24-28	Thanksgiving Break

PUMPKIN MATH

Our seniors teamed up with their kindergarten buddies for some hands-on, slimy math fun using pumpkins! They split into boys' and girls' teams and scooped and counted pumpkin seeds together. Then they made groups of ten to see which team had the most seeds. The girls won, but they all had a blast!

AFTER-SCHOOL FUN

Mrs. Nina, our after-school care teacher, makes sure our Lower School students have loads of fun after the school day ends. From bubble activities to painting pumpkins for fall, she does it all with them, and we are so grateful!

3RD GRADE BRAIN BREAK

Third graders in Mrs. Childers's class took the classroom outside and played multiplication review games. The teams competed for the most correct answers and then earned extra points for throwing the frisbee the furthest. So fun!

WACKY HAIR DAY IN VPK

XYLOPHONE TIME

Third grade students in Mrs. Bowman's music class are busy learning how to play the xylophone. It's such a fun and simple instrument to explore melody, rhythm, and coordination. The classroom was filled with joyful sounds as students developed their musical skills—one note at a time!

BUOYANT BOATS

Our 5th graders explored the concept of buoyancy with a fun, hands-on experiment. Students were challenged to design and build a boat out of clay and then test how well their creations could float. After shaping their designs, they added marbles one by one to see how much their boats could hold before sinking. It was an exciting way to learn how design and engineering affect buoyancy and stability.

DINOS AND DONUTS

Students who had at least two donations to their Feed the Need family page were treated to a donut delivery with dinosaurs! The students had a roaring good time and are looking forward to their next Feed the Need incentive--Puppies and Popsicles!

OUTDOOR ART

It has been too beautiful to stay inside, so Mrs. Wendy's 4th grade art students worked on their pumpkin art while basking in the cooler fall weather.

KICKOFF REWARD

Mrs. Kenny's 6th grade homeroom class took home the prize for the highest attendance at our Feed the Need Kickoff event! The class won a root beer float party, and Mrs. Kenny received an Amazon gift card. Pretty sweet!

BIRTHDAY SHENANIGANS

Mrs. Frame's birthday turned into a mini talent show when Mr. Frame dropped by to entertain the class! From juggling to balancing acts, he kept everyone amazed (just look at their faces!) and provided a fun break from academics.

ETHICS STUDY

8th grade Bible students kicked off their study of Ethics with a class simulation of the classic thought experiment, The Prisoner's Dilemma, where students had to make choices between doing what was best for themselves versus doing what was best for the group.

Students will develop a biblical worldview of ethics through this unit as they learn about moral relativism, moral absolutes, and how to trust God completely as our moral compass, with His Word as the ultimate source of wisdom.

DNA EXTRACTION

Our 7th graders became scientists as they explored the building blocks of life—DNA! Students mashed strawberries and followed a step-by-step process to extract visible strands of DNA. They could actually see the long, stringy white material that carries genetic information. Students learned how DNA can be separated from cells and why it's so important in understanding living organisms.

CLOUD SCIENCE

Students in Mrs. Dobson's Earth Science class conducted an experiment to simulate cloud capacity. The students added drops of water to a cotton ball until it started dripping to model when a cloud builds up until it starts raining. They were all impressed with how much water a cotton ball could hold!

ROCKET SCIENCE

Students in Mr. Tripp's Physical Science class recently put Newton's Laws of Motion to the test with an exciting rocket launch experiment. Students designed and launched their own model rockets to see science in action.

8TH GRADE PORTRAITS

Eighth grade art students have begun working on their self-portrait masterpieces. Mrs. Wendy photographed each student and provided them with a printed image to use as a reference. From there, students are using their own unique styles, techniques, and creativity to bring their portraits to life.

CODING IN THE LIBRARY

Coding is one of the middle school specials we offer. Eighth graders just finished their coding unit by designing their own games and then using circuits, wires, and play dough to build a controller to play their game. They learned how electricity is conducted and how to use a device to control a computer program.

