Our Mission

Somers Central School District will ignite a passion in each student by engaging students at a personal level to ensure success in a global society.

Our Vision

The vision for SCSD encompasses three fundamental areas, each an important component of the Whole Child —

- 21st Century Knowledge & Skills
- Social-Emotional-Physical Wellness
- Global Citizenship

Our Values

We desire to be a school district that —

- Values Learning Inclusively For Everyone across all schools.
- Promotes our schools as the center of our community a safe place to be and grow.
- Leads by example and encourages students to follow their passions.
- Holds high expectations for student achievement and character.
- Develops a K-12 curriculum, instructional resources and assessments intended to prepare students to thrive in a global community.
- Recognizes and celebrates the collective efforts and achievements of the Somers community and embraces a healthy balance of participation from all stakeholders.
- Supports social/emotional/physical wellness as much as academic achievement.
- Recognizes the arts are vital to the core curriculum.
- Gives back to the community through service to others.
- Understands the law, the Constitution, and our civic, ethical and personal responsibilities to each other.
- Develops relationships that are characterized by honesty, respect and integrity.
- Learns from and works collaboratively with individuals from diverse cultures, religions and lifestyles in a spirit of mutual respect and open dialogue.
- Supports and encourages professional collaboration, district-wide and with local organizations, to promote student learning.
- Is driven by a sense of continuous improvement.

Developing the annual school budget is among the most important activities in which the Board of Education engages. The Superintendent and other central office administrators began to outline the 2025-2026 budget in the early fall and continued their work during the winter months. They reviewed enrollment projections, instructional program and staffing needs, special education placements, utility costs, facility needs, and met with principals and directors to develop a preliminary budget. The following should help to explain the budget numbers/information contained within.

Tax Levy

The proposed budget complies with the New York State tax levy cap. The tax levy increase will be 2.63%.

Budget to **Budget**

The 2025-2026 budget will increase by 2.41% or \$2,666,382 and the estimated tax rate increase is 2.52%.

Revenues

Budget to budget, our State Aid increased by \$120,946. There is an increase in Foundation Aid and Building Aid but a decrease in Transportation Aid, Excess Cost Aid and BOCES Aid to offset the prior increases. Our reliance on reserves and fund balance remains the same as the current school year.

Staffing Changes

Student enrollment continues to decrease in the 2025-2026 school year. When possible, positions are not filled if they can be absorbed by the current staffing levels. However, we have increased our support for students in the area of special education.

Primrose Elementary School introduced the World Language experience into Grades K-2 beginning in the 2024-2025 school year and will continue into 2025-2026. Therefore, SHS, SIS, and Primrose will share FTE to support the buildings.

Due to declining enrollment, there will be a reduction of one homeroom section in 3rd grade at SIS. This reduction still allows for class size to be consistent with Grades 4 and 5.

The SIS ALP teacher will continue to coordinate and provide services across SIS and SMS in 2025-2026.

Staffing reductions are expected in the Social Studies and Science at Somers High School due to declining enrollment. Staff members in these areas will move to Somers Middle School. Shifting these employees to these positions fills retirements and existing openings. 1.0 FTE at SHS will become student-facing due to the consolidation of the MYP Coordinator role into one position for Grades 6-10.

Educational Initiatives

The instructional budget includes implementation costs for new programs or expansion of existing programs along with the support for professional learning related to these programs. A body of research tells us that supporting our faculty through professional networks, updated resources and a strong commitment to the establishment of our own professional learning community, is the best way to directly affect student learning and maintain a focus on continuous improvement.

Increases to the Curriculum Development and Supervision/Staff Development (2010 and 2070 budget codes) support the following initiatives:

- Secondary Science and Social Studies require continued study because of updated standards. Faculty must continue to develop new curriculum and explore new ways to engage students in the practices involved in the study of these disciplines. The New York State Social Studies Framework, influenced by the National Council for the Social Studies' C3 Framework, integrates inquiry, disciplinary literacy and civic life. The new New York State Science Learning Standards focus on three dimensions that are needed to provide students with a high-quality science education. The first are the Science and Engineering Practices, which are skills that integrate knowledge such as asking questions, developing and using models, and analyzing and interpreting data. The second are the disciplinary core ideas that build over time and help students to understand how the world works. Finally, the third dimension identifies the crosscutting concepts that apply to all science disciplines such as patterns, cause and effect, structure and function, and stability and change. At this important transition period, it is critical that we continue to engage secondary Science and Social Studies faculty in rigorous learning experiences. The support of our PNW BOCES and collaboration with our region have been helpful in enhancing professional learning in these areas.
- Somers High School was accredited as an IB Middle Years Programme school in 2024-2045, joining SMS as an MYP partnership school. Teachers will continue to learn collaboratively to develop instructional units aligned to the IB framework to teach the NYS curriculum.
- During the 2024-2025 school year, the Somers schools expanded World Language instruction by creating a dedicated specials period in Grades 3-5 and created a language exposure experience in Spanish for Grades K-2. This work helps to ensure that students graduate from SHS with higher levels of proficiency in receptive and expressive language.
- We continue to explore ways for both teachers and students to harness the power of technology as a learning tool while building critical 21st-century competencies in research, communication, collaboration, and critical thinking. Students in Grades K-12 continue to have access to personalized technology. This budget will support the purchase of replacement devices for those that have reached their intended lifespan. K-12 building technology teams will also continue to integrate the NYS K-12 Computer Science and Digital Fluency standards throughout subject areas as appropriate for the developmental levels.
- Elementary Science and Social Studies also continue to undergo revision because of the new standards and the addition of the Language Arts knowledge building curriculum, Wit & Wisdom. For elementary teachers (K-5) who are using the PNW BOCES regionally developed Science21 curriculum, training continues for K-5 teachers who are implementing newly revised curriculum, aligned to the new NYS Science Learning Standards. Grades 3-5 will also continue to engage in administering the NYS Science Investigation tasks which support the 5th Grade NYS Science assessment.
- The importance of building a strong foundation in literacy cannot be overemphasized. Due to ongoing professional learning on the Science of Reading under the support of PLC Associates and

Great Minds *Wit & Wisdom*, the elementary schools will continue implementation of core programs of Heggerty, Fundations® (K-3 core reading element), and *Wit & Wisdom*. Teachers will continue their robust professional learning in literacy with *Wit & Wisdom* trainers in the 2025-2026 school year to support the implementation of new reading materials in Grades K-5 and to refine AIS supports at the Tier 2 and 3 levels. Reading Lab supports that were implemented in 2021 to provide additional supplemental reading instruction for students in need will continue to be provided in 2025-2026.

- The assessment and learning tool, *IXL*, will continue to be an additional tool teachers will use to collect information on student progress in skills for Grades K-10. In Grades K-8, the DIBELS assessment tool was added to the student performance data to track students' progress in reading fluency. Professional learning on the tool IXL and implications for the district's MTSS structures took place in partnership with PLC Associates throughout 2024-2025 and set the foundation for continued refinement of the MTSS process in the 2025-2026 school year.
- In Mathematics, the 2023-2024 school year brought more emphasis on recognized practices to increase student understanding of foundational and high-level mathematical concepts. Study of the National Council of Teachers of Mathematics (NCTM) policies including NCTM's Catalyzing Change in High School Mathematics (2018) and Principles to Actions: Defining Core Practices of Teaching (2014) by district math teacher leaders engaged them in a careful review and a focus on mathematical practices that encourage understanding of mathematical concepts and promote application of mathematics in the real world. The 2024-2025 school budget supported continued implementation and assessment of the impact these resources have had on student learning.
- In the Spring of 2024, a K-5 team of teachers and administrators formed a partnership with the PNW BOCES Regional Math and Data Coordinator to begin a review process to audit our current programs, practices and student performance. The district sought the support of this outside Math consultant to help inform the next steps in Math professional development and resources for next school year-on. Throughout 2024-2025, the consultant expanded her work to include teachers and administrators in Grades K-12. The teachers have been pivotal in helping to provide clear vision for math instruction and pathways for students. This work will continue through the 2025-2026 school year.
- Social and Emotional Learning, an important part of our vision for the whole child, continues with Responsive Classroom® to promote positive behavior at the elementary level. Creating safe and welcoming schools is also part of the social and emotional learning focus, and faculty will continue professional work to develop and deliver curriculum that promotes a school climate that reduces bias and enables all students to access learning. During the 2022-2023 school year, a closer look at social-emotional learning programs at the secondary level resulted in PNW BOCES training for teachers in the DBT STEPS-A (Skills Training for Emotional Problem Solving for Adolescents) program. In 2025-2026, a continued focus on educational inclusivity and student social/emotional wellness will have us examine structures and practices to ensure that all students can reach their full potential. At the K-5 level, the Physical Education and Wellness team will continue to expand on resources and best practices and further develop curriculum for Health education at the K-5 level.

