to inform the Campus Improvement Plan (CIP). Both the CNA and the CIP are presented to the Site Based Committee for review and feedback at the end of the school year.

# Comprehensive Needs Assessment

## Demographics

### Demographics Summary

Haltom Middle School is located in Haltom City, Texas which is just northeast of downtown Fort Worth. We have approximately 910 students with 85% qualifying for Free/Reduced Lunch. Our student demographics are as follows: African American- 3%, American Indian-1%, Asian-4%, Hispanic-79%, White-13%, Two or More- 2%. Additionally, HMS has the following special population groups: Gifted and Talented 7%, Special Education 11%, ESL Students 40%, Mobility Rate 12%. We believe that having a positive and collaborative campus culture where everyone works together to do what is needed will help us meet the varied needs of our students. HMS is an AVID campus, which means the entire staff is committed to equipping all students with the academic skills, mindsets, and opportunities needed to be college- and career-ready. Haltom staff values collaboration and effective professional learning communities (PLC's).

### Demographics Strengths

The diversity at HMS is one of our greatest strengths. Our students and staff bring unique backgrounds and perspectives that foster a culture of global learning and mutual respect. These differences enrich classroom discussions and allow us to connect instruction to real-world experiences. As an AVID campus, we are committed to building a college- and career-ready culture where all students thrive. Our students consistently show dedication, perseverance, and grit—overcoming challenges and striving for academic success. Their resilience, combined with the support of a committed staff, creates a learning environment focused on growth, equity, and high expectations for all.

### Problem Statements Identifying Demographics Needs

**Problem Statement 1 (Prioritized):** Students continue to struggle with reading, writing, mathematical reasoning, and critical thinking skills that enable them to perform at or above grade level across all content areas.

**Root Cause:** Students with diverse language backgrounds and experiences take longer to develop strong thinking skills. Our diverse population of students enters school with different levels of preparedness.

**Problem Statement 2 (Prioritized):** Parent involvement, especially with diverse populations, and community partnerships are not as strong as we would like.

**Root Cause:** PTA involvement is in a growing phase after limited activity in recent years.

# Student Learning

## Student Learning Summary

As measured by the most recent summative data, our students continue to be successful in 8th grade math and reading. Over 95% of our 8th grade students were successful on the state exam in 8th grade math, 98% of our students were successful on the state Algebra I exam, and 91% were successful on the 8th grade English exam. Furthermore 7th grade reading and writing made double digit gains on their state testing. Additionally, Haltom students made gains in all areas except for 6th grade reading. In addition to state testing, 99% of our students were successful in passing all of their core classes (Reading, Writing, Math, Social Studies, and Science). Along with success in math, all of our Fine Arts department continues to place very high at UIL competitions (Sweepstakes in band, choir, and theatre). Haltom Middle did not meet accountability system safeguards in the following performance areas: Writing- ELL students, Science- Special Education and ELL students, Social Studies- ELL and special education students. HMS students excel in mathematics. Specifically, 95% of all 8th graders passed the 8th grade state test. Additionally, HMS students consistently qualify for the state engineering competitions (TAME) each year. In addition to our strength in math, HMS has had a DUKE tip scholar every year.

**2024 All Subjects STAAR Scores (Approached, Meets, Masters): 58%; 29%; 10% / 2023: 69%; 40%; 15% / 2022: 69%; 38%; 19% / 2021: 63%; 34%, 14%**

### Combined Tests by Subject (Approached, Meets, Masters)

- ELAR: **2024** 65% 37% 14% / **2023** 73% 45% 15% / **2022:** 73%; 40%; 23% / **2021:** 61%; 32%; 14%
- Math: **2024:** 57%; 29%; 8% / **2023:** 70%; 38%; 14% **2022:** 68%; 38%; 17% / **2021:** 65%; 38%; 17%
- Science: **2024:** 53%; 23%; 6% / **2023:** 76%; 49%; 20% / **2022:** 82%; 52%; 24% / **2021:** 77%; 49%; 24%
- Social Studies: **2024:** 41%; 16%; 5% / **2023:** 51%; 25%; 9% / **2022:** 43%; 17%; 7% / **2021:** 49%; 17%; 6%

### By grade level Math/Reading (Approached, Meets, Masters)

- 6 grade math: 68%; 29%; 7%
- 7 grade math: 47%; 26%; 8%
- 8 grade math: 41%; 18%; 112%
- 6 grade reading: 67%; 42%; 18%
- 7 grade reading: 67%; 32%; 15%
- 8 grade reading: 66%; 35%; 15%

The English Language Proficiency Status target measure set by the state for the TELPAS progress measure is 36%. In 2020-2021 Haltom Middle School did not meet the target with a TELPAS progress rate of 31%. In 2021-2022 Haltom Middle School again did not meet the target with a TELPAS progress rate of 25%. In comparing the progress rate from 2021 and 2022, Haltom Middle School demonstrated a 6% point decrease in students' English language development.

## Student Learning Strengths

### Academic:

- 8th grade science had a 25% in meets/masters increase compared to last year's STAAR test

- AVID classes offered in all three grade levels.
- Honors classes offered in all core subjects
- Gateway to Technology offered for high school credit
- AP Spanish offered for College Credit (80% of students earned college credit)

#### **Fine Arts:**

- 14 students made the All–Birdville/All Region Band
- All 3 band received straight first divisions at the Beach Within Reach Band Contest
- 22 straight years making UIL sweepstakes in Band
- Theatre Department excellent ratings in UIL and successful musical
- Over 80% of our art students who participated in the highly-competitive *District Art Show* received 1<sup>st</sup>, 2<sup>nd</sup> and 3<sup>rd</sup> place awards.
- 14 Students competed on the regional level at Jr VASE and those who participated earned all 4's, with one young artist also winning a silver medal in visual arts.
- At our district art show 16 students received 1<sup>st</sup>, 2<sup>nd</sup> and 3<sup>rd</sup> place ribbons

#### **Problem Statements Identifying Student Learning Needs**

**Problem Statement 1 (Prioritized):** Our 8th grade STAAR scores in Social Studies, Math, Reading, and Algebra indicate a need for improvement.