UPCOMING EVENTS

ALETHEIA CHRISTIAN SPIRIT NIGHT

Lost Pizza Co.
9 Mile Road Location

Nov 18th
4pm-8pm

A portion of all sales will be donated to our APA

SLU ACTIVITY PERIOD STUDENTS PRESENT A BAKE SALE

Admission

$2/person
$10 family max

$3 at the door

December 6th
6:30pm

*Pre-order link coming soon

FEED THE NEED KICKOFF NIGHT

Our Feed the Need Kickoff was a great success! Families came out to hear all about this amazing fundraiser, enjoyed Chick-Fil-A, and won some prizes.

This fundraiser is still in full swing, so register and keep texting and asking for donations so we can reach our school goal of $125,000! Our Packing Party, in which we will pack 15,000 meals as a school, will be on November 14th, and we cannot wait!

SPORTS NEWS

2025 PCC CHAMPIONS

Our Men's Varsity Soccer team took home the 1st place trophy at the Panhandle Christian Conference Championship last month. Congratulations to all the players, Coach Sean, and Assistant Coach Blackwell. A special congrats to Jonas Leal for being named tournament MVP!

Our Cross Country boys' team won the PCC title and took the 1st, 2nd, 3rd AND 4th place individuals! Our girls placed 2nd as a team with 2nd and 3rd place individual racers as well.
Way to go Coach St. Cyr and all the Cross Country athletes!

Our Boys' Golf Team took home 1st place at their inaugural PCC championship. Coleman Godfrey finished 1st and Drew Alumbaugh finished 3rd in boys individual. Aniston Cool finished 1st in the girls' individual.
Way to go, Lions!

SPORTS NEWS

2025 CYSL CHAMPIONS

Our 2nd-3rd grade flag football and 4-6th grade girls' volleyball teams are both league champions!

Congrats to Coach Ro, Coach Magaha, Coach Andrews, and Coach Watson for dedicating their time and energy to our young athletes!

Mon. Nov. 24	ESCAROSA @ Catholic	Away				TBD		

APA NEWS

Last month, the APA hosted a Fall Fiesta Dads' Lunch. Blake Nance presented a message of encouragement to the dads and they enjoyed a fajita bar catered by Moe's.

We will have our next Parking Lot Prayer on Saturday, November 1st at 5:00 p.m., just before the family movie night. We will gather as families to pray over our school, students, and teachers. Our focus verse for November is Philippians 4:4-8. Please join us outside the school gates to pray as a united Aletheia family.

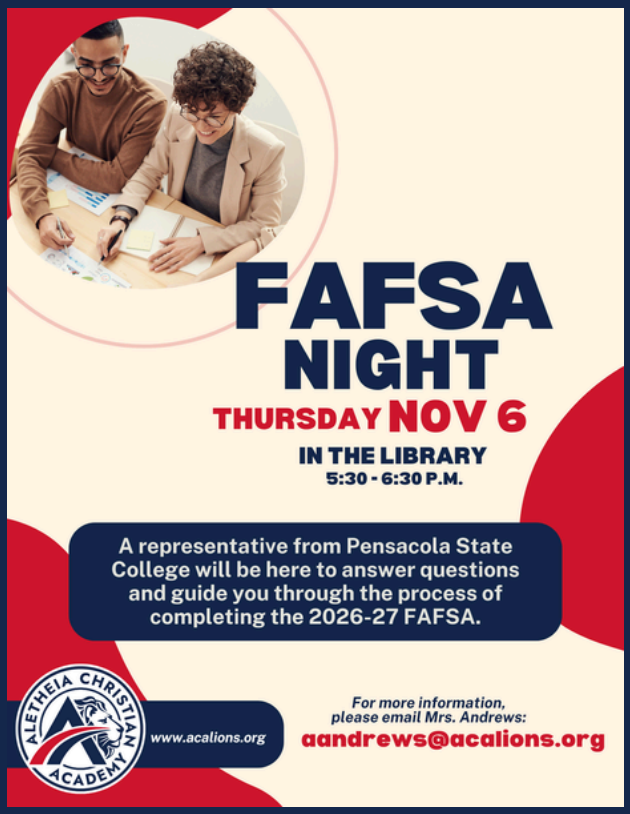

Stay tuned for info on how to help with the Faculty Christmas Party.

The APA will have its next meeting in January.

GUIDANCE NEWS

Join Mrs. Andrews for FAFSA Night and get all the info needed to complete this financial form for college.