- The 2025-2065 school budget will support a commitment to providing a systemic, aligned system of support for students who struggle in the Somers schools. This work requires investments in staffing, professional learning, and administrative oversight to ensure strong, coherent systems are in place and operationalized. This is critical to ensure all students find success in the Somers schools. Professional learning is the engine that propels innovation and best practice in every classroom. Driven by a clear sense of what students must learn, how we will measure student learning, and how we respond to learning challenges, the following opportunities for professional learning will be supported by the 2025-2026 budget:
 - A new data mining, warehousing, and visualization software to make student learning data more accessible to faculty and staff.
 - Summer curriculum development time provides teacher teams with the time and opportunity to develop new curriculum, revise existing curriculum, create strong, common assessments, and identify effective instructional approaches to support student learning.
 - After school study groups targeted to district success plans as well as personal teacher interest and focus – provide opportunities for deeper dives into professional learning to improve teacher practice.
 - Continued access to outside learning including conferences, IB workshops, AP workshops and PNW BOCES professional workshops, and support from outside consultants.

Cost Increases or Decreases

The mandated employer contribution to the New York State Teachers' Retirement System has decreased the employer contribution rate from 10.11% to approximately 9.59%, a decrease of \$146,229. The New York State Employees' Retirement System has increased their composite contribution rate from 15.2% to 16.5%, an increase of \$26,183.

Answers to Common Questions on Tax Cap, Tax Levies and Tax Rates

Although New York State now has what is commonly called the "2 percent tax cap," taxpayers in school districts that follow the law may see proposed increases in their personal taxes that exceed 2 percent. And voters may see proposed district tax levy increases that exceed 2 percent but meet all requirements of the new tax cap law.

1. Does the tax cap mean my annual property tax can't increase more than 2 percent?

No, it means something different. New York's property tax cap law limits the annual growth of total property taxes levied by school districts and other local governments to 2 percent or the rate of inflation, whichever is less. This amount is called the "tax levy limit." A budget containing a tax levy increase at or below the tax levy limit is put before the voters in May and requires "yes" votes from a simple majority of voters for passage. However, there are instances where the tax levy limit may exceed 2 percent.

2. When may the annual tax levy increase exceed 2 percent?

Under the tax cap law, school districts are allowed certain exemptions that may boost their tax levy limits to more than 2 percent while still requiring only a simple majority for budget passage (see question 4 below).

In addition, the tax levy may exceed the tax levy limit if 60 percent of voters in each school district approve such an increase.

3. If the tax levy goes up by X percent, does that mean everyone's taxes go up by X percent also?

Not necessarily. The cap does not directly affect property tax rates or changes in individual taxes due in a given year. Tax rates paid by individual taxpayers may differ greatly from one household to another, based on things such as equalization rates, and may exceed 2 percent. The amount of taxes an individual pays can also be affected by changes in assessed property values.

4. What are the exemptions to the tax cap that school districts may take?

There are a limited number of specific exemptions to the tax cap that school districts may take. They are:

- Growth in "brick and mortar" development that increases a municipality's full taxable property.
- Pension contribution costs that arise from increases in the statewide contribution rate in excess of 2 percentage points.
- Expenditures resulting from court orders or judgments arising out of tort actions that exceed 5 percent of the total tax levied in the prior fiscal year.
- The local portion of capital expenditures.

Because school leaders realize their communities are acutely aware of the 2 percent tax cap, they may opt to stay within 2 percent even if it means adopting a budget with a property tax levy increase that is actually below what the law would allow after exemptions.

5. What if voters reject the proposed tax levy?

If voters in the district reject the proposed budget, the school board may adopt a budget with a tax levy no greater than what was levied the previous year or put up the same or a revised budget for a second vote. If voters reject the spending plan twice, schools must adopt a budget with the same tax levy as the prior year – essentially a zero percent cap.

Somers Central School District 2025-2026 Budget Planning Calendar

SeptMarch	o Budget Development Process ongoing	Superintendent Administrative Staff
Tues., Oct. 22	o Budget Calendar adopted by Board of Education – 7 p.m. SMS Library	Board of Education
Tues., Dec. 10	o 2025-2026 Budget Preview – 7 p.m. SMS Library	Board of Education Superintendent
Tues., Jan. 21	o 2025-2026 Budget Planning Session – 7 p.m. SMS Library	Superintendent

	TOTAL 10,774,868 84,718,980 15,642,080 111,135,92						

For the contingent budget, a reduction of \$2,341,185 is needed to comply with this requirement. Reductions would include additional instructional FTE reductions, athletic coaching position reductions, no new equipment orders, any planned renovation projects by B&G staff outside of projects involving health and safety, and extremely limited use of our school buildings by community groups. Community groups would need to pay for any custodial overtime associated with the use of school buildings.

INSTRUCTION

The work described in the following paragraphs represents ongoing initiatives along with our aspirations for educational programs going forward. We continue to strategically plan and respond to the academic and social-emotional needs of our students. Our intent will always be to support student learning first.

