Early Warning Indicators

Describe all intervention strategies employed by the school to improve the academic performance of students identified by the early warning system.

School Improvement with ELA

In the area of ELA, we are implementing UFLI, which is a phonics program to target students that are more than one grade level below in grades 3-5. In K-2, UFLI is used as supplemental phonics program that starts the reading block. We believe that targeting student deficiencies and teaching students how to read will impact our overall reading achievement.

School Improvement with Attendance

The school Social Worker and the School Counselor will work together to develop school wide incentives to improve attendance and decrease the percentage of students who are absent 10 or more days. In the area of school suspensions, all staff will be oriented to the school wide positive behavior plan and implement the plan school wide. The behavior committee will meet monthly to review school wide behavior data to monitor the effectiveness of the school wide behavior plan.
