

# Congratulations to Kingston Morgan!

Kingston has been selected for national recognition at the NICE K-12 Conference National Cyber Signing Day. He is one of only 6 to 8 students nationwide chosen for exceptional achievement in cybersecurity during high school.

He has earned multiple industry-recognized certifications, including CompTIA Security+, and is actively engaged in leadership and community service. He serves on both the Greensboro and High Point Youth Councils and is a member of the Black Suit Initiative, a leadership program focused on empowering young men in the community.

Kingston has also been invited to serve as the student guest speaker at the NCCT 2026 Burroughs Wellcome Fund CTE Teacher of the Year Recognition Event in Greensboro. He will be accompanied at both events by his parents and his mentor and teacher at Kearns Academy, Ms. Regina Smith.

Kearns Academy is incredibly proud of his accomplishments and we look forward to celebrating his continued success!