This area of the budget deals directly with instructional staffing, professional learning and learning resources.

For the 2025-2026 school year, we will continue to allocate teacher resources to meet the needs of our students at each school level, and a priority will continue to be placed on enriching our student support program. Maintaining traditional class sizes while enrollment declines has allowed us to move classroom teachers into support and enrichment positions that directly impact student success and achievement. The focus for the 2025-2026 school year will be to build academic and social-emotional support systems for students and continue to support teachers' professional learning as they refine instructional practices to meet the needs of all learners.

The instructional budget includes implementation costs for new programs or expansion of existing programs. SHS remains committed to providing access to grade level and college level courses for all students. SHS offers over 50 advanced level courses for students. In the 2025-2026 school year, SHS will offer 20 IB courses, 17 AP courses, and 15 courses that are dual enrolled with colleges and universities. In addition to upper level options, SHS continues to offer grade level courses and courses for students who need additional support.

The 2025-2026 school year will mark the eighth year of the IB Diploma Programme at Somers High School. Seventy-four percent of 2024 graduates enrolled in at least one AP or IB course. To date, SHS has graduated 43 seniors with the IB Diploma. As of the writing of this narrative, 28 10th grade students have indicated their intent to pursue the IB Diploma starting in the 2025-2026 school year. During the 2022-2023 school year, IB conducted a five-year external review and determined that SHS's implementation of the Diploma Programme has been very successful. Somers High School was officially recognized as an IB MYP school in 2024-2025. Teachers in Grades 11 and 12 will continue engaging in professional learning to support teachers' effective implementation of instructional practices aligned with IB's Approaches to Teaching and Learning.

Secondary Science and Social Studies require continued study because of updated standards. Faculty must continue to develop curriculum and explore new ways to engage students in the practices involved in the study of these disciplines. The New York State Social Studies Framework, influenced by the National Council for the Social Studies' C3 Framework, integrates inquiry, disciplinary literacy and civic life. The New York State Science Learning Standards focus on three dimensions that are needed to provide students with a high-quality science education. The first are the Science and Engineering Practices, which are skills that integrate knowledge such as asking questions, developing and using models, and analyzing and interpreting data. The second are the disciplinary core ideas that build over time and help students to understand how the world works. Finally, the third dimension identifies the crosscutting concepts that apply to all science disciplines such as patterns, cause and effect, structure and function, and stability and change.

At this important transition period, it is critical that we continue to engage secondary Science and Social Studies faculty in rigorous learning experiences. The support of our PNW BOCES and collaboration with our region have been helpful in enhancing professional learning in these areas.

Project Lead the Way, a pre-engineering program that offers college credit from the Rochester Institute of Technology, is fully established with four courses offered at Somers High School: Introduction to Engineering Design, Principles of Engineering, Civil Engineering and Architecture, Digital Electronics, Principles of Biomedical Science, and Human Body Systems. The upcoming school year will see these courses be refined and revised to be sure they keep up with current trends in these fields.

Somers High School and Somers Middle School will also continue to examine assessment, grading, and feedback practices that drive student learning in the upcoming school year.

Somers Middle School was accredited as an IB Middle Years Programme (MYP) school during the 2022-2023 school year. For the 2025-2026 school year, teacher teams from each department will continue to implement new units of instruction and revise and adjust units of study throughout the year. Teachers will also be engaging in professional learning as they continue to align their practices to IB's Approaches to Teaching and Learning.

Student learning data from the 2024-2025 school year demonstrates growth in reading and math proficiency at the elementary and secondary levels resulting from the support at all tiers. We will continue to allocate resources to all buildings to ensure that all students receive the support they need to reach grade level literacy proficiency. The elementary schools and middle school, along with district administration, reviewed current reading practices and student performance data to inform next steps in curriculum resources and professional learning. The district has partnered with three reading consultants of PLC Associates with training grounded in the "Science of Reading," research to guide teachers in Grades K-8 in implementing best practices in reading instruction and assessment. Primrose K-2 teachers will continue to implement the Heggerty approach to teaching phonemic awareness skills, which was first piloted during the 2022-2023 school year. Grades K-3 also utilize the Fundations program and decodable texts to explicitly teach and reinforce decoding skills. This year, Grades K-5 implemented the knowledge building program, Wit & Wisdom, to support students' comprehension, fluency, vocabulary, oral language and writing skills. In 2025-2026, resources will continue to be dedicated to support curriculum refinement and professional leaning on this approach. Resources will continue to be dedicated to expanding opportunities for students to receive multi-sensory reading instruction through PAF (Preventing Academic Failure) and Orton-Gillingham Reading services for students requiring this type of specialized multi-sensory instruction. The use of the assessment and learning tools IXL and DIBELS will also continue in Grades K-8.

