INDEPENDENT AUDITORS' REPORT

To the Board of Trustees
San Benito Consolidated Independent School District

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the San Benito Consolidated Independent School District as of and for the year ended August 31, 2014, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

(This page intentionally left blank.)

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the San Benito Consolidated Independent School District, as of August 31, 2014, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 17–24 and 64-65 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the San Benito Consolidated Independent School District's basic financial statements. The introductory section and the accompanying financial information listed as *Other Supplementary Information - Texas Education Agency Required Schedules* in the table of contents are presented in accordance with requirements of the Texas Education Agency for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements.

(This page intentionally left blank.)

The Texas Education Agency Required Schedules and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Texas Education Agency Required Schedules and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory section has not been subjected to the auditing procedures applied in the audit of the basic financial statements and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated January 22, 2015, on our consideration of the San Benito Consolidated Independent School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering San Benito Consolidated Independent School District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of San Benito Consolidated Independent School District's annual financial report presents our discussion and analysis of the District's financial performance during the fiscal year ended August 31, 2014. Please read it in conjunction with the District's financial statements, which follow this section.

FINANCIAL HIGHLIGHTS

- The District's total combined net position for governmental activities was $33,665,827 at August 31, 2014. This is a decrease of $11,557,857 from the prior year.
- The net position of the District's business-type activities totaled $47,999 at August 31, 2014. This is an increase of $2,622 over the prior year.
- During the year, the District's expenses were $11,626,215 more than the $114,777,547 generated in taxes, and other revenues for governmental activities.

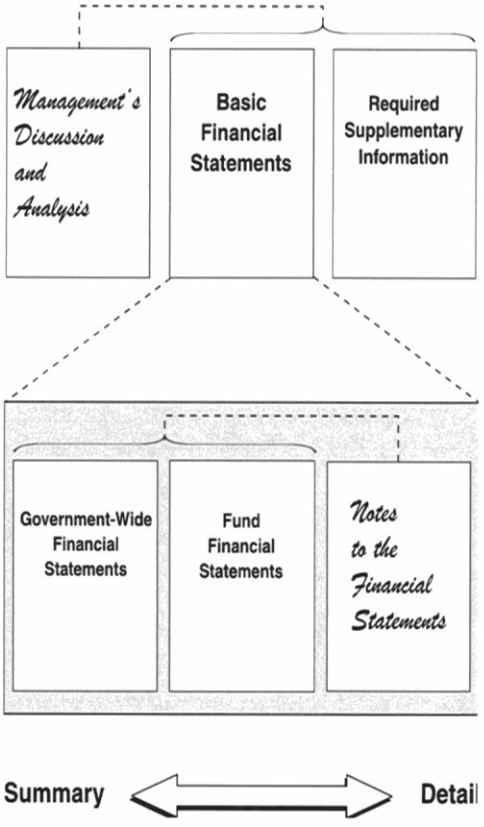

The general fund reported a fund balance this year of $8,291,584.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts—*management's discussion and analysis* (this section), the *basic financial statements, and required supplementary information.* The basic financial statements include two kinds of statements that present different views of the District:

- The first two statements are *government-wide financial statements* that provide both *long-term* and *short-term* information about the District's overall financial status.
- The remaining statements are *fund financial statements* that focus on *individual parts* of the government, reporting the District's operations in more detail than the government-wide statements.
- *The governmental funds* statements tell how *general government* services were financed in the *short-term* as well as what remains for future spending.
- *Proprietary fund* statements offer *short-term and long-term* financial information about the activities the government operates *like businesses.*
- *Fiduciary fund* statements provide information about the financial relationships in which the District acts solely as a *trustee or agent* for the benefit of others, to whom the resources in question belong.

Figure A-1, Required Components of the District's Annual Financial Report

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of *required supplementary information* that further explains and supports the information in the financial statements. Figure A-1 shows how the required parts of this annual report are arranged and related to one another.

Figure A-2 summarizes the major features of the District's financial statements, including the portion of the District government they cover and the types of information they contain. The remainder of this overview section of management's discussion and analysis explains the structure and contents of each of the statements.

Government-wide Statements

The government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the government's assets and deferred outflow of resources and liabilities and deferred inflow of resources. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the District's net position and how they have changed. Net position—the difference between the District's assets and deferred outflow of resources and liabilities and deferred inflow of resources—is one way to measure the District's financial health or *position*.

- Over time, increases or decreases in the District's net position is an indicator of whether its financial health is improving or deteriorating, respectively.

- To assess the overall health of the District, one needs to consider additional nonfinancial factors such as changes in the District's tax base.

The government-wide financial statements of the District include the *Governmental activities*. Most of the District's basic services are included here, such as instruction, extracurricular activities, curriculum and staff development, health services and general administration. Property taxes and grants finance most of these activities.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's most significant *funds*—not the District as a whole. Funds are accounting devices that the District uses to keep track of specific sources of funding and spending for particular purposes.

- Some funds are required by State law and by bond covenants.

- The Board of Trustees establishes other funds to control and manage money for particular purposes or to show that it is properly using certain taxes and grants.

The District has the following kinds of funds:

- *Governmental funds*—Most of the District's basic services are included in governmental funds, which focus on (1) how *cash and other financial assets* that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed *short-term* view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide additional information at the bottom of the governmental funds statement, or on the subsequent page, that explain the relationship (or differences) between them.

- *Proprietary funds*—Services for which the District charges customers a fee are generally reported in proprietary funds. Proprietary funds, like the government-wide statements, provide both long-term and short-term financial information.

- The District uses *internal service funds* to report activities for its worker's compensation and employee benefits program, transportation, print shop and day care services.

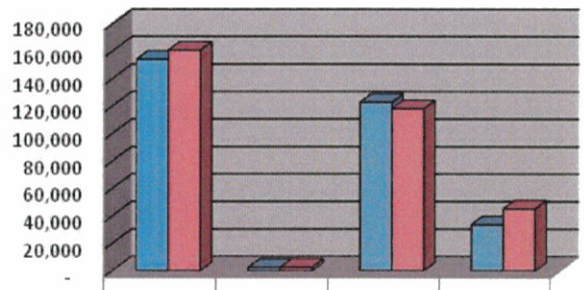

- *Fiduciary funds*—The District is the trustee, or *fiduciary*, for certain funds. It is also responsible for other assets that—because of a trust arrangement—can be used only for the trust beneficiaries. The District is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the District's fiduciary activities are reported in a separate statement of fiduciary net position and a statement of changes in fiduciary net position. We exclude these activities from the District's government-wide financial statements because the District cannot use these assets to finance its operations.

