November 21st- Substitute Appreciation Day

November 24th-28th- No School- Thanksgiving Holiday

SPECIAL

ANNOUNCEMENT: Coats for Kids Donations will continue to take place at MTE until **November 18th!**

Ambassadors, and Book Club are all in action.

Our STEM team is being selected and we will get that team running in November. Second nine-week Maggie Managers are doing their jobs and are in full operations. The first celebration day was a success. Congratulations, to all our Maggie friends for gaining points for their color mansion by practicing the 8 Habits of highly effective people. Our Lighthouse team is doing an amazing job teaching our paradigms as well. Our five core paradigms are Everyone can be a Leader, Everyone has genius, Change starts with me, Empower students to lead their own learning, and Educators and families partner to develop the whole person.

The dedication our faculty and staff have beyond the classroom is truly amazing. Our third graders were able to go to the Planetarium at end of October and our Second graders will be able to experience our STPSB Planetarium on November 6th. We are looking forward to our STEM day on November 6th from 5:30-7:00. Teachers are currently being evaluated using a new evaluation tool. Their excellence in the classroom is noted and appreciated.

I want to say thank you to our PTA and all of our Volunteers who continuously help us make events and experiences for our students possible. It takes a village and we could not do it without you. In the month of November let us remember the many blessings in which to be grateful. This month we are looking forward to an exciting STEM day full of activities, Veterans day where we honor those who serve our country and Thanksgiving when we spend time with family and friends. Magnolia Trace Elementary is continuing to launch excellence every day!

Sincerely,
Jamie Breaux
Principal

Hi Maggie Families,

October was jam-packed with lots of fun! We celebrated many different things –

Bus Driver Appreciation Day with School Lunch Week, Red Ribbon Week, and Storybook Character Day along with our annual Trunk of Treat! A huge thank you goes out to all of the parents and guardians who set up a trunk, walked with students, or donated candy and treats for our Trunk or Treat. You made everything fun for our little Maggies!

We have a few fun events coming up this month! We are so excited about STEM night on November 6th. The teachers and PTA have worked hard to compile a fun family learning night at school complete with pizza. We hope you can make it! We are also excited to invite our Veterans to school to honor them for Veterans' Day.

As we move into November, let's be mindful of our blessings at MTE. We have fabulous leaders in Ms. Breaux and Dr. Longman, other administrators and office staff, we have excellent support staff...our custodians and cafeteria staff are wonderful...and our teachers are just phenomenal. They love our children and create a positive and encouraging educational environment for them. Finally, the Executive PTA Board as well as all the other Board members and families who volunteer or participate in all our special events and fundraisers. We appreciate all of you!

With thanks and appreciation,

Chanelle Smith

Second Grade

Our second grade students completed their first nine weeks and are continuing to grow both socially and academically. The first celebration day was a huge success! Students participated in different events and activities around the school and enjoyed working together to earn points for their colored houses.

In Math the students are starting module 2 and will be focusing on addition and subtraction within 200. Students will explore simplifying strategies for adding and subtracting as well as compose and decompose numbers to add and subtract.

Some suggested activities for math are:

Practice math facts nightly to help with fluency.

Practice skip counting.

Play addition and subtraction games at home using dice and cards.

Complete the Eureka math homework pages that correspond to your child's daily lessons

We are continuing to study Greek culture as we move into our fourth domain, *Greek Myths*. This domain builds on *The Ancient Greek Civilization* domain that we just completed and will introduce students to several well-known mythical characters. Students will learn the definition of a myth: a fictional story, once thought to be true, that tries to explain mysteries of nature and humankind. Students will focus on narrative writing and will work independently to write a fictional narrative in the style of a Greek myth. Students will culminate this domain with a celebration of Greek civilization and myths.

Some suggested activities for reading are:

Read daily. The local library has many books on Greek myths and ancient Greek civilization that you can read together to extend their learning.

Third Grade

Our third grade students completed their first nine weeks and are continuing to grow both socially and academically. The first celebration day was a huge success! Students enjoyed celebrating with their class and color mansions and spending time with teachers and students from other classrooms and grade levels.

In Math the students are finishing Module 2, Place Value Concepts, and will begin Module 3, Multiplication and Division. Students are moving back into multiplication and division with units of 0, 1, 6, 7, 8, 9. Students will explore patterns to identify strategies for multiplying and dividing. To culminate the module, students will use place value models, the properties of operations, and familiar facts to multiply multiples of 10 by one-digit numbers.

Some suggested activities for math are:

Practice math facts nightly to help with fluency.

Practice skip counting.

Play multiplication games at home using dice and cards.

Build arrays using objects from home.