In Mathematics, the 2024-2025 school year brought a continued emphasis on recognized practices to increase student understanding of foundational and high-level mathematical concepts. Study of the National Council of Teachers of Mathematics (NCTM) policies - including NCTM's Catalyzing Change in High School Mathematics (2018) and Principles to Actions: Defining Core Practices of Teaching (2014) - by district math teacher leaders engaged them in a careful review and a focus on mathematical practices that encourage understanding of mathematical concepts and promote application of mathematics in the real world. The 2024-2025 school budget supported continued implementation and assessment of the impact these resources have had on student learning.

In the Spring of 2024, a K-5 team of teachers and administrators formed a partnership with the PNW BOCES Regional Math and Data Coordinator to begin a review process to audit our current student performance and instructional practices. In 2024-2025, teachers and administrators collaborated with this consultant to reflect on student performance and to begin a visioning process for math instruction and student pathways K-12.

IXL assessment and learning tools will continue to be used to supplement the core Math and ELA programs of each school building. In 2023-2024, Primrose, SIS and SMS participated in a second year of professional learning with a consultant from PLC Associates on best practices for utilizing IXL data to inform instruction for students within the classroom and within the IXL platform. This year, the consultant also supported teachers and administrators in refining structures and systems under the Multi-tiered System of Support structure (MTSS).

Somers Central School District has been expanding the study of World Languages to the younger grades for some time. During the 2019-2020 school year, SCSD students began their study of a second language in Grade 6. Increasing student proficiency in other languages has long been a goal of the district, and as we prepare for MYP status, Somers Middle School students will now complete three years of study in either French, Italian or Spanish prior to entering high school. During the 2020-2021 school year, 6-12 language teachers continued to develop practices to build listening and speaking proficiency as well as cultural awareness. In the 2022-2023 school year, elementary second language instruction began at Somers Intermediate School with a sequential FLES model. In the 2023-2024 school year, World Language study expanded to 5th grade and is now a scheduled special for all students in Grades 3-5. 2024-2025 also brought a pilot of World Language exposure sessions for all students in Grades K-2.

At the elementary and middle levels, a strong partnership with our Putnam/Northern Westchester BOCES (PNW BOCES) education center allows us to continue use of programs such as SSELA, Sci21, and Renaissance Learning[®]. Grades 3-5 will continue the new NYS Science Investigation tasks to support the 5th Grade NYS Science assessment.

We continue to explore ways for both teachers and students to harness the power of technology as a learning tool while building critical 21st-century competencies in research, communication, collaboration, and critical thinking. Throughout 2023-2025, building technology teams collaborated to integrate the NYS Computer Science and Digital Fluency standards in developmentally appropriate ways across the curriculum. In the fall of 2024, the standards were implemented. The technology teams will continue to reflect and refine integration in 2025-2026.

The COVID-19 pandemic necessitated students in K-12 to have access to personalized technology. The district 1:1 personal learning device initiative, which was formerly for students in Grades 6-12, was expanded to include all students K-12. iPads were purchased for our youngest learners. This budget will support the purchase of replacement devices for any that have reached their intended lifespan.

The district continues to implement more inclusive practices with its focus on Learning Inclusively for Everyone. This initiative seeks to create inclusive classrooms where the needs of a diverse student body are met. The number of co-teaching classrooms has increased. These settings allow students and teachers to work together in heterogeneous classroom environments that provide more universal designs for learning and promote success for all students. During the 2024-2025 school year, teachers and staff members continued to develop their capacity to support students within inclusive classroom settings. This work, supported by the district LIFE committee, will continue in the 2025-2026 school year.

The instructional budget continues to support the development of curriculum and assessments, teacher evaluation practices, data analysis, and professional learning. Summer curriculum work allows teachers to spend focused time on developing and/or revising curriculum and assessments and honing skills needed to support students at all levels. Alignment with new standards, use of new instructional technologies and resources, and continued study of research-based pedagogy, make this an important ongoing process. A strong partnership with PNW BOCES, the Lower Hudson Regional Information Center and Southern Westchester BOCES has enhanced our ability to provide professional learning opportunities that reflect best use of instructional technology as well as updated and relevant information about NYSED mandates.

Budget Terminology

Administrative Budget Component: One of three categories that must be reported by school districts. These expenditures include: office and administrative costs; salaries and benefits for certified school administrators who spend 50 percent or more of their time performing supervisory duties; data processing; supplies; legal fees; property insurance; and school board expenses.