**Root Cause:** Inconsistent implementation of rigorous instructional practices has led to lower than expected scores.

**Problem Statement 2 (Prioritized):** Overall scores on STAAR have dropped over the past year.

**Root Cause:** Inconsistent implementation of high-quality instructional strategies and limited use of data to drive targeted interventions have contributed to low student performance.

# School Processes & Programs

## School Processes & Programs Summary

Haltom's focus for the year will be on improving our meets and masters on our state testing by providing high rigor, high relevance instruction. An emphasis will be placed on vertical collaboration and the use of technology to enhance instruction and create engagement while teaching hard to teach TEKS. Additionally, we will focus on improving our 8th grade social studies scores.

**Administration Support** - The administration team will work collaboratively with the faculty and staff to provide daily on-going support for the teachers, faculty, parents, students, and community. Open communication and collaboration will be modeled and supported and multiple forms of assistance will be given to whoever is in need.

**Professional Learning Communities (PLC's)** - The teachers and staff at Haltom will continue to participate in Professional Learning Communities (PLC's). Teachers will meet with their vertical teams and content teams to broaden their knowledge of the subjects, discuss and share instructional strategies, and data analysis with the goal of improving instruction.

Professional Learning will focus on getting to know our students, how to differentiate instruction, data analysis, technology tools, collaboration, and designing engaging lessons that meet the needs of our students. The Site Based Decision Making committee will assist in providing professional development to the faculty and staff based on needs of the campus.

The faculty and staff place value on knowing our students and designing engaging work that meets their needs. Our teachers pay attention to all content areas but give additional attention to reading, math, science, social studies, and writing. Student performance data on TEKS objectives are analyzed and used to guide instruction. Individual data based on the TEKS is used to design specific intervention plans to meet the needs of our students. Continuous progress monitoring and implementation of interventions will help us achieve excellence for the 2024-2025 school year.

The 2025-2026 school year will be exciting as our theme is: "**Reflect and Shine As One**" We are aligning our theme with the district and learning that each staff member contributes unique strengths towards a common goal.

## School Processes & Programs Strengths

Mentoring new and experienced teachers is an on-going process at Haltom which fosters a sense of community and PLC. We have two academic coaches to meet the needs of our staff. Multiple opportunities for anonymous feedback to the administration ensures that staff voices are heard and valued at HMS.

## Problem Statements Identifying School Processes & Programs Needs

**Problem Statement 1 (Prioritized):** In the last few years, we have hired new staff members and it is important to recruit highly effective teachers that will continue to build their career here.

**Root Cause:** High staff turnover and challenges in attracting and retaining experienced, highly effective teachers have impacted instructional consistency and long-term campus growth.

**Problem Statement 2 (Prioritized):** Processes and programs need to continue to promote a positive school culture and meet the needs of all students to achieve academic success, including through intentional AVID implementation.

**Root Cause:** A lack of consistent structures and shared ownership of systems like AVID has made it difficult to fully align campus programs with the goal of fostering a unified, student-centered culture.

# Perceptions

## Perceptions Summary

The Haltom Middle School faculty likes to describe themselves like a family. Our school staff embodies a spirit of mutual support and collaboration, consistently working together toward shared goals. They seamlessly blend their diverse skills and perspectives, fostering an environment where each member's contributions are valued and collective success is the primary focus. This cohesive teamwork ensures that both students and staff are empowered to achieve their highest potential.

## Perceptions Strengths

The school staff is widely recognized for their exceptional dedication, adaptability, and collaborative spirit. Their ability to effectively communicate, embrace diverse perspectives, and work towards common objectives strengthens their impact on student achievement and creates a positive, supportive learning environment.

## Problem Statements Identifying Perceptions Needs

**Problem Statement 1 (Prioritized):** Processes and programs need to continue to promote a positive school culture and meet the needs of all students to achieve academic success, including through intentional AVID implementation.

**Root Cause:** A lack of consistent structures and shared ownership of systems like AVID has made it difficult to fully align campus programs with the goal of fostering a unified, student-centered culture.

# Priority Problem Statements

**Problem Statement 1:** Parent involvement, especially with diverse populations, and community partnerships are not as strong as we would like.

**Root Cause 1:** PTA involvement is in a growing phase after limited activity in recent years.

**Problem Statement 1 Areas:** Demographics

**Problem Statement 2:** Our 8th grade STAAR scores in Social Studies, Math, Reading, and Algebra indicate a need for improvement.

**Root Cause 2:** Inconsistent implementation of rigorous instructional practices has led to lower than expected scores.

**Problem Statement 2 Areas:** Student Learning

**Problem Statement 3:** Students continue to struggle with reading, writing, mathematical reasoning, and critical thinking skills that enable them to perform at or above grade level across all content areas.

**Root Cause 3:** Students with diverse language backgrounds and experiences take longer to develop strong thinking skills. Our diverse population of students enters school with different levels of preparedness.

**Problem Statement 3 Areas:** Demographics

**Problem Statement 4:** Processes and programs need to continue to promote a positive school culture and meet the needs of all students to achieve academic success, including through intentional AVID implementation.

**Root Cause 4:** A lack of consistent structures and shared ownership of systems like AVID has made it difficult to fully align campus programs with the goal of fostering a unified, student-centered culture.

**Problem Statement 4 Areas:** School Processes & Programs - Perceptions

**Problem Statement 5:** In the last few years, we have hired new staff members and it is important to recruit highly effective teachers that will continue to build their career here.

**Root Cause 5:** High staff turnover and challenges in attracting and retaining experienced, highly effective teachers have impacted instructional consistency and long-term campus growth.

**Problem Statement 5 Areas:** School Processes & Programs

**Problem Statement 6:** Overall scores on STAAR have dropped over the past year.

**Root Cause 6:** Inconsistent implementation of high-quality instructional strategies and limited use of data to drive targeted interventions have contributed to low student performance.