The Governmental Accounting Standard Board (GASB) Statement 54 – "Fund Balance Reporting and Governmental Fund Type Definitions" provides for a hierarchy of five possible classifications is as follows.

Nonspendable fund balances are balances that cannot be spent because they are not expected to be converted to cash or they are legally or contractually required to remain intact. The District has inventories and prepaid insurance that are considered non-spendable.

The spendable fund balances include restricted, committed, assigned and unassigned based upon the hierarchy of spending constraints. **Restricted:** fund balances that are constrained by external parties, constitutional provisions or enabling legislation; **committed:** fund balances that contain self-imposed constraints of the government from its highest level of decision making authority (the board of trustees); **assigned:** fund balances that contained self-imposed constraints of the government to be used for a particular purpose (the Superintendent or the Assistant Superintendent for Business Services has the authority to assign funds for specific purposes); and **unassigned:** fund balance of the general fund that has not been constrained for any particular purpose.

Restricted	904	760
Unrestricted	3,600	13,029
Total Net Position	$ 33,666	$ 45,224

Approximately 2.7% of the District's net position is subject to external restrictions on how they may be used. The $3,600,110 of unrestricted net position represents resources available to fund the programs of the District next year.

At the end of the current fiscal year, the District is able to report positive balances in all three categories of net position. The same situation is true for the prior year.

Changes in net position. The District's total revenues from governmental activities total $114,777,547. Approximately 9.6% of the District's revenue comes from taxes. (See Figure A-3.) 67.5% comes from state aid – formula grants, while 21.7% comes from federal grants.

The total cost of all programs and services for governmental activities was $126,403,762.

Governmental Activities

- Property tax rates remained at 1.3049. Property values increased by about 2.5%.
- Property tax collections rate for the current year was 91%, collections including delinquent taxes was 98%.
- Average daily attendance decreased by 284 students from the prior year.
- For ten consecutive years the District has received a Superior rating for the Financial Integrity Reporting System of Texas (FIRST).

Note – During consolidation of the government-wide financial statements, the methodology for the allocation of the change in net position in the District's health self-insurance fund, an internal service fund, was modified. Due to this change, certain amounts presented in the prior year data have been reclassified to be consistent with the current year's presentation. This change does not affect financial data at the fund level financial statements.

Table A-3 presents the cost of each of the District's largest functions as well as each function's net cost (total cost less fees generated by the activities and intergovernmental aid). The net cost reflects what was funded by state revenues as well as local tax dollars.

- The cost of all *governmental* activities this year was $126,403,762.
- However, the amount that our taxpayers paid for these activities through property taxes was $11,067,977.
- Some of the cost was paid by those who directly benefited from the programs $627,733 or by grants and contributions $24,941,068.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

Revenues from governmental fund types totaled $114,364,882 a decrease of $1.4 million from the preceding year. State revenue totaled $80.5 million a decrease of $802,208 from last year. Federal program revenues were $21.8 million. This is a decrease of $560,927 from the prior year.

General Fund Budgetary Highlights

Over the course of the year, the District revised its budget numerous times. Even with these adjustments, actual expenditures were $4,887,712 below final budget amounts. The most significant positive variance resulted from staffing. Staffing is budgeted for full employment throughout the full year. Budget amounts for vacant positions throughout the year are not eligible for budget revisions. The most significant differences between estimated and actual expenditures were realized in function 11 – instruction and function 51 - facilities and maintenance. The positive variances resulted from a reduction of hours and holding budgeted positions vacant.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

At the end of 2014, the District had invested $213,368,605 in a broad range of capital assets, including land, equipment, buildings and vehicles.

Table A-4

Total accumulated depreciation	97,288	89,542
Net capital assets	$116,080	$122,750

Long Term Debt

At year-end the District had $89,220,000 in bonds outstanding as shown in Table A-5.

Bond Ratings

The District's bonds presently carry an 'A' Fitch rating. The bonds are additionally secured by the Texas Permanent School Fund, whose bond guarantee program is rated 'AAA' by Fitch.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

- Appraised value used for the 2014-15 budget preparation are up $14.8 million, or about 1.1% from $1,316,133,405 in 2013-2014 to $1,330,948,143 currently.

- The tax rate remained at 1.3049.

- The District's 2014-15 refined average daily attendance is expected to be at 10,269.

These indicators were taken into account when adopting the general fund budget for 2014-15. The general fund appropriations for 2014-15 were set at $98 million, an increase of 2.1 percent from the 2013-14 original budget of $96 million.

Self-Funded Health Insurance

The District made changes in 13-14 to our self-funded health insurance plan which included a new "managed care" component. The plan as presented was for direct provider contracts at Medicare rates with a limited number of providers and minimal or no employee co-pays required. However, the results of the managed care plan were not as intended. The District experienced a loss in the health insurance fund of approximately $6.8 million. The District has revised the health insurance plan for 2014-15. The District's contribution has increased by $30 per member per month. In addition, the employee premiums went from $25 per month to $50 per month and co-pays have been established.

