Capital Expenditure Budget Information

Educating our students to reach their full potential

To: Jane Berenz, Superintendent
From: Jeff Solomon, Director of Finance and Operations
Date: April 24, 2017
Subject: 2017-18 Capital Expenditure Budget

This report summarizes the preliminary capital expenditure budget for the 2017-18 fiscal year. We are recommending that the School Board approve this budget at the April 24 meeting.

While a complete preliminary budget for all of the district's funds will be approved by the School Board in June, development of the capital expenditure budget is normally done on an earlier schedule. This is done because many capital purchases are made during the summer months and must be completed and installed before school starts in the fall.

Budget Process. This preliminary capital expenditure budget has been developed using the guidelines presented to the School Board on February 6, 2017. The guidelines showed the estimated expenditures in various broad categories and the amounts to be allocated to schools to be spent at their discretion. Since February, district staff has been working to define the specific items and projects to be purchased in each category and by each school. This budget report summarizes all of the detailed items and projects.

Resources Available

Primary revenue sources include state aids and local property tax levies, each of which is determined by formulas and rules in state law. For presentation the resources are grouped into two broad categories: 1) operating capital revenue (state aid and tax levy), including lease levy funds (tax levy), and 2) long-term facilities maintenance. The following table summarizes the 2017-18 activity:

	Operating Capital	Long-term
	Including	Facilities
	Lease Levies	Maintenance
Estimated Revenues	\$ 11,135,754	\$ 8,625,000
Proposed Appropriations	\$ 9,350,296	\$ 8,625,000
Revenue-Appropriations	\$ 1,785,458	\$ 0

The remainder of this budget message summarizes priorities recommended in each of the funding categories.

Operating Capital Projects

We are estimating more operating capital revenue this year than last due to an increase in our per pupil unit funding from \$220.17 to \$221.68. There was an increase of 785 adjusted pupil units used to calculate the district's operating capital revenue.

Spending priorities to be addressed through operating capital revenue are summarized on the following page.

Administrative and Instructional Technology and Telecommunications – The total recommendation of \$302,000 for administrative and instructional technology includes the funding for storage area network (SAN) replacement, Microsoft Exchange email upgrade, Qualtric survey subscription, other miscellaneous upgrades and emergency needs. (see page 55).

Band Instruments – \$150,000 is recommended for districtwide band instruments (see page 56).

Capital Contingency for Schools – We recommend \$30,000 to cover needs at the schools. This category is allocated for the respective Directors of Elementary and Secondary Education to assist schools with capital needs during the year (see page 59).

Building/Classroom Leases – We recommend \$3,755,734 for expenses related to leases for facilities. Of this amount, \$250,000 is for ice time rental. The majority of these expenses are funded through a specific levy authority provided by the state (see pages 57-58).

Contingency for Unplanned Expenses – \$200,000 is reserved for general contingency needs (see page 60).

Curriculum Materials – Administration recommends an allocation of \$2,696,017 to provide resources for curriculum mapping, science, literacy collaborative, social studies, world language, English/language arts and literacy, English learners, math tools, formative assessment software, career development and magnet schools. (see pages 61-65).

District Support Departments – An allocation of \$51,419 for various projects identified by district departments including finance, graphics/mailroom, facilities and grounds, human resources, and transportation (see pages 66-67).

Major Maintenance/Special Projects – We recommend allocating \$226,720 for projects at schools (\$44,949 elementary, \$46,000 middle and \$79,871 high), \$40,000 for custodial equipment replacement, \$9,400 for Ccure software service agreement and \$6,500 for breakout room sound proofing at Dakota Ridge School (see pages 68-70).

TIES Fees – We recommend allocating \$630,000 for this contractual service. We use TIES for student information software and support, finance software and support as well as other reporting functions to the state. The remaining 40 percent comes from the general account (see page 71).

Total School Building Allocation – We recommend that \$1,208,406 be allocated to schools to be budgeted at the sites. Attached is a spreadsheet showing the preliminary allocation of this amount to the individual school buildings (see page 6).

