**Allegany-Limestone Central School District
Network and Internet Use Policy**

The Allegany-Limestone Central School District encourages the use of its academic computer services by members of the school community. Our Board of Education is committed to providing a computer network that will promote learning, teaching, and management. It is the policy of ALCS to: (a) prevent user access over its computer network to, or transmission of, inappropriate material via Internet, electronic mail, or other forms of direct electronic communications; (b) prevent unauthorized access and other unlawful online activity; (c) prevent unauthorized online disclosure, use, or dissemination of personal identification information of minors; and (d) comply with the Children's Internet Protection Act [Pub. L. No. 106-554 and 47 USC 254(h)].

A high speed internet connection is available to students and teachers in the district who qualify. In making decisions regarding student access to the Internet, the ALCS District considers its own stated educational vision, mission, core beliefs and goals. Electronic information research skills are now fundamental to preparation of citizens and future employees. Access to the Internet enables teachers and students to explore thousands of libraries, databases, bulletin boards, and other resources while exchanging messages with people around the world. To the extent practical, technology protection measures (or "Internet filters") shall be used to block or filter Internet, or other forms of electronic communications, access to inappropriate information.

With access to computers and people all over the world also comes the availability of material that may not be considered to be of educational value. ALCS requires the implementation of a technology protection measure, generally referred to as an Internet filter, to block access to visual depictions deemed "obscene," "child pornography," or "harmful to minors." On a global network, it is impossible to control all materials and a diligent user may discover controversial information. We (ALCS) firmly believe that the valuable information and interaction on the Internet far outweighs the possibility that users may obtain material that is not consistent with the educational goals of the district.

Teachers are responsible for teaching proper techniques and standards for participation, for guiding student access to appropriate sections of the Internet, and for assuring that students understand that if they misuse the network they will lose their privilege to access the Internet from the classroom environment. Internet access is a privilege, not a right. Internet access entails responsibility. Subject to staff supervision, technology protection measures may be disabled for adults or, in the case of minors, minimized only for bona fide research or other lawful purposes.

It shall be the responsibility of all members of the ALCS staff to educate, supervise and monitor appropriate usage of the online computer network and access to the Internet in accordance with this policy, the Children's Internet Protection Act, the Neighborhood Children's Internet Protection Act, and the Protecting Children in the 21st Century Act. Procedures for the disabling or otherwise modifying any technology protection measures shall be the responsibility of the Director of Technology or designated representatives. The teaching staff will provide age appropriate training for students who use the ALCS Internet facilities. The training provided will be designed to promote commitment to:

- a. The standards and acceptable use of Internet services as set forth in this Internet Safety Policy;
- b. Student safety with regard to:
 - i. safety on the Internet;
 - ii. appropriate behavior while on online, on social networking Web sites, and in chat rooms; and
 - iii. cyberbullying awareness and response.
- c. Compliance with the E-rate requirements of the Children's Internet Protection Act ("CIPA").

Following receipt of this training, the student will acknowledge that he/she received the training, understood it, and will follow the provisions of the District's acceptable use policies.

Anyone who receives an account to access the network and the Internet will take full responsibility for his or her own actions. To the extent practical, steps shall be taken to promote the safety and security of users of the ALCS online computer network when using electronic mail, chat rooms, instant messaging, and other forms of direct electronic communications. Specifically, as required by the Children's Internet Protection Act, prevention of inappropriate network usage includes: (a) unauthorized access, including so-called 'hacking,' and other unlawful activities; and (b) unauthorized disclosure, use, and dissemination of personal identification information regarding minors.

The Allegany-Limestone Central School District will not be liable for the actions of anyone connecting to the Internet. All users shall assume full liability, legal, financial, or otherwise, for their actions. In addition, ALCS takes no responsibility for any information or materials that are transferred through the Internet. Violations of the Internet filtering policy and/or Acceptable User Policy (AUP) will result in administrative and possible legal penalties starting with withdrawal of Internet privileges and progressing through possible criminal

prosecution for egregious violations. When using another organization's networks or computing resources, students must comply with the rules appropriate for that network. The following regulations and responsibilities, then, apply to all users at Allegany-Limestone Central School District.

