# Why in the WiFi?!

DimanPublic no longer Available

By Eric Benoit

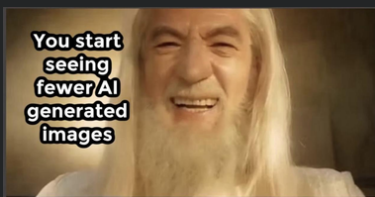

Over the last several weeks and months IT has determined that having an open WiFi such as DimanPublic available during school hours is not only a security concern, but also invites students to waste time/energy attempting to connect to it with their Chromebooks or other personal devices.

Beginning Monday, April 28th, 2025 the DimanPublic network will only be broadcast at specific times. If you are planning an event you feel DimanPublic is needed please email [helpdesk@dimanregional.org](mailto:helpdesk@dimanregional.org) ahead of time with the date. Faculty and Staff looking to use WiFi should email [helpdesk@dimanregional.org](mailto:helpdesk@dimanregional.org) for credentials.

## Notables

- Faculty and Staff seeking WiFi services should connect to DimanReg.
- Please email helpdesk@dimanregional.org for credentials

## AI Notes

- BriskAI is a Chrome Extension available to Educators
- AI can be prompted to expand upon questions, generate templates & more
- Always anonymize data input into AI

# Applications for AI:

write me a small paragraph describing the uses ai could have for teachers in a vocational high school environment

AI can be a powerful tool for teachers in vocational high schools by offering personalized learning experiences, automating administrative tasks, and enhancing hands-on training. For example, AI can help assess student progress in real time, recommend tailored resources, and simulate real-world job scenarios for practice in fields like automotive repair, healthcare, or culinary arts. It can also assist with grading, tracking attendance, and generating lesson plans, freeing up time for teachers to focus on mentoring and skill development.

give me specific examples

Sure! Here are some specific examples of how AI could help teachers in a vocational high school:

1. **Automotive Technology:** AI-powered simulators can let students practice diagnosing engine problems in a virtual environment before working on real vehicles, helping them build confidence and skills safely.
2. **Culinary Arts:** AI tools can analyze student recipes and techniques, giving instant feedback on things like portion sizes, nutritional content, and even plating aesthetics based on uploaded images.
3. **Healthcare Training:** Virtual patients powered by AI can help students in nursing or medical assisting programs practice patient interactions, triage scenarios, or symptom analysis with realistic responses.
4. **Construction and Drafting:** AI design tools can help students create and evaluate blueprints,

# Chromebook Returns

Edited Colby Sylvia

Its the most wonderful time of the year... Chrome book return time! Seniors will be sent down to the library in groups during their last scheduled ELA class.

Students are to bring their Chromebook device and charger to the library, where members of the IT Department will be waiting with a list. Students should find their name on the list and check off that they've appropriately returned both items.

## Notables

- All Seniors must return a device and charger
- Seniors should be advised to bring any/all devices they may have

## The JAZZ!

Some info, dates,  
and other things on our collective radars

### Important Dates:

- **Senior Chromebook Returns:**
  - A week Students: Week of May 23rd
  - B week Students: Week of May 16th
- **Senior Grades**
  - Due 6/2
- **Last day of School:**
  - 6/18

### SUMMER DEVICE RETURNS:

- **ALL Diman issued Equipment MUST be returned for Summer**
  - Diman will be getting new servers over the summer, which involves touching every device
- **Faculty needing devices for summer can make arrangements with IT to pick up their devices after July 4**

### And the REST:

- **AI Products Available:**
  - BriskAI Extension
  - notebooklm
  - Gemini
- **All 3 AI products are approved for use by all Diman Educators**
- **Aspen Wednesdays - Drop into the Library during the day last Wed of the month. The DDS will be available**
