February 29, 2024

Dear Roger D. Gehring Academy of Science and Technology Community,

It is an extreme honor to introduce myself as the new principal of Roger D. Gehring Academy of Science and Technology and to join this extraordinary school community. I can assure you that I share in this school community's commitment to caring for your children each and every day while providing them with a world-class learning environment where all students achieve.

I have over 15 years of experience teaching at elementary schools in England, Florida, and the Clark County School District, and six-and-a-half years of administration experience. Most recently, I was the dean and then assistant principal at Las Vegas Academy of the Arts. I am married to Simon and am a "mom" to two dachshunds, Oscar and Charlie.

Since graduating from college in 1998 with a Bachelor of Arts in Teaching Studies, I have obtained three Master's degrees in Educational Leadership, Curriculum and Instruction, and Music Education. The elementary principalship provides me the chance to work collaboratively with teachers daily while also remaining connected to young students learning and growing in the classroom. I firmly believe that every child can excel and that the partnership between home and school builds confidence in students to use their powers to shape their future and the future of our community.

With my goal of continuing the tradition of excellence here at Gehring Academy, I am committed to continually exploring new ways to meet all students' needs and communicate with parents and community members effectively. More information will be forthcoming about opportunities for us to connect and collaborate together.

To our students, I cannot wait to meet you all! I hope you are excited to be at Gehring Academy and look forward to sharing in your success.

In closing, please know that my door is always open to you. I heartily welcome your conversation and positive input throughout this year. Let us always keep our students the primary focus of our work.

I look forward to celebrating our collective successes for the remainder of the 2023-24 school year and beyond.

S. M. Robinson -

Sarah Robinson
Principal
Roger D. Gehring Academy of Science and Technology
