HELP FOR FFN PROVIDE A MEAL & TREATS FOR THE STAFF DURING CONFERENCES ON THURSDAY, OCT 16TH.

WALKING TACOS

SIGN UP HERE.

BAKING OR SHOPPING NOT YOUR THING? MONETARY DONATIONS ARE ACCEPTED! LABEL THE ENVELOPE "FFN CONFERENCE MEAL DONATION" AND SEND IT TO THE OFFICE. IT WILL BE USED TO PURCHASE ANYTHING THAT DOESN'T GET CLAIMED FOR THE MEAL. PLEASE HAVE YOUR ITEMS IN THE OFFICE BY THE DATE YOUR SIGN UP REQUIRES. WE APPRECIATE YOUR HELP!

SAFETY REMINDERS

- Students must use the crosswalk when crossing the street.
- Morning Outdoor Supervision begins at 8:10am.
- The parking lot is meant for staff parking. By limiting this to staff, it means there will be less traffic in/out when there are students around the sidewalks and driveways at the start and end of the day.
- Afternoon Outdoor Supervision ends at 3:30pm. ALL students must be picked up, walking home or checked into BGC by this time. No exceptions.

SOCKTOBER

Kids can make a difference!

Every night in the United States, a large number of people live on the streets. They have no homes and are in need of the most basic items, including clothing. This October, we want to kick-off our annual "SOCKTOBER" service project. As inspired by "Kid President" and other kids from around the nation, we want to prove that small acts of kindness, like donating a new pair of socks, can make a big difference in the lives of our homeless neighbors. During the month of October we are going to collect as many pairs of new socks as possible, which we will donate to the Community Clothes Closet in Menasha. Will you help us? Let's show our community that the students of Foster Elementary really do care. We might be kids...but we CAN make a difference!

Who can help? You!

How? Simply bring in a donation of new socks! We are collecting socks for people of all ages.

Where? Place your sock donations in the designated bin sitting in the school lobby across from the office.

When? October 1st - October 31st
Thank you for your support!

Is Your Child Well Enough to Go to School?

It is not always easy to decide if your child is sick enough to stay home or well enough to be in school. Children who come to school are expected, with few exceptions, to participate fully in school activities.

Here are some guidelines that might help in a parent's decision-making.

1. **Fever:** A fever of 100.4 degrees or more signals an illness that is probably going to make a student uncomfortable and unable to function well in class. Your child should stay home until his or her temperature is less than 100.4 degrees (without the use of fever reducing medication) for 24 hours and he/she is feeling better.
2. **Vomiting, Diarrhea or Severe Nausea:** These are symptoms that suggest a student to remain at home until a normal diet is tolerated for 24 hours.
3. **Infectious Diseases:** Diseases such as impetigo, pink eye with thick drainage, and strep throat require a health care provider's visits and possibly a prescription for medication. Contacting the health care provider and using the medicine as directed for the full recommended length of time are necessary. A student may return to school 24 hours (or as advised by a healthcare provider) after the first dose of an antibiotic and if he/she is feeling well.
4. **Rashes:** Rashes or patches of broken, itchy skin need to be examined by a health care provider if they appear to be spreading, draining or not improving.
5. **Injuries:** If a student has an injury that causes continuous discomfort, the student should not attend school until the condition is checked by a healthcare provider or it improves. Injuries that interfere with class participation need a medical evaluation. If participation in physical education classes is not recommended, a health care provider's excuse is required.

If your child becomes ill in school, we will need to be able to reach you. Please make sure to notify the office of any work or phone number changes as they occur.
If you have further questions, please contact your school nurse through the school office.

Here are some things you can do to help:

- Frequent handwashing
- Coughing or sneezing into a tissue or sleeve
- Drink plenty of water
- Eat a well balanced diet
- Get adequate sleep
