Budget Development

The Board of Education (Board) asks the Superintendent to direct the development and preparation of the budget and submit it to the Board for its tentative approval and for a later public hearing.

The Superintendent is asked to confer with the District staff on budgetary needs, as well as consider priorities that have been determined by the Board.

The Board may review the Superintendent's proposed budget at one (1) or more budget meetings and make changes as the majority of the Board may desire.

All Board budget meetings are public meetings, and the public is encouraged to attend and contribute to the budget development process within guidelines for public participation at Board meetings.
