

Calallen ISD 2025-2026
Syllabus - Template

Campus: Calallen High School

Course and/or Grade Level: AP Environmental

Course Description: AP Environmental Science course reflects learning that analyzes environmental concepts and processes to achieve understanding in order to propose and justify solutions to environmental problems. The course teaches students how to apply science to the solutions of important social problems. It also provides opportunities to practice applying scientific method practical real-life problems. The course provides students with the scientific principles, concepts, and methodologies required to understand the interrelationships of the natural world. The course helps students identify and analyze natural and human-induced environmental problems.