Due to Texas Education Agency

As of August 31, 2014, the District had been overpaid by the Texas Education Agency $13.9 million as a result of overpayments over several years of IFA and EDA funding. The District held a Tax Ratification Election in 2010 which allowed the District to shift 13 cents from the debt service rate to the M&O rate. The District initially had sufficient "excess collections" to cover the local share of debt service taxes. However, the state continued to send the full amount of IFA and EDA funding after the excess collections were exhausted. The District never recognized the excess as revenue and has recorded them as a liability in the debt service fund. The Texas Education Agency has now acknowledged this overpayment and is in the process of collecting the excess funding by reducing the 14-15 foundation funds each month by approximately $ 1.6 million.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE STATEMENT OF NET POSITION
AUGUST 31, 2014

	Total Fund Balances - Governmental Funds	$	8,614,375
1	The District uses internal service funds to charge the costs of certain activities, such as self-insurance and printing, to appropriate functions in other funds. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net position. The net effect of this consolidation is to increase(decrease) net position.		740,032
2	Capital assets used in governmental activities are not financial resources and therefore are not reported in governmental funds. The cost of these assets was $207,552,181 and the accumulated depreciation was $93,230,360. The net effect of including capital assets (net of depreciation) in the governmental activities is to increase net position.		114,321,821
3	Long-term liabilities, including bonds payable $89,220,000, interest accretion on CAB bonds $1,255,371 and notes payable $161,961 are not due and payable in the current period and therefore not reported in the funds.		(90,637,332)
4	Payable for compensated absences are not due and payable in the current period and therefore are not reported in the funds.		(976,170)
5	Property taxes receivable will be collected this year, but are not available soon enough to pay for the current period's expenditures, and therefore are deferred in the funds.		2,542,736
6	Premiums $(3,580,815) and discounts $353,056 resulting from the issuance of bonds are capitalized, net of amortization, on the government-wide statements.		(3,227,759)
7	Interest expense is paid when due in the fund statements but is accrued in the government-wide statements. Accrued interest on bonds and notes payable at year end decreases net position.		(168,909)
8	Gains/losses on defeasance of debt through refundings are recognized as deferred inflows or outflows and amortized over the remaining life of the debt as an increase (decrease) in net position. Deferred inflows/outflows due to debt refundings are not reported in the funds.		2,457,033

RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED AUGUST 31, 2014

Total Net Change in Fund Balances - Governmental Funds	$	(9,726,600)
The District uses internal service funds to charge the costs of certain activities, such as self-insurance and printing, to appropriate functions in other funds. The net income (loss) of internal service funds are reported with governmental activities. The net effect of this consolidation is to increase (decrease) net position.		150,437
Capital outlays are reported in the government funds as expenditures. However, in the statement of activities, the cost of those assets, $718,550, is allocated over their useful lives as depreciation expense which totaled $(7,548,126) at year end. This is the amount of depreciation in excess of capital outlay in the current period.		(6,829,576)
Property tax revenues in the statement of activities that do not provide current financial resources and are not reported as revenues in the funds.		62,339
Repayment of bond principal of $4,725,000 and notes payable of $154,840 is an expenditure in the funds but is not an expense in statement of activities.		4,879,840
Some expenses reported in the statement of activities do not require the use of current financial resources and are not reported as expenditures in governmental funds. The net effect of a decrease in compensated absence liability $29,175, net amortization of bond premiums and discounts $209,010, increase in accrued interest payable $(168,909) and amortization of deferred gain/loss on bond defeasance $(179,080) totaled.		(109,804)
Interest accretion on long-term debt is included in the changes in net position as it accrued, regardless of when payment is made. This is the amount accrued $(137,851), net of interest paid of $85,000.		(52,851)
Change in Net Position of Governmental Activities	$	(11,626,215)

NOTE A - REPORTING ENTITY

This report includes the financial statements of the funds required to account for those activities, organizations and functions which are related to the San Benito Consolidated Independent School District (the District) and which are controlled by or dependent upon the District's governing body, the Board of Trustees. The Board of Trustees (the Board), includes seven eligible members elected at large by the qualified voters of the San Benito Consolidated Independent School District, the Board has the exclusive power and duty to govern and oversee the management of the public schools of the District. All powers and duties not specifically delegated by statute to the Texas Education Agency (TEA) or to the State Board of Education are reserved for the Board, and TEA may not substitute its judgment for the lawful exercise of those powers and duties by the Board.

The District receives funding from local, state and federal government sources and must comply with the applicable requirements of these funding source entities. However, the District is not included in any other governmental "reporting entity" as defined by GASB Statement No. 14 *The Financial Reporting Entity* since Board members are elected by the public and have decision making authority, the power to designate management, the responsibility to significantly influence operations and primary accountability for fiscal matters. The District is a governmental entity exempt from federal income taxation under Internal Revenue Code Section 115.

In accordance with Governmental Accounting Standards Board ("GASB") Statement No. 14, *The Financial Reporting Entity,* ("GASB Statement No. 14"), a financial reporting entity consists of the primary government and its component unit. Component units are legally separate organizations for which the elected officials of the District are financially accountable, or for which the relationship to the District is such that exclusion would cause the District's financial statements to be misleading or incomplete. The District's blended component unit, although a legally separate entity, is in substance part of the District's operations, and so data from this unit is combined with data of the primary government.

The criteria used to determine whether an organization is a component unit of the District includes: financial accountability of the District for the component unit, appointment of a voting majority, fiscal dependency, ability to impose the District's will on the component unit, and whether there is a financial benefit or burden to the District.

For financial reporting purposes, the San Benito Consolidated Independent School District Public Facility Corporation ("PFC") is included in the operations and activities of the District because of the fiscal dependency criteria whereby the PFC serves the District exclusively.

The San Benito Consolidated Independent School District Public Facility Corporation ("PFC"), a blended component unit, was organized to finance the construction of a new multi-purpose stadium for the District. SBCISD PFC is governed by a Board of Directors composed of the San Benito Consolidated Independent School District Board of Trustees. The SBCISD PFC is blended as part of the Capital Projects Fund. There are no discretely presented component units within the reporting entity.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

San Benito Consolidated Independent School District's (the "District") basic financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to governmental units in conjunction with the Texas Education Agency's Financial Accountability System Resource Guide (the "Resource Guide"). The Governmental Accounting Standards Board (GASB) is the accepted standards setting body for establishing governmental accounting and financial reporting principles.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

1. *Government-Wide Statements and Fund Financial Statements*

The government-wide financial statements consist of the statement of net position and the statement of activities. These statements report information on all of the non-fiduciary activities of the District. The effect of the interfund activity has been removed from these statements. The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Program revenues include charges to customers and grants used for operational requirements. Governmental activities are supported by tax revenues, state aid, charges for services, investment earnings and intergovernmental revenues such as grants.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function and 2) grants and contributions that are restricted to meeting operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, and fiduciary funds even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

The accounts of the District are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures, or expenses, as appropriate. Government resources are allocated to, and accounted for the purpose of, carrying on specific activities in accordance with laws, regulations, or other appropriate requirements. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as non-major funds.

