

WHITEHOUSE SCHOOL STEM LAB SUPPLY DRIVE

Help Us Gather Building Materials
for Our Next STEM Projects

Dear Whitehouse Families,

Our STEM students love to *design, build, and create*—but we need your help collecting everyday materials for our upcoming engineering challenges:

-  Toilet paper rolls
-  Paper towel rolls
-  Small cardboard boxes
(tissue boxes, cereal boxes, etc.)
-  Paper plates
-  Clean recyclables (plastic bottle caps,
egg cartons, etc.)
-  Any other safe, reusable building materials.

**Materials can be dropped off outside
of Room 217 – the STEM Lab.**
