MY OWN LITTLE MONSTER

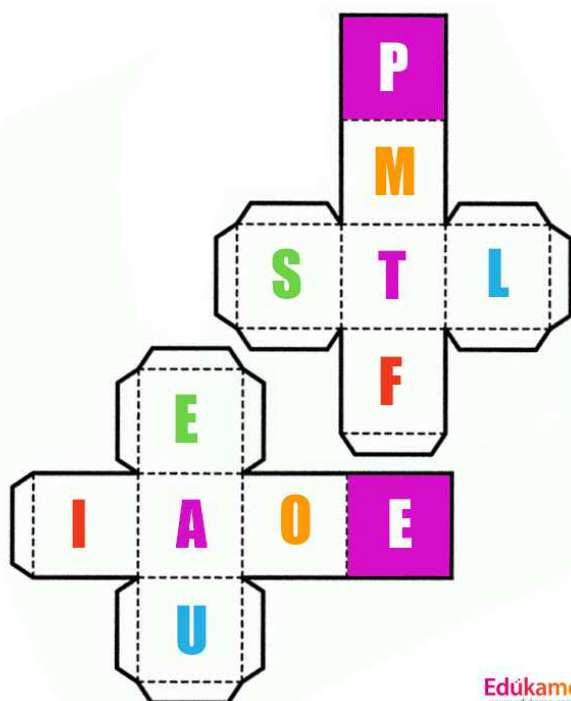

Print the sheets of these silhouettes and the sheets where are the different types of mouths, eyes, arms and ears, too. Cut each one, invite the little boy or girl to let your imagination fly and let them create their own monster. Then, let them to customize the monster, pasting the kind of eyes that he or she wants and the same with the mouth, ears and arms. Once the monster is created, enjoy with them inventing a name for it.

For the name we have created a special dice full of vowels, consonants and syllables. Print these pages and assembles these dice. When you have made, throwing each die and the letter combination that will give you his name. You will see that funny!

DICE

DICE

Now you have created your own monster, even with an exclusive name, invites the child to relate it to something he doesn't like or gives fear. For example:

You do not like brushing your teeth every night before bed and this monster that you have called (X) is the monster of the dirty teeth. And it would be a good idea to hang it in the bathroom.