**Problem Statement 6 Areas:** Student Learning

# Goals

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 1:** Improve performance in Domain 3 Closing the Gaps by making more than a year's growth in reading and mathematics which would in turn increase the number of students performing at the "meets" and "masters" level as measured by the spring 2026 STAAR and EOC assessments. This will also increase Domain 1 Student Achievement which counts the number of students at the various performance levels for state assessments.

## High Priority

**Evaluation Data Sources:** Lexile levels, Renaissance STAR, Texas Education Agency (TEA) Interims reading/English Language Arts (ELA) and mathematics (grades 6-8, and Algebra)

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |  | Reviews   |     |     |           |

| <p><b>Strategy 4:</b> Use professional learning communities to foster teacher collaboration focused on implementing strong Tier 1 instruction that meets individual student needs and increases overall student success.</p> <p><b>Actions:</b> a) Teachers will implement higher-level questioning strategies to increase rigor in Tier I instruction and raise the percentage of students achieving Masters Level scores on the State of Texas Assessment of Academic Readiness (STAAR).<br/> b) Teachers will analyze assessment data to identify individual student strengths and weaknesses and use the data to guide future instruction.<br/> c) Teachers will provide structured, standards-based tutorials for students who do not meet standards on common assessments, including targeted support before school, after school, on Friday evenings, and Saturdays.<br/> d) Each department PLC will conduct one "Positive Pop-in" to another teacher every nine weeks beginning in October, focusing specifically on the positive ways the teacher is implementing Tier I instruction.<br/> e) Continue training for select teachers on the Sheltered Instruction Observation Protocol (SIOP).<br/> f) The use of Advancement Via Individual Determination (AVID) strategies will be evident in classrooms.<br/> g) Embedded, ongoing professional development will be provided throughout the year to help teachers enhance student performance.<br/> h) Implement the Refining a Lesson Protocol and After Action Review Protocol in Science and Social Studies PLCs to improve Tier I instruction and intervention for Tier 2 and 3 students.</p> <p><b>Staff Responsible for Monitoring:</b> department heads, instructional facilitators, assistant principals, principal</p> <p><b>TEA Priorities:</b><br/> Build a foundation of reading and math, Improve low-performing schools<br/> - <b>ESF Levers:</b><br/> Lever 5: Effective Instruction<br/> <b>Problem Statements:</b> School Processes &amp; Programs 2 - Perceptions 1<br/> <b>Funding Sources:</b> Instructional Facilitator - 255 - Title II</p> | Formative |     |     | Summative |

**Performance Objective 1 Problem Statements:****Demographics**

**Problem Statement 1:** Students continue to struggle with reading, writing, mathematical reasoning, and critical thinking skills that enable them to perform at or above grade level across all content areas. **Root Cause:** Students with diverse language backgrounds and experiences take longer to develop strong thinking skills. Our diverse population of students enters school with different levels of preparedness.

**Student Learning**

**Problem Statement 1:** Our 8th grade STAAR scores in Social Studies, Math, Reading, and Algebra indicate a need for improvement. **Root Cause:** Inconsistent implementation of rigorous instructional practices has led to lower than expected scores.

**Problem Statement 2:** Overall scores on STAAR have dropped over the past year. **Root Cause:** Inconsistent implementation of high-quality instructional strategies and limited use of data to drive targeted interventions have contributed to low student performance.

**School Processes & Programs**

**Problem Statement 1:** In the last few years, we have hired new staff members and it is important to recruit highly effective teachers that will continue to build their career here. **Root Cause:** High staff turnover and challenges in attracting and retaining experienced, highly effective teachers have impacted instructional consistency and long-term campus growth.

**Problem Statement 2:** Processes and programs need to continue to promote a positive school culture and meet the needs of all students to achieve academic success, including through intentional AVID implementation. **Root Cause:** A lack of consistent structures and shared ownership of systems like AVID has made it difficult to fully align campus programs with the goal of fostering a unified, student-centered culture.

**Perceptions**

**Problem Statement 1:** Processes and programs need to continue to promote a positive school culture and meet the needs of all students to achieve academic success, including through intentional AVID implementation. **Root Cause:** A lack of consistent structures and shared ownership of systems like AVID has made it difficult to fully align campus programs with the goal of fostering a unified, student-centered culture.

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 2:** Implement a multi-tiered system of support for RtI-identified students and students in our designated targeted groups for closing the gaps.

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        | Reviews   |     |     |           |

| <b>Strategy 6:</b> Utilize targeted instruction to close achievement gaps for the following subgroups: Asian, Hispanic, Economically Disadvantaged, Emergent Bilingual, and current Special Education.<br><b>Actions:</b> a) Data-Driven Decision Making<br>i. Campus and teacher teams will disaggregate assessment and progress monitoring data by subgroup to identify achievement gaps and target areas of need.<br>ii. Teachers will consistently utilize data in PLC meetings to inform instructional decisions, set goals, and monitor progress toward closing achievement gaps.<br>iii. Administrators and instructional facilitators will provide ongoing support to ensure that data analysis directly connects to classroom practices.<br>iv. Administrators and instructional facilitators will provide ongoing support in data analysis and targeted TEK base instruction<br><br>b) Instructional Practices and Student Supports<br>i. Teachers will implement small-group instruction focused on high-frequency TEKS to address specific learning gaps for identified subgroups.<br>ii. Block scheduling will be leveraged to provide targeted intervention through MTSS, ensuring adequate instructional time for student populations in need.<br>iii. Students will have access to specialized support, such as Learning Lab for Special Education and Newcomer RLA classes for Emergent Bilinguals, to address unique academic needs.<br>iv. All students will receive high-quality Tier 1 instruction aligned with grade-level standards to ensure equitable access to rigorous learning.<br>v. Teachers will provide accommodations as outlined in student individual education plans (IEP) to support equitable access to content and learning activities.<br>vi. Academic vocabulary will be explicitly taught and reinforced in all content areas to strengthen language development and comprehension.<br>vii. Instruction will be scaffolded appropriately so that students can access grade-level curriculum while developing skills for independent mastery.<br>viii. Targeted before-school, after-school, and lunch tutorials will be provided by invitation to ensure the most at-risk |  | Formative |     |     | Summative |
|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |  | Nov       | Jan | Mar | June      |
|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |  |           |     |     |           |

students in identified subgroups receive individualized support.

c) Family and Student Engagement

- i. Teachers and administrators will engage parents in the goal-setting process for academic growth, ensuring families understand expectations and progress.
- ii. Parents will be provided strategies, resources, and tools to support student learning at home in ways that align with classroom instruction.
- iii. Staff will consistently communicate student progress with students and families through progress reports, conferences, and digital communication tools to build partnerships and accountability.
- iv. Students will be included in conversations about their own academic progress and encouraged to set personal learning goals and monitor progress toward goals through the use of data trackers.

