

## FPCS

Family Partnership Correspondence School's mission is to work together with families in a partnership of teachers, staff, and community members to provide an individualized learning environment that fosters high achievement in core and elective areas, preparing students for life-long success. This school is a nonsectarian partnership between students, parents, educators, and community members, where families can customize an education for their children. It is an association of family-based learners who use a school without walls, wherein parents bear the primary responsibility for management of their children's education. This school educates grade levels K-12 with **984** students enrolled for the **2023 – 2024** school year.

## Faculty

Members of the faculty at Family Partnership Correspondence School come from universities throughout the United States. 12 faculty members hold Bachelor's Degrees and 10 faculty members hold Master's Degrees.

Anchorage School District

## Community

Spanning almost 2,000 square miles, the Anchorage School District serves the educational needs of a student populace surrounding the city of Anchorage. The Anchorage School District educates almost 43,000 students and has more than 130 schools and programs. Located in the largest city in Alaska, the district enjoys a diversified economic base. The student body is culturally diverse as well with minority students comprising of 50 percent of the student population. This diverse student population provides students the ability to interact with peers from many different backgrounds, expanding their knowledge of other cultures and preparing for life in a global society. Anchorage has one of the most diverse high schools in the U.S. with up to 100 different languages spoken, as per the English Language Learners Program.

## Ethnic Distribution

Family Partnership Correspondence School serves a racially and ethnically diverse student population.
