**Tuition due: No later than
Sept 5, 2025**

This month in preschool:

Our Monthly theme this is:

Trees

Our tree study is a hands-on, multi-sensory journey designed to help your children connect with nature and understand the vital role trees play in our world.

We will discover:

Science in the wild: Learn about tree anatomy, photosynthesis, and how to identify different types by their leaves, bark, and seeds.

Art and observation: Express creativity by making bark rubbings, creating leaf prints, and sketching trees in a nature journal.

Seasonal wonders: Observe how trees change through the seasons, from the sprouting of seeds to the turning of autumn leaves.

This curriculum promotes critical thinking, fosters an appreciation for the environment, and creates meaningful learning experiences for all our students.

Our beloved Admin Assistant,

Dora Hampton

is retiring. Her last day is Sept 19th, please give her your well-wishes before then. Her time with the district has made such an impact to many families and students over her 20 years. Please wish her well on her next endeavors!