**Staff Responsible for Monitoring:** Principal, Assistant Principal, Instructional Facilitators

**TEA Priorities:**

Build a foundation of reading and math, Improve low-performing schools

- **ESF Levers:**

Lever 5: Effective Instruction

- **Targeted Support Strategy**

**Problem Statements:** Demographics 1 - Student Learning 1, 2

**Performance Objective 2 Problem Statements:****Demographics**

**Problem Statement 1:** Students continue to struggle with reading, writing, mathematical reasoning, and critical thinking skills that enable them to perform at or above grade level across all content areas. **Root Cause:** Students with diverse language backgrounds and experiences take longer to develop strong thinking skills. Our diverse population of students enters school with different levels of preparedness.

**Problem Statement 2:** Parent involvement, especially with diverse populations, and community partnerships are not as strong as we would like. **Root Cause:** PTA involvement is in a growing phase after limited activity in recent years.

**Student Learning**

**Problem Statement 1:** Our 8th grade STAAR scores in Social Studies, Math, Reading, and Algebra indicate a need for improvement. **Root Cause:** Inconsistent implementation of rigorous instructional practices has led to lower than expected scores.

**Problem Statement 2:** Overall scores on STAAR have dropped over the past year. **Root Cause:** Inconsistent implementation of high-quality instructional strategies and limited use of data to drive targeted interventions have contributed to low student performance.

**School Processes & Programs**

**Problem Statement 1:** In the last few years, we have hired new staff members and it is important to recruit highly effective teachers that will continue to build their career here. **Root Cause:** High staff turnover and challenges in attracting and retaining experienced, highly effective teachers have impacted instructional consistency and long-term campus growth.

**Problem Statement 2:** Processes and programs need to continue to promote a positive school culture and meet the needs of all students to achieve academic success, including through intentional AVID implementation. **Root Cause:** A lack of consistent structures and shared ownership of systems like AVID has made it difficult to fully align campus programs with the goal of fostering a unified, student-centered culture.

**Perceptions**

**Problem Statement 1:** Processes and programs need to continue to promote a positive school culture and meet the needs of all students to achieve academic success, including through intentional AVID implementation. **Root Cause:** A lack of consistent structures and shared ownership of systems like AVID has made it difficult to fully align campus programs with the goal of fostering a unified, student-centered culture.

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 3:** Students will display an awareness of social-emotional development as measured by a district-administered student survey.

**Evaluation Data Sources:** Social-Emotional Learning survey

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            | Reviews   |     |     |           |

| <b>Problem Statement 2:</b> Processes and programs need to continue to promote a positive school culture and meet the needs of all students to achieve academic success, including through intentional AVID implementation. <b>Root Cause:</b> A lack of consistent structures and shared ownership of systems like AVID has made it difficult to fully align campus programs with the goal of fostering a unified, student-centered culture. |
| Perceptions                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| <b>Problem Statement 1:</b> Processes and programs need to continue to promote a positive school culture and meet the needs of all students to achieve academic success, including through intentional AVID implementation. <b>Root Cause:</b> A lack of consistent structures and shared ownership of systems like AVID has made it difficult to fully align campus programs with the goal of fostering a unified, student-centered culture. |

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 4:** Reduce the number of students assigned to behavioral response to intervention (RtI) Tiers 2 and 3.

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           | Reviews   |     |     |           |

| <b>Problem Statement 1:</b> Students continue to struggle with reading, writing, mathematical reasoning, and critical thinking skills that enable them to perform at or above grade level across all content areas. <b>Root Cause:</b> Students with diverse language backgrounds and experiences take longer to develop strong thinking skills. Our diverse population of students enters school with different levels of preparedness.      |
| School Processes & Programs                                                                                                                                                                                                                                                                                                                                                                                                                   |
| <b>Problem Statement 2:</b> Processes and programs need to continue to promote a positive school culture and meet the needs of all students to achieve academic success, including through intentional AVID implementation. <b>Root Cause:</b> A lack of consistent structures and shared ownership of systems like AVID has made it difficult to fully align campus programs with the goal of fostering a unified, student-centered culture. |

## Perceptions

**Problem Statement 1:** Processes and programs need to continue to promote a positive school culture and meet the needs of all students to achieve academic success, including through intentional AVID implementation. **Root Cause:** A lack of consistent structures and shared ownership of systems like AVID has made it difficult to fully align campus programs with the goal of fostering a unified, student-centered culture.

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 5:** Increase the number of students meeting college, career and military readiness requirements.