- All users must respect the privacy of others and will not seek, use or modify the passwords, accounts or files of other users.
- All users must respect the integrity of the equipment and will refrain from using the equipment or programs to harass others, infiltrate any computer system, damage or alter the hardware/software components of any computer system. This includes, but is not limited to, the uploading or creation of computer viruses and the attempt to destroy, harm or modify data of another user.
- All users will refrain from creating or accessing defamatory, abusive, offensive, illegal, or adult- oriented material on Allegany-Limestone/BOCES equipment.
- All users will use Allegany-Limestone/BOCES equipment for school-related activities only, and will not use this equipment for commercial, personal, monetary or business gain.
- All users must realize that the Electronic Communications Privacy Act places electronic mail in the same category as messages delivered by the United States Postal Service, and tampering may be a felony offense. *All electronic mail messages are subject to District review at any time* and should be consistent with the Allegany-Limestone Central School District vision/mission.
- All users will abide by the United States Copyright, Patent, and License Laws and will not copy, alter or distribute copyrighted or proprietary material. This includes all programs, server or network system files, and data files on the network and the Internet.
- All users not complying with the regulations for use described above will have their access privileges suspended or revoked for a period of time to be determined by the director of technology and administrators involved. Additional penalties may be administered according to district policy, or state or federal law.

This Internet Safety Policy was adopted by the Board of Allegany-Limestone CSD at a public meeting, following normal public notice, on December 20, 2011.

This signature form remains current for a maximum time period of three (3) years (exception: seniors - 4 years). Record of signatures will be recorded electronically in the ALCS Student Management System, updated annually. New students, and students in grade 3, 6, and 9 will be asked to (re-)sign the form. All staff/students will be reminded annually of their obligation to abide by the terms of the Acceptable User Policy/Agreement they signed. Students with no form on file will be denied access to school computer hardware (including an assigned district laptop when in grades 6-12).

I understand and will abide by the above Network and Internet Use Agreement. I further understand violation of the regulations above is unethical and may constitute a criminal offense. SUBJECT: USE OF EMAIL IN THE DISTRICT**Overview**

Email is a valuable tool that allows for quick and efficient communication. However, careless, unacceptable, or illegal use of email may place the District and members of its community at risk. Use of email in the District must be consistent with the District's educational goals and comply with federal and state laws and regulations, as well as all applicable District policies, regulations, procedures, collective bargaining agreements, and other related documents such as the District's *Code of Conduct*. This includes, but is not limited to, this policy and the District's policies on non-discrimination and anti-harassment, protecting the personal information of District employees and students, acceptable use, and record management.

District-related emails are most secure and best managed when District email services are used. Accordingly, the District's email services should be used for all district-related emails, including emails in which students or student issues are involved. Personal email accounts should not be used to conduct District-related business. Further, District email accounts should not be used as any individual's primary personal email address.

Scope and Application of Policy

This policy applies to all District employees and any individual assigned a District email address to conduct District-related business (authorized user).

Sending Emails with Personal, Private, and Sensitive Information

Personal, private, and sensitive information (PPSI) is any information to which unauthorized access, disclosure, modification, destruction, use, or disruption of access or use could have or cause a severe impact on critical District functions, employees, students, third parties, or other individuals or entities. For purposes of this policy, PPSI includes, but is not limited to:

- a) District assessment data;
- b) Protected student records;
- c) Information subject to laws protecting personal information such as Family Educational Rights and Privacy Act (FERPA), Individuals with Disabilities Act (IDEA), Health Insurance Portability and Accountability Act (HIPAA);
- d) Social security numbers;
- e) Driver's license or non-driver identification card numbers;
- f) Credit or debit card numbers;
- g) Account numbers;

(Continued)

SUBJECT: USE OF EMAIL IN THE DISTRICT (Cont'd.)

- h) Passwords; and
- i) Access codes.

The failure to follow proper security protocols when emailing PPSI increases the risk that unauthorized individuals could access and misuse PPSI.

