- **CCRPI**- scores are in but not being released officially yet. Economically disadvantaged has increased from 8.4% to 21.6% since 2021. ELL numbers are up to almost 4%. Expecting those numbers to increase into next year as well. Mr. Osborne is new to the building but developing relationships with ELLs and their families. Graduation numbers are up as well.
  - **Academically**- saw improvements in multiple content areas. Algebra 1 scores were fantastic. Biology is crushing it as well! Downward trend with ELL proficiency. Working to test out some students. Students with disabilities saw tremendous growth in proficiency levels last year in several subjects.

Graduation Coach/Allotment discussion for numbers next year.