**Evaluation Data Sources:** Number of students enrolled in AVID, number of students enrolled in advanced courses, number of students enrolled in Career and College course

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     | Reviews   |     |     |           |

| <b>Strategy 1:</b> Implement our plan to improve and address student attendance, social needs that interfere with attendance and collect pertinent data on strategies that would mitigate poor student attendance.<br><b>Actions:</b> a) Analyze attendance data provided to campus administration by the district truancy officer.<br>b) Develop attendance tracking plans for students based on the data, including daily check-ins and incentives to encourage improved attendance.<br>c) Monitor attendance of at-risk students through Project Education and Focus programs.<br>d) Recognize and celebrate students with perfect attendance during Award Assemblies.<br>e) Implement strategies to identify and address social needs within families that affect attendance, involving key stakeholders to support students.<br>f) Schedule meetings with families of students with poor attendance to develop improvement plans.<br>g) Assign an assistant principal to coordinate efforts among students, families, attendance clerks, and the attendance officer.<br><b>Staff Responsible for Monitoring:</b> attendance clerk, attendance officer, assistant principal, principal<br><br><b>Problem Statements:</b> Demographics 1, 2 | Formative |     |     | Summative |

**Performance Objective 1 Problem Statements:**

| Demographics                                                                                                                                                                                                                                                                                                                                                                                                                             |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> Students continue to struggle with reading, writing, mathematical reasoning, and critical thinking skills that enable them to perform at or above grade level across all content areas. <b>Root Cause:</b> Students with diverse language backgrounds and experiences take longer to develop strong thinking skills. Our diverse population of students enters school with different levels of preparedness. |
| <b>Problem Statement 2:</b> Parent involvement, especially with diverse populations, and community partnerships are not as strong as we would like. <b>Root Cause:</b> PTA involvement is in a growing phase after limited activity in recent years.                                                                                                                                                                                     |

**Goal 2:** Utilize efficient and effective operations to support and improve the learning organization.

**Performance Objective 2:** Haltom Middle School will incorporate the foundations of AVID to build a strong culture of student success and college readiness.

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            | Reviews   |     |     |           |

| <b>Problem Statement 2:</b> Processes and programs need to continue to promote a positive school culture and meet the needs of all students to achieve academic success, including through intentional AVID implementation. <b>Root Cause:</b> A lack of consistent structures and shared ownership of systems like AVID has made it difficult to fully align campus programs with the goal of fostering a unified, student-centered culture. |
| Perceptions                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| <b>Problem Statement 1:</b> Processes and programs need to continue to promote a positive school culture and meet the needs of all students to achieve academic success, including through intentional AVID implementation. <b>Root Cause:</b> A lack of consistent structures and shared ownership of systems like AVID has made it difficult to fully align campus programs with the goal of fostering a unified, student-centered culture. |

**Goal 3:** All students and staff will learn and work in a safe and responsive environment.

**Performance Objective 1:** Attain a 10% annual increase in results on a school safety survey that is administered to students, staff, and parents.

**Evaluation Data Sources:** safety survey of students, parents and staff

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         | Reviews   |     |     |           |

# Comprehensive Needs Assessment

## Demographics

### Demographics Summary

Holiday Heights Elementary is a Pre-Kindergarten through 5th Grade Title I campus located in North Richland Hills, Texas, within Birdville ISD. The campus serves approximately 463 students and reflects a diverse student population: 38.88% White, 27.43% Hispanic, 17.28% Black/African American, 7.99% Asian American, 7.99% Two or More Races, 0.22% American Indian, and 0.22% Pacific Islander.

As a predominantly neighborhood school, most students live within the surrounding community. With only two district buses serving the campus, the majority of students walk, ride bikes, or are picked up by family members.

Holiday Heights Elementary is proud to have a strong sense of community and a positive relationship between staff and families. Parental involvement is high, and the school enjoys strong support from the community.

Holiday Heights has been recognized as a Capturing Kids' Hearts National Showcase School for both the 2024–2025 and 2025–2026 school years, highlighting the campus's commitment to building strong, supportive relationships and a positive school culture.

### Demographics Strengths

Holiday Heights Elementary is proud to serve a culturally and ethnically diverse student population, creating a rich and inclusive learning environment. This diversity enhances students' educational experience by fostering greater cultural awareness, empathy, and collaboration among peers. The campus community values and embraces this diversity, using it as a strength to support academic and social-emotional growth.

As a neighborhood school, Holiday Heights enjoys strong relationships with families and community members. Most students live nearby and walk, bike, or are picked up by family, allowing for daily interaction between staff and families. This close-knit community contributes to high levels of parent involvement, strong communication, and a positive school culture.

Recognized as a Capturing Kids' Hearts National Showcase School for 2024–2025 and 2025–2026, Holiday Heights is committed to building meaningful connections and maintaining a supportive environment where all students feel valued and empowered to succeed.

### Problem Statements Identifying Demographics Needs

**Problem Statement 1 (Prioritized):** The 2024-2025 end-of-year average daily attendance was 94.7%, representing an improvement, yet remaining slightly below the district goal of 95%.

**Root Cause:** While Holiday Heights benefits from strong family and community engagement, student academic performance has not consistently met state standards. Gaps in achievement are influenced by inconsistent attendance and chronic absenteeism, which limit learning opportunities.

# Student Learning

## Student Learning Summary

### 3rd READING

2023-2024 – 62.1%  
24-25 – 64.6%

### 4<sup>th</sup> READING

2023-2024 – 74.4%  
24-25 – 83%

### 5<sup>th</sup> READING

2023-2024 – 84.4%  
24-25 – 71.9%

### 5<sup>th</sup> SCIENCE

2023-2024 – 63.1%  
24-25 – 52.8%

### 3<sup>rd</sup> MATH

2023-2024 – 60.3%  
24-25 – 66.6%

### 4<sup>th</sup> MATH

2023-2024 – 55%  
24-25 – 64.8%

### 5<sup>th</sup> MATH

2023-2024 – 78.6%  
24-25 -67.4%

## Student Learning Strengths

The data shows some positive growth in several areas between the 2023-2024 and 2024-2025 academic years. Notably, 3rd-grade reading scores improved modestly, increasing from 62.1% to 64.6%. Even more significant gains were seen in 4th-grade reading, which rose from 74.4% to 83%, indicating strong progress in literacy at this level. Similarly, math scores for 3rd and 4th grades showed encouraging upward trends. Third-grade math improved from 60.3% to 66.6%, while 4th-grade math experienced a notable increase from 55% to 64.8%. These improvements suggest that early elementary instruction in reading and math is becoming more effective.

However, there are areas of concern, particularly at the 5th-grade level. Fifth-grade reading scores declined significantly, dropping from 84.4% to 71.9%. Similarly, 5th-grade science scores decreased from 63.1% to 52.8%, and 5th-grade math saw a decline from 78.6% to 67.4%. These downward trends indicate that while early grades are making progress, there may be challenges in sustaining or building upon that success as students advance to higher grade levels. Targeted interventions and support may be needed to address these areas and help improve outcomes for 5th graders.