2. *Measurement Focus, Basis of Accounting and Financial Statement Presentation*

These financial statements are reported using the economic resources measurement focus. The government-wide and proprietary fund financial statements are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions, in which the District gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

In addition, the District reports the following major governmental funds:

General Fund. This is the District's primary operating fund. It accounts for all financial resources of the District except those required to be accounted for in another fund.

Debt Service Fund. This fund is used to account for the revenues collected from local taxation and allocated state aid for the payment of principal and interest on bonded indebtedness.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

In addition, the District reports the following fund types:

Governmental Funds:

Special Revenue Funds: The District accounts for resources restricted for a specific purpose by the District or a grantor in a special revenue fund. Most federal and some state financial award programs are accounted for in these funds and sometimes unused balances must be returned to the grantor at the close of specified project periods.

Capital Projects Fund. The District uses this fund to account for bond proceeds used for construction.

Fiduciary Funds:

Fiduciary funds are reported in the fiduciary fund financial statements. However, because their assets are held in a trustee or agency capacity and are not available to support District programs, these funds are not included in the government-wide statements. These funds are as follows:

Private Purpose Trust Funds. The District accounts for donations for which the donor stipulated that both the principal and the income may be used for purposes that benefit parties outside the District. The District's Private Purpose Trust Funds includes the General Scholarship Fund.

Agency Funds. The District accounts for resources held for others in a custodial capacity in agency funds. The District's Agency Fund is the Student Activity Fund, tax clearing fund and escrow account fund.

In addition, the District reports the following proprietary funds:

Enterprise Fund. The District accounts for daycare services and the after school paid program.

Internal Service Fund. These funds are used to account for revenues and expenses related to services provided to parties inside the District. These funds facilitate distribution of support costs to the uses of support services on a cost reimbursement basis. The District uses this fund to account for claim payments and administrative costs paid for the modified self-funded workers' compensation plan provided for the employees.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations.

The Proprietary Fund Types and the Fiduciary Fund Types are accounted for on a flow of economic resources measurement focus and utilize the accrual basis of accounting. This basis of accounting recognizes revenues in the accounting period in which they are earned and become measurable and expenses in the accounting period in which they are incurred and become measurable. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the fund Statement of Net Position. The fund equity is segregated into restricted net position (held in trust) and unrestricted net position. The agency funds record only assets and liabilities and use the accrual basis of accounting to recognize receivables and payables. When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. This basis of accounting recognizes revenues in the accounting period in which they become available and measurable. The District considers revenues as available if they are collected within the 60 days after year end. Revenues susceptible to accrual are property taxes, fiscal year state funding, and interest revenues. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

When the District incurs an expenditure or expense for which both restricted and unrestricted resources may be used, it is the District's policy to use restricted resources first, then unrestricted resources.

Unearned revenue is reported in the governmental funds when a potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period. Unearned revenues also arise when resources are received by the government before it has a legal claim to them, as when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the government has a legal claim to the resources, the liability for deferred revenue is removed and revenue is recognized.

3. ***Budgets***

The official school budget was prepared for adoption for required Governmental Fund Types by August 20, 2013. The budget was formally adopted by the board of school trustees at a duly advertised public meeting prior to the expenditure of funds. The budget was amended by the board of school trustees throughout the year. Expenditures may not legally exceed budgeted appropriations at the function level.

4. ***Cash and Cash Equivalents***

For the purposes of the statement of cash flows, investments are considered to be cash equivalents if they are highly liquid with maturity within three months or less.

5. ***Investments***

Money market investments which are short-term, highly liquid debt instruments including commercial paper, bankers' acceptances and U.S. Treasury and agency obligations are reported at fair value.

6. ***Inventory***

Inventory is valued at cost (average). The District accounts for the food inventory by using the purchase method whereby purchases of inventories are recognized as expenditures when the goods are received. The District accounts for school supply and maintenance inventory by the consumption method whereby expenditures are recognized when the inventory items are used. Reported inventories are equally offset by nonspendable fund balance which indicates that they do not constitute "available spendable resources" even though they are a component of net current assets.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

7. *Other Current Assets*

Other current assets are prepaid expenses that will benefit periods beyond August 31, 2014. The only prepaid expenses included are for unexpired insurance policy premiums paid by August 31, 2014, and which extend beyond that date. The reported prepaid insurance is equally offset by nonspendable fund balance, which indicates that they do not constitute "available expendable resources" even though they are a component of net current assets.

8. *Capital Assets*

Purchased or constructed capital assets are reported at cost or estimated historical cost. Donated fixed assets are recorded at their estimated fair value at the date of the donation. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. A capitalization threshold of $5,000 is used.

Capital assets are being depreciated using the straight-line method over the following estimated useful lives:

Assets Class	Estimated Useful Lives
Infrastructure	30
Buildings	52
Buildings Improvements	20
Vehicles	2-15
Office Equipment	3-15
Computer Equipment	3-15

9. *Interfund Activity*

Interfund activity results from loans, services provided, reimbursements or transfers between funds. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided are treated as revenues and expenditures or expenses. Reimbursements occur when one fund incurs a cost, charges the appropriate benefiting fund, and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers In and Transfers Out are netted and presented as a single "Transfers" line on the government-wide statement of activities. Similarly, interfund receivables and payables are netted and presented as a single "Internal Balances" line of the government-wide statement of net assets.

10. *Long-term Obligations*

In government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities. Bond premiums and discounts are deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. Premiums received and discounts incurred on debt issuances are reported as other financing sources and uses. Issuance costs, whether or not withheld from debt proceeds, are reported as debt service expenditures.

11. *Use of Estimates*

The preparation of financial statements in conformity with GAAP requires the use of management's estimates. Actual results could differ from those estimates.

12. *Compensated Absences*

The District's policy allows employees who retire and have accumulated unused state leave to be paid $40 per day for any unused leave at the time of retirement.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

13. ***Accounting System***

In accordance with the Resource Guide, the District has adopted and installed an accounting system which meets at least the minimum requirements prescribed by the State Board of Education and approved by the State Auditor. Specifically, the District's accounting system uses codes and the code structure prescribed by TEA in the Resource Guide. Mandatory codes are recorded in the order provided in that section.

