

Reflecting on AI & Technology in Our Schools

Please take a few minutes to share your thoughts on the following:

1. **Current Needs**

What are the biggest challenges, needs, or gaps you see in your district when it comes to AI and technology use—for students, teachers, or administrators?

2. **Concerns and Opportunities**

What concerns or considerations do you have about the *effective* use of technology and AI in your schools (e.g., equity, ethics, implementation, or training)?

3. **Looking Ahead**

Based on the direction of current technologies, what do you imagine teaching and learning will look like in five years?
