Saint Martin STEAM Academy

STEAM NIGHT

NOV. 20

5:30-7:30pm

FUTURE BUILDERS
CLASSROOM CORNER

- Ms. Dufrene's class practiced skills in a drone flight simulator.
- Mr. Lastrappe's students used playdough to learn arrays in coding.
- Both Mr. Lastrappe & Mrs. Durand's students used food & anemometers to learn about severe weather!
- 5th Graders wrote & performed their own plays in Theater, had a field trip to Port Wonder, & designed video game controllers for accessibility!
- 3rd Graders visited our state capitol!
- The Environmental Club had a tasty farm-to-table journey in their garden!
- Ms. Armand & Ms. Bernard's 4th graders made sound waves with synthesizers!
- STEM classes engineered & coded their own bowling lanes!
- 2nd Graders turned into paleontologists!

FUTURE EXPLORERS
CLASSROOM CORNER

- Pre-K students focused on family & friendships by making Leaf People & friendship bracelets!
- Ms. Rhonda's Pre-K class engineered innovative architecture towers
- Ms. Denise's Visual Arts students focused on clay and pottery.
- Ms. Saul's 1st graders turned different textures into math practice and used beautiful colors to study sunrises & sunsets in their EL curriculum.
- Mr. Zeno's Kindergarten drama students explored the movement of different characters.
- Ms. Tiffany focused on the design process of building levels of mazes!
- Kindergarten & 1st grade launched their new RoboBlocky Ambassador Program for future engineers as part of their math curriculum!

MAGNET PROGRAM HIGHLIGHTS

BUDDY PROGRAM & PAWSITIVE COMMUNITY

Our schools are excited to support new and out-of-zone students through our Buddy Program and our Pawsitive Community initiatives. These programs are designed to help students transition smoothly to our campuses by connecting them with peers who can guide them, answer questions, and ease any uncertainties. Regular check-ins and activities will help ensure all students feel welcomed and supported as they adjust to our school community.

STUDENT SPOTLIGHT

Congratulations to Althea for competing in the State Choir Competition!

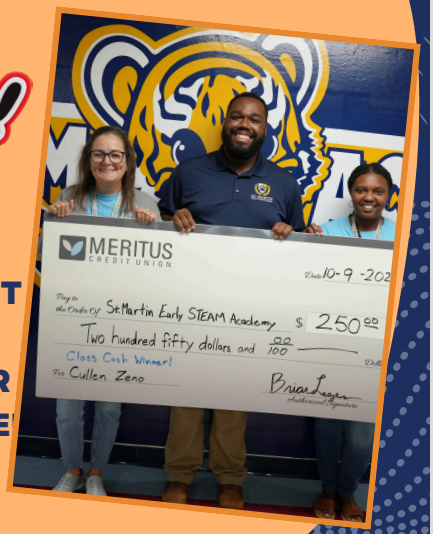

SIMONE & BAYLIAN ON SMESA'S DAILY NEWS!

BRYLIN & BRAELEIGH WERE ON KLFY NEWS!

Congrats!

MR. CULLEN RECEIVED A $250 CLASSROOM GRANT FROM MERITUS CREDIT UNION FOR HIS THEATER STAGE

MAGNET SHOWCASE

Our annual Magnet Showcase was a huge success, bringing our Magnet Program to life with energy, creativity, and school spirit! Families and future students enjoyed exciting performances from our pep squad, dancers, musicians, and theater students, along with hands-on STEM demonstrations and interactive exhibits from both of our magnet schools - Saint Martin STEAM Academy and Saint Martin Early STEAM Academy. The event also featured booths for Visual Arts, STEM, Media Arts, JR Beta Club, and some of our after school clubs. There were plenty of opportunities for visitors to explore all the incredible programs our school has to offer and even take home their own STEAM kits! It was a wonderful celebration of innovation, talent, and community pride!