Capital Budget Component: One of three categories that school districts must show in their proposed budgets, this covers: all transportation capital, debt service and lease expenditures; legal judgments and settled claims; custodial costs and all facility costs, including service contracts, supplies, utilities, maintenance, repairs, construction, renovation, debt, and leasing costs.

Program Budget Component: One of the categories that must be presented in the district's proposed budget, this portion includes salaries and benefits of teachers and supervisors who spend the majority of their time teaching; instructional costs such as supplies, equipment and textbooks; and transportation operating costs.

Appropriated Fund Balance: Any portion of a district's fund balance from the previous fiscal year that is applied as revenue to the district's next year budget. This reduces the amount of money that must be generated by taxes.

Budget Calendar: The schedule of key dates that the school district, Board of Education and administrators follow in preparation, adoption and administration of the budget.

Consumer Price Index (CPI): An index of prices used to measure the change in the cost of basic goods and services in comparison with a fixed base period. It is also called "cost-of-living" index. However, the CPI does not take into account many of the items that cause school district budgets to rise, such as the increasing cost of health insurance, liability insurance and retirement contributions.

Contingent Budget: Under state law, school boards can submit a budget to voters a maximum of two times. If the proposed budget is defeated twice, the board must adopt a contingency budget with a zero percent tax levy increase. Under a contingent budget, there is no capital, court order/judgments or pension exemptions and there is no growth factor. The administration cap remains in effect, and noncontingent expenses must still be removed from the budget.

Employee Benefits: Amounts paid by the district on behalf of employees. These amounts are not included in the gross salary. They are fringe benefits, and while not paid directly to employees, is part of the cost of employees. Employee benefits include the district cost for health insurance premiums, dental insurance, life and disability insurance, Medicare, retirement, social security, and tuition reimbursement.

Expenditure: Payment of cash or transfer of property or services for the purpose of acquiring an asset or service.

Budget Terminology

Fiscal Year: A fiscal year is the accounting period on which a budget is based. The New York State fiscal year runs from April 1 to March 31. The fiscal year for all New York counties and towns and for most cities is the calendar year. School districts in the State operate on July 1 through June 30 fiscal years.

Fund Balance: A fund balance is created when the school district has money left over at the end of its fiscal year from either underspending the budget or taking in additional revenue. Part of the fund balance (appropriated fund balance) may be applied as revenues to the district's following year budget. A portion may also be set aside (unappropriated fund balance) to pay for emergencies or other unforeseen occurrences.

Proposed Budget: Also called Administrative Proposal. Spending plan developed by school administrators prior to Board adoption. School districts are required by New York State to show their proposed budgets in three categories: administrative, program and capital.

Revenue: Sources of income financing the operation of the school district.

STAR: The New York State School Tax Relief (STAR) Program provides an exemption or a credit for school taxes for all owner-occupied, primary residents, with a combined income of less than \$250,000 for the exemption and \$500,000 for the credit. Senior citizens with combined incomes that do not exceed \$93,200 may qualify for an enhanced exemption.

State Aid: State aid is additional money that the state gives to districts to be used in different areas, such as lowering the tax levy, etc. Until the state passes its budget, the district does not know exactly how much to expect in state aid, but school districts are still required to present their budgets to voters on the third Tuesday in May. To meet that mandate, the district had to estimate its state aid revenues.

State Education Department (SED): The New York State administrative department that oversees public elementary and secondary education.

Supplies: Consumable materials used in the operation of the school district including food, textbooks, paper, pencils, office supplies, custodial supplies, material used in maintenance activities, and computer software.

Support Services: The personnel, activities and programs that enhance instruction and provide for the general operation of the school district. This includes attendance, guidance and health programs; library personnel and services; special education services provided by speech and language pathologists, physical therapists and occupational therapists; professional development programs; transportation, administration, buildings and grounds operations, and security.

Tax Base: Assessed value of local real estate that a municipality may tax for yearly operational monies.

Tax Certiorari: The legal process by which a property owner can challenge the real estate assessment on a given property in an attempt to reduce the property's assessment and real estate taxes.

Budget Terminology

Tax Levy: Total sum to be raised by the school district after subtracting all other revenues including state aid. The tax levy is used to determine the tax rate for property owners within a school district.

Tax Levy Limit: Is the number calculated by an eight step State-dictated formula that takes into account inflation (2% or the current Consumer Price Index, whichever is less) any PILOT (payment in lieu of taxes) payments a district receives, and any prior year exemptions. This determines the highest tax levy BEFORE exemptions that a school district can propose and still need a simple majority to pass.

