Dear Parents/Guardians:

As part of a required school health examination, a student is weighed and his/her height is measured. These numbers are used to figure out the student's body mass index or "BMI". The BMI helps the doctor or nurse know if the student's weight is in a healthy range or is too high or too low. New York State Education Law requires that BMI and weight status groups be included as part of the student's school health examination. A sample of school districts will be selected to be part of the survey; we will be reporting to the New York State Department of Health information about our students' weight status group. Only summary information is sent. No names or information about individual students are sent. However, you may choose to have your child's information excluded from this survey report.

The information sent to the New York State Department of Health will help officials develop programs that make it easier for children to be healthier. If you **do not** wish to have your child's weight status group information included as part of the Health Department's survey this year, please print and sign your name below and return form to.

Greenwood Lake Union Free School District
P.O. Box 8
Greenwood Lake, NY 10925

Please Do Not include my child's weight status information in the School Survey.
