

6th, 7th, 8th Grade Boys Basketball - MHS Jr. Mustangs Feeder

MHS Jr. Mustangs Feeder Basketball Program provides 6th, 7th, and 8th grade boys an opportunity to develop their basketball skills in a structured, competitive, and team-oriented environment. Designed in collaboration with the Mundelein High School Boys Basketball coaches, this program emphasizes fundamental skill development, teamwork, sportsmanship, and preparation for future high school-level competition.

Players will learn offensive and defensive strategies consistent with the Mundelein High School Mustang Boys Basketball system, participate in regular practices, and compete in area feeder league games and tournaments throughout the season. Qualified and experienced coaches, including the MHS Boys Basketball staff, will guide players through progressive development that balances skill-building, game experience, and personal growth.

Player commitment will include, on average, 2 practices per week and up to 20 games throughout the feeder season. Tryout, practice, and competition details/locations/dates will be finalized in the coming weeks.

Tryouts will be used if registration exceeds available roster spots. If a registered participant is not selected for a team, the participant will have the option to receive a refund or have a portion credited towards MPRD Jr. Mustangs House League participation.
