**Establishing a Student Activity**

Students or faculty desiring to form an extracurricular activity will petition the Principal/Assistant Superintendent in writing to establish a student activity/club. The petition will state the purpose of and describe the activities of the proposed extracurricular activity, and will be signed by at least **ten** students before it is presented to the Principal/Assistant Superintendent for action. If the purpose of the proposed activity falls within the scope of educational mission of the school and if the necessary space and equipment is available, the Principal/Assistant Superintendent will seek a suitable Faculty Advisor. When these procedures have been accomplished, the Principal/Assistant Superintendent will recommend to the Superintendent and School Committee approval of the extracurricular activity. (See Policy JJ, JJ-E and JJA)