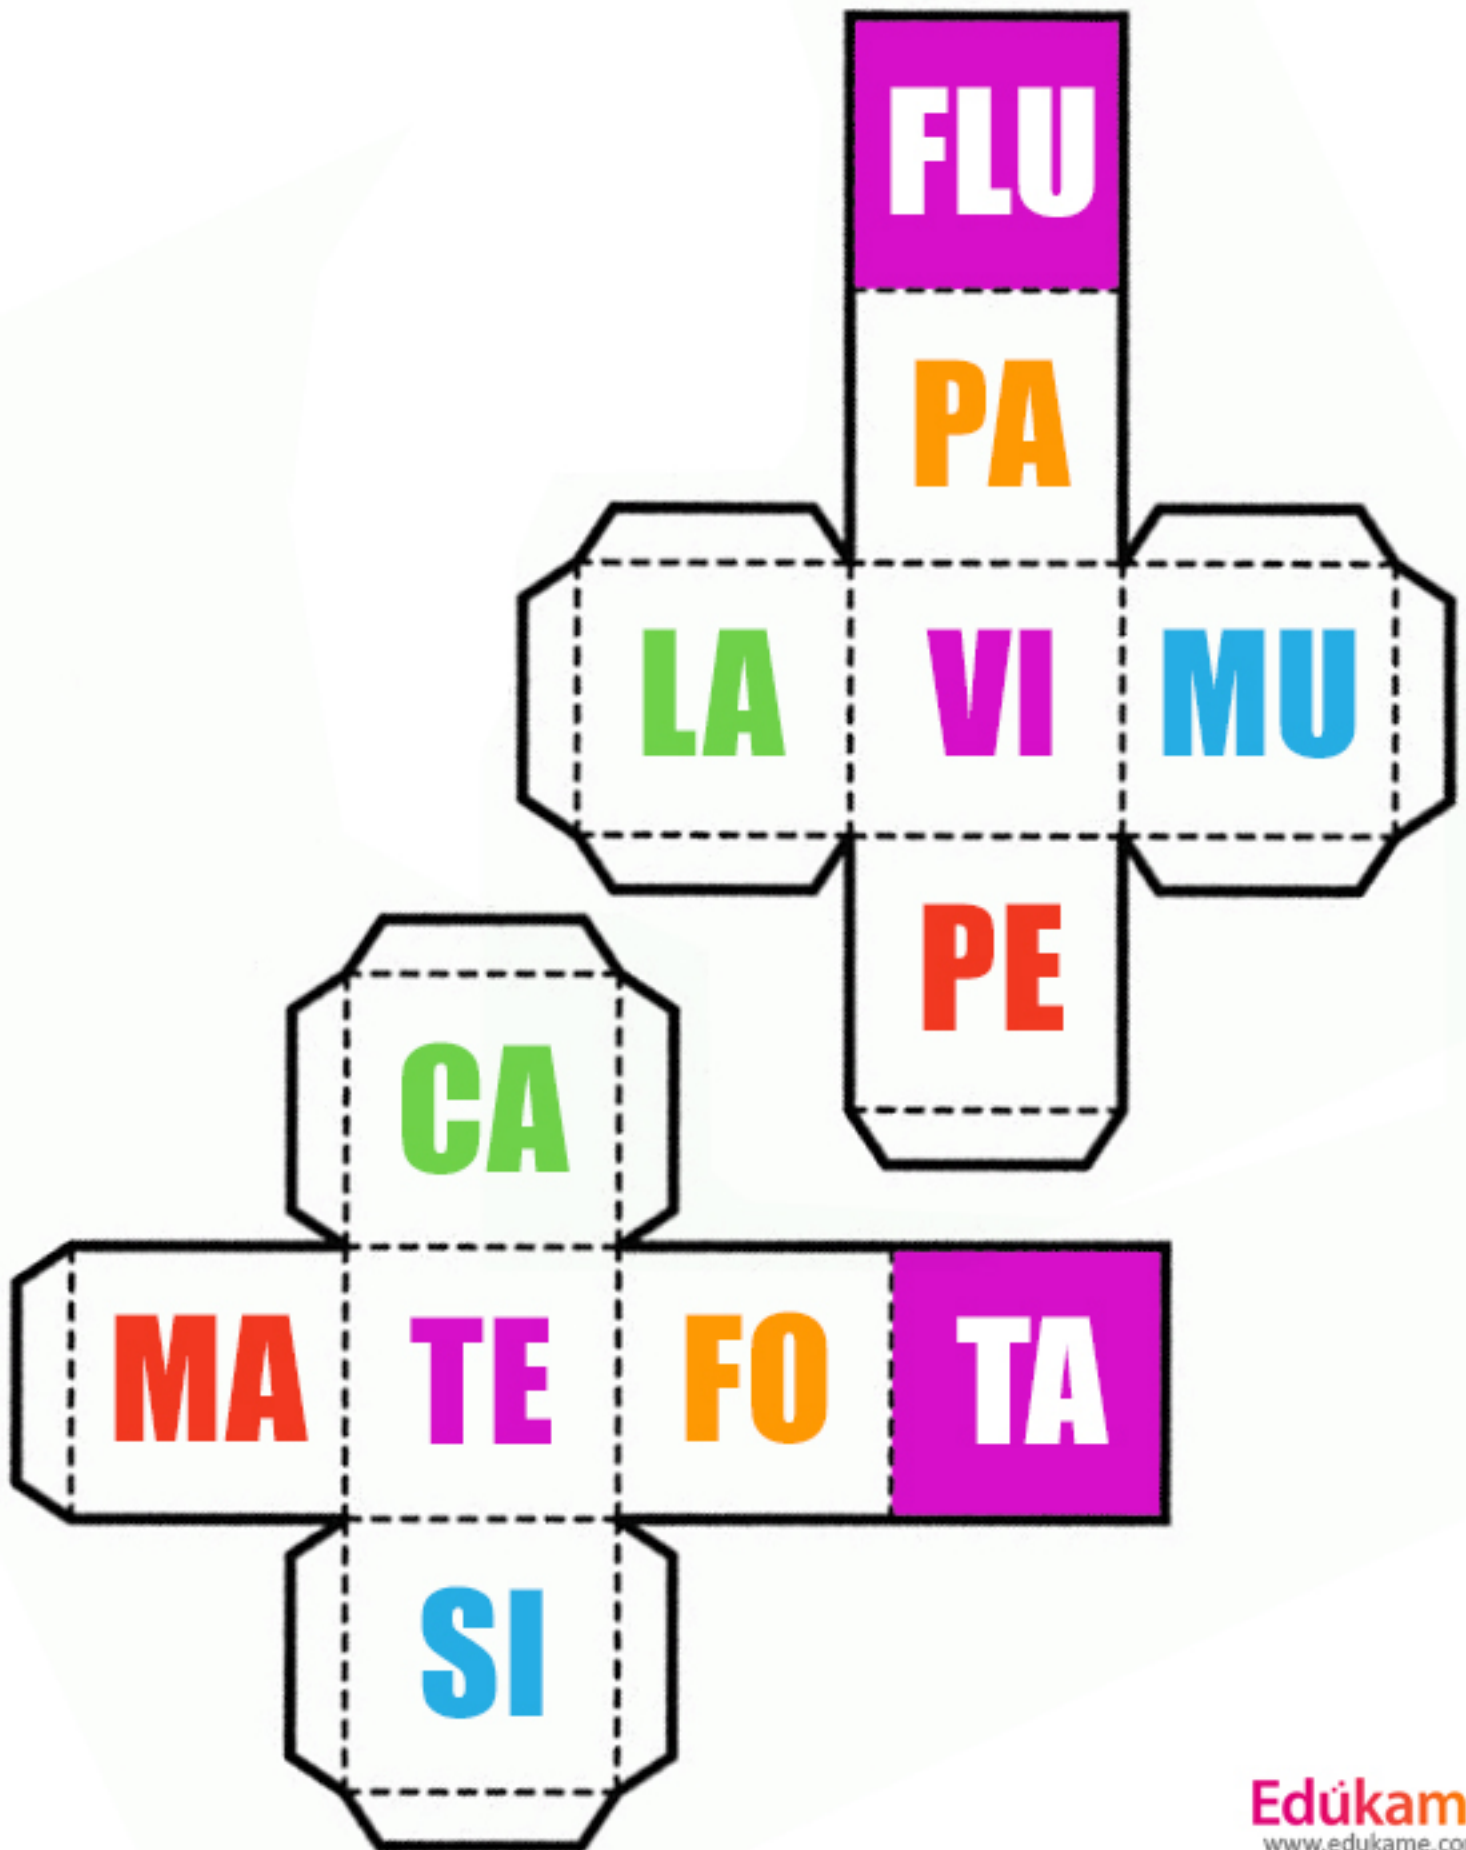

You're afraid to go to the doctor when you are ill. This monster you've created will be the monster of the doctor. And you can take it as a fun amulet on the next visit to the pediatrician.

You scares the new summer school . You start a new activity this summer and give you a little scared. This monster you 've created will be the monster of the new. And it can be a good resource to offer him or her security take it when you start the new activity.

