Pony Post, November 2025

Havre Public Schools just finished up its annual Learning Walks Program. Learning Walks combines the yearly facility inspection with educational updates from all building principals. Havre Public Schools has a dynamic group of educators who are committed to continually raising scores and creating a culture of excellence with our students.

The Havre Public Schools Education Foundation recently donated \$15,000 to Havre High School to help with costs associated with our Dual Credit/Dual Enrollment Program. Havre High School has 242 students participating in this program. Havre High School has done a magnificent job providing these opportunities for the students within our community.

The Havre FFA was in Indianapolis this past week participating in the National Convention. This program has continued to grow in enrollment each year and does such an outstanding job providing students with career-related opportunities for their future. Cross Country and Football also wrapped up their seasons last week, with the Volleyball team heading to Divisionals on November 6-8th, in East Helena.

In closing, I would like to highlight additional new staff members. Sunnyside Intermediate is excited to bring on Carson Lunak to teach at the end of this month. Havre Public Schools also has a host of new paraprofessionals this year. Melissa Daniels, Cara Fanning, Tina Walin, Tiffany Warren, Hailey Finneman, Jackie Bradshaw, Megan Chapman, Jaden Denson, Stacy Ceynar, Lauren Miller, Carolyn Sheppard, Adisyn Olson, Brooklyn Minden, Cadence Kallenberger, Eva Williams, and Jeralynn Verploegen. Ashley Pomeroy rounds out our new hires this year providing services in our Blue Pony Daycare.

If you have any questions at any time, please reach out to me directly!

Sincerely,

Brian Gum
