FLASHING SIGNS SAVE LIVES

Help Bring Them to Aberdeen's Schools

The MRHS SADD Club (Students Against Destructive Decisions) is leading a campaign to make our school zones safer for students, staff, and families. Despite a posted speed limit of 25 mph when school is in session, drivers often speed through our school zones — creating dangerous conditions during arrival and dismissal.

Our Goal:

We're asking the Aberdeen Town Council to install flashing speed limit signs in front of all district schools — especially along Atlantic Avenue, where traffic and novice drivers create serious safety risks. These signs are proven to slow drivers down, increase awareness, and prevent accidents.

How You Can Help:

- Sign the petition.
- Share it with friends, neighbors, and coworkers.
- Be part of the solution to make our school zones safer!
