

2025-26 EDGEMONT UFSD BOARD OF EDUCATION & DISTRICT GOALS

DRAFT - AUGUST 18, 2025

1. The District will provide a **rigorous, expansive, and accessible curriculum** by integrating innovative instructional practices and technologies in order to optimize a dynamic student-centered learning experience.

Long-Term District Goals

2. The District will be a **cornerstone of collaboration with all stakeholders**, including students, to enhance educational outcomes and augment student support systems. We will cultivate strong community partnerships that reflect the District's diversity, uphold shared values and beliefs.

3. The District **supports the holistic development of each student**. By focusing on the educational, social emotional, and character-building qualities outlined in the Profile of an Edgemont Graduate, we empower students to pursue any aspiration with confidence, resilience, and purpose.

policies, structures,
and systems

Promote Transparent Inclusive & Responsive Communication:

Increase public trust
and community
engagement

Exercise Evidence-Based Oversight:

Establish rigorous,
evaluative processes
that measure
progress against
goals

2025-26 District Goals

Goals that focus the work of our schools on student learning, staff development and community engagement

Communication & Community Partnership

Build trust and strengthen relationships through transparent, inclusive, respectful and consistent two-way communication with and between families, staff, and community stakeholders, recognizing that strong school-community partnerships support student success.

Excellence in Teaching & Learning

Support innovation and instructional excellence by addressing the district's evolving needs around high-quality teaching & learning and professional development & growth that lead to improved learning outcomes for all students.

Strategic Goal Alignment & Governance

Establish and communicate annual district and Superintendent goals aligned to long-term visionary goals along with checkpoints of data-driven progress towards these goals throughout the year. Use these goals to structure leadership practices and Board oversight.

Curriculum, Instruction & Assessment Innovation

Advance a dynamic and future-ready instructional program that reflects high expectations, innovation, and student-centered design.

Operational Excellence

Pursue operational excellence while complying with evolving mandates related to cybersecurity, public health, and school safety in order to optimize the student and staff experience.
