Student-Writing: *“The 606 Experience”*

By William Barber

“ Here at Siembra there’s plenty of workshop activities to go around. I mean, that’s what it’s all about here! The opportunities to do what makes you happy and be successful doing it! Walking into the 606 building this morning was a great experience and really helped me see the true diversity of our community and how it all comes together.

As I entered the building I was greeted to the Yoga class doing the downward dog in sync together. It was pretty neat to see how calm it was compared to the usual controlled yet chaotic nature of the busy classes. As I kept moving forward I came across Mr. K’s Life Skills workshop where they were... Juggling? I found that I was strangely attracted to the scene and before I knew it... I had joined in on the fun!

Mr. K spent some good time catching me up with the class, explaining how one could make a quick buck juggling at parties and what not. He had me toss one ball back and forth between each hand, so I could understand the motions better. Once I’d gotten that part down he moved me on to two balls, where I practiced tossing and catching in one singular motion. Even though I couldn’t get much further, I did, however, get to see my peers inch ever closer to becoming amateur jugglers!

As my little time with Mr. K came to an end, I started to realize the true importance of his class, and furthermore, what Siembra’s true goal is. To prepare us for the twists and turns that Life may throw at us, to prepare us for the bumps and mishaps... but most importantly? Preparing us to be ready for ourselves and our own journey! I’m William Barber and this is my 606 Siembra Workshop experience. ”

CAPSTONE Business Update

At Siembra, entrepreneurship isn't just a subject, it's a mindset. This semester, our Business Capstone students continue to demonstrate resilience, adaptability, and creativity as they navigate real-world challenges, including statewide and federal budget cuts. We are hopeful to involve our students in Council meetings so we can strategize together.

With support from our incredible CAPSTONE teachers, students are using their Project-Based Learning classes and weekly Entrepreneurial Wednesday Workshops to deepen their business plans, refine their branding, and strengthen their financial strategies.

In the meantime, we will be working on fostering their entrepreneurial spirit through preparing them and their businesses for Winter Market.

Senior Spotlight

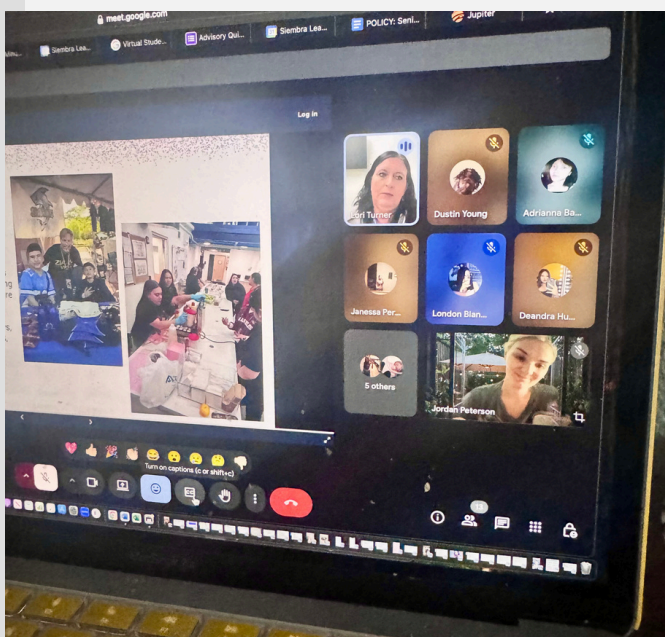

Shout-out to our seniors! They've been working hard and getting more and more involved with their school.

If you care about what's happening in your school, and what happens next, we encourage the entire Siembra Community to attend our Site-Based Team and Equity Council meetings. This is your space to be heard, to ask questions, and to help shape the direction we take together.

Please reach out to Ms. Lilian and Ms. Goodman for more information at l.medrano@siembraabq.org and n.goodman@siembraabq.org.

*****FOR STUDENTS ONLY: You can also inquire about joining our Student Body Council during Wednesday Workshops.**

Here's What The Seniors Have Been Up To:
