

**A national health
network leader.**

**And a national dental
network leader.**

The Value of Blue

To millions of Americans, Blue Cross and Blue Shield represents peace of mind when it's needed the most. That's because the Blue Cross and Blue Shield brand represents the nation's largest and most experienced health care benefit companies.

Did you know that we are also a national dental solution?

In addition to being national medical network leaders, participating Blues Plans have arrived as national dental network leaders. In-network dentists are available in urban, suburban, and rural areas across the U.S.

National coverage, local support

ID cards, customer service, and administration are handled through CBA Blue so you will continue to receive that great Blues Plan experience.

Save time and money

Dental GRID providers file claims for you and the providers cannot bill for amounts over our benefit allowance. If a member uses a non-network dental provider, they may be responsible for filing their own claim and providers may request payment in full at the time of service.

What is this network?

Dental GRID is a network of multiple Blue Cross and Blue Shield Plans that, when combined, offers one of the largest National PPO dental networks and provides your employees and their covered family members with lower out-of-pocket costs and broad access to participating dentists.

How do I locate a Dental GRID Network Provider?

At www.cbabluevt.com/members you will find an easy to use on-line directory. Here you can search for participating dentists by city, state, zip code or specialty.