Long-Term Facilities Maintenance

The 2015 Minnesota Legislature repealed sources of facilities revenue from three statutes and replaced them with one enhanced revenue program called Long-Term Facilities Maintenance Revenue (LTFM revenue). The LTFM program provides funds for the district 10-year facility plan that include Health and Safety, accessibility, and deferred maintenance projects. The district's ten-year facility plan is adopted by the school board and approved by the commissioner.

NOTES TO CAPITAL EXPENDITURE ALLOCATION TABLES

- A Projected enrollment is based on the district's official enrollment projection reviewed by the School Board at its 11/14/2016 meeting & does not include ABE, Transition +, or ECSE students.
- B Projected enrollment counts are weighted as follows: kindergarten and grades 1-3 at 1.0, grades 4-6 at 1.1, and grades 7-12 at 1.5.
- C Center-based special education student totals at the schools are projections per email received in 02.08.2017 from J. Emery
- D Building facilities age and square footage information are based on FY2016 SchoolFinances.com Building Age System as of 01.06.2016.
- E Buildings with age factors at the upper half of the "Avg Age Calculation" are eligible for "age factor adjustment" funding. Refer to the table as shown on the next page for "age factor adjustment" calculation.
- F Total allocation to buildings is \$1,200,000; of this amount, \$150,000 is set aside for age factor adjustment. Minimum guarantee allocation for small school is \$6,500.

2017-18 Capital Budget

Cedar Park Elementary Capital Budget

Narrative Summary

Cedar Park Elementary capital expenditure funds will be spent towards literacy collaborative materials, library books, new cots for the nurse's office, fencing around dumpsters, repairing garden beds, replanting additional ground gardens, and new building maintenance equipment. Additional funds will also be used to add a cement border around the new playground structure and replacing the torn Scream the Theme banners in the parking lot. The copier lease and four sit-stand workstations for the office staff will also be purchased as well.

Greenleaf Elementary Capital Budget

Narrative Summary

Greenleaf Elementary School capital expenditures budget purchases will include the school's copier lease, math textbooks, handwriting textbooks, library books, and technology integration in classrooms. The copier lease is needed in order for the school to make copies for instructional and communication purposes. The textbooks will support student instruction and student achievement. Library books are needed to continue to supply the media center with engaging, enriching, current books for the students and teachers to read. The technology integration is needed to purchase a cart for a new class set of MacBook Air laptop computers as well as replace current outdated SMARTboards with a new projector system. The laptop will be for school-wide use, such as the 3-D printer and for substitutes to use in the classroom.

Rosemount Elementary Capital Budget

Narrative Summary

Rosemount Elementary capital funds will be used to pay for two copier leases for the office and workroom. The large copier is for high volume projects and the mid-size copier is for small, less complicated jobs. The funds will also be used to provide more resources for the media center and resource library. In addition, the capital funds will pay for the Safari Montage license and Moby Max subscription. Furniture needs at Rosemount Elementary school include small stools for guided reading tables in kindergarten and first grade classrooms, which will also be purchased with the capital funds. The gymnasium is also in need of some updates. There is a plan to use the capital funds to replace the projection screen, as well as updating one of the basketball hoops that currently hangs down in the middle of the music program stage. There is also a plan to use the capital funds to replace the laminator in the workroom and purchase a drinking fountain with a bottle filler, to replace one of the current drinking fountains.

2017-18 Capital Budget

Falcon Ridge Middle School Capital Budget

Narrative Summary

The Falcon Ridge Middle School capital budget for 2017-2018 will be used to make improvements to the administrative office, conference rooms, and the hallway adjacent to the main entry. These upgrades will complement the work of the secure entrance upgrade. Capital funds will also be used to enclose three classrooms, add carpet in another classroom, and to purchase a new lightweight wrestling mat. Another large expense to the budget is the building's copier lease.