Maximum Allowable Tax Levy: The Tax Levy Limit plus allowable exemptions results in the maximum allowable tax levy, which is the highest tax levy a district can propose and still only need a simple majority to pass.

Tax Rate: The amount of tax paid for each \$1,000 of assessed value of property. In districts that cover just one municipality, the tax rate is figured simply by dividing the total assessed property value by 1,000 and then dividing that again into the tax levy (the amount of money to be raised locally). In districts that encompass more than one municipality, the formula for figuring the tax rate is more complicated. It involves assigning a share of the total tax levy to each municipality and applying equalization rates to take into account different assessment practices.

Unappropriated Fund Balance: A school district is permitted to keep up to four percent of its fund balance in an unappropriated fund. This money may be used to pay for emergency repairs and other unforeseen occurrences.

The Exempt amounts do not take in to consideration payments in lieu of taxes or other payments for municipal services.

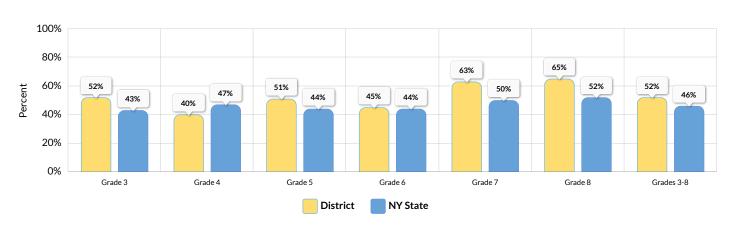

Amount, if any, attributable to payments in lieu of taxes:

SOMERS CSD - NEW YORK STATE REPORT CARD [2023 - 24]

The New York State Report Card is an important part of the Board of Regents' effort to create educational equity and raise learning standards for all students. Knowledge gained from the report card on a school's or district's strengths and weaknesses can be used to improve instruction and services to students. The report card provides information to the public on school/district staff, students, and measures of school and district performance as required by the Every Student Succeeds Act (ESSA). Fundamentally, ESSA is about creating a set of interlocking strategies to promote educational equity by providing support to districts and schools as they work to ensure that every student succeeds. New York State is committed to ensuring that all students succeed and thrive in school no matter who they are, where they live, where they go to school, or where they come from.

GRADES 5 & 8 SCIENCE RESULTS (2023-24)

The results of the 2023-24 Grades 5 and 8 Science tests represent student achievement on the new NYS P-12 Science Learning Standards. Because the tests measure different learning standards, the results are not comparable to those from prior years.

 Θ

TOTAL COHORT REGENTS EXAMINATION RESULTS

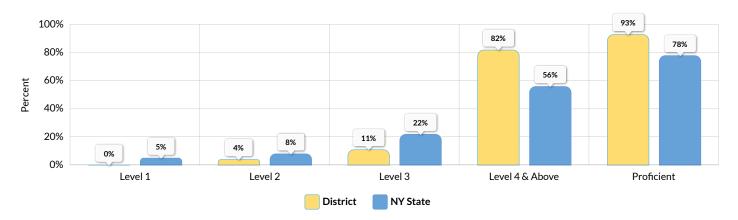

A High School Cohort consists of all students who first enter grade 9 anywhere or, in the case of ungraded students with disabilities, reach their seventeenth birthday in a particular school year (July 1 - June 30). The "year" used to identify the cohort is the year in which the July 1 - December 31 dates fall. Results are reported four years after these students first enter grade 9.

Due to COVID-19 and changes to New York State testing requirements, Regents examinations in June 2020 through January 2022 were canceled, with the exception of the June 2021 Regents Examinations in ELA, Algebra I, Living Environment, and Physical Setting/Earth Science. The U.S. History & Government examination from June 2022 through January 2023 was also canceled.

NEW YORK STATE ENGLISH AS A SECOND LANGUAGE ACHIEVEMENT TEST (2023-24)

New York State English as a Second Language Achievement Tests (NYSESLAT) are administered in grades K through 12 to all English Language Learners (ELLs). ELLs are students who, by reason of foreign birth or ancestry, speak or understand a language other than English and speak or understand little or no English, and require support to become proficient in English and are identified pursuant to Section 154.3 of Commissioner's Regulations.

SOMERS CSD

2022-23 School Year Financial Transparency Report

The tables below display per pupil expenditures for charter schools, traditional public schools, as well as district averages that may be higher or lower than an individual school.

