What is the “Observer” Role?

Observer Role is a role that can be given to an individual to be associated with a specific student or students.

Fulton Schools automatically pairs students based on their role in Infinite Campus

Once the guardian is paired with their student(s) they will be able to see the courses associated with that student!

Instructions

Solve each word problem using your problem solving strategies.

1. Read the problem and think about what is happening.
2. Write an answer statement.
3. Draw your strip diagram. Are we comparing something? Remember if we are comparing items, we need to draw two strip diagrams to compare them.
4. Write a number sentence.
5. Solve your problem using a strategy we have learned - standard algorithm, number lines, base ten blocks, decomposing.
6. Check your work and see if your answer makes SENSE!

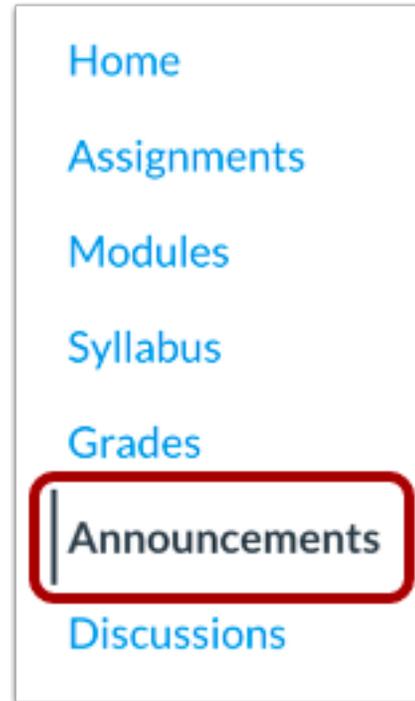

You do not need to turn in the paper you work on, but it will help you prepare for our test.

Announcements

Families can view announcements in your course. They cannot reply to them.

Think of announcements as a bulletin board for your students course.

An announcement post interface. On the left is a circular profile picture of a man. To its right is the title 'Group Project Proposals Due Monday' in a red-bordered box, followed by 'All Sections' in blue. Below is the text 'This is just a reminder that all group project proposals, ...'. On the right side, there is a blue pill-shaped button with '0' and a white pill-shaped button with '2'. Below these is the text 'Posted on: Mar 5, 2018 at 12:37pm'.

 **Doug Roberts to me**
Mar 10, 2020 at 10:22 AM

Hi Bill,

Thanks so much for reaching out! You're correct, Emily earned a 92%. I must have entered that wrong in the Gradebook. I'll fix that right away.

Mr. Roberts

 **Bill Sanderson to Doug Roberts**
Mar 10, 2020 at 10:21 AM

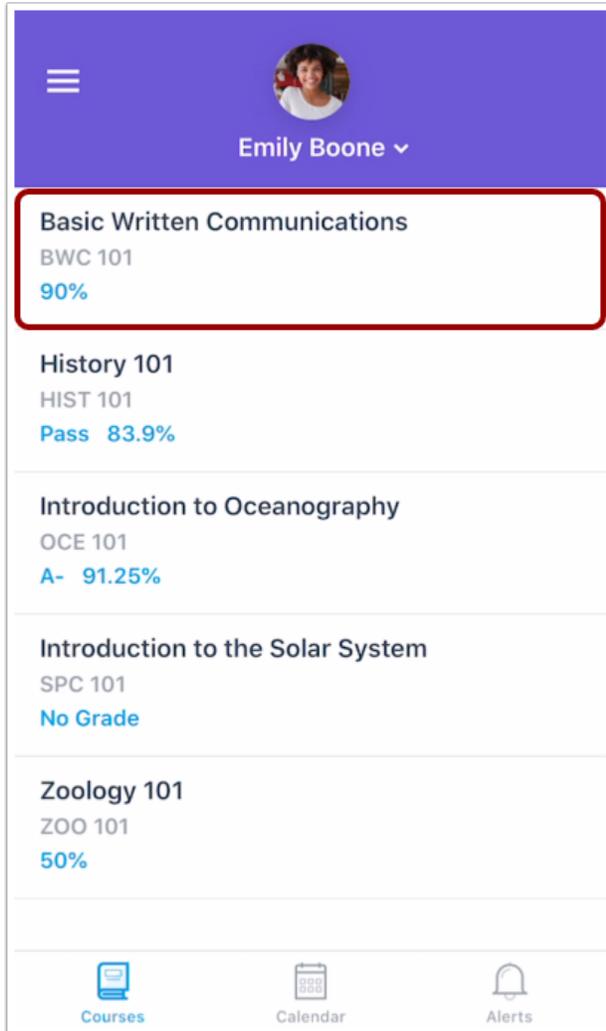

Hello Mr. Roberts,

I have some questions about my daughter's grades. In Canvas, it shows that she earned 80% on her last biome assignment. However, the grade on her paper says she received a 92%. Could you please verify?
