

Bolles Middle School Crew Makes Waves in Competitive Debut

The Bolles Middle School Crew show off their medals from a successful competition debut at the Head of the Henderson Regatta.

The Bolles Middle School Crew brought home six first-place and two third-place finishes at the Head of the Henderson Regatta, marking a successful – and impressive – debut for much of the rowing squad.

After just six weeks of rowing experience for the bulk of the squad, they traveled to Inverness for this annual race on Lake Henderson, which took place this year on Oct. 5.

The middle school races were 2,000 meters – this in addition to the 1,300 meters required to reach the starting line. Some of the more experienced rowers completed nearly eight miles across three events.

“This was a phenomenal start to the season,” said Middle School Head Coach Ilene Lansaw. “Our crew is truly pulling together in every sense of the word. We are so proud of how far these rowers have come in such a short time.”
