INDEPENDENT AUDITORS' REPORT

To The Board of Education of the
Sullivan County BOCES
Liberty, New York

Opinions

We have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Sullivan County Board of Cooperative Educational Services (BOCES), New York, as of and for the year ended June 30, 2024, which collectively comprise the BOCES' basic financial statements as listed in the table of contents, and the notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the aggregate remaining fund information of the Sullivan County BOCES, New York, as of June 30, 2024, and the changes in financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Sullivan County BOCES, New York, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Sullivan County BOCES's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Sullivan County BOCES, New York's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Sullivan County BOCES, New York's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and other required supplementary information, on pages 5 through 13 and 54 through 59, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Sullivan County BOCES, New York's basic financial statements. The accompanying combining and individual nonmajor fund financial statements, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Matters

The prior year summarized comparative information has been derived from the BOCES' June 30, 2023 financial statements and, in our report dated September 15, 2022, we expressed an unmodified opinion on those financial statements.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated September 11, 2024 on our consideration of the Sullivan County BOCES, New York's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Sullivan County BOCES, New York's internal control over financial reporting and compliance.

Sullivan County BOCES
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2024

The following is a discussion and analysis of the Sullivan County Board of Cooperative Educational Services (BOCES) financial performance for the fiscal year ending June 30, 2024. This section is a summary of the BOCES' financial activities based on currently known facts, decisions, or conditions. It is also based on both the government-wide and fund-based financial statements. The results of the current year are discussed in comparison with the prior year, with an emphasis placed on the current year. This section is only an introduction and should be read in conjunction with the BOCES' financial statements, which immediately follow this section.

FINANCIAL HIGHLIGHTS

Sullivan BOCES had a successful year and our districts will be receiving a surplus/refund. The BOCES like other schools throughout the state, is still finding it difficult to recruit staff to fill positions. This has been particularly challenging as we strive to fulfill our efforts to increase special education program offerings. In addition, the 2023-2024 Career & Technical education enrollment was the largest ever. This included two new programs running (EMT and Electrical Trades) with both am and pm sessions being filled in the first year of the new course offering. The BOCES also increased participation levels in both its management and instructional support services cosers. Efforts to meet facilities goals continued as the BOCES completed several capital projects during the year including an emergency fire alarm replacement due to a lightning strike and work commenced on both phase one of the RPEC roof project as well as the CTE welding classroom renovations. The BOCES applied for and received approval for a new community schools coser which will be launch in the upcoming school year. It is anticipated that the middle school alternative education program will also reopen in 2024-2025 due to new interest from component districts. One of the main challenges the BOCES expects to experience in subsequent years is the lack of instructional space on its main campus to meet the increased enrollment demands in both special education and career and technical education.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts: MD&A (this section), the basic financial statements, and required supplementary information. The basic financial statements include two kinds of statements that present different views of the BOCES:

- The first two statements are *district-wide* financial statements that provide both *short-term* and *long-term* information about the BOCES *overall* financial status.
- The remaining statements are *fund financial statements* that focus on *individual parts* of the BOCES, reporting the BOCES operations in *more detail* than the district-wide statements. The fund financial statements concentrate on the BOCES most significant funds with all other non-major funds listed in total in one column.
- The *governmental funds statements* tell how basic services such as regular and special education were financed in the *short term* as well as what remains for future spending.
- *Fiduciary funds* statements provide information about the financial relationships in which the BOCES acts solely as a *trustee* or *agent* for the benefit of others.

The financial statements also include notes that explain some of the information in the statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the financial statements with a comparison of the BOCES budget for the year.

District-Wide Statements

The district-wide statements report information about the BOCES as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the BOCES assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two district-wide statements report the BOCES *net positions* and how it has changed. Net position – the difference between the BOCES assets and liabilities – is one way to measure the BOCES financial health or position.

- Over time, increases or decreases in the BOCES net position are an indicator of whether its financial position is improving or deteriorating, respectively.
- To assess the BOCES overall health, you need to consider additional non-financial factors such as changes in the levels of services purchased by both component and non-component school districts as well as the condition of school buildings and other facilities.

In the district-wide financial statements, the BOCES activities are shown as *Governmental activities*: Most of the BOCES basic services are included here, such as regular and special education, general instruction, instructional support services, and administration. Revenues from school districts and grant funds finance most of these activities.

Fund Financial Statements

The fund financial statements provide more detailed information about the BOCES funds, focusing on its most significant or “major” funds – not the BOCES as a whole. Funds are accounting devices the BOCES uses to keep track of specific sources of funding and spending on particular programs:

- Some funds are required by State law and by bond covenants.
- The BOCES establishes other funds to control and to manage money for particular purposes (such as repaying its long-term debts) or to show that it is properly using certain revenues (such as Federal grants).
- The BOCES has two kinds of funds:
 - Governmental Funds: Most of the BOCES basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the BOCES programs. Because this information does not encompass the additional long-term focus of the district-wide statements, additional information at the bottom of the governmental funds statements explains the relationship (or differences) between them.
 - Fiduciary Funds: The BOCES is the trustee, or fiduciary, for assets that belong to others, such as the scholarship fund and the student activities funds. The BOCES is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. The BOCES excludes these activities from the district-wide financial statements because it cannot use these assets to finance its operations.

FINANCIAL ANALYSIS OF THE BOCES AS A WHOLE

As the GASB 34 district-wide reporting requirements did significantly change the financial presentation of the BOCES the last few years, it is important for those reviewing the attached audit to pay particular attention to pages 17 and 18, which analyze the BOCES financial health on a fund basis. The reader will note that these reports, which are more in line with what was presented prior to the implementation of GASB 34, demonstrate that the BOCES financial health is sound.