## Problem Statements Identifying Student Learning Needs

**Problem Statement 1 (Prioritized):** 5th Grade scores, across Reading, Math and Science declined from the 2023-2024 school year.

**Root Cause:** This decline raises concerns about students' ability to maintain and build upon foundational skills as they progress to higher grade levels.

## School Processes & Programs

### School Processes & Programs Summary

Students at Holiday Heights Elementary are served through a variety of programs related to individual student needs. 63.07% (292 students) of our students are served by the free and reduced lunch program. 14.25% (66 students) of our students are considered Emmergent Bilingual, 21.17%% (98 students) special education, 7.34% (34 students) dyslexic, and 5.18% (24 students) gifted and talented.

Holiday Heights Elementary has one Pre-Kindergarten 3 classroom and two Pre-Kindergarten 4 classrooms. The Pre-Kindergarten program provides intervention with a focus on cognitive, social-emotional, language and communication, and physical skills in an effort to allow children to learn skills that they can further utilize as they transition into the elementary setting.

Holiday Heights Elementary has a kindergarten through second grade and third grade through fifth grade Positive Approach to Student Success (PASS) program on campus. The Positive Approach to Student Success program supports students with significant deficits in adaptive behaviors, personal management and behavioral needs.

Collaborative teams meet to discuss student progress and plan intervention based on student need with a goal of closing the learning gap. We also provide tutoring to our struggling students with staff both before and after school and on Saturdays.

### School Processes & Programs Strengths

Holiday Heights staff utilize Professional Learning Community (PLC) meetings to address student needs through the use of anecdotal records, classroom observations, and data analysis. Both the campus and classroom schedules are designed to maximize instructional time and reflect best practices. The campus employs Vertical Teams to align curriculum, instructional strategies, and common academic vocabulary. Additionally, all staff members are trained in Capturing Kids' Hearts, ensuring a consistent approach across the campus through

social contracts, student greetings, affirmations, and recognition of positive behaviors.

#### **Problem Statements Identifying School Processes & Programs Needs**

**Problem Statement 1 (Prioritized):** Students in the white subpopulation have consistently not demonstrated growth on both Reading and Math STAAR Assessments across grade levels, indicating a need for targeted instructional strategies and interventions to address persistent academic gaps.

**Root Cause:** White students at Holiday Heights have not consistently made progress on reading and math assessments due to a combination of factors, including inconsistent use of data to inform instructional decisions. Additionally, inconsistent attendance and limited parental engagement in academic support have further hindered student growth and achievement.

# Perceptions

## Perceptions Summary

At Holiday Heights Elementary, our top priority is meeting the unique needs of every student. We believe that each child learns differently, and our approach reflects a strong commitment to personalized education. From leadership and curriculum to support services and teaching strategies, every aspect of our school is thoughtfully designed to help students thrive academically, socially, and emotionally.

Our nurturing school environment, combined with active engagement from families and the broader community, creates a strong foundation for student success. We are proud to foster a culture where collaboration, respect, and a love for learning are at the heart of everything we do.

At Holiday Heights, we do not just talk about excellence—we show it. Whether inside the classroom, on the playground, or out in the community, we strive every day to demonstrate what it means to have #HuskyPride.

## Perceptions Strengths

Holiday Heights provides a warm, welcoming, and safe environment where both students and parents feel supported and valued. Students recognize the dedication of their teachers, who consistently prioritize both their academic growth and emotional well-being.

Communication is a key strength of the campus—parents appreciate being kept informed through regular class newsletters and active social media updates.

Families are actively engaged, contributing to the school's strong sense of community.

Students take pride in their school, which is evident in the way they speak about and interact within the campus environment.

## Problem Statements Identifying Perceptions Needs

**Problem Statement 1 (Prioritized):** Current data indicates inconsistent outcomes in student achievement and engagement across subpopulations.

**Root Cause:** The inconsistent outcomes in student achievement and engagement across subpopulations can be attributed to a lack of vertical alignment in instructional practices and curriculum implementation. Additionally, variations in differentiation strategies, inconsistent use of data to drive instruction, and limited collaboration time for teachers to plan and reflect collectively contribute to uneven support.

**Problem Statement 2 (Prioritized):** There appears to be a gap in the understanding among staff, students and parents regarding the safety protocols established at the district, campus, and classroom levels. Additionally, awareness of the resources available to support safety and well-being within the school community remains limited.

**Root Cause:** A possible lack of clear, accessible, and consistent messaging, limited opportunities for engagement and training, and inadequate dissemination of information through channels that effectively reach all families.

# Priority Problem Statements

**Problem Statement 1:** 5th Grade scores, across Reading, Math and Science declined from the 2023-2024 school year.

**Root Cause 1:** This decline raises concerns about students' ability to maintain and build upon foundational skills as they progress to higher grade levels.

**Problem Statement 1 Areas:** Student Learning

**Problem Statement 2:** Current data indicates inconsistent outcomes in student achievement and engagement across subpopulations.

**Root Cause 2:** The inconsistent outcomes in student achievement and engagement across subpopulation can be attributed to a lack of vertical alignment in instructional practices and curriculum implementation. Additionally, variations in differentiation strategies, inconsistent use of data to drive instruction, and limited collaboration time for teachers to plan and reflect collectively contribute to uneven support

**Problem Statement 2 Areas:** Perceptions

**Problem Statement 3:** Students in the white subpopulation have consistently not demonstrated growth on both Reading and Math STAAR Assessments across grade levels, indicating a need for targeted instructional strategies and interventions to address persistent academic gaps.

**Root Cause 3:** White students at Holiday Heights have not consistently made progress on reading and math assessments due to a combination of factors, including inconsistent use of data to inform instructional decisions. Additionally, inconsistent attendance and limited parental engagement in academic support have further hindered student growth and achievement.

