LIPSCOMB UNIVERSITY

Understand behavior. Develop solutions.

Behavior analysts develop numerous techniques and treatment approaches for analyzing and changing behavior with the ultimate goal of improving lives. In the context of education, you can be a professional that helps students with challenging behavioral issues learn to function successfully in the classroom.

More than Education

This program isn't just education focused. Based on the requirements of the Behavior Analyst Certification Board, our curriculum is designed with versatility in mind. Graduates of our program gain a background in business, research and field knowledge.

- Business Essentials provides a foundation for creating a business in ABA.
- A research course aids our candidates in publishing research conducted in their thesis class.
- Courses with concentrations in autism and communications equip candidates with essential knowledge for working with common clients in the field of ABA.
