**Nov 26th-28<sup>th</sup>-** NO SCHOOL Thanksgiving Break

## This month in preschool:

Our Monthly theme is:

# Light

### We will discover:

Get ready for some bright ideas! This month, our school will begin an exciting new unit all about light. The children will become "light investigators" as we explore sources of light, discover how light helps us, and play with light and shadows.

Throughout the unit, children will engage in fun, hands-on activities that build important skills and spark curiosity.

**Shadow play:** Using flashlights and a blank wall, we will make shadow puppets with our hands and different objects. We will notice how moving the light closer or farther away changes the size of the shadow.

**Light table discovery:** Our light table will be a hub of activity. Children will sort and build with translucent blocks, see how colors mix with paddles, and explore transparent objects.

**Outdoor investigations:** On sunny days, we will head outside to trace our own shadows with chalk at different times of the day to see how they move and change.

You can help extend this learning at home with some easy, interactive activities. with looking at your shadow on walks and making wall puppets or reading books around the light around us.

## GET READY

Our annual Turkey Trot is just around the corner, opening for registration on November 1st! This fun run is a beloved tradition that raises funds to support school events and upgrades. Help us make this year the best one yet for our students.
