Attendees: Tonya Drake, Amy Hodges, Charlotte Hussey, Brittany Shiller, Liz Hodges, Dawn Bass, Mandy Tucker, Dominic Fraire, Jennifer Chaffin, Marci Beck, Kathryn Sniggs, Jo Moses, Willow Dorsey, Kylie McSwain, Kayla Andrews, Sara Childers, Jeri Shaw

Notes

- Nurse Drake introduced members of the SHAC committee and their role on the committee
- Description and purpose of SHAC was discussed and reviewed
- Kayla Andrews reviewed the Backpack Buddy Program
    - Started three years ago when the school district went to four days a week
    - Provides a meal for students on Friday when they would normally be in school
    - 40 plus students participated in the program last year
    - Over 50 students have been identified for this school year
    - Donations provided by Taylor's Valley Church, church in Academy and individual donations
    - Summer Boxes– provided to 8 families who are extreme need of food (16 meals per box), students are given a grocery box of dry food and instructions on how to prepare the meals–also includes movie tickets, games, beach towels, Extreme Jump passes
- October 12-18: Fentanyl Awareness Week
    - Students on SHAC will create a video about fentanyl awareness that will be shown to high school students
- Dominic Fraire discussed school offered physical night
    - Fraire has reached out to neighboring schools to review how they run their school day physicals
        - Recommending to begin 8th period and not having appointment times
        - Offered having a bus that takes middle school students over to the high school for the physical
        - 100-150 students took advantage of the school physical night last school year
- Flu Shot Clinic provided by HEB on October 17, 2025
- Jennifer Chaffin presented information on EKGs
    - Protecting Youth from Sudden Cardiac Arrest (SCA) presentation shown to the committee reviewing the warning signs and symptoms of SCA
    - HB 76- Cody's Law- parents can request a physician or school perform an ECG
        - Cody Stephens Foundation Heart Screening Program- provided for students age 11-24, $20 fee . ECGs are interpreted via telemedicine by licensed cardiologist and results returned to the school within three business days
    - Recommended to offer this service to parents and families at our school physical night

- Will review—how to advertise the service, paying for the service, who will supervise the ECGs, who will read them, etc
- Will also review the liability of the school district by providing this service
- Is this a service that we can provide to our non athletes?