We have started our second reading unit, "Because of Winn-Dixie." Students are reading literary and information texts that explore the value of companionship, the joy of finding friends in unexpected places, and the significance of building a community of different perspectives. Third grade is also continuing to focus on reading fluency, which includes reading rate, accuracy, and expression. Each student has their personal WIG (Wildly Important Goal) that they are trying to reach by December, as well as action steps to help them reach this goal.

Some suggested activities for reading are:

Choral reading (read a text aloud together)

Partner reading (take turns reading)

Echo reading (child repeats a short section after parent reads it aloud)

Silent reading with oral summary (after reading independently, have child give a retell of the story)

STUDENT CORNER

WE EACH GOT ONE!

In October, the Northlake-Mandeville Rotary Club gave all the MTE third grade students a dictionary. The Rotary Club has clubs all around the world doing good stuff so that's why they gave us each a dictionary. The books help us learn new words. The books also have other information like maps and charts. The third graders feel very happy that they got a dictionary. Thank you, Rotary!

MAGGIE TEACHER SPOTLIGHT: Ms. COLON

Ms. Colon is a new 3rd grade teacher at MTE!

Her favorite color is blue. Her favorite food is pasta and her favorite dessert is chocolate. Her favorite movie is The Great British Baking Show and her favorite book is the Bible.

She is a reading and social studies teacher. Her favorite subject is actually Spanish. She started the Hispanic Heritage Month trivia questions this year and planned activities for our school to learn about Hispanic Heritage.

You are very lucky if you got Ms. Colon for your home-room or switch teacher. Ms. Guidry is also very lucky to be paired up with Ms. Colon. Ms. Colon's favorite year in school was fourth grade because she had a funny and nice teacher.

As you can see, Ms. Colon is a really nice teacher, and we are very lucky to have her as a teacher and a part of the staff at Magnolia Trace!

Written By: Camille Boughara

MAGGIE STUDENT SPOTLIGHT: HAILEY HOBBS

All students have a different way of being a leader. Hailey is just one of those students who is always being a leader. Hailey shows leadership around the school by helping others and being kind. She is a role model at MTE because she is a 3rd grader and she helps 2nd graders by showing them how to walk down the hallway and how to sit in line. Hailey's favorite habit is Habit 8 "Find your Voice". She practiced Habit 8 when someone was unkind and she spoke up. Hailey has a lot of friends, like me. She might not be someone you know but she is still a leader in many ways. Hailey is a Maggie just like us and deserves the respect she gives to everyone around Magnolia Trace.

LIBRARY: CHECK IT OUT!

The library has purchased several new titles for our library with the profits from the book fair. We will also be ordering new Maker Space stations. Many of our students shared input on what books they would like us to order. Thank you again for supporting our September fair. We will have another book fair in the spring.

During the month of November, the third grade students will continue learning how to use the online catalog to help them locate a book in the library. Second grade students will continue to review the Dewey Decimal System and how to locate books in the non-fiction section of the library. We will also be reading books of different genres aloud to expose your child with the amazing titles we have in our MTE library.

Students enjoyed participating in library Maker Space stations at the end of the first nine weeks. Third grade is looking forward to their monthly "Level Up" days in the library. We will continue with Digital Citizenship lessons each week.

"The whole world opened up to me when I learned to read" – Mary McLeod Bethune

Thank you,

Julie Kuylen and Joanne Santos

Magnolia Trace Library

ART: WATTER'S WORLD

"Art is the only serious thing in the world.

And the artist is the only person who is never serious."

- Oscar Wilde

COACH'S CORNER

With daylight-saving time ending, it will be getting dark earlier in the evening. If you go out to exercise, you should have reflective material on your clothes or a light so you can be seen by people driving cars. Just because you can see the cars, doesn't mean the cars can see you. And don't forget a reflective collar for your dog to keep them visible to drivers.

Coach Dusang
Physical Education Teacher

Hey there students, family, & friends!

November is here & that means holiday season is upon us! I am most grateful for each and every one of our students here at Magnolia Trace. Each day they show me new outlooks on life and always keep my days bright and fun. I enjoy working with them as well as their families. Thank you for all you do for our kiddos at home, they are very special to us!

In our counseling lessons during the month of October the students received the district CSAPE lesson where they learned about identifying adults they can trust to go to if they ever need help, and body boundaries and personal space. They also learned about functional communication within the group setting while participating in stations, all about bullying and what to do if they feel they are being bullied, and ended the month with our Red Ribbon Week curriculum learning about making healthy choices.

We are now working on habit #3: Put First Things First. Here is a list of books for families that can be read at home in order to learn more about goal setting and making a plan! We hope you try one of these at home.