14. ***Data Control Codes***

Data Control Codes appear in the rows and above the columns of certain financial statements. The TEA requires the display of these codes in the financial statements filed with TEA in order to insure accuracy in building a State-wide database for policy development and funding plans.

15. ***Fund Balance Reporting***

GASB Statement No. 54 provides for two major types of fund balances, which are nonspendable and spendable. Nonspendable fund balances are balances that cannot be spent because they are not expected to be converted to cash or they are legally or contractually required to remain intact. Examples of this classification are prepaid items and inventories. The District has prepayments and inventories that are considered nonspendable.

In addition to the nonspendable fund balance, GASB Statement No. 54 has provided a hierarchy of spendable fund balances, based on a hierarchy of spending constraints.

- **Restricted**: fund balances that are constrained by external parties, constitutional provisions, or enabling legislation.
- **Committed**: fund balances that contain self-imposed constraints of the government from its highest level of decision making authority. The responsibility to commit funds rests with the Board of Trustees. Committed amounts cannot be used for any other purpose unless the governing board changes or lifts the constraint taking the same formal action that imposed the constraint originally.
- **Assigned**: fund balances that contain self-imposed constraints of the government to be used for a particular purpose. The responsibility to assign funds rests with the Superintendent or the Assistant Superintendent for Business Services.
- **Unassigned**: fund balance of the general fund that is not constrained for any particular purpose.

When an expenditure is incurred for a purpose for which both restricted and unrestricted fund balance is available, The District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds.

16. ***Encumbrance Accounting***

The District employs encumbrance accounting, whereby encumbrances for goods or purchased services are documented by purchase orders and contracts. An encumbrance represents a commitment of Board appropriation related to unperformed contracts for goods and services. The issuance of a purchase order or the signing of a contract creates an encumbrance but does not represent an expenditure for the period, only a commitment to expend resources. Appropriations lapse at August 31st and encumbrances outstanding at that time are either cancelled or appropriately provided for in the subsequent year's budget.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

17. ***Deferred Outflows and Inflows of Resources***

The District adopted GASB Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position,* which provides guidance for reporting the financial statement elements of deferred outflows of resources, which represent the consumption of the District's net position that is applicable to a future reporting period, and deferred inflows of resources, which represent the District's acquisition of net position applicable to a future reporting period.

The District adopted GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities,* which establishes accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities and recognizes, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities. The District has an accounting loss on refunding bonds which is a deferred resource outflow and also has unavailable revenues from property taxes which are deferred resource inflows under this standard.

NOTE C - DEPOSITS AND INVESTMENTS

Investment Accounting Policy

The District is required by Government Code Chapter 2256, The Public Funds Investment Act (the "Act"), to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, and (9) bid solicitation preferences for certificates of deposit.

The Act requires an annual audit of investment practices. Audit procedures in this area conducted as a part of the audit of the basic financial statements disclosed that in the areas of investment practices, management reports, and establishment of appropriate policies; the District adhered to the requirements of the Act. Additionally, investment practices of the District were in accordance with local policies.

The District's general policy is to report money market investments and short-term participating interest-earning investment contracts at amortized cost and to report nonparticipating interest-earning investment contracts using a cost-based measure. However, if the fair value of an investment is significantly affected by the impairment of the credit standing of the issuer or by other factors, it is reported at fair value. All other investments are reported at fair value unless a legal contract exists which guarantees a higher value. The term "short-term" refers to investments which have a remaining term of one year or less at time of purchase. The term "nonparticipating" means the investment's value does not vary with market interest rate changes. Nonnegotiable certificates of deposit are examples of nonparticipating interest-earning investment contracts.

The Act determines the types of investments, which are allowable for the District. These include, with certain restrictions, (1) obligations of the U.S. Treasury, certain U.S. agencies, the state of Texas, (2) certificates of deposit, (3) certain municipal securities, (4) money market savings accounts, (5) repurchase agreements, (6) bankers acceptances, (7) mutual funds, (8) investment pools, (9) guaranteed investment contracts, and (10) common trust funds. The District's policy authorizes all the State allowable investments.

The District's management believes that it has complied in all material respects with the requirements of the Act and the District's investment policies.

NOTE C - DEPOSITS AND INVESTMENTS – Continued

Custodial Credit Risk

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The Public Funds Investment Act, the District's investment policy, and Government Code Chapter 2257 "Collateral for Public Funds" contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits or investments. To be eligible to receive funds from and invest funds on behalf of an entity under this chapter, a public fund investment pool created to function as a money market mutual fund must mark its portfolio to market daily, and to the extent reasonable possible, stabilize at a $1 net asset value. If the ratio of the market value of the portfolio divided by the book value of the portfolio is less than .995 or greater than 1.005, portfolio holdings shall be sold as necessary to maintain the ratio between 0.995 and 1.005.

The District's funds are required to be deposited and invested under the terms of a depository contract. The depository bank deposits for safekeeping and trust with the District's agent bank approved pledged securities in an amount sufficient to protect District funds on a day-to-day basis during the period of the contract. The pledge of approved securities is waived only to the extent of the depository bank's dollar amount of Federal Deposit Insurance Corporation ("FDIC") insurance.

Cash Deposits

At August 31, 2014, the carrying amount of the District's deposits (cash, certificates of deposit, and interest-bearing savings account included in temporary investments) was $1,672,405 and the bank balance was $3,510,794. In addition to these cash and cash equivalents, the District maintains $29,489,718 in a government investment pool.

The District's cash deposits at August 31, 2014 are maintained primarily at Frost Bank, Harlingen, Texas. These deposits were entirely covered by FDIC insurance or by pledged collateral held by the District's agent bank. The deposits were collateralized in accordance with Texas Law, and the Texas Education Agency maintains copies of all safekeeping receipts in the name of the District. Deposits were properly secured at all times.

In addition, the following is disclosed regarding coverage of combined balances on the date of highest deposit:

a. Depository: BBVA Compass Bank
b. The market value of securities pledged as of the date of the highest combined balance on deposit was $23,728,357.
c. The highest combined balances of cash, savings and time deposit accounts amounted to $21,718,787 and occurred during the month of December 2013.
d. Total amount of FDIC coverage at the time of largest combined balance was $250,000.

