Nutrition Compliance Report

November 20, 2025

The Sidney City Schools Food Service Department would like to confirm that we are following the food and beverage policy adopted by Sidney City Schools.

In order to comply with the standards, the district utilizes many different techniques

and internal safeguards including the following:

- The district only purchases from vetted vendors who ensure that all products

meet nutritional standards and that labeling of their products is clear and concise.

- The daily availability of Fresh Fruits and Veggies, that are sources as locally as

possible, helps encourage students to make healthier decisions about their meals.

- All the recipes are entered into Health-e Pro menu planning software, and with the utilization of an online menu, all nutritional information is available for every meal.
- The district also strictly enforces the Smart Snack guidelines and ensures that any food or beverage served during the restricted times complies with those standards.
- The cafeteria also performs Nutrition Education in the district at minimum of 2 times per year and has many internal programs that are designed to help students make healthier choices and to introduce them to foods that may be out of their normal diet.
- The district also strictly enforces an approved HACCP plan and mandates that employees attend periodic training on the HACCP plan and on food safety general.
- In addition to the food safety training, the employees must meet the USDA required minimum hours for professional development on a yearly basis.

Overall, the district has many programs and policies in place to ensure they are meeting the state standards and the district strives to not only meet but exceed those standards.

Shamara Foy

Food Service Director