Habit #3 Book List

The TV Kid by Betsy Byars
Someday a Tree by Eve Bunting
Armadillo Chili by Helen Ketteman
Horton Hatches the Egg by Dr. Seuss
Spaghetti in a Hot Dog Bun by Marie Dismondy
The Ant and the Grasshopper by Aesop

We are continuing to highlight students and their families Leader in Me in the community on bulletin boards displayed in the main hallway. As we work throughout the year we would love your contribution to our boards. Our boards are filling up, make sure to turn in the colored Habit Forms to be displayed on the board. If you need more forms let your student's teacher know and we will get them for you.

FREE PICTURE WITH SANTA

ACTIVITIES FOR KIDS:

Holiday Crafts, Inflatables, Fire Truck

HELP US HELP YOUR KIDS!

All net profits from this fundraiser will be used to fund our activities that improve the lives of our children & support our club.

For more information, contact Tim Gagliano at 504-232-7171

Details for Pancake Breakfast with Santa

Event:

Mandeville Kiwanis Club is having a Pancake Breakfast with Santa on December 6th at Fontainebleau High School Cafeteria from 8-11 a.m.

Details: For \$7 you can get a FREE picture with Santa, Breakfast of pancakes (People tell us they are the BEST on the Northshore), with sausages, coffee, juice and milk.

There will also be a **CHILDREN'S ACTIVITY AREA** where they can make Christmas crafts to take home. There will also be coloring pages, along with holiday Tattoos, and a photo booth.

This year we will also have inflatables from Best Jump of Mandeville and visit from a Firetruck.

Again this year we will have **THE BRAIN FOOD TRUCK** (with Stem activities) from SLU.

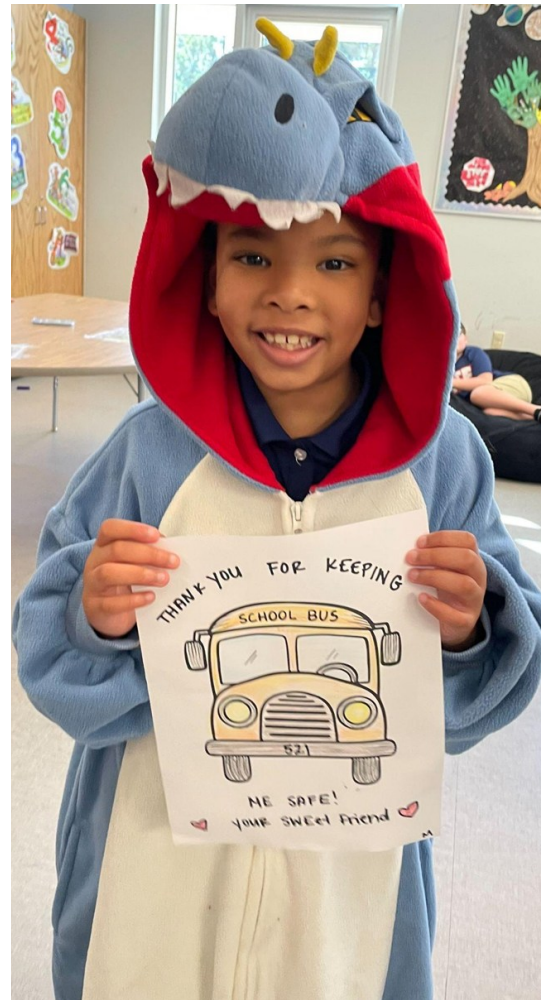

Tickets can be purchase at the door, from Kiwanis Members, or online at <https://northshore-kiwanis.square.site>. (Tickets purchased online will be held at the door.)

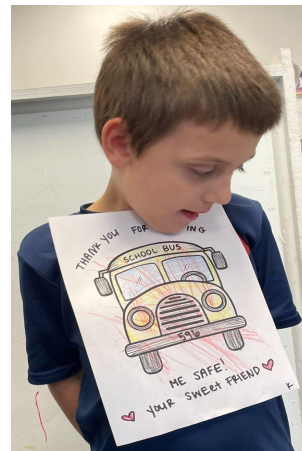

History: This event was started over 30 years ago as a way of thanking the community for supporting our club. As such, we only charge large families \$28 but give everyone tickets for breakfast.

Monies from this event help us to support Service Leadership groups that we sponsor in 8 Elementary, Middle, and Jr High school in our community. It also funds college scholarships we give to deserving High School Key Clubbers.

This helps us to fulfill our mission of *"improving our world one child and one community at a time"*.

We invite you to join us to celebrate the holidays.