Noel Mehus, Principal, Falcon Ridge Middle School

Scott Highlands Middle School Capital Budget

Narrative Summary

Capital expenditure funds will be used to pay for the copier lease, which will help to make copies to communicate with parents and to enhance classroom instruction. Additionally, there is a plan to use the capital funds to make the learning spaces better and more secure. The building improvement expenditures will include installing steel doors for security and adding walls to three sixth grade classrooms. The remaining funds will be used to update teacher desks, as well as purchase four monitors for the media center and multi-purpose room. The monitors will be used to display student photos, the time of the day, important information from the lunch menus, and upcoming events.

2017-18 Capital Budget

Eagan High School Capital Budget

Narrative Summary

Eagan High School will be utilizing the capital funding in 2017-2018 to affect a number of programs and needs. As nearly half of the teachers become 1:1 implementation teachers in grades 10, 11 and 12 they will receive new laptops. The RAM in those laptops will be upgraded for maximum efficiency and improved processing. Other technology needs will also be met including a sound system for meetings held in the library, new laser printers to replace the oldest printers, laptops for technology support staff and administrators, and additional Chromebooks for the two Chromebook carts so that each cart has 40 units. The process of replacing the furniture in the library will continue, with an addition another large monitor for the space. Music stands, and carts for the stands, are needed in instrumental music to replace the 27-year old stands. Replacing textbooks in the business department and adding bookshelves to English classrooms for the choice books is also planned. Athletics will receive some football helmets and shoulder pads, a pole vault pad and landing system, judge pads for the swim team and pool clocks for the swim team. Safety education will receive a set of ten infant mannequins for CPR training. Building improvement will include a set of stand-up tables for a student gathering space, stools for the high top computer tables, and demountable wall sections for several social studies classrooms.

2017-18 Capital Budget

Eastview High School Capital Budget

Narrative Summary

With 2017-18 capital expenditure funds Eastview High School plans to upgrade our high-end lab areas to handle more sophisticated software multimedia programs. With the growth in STEM, the Applied Math, Applied Science and Engineering programs and the associated Maker Space, Science Olympiad and Robotics programs, we will need to update fabrication equipment to provide a safe and productive facility. Reconditioning and certifying the safety of the football helmets will also support the safety and security objective, as well as the wall safety crash padding in our gymnasiums. Seating in the Learning Commons / Media Center will need to be replaced. Educational document duplication, student system licensing are the two primary capital reoccurring expenses.

2017-18 Capital Budget

Rosemount High School Capital Budget

Narrative Summary

Copier leases, technology equipment, software license fees, and department supplies make up the Rosemount High School 2017-2018 instructional capital expenditure requests. Expenditures for arts, athletics, and three bottle filler fountain stations make up the non-instructional expenditures for 2017-2018 capital. The band uniforms lease will also be made with the capital expenditure funds.

2017-18 Capital Budget

Capital Budgets Admin & Instr Technology & Telecommunications

Narrative Summary

During the past year, a new survey solution has been piloted to meet the changing needs of the district that the current solution no longer meets. Qualtrics offers a wide range of features that would prove beneficial for multiple departments across the district. Some of those features include: mobile responsive, instant results, more question types, electronic signatures, heat maps, form triggering, data mapping, multiple delivery methods (text, QR code, email), and reports that are effective data presentations. Qualtrics can also provide the ability to automate approval processes (vs. paper). An upgrade to the district Microsoft Exchange email server and software is needed to maintain a critical communication tool for staff throughout the district. Also critical to network functionality is the need for robust Active Directory servers that manage all user accounts in the district so a replacement of these servers will take place in 2017-18. The past two years funding was approved to replace the district's primary and backup firewall required to protect the district from malicious attacks. Part of that solution is Internet filtering. Additional capacity of logging capabilities is needed to capture the required data for historical review. In 2005-2006 the first Storage Area Network (SAN) was installed that stores all district data. While this system has been upgraded since then, it has now reached end-of-life and needs to be replaced. Emergency funding is used to address unforeseen needs to keep the district's network infrastructure in operation.

Capital Budgets Contingency for Unplanned Expenses

Narrative Summary

There are numerous times during every school year when emergencies or other critical problems arise which requires immediate attention, but which were not anticipated at the time the capital budget was approved (more than 18 months before the end of the school year). The administration carries a "Contingency" budget each year which may be used to pay for these unplanned projects.