**Problem Statement 3 Areas:** School Processes & Programs

**Problem Statement 4:** The 2024-2025 end-of-year average daily attendance was 94.7%, representing an improvement, yet remaining slightly below the district goal of 95%.

**Root Cause 4:** While Holiday Heights benefits from strong family and community engagement, student academic performance has not consistently met state standards. Gaps in achievement are influenced by inconsistent attendance and chronic absenteeism, which limit learning opportunities.

**Problem Statement 4 Areas:** Demographics

**Problem Statement 5:** There appears to be a gap in the understanding among staff, students and parents regarding the safety protocols established at the district, campus, and classroom levels. Additionally, awareness of the resources available to support safety and well-being within the school community remains limited.

**Root Cause 5:** A possible lack of clear, accessible, and consistent messaging, limited opportunities for engagement and training, and inadequate dissemination of information through channels that effectively reach all families.

**Problem Statement 5 Areas:** Perceptions

# Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

## Improvement Planning Data

- District goals
- Campus goals
- HB3 Reading and math goals for PreK-3
- Campus/District improvement plans (current and prior years)
- Planning and decision making committee(s) meeting data

## Accountability Data

- Texas Academic Performance Report (TAPR) data
- Student Achievement Domain
- Student Progress Domain
- Closing the Gaps Domain
- Accountability Distinction Designations

## Student Data: Assessments

- State and federally required assessment information
- STAAR current and longitudinal results, including all versions
- STAAR released test questions
- Texas English Language Proficiency Assessment System (TELPAS) and TELPAS Alternate results
- Student failure and/or retention rates
- Running Records results
- Texas approved PreK - 2nd grade assessment data
- Texas approved Prekindergarten and Kindergarten assessment data
- Other PreK - 2nd grade assessment data
- Grades that measure student performance based on the TEKS

## Student Data: Student Groups

- Race and ethnicity data, including number of students, academic achievement, discipline, attendance, and rates of progress between groups
- Special programs data, including number of students, academic achievement, discipline, attendance, and rates of progress for each student group
- Economically disadvantaged / Non-economically disadvantaged performance and participation data
- Special education/non-special education population including discipline, progress and participation data
- At-risk/non-at-risk population including performance, progress, discipline, attendance, and mobility data
- Emergent Bilingual (EB) /non-EB data, including academic achievement, progress, support and accommodation needs, race, ethnicity, gender etc.
- Gifted and talented data
- Dyslexia data
- Response to Intervention (RtI) student achievement data

## Student Data: Behavior and Other Indicators

- Attendance data
- Mobility rate, including longitudinal data
- Discipline records
- Student surveys and/or other feedback
- School safety data

#### **Employee Data**

- Professional learning communities (PLC) data
- Staff surveys and/or other feedback
- State certified and high quality staff data
- Campus leadership data
- Campus department and/or faculty meeting discussions and data
- Professional development needs assessment data
- T-TESS data

#### **Parent/Community Data**

- Parent surveys and/or other feedback
- Community surveys and/or other feedback

#### **Support Systems and Other Data**

- Processes and procedures for teaching and learning, including program implementation
- Study of best practices
- Other additional data

# Goals

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 1:** All students will make at least one year's progress in reading and mathematics by the end of school year. a) Meet the progress monitoring targets in Prekindergarten - 3rd for each demographic group as measured by district approved screeners (BOY, MOY and EOY) to achieve the HB3 Board Goals. b) Improve performance in Domain 3 Closing the Gaps by making more than a year's growth in reading and mathematics which would in turn increase the number of students performing at the "meets" and "masters" level as measured by the spring 2025 STAAR and EOC assessments. This will also increase Domain 1 Student Achievement which counts the number of students at the various performance levels for state assessments.

## High Priority

## HB3 Goal

**Evaluation Data Sources:** Elementary: Fountas & Pinnell reading levels

Elementary: Elementary: Childrens' Learning Institute (CLI Engage - CIRCLE) - (prekindergarten reading and math), mClass (kindergarten reading and math), mClass (1-2 reading), Renaissance STAR Assessments (reading, grades 3-5 and mathematics, grades 1-5), Texas Education Agency (TEA) Interims (grades 3-5 reading and mathematics)

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         | Reviews   |     |     |           |

| <b>Strategy 3:</b> Communicate and assist campus staff in implementing data informed instruction and responsive teaching.<br><b>Actions:</b> a) Continue to conduct training on the personalized learning framework for all instructional staff.<br>b) Deepen the understanding and implementation of data-driven, responsive instruction through the use of the Professional Learning Committee (PLC) process, including Super PLCs once a month (extra data/planning time for staff).<br>c) Conduct campus walks that are specific to instruction and program implementation for the purpose of continuous improvement.<br>d) Use data from multiple assessments (mClass, Star Renaissance) to inform instruction.<br>e) Collect, analyze and use data for progress monitoring.<br>f) Provide Saturday Tutoring monthly (and then bi-monthly after January) for students not growing in our targeted subpopulations.<br><b>Staff Responsible for Monitoring:</b> Administrators, Instructional Facilitator, Special Education Staff, Classroom Teachers, Central Office Staff<br><br><b>Problem Statements:</b> Perceptions 1<br><b>Funding Sources:</b> SCE Campus Personnel - 199 - General Funds: SCE                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |  | Formative |     |     | Summative |

### Performance Objective 1 Problem Statements:

| Perceptions                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> Current data indicates inconsistent outcomes in student achievement and engagement across subpopulations. <b>Root Cause:</b> The inconsistent outcomes in student achievement and engagement across subpopulatio can be attributed to a lack of vertical alignment in instructional practices and curriculum implementation. Additionally, variations in differentiation strategies, inconsistent use of data to drive instruction, and limited collaboration time for teachers to plan and reflect collectively contribute to uneven support |

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 2:** Close achievement gaps that exist for all under-performing student groups (focus of subpopulations of white, economically disadvantage and special education students) as measured by state and district assessments.

Meet all progress monitoring targets for grades prekindergarten - 3rd in reading and mathematics for identified student groups as measured by a district-approved monitoring instrument.