District employees and authorized users may not send or forward emails that include:

- a) PPSI without building principal or supervisor authorization. Additional precautions, such as encrypting the email in a District-approved method, should be taken when sending any emails containing PPSI.
- b) Lists or information about District employees without building principal or supervisor authorization.
- c) Attachments with file names that may disclose PPSI. Files containing PPSI should be password protected and encrypted. File protection passwords should not be transmitted via email. District employees and authorized users will not use cloud-based storage services (such as Dropbox or OneDrive) to transmit files with PPSI without previous District approval or consulting with a building principal or supervisor.
- d) Comments or statements about the District that may negatively impact it.

Any questions regarding the District's protocols for sending emails with PPSI or what information may or may not be emailed should be directed to a supervisor.

Receiving Suspicious Emails

Social engineering attacks are prevalent in email. In a social engineering attack, an attacker uses human interaction (social skills) to obtain confidential or sensitive information.

Phishing attacks are a form of social engineering. Phishing attacks use fake email messages pretending to represent a legitimate person or entity to request information such as names, passwords, and account numbers. They may also deceive an individual into opening a malicious webpage or downloading a file attachment that leads to malware being installed.

Malware is malicious software that is designed to harm computer systems. Malware may be inadvertently installed after an individual opens an email attachment, downloads content from the Internet, or visits an infected website.

(Continued)

Personnel

SUBJECT: USE OF EMAIL IN THE DISTRICT (Cont'd.)

Before responding to any emails, clicking on any hyperlinks, or opening any attachments, District employees and authorized users should review emails for indicators of suspicious activity. These indicators include, but are not limited to:

- a) Attachments that were not expected or make no sense in relation to the email message;
- b) When the recipient hovers the mouse over a hyperlink that is displayed in the email, the link to the address is for a different website;
- c) Hyperlinks with misspellings of known websites;
- d) The sender is not someone with whom the recipient ordinarily communicates;
- e) The sender's email address is from a suspicious domain;
- f) Emails that are unexpected, unusual, or have bad grammar or spelling errors; and
- g) Emails asking the recipient to click on a link or open an attachment to avoid a negative consequence or to gain something of value.

District employees and authorized users should forward suspicious emails to the District's information technology (IT) staff.

No Expectation of Privacy

District employees and authorized users should have no expectation of privacy for any email messages they create, receive, or maintain on their District email account. The District has the right to monitor, review, and audit each District employee's and authorized user's District email account.

Accessing District Email Services on Personal Devices

In the event a District employee or authorized user loses a personal device that has been used to access the District's email service, that District employee or authorized user should notify the District's IT staff so that measures can be taken to secure the email account.

Personal Use

The District's email services are intended for District-related business only. Incidental or limited personal use of the District's email services is allowed so long as the use does not interfere with job performance. However, District employees and authorized users should have no expectation of privacy in this email use.

(Continued)

Personnel

SUBJECT: USE OF EMAIL IN THE DISTRICT (Cont'd.)

The District's email services should not be used to conduct job searches, post personal information to bulletin boards, blogs, chat groups, and list services, etc. without authorization from a building principal or supervisor.

It is prohibited to use the District's email services for:

- a) Illegal purposes;
- b) Transmitting threatening, obscene, discriminatory, or harassing materials or messages;
- c) Personal gain or profit;
- d) Promoting religious or political causes; and/or
- e) Sending spam, chain letters, or any other type of unauthorized widespread distribution of unsolicited mail.

Personal email accounts or services (Yahoo, Gmail, etc.) should not be accessed via the District Computer System (DCS) without authorization from a building principal or supervisor.

Confidentiality Notice

A standard confidentiality notice will automatically be added to each email as determined by the District.

Training

District employees and authorized users will receive ongoing training related to the use of email in the District. This training may cover topics such as:

- a) What is expected of users, including the appropriate use of email with students, parents, and other individuals to avoid issues regarding harassment and/or charges of fraternization;
- b) How to identify suspicious emails, as well as what to do after receipt of a suspicious email;
- c) Emailing PPSI;
- d) How to reduce risk to the District;
- e) Cost of policy non-compliance;
- f) Permanence of email, including how email is never truly deleted, as the data can reside in many different places and in many different forms; and

(Continued)

SUBJECT: USE OF EMAIL IN THE DISTRICT (Cont'd.)

- g) How users should have no expectation of privacy when using the DCS or any District email service.

