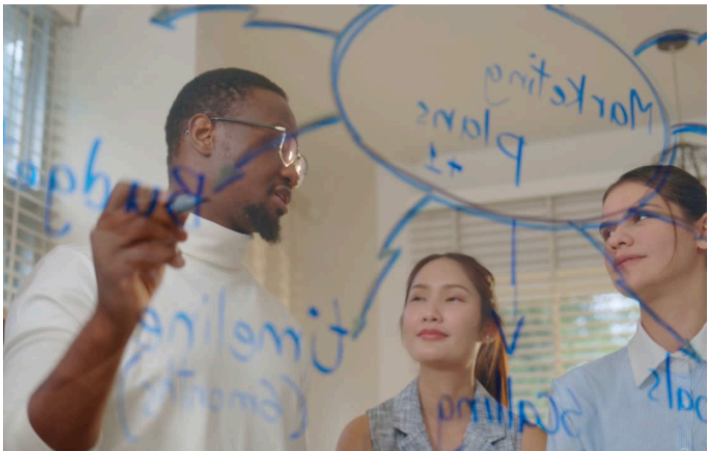
Teacher Leader Fellowship Academy

Empowering Teachers. Strengthening Schools.



The Teacher Leader Fellowship Academy (TLFA) gives teachers the skills and structures to lead improvement from within the classroom. This year-long academy helps teachers and administrators work together in a fellowship across districts to build stronger schools, retain top talent, and model what it means to be a learning community.

Attract & Retain High Quality Teachers
Districts that invest in TLFA show teachers that their expertise and leadership matter. Make your district a destination for the next generation of educators.

Why Invest in TLFA:

1. Keep strong teachers in the classroom. Teacher retention requires leaders who listen and act. TLFA equips teachers and administrators with strategies to strengthen school culture, elevate teacher voice, and improve policies and practices that support student and teacher academic and emotional health.

2. Attract new, high-quality educators. Today's educators seek districts that invest in their growth. TLFA creates a professional culture known for honoring teachers—offering meaningful, self-directed opportunities for leadership, innovation, and collaboration across districts.
