

STUDENT INVOLVEMENT IN DECISION-MAKING

The role of the school is to create a stimulating learning climate which develops active involvement of students in their education and develops a spirit of inquiry. The Board believes that a student should:

1. Be encouraged to participate in planning classroom activities and in improving courses of studies.
2. Feel free to express, without fear, their own opinions, recognizing that every privilege and right has a corresponding responsibility.
3. Be involved in the planning of assembly programs and school-sponsored forums of interest.
4. Be encouraged to participate in student government organizations that provide students with a voice in school affairs.
5. Be encouraged to participate in a variety of extra-curricular activities to broaden their educational experiences.
6. The Board will have one student member from the Lin-Wood High School. Student School Board members ("Student-members") will not have the right to vote and will be excluded from all non-public sessions the Board enters. (See policy BBBF).