Notification

The District will provide annual notification of this policy and any corresponding regulations to all District employees and authorized users. The District will then require that all employees and authorized users acknowledge that they have read, understood, and will comply with the policy and regulations.

Records Management and Retention

The same laws and business records requirements apply to email as to other forms of written communication.

Email will be maintained and archived in accordance with Retention and Disposition Schedule for New York Local Government Records (LGS-1) and as outlined in any records management policies, regulations, and/or procedures.

Additionally, emails may be subject to disclosure under the Freedom of Information Law (FOIL), a court action, an audit, or as otherwise required or permitted by law or regulation.

Disciplinary Measures

Failure to comply with this policy and any corresponding regulations or procedures may subject a District employee and authorized user to discipline such as loss of email use, loss of access to the DCS, and/or other disciplinary action up to and including termination. When applicable, law enforcement agencies may be contacted.

The District's IT staff may report inappropriate use of email by a District employee or authorized user to the District employee or authorized user's building principal or supervisor who may take appropriate action which may include disciplinary measures.

Dear Parents/Guardians,

SchoolMessenger is an alert system that will keep you informed about district and school activities, attendance, low lunch account balances and most importantly, accurate, real-time information during an emergency situation through phone calls, emails and text messages.

How the system works:

Emergency Notifications

- A phone call will be made per family at the home number, contact #1 cell phone, and contact #2 cell phone.
- An email will be sent to contact #1 and contact #2.
- A text message will be made to contact #1 cell phone and contact #2 cell phone, if you choose this option.

Attendance Notifications:

- A phone call will be made per child at the home number.
- An email will be sent per child to contact #1.

Text message permission:

Cell phone carriers will not let SchoolMessenger send out mass text messages unless it can show the owner has granted permission. You will receive the following one-time, opt-in invitation to contact #1 and contact #2 cell phone numbers. The message will read: "Allegany-Limestone Central School District messages. Reply Y for approximately 3 messages/month. Text HELP 4 info. Message & data rates may apply. See schoolmessenger.com/tm"

If you do not wish to receive any further text messages simply disregard the message or reply with STOP to the opt-in message that you receive. **Please note, although the district does not charge you for this service, check with your wireless carrier for possible charges for sending and receiving text messages.**

Any questions that you may have about SchoolMessenger can be directed to: 716 375-6600 extension 2111.

Sincerely,

Kevin L. Straub

Director of Technology/Assistant Principal

ALLEGANY LIMESTONE CENTRAL SCHOOL DISTRICT

CHARGING PROCEDURE

The Allegany Limestone Central School District believes no child should go hungry throughout the school day. If a student comes to school without a lunch or money to purchase a lunch or a breakfast, then that student will be served a meal that is charged to his or her student account.

Regulations require each district to address the following areas for handling charged meals by student:

1. What can be charged:

Only complete meals, Breakfast or Lunch. A la carte purchases and second meals are **not permitted** to be charged.

2. How a charged meal is handled:

Cashier will allow the student to charge the meal he or she would like without exception. At the Middle High School the cashier will ask the student to bring in money owed on the next school day.

A courtesy call to the parent/guardian will automatically be placed on Tuesday and Friday informing them of any negative account balance.

If charging persist, Cook Manager must submit a list of names to the Principal who will contact the families for reimbursement or determine if other action is required. (Need for Social Services or Homeless Liaison Assistance). If a financial hardship is suspected, the families will be encouraged to apply for free/reduced meals anytime during the school year.

Parents can also utilize My School Bucks to monitor lunch account balances. Contact Cook Manager for your child's school ID number.

3. The system used for identifying and recording all charge meals:

When a student needs to charge a meal the cashier will enter \$0.00 money into the students account in the WebSMARTT POS system. This will create a negative charge balance on the students account.

4. The system used for collecting repayments:

When a student re-pays the charge the cashier rings the money received under the prepay button to eliminate the negative balance on the student's accounts.

5. Communication of the procedure to Parent/Guardian and students:

A copy of the charge meal procedure will be posted on the School Food Service website. At the start of the school year a written copy of the procedure will be included in the student orientation package. In addition, the written copy will be provided to applicable staff, and new households that transfer into the District during the school year.
