Welcome!

All I Really Need to Know I Learned From A Gifted Child

The Complexity of Gifted Parenthood

Karen L. Brown
ElizaBeth Warner

The Core Lessons

We can find the fundamental truths
about a happy, balanced life
not by teaching our children,
but by learning from
their unique way of being.

Lesson 1: Be Curious about Everything!

Lesson 2:
Play with your whole heart.

Lesson 3: Ask for help when you don't know.

Lesson 4: Embrace your intense interests.

Lesson 5: Feel Deeply, Move Freely

Lesson 6:
Don't be afraid to be alone with your thoughts.

Lesson 7:
See the beauty in every detail.

Lesson 8: Embrace your weirdness.

Lesson 9:
Look Everywhere!

Lesson 10:
Community Matters.

A New Perspective on Parenting

Parenthood isn't just about
preparing our children for the world.

It’s also about letting them prepare us for a more present, curious,and authentic life.

Our gifted children are, in their own unique way,
our greatest teachers.
