

Fiscal Year 2025 Disadvantaged Pupil Impact Aid (DPIA) and Student Success & Wellness Funds

Purpose of Funds

Vandalia-Butler City Schools uses both funds to support students' social-emotional needs by removing obstacles that impact their learning environments and other services to empower each student for their future

Use of Funds

Vandalia-Butler City Schools work intensely preparing students that may be at-risk for success in the classroom and a path to graduation by providing dropout prevention services as well as credit recovery through ongoing meetings with staff and counselors. Additionally, annually district leaders meet with our mental health providers to review and assess student needs, concerns and severity of services required, to ensure student mental health needs are being well served so students are ready to learn. Staff and therapists are provided with the funds outlined above for this wide variety of student services.

Partnerships

- ✓ Montgomery County Educational Service Center (MCESC)
- ✓ Samaritan Behavioral Health