Revenues for the BOCES were stable and there were increases in participation levels in some programs/services. The BOCES continues to collaborate with its component districts and its educational partners including SUNY Sullivan and Garnet Health, who provide excellent experiential settings for our students. One of the focuses for the upcoming year is special education program expansion to meet the placement needs of our component districts.

The BOCES, along with other educational institutions throughout the state, is still having difficulty filling positions at all levels of the organization. The BOCES will be returning a surplus/refund to its districts based on its 2023-2024 year-end financials. This amount is slightly less than the prior year's surplus but is still somewhat larger than anticipated and it also includes a one-month health insurance premium holiday and some staff vacancies that resulted in less expenditures.

Explanations: Sullivan BOCES experienced varying program increases and decreases in expenditures from fiscal year 2023 to 2024 based on enrollment and service subscription levels. Some coster expenditures due to a number of factors including but not limited to staff vacancies, participation levels and another DEHIC health insurance premium holiday. The increase in instructional support services expenses was directly related to an increase in requests for ISS utilization-based services. While the increase in school lunch services is attributed to increases in food and supplies.

FINANCIAL ANALYSIS OF THE BOCES FUNDS

An analysis of the general fund budgetary and actual activity The General Fund activities resulted in an overall surplus in the amount of \$8,804,282.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

Acquisitions for Governmental Activities totaled \$3,773,038. The increase in assets represents both building improvements of \$3,362,155 as well as furniture and equipment totaling \$410,883. Depreciation expense for the 2023-2024 year was \$536,719.

The Sullivan County BOCES Capital Assets total \$ 9,255,245 net of \$ 11,543,417 in accumulated depreciation. The buildings have a net carrying value of \$ 7,527,061 while equipment/furniture has a net carrying value of \$1,136,119. It should be noted that the BOCES total assets are relatively low due to the fact that it rents a number of its facilities.

Long-Term Liabilities

Compensated Absences liabilities increased slightly during the 2023-2024 school the year. The implementation of GASB 87 requires the accounting of leases on annual financial statements. The "Lease Payable" liability is offset by the "Right to Use" assets. The Other Post-Employment Benefits reflect the actuarial valuation of additional year OPEB costs less actual retirement benefits paid within the year. Net Pension Liability represents the adoption of GASB 75 – Accounting and Financial Reporting for Postemployment Benefits Other than Pensions. Please refer to Note 14 beginning on Page 46 for an explanation of GASB 75.

FACTORS BEARING ON THE DISTRICT'S FUTURE

Sullivan BOCES continues to work collaboratively with its component district stakeholders to develop new services as well as modify existing cosers to better meet the needs of our schools. Both instructional and non-instructional programs and services were redefined throughout the year to accomplish this. In addition, the BOCES applied for a new Community Schools Coser which will be launched in the 2024-2025 school year. The Board of Education updated its strategic plan and new goals were established for each department.

In addition to enhancing access to specialized programs for students in the County, the Board has identified expanding community partnerships on the Career and Technical Education (CTE) advisory committees as well as increasing access to CTE programs for English Language Learners as goals for the upcoming year. The BOCES will also be piloting new technology tools and increasing parent engagement to enhance educational outcomes. Finally, the BOCES will be implementing a comprehensive range of communication strategies to enhance the understanding of its programs and services with county-wide stakeholders.

While filling requests for additional special education classes to meet specialized program needs for the districts is a primary focus for the upcoming year, the BOCES will also be addressing the facility needs of its Career and Technical Education department. As enrollment in CTE courses continues to expand at a significant pace finding appropriate instructional spaces for experiential learning will be essential.

The long-range facilities plan will be updated as the BOCES Building Condition Survey is being finalized. Projects that were recently completed include: the replacement of the Rubin Pollack campus fire-alarm system, renovation of the CTE welding classroom, and Phase 1 of the RPEC Roof project along with sitework/paving. The new elementary playground is on schedule to be finished in the late Fall of 2024 and Phase 2 of the RPEC roof project and a new CTE greenhouse is on the horizon.

Sullivan BOCES continues to partner with a number of local and regional agencies including but not limited to: Center for Workforce Development, Garnet Medical Center, Sullivan County Chamber, Sullivan County Partnership, Sullivan 180 and Sullivan Community College. During the 2023-2024 school year the BOCES worked with the Center for Workforce Development to launch a second adult education program offering, a welding course designed to train individuals for employment in our region.

Sullivan BOCES remains committed to being an innovative, collaborative, county-wide educational organization, providing leadership, high-quality instructional and non-instructional services, along with a variety of other collaborative opportunities for students, staff and the community at large.

Amounts reported for governmental activities in the statement of activities are different because:			
Capital outlays are reported in governmental funds as expenditures. However, on the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current fiscal year.			
Depreciation Expenses	(536,719)		
Capital Outlay	<u>4,365,103</u>	3,828,384	562,036
In the statement of activities, certain operating expenses are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are reported in the amount of financial resources used (paid). When the earned amount exceeds the paid amount, the difference is a reduction in the reconciliation; when paid amount exceeds the earned amount, the difference is an addition to the reconciliation.			
Compensated Absences		(48,792)	12,034
Repayments of principal on long-term debt are expenditures in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position and is not reported in the statement of activities.

SULLIVAN COUNTY BOCES
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2024

NOTE 1– SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Sullivan County Board of Cooperative Educational Services (BOCES) have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. Those principles are prescribed by the Governmental Accounting Standards Board (GASB), which is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

Certain significant accounting principles and policies utilized by the BOCES are described below:

A. Financial Reporting Entity

The BOCES is governed by the Education Law and other laws of the State of New York. The governing body is the Board of Education. The scope of activities included within the accompanying financial statements are those transactions that comprise BOCES operations, and are governed by, or significantly influenced by, the Board of Education.

The Boards of Cooperative Educational Services were established by New York State Legislation in 1948 to enable smaller school districts to offer more breadth in their educational programs by sharing teachers. In 1955, Legislation was passed allowing Boards of Cooperative Educational Services to provide vocational and special education. The Boards of Cooperative Educational Services are voluntary, cooperative associations of school districts in a geographic area that share planning, services, and programs to provide educational and support activities more economically, efficiently, and equitably than could be provided locally. The BOCES provides instructional support programs and services to the following eight school districts in New York's Sullivan County:

1. Eldred Central School District
2. Fallsburg Central School District
3. Liberty Central School District
4. Livingston Manor Central School District
5. Monticello Central School District
6. Roscoe Central School District
7. Sullivan West Central School District
8. Tri-Valley Central School District

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

BOCES' programs and services include special education, vocational education, academic and alternative programs, summer school, staff development computer services (management and instructional), educational communication, and cooperative purchasing.

The financial reporting entity consists of the following, as defined by GASB Statement 14, "The Financial Reporting Entity":

1. The primary government, which is the BOCES;
2. Organizations for which the primary government is financially accountable; and
3. Other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's general purpose financial statements to be misleading or incomplete.

The decision to include a potential component unit in the reporting entity is based on the criteria set forth in GASB Statement 14, including legal standing, fiscal dependency, and financial accountability. Based on the application of these criteria, the following is a summary of certain entities considered in determining the BOCES' reporting entity.

Included in the Reporting Entity:

The Extraclassroom Activity Funds of the BOCES represent funds of the students of the BOCES. The Board of Education exercises general oversight of these funds. The extraclassroom activity funds are independent of the BOCES with respect to its financial transactions and designation of student management. The activities are reported in the Miscellaneous Special Revenue Fund. Separate audited financial statements (cash basis) of the extraclassroom activity funds can be found within these financial statements.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Basis of Presentation

I. Government-Wide Statements:

The Statement of Net Position and the Statement of Activities present financial information about the BOCES governmental activities. These statements include the financial activities of the overall government in its entirety, except those that are fiduciary. Eliminations have been made to minimize the double counting of internal transactions. Governmental activities generally are financed through state aid, intergovernmental revenues, and other exchange and non-exchange transactions. Operating grants include operating-specific and discretionary (either operating or capital) grants, while the capital grants column reflects capital-specific grants.

The Statement of Activities presents a comparison between direct expenses and program revenues for each function of the BOCES governmental activities. Direct expenses are those that are specifically associated with and are clearly identifiable to a particular function. Program revenues include charges paid by the recipients of goods or services offered by the programs, and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues.

II. Fund Financial Statements:

The fund statements provide information about the BOCES's funds, including fiduciary funds. Separate statements for each fund category (governmental and fiduciary) are presented. The emphasis of fund financial statements is on major governmental funds each displayed in a separate column.

The BOCES reports the following major governmental funds:

a. General Fund:

This is the BOCES primary operating fund. It accounts for all financial transactions that are not required to be accounted for in another fund.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

b. Special Revenue Funds:

Special revenue funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditure for specified purposes. Special revenue funds include the following funds:

1. Special Aid Fund – Special Aid Fund is used to account for special operating projects or programs supported as a whole, or in part, with Federal funds or State or Local Grants.
2. School Lunch Fund – School Lunch Fund is used to account for transactions of lunch, breakfast and milk programs.

c. Capital Projects Fund:

These funds are used to account for the financial resources used for acquisition construction, or major repair of capital facilities.

The BOCES reports the following non-major governmental fund:

a. Miscellaneous Special Revenue Fund

This fund is used to account for the proceeds of specific revenue sources that are restricted to expenditures for specified purposes.

Additionally, the BOCES reports the following fund types:

a. Fiduciary Fund:

This fund is used to account for fiduciary activities. Fiduciary activities are those in which the BOCES acts as trustee or agent for resources that belong to others. These activities are not included in the government-wide financial statements, because their resources do not belong to the BOCES, and are not available to be used.

Private Purpose Trust Fund

These funds are used to account for trust arrangements in which principal and income benefit third parties and scholarships for students. Established criteria govern the use of the funds and members of the BOCES or representatives of the donors may serve on committees to determine who benefits.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. **Measurement Focus and Basis of Accounting**

The government-wide and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash transaction takes place. Non-exchange transactions, in which the BOCES gives or receives value without directly receiving or giving equal value in exchange, include grants and donations. On an accrual basis, revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

The governmental fund statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method revenues are recognized when measurable and available. The BOCES considers all revenues reported in the governmental funds to be available if the revenues are collected within one year after the end of the fiscal year.

Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are reported as expenditures to the extent they have matured. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

D. **Cash and Cash Equivalents**

The BOCES' cash and cash equivalents consist of cash on hand, demand deposits, and short-term investments with original maturities of three months or less from date of acquisition.

E. **Accounts Receivable**

Accounts receivable are shown gross, with uncollectible amounts recognized under the direct write-off method. No allowance for uncollectible accounts has been provided since it is believed that such allowance would be immaterial.

F. **Inventories**

Inventories of food and/or supplies in the School Lunch Fund are recorded at cost on a first-in, first-out basis, or in the case of surplus food, at stated value that approximates market. Purchases of inventory items in other funds are recorded as expenditures at the time of purchase, and are considered immaterial in amount.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

G. **Interfund Activity**

The amounts reported on the Statement of Net Position for due to and due from other funds represents amounts due between different fund types (governmental activities and fiduciary funds). Eliminations have been made for amounts due to and due from within the same fund type. A detailed description of the individual fund balances at year-end is provided subsequently in these Notes.

H. **Capital Assets**

Capital assets are reported at actual cost for acquisitions. Donated assets are reported at acquisition value at the time received.

Capitalizations thresholds (the dollar value above which asset acquisitions are added to the capital asset accounts), depreciation methods, and estimated useful lives of capital assets reported in the BOCES-wide statements are as follows:

	Capitalization <u>Threshold</u>	Depreciation <u>Method</u>	Estimated <u>Useful Life</u>
Buildings	\$ 5,000	Straight-Line	50 Years
Building Improvements	5,000	Straight-Line	25 Years
Site Improvements	5,000	Straight-Line	20 Years
Furniture and Equipment	5,000	Straight-Line	5-15 Years

In the fund financial statements, fixed assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition. Fixed assets are not capitalized and related depreciation is not reported in the governmental fund financial statements.

I. **Vested Employee Benefits**

The BOCES employees are granted vacation in varying amounts, based primarily on length of service and service position. Some earned benefits may be forfeited if not taken within varying time periods.

Sick leave eligibility and accumulation is specified in negotiated labor contracts, and in individual employment contracts. Upon retirement, resignation, or death, employees may receive a payment based on unused accumulation sick leave, based on contractual provisions.

Consistent with GASB Statement 16, Accounting for Compensated Absences, an accrual for accumulated vacation and sick leave is included in the compensated absences liability at year-end. The compensated absences liability is calculated based on the pay rates in effect at year end.

SULLIVAN COUNTY BOCES
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2024

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

For the government-wide statements, the current portion is the amount estimated to be used in the following year, in accordance with GAAP. For the governmental funds, in the fund financial statements, all of the compensated absences are considered long-term and therefore, are not a fund liability and represent a reconciling item between the fund level and government-wide presentations.

BOCES employees participate in the New York State Employees' Retirement System and the New York Teachers' Retirement System. In addition to providing pension benefits, the BOCES provides health insurance coverage and survivor benefits for retired employees and their survivors. Substantially all of the BOCES' employees may become eligible for these benefits if they reach retirement age while working for the BOCES. Health care benefits are provided through plans whose premiums are based on the benefits paid during the year. Some costs of providing post-retirement benefits are shared between the BOCES and the retired employee. The BOCES recognizes the cost of providing health insurance by recording its share of insurance premiums as expenditures in the year paid. In the government-wide statements, the liability is reported at actuarially calculated amounts (See Note 14).

J. Budgetary Procedures and Budgetary Accounting

Section 1950 of the Education Law requires adoption of a final budget by no later than May 15 of the ensuing year.

The BOCES administration prepares a proposed administrative, capital, and program budget as applicable, for approval by members of the BOCES' board for the General Fund.

Appropriations for educational services are adopted at the program level.

A tentative administrative budget is provided to the component districts for adoption by resolution. Approval of the tentative administrative budget requires the approval of a majority of the component school boards actually voting. During the current year, the administrative budget was approved by a majority of its voting component school boards.

SULLIVAN COUNTY BOCES
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2024

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Appropriations established by the adoption of the budget constitute a limitation on expenditures (and encumbrances) that may be incurred. Appropriations lapse at the end of the fiscal year unless expended or encumbered. Encumbrances will lapse if not expended in the subsequent year. Supplemental appropriations may occur subject to legal restrictions, if the Board approves them because of a need that exists, which was not determined at the time the budget was adopted. The following supplemental appropriations occurred during the year.

Additional Contractual Services to Components and Non-Components	<u>\$ 16,697,838</u>
---	----------------------

Budgets are adopted annually on a basis consistent with GAAP. Appropriations for the year are increased by the amount of encumbrances carried forward from the prior year.

Special Revenue Funds have not been included in the comparison because they do not have legally authorized (appropriated) budgets.

K. **Unearned Revenue**

Unearned revenues are reported when potential revenues do not meet both the measurable and available criteria for recognition in the current period. Unearned revenues also arise when resources are received by the BOCES before it has legal claim to them, as when grant monies are received prior to the incidence of qualifying expenditures.

L. **Use of Estimates**

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amount and disclosures. Accordingly, actual results could differ from those estimates.

M. **Equity Classifications**

In the government-wide statements there are three classes of net position:

Net investment in capital assets – consists of net capital assets (cost less accumulated depreciation) reduced by outstanding balances of related debt obligations from the acquisition, construction or improvement of those assets.

SULLIVAN COUNTY BOCES
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2024

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Restricted – reports net position when constraints placed on the assets are either externally imposed by creditors (such as through debt covenants), grantors, contributors, laws or regulations of other governments or imposed by law through constitutional provisions or enabling legislation.

Unrestricted – reports all other net position that does not meet the definition of the above two classifications and is deemed to be available for general use by the BOCES.

Order of Use of Net Position:

When an expense is incurred for which both restricted and unrestricted resources are available, the Board will assess the current financial condition of the BOCES and determine which classification of net position will be charged.

In the fund basis statements there are five classifications of fund balance:

Non-spendable – includes amounts that cannot be spent because they are either not in spendable form or legally or contractually required to be maintained intact. Non-spendable fund balance includes the inventory recorded in the School Lunch Fund of \$7,684.

Restricted – includes amounts with constraints placed on the use of resources either externally imposed by creditors, grantors, contributors or laws or regulations of other governments; or imposed by law through constitutional provisions or enabling legislation. All encumbrances of funds other than the General Fund are classified as restricted fund balance. The BOCES has established the following restricted fund balances:

Unemployment Insurance

Used to pay the cost of reimbursement to the State Unemployment Insurance Fund for payments made to claimants where the employer has elected to use the benefit reimbursement method. The reserve may be established by Board action and is funded by budgetary appropriations and such other funds as may be legally appropriated. This reserve is accounted for in the General Fund.

Employee Benefit Accrued Liability

Used to reserve funds for the payment of any accrued employee benefit due an employee upon termination. The reserve is established by a majority vote of the Board of Education and is funded by budgetary appropriations and such other funds that may be legally appropriated. This reserve is accounted for in the General Fund.

SULLIVAN COUNTY BOCES
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2024

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Liability Reserve Fund

Used to maintain a program of reserves to cover property and liability claims. The reserve is established by a resolution of the BOCES Board. This reserve is accounted for in the General Fund.

Retirement Contributions

Used to pay contributions to the NYS Employees Retirement System and NYS Teachers Retirement System. This reserve is accounted for in the General Fund.

CTE Equipment

Used to reserve funds for the purchase of equipment for the Career and Technical Education program. The reserve is established by a majority vote of the BOCES' Board and a majority of the component school district boards and expenditures must be approved by the BOCES' Board and the State Education Department. This reserve is accounted for in the Capital Fund.

Scholarships

Proceeds of contributions that are restricted by the donor to the payment of scholarships. This reserve is accounted for in the Miscellaneous Special Revenue Fund.

Committed – includes amounts that can only be used for a specific purpose pursuant to constraints imposed by formal action of the BOCES' highest level of decision making authority before the end of the fiscal year, and requires the same level of formal action to remove the constraint. The Board of Education is the decision making authority that can, by resolution prior to the end of the fiscal year, commit fund balance. The BOCES has no committed fund balances as of June 30, 2024.

Assigned – includes amounts that are subject to a purpose constraint that represents an intended use established by the government's highest level of decision making authority, or by their designated official. The purpose of the assignment must be narrower than the purpose of the General Fund, and in funds other than the General Fund, assigned fund balance represents the residual amount of fund balance. Assigned fund balance generally includes encumbrances in the General Fund and appropriated fund balance. The Board of Education is the decision making authority that can, by resolution, assign fund balance. The BOCES reported no encumbrances as assigned fund balance in the General Fund as of June 30, 2024.

SULLIVAN COUNTY BOCES
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2024

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Unassigned – represents the residual classification for the General Fund, and could report a surplus or deficit. In funds other than the General Fund, the unassigned classification should be used only to report a deficit fund balance resulting from overspending for specific purposes for which amounts had been restricted, committed or assigned.

Order of Use of Fund Balance:

When resources are available from multiple fund balance classifications, the Board will assess the current financial condition of the BOCES and then determine the order of application of expenditures to which fund balance classification will be charged.

N. **New Accounting Standards**

The BOCES has adopted all current Statements of the Governmental Accounting Standards Board (GASB) that are applicable. At June 30, 2024, the BOCES implemented the following new standards issued by GASB:

GASB 99 – *Omnibus 2022*, effective for the year ending June 30, 2023, except for the portion related to financial guarantees and classification and reporting of derivative instruments within the scope of GASB Statement No. 53, which is effective for the year ending June 31, 2024.

GASB 100 – *Accounting Changes and Error Corrections – an amendment of GASB No. 62*

O. **Future Accounting Standards**

The Governmental Accounting Standards Board (GASB) has issued the following standards that will become effective in future fiscal years:

GASB 101 – *Compensated Absences*, effective for the year ending June 30, 2025.

GASB 102 – *Certain Risk Disclosures*, effective for the year ending June 30, 2025.

GASB 103 – *Financial Reporting Model Improvements*, effective for the year ending June 30, 2026.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The BOCES will evaluate the impact of each of these pronouncements may have on its financial statements and will implement them as applicable and when material.

P. **Deferred Outflows/Inflows of Resources**

In addition to assets, the Statement of Net Position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then. The government has three items that qualify for reporting in this category. The first item is related to pensions reported in the BOCES-wide Statement of Net Position. This represents the effect of the net change in the BOCES's proportion of the collective net pension asset or liability and difference during the measurement period between the BOCES' contributions and its proportionate share of total contributions to the pension systems not included in pension expense. The second item is the BOCES contributions to the pension systems (TRS and ERS Systems) and OPEB subsequent to the measurement date. The third item relates to OPEB reporting in the BOCES-wide Statement of Net Position. This represents the effect of the net change in the actual and expected experience. The BOCES reports \$6,499,639 in deferred outflows of resources related to pensions and \$4,072,582 in deferred outflows of resources related to the Total OPEB Liability as of June 30, 2024.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The BOCES has two items that qualify for reporting in this category. The first item is related to pensions reported in the BOCES-wide Statement of Net Position. This represents the effect of the net change in the BOCES' proportion of the collective net pension liability (TRS and ERS System) and difference during the measurement periods between the BOCES' contributions and its proportionate share of total contributions to the pension system not included in pension expense. The second item is related to OPEB reported in the BOCES-wide Statement of Net Position. This represents the effect of the net changes of assumptions or other inputs. The BOCES reports \$1,672,605 in deferred inflows of resources related to pensions and \$23,738,999 in deferred inflows of resources related to the Total OPEB Liability as of June 30, 2024.

