FOR IMMEDIATE RELEASE

**Announcement from Carroll ISD Board President Cam Bryan: Approval of Agreement
with City of Southlake for Sale of Old Dragon Stadium**

The Carroll ISD Board of Trustees is proud to announce a historic agreement with the City of Southlake for the sale of Old Dragon Stadium. This partnership represents a shared commitment between the District and the City to honor our past while preserving this cherished landmark for future generations.

Old Dragon Stadium is more than just a piece of property, it is hallowed ground in our community's history. It was here that the Dragons captured state championships in 1988, 1992, and 1993, and where countless memories were made by players, students, families, and fans. For many, it remains a symbol of tradition, pride, and the Dragon spirit that unites our community.

We heard the concerns of our residents who did not want to see this site turned into residential or commercial development. In partnership with the City, we have ensured that Old Dragon Stadium will instead be transformed into a community green space, a place that will celebrate our legacy, honor those who played there, and continue to serve our youth programs for generations to come.

This collaboration with the City Council reflects the best of what can happen when we work together for the good of Southlake. The Board of Trustees is grateful for the leadership, vision, and teamwork that made this possible, and we look forward to seeing Old Dragon Stadium continue to inspire Dragon pride for years to come.

Cam Bryan
President,
Carroll ISD Board of Trustees
