Shawnee Mission School District
RFI 25-012 – Student Information System
November 6, 2025

Addendum No. 2

The following response addresses question(s) submitted by vendor(s) on November 5, 2025; responses to the questions are indicated in **bold**. If you feel that a question has not been addressed, please contact Reed Beebe at purchasing@smsd.org as soon as possible.

1. The RFI asks vendor to discuss their ability to "provide customized utilities to clients." To ensure an accurate response, could the District clarify the intended scope of this question? Specifically, do "customized utilities" refer to (a) custom-developed data import/export tools or integration utilities, (b) customized reporting utilities, or (c) broader SIS configuration capabilities?

   As noted in Addendum 1, the District has a need for pre-built utilities AND the ability to customize utilities and/or create its own utilities, as needed. The District is therefore interested in learning about all the features identified in your question, if applicable.