SULLIVAN COUNTY BOCES
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2024

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The reporting of deferred outflows of resources and deferred inflows of resources related to pensions resulted in a net increase of \$4,827,034 to unrestricted net position as of June 30, 2024.

The reporting of deferred outflows of resources and deferred inflows of resources related to the Total OPEB Liability resulted in a net decrease of \$19,666,417 to unrestricted net position as of June 30, 2024.

NOTE 2 – STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

A. **Fund Balance**

The BOCES had a negative fund balance of \$464,709 in the Special Aid Fund at June 30, 2024. The deficit was caused by expenditures in excess of revenues related to the adult education program.

NOTE 3– EXPLANATION OF CERTAIN DIFFERENCES BETWEEN GOVERNMENTAL FUND STATEMENTS AND BOCES-WIDE STATEMENTS

Due to differences in the measurement focus and basis of accounting used in the governmental fund statements and the government-wide statements, certain financial transactions are treated differently. The basic financial statements contain a full reconciliation of these items. The differences result primarily from the economic focus of the Statement of Activities, compared with the current financial resources focus of the governmental funds.

A. Total Fund Balances of Governmental Funds vs. Net Position of Governmental Activities:

Total fund balances of the BOCES' governmental funds differ from "net position" of governmental activities reported in the Statement of Net Position. This difference primarily results from the additional long-term economic focus of the Statement of Net Position versus the solely current financial resources focus of the governmental fund Balance Sheets.

B. Statement of Revenues, Expenditures, and Changes in Fund Balance vs. Statement of Activities:

SULLIVAN COUNTY BOCES
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2024

NOTE 3– EXPLANATION OF CERTAIN DIFFERENCES BETWEEN GOVERNMENTAL
FUND STATEMENTS AND BOCES-WIDE STATEMENTS (Continued)

Differences between the governmental funds Statement of Revenues, Expenditures, and Changes in Fund Balance and the Statement of Activities fall into one of three broad categories:

a. Long-Term Revenue Differences:

Long-term revenue differences arise because governmental funds report revenues only when they are considered “available”, whereas the Statement of Activities reports revenues when earned. Differences in long-term expenses arise because governmental funds report on a modified accrual basis, whereas the accrual basis of accounting is used on the Statement of Activities.

b. Capital Related Differences:

Capital related differences include the difference between proceeds for the sale of capital assets reported on governmental fund statements and the gain or loss on the sale of assets as reported on the Statement of Activities, and the difference between recording an expenditure for the purchase of capital items in the governmental fund statements and depreciation expense on those items as recorded in the Statement of Activities.

c. Long-Term Debt Transaction Differences:

Long-term debt transactions differences occur because both interest and principal payments are recorded as expenditures in the governmental fund statements, whereas interest payments are recorded in the Statement of Activities as incurred, and principal payments are recorded as a reduction of liabilities in the Statement of Net Position.

NOTE 4 – CASH AND INVESTMENTS

The BOCES’ investment policies are governed by State statutes. In addition the BOCES has its own written investment policy. BOCES monies must be deposited in FDIC-insured commercial banks or trust companies located within the State. The treasurer is authorized to use demand accounts and certificates of deposit. Permissible investments include obligations of the U.S. Treasury and U.S. Agencies, and obligations of New York State or its localities.

NOTE 4 – CASH AND INVESTMENTS (continued)

Collateral is required for time deposits and certificates of deposit not covered by federal deposit insurance. Obligations that may be pledged as collateral are obligations of the United States and its agencies and obligations of New York State and states other than New York and their municipalities and school districts.

The BOCES' aggregate cash balances include balances not covered by depository insurance at year end, collateralized as follows:

Collateralized with securities held by the pledging financial institution, or its trust department, but not in the BOCES' name. \$ 28,120,970

NOTE 5 – CAPITAL ASSETS

Capital asset balances and activity for the year ended June 30, 2024 were as follows:

NOTE 8 – PENSION PLANS

General Information

The BOCES participates in the New York State Employees' Retirement System (NYSERS) and the New York State Teachers' System (NYSTRS). These are cost-sharing multiple employer public employee retirement systems. The Systems offer a wide range of plans and benefits, which are related to years of service and final average salary, vesting of retirement benefits, death, and disability.

Plan Descriptions

The New York State Teachers' Retirement Board administers NYSTRS. The System provides benefits to plan members and beneficiaries as authorized by the Education Law and the Retirement and Social Security Law of the State of New York. NYSTRS issued a publicly available financial report that contains financial statements and required supplementary information for the System. The report may be obtained by writing to NYSTRS, 10 Corporate Woods Drive, Albany, New York 12211-2395.

NYSERS provides retirement benefits as well as death and disability benefits. New York State Retirement and Social Security Law governs obligations of employers and employees to contribute, and benefits to employees. The System issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to NYSERS, Governor Alfred E. Smith State Office Building, Albany, New York 12244.

Funding Policy

Plan members who joined the Systems before July 27, 1976 are not required to make contributions. Those joining after July 27, 1976 and prior to January 1, 2010, with less than ten years of service, are required to contribute 3% of their salary.

Those joining the NYSERS on or after January 1, 2010 and before April 1, 2012, contribute 3% of their salary throughout their entire working career. Those joining after April 1, 2012 contribute 3% of their salary through March 31, 2013, and beginning April 1, 2013, contribute at rates ranging from 3% to 6%, dependent upon their salary, for their entire working career.