All amounts shown on this report (except exclusions) are per pupil of the entire school or district, unless otherwise noted.

| Business Rules

Economic and Student Characteristics

DISTRICT P-12 NEEDS DISTRICT DISTRICT ENROLLMENT RESOURCE ABILITY TO STUDENT CATEGORY RAISE LOCAL **NEEDS ARE FUNDS IS** 2,600 Low Need significantly less than the significantly state average more than the average district in the state

Student Demographics

Enrollment	SOMERS CSD
All Students	2,600
Economically Disadvantaged	10%
Students with Disabilities	20%
English Language Learners	1%
>> Race/Ethnicity	

Staffing Profile	SOMERS CSD
Student-to-Teacher Ratio	10
Teachers with Fewer than 4 years of Experience %	14%
Teachers with 4-20 Years of Experience %	38%
Teachers with 21+ Years of Experience %	49%

Comparison: How do per pupil expenditures compare?

Report View One: How Much is Being Spent on Instruction and Administration?

For traditional school districts, school level data (entries A through D) represent the average per pupil school level expenditures for all schools in the district. For charter schools, these entries reflect school level expenditures for the particular charter school only. Entries E through H reflect central expenditures.

Total spending (entry I) represents all non-excluded per pupil expenditures. For traditional school districts, this represents the average per pupil expenditures of all schools in the district. For charter schools, this represents per pupil school level expenditures.

School Cost(A-D) Central Cost(E-H) Combined Cost(I)

Report View One Per Pupil Expenditure Categories	SOMERS CSD
≫ A. Instruction (A1 + A2 + A3 + A4)	\$20,273.43

Report View One Per Pupil Expenditure Categories	SOMERS CSD
>> B. Administration (B1 + B2 + B3)	\$1,570.98
>> C. All Other Spending (C1 + C2 + C3)	\$2,997.02
D. Total School Level (A + B + C)	\$24,841.43
>> E. Central Instruction (E1 + E2 + E3 + E4)	\$638.25
>> F. Central Administration (F1 + F2 + F3)	\$2,501.11
>> G. All Other Central Spending (G1 + G2 + G3)	\$5,651.03
H. Total Central Costs	\$8,790.39
I. Total Spending (D + H)	\$33,631.82

Report View Two: How are the Local/State and Federal Funds Spent?

Report View Two presents the same expenditures reported in View One, but disaggregates that spending by local/state/federal/other revenue source.

For traditional school districts, school level data (entries J and K) represent the average per pupil school level expenditures for all schools in the district. For charter schools, these entries reflect school level expenditures for the charter school. Entries L and M reflect central expenditures.

Total spending (entry N) represents all non-excluded per pupil expenditures. For traditional school districts, this represents the average per pupil expenditures of all schools in the district. For charter schools, this represents per pupil school level expenditures.

School Cost(Pre-J—K) Central Cost(Pre-L—M) Combined Cost(N)

Report View Two Per Pupil Expenditure Categories	SOMERS CSD
J. Total School Level Local/State Spending	\$24,434.44
>> K. Total School Level Federal Spending	\$406.99
L. Total Central Level Local/State Spending	\$8,790.39
M. Total Central Level Federal Spending	\$0.00
N. Total Spending (J + K + L + M)	\$33,631.82

Detailed Spending: How Much is Spent Per Pupil in Selected Program Areas?

Program Area Details in entries O through Z represent subsets of spending in Report View One and Report View Two. Five program areas are broken out. To calculate per pupil expenditures P-12 enrollment is used for pupil services, community schools programs, and BOCES services. Enrollments for the program areas are used for special education, ELL services, and prekindergarten.

Entries O through T represent school level expenditures. For charter schools, data represents per pupil expenditures in each of category in the selected school. For traditional school districts, data under the district column represent the district average of all schools in each of these categories.

Entries U through Z represent central expenditures.

School Cost(O-T) Central Cost(U-Z)

		Program Detail Areas
//	Program areas are included within the above School Level Expenditures (Row D) and Central Costs (Row H)	

Exclusions: What Other Spending is not Included in the Per Pupil Amounts Shown Above?

The final section represents total expenditures, with the following exclusions that were not included in the per pupil expenditure calculations above: transportation, tuition, debt service, and other.

"Other Exclusions" include expenditures such as tuition for students attending BOCES full-time, services provided to nonpublic or charter schools, prekindergarten payments to community-based organizations, and community services.

Central Cost(1-5 & Percent Excluded from Total) Combined Cost(Total Expenditures)

Excluded Expenditures	SOMERS CSD
1. Transportation	\$5,455,053.57
2. Charter School Tuition	\$0.00
3. Other Tuition	\$1,987,558.93

Excluded Expenditures	SOMERS CSD
4. Debt Service	\$5,977,202.26
5. Other	\$14,458,790.96
Percent Excluded from Total	24%
Total Expenditures	\$115,321,334.00
