ESTABLISHING AND VERIFYING RESIDENCY AND RESIDENCY VERIFICATION CHECKLIST

State law requires that a student reside within the district boundaries and be able to prove residency or have been approved for an Interdistrict transfer to enroll in school. In order to establish or reestablish residency in the Northshore School District you will need to complete the steps below.

- 1. Establish Residency.** If you live within the Northshore School District School District, before your student may be enrolled, you must establish residency within the attendance boundaries of your neighborhood school. Residency is defined as the physical location of the student's principal abode e.g., the home, house, apartment, etc. where the student spends the majority of their time. This is generally defined as where the student spends the night a minimum of four nights out of the week. Owning or renting a house or an apartment in the district does not establish residency – the student and parent or guardian must physically live within the district. The following locations do not constitute places of residence: secondary homes or other property (whether rented, leased or owned); places of business apart from primary residences; or addresses designated only for receipt of mail. There is no provision for families who live outside of the Northshore School District to claim residency in the District because they have made arrangements for their child to live with another family member or friend who lives in the District. Parents/guardians must supply documentation to their neighborhood school prior to or at the time of enrollment.

Exceptions

- Students who live in a foster home, officially established group home to which they have been legally assigned, residential treatment center, or juvenile detention, are considered to be residents of the attendance area in which the foster home, group home, or other such facility is located.
 - Students under the joint custody of separated or divorced parent(s) or guardian(s) are considered to be residents of the attendance area in which the student actually resides with a parent or guardian, subject to residence verification and the provisions of a parenting plan or divorce decree if applicable.
 - Students 18 years of age or older not living under the care and custody of parent/guardian, or legally emancipated minor students, are considered to be residents of the attendance area in which they reside, subject to comparable address verification required of parent(s) or guardian(s) for non-emancipated minor students.
 - Students who are homeless are assigned pursuant to the requirements of federal law.
- 2. Verify Residency.** During the Enrollment Process, you will be required to carefully read, agree to, and sign a Residency Verification Form. Misrepresentation of residency information or failure to follow through with the statements on the Residency Verification Form will result in your student's withdrawal from the district.
 - 3. Enrollment.** Once you have established your student's residency and have agreed to the terms on the Residency Verification form, enrollment may proceed.