Those joining the NYSTRS on or after January 1, 2010 and before April 1, 2012 contribute 3.5% of their salary throughout their entire working career. Those joining on or after April 1, 2012 are required to contribute between 3% and 6%, dependent on their salary, for their entire working career.

NOTE 8 – PENSION PLANS (Continued)

For the NYSTRS, employers are required to contribute at an actuarially determined rate, currently 9.76% of the annually covered payroll for the fiscal year ended June 30, 2024. Rates applicable to the fiscal years ended June 30, 2023 and 2022, were 10.29% and 9.80%, respectively. For the NYSERS, the NYS Comptroller annually certifies the actuarially determined rates expressed used in computing the employers' contributions based on salaries paid during the Systems' fiscal year ending March 31.

Contributions for the current year and two preceding years were equal to 100 percent of the contributions required, and were as follows:

	<u>NYSTRS</u>	<u>NYSERS</u>

NOTE 9 – RISK MANAGEMENT

The BOCES is exposed to various risk of loss related to torts, theft, damage, injuries, errors and omissions, natural disasters, and other risks. These risks are covered by commercial insurance purchased from independent third parties.

A. Risk Financing and Related Insurance

I. Pool, Non-Risk Retained:

The BOCES incurs costs related to an employee health insurance plan (Plan) sponsored by Dutchess County BOCES and its component districts.

The Plan's objectives are to formulate, develop, and administer a program of insurance to obtain lower costs for that coverage, and to develop a comprehensive loss control program. Districts joining the Plan must remain members for a minimum of five (5) years; a member may withdraw from the plan after that time by providing 180 days' written notice. The Plan was organized for the purpose of providing insurance coverage at a lower rate for members of educational institutions due to a large participation pool.

Accordingly, the Plan reinsures 100 percent of all coverage and does not retain any loss experience. Financial statements for the Plan are available from the administrator at 5 BOCES Road, Poughkeepsie, NY 12601.

II. Pool, Risk-Related Retained:

The BOCES incurs costs related to a workers' compensation insurance plan (Plan) sponsored by itself and its component districts. The Plan's objectives are to formulate, develop, and administer a program of insurance to obtain lower costs for that coverage, and to develop a comprehensive loss control program. Districts joining the Plan must remain members for a minimum of one (1) year; a member may withdraw from the plan after that time by providing written notice by March 1, prior to the end of the Plan year. Plan's members are subject to a supplemental assessment in the event of deficiencies.

If the Plan's assets were to be exhausted, the members would be responsible for the Plan's liabilities. During the year ended June 30, 2024, the BOCES incurred premiums for contribution expenditures totaling \$321,947.

NOTE 10 – CONTINGENCIES

The BOCES has received grants, which are subject to audit by agencies of the State and federal governments. Such audits may result in disallowances and request for a return of funds. Based on prior audits, the BOCES administration believes disallowances, if any, will be immaterial.

NOTE 14 – POST EMPLOYMENT HEALTH INSURANCE BENEFITS

The BOCES provides post-employment coverage to retired employees in accordance with the provisions of various employment contracts. The benefit levels, employee contributions and employer contributions are governed by the BOCES' contractual agreements.

General Information about the OPEB Plan

Plan Description - The healthcare plan is a defined benefit OPEB plan, provides OPEB for all permanent full-time general and public safety employees of the BOCES. The plan is a pay as you go funding plan. The plan is a single-employer defined benefit OPEB plan administered by the BOCES. Article 11 of the State Compiled Statutes grants the authority to establish and amend the benefit terms and financing requirements to the Board of Education. No assets are accumulated in a trust that meets the criteria in paragraph 4 of Statement 75.

Benefits Provided -The BOCES provides healthcare benefits for retirees, their dependents and surviving spouses. The benefit terms and contributions required by retirees vary based on the union contract that governs the employee, and years of service with the BOCES. The BOCES also reimburses the cost of Medicare Part B premiums to both retirees and covered spouses. Retirees and surviving spouses contribute at rates ranging from 50% to 80% of premiums depending on the type of coverage and the individual contractual terms.

Employees Covered by Benefit Terms – At June 30, 2024, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefit payments	243
Active Employees	<u>166</u>
	<u>409</u>

Total OPEB Liability

The BOCES' total OPEB liability of \$58,206,356 was measured as of June 30, 2023, using an actuarial valuation as of July 1, 2022.

Detailed descriptions of the New York State and Local Employees' Retirement System (ERS) and the New York State Teachers' Retirement (TRS) are included in Note 8 to the financial statements.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2024, the BOCES reported the following asset/(liability) for its proportionate share of the net pension asset/(liability) for each of the Systems. The net pension asset/(liability) was measured as of March 31, 2024 for ERS and June 30, 2023 for TRS. The total pension asset/(liability) used to calculate the net pension asset/(liability) was determined by an actuarial valuation. The BOCES' proportion of the net pension asset/(liability) was based on a projection of the BOCES' long-term share of contributions to the Systems relative to the projected contributions of all participating members, actuarially determined. This information was provided by the ERS and TRS Systems in reports provided to the BOCES.

