## **Extraclassroom Activity Fund** **Required Communication of Areas in Need of Improvement**

Board of Education  
Oriskany Central School District

In planning and performing our audit of the financial statements of the Extraclassroom Activity Funds of Oriskany Central School District as of and for the year ended June 30, 2025, in accordance with auditing standards generally accepted in the United States of America, we considered the Extraclassroom Activity Funds of Oriskany Central School District's (the Funds) internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Funds' internal control. Accordingly, we do not express an opinion on the effectiveness of the Funds' internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed in the attached schedule, we identified certain deficiencies in internal control that we consider to be significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. We did not identify any deficiencies in internal control that we consider to be material weaknesses.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the following deficiencies in the Funds' internal control to be significant deficiencies.

The significant deficiencies and other matters are identified and described in the attached schedule of findings and recommendations.

This communication is intended solely for the information and use of management, the Board of Education, the New York State Education Department, and the New York State Comptroller's Office and is not intended to be and should not be used by anyone other than these specified parties.

EXTRACLASSROOM ACTIVITY FUNDS  
STATUS OF PRIOR YEAR FINDINGS AND RECOMMENDATIONS  
For the Year Ended June 30, 2025**

---

**1. Significant Deficiency**

**A. Cash Receipts**

Insufficient accounting controls exist over cash collections prior to the initial entry in the accounting records by the Central Treasurer. Internal accounting control and control over undeposited cash collections could be strengthened if receipts for cash collections were issued upon the point of sale and a pre-audit of receipts was available for each major event.

**Status:** Noted again in current year. Deposits are not being done in a timely manner. During our control testing, one out of ten deposits were made more than eleven days after cash was collected.