NOTE C - DEPOSITS AND INVESTMENTS - Continued

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. One of the ways that the District manages its exposure to interest rate risk is by purchasing a combination of shorter term and longer term investments and by timing cash flows from maturities so that a portion of the portfolio is maturing or coming close to maturity evenly over time as necessary to provide the cash flow and liquidity needed for operations.

Information about the sensitivity of the fair values of the District's investments to market interest rate fluctuations is provided by the following table that shows the specific investments and their maturity:

Description	CUSIP	Amount	Maturity	Days
Lone Star Investments	N/A	$27,427,818	N/A	Daily
MBIA Asset Management	N/A	2,061,900	N/A	Daily
		$29,489,718		

Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Presented below is the minimum rating required by the District's investment policy and the Texas Public Fund Investment Act and the actual rating as of year end for each investment.

Description	Minimum Legal Rating	Amount	Rating	Percentage
Lone Star Investments	AAA	$27,427,818	AAA	93%
MBIA Asset Management	AAA	2,061,900	AAA	7%
		$29,489,718		

Concentration of Credit Risk

The Investment policy of the District contains no limitations on the amount that can be invested in any one issuer beyond that stipulated by the Public Funds Investment Act ("PFIA"). There were no investments in any one issuer (other than U.S. Treasury securities, mutual funds, and external investment pools) that represent 5% or more of total District investments.

Public Funds Investment Pools

First Public's Lone Star Investment Pool and MBIA, Inc.'s Texas CLASS pools are 2a7-like investment pools. Texas CLASS pool is rated AAAm by Standard and Poor's Rating Services. Texas CLASS participants' investments in the pool are evidenced by shares of the pool. The public entity's investment is with the pool, not the securities that make up the pool. Lone Star Investment Pool is rated AAA by Standard and Poor's Rating Services.

The District's investment in Pools are reported at an amount determined by the fair value per share of the pool's underlying portfolio, unless the pool is 2a7-like, in which case they are reported at share value. A 2a7-like pool is one which is not registered with the Securities and Exchange Commission ("SEC") as an investment company, but nevertheless has a policy that it will, and does, operate in a manner consistent with the SEC's Rule 2a7 of the Investment Company Act of 1940.

NOTE D - PROPERTY TAX

Property taxes are levied by October 1 in conformity with Subtitle E, Texas Property Tax Code. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed. On January 1 of each year, a tax lien attaches to property to secure the payment of all taxes, penalties, and interest ultimately imposed. Property tax revenues are considered available when they become due or past due and receivable within the current period.

Delinquent taxes are prorated between maintenance and debt service based on rates adopted for the year of the levy. The District's 2013 tax rate was $1.17 for maintenance and $.1349 for debt service per $100 assessed valuation. The 2013 assessed valuation was $872,203,176. Allowances for uncollectibles within the General and Debt Service Funds are based upon historical experience in collecting property taxes. Uncollectible personal property taxes are periodically reviewed and written off, but the District is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature. At August 31, 2014 outstanding taxes in the general fund and debt service fund was $2,532,430 and $342,740 with a corresponding allowance for doubtful accounts of $298,160 and $34,274.

There are a number of limitations and restrictions contained in the general obligation bond indentures. In the opinion of the District, it is in compliance with all significant limitations and restrictions at August 31, 2014.

Defeased Bonds

In prior years, the District defeased certain outstanding bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the respective trust account assets and related liabilities for the deceased bonds are not included in the District's financial statements. At August 31, 2014, the following outstanding bonds are considered defeased:

Series	Ending Balance
2000	$15,230,000
2004	$29,745,000

Maintenance Tax Note

In March 2010, the District passed a resolution to borrow $750,000. The District issued, through Frost Bank, The San Benito CISD $750,000 Maintenance Tax Note for the purpose of re-turfing the District's Bobby Morrow Stadium. The note bears interest at 3.29% and matures in five equal installments of $165,124 beginning on April 2011 and ending in April 2015. The balance of the note at August 31, 2014 was $161,961.

NOTE I – SAN BENITO CONSOLIDATED INDEPENDENT SCHOOL DISTRICT PUBLIC FACILITY CORPORATION

The Public Facility Corporation is a public non-profit corporation, the creation of which was sponsored by the District pursuant to the Public Facility Corporation Act, Article 717s, Vernon's Texas Civil Statutes, as amended (the "Public Facility Corporation Act"). The Public Facility Corporation Act authorizes the creation and utilization by school districts of public facility corporations to issue bonds to provide for the acquisition, construction, rehabilitation, renovation, repair, equipping, furnishing and placing in service of public facilities of its governmental sponsor and further authorizes the governmental sponsor to incur lease purchase obligations in favor of the corporation to serve as security for the bonds issued by the Public Facility Corporation.

Lease revenue bonds in the principal amount of $4,500,000 were issued on February 13, 2006, pursuant to a resolution by the Board of Directors of the Public Facility Corporation and a Master Trust Indenture dated as of February 1, 2007, (the "Trust Indenture") between the Public Facility Corporation and Compass Bank, as trustee to finance, for the benefit of the District, the construction of a new multi-purpose stadium.

To accomplish the financing, the Public Facility Corporation and the District entered into a "Lease With An Option to Purchase Relating to the San Benito Consolidated Independent School District Bobby Morrow Stadium," pursuant to the terms of which the District will pay to the Public Facility Corporation such lease payments at such times and in such amounts as will be required to pay the principal of premium, if any, and interest on the lease revenue bonds as they become due.

NOTE O – COMPLIANCE AND ACCOUNTABILITY

a. Finance-Related Legal and Contractual Provision

In accordance with GASB Statement No. 38, "Certain Financial Statement Note Disclosures," no violations of finance related legal and contractual provisions, occurred during the current year.

b. Deficit Fund Balance or Fund Net Assets of Individual Funds

Following are funds having deficit fund balances or fund net assets at year end, if any, along with remarks which address such deficits:

Fund Name	Amount	Remarks
None noted	None noted	No remarks necessary

NOTE P – COMMITMENTS AND CONTINGENCIES

Contingencies

The District is a party to various legal actions, none of which is believed by administration to have a material effect on the financial condition of the District. Accordingly, no provision for losses has been recorded in the accompanying combined financial statements for such contingencies.