For the year ended June 30, 2024, the BOCES recognized pension expense of \$1,007,330 for ERS and \$1,890,160 for TRS. At June 30, 2024, the BOCES reported deferred outflows/inflows of resources related to pensions from the following sources:

Actuarial Assumptions

The total pension liability as of the measurement date was measured by using an actuarial valuation as noted in the table below, with update procedures used to roll forward the total pension liability to the measurement date. The valuations used the following significant actuarial assumptions:

	<u>ERS</u>		<u>TRS</u>	
	<u>Current Year</u>	<u>Prior Year</u>	<u>Current Year</u>	<u>Prior Year</u>
Measurement date	March 31, 2024	March 31, 2023	June 30, 2023	June 30, 2022

Cost of Living Adjustments	1.5%	1.4%	1.3%	1.3%
Inflation rate	2.9%	2.7%	2.40%	2.40%

For ERS, annuitant mortality rates are based on April 1, 2015-March 31, 2020 System's experience with adjustments for mortality improvements based on MP-2020. For TRS, annuitant mortality rates are based on plan member experience with adjustments for mortality improvements based on Society of Actuaries Scale MP-2021, applied on a generational basis.

For ERS, the actuarial assumptions used in the April 1, 2023 valuation are based on the results of an actuarial experience study for the period April 1, 2015-March 31, 2020. For

TRS, the actuarial assumptions used in the June 30, 2022 valuation are based on the results of an actuarial experience study for the period July 1, 2015-June 30, 2020.

The long term rate of return on pension plan investments was determined using a building block method in which best estimate ranges of expected future real rates of return (expected returns net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long term expected rate of return by weighting the expected future rates of return by each the target asset allocation percentage and by adding expected inflation. Best estimates of the arithmetic real rates of return for each major asset class included in the target asset allocation are summarized below:

	<u>ERS</u>	<u>TRS</u>
Measurement date	March 31, 2024	June 30, 2023

Discount Rate

The discount rate used to calculate the total pension liability was 5.90% for ERS and 6.95% for TRS. The projection of cash flows used to determine the discount rate assumes that contributions from plan members will be made at the current contribution rates and that contributions from employees will be made at statutorily required rates, actuarially. Based upon the assumptions, the Systems' fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore the long term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Payables to the Pension Plan

For ERS, employer contributions are paid annually based on the System's fiscal year which ends on March 31st. Accrued retirement contributions as of June 30 represent the projected employer contribution for the period of April 1 through June 30 based on paid ERS wages multiplied by the employer's contribution rate, by tier. Accrued retirement contributions as of June 30, 2024 amounted to \$249,903.

For TRS, employer and employee contributions for the fiscal year ended June 30 are paid to the System in September, October, and November through a state aid intercept. Accrued retirement contributions as of June 30 represent employee and employer contributions for the fiscal year ended June 30 based on paid TRS wages multiplied by the employer's contribution rate by tier, and employee contributions for the fiscal year as reported to the TRS System. Accrued retirement contributions as of June 30, 2024 amounted to \$1,124,466.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Board of Trustees
Sullivan County Board of
Cooperative Educational Services
Liberty, New York

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Sullivan County Board of Cooperative Educational Services (BOCES), New York as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the Sullivan County BOCES, New York's basic financial statements and have issued our report thereon dated September 11, 2024.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Sullivan County BOCES, New York's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Sullivan County BOCES, New York's internal control. Accordingly, we do not express an opinion on the effectiveness of the Sullivan County BOCES, New York's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies may exist that have not been identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Sullivan County BOCES, New York's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITORS' REPORT ON
THE FINANCIAL STATEMENTS
OF THE EXTRACLASSROOM ACTIVITY FUNDS

To the Board of Education
Sullivan County Board of
Cooperative Educational Services
Liberty, New York

Opinions

We have audited the accompanying statements of assets, liabilities and fund balance – cash basis, of the Extraclassroom Activity Funds of the Sullivan County Board of Cooperative Education (BOCES) as of June 30, 2024, and the related statements of cash receipts, disbursements and changes in fund balance – cash basis for the year then ended, and the related notes to the financial statements, which collectively comprise the financial statements of the Extraclassroom Activity Funds of the Sullivan County Board of Cooperative Educational Services (BOCES as listed in the table of contents.

In our opinion, the financial statements referred to above presents fairly, in all material respects, the financial position – cash basis, of the Extraclassroom Activity Funds of the Sullivan County Board of Educational Services (BOCES) as of June 30, 2024, and the changes in financial position – cash basis, for the year then ended in accordance with the basis of accounting described in Note 2.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the entity, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Emphasis of Matter—Basis of Accounting

We draw attention to Note 2 of the financial statements, which describes the basis of accounting. The financial statements are prepared on the cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinions are not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the cash basis of accounting described in Note 2, and for determining that the cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances.

892 State Route 17B, P.O. Box 190 Mongaup Valley, NY 12762 — Phone: 845-796-1800 — Fax: 845-796-1826 — www.cooperarias.com

Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the entity's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

SULLIVAN COUNTY BOCES
EXTRACLASSROOM ACTIVITY FUNDS
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2023

NOTE 1 – DESCRIPTION OF OPERATIONS

As the Sullivan County Board of Cooperative Educational Services (BOCES), through its Board of Education, has oversight responsibility over the Extraclassroom Activity Funds, such funds are considered a component unit of the Sullivan County BOCES. Accordingly, such transactions are blended with the other Trust Funds of the BOCES in its basic financial statements under the Miscellaneous Special Revenue Funds.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The books and records of the Sullivan County BOCES' Extraclassroom Activity Funds are maintained on the cash basis of accounting. Under this basis of accounting, revenues are recognized when cash is received and expenditures are recognized when cash is disbursed. Therefore, receivables and payables, inventories, long-lived assets, and accrued income and expenses, which would be recognized under generally accepted accounting principles and which may be material in amount, are not recognized in the accompanying financial statements.