**HB3 Goal**

**Evaluation Data Sources:** Historical performance by student subgroup on state and district assessments

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         | Reviews   |     |     |           |

| <b>Strategy 1:</b> Assist teachers in developing, administering, and collecting student performance data to evaluate student growth.<br><br><b>Actions:</b> a) Provide professional development for all teachers in analyzing and use of a variety of data (achievement and process) for the purpose of focused instruction, appropriate interventions and approved accommodations (ie. state testing and classroom instruction).<br>b) Track student performance to determine progress toward success on State of Texas Assessments of Academic Readiness (STAAR) assessments.<br>c) Provide professional development for all teachers and staff in the use of Aware to build assessments and analyze data to inform instruction.<br>d) Use Professional Learning Committee (PLC) Data Talks to determine best practices and student growth needs. This will include our Super PLCs which will add a double data/planning time monthly.<br>e) Use Classroom Teachers before/after school to support student learning and growth in both reading and math.<br>f) Provide Saturday Tutoring monthly (and then bi-monthly after January) for students not growing in our targeted subpopulations.<br><br><b>Staff Responsible for Monitoring:</b> Administrators, Instructional Facilitator, Special Education Staff, Classroom Teachers<br><br><b>Problem Statements:</b> Perceptions 1<br><b>Funding Sources:</b> Tutoring - 211 - Title I | Formative |     |     | Summative |

| <b>Problem Statement 1:</b> The 2024-2025 end-of-year average daily attendance was 94.7%, representing an improvement, yet remaining slightly below the district goal of 95%. <b>Root Cause:</b> While Holiday Heights benefits from strong family and community engagement, student academic performance has not consistently met state standards. Gaps in achievement are influenced by inconsistent attendance and chronic absenteeism, which limit learning opportunities. |

## Perceptions

**Problem Statement 1:** Current data indicates inconsistent outcomes in student achievement and engagement across subpopulations. **Root Cause:** The inconsistent outcomes in student achievement and engagement across subpopulatio can be attributed to a lack of vertical alignment in instructional practices and curriculum implementation. Additionally, variations in differentiation strategies, inconsistent use of data to drive instruction, and limited collaboration time for teachers to plan and reflect collectively contribute to uneven support

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 3:** Students will display an awareness of social emotional development as measured by a district-administered student survey.

**Evaluation Data Sources:** Social-Emotional Learning survey, Monthly Classroom Check-In Data Points

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   | Reviews   |     |     |           |

| <b>Problem Statement 1:</b> Students in the white subpopulation have consistently not demonstrated growth on both Reading and Math STAAR Assessments across grade levels, indicating a need for targeted instructional strategies and interventions to address persistent academic gaps. <b>Root Cause:</b> White students at Holiday Heights have not consistently made progress on reading and math assessments due to a combination of factors, including inconsistent use of data to inform instructional decisions. Additionally, inconsistent attendance and limited parental engagement in academic support have further hindered student growth and achievement. |

**Goal 1:** Students will achieve their full potential through a system that is responsive to the academic, social, and emotional needs of the student.

**Performance Objective 4:** Reduce the number of students assigned to behavioral Multi-Tiered Student Supports (MTSS) Tiers 2 and 3.

**High Priority**

**Evaluation Data Sources:** Behavioral Multi-Tiered Student Supports (MTSS data records  
Aligned to Strategic Plan

| <b>Problem Statement 1:</b> 5th Grade scores, across Reading, Math and Science declined from the 2023-2024 school year. <b>Root Cause:</b> This decline raises concerns about students' ability to maintain and build upon foundational skills as they progress to higher grade levels.                                                                                                                                                                                                                                                                                                                                                                                  |
| School Processes & Programs                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| <b>Problem Statement 1:</b> Students in the white subpopulation have consistently not demonstrated growth on both Reading and Math STAAR Assessments across grade levels, indicating a need for targeted instructional strategies and interventions to address persistent academic gaps. <b>Root Cause:</b> White students at Holiday Heights have not consistently made progress on reading and math assessments due to a combination of factors, including inconsistent use of data to inform instructional decisions. Additionally, inconsistent attendance and limited parental engagement in academic support have further hindered student growth and achievement. |

**Goal 2:** The system will utilize efficient and effective operations to support and improve the learning organization.

**Performance Objective 1:** Increase the annual total Average Daily Attendance (ADA) as compared to the prior school year, through improved student retention, recruitment, and days in attendance.

**Evaluation Data Sources:** Overall campus Average Daily Attendance (ADA) as per Summer Public Information Information Management System (PEIMS) submission

**Performance Objective 1 Problem Statements:**

| Demographics                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> The 2024-2025 end-of-year average daily attendance was 94.7%, representing an improvement, yet remaining slightly below the district goal of 95%. <b>Root Cause:</b> While Holiday Heights benefits from strong family and community engagement, student academic performance has not consistently met state standards. Gaps in achievement are influenced by inconsistent attendance and chronic absenteeism, which limit learning opportunities. |

**Goal 2:** The system will utilize efficient and effective operations to support and improve the learning organization.

**Performance Objective 2:** Use continuous improvement to identify and improve operations and outcomes in all areas on campus.

**Evaluation Data Sources:** Evaluation of goal achievement as per improvement plans.

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   | Reviews   |     |     |           |

| Perceptions                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Problem Statement 1:</b> Current data indicates inconsistent outcomes in student achievement and engagement across subpopulations. <b>Root Cause:</b> The inconsistent outcomes in student achievement and engagement across subpopulatio can be attributed to a lack of vertical alignment in instructional practices and curriculum implementation. Additionally, variations in differentiation strategies, inconsistent use of data to drive instruction, and limited collaboration time for teachers to plan and reflect collectively contribute to uneven support |

**Goal 3:** All students and staff will learn and work in a safe and responsive environment.

**Performance Objective 1:** Attain a 10% annual increase in results on a school safety survey that is administered to students, staff, and parents.

**Evaluation Data Sources:** District safety survey of students, parents and staff

| Strategy 1 Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     | Reviews   |     |     |           |
