Every three years the divisions must assess the Local School Wellness Policy and make it available to the public. That assessment must address:

- compliance with the division Local School Wellness Policy,
- how the policy compares to the model Wellness Policy, and
- progress made in attaining the goals of the Wellness Policy.

How does your policy compare to the model policy?

Floyd County Public Schools' Local School Wellness Policy (Wellness Policy) complies with United States Department of Agriculture Food and Nutrition Service (USDA-FNS) 7CFR210-31 and the Virginia Code 8VAC20-740 requirements.

Note progress made towards wellness goals:

The Floyd County School Division is committed to attaining the goals outlined in our School Wellness Policy. We are pleased to report that we have made good progress in aligning the sale of foods, fundraisers, and school celebrations with the policy's nutritional standards. Furthermore, we successfully involve the community in promoting physical activity requirements through the annual Floyd Moves campaign, ensuring robust engagement beyond the school day. While we are proud of these accomplishments, we are actively planning to improve our performance in the area of public involvement moving forward. The School Wellness Policy will continue to be reviewed every three years for ongoing assessment and opportunities for improvement.