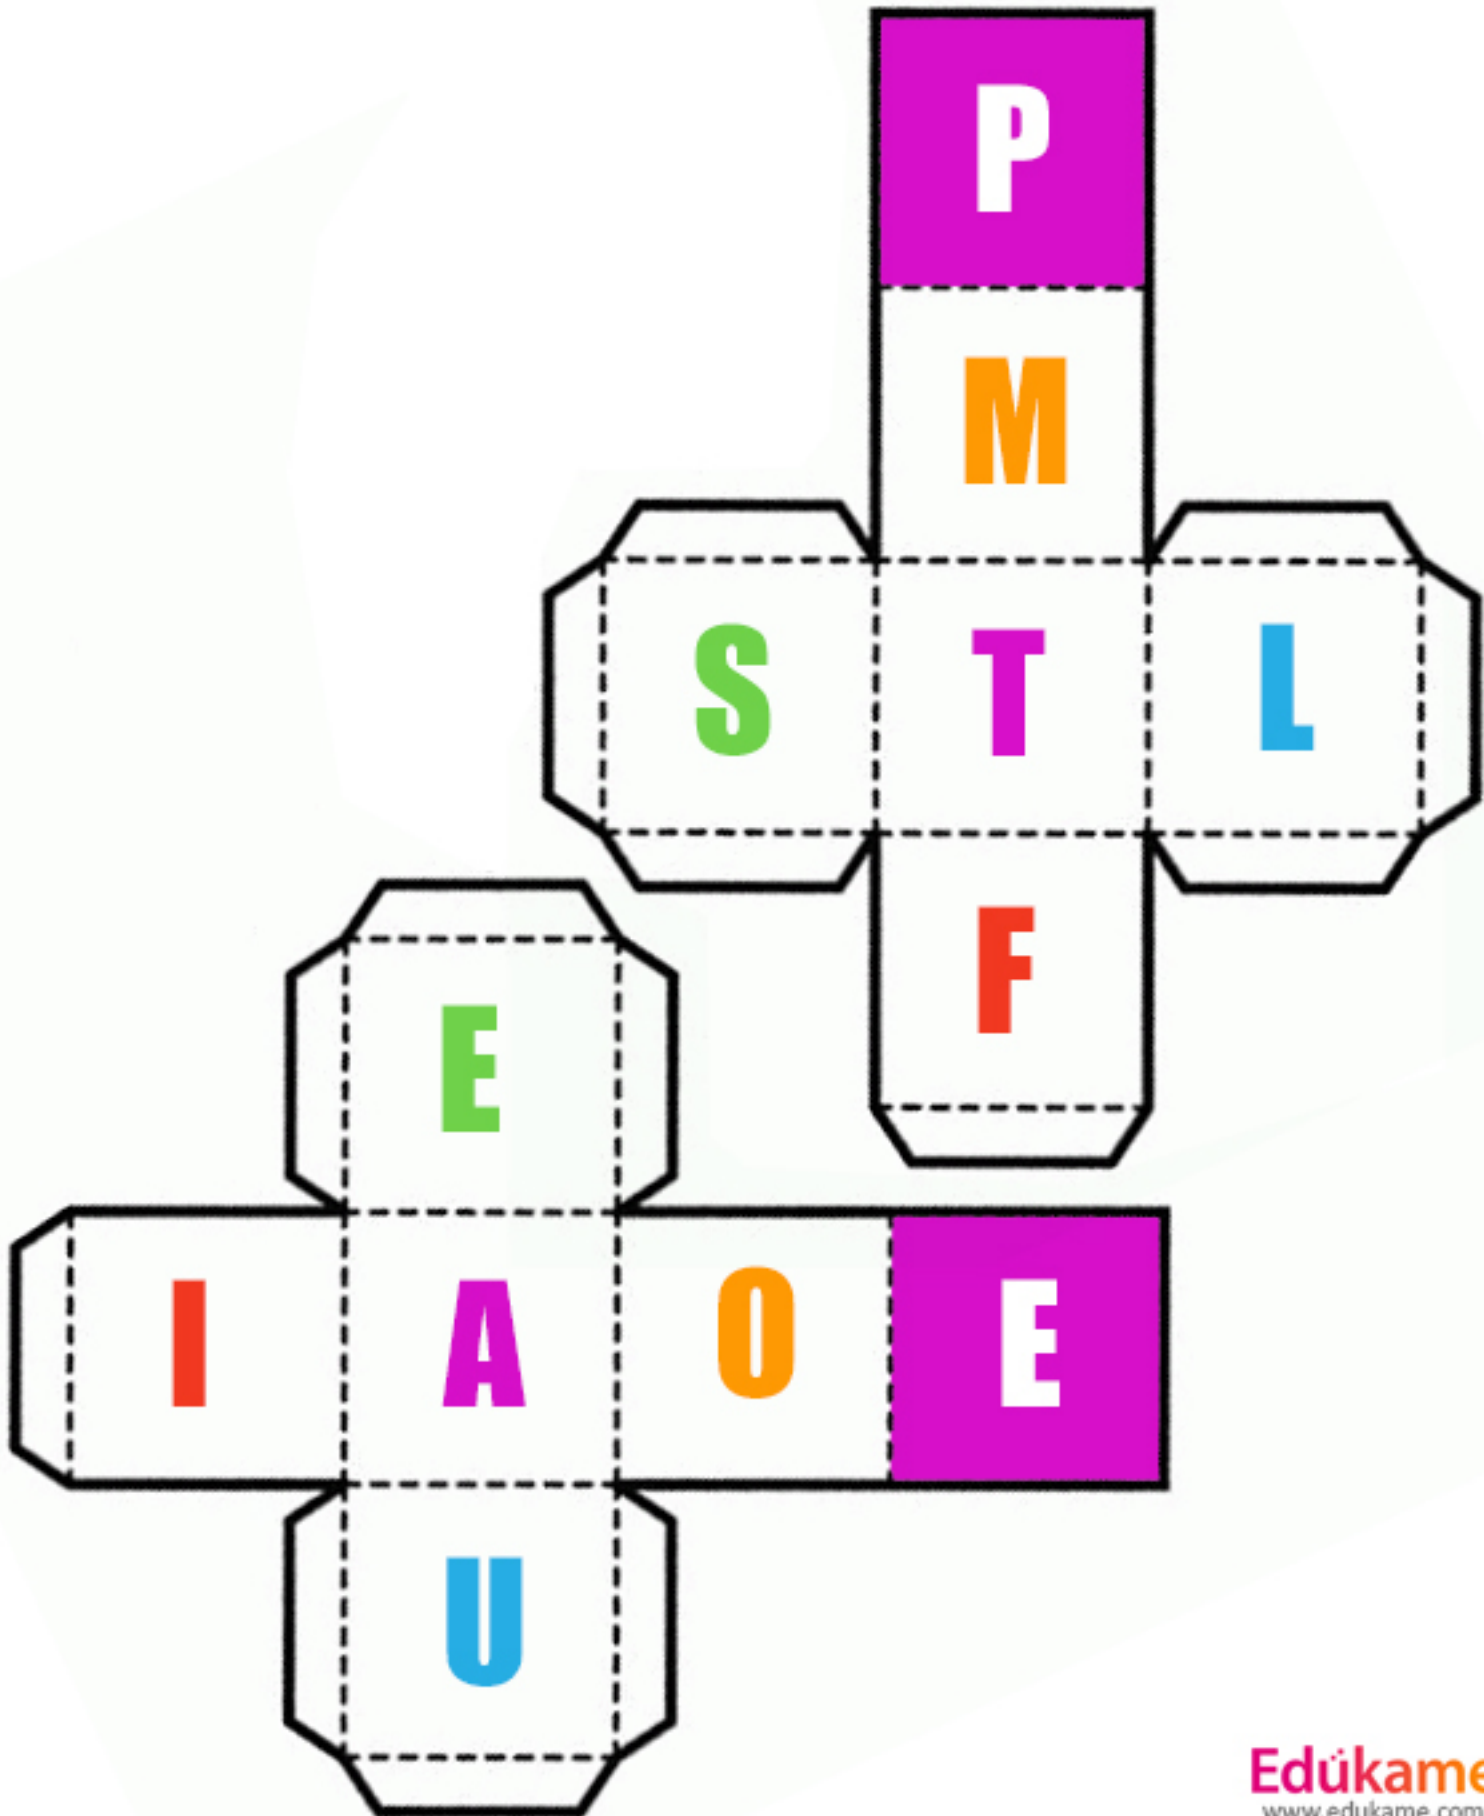

You don't like having to order your room or hang your jacket on your site every time you come home . This monster is the monster of the order.
