EPS LAUNCHES NEW DISTRICT WEBSITE

Elizabeth Public Schools launched its new district website on October 21. Some of the new site features include a mega menu that hosts all of the website sections as well as the special icons that you may be familiar with at the top of our old site all in the same location. Additionally, the mega menu has a search engine that is specific to the EPS website and provides search results to resources that would only be found on our site. The site also features a special social media feed section in the upper left corner that opens out when clicked and allows users to see the postings on all our different social media platforms in one place. A map detailing the many different countries from which our families originate and a “College Prepared. Career Ready.” section that shows many of the colleges and universities that our former students have attended are also featured sections of the site. Please go to epsnj.org and check it out for yourselves.