The District participates in numerous state and federal grant programs, which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the District has not complied with the rules and regulations governing the grants, if any, refunds of any money received may be required and the collectibility of any related receivable at August 31, 2014 may be impaired. In the opinion of the District, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying combined financial statements for such contingencies.

NOTE Q - DEFINED BENEFIT PENSION PLAN

Plan Description. The District contributes to the Teacher Retirement System of Texas (TRS), a cost–sharing multiple employer defined benefit pension plan. TRS administers retirement and disability annuities, and death and survivor benefits to employees and beneficiaries of employees of the public school systems of Texas. It operates primarily under the provisions of the Texas Constitution, Article XVI, Sec. 67, and Texas Government Code, Title 8, Subtitle C. TRS also administers proportional retirement benefits and service credit transfer under Texas Government Code, Title 8, Chapters 803 and 805, respectively. The Texas state legislature has the authority to establish and amend benefit provisions of the pension plan and may, under certain circumstances, grant special authority to the TRS Board of Trustees. TRS issues a publicly available financial report that includes financial statements and required supplementary information for the defined benefit pension plan. That report may be obtained by downloading the report from the TRS Internet website, www.trs.state.tx.us, under the TRS Publications heading, by calling the TRS Communications Department at 1–800–223–8778, or by writing to the TRS Communications Department, 1000 Red River Street, Austin, Texas 78701.

Funding Policy. Contribution requirements are not actuarially determined but are established and amended pursuant to the following state funding policy: (1) The state constitution requires the legislature to establish a member contribution rate of not less than 6.0% of the member's annual compensation and a state contribution rate of not less than 6.0% and not more than 10% of the aggregate annual compensation of all members of the system during the fiscal year; (2) state statute prohibits benefit improvements , if as a result of a the particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action.

Contribution rates and contributions for fiscal years 2014–2012 are shown in the table below. These rates are set by the General Appropriations Act. In certain instances, the reporting district is required to make all or a portion of the state's and/or member's contribution including federally funded personnel, new hires and amounts above statutory minimum.

Contribution Rates and Contribution Amounts

	Member			State on-behalf	District	Covered
Fiscal Year	Rate	Amount	Rate	Amount	Amount	Payroll
2014	6.40%	$4,213,240	6.80%	$4,003,951	$468,519	$65,831,754
2013	6.40%	4,018,982	6.40%	3,261,965	356,452	62,796,595
2012	6.40%	4,045,815	6.00%	3,451,139	335,629	63,215,835

The contributions made by the State on behalf of the District have been recorded in the governmental funds' financial statements of the District as both state revenues and expenditures. These contributions are the legal responsibility of the State.

NOTE R - RETIREE HEALTH CARE PLAN

Plan Description. The District contributes to the Texas Public School Retired Employees Group Insurance Program (TRS Care), a cost sharing multiple employer defined benefit postemployment health care plan administered by the Teacher Retirement System of Texas. TRS Care provides health care coverage for certain persons (and their dependents) who retired under the Teacher Retirement System of Texas. The statutory authority for the program is Texas Insurance Code, Chapter 1575. Section 1575.052 grants the TRS Board of Trustees the authority to establish and amend basic and option group insurance coverage for participants. The TRS issues a publicly available financial report that includes financial statements and required supplementary information for TRS-Care. That report may be obtained by visiting the TRS website at www.trs.state.tx.us under the TRS Publications heading, by calling the TRS Communications Department at 1-800-223-8778, or by writing to the Communications Department of the Teacher Retirement System of Texas at 1000 Red River Street, Austin, Texas 78701.

Funding Policy. Contribution requirements are not actuarially determined but are legally established each biennium by the Texas Legislature. Texas Insurance Code, Sections 1575.202, 203 and 204 establish state, active employee and public school contributions, respectively. Funding for free basic coverage is provided by the program based upon public school district payroll. Per Texas Insurance Code, Chapter 1575, the public school contribution may not be less than 0.25% or greater than 0.75% of the salary of each active employee of the public school. Funding for optional coverage is provided by those participants selecting the optional coverage. Contribution rates and amounts are shown in the table below for fiscal years 2014–2012.

Contribution Rates and Contribution Amounts							
	Member		State on-behalf		District		Covered
Fiscal Year	Rate	Amount	Rate	Amount	Rate	Amount	Payroll
2014	0.65%	$ 427,909	1.00%	$ 79,418	0.55%	$ 367,504	$65,831,754
2013	0.65%	408,182	0.50%	41,387	0.55%	345,419	62,796,595
2012	0.65%	410,907	1.00%	86,407	0.55%	347,689	63,215,835

The Medicare Prescription Drug, Improvement, and Modernization Act of 2003 established prescription drug coverage for Medicare beneficiaries known as Medicare Part D. Under Medicare Part D, TRS-Care receives retiree drug subsidy payments from the federal government to offset certain prescription drug expenditures for eligible TRS-Care participants. Subsidy payments received by TRS-Care on behalf of the District are shown in the table below for fiscal years 2014-2012.

Fiscal Year	Medicare Part D
2014	$198,505
2013	183,516
2012	175,653

Contributions made by the State on behalf of the District have been recorded in the government-wide financial statements and in the fund financial statements of the General Fund as both state revenues and payroll expenditures.

NOTE S - RISK MANAGEMENT

The District is exposed to various risks of loss related to torts, theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During fiscal year 2014, the District purchased commercial insurance to cover general liabilities. There were no significant reductions in coverage in the past fiscal year by major category of risk.

State law allows school districts to retain risk through its own risk management program, insure through a commercial carrier, or insure through a public entity risk pool. The District is self-insured for employee medical benefits (including medical and dental). The District contracts with a third-party to provide administrative claims processing services for employee medical and dental benefits for the District.

The group health insurance program is reported in the Insurance fund, an internal service fund. Interfund premiums are paid into the internal service and are based primarily on claims experience and are reported as quasi-external transactions.

Accruals for claims are adjusted on a regular basis based on the latest information available on each case. Claims incurred but not reported have been considered in determining the accrual for claims, and the District's management believes adequate accruals have been provided at August 31, 2014.

The District maintains a $125,000 stop-loss policy for the health self-funded insurance program.

Changes in the balance of claims liabilities during the past year are as follows:

	August 31, 2014	August 31, 2013
Unpaid claims, beginning of year	$ 944,654	$ 725,609
Incurred claims (including IBNR's)	12,925,426	5,744,180
Claim payments	(9,473,666)	(5,525,135)
Unpaid claims, end of fiscal year	$ 4,396,414	$ 944,654

As a result of the significant increase in health claims for the current year, the District has made changes to the managed care option (the plan used by the majority of the District's employees) for the 2014-2015 plan year. The monthly premium cost per employee has been increased by $25 per month, dental coverage has been eliminated and the District now contributes $330 per employee, an increase of $30 per month. Another change for the 2014-2015 plan year has been to add co-pays for prescriptions.

In prior years, the District was also self-insured for workers compensation coverage for all employees of the District. Since the liability for workers compensation claims is open ended for the life of any current and former employees, the District has elected to maintain the workers compensation internal service fund although this risk is now managed through the purchase of commercial insurance. The District purchases the annual insurance policy from the previously establish self insurance fund and contributions are made in a manner consistent with prior years. The fund had a restricted net position at year end of $740,032 which was an increase of $144,638 in net position from the prior year.

NOTE T – FUND BALANCES

Committed for construction – the School Board has taken action to commit the fund balances remaining in the capital projects funds (authorized projects have been completed) to future construction or construction related projects.

Assigned – the School Board has authorized by board resolution the superintendent to assign funds for specifically identified purposes.

Unassigned – the unassigned fund balance has no constraints.

NOTE U – PRIOR PERIOD ADJUSTMENT

Prior period adjustments in the internal service fund were necessary to correct for differences in accumulated depreciation between the detail records and the amounts included in the annual financial report, reflect the impact of assets transferred between general fixed assets and the internal service fund and correct for accrual amounts on construction projects in progress at August 31, 2013. The impact of the adjustment to the internal service fund was to reduce beginning net position by $274,426. Because depreciation is recorded on all assets at the government-wide financial statements, the impact of the prior period adjustments on the statement of activities was to increase beginning net position by $68,358.

NOTE V – SUBSEQUENT EVENT

During November 2014, the District issued 2014 Series Unlimited Tax Refunding Bonds in the amount of $15,790,000. The proceeds were used to refund $16,065,000 of Series 2005 Unlimited Tax Refunding Bonds and $1,180,000 of Series 2005 Unlimited Tax School Building Bonds. The impact of the transaction will be to significantly lower the interest cost to the District and save the taxpayers through reduced I & S tax rates in future years.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
YEAR ENDED AUGUST 31, 2014

A. *Budgets*

The official school original budget was prepared for adoption for required Governmental Fund Types by August 20. The budget was formally adopted by the Board of School Trustees at a duly advertised public meeting prior to the expenditures of funds. The Board also approved amendments throughout the year and the final amended budget by August 31. Expenditures may not legally exceed budgeted appropriations at the function level. Annual budgets were adopted for the General Fund and the Debt Service Fund on a basis consistent with generally accepted accounting principles. The Debt Service Fund budget comparison schedule is presented in the Other Supplementary Information section of the financial statements.

B. *Encumbrances*

Encumbrances for goods or purchased services are documented by purchase orders or contracts. Under Texas law, appropriations lapse at August 31, and encumbrances outstanding at the time are to be either cancelled or appropriately provided for in the subsequent year's budget.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Board of Trustees
San Benito Consolidated Independent School District

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the San Benito Consolidated Independent School District, as of and for the year ended August 31, 2014, and the related notes to the financial statements, which collectively comprise San Benito Consolidated Independent School District's basic financial statements, and have issued our report thereon dated January 22, 2015.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered San Benito Consolidated Independent School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of San Benito Consolidated Independent School District's internal control. Accordingly, we do not express an opinion on the effectiveness of San Benito Consolidated Independent School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

(This page intentionally left blank.)

Compliance and Other Matters

As part of obtaining reasonable assurance about whether San Benito Consolidated Independent School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed one instance of noncompliance or other matters that is required to be reported under *Government Auditing Standards* and which is described in the accompanying schedule of findings and questioned costs as item 14-1.

In addition, we noted certain other matters that we reported to management of the San Benito Consolidated Independent School District in a separate letter dated January 22, 2015.

San Benito Consolidated Independent School District's Response to Findings

The District's responses to the noncompliance finding identified in our audit is described in the accompanying Schedule of Findings and Questioned Costs Corrective Action Plan. The District's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133

To the Board of Trustees
San Benito Consolidated Independent School District

Report on Compliance for Each Major Federal Program

We have audited San Benito Consolidated Independent School District's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of San Benito Consolidated Independent School District's major federal programs for the year ended August 31, 2014. San Benito Consolidated Independent School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of San Benito Consolidated Independent School District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about San Benito Consolidated Independent School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of San Benito Consolidated Independent School District's compliance.

Opinion on Each Major Federal Program

In our opinion, San Benito Consolidated Independent School District, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended August 31, 2014.

(This page intentionally left blank.)

Report on Internal Control Over Compliance

Management of San Benito Consolidated Independent School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered San Benito Consolidated Independent School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of San Benito Consolidated Independent School District's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

PROGRAM DESCRIPTION	DESCRIPTION
Schedule Reference Number: (14-1)	**Allocated State Program Revenues**
Criteria:	For programs financed under the Foundation School Program Act, the District must expend at least 52%, 55% or 58% of its allocation as mandated by the Act.
Condition Found:	The District failed to expend at least 52% of its allocation for State Compensatory Education (Program Code 30), 52% of its allocation for Bilingual Education (Program Code 25) and 55% of Gifted and Talented (Program Code 21) during the 2013-2014 year.
Questioned Costs/Basis:	State Compensatory Education (Program Code 30) - $229,081 Bilingual Education (Program Code 25) - $48,879 Gifted and Talented (Program Code 21) - $13,713 Questioned costs represent the amount below the required percentage for which the District failed to expend.
Context:	While reviewing the District's compliance with its expenditures of state mandated programs we noted that the District failed to spend the required amount for State Compensatory Education, State Bilingual Education and Gifted and Talented, as noted above.
Effect:	The questioned costs represent the total amount underspent for the program listed.
Recommendation:	We recommend the District establish policies and procedures to monitor the spending of state mandated program expenditures.
